Notices

No. 11965
TREASURY DEPARTMENT
OFFICE OF COMPTROLLER OF THE CURRENCY,
Washington, D. C., April 27, 1921.

WHEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that "COMMERCIAL EXCHANGE NATIONAL BANK OF NEW YORK" in the CITY OF NEW YORK, in the COUNTY OF NEW YORK AND STATE OF NEW YORK has complied with all the provisions of the Statutes of the United States, required to be complied with before an association shall be authorized to commence the business of Banking

NOW, THEREFORE, I, D. R. CRISSINGER, Comptroller of the Currency, do hereby certify that "COMMERCIAL EXCHANGE NATIONAL BANK OF NEW YORK" in the CITY OF NEW YORK, in the COUNTY OF NEW YORK AND STATE OF NEW YORK, is authorized to commence the business of Banking as provided in Section Fifty-one hundred and sixty-nine of the Revised Statutes of the United States.

CONVERSION of The Commercial Exchange Bank, New York, N. Y., with three branches located within the limits of the City of New York, N. Y.

IN TESTIMONY WHEREOF, witness my hand and Seal of office this TWENTY-SEVENTH day of APRIL, 1921.

[SEAL] (Signed) D. R. CRISSINGER,
Comptroller of the Currency.

NOTICE IS HEREBY GIVEN that on July 1, 1921, at the principal office of the Equitable Trust Company of New York, No. 37 Wall Street, Borough of Manhattan, City and State of New York, the undersigned Troy Laundry Machinery Company, Limited, will redeem, at 102½ per cent. of the face value thereof, all its Serial Seven Per Cent. Sinking Fund Gold Notes, dated January 1, 1919, outstanding on the said redemption date; and the said notes are hereby required to be then and there presented for payment, with all coupons for interest maturing subsequently to the said redemption date. The said Notes will bear no further interest after the said date.

At any time prior to June 25, 1921, any holder of any of the Notes hereby called for redemption may, without prior written notice, surrender the same at the said office of The Equitable Trust Company of New York, with all unmatured interest coupons attached, for conversion into an equivalent aggregate par value of 8% cumulative preferred capital stock of the undersigned, full paid and non-assessable, subject to adjustment of interest and dividends to the date of such surrender, in the manner provided in the Trust Agreement under which the said Notes are issued.

New York, May 31, 1921.

Financial

A Commercial Bank

Ever since The Merchants Loan and Trust Company Bank of Chicago was founded, more than sixty years ago, the big end of its business has been commercial banking.

From time to time, new departments have been added, extending and widening the Bank's service, but it has always remained first of all a commercial bank, and commercial banking its principal activity.

To-day this Bank is recognized as one of the leading trust companies of the United States in volume of commercial business and holdings of bank deposits.

First Hand Foreign Trade Advice

IF one of your customers should drop in some morning, and ask you, "Can I sell steel plows in Rumania, and if so, how would I go about it?" what would you say?

It is the answering of just such questions as this that makes the service of our foreign department valuable to our correspondent banks.

We have direct connections with the leading banks of all European countries, as well as banks of the Orient and other parts of the world. This enables us to give accurate, first-hand credit or trade information upon all matters pertaining to foreign business.

Denominations $100 and $500.

UNION STATE SAVINGS BANK & TRUST COMPANY—TRUSTEE
Kewanee, Illinois

Interest payable at Kewanee, Illinois.
Company agrees by letter to pay both principal and interest in Chicago and to pay the interest without deduction for the Normal Federal Income Tax of 2%.

The Kewanee Boiler Company, incorporated in 1892, is one of the largest manufacturers of steel heating and power boilers and cast iron radiators in the country. The plant and general offices are situated at Kewanee, Illinois. Sales offices are maintained in Chicago, Minneapolis and other large cities throughout the country. The "Kewanee Boiler," its product, enjoys an enviable reputation for quality and service. Hotels, apartment houses, schools and large residences are among its main users.

The bonds are a direct obligation of the Kewanee Boiler Company and secured by a closed first mortgage upon the company's property. All the buildings are of modern construction, situated on over 27 acres of land in the City of Kewanee. Real estate plant and equipment, less depreciation, is carried on the company's books as $2,300,900. The proceeds of this issue were used to retire a small former mortgage, to increase the size of the plant, and to enable the company to keep pace with the revival of building, which will greatly increase the demand for its product.

Although the name "Kewanee Boiler" has a large trade value, the company carries its patents, trade marks and good will at $1.00.

The average earnings for the past five years have been over four and one-half times the interest requirements of this issue, and for ten years average the earnings have been over three times.

Preferred stock dividends have been paid regularly and the common stock has received 7% annually to Feb. 1, 1918, and 8% since. Extra dividends on the common have also been paid.

The company will at all times maintain total quick assets to at least the amount of the outstanding bonds of this issue.

The stock is largely held by the officers and employees of the company, who have been responsible for its growth and no change in the management is contemplated.

A large part of the above issue having been sold, we offer the remaining bonds at the following prices:

$45,000 due March 1, 1928—89.725	$10,000 due March 1, 1930—87.587
40,000 due March 1, 1929—88.614	50,000 due March 1, 1931—86.637

Accrued interest to be added

At the above prices the bonds yield 8%

Dated June 1st, 1921. Maturing $50,000 December 1, 1921, and $50,000 semi-annually thereafter to June 1, 1928 inclusive.

Unconditionally Guaranteed both as to Principal and Dividends by the
Transcontinental Oil Company

Denominations of $1,000 each. Callable as a whole on any maturity date at 103 and interest on 60 days' previous notice. Dividends payable without deductions for any Federal Income Tax up to 2% per annum which the Company may be obliged to withhold.
Pennsylvania Four Mill Tax refunded.

Issued under the Philadelphia Plan

Columbia Trust Company, New York, Trustee

We summarize below regarding this issue of certificates. A letter signed by Mr. F. B. Parriott, President of the Transcontinental Oil Company, is to be on file at our office.

SECURITY

These certificates are secured by a first lien on 507 all-steel standard tank cars having an average age of about two years and described as follows:

96 insulated cars of 8,000 gallons capacity each.
310 cars of 8,000 gallons capacity each equipped with steam coils.
101 non-insulated cars of 8,000 gallons capacity each without steam coils.

These certificates are originally issued *at not to exceed* $1,381 *per Car*, which is 55% of the present market cost of this equipment. The certificates are reduced by the semi-annual payments under the trust so that at the end of the second year the certificates will be outstanding at less than $1,000 per car. As an additional safeguard the Company will agree to deposit rentals with the Trustee monthly in anticipation of each semi-annual maturity.

Subject to issuance as planned, and to prior sale and approval of counsel, we offer

New Issue

$1,250,000

TROY LAUNDRY MACHINERY COMPANY, LIMITED

Fifteen Year Sinking Fund 8% Gold Bonds

Dated July 1, 1921 — Due July 1, 1936

Interest payable without deduction for Federal Normal Income Tax, so far as may be lawful, but not in excess of 2%.

Authorized $2,000,000 — Outstanding $1,250,000

The following information has been summarized from a letter signed by H. S. Wilcox, Esq., Chairman of the Board of Directors

Business: The Company, incorporated in 1882, is the second largest concern of its kind in the world. It manufactures, sells and installs laundry machinery in hotels, clubs, public institutions, industrial plants, steamships, commercial laundries, etc. Branch houses are maintained in 6 of the largest cities in the country, and sales offices in 5 other important cities. There are representatives in London to cover the United Kingdom and Continental Europe.

Assets: Net Quick Assets will exceed 234%, and Net Tangible Assets will be over 275%, of this issue as shown by the Company's Balance Sheet of November 30, 1920, after giving effect to this financing. All inventories are carried at current market values, or cost, whichever is lower.

Sales: The sales in 1920 were the largest in the history of the Company, and the sales for five months ended April 30, 1921, showed an increase of 10% over the corresponding period of the preceding year. Unfilled orders in process of manufacture on hand, amount to $828,177.

Earnings: Net Earnings for last fiscal year and average annual earnings for last three fiscal years were almost 5 times annual interest requirements.

Sinking Fund: An annual sinking fund of 3% the first 10 years and 5% thereafter, and 25% of the annual net income as defined in the trust agreement, will be applied to the purchase or redemption by lot of Bonds at not more than 110 and interest.

Management: The present successful management have been associated with the Company for many years, are large holders of the Common Stock and will continue in active charge of the Company's operations.

Dividends: Since 1884 dividends of not less than 6% have been paid annually on the Common Stock of the Company.

All legal matters pertaining to this issue will be passed upon by Messrs. Graham, McMahon, Buell & Knox, New York, for the Bankers, and Messrs. Shearman & Sterling, New York, for the Company. The accounts of the Company since 1916 have been audited by Messrs. Marwick, Mitchell and Company, Certified Accountants. Physical appraisals by Messrs. Ford, Bacon & Davis.

We offer these Bonds for delivery when, as and if issued and received by us, subject to the approval of counsel

Price 97½ and Interest, Yielding over 8¼%

Trust Company Interim Receipts will be ready for delivery on or about June 27, 1921, with interest at 8% per annum discounted from date of delivery to July 1, 1921, exchangeable for definitive Bonds as soon as prepared.

The Hanna Furnace Company

First Mortgage 8% Sinking Fund Gold Bonds

Dated June 1, 1921 Due June 1, 1926

Total authorized and to be presently issued, $4,000,000. Coupon Bonds of $1,000 with provision for registration of principal. Interest payable June 1 and December 1. Principal and interest payable at the office of Dillon, Read & Co. in New York and at the office of The Union Trust Company in Cleveland. Callable as a whole on any interest date on 30 days' notice; at 103 and interest to and including June 1, 1923; at 102 and interest to and including June 1, 1924, and at 101 and interest thereafter.

The Pennsylvania four-mill tax refunded

THE UNION TRUST COMPANY, CLEVELAND, TRUSTEE

Principal and Interest Guaranteed by Endorsement by M. A. Hanna & Co., Cleveland, Ohio

The following information is summarized by Mr. H. M. Hanna, Jr., President of the Company, from a letter to us:

BUSINESS

The Hanna Furnace Company is the largest independent producer of merchant pig iron in the United States. It operates eight well equipped blast furnaces with a yearly capacity of about 1,000,000 tons. The company is in a strong position as regards its raw material. It owns or controls over 50% of its iron ore and over 75% of its coke requirements, and through its agreements and affiliations with M. A. Hanna & Company is amply protected for the remainder.

SECURITY

These bonds will be secured by direct first mortgage lien on the entire fixed assets and leaseholds of the company now owned or hereafter acquired, subject only to $440,000 serial 5% and 6% bonds on part of the properties mortgaged. They will be further secured by pledge of the company's interests in The Hanna Ore Mining Company and in various ore, coal mining, coke producing, lake vessel, and other companies.

The company's audited balance sheet, as of December 31, 1920, after giving effect to the present financing, shows net tangible assets of $14,593,006, after depreciation and reserves and deduction of all liabilities except these bonds.

GUARANTY

Payment of principal, interest and sinking fund is guaranteed by endorsement on each bond by M. A. Hanna & Company, a co-partnership, of Cleveland, Ohio.

M. A. Hanna & Company was organized in 1885 by the late Senator M. A. Hanna, and acts as sales and operating agents for ore mining, blast furnace, coal mining, and lake vessel companies. It is the largest independent handler of Lake Superior iron ores, and ships in all a combined tonnage of from 15,000,000 to 20,000,000 tons per annum of ore, pig iron and coal.

The financial and business standing of this firm is well known throughout the iron ore, coal, and allied industries.

Through its partners, M. A. Hanna & Company controls a substantial majority of the common stock of The Hanna Furnace Company.

EARNINGS

Net income after depreciation, available for interest and Federal taxes, of the properties now operated by The Hanna Furnace Company, has averaged $2,505,011 per annum for the past four years, or over 7¼ times the total annual bond interest of $344,400 accruing with these bonds outstanding.

SINKING FUND

The mortgage will provide for a sinking fund of $300,000 annually, accruing from June 1, 1921, payable quarterly, for the purchase of bonds in the market if obtainable up to par and interest, but if bonds are not so obtainable any accumulations in excess of $300,000 shall revert to the company. Bonds purchased by the sinking fund shall be cancelled.

We offer the above bonds for delivery when, as and if issued and received by us, subject to the approval of legal proceedings by counsel.

CAPITALIZATION

(Upon completion of present financing)

	Authorized	Outstanding
Capital Stock		
*Preferred 6% Cumulative	$10,000,000	(*)
Common	20,000,000	$10,000,000
Bonded Debt (in hands of the public)		
General and Refunding Bonds:		
Series "A" 7s, due 1926		2,500,000
Series "B" (this issue)		3,500,000
Underlying Bonds (closed mortgages)		8,565,500
Total		$14,565,500

*The Company has received authority from the Railroad Commission of the State of California to issue and sell $3,000,000 of its 6% Cumulative Preferred Stock. The Company is now offering this stock for sale, and to date over $1,060,000 (par value) has been sold.

The following summary is taken from a letter from WM. BAURHYTE, Vice-President and General Manager of the Company:

Proceeds of this issue are to provide for betterments and additions to the plant which will materially increase the company's earning power.

This issue is secured under the general mortgage by property which, including the additions provided for by this financing, is conservatively valued at over $32,000,000, or more than 2.19 times the company's total funded debt, including this issue.

Net earnings, available for interest charges, for the year ending March 31, 1921, were more than 4.32 times interest charges on outstanding bonded indebtedness. Adding interest charges on Series "A" and Series "B" (this issue) bonds, net earnings for the same period, as well as average net earnings for the past five years, show interest earned over 2¼ times.

The mortgage provides for a sinking fund through the annual payment of an amount equivalent to 1¾% of the largest amount of all bonds at any time outstanding.

The company, operating in the larger part of its territory under rights which in the opinion of counsel are adequate and without limitation, and elsewhere under long-term county and municipal grants, serves through a complete modern distributing system a territory, including the city of Los Angeles, with a population of 838,000; controlling about 75% of the gas business of Los Angeles, and 100% of that of nine adjacent cities or towns.

The company's consumers have increased from 11,531 on December 31, 1900, to 223,359 on March 31, 1921, while during the same period gross earnings have increased from $532,734 to $8,361,779.

The properties of the company have been under the same management for 31 years and a record of dividends for 27 consecutive years has been maintained.

The new mortgage, all proceedings incident to its adoption and the issuance of bonds thereunder are subject to the approval of Messrs. Heller, Ehrman, White & McAuliffe, San Francisco.

Bonds are offered if, as and when issued and received by us, subject to authorization of issue by the Railroad Commission of the State of California. It is anticipated that permanent bonds will be ready for delivery on or about July 1, 1921.

Application will be made to list this issue on the San Francisco Stock and Bond Exchange.

We recommend these bonds for investment

INVESTMENT FEATURES

1. These bonds will be a first closed mortgage on 375-575 acres of well watered grazing land, which controls for grazing purposes approximately 2,000,000 acres; 4,286 acres of agricultural lands; various mercantile properties, and 528 acres of land in California. A conservative value of all these properties, mostly located in the State of Arizona, is $3,014,920.80.

2. As additional security, the Capital Stock of the Babbitt Bros. Trading Company, a wholesale and retail merchandising company with a net worth of $4,254,635.94, will be deposited with the Trustee. This company operates in the eight principal cities and towns of Arizona and does an annual business in excess of $5,000,000.

3. Bonds will be guaranteed unconditionally, jointly and severally, by Messrs. David, C. J. and William Babbitt, whose net worth, in addition to the interests included in this financing, is in excess of $1,500,000. The total net assets, directly and indirectly securing this issue, exceed $7,250,000.00.

4. The integrity of the Babbitt Bros. and their companies, after operating in this territory for thirty-five years, is of the highest. Competitors, associates and financial institutions alike give unusually fine recommendations.

5. Leases of all properties are guaranteed a total annual rental of $150,000, or more than sufficient to meet principal and interest payments. The net annual earnings for a five-year period of Babbitt Bros. Trading Company and the livestock outfits covered in this financing total $378,500.

All matters pertaining to the incorporation of the company and the legal issuance of these bonds will be subject to the approval of Messrs. Gibson, Dunn & Crutcher.

STATE AND CITY SECTION.

A new number of our "State and City Section," revised to date, appears to-day, and all readers of the paper who are subscribers should receive a copy of it. As previously announced, this Supplement is now printed in two parts, Part One containing the New England, Central and Middle States, being issued to-day, while Part Two, embracing the rest of the country, will be published next December.

THE FINANCIAL SITUATION.

Taking all visible conditions and tendencies together, are we facing extrication from present troubles or a deeper entanglement in them? Governor Harding of the Federal Reserve Board answers this optimistically. Speaking to a gathering of bankers in Houston, Texas, he sees in developing world trade the speediest and surest way to regain the normal state, and in this view he lays stress on the present status of the American dollar as the most stable in the world and the one in which all people put the most faith, the reasons being that this country is the only free gold market and has the largest gold reserve.

In this year he sees a vast improvement over 1920, which was a most dangerous one, the people not having recovered from the sort of "shell shock" which included the silk-shirt stage and in which money was spent and prices were paid, not always exclusively for necessaries, as if a delirium of recklessness had possessed everybody; but now, Gov. Harding thinks, we can face the future calmly and discuss it reasonably. So he counsels optimism in a sane and conservative way which shall recognize the necessity for work and production. This country has always solved its problems, and he believes those of to-day will yield to coolness, reason, bravery and patience.

For country banks he has a wise counsel. Let them not press their debtors too hard, particularly the farmers and stock-raisers; they should "sit tight on what they have, using great care and judgment in their dealings so as to be constructive and not destructive forces, for character is the first thing to consider in making loans, and the deserving creditor should be protected, no matter what the present conditions are." This recalls one of the wise things which the late John P. Morgan told the Pujo committee, nine years ago, in substance that he placed personal character far above assets in possession when considering the matter of credits, a sound basis of judgment which might be paraphrased in about a dozen words thus: "The important thing is what a man *is*, not what a man *has*." In this time of upheaval, in which it has come to be almost a mania to denounce men, as if to undermine reputations were the best regimen for restoring the confidence that is one essential to prosperity, it is well to remember that character is the best asset and is an asset which will stand.

Gov. Harding said he found conditions and problems in Texas in financial matters very much as elsewhere in the country, requiring patience but not insurmountably bad. If the country banker finds his customers hard pressed, he said, he should ask them to make a clean breast of their affairs and show their exact position, and then the banker could take the case on to his city correspondent or, if necessary, to the Federal Reserve Bank.

Inasmuch as excitement, suspicion, fear, and pessimism are especially inimical now, this counsel seems timely and sound. We are told from Washington that the Secretary of the National Board of Farm Organizations announces that "the farmers of the United States" are considering proposals for establishing a chain of banks from coast to coast and will soon have a meeting to talk this over. The farmers lost seven billions last year, says this announcement, through inability to obtain credits, and since they furnish one-half the deposits in the country there is no reason why they could not supply the capital needed "to set up a chain of co-operative banks which would make credit easy for carrying on agricultural work." Of $2 spent by the farmer and the laborer, this statement avers, "other businesses get $1.28 for moving around the commodities bought, a distribution cost which might be reduced to 40c." Possibly so, and possibly not; this is a part of a quite general declaration of hardships, but hardships are not the burden of the farmer alone, and there is no good reason to believe that a chain of banks would smooth his road, if such could be established in the easy fashion here proclaimed.

From the railway brotherhoods there came a scheme, some months ago, and from the A. F. L. now comes talk about setting up banks "for ourselves." Nobody will pronounce such attempts impossible, but why make them, or why darken counsel and strengthen animosities by even talking about them? There is no "class" in banking, and there is neither need nor place for any "class" banks. If any section or interest sets up a bank it will meet the same financial laws which govern present banks. No sentiment and no jealousies will or can serve it long as an aid to success; it must stand on its own feet and render its own service. He who wants to open an account now will find no different test applied to him because of his financial importance or his occupation from that which the capitalist meets; he who seeks credit will find existing banks judging him fairly, and the farmer, standing at the head of the line and indispensable to everybody, is the last man against whom any unfairness will be shown. The country bank cannot even live unless its neighborhood section thrives; the city bank, however its resources mount into huge figures, has a broader basis, yet is bound up with the country's prosperity; the railroad, still not wholly cleared from the ancient "octopus" suspicion, will starve unless fed by the sections and the industries it serves. The notion that "class" can possibly be more than artificial and injurious division and that any one set of persons can thrive unless all thrive, or, still worse, can thrive at the expense of others, is one of our pests, a sort of industrial and social weed that needs complete eradicating.

Building operations in the United States in May 1921, as indicated by the returns received from cities located in all sections of the country, hold out a promise of real relief before the end of the year from the housing shortage, of which there has been so much complaint in recent times. The aggregate of contemplated outlay, in fact, shows only a very slight decline from the very satisfactory total for April, and this in turn had been exceeded in only four monthly periods in the record—twice each in 1920 and 1919. Furthermore, the current exhibit

is better, both as regards number of permits issued and amount scheduled to be expended, than that for the corresponding time a year ago, and this notwithstanding the check to operations by strikes at Chicago, Cleveland and several other important sections of the country. Then, too, it is to be noted that within the year there have been recessions in the cost of some lines of building materials, if not in labor, this serving to indicate—due allowance therefor having been made—that the quantitative increase in construction in 1921 over 1920 has been greater than the outlay figures denote. As regards the local renting situation, there have been reports of late of an increase in the volume of available dwelling accommodations and a consequent lowering of rents in various sections of the city. On the other hand, and notwithstanding the changed business conditions which have made high rents more onerous to many, still higher rentals are being demanded in districts where it had been thought they had already been boosted to the limit allowed under recent legislation.

There is a general disposition, and apparently with sound reason, to ascribe to labor's exactions the failure of realization of an even more active building program in the Metropolitan district. The Dow Service Building Reports, in drawing attention to this phase of the local situation, remarks that with building materials showing a drop of approximately 25% from the high point of 1920, building investors are beginning to insist that at least a comparative cut be made in wages before they go ahead with construction work they have in contemplation. It is by comparison with the pre-war period, however, that labor cost is shown to be the great factor in the current high cost of construction. Taking a typical New York loft building as an example, it is pointed out that while the outlay for material in 1921 was 24.9% greater than it would have been in 1913, the advance in labor cost in the same interval has been no less than 129%.

Our compilation of building statistics for May 1921 embraces 178 cities, and covers an aggregate of contemplated expenditures of $148,279,471, against $141,266,427 last year, only 110 million dollars in 1919, and but little over 50 millions in 1918. Greater New York's approximate outlay for all five boroughs, with decided increases in each, and particularly so in Manhattan, reaches $46,281,916, or 22 millions more than in 1920, over 26 millions in excess of 1919, and six times the amount of either 1918 or 1917. For the cities outside of New York the May total is moderately under that of a year ago, an outcome explainable in large part, if not wholly, by the lower cost of materials. It is $101,997,555, against $116,871,583 in 1920 and runs some 13 millions in excess of two years ago. Gains and losses are about equally divided in number among the individual cities, with some of the former notably heavy. Included in this category are Boston, Newark, Washington, Cincinnati, Milwaukee, Minneapolis, Los Angeles, Oakland, Portland (Ore.), Long Beach, Sacramento, Birmingham, Dallas, Oklahoma, Tulsa and Miami. But there are also many noteworthy losses reflecting labor troubles in a few instances and greatly decreased activity in commercial and industrial lines in most of the others. Contraction in the aggregate is most apparent at Chicago, Cleveland, Baltimore, Buffalo, Rochester, Hoboken, Hartford, New Bedford, Akron, Toledo, Flint, St. Louis, Omaha, Fort Worth, New Orleans and San Francisco.

The exhibit for the five months is, of course, a rather poor one, as compared with the high record established in 1920, but contrasts very favorably with earlier years, so far as projected outlay is concerned. At 26 New England cities there is a contraction of 21 million dollars from 1920, but a gain over 1919 of about 9 millions; at 42 Middle States points (excluding Greater New York) a loss of 41½ millions and an augmentation of 30 millions; in the Middle West (34 cities), a decrease of 46 millions and an increase of 50 millions, and at the South (35 cities) a diminution of 11 millions and an expansion of some 33 millions. On the Pacific Slope, 15 cities furnish a total greater by nearly 5¾ millions, than a year ago, and over 40 millions in excess of 1919, and the remainder of the West (25 cities) shows in the one case a drop of 21½ millions, and in the other a rise of about 14 millions. The combined returns for the 177 cities outside of Greater New York give a total of $447,197,639, against $582,884,294 last year, and 275 millions in 1919, and adding thereto the aggregate for this city of $140,177,863 and $150,167,654 and $61,219,744 respectively, we have for the whole country a sum of projected expenditures for the five months of 1921 of $587,375,502, against $733,051,948 in 1920, and approximately 336 millions in 1919. Although the total for the whole country for the five months of 1921 is well below that for the like period of 1920, several cities report large gains. They are Chicago, Cincinnati, Indianapolis, Baltimore, Milwaukee, Los Angeles, Terre Haute, New Haven, Birmingham, Jacksonville, Miami, Oakland, San Diego, Portland, Ore., and Long Beach.

A week ago this morning the Paris correspondent of the New York "Times" cabled that "there seems to be an excellent chance that the Allied Governments will prevent the impending Greco-Turkish war." He announced that Lord Curzon, the British Foreign Secretary, had arrived in Paris "for a forty-eight hours' conference with Premier Briand, which will be attended by the Italian Ambassador." He added that, according to a report in circulation in French official circles, "they will come to no definite decision, but if it appears that their differences can be accommodated there will be held soon a conference of the Allied Premiers." Discussing the Greco-Turkish situation further, the correspondent said: "As a matter of fact, no one seems to want an Anatolian war except King Constantine. Kemal Pasha wants it so little he is sending Bekir Samy Bey to the Allied capitals to try to make a settlement. France does not want it. Italy does not want it, and England is for it only if her interests in Constantinople and Mesopotamia are threatened. Inasmuch as England knows she cannot enlist France in a war to help the Kaiser's brother-in-law, it may be that she prefers to bargain with Kemal, even at a price, to taking a chance on the Greeks being able to clean him up, which they lamentably failed to do in their last endeavor."

The Associated Press representative in Paris outlined the French attitude in part when he said that "Premier Briand, refusing to reveal to the Chamber of Deputies to-day the details of his negotiations for peace in the Near East, assured the Deputies that the Government had no intention of involving

the country in a war adventure, and that it was seeking pacification of the Near East without sacrificing France's traditional interests." The Premier was quoted as having said also that "I am convinced that we will succeed with a little patience and much prudence." Upon the request of the Prime Minister, the French Chamber of Deputies voted, 427 to 116, to postpone interpellation on the Government's policy relative to the Near East.

The Paris correspondent of the New York "Tribune" discussed the possible results of the meeting between Premier Briand and Earl Curzon in part as follows: "To-morrow's [last Saturday] conference between Premier Briand and the Marquis of Curzon, England's Foreign Minister, is expected to lay the foundation of a world movement. The opinion prevails to-night that it may form the nucleus of far-reaching pourparlers that eventually will alter the whole political complexion of Europe and bring the United States into her long-delayed role as an aid in the preservation of world peace." He also said that "the foundation of the movement lies in a change that is developing in the French attitude toward Germany. Premier Briand is now behind the project that will mean a new association of nations, including Germany, that has for its sole object the maintenance of world amity. This is to be begun by the establishment first of peace in Europe."

A special correspondent in Paris of the New York "Times" did not take so hopeful a view. He said that "the meeting of Premier Briand and Foreign Secretary Curzon causes some concern among the elements who had been hoping that economic principles would be extended to the Upper Silesian differences and that these would be settled strictly on their merits. American observers, especially, would regret Silesia and the Near East being put on the diplomatic counter for bargaining between England and France on the basis of their respective national interests."

Here is another phase of the situation, as reported by the Associated Press correspondent in Smyrna: "American citizens are being impressed into the Greek army by agents of the Athens Government, and George Horton, United States Consul-General here, has made a vigorous protest to Governor-General Steniades against the continuance of the practice. For many months past, Americans, even men who served in the army in France, have been taken forcibly from their homes, or from vessels arriving from the United States, and compelled to join the Greek forces. There have been scores of such cases in Athens, Smyrna, Patras and Saloniki, and only those able to escape and get into communication with American Consular officials have obtained redress. In many instances they have been stripped of their clothing and their passports and other papers have been confiscated. When they have protested, it is charged, they have been handcuffed, thrown into jails and mistreated. Consul-General Horton declares this action by the Greek authorities is in flagrant violation of existing agreements between the United States and Greece, granting military exemption to persons naturalized as American citizens prior to Feb. 1, 1914, and those who, although naturalized since that time, have served with the American army or navy."

It would seem that the informal conference of Premiers in Paris bore fruit promptly, so far as the Greco-Turkish situation was concerned. The Paris correspondent of the New York "Times" cabled Monday morning that "the British, French and Italian Governments sent to the Greek Government this [Sunday] afternoon a note suggesting that Greece consent to the Allies arranging peace with the Turkish Nationalists. The note contained no mention of the conditions which the Allies would offer Mustapha Kemal, but the Greeks have been given to understand that they would be practically the same as those offered to the Greeks and Turks at the London Conference." He added that "these conditions call for the evacuation of the vilayet of Smyrna by the Greeks, as well as other important changes in the Sevres Treaty for the benefit of the Turks. Also there is a gentleman's agreement that Greece would find herself in a better financial and economic situation by adopting the Allied suggestion." The Paris correspondent of the New York "Herald" commented on this latest development as follows: "Peace in the Near East to-night is hanging by a very slender thread. The outcome depends on the acceptance by Greece of the Allies' suggestion that French and British diplomats negotiate with the Turkish Nationalists in order to seek a settlement of the Greco-Turkish differences. Nonin Longari, Italian Ambassador, to-night informed Premier Briand and Lord Curzon, British Secretary of State for Foreign Affairs, that Rome was ready to give its approval to the forwarding of such a note, and a message was immediately sent to Athens proposing the immediate cessation of hostilities and asking King Constantine of Greece to accept in advance an Anglo-French settlement regardless of its details."

On Tuesday morning the representative of the "Times" at the French capital outlined the situation as follows: "Lord Curzon, the British Foreign Secretary, returned to London to-day from his two days' conference with Premier Briand, leaving the Turkish muddle far from clarified. King Constantine has been asked by the Allies to place Greece's case in their hands. If he does so the Allies will try to get the Turks to accept some peace settlement. If Constantine refuses, he will have to run his own private war against Mustapha Kemal. If he accepts, and then the Turks will not agree to what the Allies think fair, then the Allies reserve their respective liberties of action, which means, perhaps, that England will help him." The Athens correspondent of the London "Daily Mail" wired on Tuesday that he had been "authoritatively informed regarding the Allied note that Greece considers that military operations constitute the only drastic and swift means of bringing peace in the Near East. The Greek Government, therefore, is determined not to accept any proposals delaying imminent military action."

The conference of overseas Premiers was begun at the official residence of Premier Lloyd George in Downing Street, London, last Monday morning. He presided. In his opening address he alluded to the Anglo-Japanese agreement as "one of the most urgent and important questions before the Empire." He added that "there is no quarter of the world where we desire more greatly to maintain peace and fair play for all nations and avoid competition in armaments than in the Pacific and the Far East." The following were present at that session: "Lloyd George, Austen Chamberlain, Government leader in the House of Commons; Winston Spencer Church-

ill, Secretary of the Colonies; A. J. Balfour, Lord President of the Council; Premiers Hughes of Australia, Meighen of Canada, Massey of New Zealand and Smuts of South Africa, and the representatives of India, Edwin Samuel Montagu, Secretary for India; Srinivasa Sastri Avargal, and the Maharaja of Kutch."

The London correspondent of the New York "Herald," in his account of the first session, said that "Premier Lloyd George, in a carefully reasoned, well-balanced declaration, told the heads of the Governments of the overseas dominions: 1. That the war demonstrated the solidarity of the British Empire. 2. That this solidarity, which includes India, implies the East and the West at last have met. 3. That the future of the Empire, like the future of the world, depends on a good understanding with the United States and the perpetuation of that union between the East and the West across the Pacific. 4. That 'friendly co-operation with the United States is for us a cardinal principle, dedicated by what seems to us the proper nature of things, by instinct quite as much as by reason and common sense,' and 'we are ready to discuss with American statesmen any proposal for the limitation of armaments which they wish to set forth, and we can undertake that no such overtures will find lack of willingness on our part to meet them.'"

The representative of the New York "Times" gave a striking account of the second session of the Imperial Conference. He declared that the "outstanding feature was an address by General Jan Christian Smuts, Premier of the Union of South Africa, who rose to the full height of his reputation as a statesman of broad vision and high ideals." The correspondent added that "General Smuts's address made a most profound impression. His picture of the new world that had followed after the war and of the displacement that had occurred in the relative positions of old Europe and the rest of the world was drawn with bold strokes, which in the main carried conviction." Continuing he said: "General Smuts developed the argument that what the world to-day most needed was peace. The British Empire had no military aims to serve and no militaristic ideals, and it should be the main, in fact, the only, object of British policy to secure real peace for the Empire and the world generally." The "Times" representative then quoted the General as follows: "The other great advance that has been made—and it is an enormous advance—is the final disarmament of Germany. That the greatest military empire that ever existed in history should be reduced to a peace establishment of 100,000 men is something which I considered practically impossible. It is a great achievement, so far-reaching indeed that it ought to become the basis of a new departure in world policy." Going a step farther, General Smuts asserted: "We cannot stop with Germany. We cannot stop with the disarmament of Germany. It is impossible for us to continue to envisage the future of the world from the point of view of war. I believe it is impossible for us to contemplate the piling up of armaments in the future of the world and the exhaustion of our very limited remaining resources in order to carry out a policy of that kind."

The Paris "Times," commenting on the Imperial Conference and expressing the French view and attitude, said: "We are merely spectators in this affair, and it is not for us to suggest to our British friends the manner in which they should direct their Empire. Let us simply say, however, that France, whose flag floats in Indo-China, New Caledonia and Tahiti, would willingly join in a conference on Pacific affairs. To negotiate a general agreement between all the countries having interests on the shores of the great ocean and substitute such a general agreement for a single alliance between two countries would be raising against the dangers of war a much stronger wall than heretofore." No formal session of the Conference was held on Thursday, adjournment having been taken on Wednesday until Friday.

Word came from Geneva Monday morning, through an Associated Press dispatch, that "Elihu Root, Judge George Gray of Delaware, John Bassett Moore and Oscar S. Straus have been invited by the Council of the League of Nations, in their capacity as members of The Hague Arbitration Tribunal, to propose the names of four persons, no more than two of whom shall be Americans, as candidates for election as judges of the International Court of Justice." It was stated also that "the election will take place in September by the Assembly of the League of Nations and the Council of the League. According to the sections of the plans for the court which Mr. Root drew up, the election, to be held concurrently by the Assembly and the Council, will be from a list of candidates proposed by the different representatives of The Hague Court. The candidates, in order to be elected, must be chosen by both the Assembly and the Council." So far as could be learned, Messrs. Straus and Moore had not then received copies of the invitation. The Washington correspondent of the New York "Herald" wired Monday evening that "the Harding Administration is facing the necessity of becoming more definite in its ideas concerning the President's plans for an association of nations, as a result of the invitation extended by the League of Nations' Council to the American members of The Hague tribunal to nominate men for judgeships in the world international court, which it is proposed to establish by authority of the League." He added that "this was the impression that prevailed in Senate circles today when it was learned that Administration officials were leaning favorably to the idea. Irreconcilable Senators were especially aroused because of their belief that the world court squints in the direction of growing approval of the League and of the Versailles pact as the basis of the peace negotiations with Germany."

The news came from Geneva Wednesday morning, through an Associated Press dispatch, that "the Council of the League of Nations is proceeding with arrangements for the installation of the Permanent International Court of Justice, in full confidence that sufficient ratifications will be received to put the plan in effect before the meeting of the Assembly in September." The correspondent made the interesting announcement also that "the invitation of the League for the United States to participate in the 'white slave' conference here in July has gone astray between the League offices in this city and Washington. The League has a Swiss postal receipt for the registered letter containing the invitation, but the letter never reached the American capital."

According to an Associated Press dispatch Thursday morning "the first case in which the competency

of the League of Nations in an international difference has been questioned has arisen in relation to Albania's demand that Greece and Jugoslavia evacuate Albanian territory. The Albanian delegation here has filed a new memorandum with the League in which the Albanians reiterate their grievances against Greece and Jugoslavia and ask for a public hearing on them. Efforts are being made by the Greek and Jugoslav representatives to take the case out of the hands of the League and have it settled by the Council of Ambassadors, on the ground that the Ambassadors already have occupied themselves with these questions and are better able than the Council of the League to deal with them."

Lord Curzon, Secretary of State for Foreign Affairs, in reply to questions in the House of Lords on Thursday, attacked the Covenant of the League of Nations. In part he said: "If instead of drawing up regulations for the better government of the world in the future they had endeavored to secure peace we should have been much further advanced on the path of peace than is the case at present. Many of our difficulties in every sphere of international affairs arise from the wrong turn which was taken when the delegates first assembled in Paris. The more we get America to resume in peace the co-operation which she gave us in time of war the better it will be for the recovery of the peace of the world."

Disarmament by the leading nations of the world has been more actively discussed this week than for some time. The question was taken up in the British House of Commons a week ago yesterday, when the agenda of the Imperial Conference, which opened in London last Monday, were being considered. Major-General Sir J. H. Davidson, one of the first speakers, declared that "competition in armaments had begun and if it were allowed to reach a certain point and pass that point there would be no stopping it and war would be the inevitable result." The London correspondent of the New York "Times" observed that "this sentiment aroused general applause."

On Wednesday morning the Washington correspondent of the New York "Herald" wired that he had learned "authoritatively" that "President Harding believes the speech of Premier Lloyd George in opening the British Imperial Conference in London has materially advanced the prospect of a conference on limitation of naval armaments to be participated in by Great Britain, Japan and the United States." He added that "Lloyd George's references to co-operation between the United States and Great Britain as a 'cardinal principle' of British policy, and his announcement that his Government would welcome a proposal from Washington to discuss limitation of armaments, made a distinctly favorable impression in official circles. It is expected that within a brief time President Harding will formally invite the two Powers to a conference with representatives of the United States at Washington. It is possible that France may be included in the invitation."

On the contrary, the representative of the New York "Tribune" at the national capital asserted that he was in a position to say that the following represents the attitude of President Harding on the question of disarmament: "President Harding will not call a disarmament conference for Great Britain, Japan and the United States in the immediate future. There will be no such call until there has been a thorough understanding and a very definite agreement made in secret between representatives of the three countries. When such a call is made, therefore, it will be known that the terms to be agreed upon are pretty well cut and dried. Obviously, the success of the conference, when and if called, will be assured in advance." The same correspondent, on Thursday morning, added the following to his understanding of the situation: "Two serious complications in the disarmament situation have developed, it became known to-day. One is the extent to which the discussions looking to a renewal of the Anglo-Japanese alliance are intertwined, with the possibility of accomplishing a reduction of military preparations by the United States, Great Britain and Japan. The second is that the element in Congress which is demanding that President Harding immediately call a disarmament conference is not willing to permit the President to work along his own lines. His own plan, which he is now following, is to have the three nations chiefly concerned work out a disarmament agreement in secret in advance of the calling of a publicly announced conference."

At the beginning of the week the Upper Silesian situation looked considerably better. The Berlin correspondent of the New York "Herald" cabled that "after constant negotiations and the pushing forward of detachments of British troops in Upper Silesia the Polish insurgents and the German volunteer forces there are no longer in fighting contact. With this much achieved, competent observers of the Upper Silesian situation feel that the danger, which for a while threatened the peace of Europe, has been averted and the ultimate success of the moves to effect a Silesian settlement has become possible. German reports that the British had been won over by General Lerond, French representative and head of the Interallied Commission, and were blindly following his guidance in Upper Silesian affairs, have been proved incorrect. To the contrary, British persistance is credited with having achieved whatever progress had been made in re-establishing peace in Upper Silesia during the last fortnight."

Cabling from Oppeln, the correspondent there of the same paper made the following assertions: "Negotiations by the Allies with the Polish insurgents and Germans for clearing Upper Silesia are nearing completion. The Germans still hesitate about leaving the Annaberg hill, declaring that the preliminary withdrawals of the Poles involve only valueless territory. The actual German garrison at Annaberg, however, consists of only half a dozen men, and the hill is now without military significance. The general scheme, as practically approved by all parties, involves the progressive withdrawal of the Polish insurgents to five successive parallel lines behind Rosenberg, Gross Strehlitz and back behind Gleiwitz. As this line would still leave the bulk of the industrial triangle in the hands of the insurgents, it is declared by Germans that it is the scheme favored by General Lerond, French representative and head of the Interallied Commission, and Adalbert Korfanty, insurgent leader. A final measure, which would free Upper Silesia entirely of insurgents, is now under discussion here. It is understood the British complain of obstructive practices

and dilatory tactics. A decision which Gens. Lerond and Korfanty would recognize and approve would be one where the Allies would recognize the Polish army as an armed police force replacing the existing volunteer bands. The latter would put their guns away and return to work and Korfanty himself might retire from the limelight awaiting an ultimate decision of the Supreme Council."

Comparatively little progress would seem to have been made in the official settling of the Upper Silesian situation. The Paris correspondent of the New York "Times" cabled Wednesday morning that "the French Government has received from General Lerond, President of the Interallied Silesian Commission, a report stating that General Hoefer, commanding the German irregular troops in Upper Silesia, refuses flatly to evacuate his part of the proposed neutral zone to be drawn between the Poles and Germans. The Poles have, in obedience to orders of the commission, withdrawn to the line laid down." On the other hand, advices yesterday morning indicated that the Polish uprising is gradually wearing itself out. In a dispatch from Berlin to the New York "Herald" the following assertions were made: "Although the negotiations between the Allies and the Germans at Oppeln continue to drag on, the insurrection in Upper Silesia is gradually being put down. All parties now realize that it is necessary for them to reach an understanding so that vigorous police measures may be put in force to restore order. The Polish insurgent army is melting away and the men are returning to peaceful work, but they are taking their arms with them. The roads are still guarded by pickets, but it is likely that the insurgent army will soon cease to exist as an organized fighting force. Its skeleton continues to retire before the Allied troops."

It became definitely known early in the week that King George and Queen Mary had decided to go to Belfast for the opening of the Ulster Parliament on Wednesday, in spite of the reports last week that they might suffer bodily harm from the Sinn Fein. In a dispatch from Belfast Monday morning announcement was made that "every precaution is being taken to safeguard King George and Queen Mary during their presence in Belfast on Wednesday for the formal opening of the Ulster Parliament." The correspondent added that "the decision of the Queen to accompany the King to Belfast has given enormous pleasure and great impetus to the city's interest in the event. Premier Lloyd George has sent a message, regretting his inability to attend." A dispatch from Belfast the following day indicated the extent to which the authorities had gone in their plans to safeguard the royal visitors. It said that "as an additional precaution for the safety of King George and Queen Mary during their visit for the opening of the Ulster Parliament, the sewer system will be thoroughly inspected to-morrow to make sure that no explosives have been hidden there." A rumor was in circulation in London that "the Sinn Fein intends to signalize the King's visit to Belfast by making a proffer of peace to his Majesty."

The royal couple left London for Belfast Tuesday afternoon at 1 o'clock. The Associated Press correspondent said that they "were given a remarkable send-off at the railway station." The journey to Belfast was made safely and the ceremonies passed off without any untoward incident. The cable advices stated that they were cordially, and even enthusiastically, received. Also that "Sinn Fein quarters hung out no flags and sent no official representatives to meet the King." In formally opening the Parliament, the King made a speech, in which he said in part: "I speak from a full heart when I pray that my coming to Ireland to-day may prove to be the first step towards an end of strife among her people, whatever their race or creed. In that hope I appeal to all Irishmen to pause, to stretch out the hand of forbearance and conciliation, to forgive and to forget, and to join in making for the land which they love a new era of peace, contentment, and good-will. It is my earnest desire that in Southern Ireland, too, there may ere long take place a parallel to what is now passing in this hall; that there a similar occasion may present itself and a similar ceremony be performed." The King and Queen left Belfast for London "in safety" at 4 o'clock Wednesday afternoon. Speaking in the House of Commons Thursday afternoon, Premier Lloyd George, who, as head of the Government, greeted the King and Queen at Euston Station on their return to London, said: "Never has the throne rendered a greater or finer service to the Empire than on this occasion and I am sure we all felicitate them on the triumphant success of their visit. The King and Queen are very delighted with the wonderful and enthusiastic reception they received from all classes in the North of Ireland."

The Dublin correspondent of the New York "Herald" cabled yesterday morning that "Sinn Fein's answer to the King's message to the Ulster Parliament, as indicated here, is one of absolute indifference."

The Irish situation does not change greatly from week to week, except chiefly in the character of the outrages perpetrated by the Sinn Fein. From London came a cablegram at the beginning of the week which told of something new in this line. It said that "a new form of Sinn Fein outrage was carried out in the London district late last night. Signal boxes, situated chiefly in suburban sections of the principal railway lines, were attacked at various points. Signalmen were bound, and in one case, gagged, and their cabins set on fire. No serious damage was done, but one signalman was fired at and slightly wounded."

A rather spectacular incident was noted in a Dublin cablegram to the New York "Herald" yesterday morning. It was said that Eamonn de Valera, "President of the Irish Republic," had been arrested by British forces, "by mistake," but that he had been given "unconditional freedom under a special order, which came from a high official source." Still another variety of Sinn Fein outrage was reported in cable advices from Belfast last evening. One of the dispatches stated that "a troop train conveying soldiers from Belfast to Dublin was wrecked to-day at Abervoyle, near Dundalk, by the explosion of a Sinn Fein land mine. Three soldiers and one of the train guards were killed, and about twenty soldiers and a train guard were wounded." Thirty horses were said to have been destroyed.

Little progress was made during the early part of the week in efforts to end the British coal miners'

strike. The vote of the men was strongly against acceptance of the latest offer of the mine owners, as noted in last week's issue of the "Chronicle." After the vote had been made public officially a week ago yesterday, the executive of the Coal Miners' Federation sent a letter to Premier Lloyd George, notifying him of the result. In his reply Lloyd George expressed his regrets that the "Miners' Federation had decided to continue a strike which involved untold loss to the country." He added that "the Government's offer of a £10,000,000 subsidy remained open until to-night [last week Friday], but no longer." The London correspondent of the New York "Times" said that "thereupon the miners' executive threw a bombshell, which consisted in an invitation to the other unions affected by the wage disputes to join them in national strike action, in order to secure their mutual demands." He added that "it is not, however, considered at all likely that the other unions will show any great disposition to join in a general strike."

Tuesday evening a cablegram from London stated that "although some of the collieries have reopened and a considerable number of miners have reported for work, there has been no general drift back to the mines. Generally the industrial situation continues as chaotic as ever, awaiting the test of the miners' call for a general strike of unions threatened with wage reductions." It was also stated that "the principal movements back to the mines took place in the Midlands, including Derbyshire, Nottinghamshire and Staffordshire, where the owners predict a gradual resumption of operations. Apparently the Scotch, Welsh, and North Country miners are standing firm."

According to the London correspondent of the New York "Tribune" Wednesday morning, Frank Hodges, Secretary of the British Coal Miners' Union, the day before made the following significant statement, which was regarded as an admission of defeat: "We may have to bend and bow to the inevitable forces surrounding us. This struggle cannot go on indefinitely. The time must come soon when this sacrifice and suffering must end. The leaders must assume the great responsibility rather than allow the miners to continue until the breaking-point is reached. Human endurance can only go so far." Immediately he displayed his bitterness of spirit, when he was reported to have asserted that "when the tie-up is all over, the miners will never rest content until they have brought down this Government—until they have achieved politically what they have failed to achieve industrially." At a conference of the Labor Party at Brighton, England, on Thursday, "resolutions were unanimously passed, expressing admiration for the spirit in which the coal miners had faced the attacks launched on them by the Government and the owners, and declaring that the struggle had been one in which the interests of labor as a whole had been fought for, and not for the miners' interests alone."

The British Treasury statement of national financing for the week ended June 18 again indicates a slight increase in income over outgo, so that Exchequer balances have been expanded £342,000, and now total £3,987,000, in comparison with £3,645,000 last week. Expenditures for the week were £7,315,000, comparing with £14,909,000 last week, while the total outflow, including repayments of Treasury bills, advances, depreciation and other items, was £80,744,000, against £98,588,000 for the week ending June 11. Receipts from all sources amounted to £82,086,000, against £98,778,000 a week earlier. Of this total, revenues yielded £18,430,000, against £12,191,000, savings certificates £800,000, against £900,000 and foreign credits £1,416,000, against nothing from this source last week. Advances brought in £6,000,000, against £8,500,000 and sundries £105,000, against £100,000 in the preceding week. Treasury bills were sold to the amount of £55,335,000, which compares with £77,087,000 a week ago. Repayments continue to fall below new issues; hence the volume outstanding has been expanded to £1,205,527,000, against £1,150,412,000, reported for the end of the previous week. Temporary advances, however, showed a falling off from £176,895,000 last week, to £158,295,000 this week, while the total floating debt stands at £1,363,822,000, as contrasted with a total of £1,327,306,000 a week earlier. This represents an increase of £88,492,000 since March 31 last.

The Bank of England on Thursday announced a further reduction in its official discount rate to 6%, as against the previous figure of 6½%. On April 28 of this year the rate was lowered from 7% to 6½%, the 7% rate having been in effect since April 15 1920. Official discount rates at other leading European centres were not changed from 5% in Berlin and Belgium; 6% in Paris, Rome and Madrid; 6½% in Sweden, Denmark and Norway and 4½% in Holland and Switzerland. In London the private discount rate has been reduced to 5⅜% for sixty days and 5½% for ninety day bills, as against 5½@5 9-16% last week. Money on call in London, however, remains as heretofore at 4¼%. So far we as have been able to ascertain no reports have been received by cable of open market discount rates at other centres.

A small reduction in gold, namely, £17,981, was shown by the Bank of England statement this week, while total reserve was lowered £5,000. Note circulation was brought down £13,000. Sharp changes, however, were shown in the deposit items. Public deposits increased £1,037,000. In other deposits a decline of £9,138,000 was reported. Loans on Government securities were reduced £9,935,000, but loans on other securities gained £1,847,000. The statement undoubtedly reflects preparations for the coming heavy July 1 interest and dividend disbursements. Owing to the cut in deposits the proportion of reserve to liabilities advanced to 13.91%, as compared with 13.14% a week ago, or the highest since the week of June 1, when it stood at 14.78%. In the corresponding week of 1920 the ratio was 15.40%. The Bank's gold holdings are now £128,357,145, as compared with £117,815,415 a year ago and £87,810,526 in 1919. Reserves total £19,328,000. Last year the total was £21,025,305 and the year before that, £27,958,936. Loans aggregate £78,903,000. This compares with £80,139,557 in 1920 and £80,803,466 a year earlier. Circulation has reached a total of £127,478,000, in comparison with £115,240,110 and £78,301,590 one and two years ago, respectively. In line with recent predictions, the Bank of England, as noted above, on Thursday announced a reduction in its minimum discount rate of ½ of 1%, to 6%, from 6½%, the previous rate, which had been in effect since April 28 last.

BANK OF ENGLAND'S COMPARATIVE STATEMENT.

	1921. June 22.	1920. June 23.	1919. June 25.	1918. June 26.	1917. June 27.

Bank rate	6%	7%	5%	5%	5%

The Bank of France continues to report small gains in its gold item, the increase this week being 280,000 francs. The Bank's gold holdings are thus brought up to 5,520,044,175 francs, comparing with 5,587,869,840 francs last year at this time, and with 5,550,897,851 francs the year before; of these amounts 1,948,367,056 francs were held abroad in 1921, 1,978,278,416 francs in 1920 and the same amount in 1919. During the week increases were registered in the various items as follows: silver, 273,000 francs; bills discounted, 42,431,000 francs; advances, 6,126,000 francs; and Treasury deposits, 16,493,000 francs. General deposits, on the other hand, fell off 101,799,000 francs. A further contraction of 478,110,000 francs occurred in note circulation, bringing the total outstanding down to 37,494,062,000 francs. This contrasts with 37,543,904,815 francs on the corresponding date last year and with 34,441,999,125 francs the year previous. On July 30 1914, just prior to the outbreak of war, the amount was only 6,683,184,785 francs. Comparisons of the various items in this week's return with the statement of last week and corresponding dates in 1920 and 1919 are as follows:

BANK OF FRANCE'S COMPARATIVE STATEMENT.

		Changes for Week.	Status as of June 23 1921.	June 24 1920.	June 26 1919.
Gold Holdings—		Francs.	Francs.	Francs.	Francs.

The Imperial Bank of Germany in its statement, issued as of June 15, continues to indicate sensational changes in the principal items. Probably the most striking of these is an expansion in bills discounted of the enormous sum of 7,076,632,000 mks., while deposits increased no less than 5,023,858,000 mks. Treasury certificates were reduced 1,973,996,000 mks. Other securities fell 437,976,000 mks. and other liabilities 112,328,000 mks. One favoring feature of the statement was a contraction in note circulation of 261,706,000 mks., comparing with an expansion the week previous. Gold was reduced nominally, 7,000 mks., but total coin and bullion gained 646,000 mks. An increase in notes of other banks of 1,575,000 mks. is shown. Advances were cut 16,446,000 mks., while investments were 611,000 mks. smaller. The Bank reports its stock of gold on hand as 1,091,566,000 mks. In the corresponding week of 1920 the total held was 1,091,700,000 mks. and a year earlier, 1,151,520,000. Note circulation now stands at 71,983,613,000 mks., which compares with 50,808,660,000 mks. last year and in 1919 28,274,860,000 mks.

The Federal reserve bank statement, made public at the close of business on Thursday, showed the same general tendencies as in recent weeks, with the exception that for the first time in quite a long period, the bill holdings registered an expansion instead of the usual contraction. Notwithstanding that bills purchased in the open market were cut $14,000,000, the total of bills on hand expanded $33,000,000 to $1,793,000,000. This, however, was accompanied by a contraction in Federal Reserve notes in actual circulation of $35,000,000. Total gold holdings gained $5,000,000. In deposits there was a decline of no less than $232,000,000, which in turn brought about an increase in the reserve ratio to 60.4% against 56.8% last week and 43.6% at the same time a year ago. Changes in the New York bank's condition were somewhat similar. A larger increase in gold was shown—$25,000,000—and there was a reduction in the total of bills on hand of $7,000,000 to $424,625,000. Here, also, deposits were sharply curtailed, and the ratio of reserve mounted up to 68.9% against 60.6% the week preceding and 39.2% last year.

Saturday's bank statement of New York Clearing House members indicated some striking changes, this being the result of an increase in Government deposits from $11,387,000 to $243,151,000 due to the return to the banks of the proceeds of the latest issue of Treasury certificates of indebtedness. This time there was a heavy expansion in loans, namely $115,511,000. Net demand deposits were increased $2,727,000, to $3,739,885,000. Net time deposits were curtailed $3,985,000 to $234,296,000. Other changes were less important, comprising a reduction of cash in own vaults by members of the Federal Reserve Bank of $3,591,000 to $75,285,000 (not counted as reserve), a decrease of reserves of State banks and trust companies in vault of $364,000 and an increase of reserves of State banks and trust companies kept in other depositories of $285,000. The reserve of member banks with the Reserve Bank was reduced $1,229,000, and this in turn, coupled with the increase in deposits, brought about a loss in surplus of $1,479,630, so that the total of excess reserves is now $46,806,790, in comparison with $48,286,420 a week earlier. The above figures for surplus are based on reserves above legal requirements of 13%, for member banks of Federal Reserve system, but do not include cash in vault amounting to $75,285,000 held by these banks on Saturday last.

Call money continued in abundant supply, it being reported from day to day that at the close of business substantial amounts were left unloaned. The renewal and loaning rate on the Stock Exchange did not drop below 5%, but it was currently reported that loans were rather freely made outside as low as 4%. There has been no material change yet in time money. On Thursday $400,000 was said to have been loaned at 6½% for 60 days for the account of an out-of-town institution. Yesterday authorities in the money market said that it was practically deadlocked. The offerings were small and the demand about the same, because prospective borrowers would not pay the asking price. It is rather generally expected, however, that if call money continues as abundant as it has been for ten days or so there will be freer offerings of funds for 30, 60 and 90 days. All of the advices and official statements that came to hand this week indicated an easier and stronger money position, both in this country and in England. Although the London dispatches on Thursday and yesterday stated that considerable surprise was caused by the reduction in the Bank of England dis-

count rate, still it would seem that it should be regarded as largely logical and as reflecting the changes in economic and financial conditions that are taking place in Great Britain, as well as in this country. The plan of Chairman Dawes, of the newly authorized Budget Commission, that of Secretary of the Treasury Mellon relative to the refunding of debts owed the United States by European Governments, and that of the President and Congress with respect to the revision of income and excess profits taxes are certain to receive special attention in financial, economic and business circles throughout the country, and even in the leading capitals of Europe.

Referring to money rates in detail, loans on call this week ranged between 5 and 5½%, which compares with 5½@6% a week ago. On Monday the highest was 5½%, which was also the basis of renewals, with the low 5%. During the remaining days of the week, however, that is, Tuesday, Wednesday, Thursday and Friday, a single rate of 5% was quoted, this being the maximum and minimum as well as ruling figure on each of these days. The renewal basis of 5% is the lowest since Oct. 27 1919, and is still further evidence of the increased ease in money now prevailing. Outside of the Stock Exchange call loans were negotiated at as low as 4%, with fair amounts available. The figures here given are for both mixed collateral and all-industrial loans alike. For mixed maturities the market remains dull and quotations are little more than nominal. Sixty and ninety days and four months money continues to be quoted at 6½%, with five and six months' funds at 6@6½%, the same as last week. No perceptible increase in offerings was noted and trading is still light and confined mainly to renewals for the shortest periods.

Commercial paper has ruled dull and without new feature. Sixty and ninety days' endorsed bills receivable and six months' names of choice character have not been changed from 6½@6¾%, with names not so well known still at 7%. Offerings are scarce and the volume of transactions correspondingly restricted.

Banks' and bankers' acceptances were in good demand and a fairly large volume of business was transacted. Prime acceptances were absorbed by both local and out-of-town institutions. According to brokers, individual investors were also in the market as liberal buyers. The undertone was steady and quotations on the levels previously current. For loans against bankers' acceptances the posted rate of the American Acceptance Council continues at 5%. The Acceptance Council makes the discount rates on prime bankers' acceptances eligible for purchase by the Federal Reserve Bank 5⅞% bid and 5¾% asked for bills running 120 days; 5⅝@5½% for 90 days; 5⅝@5½% for 60 days and 5⅝@5½% for 30 days. Open market quotations are as follows:

SPOT DELIVERY.

	90 Days.	60 Days.	30 Days.
Prime eligible bills	5⅝@5½	5⅝@5½	5⅝@5½

FOR DELIVERY WITHIN THIRTY DAYS.

Eligible member banks	5¾ bid
Eligible non-member banks	6 bid
Ineligible bank bills	6½ bid

Announcement was made on June 23 by William McC. Martin, Chairman of the Board of the Federal Reserve Bank of St. Louis, that that bank had abolished its progressive discount rate, effective that day. This leaves a flat 6% discount rate for all classes of loans and maturities made by the St. Louis Reserve Bank to member banks with the exception of bankers' acceptances rediscounted, which carry 5½%. The rate for bankers' acceptances purchased in the market are subject to agreement as heretofore. The progressive discount rate has been in effect since May 25 1920 by the St. Louis Reserve Bank. The Federal Reserve Bank of Dallas this week adopted a 6% rate for all classes of paper, having lowered from 6½% to 6% the rate on commercial paper, bankers' acceptances, trade acceptances and agricultural and livestock paper. All of the Federal Reserve banks, except Cleveland and Chicago, have adopted a 6% rate on paper secured by Treasury notes. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve banks:

DISCOUNT RATES OF THE FEDERAL RESERVE BANKS IN EFFECT JUNE 24 1921.

Federal Reserve Bank of—	Discounted bills maturing within 90 days (including member banks 15-day collateral notes) secured by—			Bankers' acceptances disc'ed for member banks	Trade acceptances maturing within 90 days	Agricultural and live-stock paper maturing 91 to 180 days
	Treasury certificates of indebtedness	Liberty bonds and Victory notes	Otherwise secured and unsecured			
Boston	6	6	6	--	6	6
New York	6	6	6	6	6	6
Philadelphia	6	5½	6	6	6	6
Cleveland	6	6	6	6	6	6
Richmond	6	6	6	6	6	6
Atlanta	6	6	6	6	6	6
Chicago	6	6	6½	6	6½	6½
St. Louis	6	6	6	5½	6	6
Minneapolis	6	6	6½	6	6½	6½
Kansas City	*6	6	6	5½	6	6
Dallas	6	6	6	6	6	6
San Francisco	6	6	6	6	6	6

* Discount rate corresponds with interest rate borne by certificates pledged as collateral.

Note.—Rates shown for Kansas City are normal rates, applying to discounts not in excess of basic lines fixed for each member bank by the Federal Reserve Bank. In the case of Kansas City rates on discounts in excess of the basic line are subject to a ½% progressive increase for each 25% by which the amount of accommodation extended exceeds the basic line, with a maximum rate of 12%.

Movements in the sterling exchange market this week were irregular with the trend toward lower levels. Trading, however, was exceptionally quiet and the volume of business transacted the smallest recorded for quite some time. This was held to be due, largely, to the unfavorable impression produced over the vote, late last week, of the British miners' unions to continue the strike, also to the general unsettlement that persists in European political affairs which is understood to be causing large operators everywhere to proceed with extreme caution in the making of new commitments. London sent materially lower cable quotations almost from the start and prices in this market responded by a series of declines that carried the demand rate from 3 79¾ in the initial dealings to 3 72⅝. Offerings were light and this in all probability served to prevent more drastic losses; but it is plainly evident that for the time being London is still the dominant factor in the sterling market here. Toward the latter part of the week rumors that the British coal strike was in reality petering out induced a more hopeful feeling, but failed to exercise any perceptible effect on actual market quotations, and this is also true of the action of the Bank of England in lowering the official discount rate ½ of 1%, to 6%, on Thursday. Instead of strengthening price levels, the announcement was accompanied by a fractional decline, and the close was near the lowest for the week. In the opinion of most bankers, the event had already been discounted. The market may now be said to have

resumed its waiting attitude and financiers are watching keenly the efforts being put forth to stabilize American exchange, also the negotiations looking to a funding of Allied debts to this country. What was regarded as a significant event of the week was the decision of the Reparations Commission to grant permission to Germany to make indemnity payments in funds other than American dollars, an action regarded as growing out of the recent sensational advance in dollar exchange which followed the accumulation of the first installment of the 1,000,000,000 marks. It is thought that this may have the effect of distributing the strain of meeting future payments of this character. Monetary conditions continue easy and in the absence of further untoward developments, sterling is expected to hold its own; though occasional sharp fluctuations would not be surprising.

As to the more detailed quotations, sterling exchange on Saturday of last week was firm and a trifle higher, with demand at 3 78½@3 79¾, cable transfers 3 79@3 80¼ and sixty days 3 73@3 74¼; trading, however, was very quiet. On Monday lower quotations from London sent prices down here, but later there was a recovery, so that the range was 3 76½@3 79¾ for demand, 3 77@3 80¼ for cable transfers and 3 71⅛@3 74⅜ for sixty days. A further loss of more than 2 cents took place on Tuesday, when demand declined to 3 74½@3 76½, cable transfers to 3 75@3 77 and sixty days to 3 69⅛@3 71⅛; this was again a reflex of weakness in London cable rates and trading was still quiet. Wednesday's market was dull and irregular, with the trend downward; the range was 3 73¾@3 75⅜ for demand, 3 74¼@3 75⅞ for cable transfers and 3 68⅜@3 70 for sixty days. Announcement on Thursday of the lowering of the Bank of England rate failed to bring about any improvement in sterling rates and there was a further fractional decline in demand to 3 73¼@3 74¾, cable transfers to 3 73¾@3 75¼ and sixty days to 3 67⅞@3 69⅜. On Friday the market ruled dull and irregular and quotations which were lower, ranged at 3 72⅝@3 73⅜ for demand, 3 73⅛@3 73⅞ for cable transfers and 3 67⅛@3 68 for sixty days. Closing rates were 3 67⅞ for sixty days, 3 73¼ for demand and 3 73¾ for cable transfers. Commercial sight bills finished at 3 72¾, sixty days at 3 65¾, ninety days at 3 61¾, documents for payment (sixty days) at 3 66¼ and seven-day grain bills at 3 71¼. Cotton and grain for payment closed at 3 72¾. Gold continues to move toward this centre in large volume. The week's shipments included $2,250,000 on the Celtic from Liverpool, $1,000,000 on the Kaiser-i-Hind from England, approximately $311,000 on the Rotterdam from Holland, about $200,000 on the Themostokles from Greece, 13 cases of gold ingots on the new French liner Paris from Havre and 34 boxes of gold bars on the Olympic from Southampton. Smaller miscellaneous amounts were received as follows: 9 bars of gold bullion on the Pastores from Costa Rica, 85 packages gold ingots on the Leopoldina from Havre, about $177,000 on the Zulia from Curacao, 3 bars on the Essequibo from Callao, 2 boxes on the Fort Hamilton from Bermuda and $48,000 gold and a box of gold dust and platinum on the Sixaola from Colombia. The Mount Carroll brought 52 cases of silver from Hamburg, while it is understood that the National City Bank has obtained $3,500,000 gold rom Austria. Kuhn, Loeb & Co. report the steamers f Barengeria and Adriatic soon to arrive carrying more than $3,000,000 of the precious metal on board.

Continental exchange displayed considerable irregularity and movements at times were erratic, notwithstanding that here also trading was dull and narrow. Alternate losses and gains were noted in the values of French, Italian, Belgian and Germany currencies alike, with the tendency towards lower levels and the net result in most cases was substantial declines for the week. Exchange on Paris declined 26¼ points, to 7 96¾, rallied for a time to 8 04, only to sag off again with the final quotation 7 99. Antwerp francs followed the course of French currency and covered a range of 7 88 to 8 07, for demand, on a light volume of transactions. Lire were less in demand than a week ago and suffered a loss to 4 71, which compares with a high point last week of 5.14, but recovered in part at the extreme close. This weakness was believed to be the result of a decision on the part of the Italian Government to remove all restrictions from exchange dealings. It is learned that from now on the activities of the Italian National Institute of Exchange will be confined to securing exchange for Government payments. Berlin marks moved aimlessly for the greater part of the week, hovering around 1 41, but toward the end there was a break to 1 36½, on freer offerings. Austrian kronen failed to respond to reports that a banking group had decided to make liberal advances to Austria under a plan of the League of Nations and the quotation touched a low point of 00.16½ for checks.

Some division of opinion appears to exist as to the probable course of Continental exchange, though not a few expect substantial betterment in both French and Italian exchange before long. It is claimed that France's export trade is increasing steadily, that the budget for 1922 will show a reduction of 4,000,000,000 frs. owing to increased revenues and reduced expenses, while the actual completion of the first German installment payments are having an important effect on banking sentiment and conditions as well. As to Italy, the Italian remittance business to that country has in recent months begun to assume large proportions and from this source alone it is expected there will be a constant and heavy demand for exchange on Rome.

The official London check rate on Paris finished at 46.79, as compared with 46.15 last week. Sight bills on the French centre closed at 7 99 against 8 19; cable transfers 8 00 against 8 20; commercial sight at 7 97 against 8 17 and commercial sixty days at 7 91 against 8 11 a week earlier. Closing quotations for Antwerp francs were 7 96 for checks and 7 97 for cable transfers, against 8 05 and 8 06 last week. Reichsmarks finished at 1 37¼ for checks and 1 38¼ for cable transfers, as compared with 1 45½@1 46½ a week ago. Austrian kronen closed at 00.16½ for checks and 00.17½ for cable remittances. Last week the close was 00.19½ and 00.20½. For lire the final range was 4 83 for bankers' sight bills and 4 84 for cable transfers. This compares with 5 04 and 5 05 the week before. Czecho-Slovakian exchange was weak and closed at 1 36 against 1 40. Bucharest currency finished at 1 55, against 1 54, while Polish marks broke to the inconceivably low level of .06, comparing with last week's close of .08 Finnish currency finished at 1.59, against 1.80. No specific

reason was assigned for the weakness and it was thought to reflect the lowering in currency values at other Continental centres. Greek exchange was weak and closed at 6 05 for checks and 6 10 for cable remittances, as compared with 6.45 and 6.50 a week earlier.

Exchange on the countries formerly included in the neutral group showed a declining tendency, though variations were not especially striking, and trading was less active than during recent weeks. Guilders and Swiss francs closed fractionally down and the same is true of Spanish pesetas. Scandinavian exchange was irregular and also tended to lower levels.

Bankers' sight on Amsterdam finished at 32.85, against 33.18, cable transfers at 32.90, against 33.23; commercial sight at 32.80, against 33.15, and commercial sixty days at 32.44, against 32.79 a week ago. Final quotations for Swiss currency were 16.83 for bankers' sight bills and 16.85 for cable remittances, which compares with 16.96 and 16.98 last week. Copenhagen checks finished at 16.85 and cable transfers 16.90, against 17.10 and 17.15. Checks on Sweden closed at 22.35 and cable transfers at 22.40, (unchanged); while checks on Norway finished at 14.25 and cable transfers at 14.30, against 14.35 and 14.40 on Friday of the previous week. Closing rates for Spanish pesetas were 13.10 for checks and and 13.12 for cable transfers, in comparison with 13.27 and 13.29 last week.

With regard to South American exchange the situation remains essentially the same, with irregularity prevailing and occasional heavy losses recorded. Argentine checks broke to 30.35 and cable transfers to 30.50, against 31.01 and 31.18 a week ago. Brazil exchange also displayed a sagging tendency and a new low level of 11.00 for checks was recorded, with the close 11.25 and cable transfers at 11.32, against 12.15 and 12.21 last week. Chilian exchange declined to 10.57, but rallied and finished at 10.87½, against 11.08 last week. Peru broke to 3.64, which compares with a quotation of 3.90 the preceding week. The absence of coffee exports was held largely responsible for the weakness in exchange. Bankers, however, were of the opinion that it should not be very long before more stable conditions are brought about.

Far Eastern exchange was firmer; that is, so far as concerns Hong Kong and Shanghai currencies. The former closed at 49½@50, against 49½@49¾, and the latter at 68@68½, against 67½@68 last week. Yokohama finished at 48¼@48¾, against 48⅛@48¾; Manila at 46@46½, (unchanged); Singapore, 45@45¼, against 46¼@46¾; Bombay, 25@25¾, against 25½@26, and Calcutta, 25¼@26, against 25¾@26¼.

Pursuant to the requirements of Sec. 403 of the Emergency Tariff Act of May 27 1921, the Federal Reserve Bank is now certifying daily to the Secretary of the Treasury the buying rate for cable transfers on the different countries of the world. In last week's issue we gave the record back to May 27 1921, the date when the new Act became effective, and we now present the figures for the current week. The Federal Reserve Bank does not proclaim the rates until the morning of the following day, and therefore the latest figures it is possible to include in our table are those for Thursday noon, announced on Friday:

CABLE BUYING RATES FIXED BY FEDERAL RESERVE BANK. JUNE 17 1921 TO JUNE 23 1921, INCLUSIVE.

Country and Monetary Unit.	Noon Buying Rate for Cable Transfers in New York. Value in United States Money.					
	June 17.	June 18.	June 20.	June 21.	June 22.	June 23.

The New York Clearing House banks, in their operations with interior banking institutions, have gained $7,772,576 net in cash as a result of the currency movements for the week ending June 23. Their receipts from the interior have aggregated $8,720,392, while the shipments have reached $947,816, as per the following table:

CURRENCY RECEIPTS AND SHIPMENTS BY NEW YORK BANKING INSTITUTIONS.

Week ending June 23.	Into Banks.	Out of Banks.	Gain or Loss to Banks.
Banks' interior movement	$8,720,392	$947,816	Gain $7,772,576

As the Sub-Treasury was taken over by the Federal Reserve Bank on Dec. 6, it is no longer possible to show the effect of Government operations on the Clearing House institutions. The Federal Reserve Bank of New York was creditor at the Clearing House each day as follows:

DAILY CREDIT BALANCES OF NEW YORK FEDERAL RESERVE BANK AT CLEARING HOUSE.

Saturday, June 18.	Monday, June 20.	Tuesday, June 21.	Wednesd'y, June 22.	Thursday, June 23.	Friday, June 24.	Aggregate for Week.
$	$	$	$	$	$	$
65,716,904	68,535,308	49,467,333	49,791,000	46,304,000	47,200,000	Cr. 327,014,545

The foregoing heavy credits reflect the huge mass of checks which come to the New York Reserve Bank from all parts of the country in the operation of the Federal Reserve System's par collection scheme. These large credit balances, however, show nothing as to the results of the Reserve Bank's operations with the Clearing House institutions. They represent only one side of the account, as checks drawn upon the Reserve Bank itself are presented directly to the bank and never go through the Clearing House.

The following table indicates the amount of bullion in the principal European banks:

Banks of—	June 23 1921.			June 24 1920.

a Gold holdings of the Bank of France this year are exclusive of £77,934,682 held abroad.

RESUMPTION ON FARM AND IN FACTORY.

That is wise advice which is given us—to consider our domestic affairs more intensively than ever before. Straining our eyes after foreign trade opportunities ought not to make us indifferent to our internal trade problems and possibilities. Especially ought we to become optimists, all, when we count over our undeveloped resources, our reserve energies. But there is also a reverse side to the principle we have enunciated. We must also discount the influence of the immediate view. We must look upon our United States as the world in miniature. We must not allow ourselves to become pessimists because our near view indicates dearth and depression. We must remember that we are one people, under one law, with a trade unity born of a great distributing system; that we are the owners of a vast diversity of possessions and pursuits. It is not wise or safe to conclude that "unemployment," for instance, exists in like degree throughout our own country simply because it presses down upon us in our own community.

If we will ponder upon this it will be of aid to us in measuring our domestic trade future. We do not now consider our essential independence as a people. Rather the fulness of life possible to us, even in so-called isolation. If, therefore, we desire to project ourselves into a period of "prosperity," we are helped when we widen our view to take in our whole country. We have said here before that while men work they also produce, that a huge resumption is going on now that we do not notice. We have said, also, that every harvest is a milestone in our economic progress. And we apply this, if we cast our eyes, now, upon fundamental agriculture as it unfolds before us in our great interior valley at this season of the year. This form of wealth, which annually appears, transforms into many other forms that minister to comfort and happiness. And until our crops fail us for years in succession we have no right to become pessimists, despite conditions admittedly burdensome.

Too often, we view economics only through our political eyes. If one listened only to the talk of Washington we would believe the farmer is practically ruined. If we listened only to the thought and feeling of an Eastern factory town we might conclude the whole country was in the throes of unemployment and hard times. But when we actually get out into the wheat and corn fields, we must discover not only the source of wealth but the perennial sustenance and support of our manufactures. Not that there is no reciprocity between these two great industrial divisions. Only that food comes first. It is common everywhere to say that the farmer has been "hard hit." And he *is* given, unconsciously, to bemoaning his fate. And no wonder, when we consider how that individually he gambles with fate in the matter of storms, seasons, weeds, insect pests, and finally market prices. Perhaps we say too much, but he is an ingrained pessimist. Yet, if his native common sense and sturdy energy did not overcome his querulous complaining, his kind of "business" would die out, or at least languish. Contrariwise, travel through his valley domain, and few indeed are the uncultivated fields, and fewer the abandoned farms, to be discovered. To use the common expression, he is not "as bad off as he thinks he is."

We dwell upon this because it helps us to look into the future, all of us collectively as a people, and enables us in no small degree to estimate the return of "prosperity." We are all interested in what we call reconstruction and resumption. But what has this farmer to reconstruct in comparison to the factory owner? Making all allowances for progressive methods and machinery, he is using the same equipment he had before the war, and in the same general way. True, he is getting low prices for his products now, but can they be said at this time to be lower than before the war? He is bearing heavy burdens of taxation, but it may well be doubted if they are as heavy as those of many industrial factors now struggling back to normal. And if we contrast a farm owner, or even farm hand, with a factory owner or hand, there is one condition which perhaps does not readily appear to either. Wasteful expenditure has been more prevalent in manufacturing than in farming districts. The interior farming sections, proportionately to the undue war-opportunities have saved more. Automobiles, it is true, are almost as thick as locusts, but (by way of contrast only) they are more useful than music-boxes and silk shirts. And if we suppose falling prices to be the main question, and that this decline, though uneven now, is as certain to manufactured products as agricultural, then we must conclude that the farm is "better off" than the factory —because it is now nearer "normal."

Being nearer normal, having already had to adjust itself to world markets, the farm of to-day, as the fundamental of progress, suggests to us the prestige of hope and the wisdom of energy. Therefore, while the factory is being remodeled and turned again to its old province of production, and while it is slow in regaining its full percentage of output, it too may take abundant hope in every "full crop" that nature brings round. If by some magic every depressed Eastern community could envision this wonder-land of our interior at its triumphant time of growth and harvest, how quick it would enliven the spirit, and how sure it would point the way, and how far away would grow this "world in tumult" of which we read and talk so much!

In certain States we need not name, fabulously rich in themselves, there have been vital land booms. And a collapsed land boom is little short of a disaster—a surface one, however. These land booms were no doubt accelerated by the high war prices of farm products, but, as we know, land booms come and go, and have a wildness all their own. The speculative judgment of the farmer is apt to become hectic and distorted. And some little underproduction may result from lapsed payments, but this is a minor matter. Depression, really unjustified, of course follows. But our central thought from these observations is this—the "East" should take counsel of the "West"; each should try to "see" the other, and both should find in the economics of our domestic strength slow and sure "resumption," naturally not politically, and an overflowing future "at home"!

PEACE THROUGH THE POWER OF PUBLIC OPINION.

Mr. Wells, of world-fame, proposes education in the nature and benefits of peace. He takes a long look into the future. Mankind must provide a means of salvation or face its doom. One more world-war,

should it come, will mark the climax. After that the descent will be swift and complete. Civilization will perish; and from barbarism, if the extermination perchance be not quite finished, the long, slow, painful ascent will again begin. It is even possible, he hints, that brute beasts of the jungle may again hold supremacy. Therefore, prepare for the maintenance of peace—now!

As a commentator points out, Mr. Wells has his own ideas on the processes of education. And it may be asked of the school that it have in the world some consistent system ere we confide to it this huge and continuous task. Without denying the author's premise, thought must turn to the attitude of the adult population of the various countries if we are to make even a start in the preparations for the maintenance of peace.

We are, perhaps, too near the war to do more than agitate. We are, perhaps, too near that period, blazing with emotional intensity, when to be an avowed pacifist was to be subject to the charge of being a "slacker." We are yet in the presence of sporadic, though actual, wars—dwindling echoes of the great conflict. And we are in the presence of or under the frowning menace of a militarism that in its combined whole is larger and more powerful than ever before. While, to add one more condition, fear and lack of faith hold us in their grasp. We are all everywhere talking of peace and still preparing for, and expecting, not soon, but before many decades pass, another world-war more deadly and destructive, a hundred-fold, than the last. As one in high place fervidly said, it is a scene to "make an angel weep!"

A few short weeks ago this nation had its Memorial Day throughout the land. Business was suspended and in every cemetery where soldiers keep their "last sleep," their valor, devotion and sacrifice was extolled by those who live on after them—to keep the faith and preserve the institutions they defended so heroically. Three wars were in the minds of those who gathered about this hallowed dust, and in the lines that marched in honor of the day and its memories were the representatives of three conflicts. The first of these, known as our Civil War, was a conflict between our States over slavery and States' rights. More than half a century ago it occurred—and so softening has been the effect of time, so gentle has been the constant reassertion of sectional regard and the inherent love of man for man, that the "blue and the gray" marched together, often, and, more generally than we realize, "mingled their tears together" over the now common heroes of a common country. And this shows that fidelity to a cause is the glory of those who have courage to fight and die. Is it not possible that in this example we may discover a bond that shall make for peace—courage to live for it as a sublime cause?

There are so many who talk of the impossibility of complete peace. Man is the fighting animal; there have always been wars; there always will be wars; entire disarmament cannot ever come because that would leave the white race at the mercy of the colored races; Governments would be foolish to depend upon the honor and faith individuals give to each other; and, "anyway," it is too soon to talk of preparations for peace! Then there are those other defenses of war—it vitalizes a people grown enervated in industrial pursuits and selfish through living for pleasure alone. It unites a people, invigorates the physical manhood of the country, brings out the good in human nature. Let us not think on these, nor spend time recounting the debasing power of war itself, and the endless suffering it visits on generations who inherit its evils, even though we grant the good which may lie in ideals, the good which may come with changed conditions. Let us on the contrary try to remove ourselves and to look on with only common sense to guide us. We recount not the story of the colossal debts under which all peoples now groan. Let us consider another form of economy—the saving and thrift of the spiritual—the education of the character. And let us suppose the religious feeling innate in man, regardless of creed, be marshalled against the universal enemy—a united consecration to peace, not only expressing itself in dedicatory services before the altars of the Good, but education of the masses by the constant and recurrent expression of public opinion, what might be the result?

We are frank to voice our own belief that if peace is to be left to the education of the schools it will never survive. We mean by this if this generation and the ones to follow do not *maintain* the social will to peace, the training of the children of these generations will avail little. Not only must the present world actually disarm (we do not now consider how fast or how far) not only must it remove the growing discontent engendered by the waste of war, not only must it take away the pomp and pride of physical armaments from the sight of men, but it must cultivate, openly, with the solemnity of worship and the constancy of devotion, the *feeling for peace as the supreme object of man's endeavor,* for thereby only may all other good things advance and endure. We need not argue—we need to enthuse, and to pledge, and to individually as men, collectively as peoples, make peace the undying cause. It would follow that Governments would live in fear of this resounding "public opinion" repeating itself at the doors of legislation, and forever inscribed in the policies of a nation. Emotion passes. But the wisdom of common sense must endure if mankind endures.

The Borah Resolution, or amendment, turns out to be a rather ineffectual fire. But to our mind it burns—and may leap into a blaze that will light the world. There is in it, half-concealed, as we read it, a vesting of certain power in the conferees of which no note is taken. But even if there is only a conference, granting that it will come soon, it will set the world *to talking peace.* That is one initial step the consequences of which no man can measure. In time of war patriotic duty silences the speech of pacifism. The American people and every people must cultivate the open expression of public opinion that condemns war as the greatest folly and crime with which mankind afflicts itself. And when that rises, as it will, to its full height, then there must be provided those litanies that take on the form of worship by their solemn repetition. The next generation must not be allowed to "forget." This done, education of the youth will follow and be effectual.

THE OWNER BEST QUALIFIED TO RUN HIS BUSINESS—INSTRUCTING THE WEST.

We have had occasion, recently, to quote from one of Senator James A. Reed's Senate speeches; and it is with peculiar pleasure we now quote from

an address delivered to business men in St. Louis, June 16th, under another environment. The paragraph we have selected reads as follows:

"I assert as a fundamental proposition that no man is so well qualified to run a business as the man who created it, and that he should be permitted to exercise over that business an unrestricted control, always provided that he does not interfere unjustly with the rights of others to conduct similar ventures. Second, that no board or tribunal located in Washington can conduct successfully even one single business, even though limited in its locality and scope, as successfully as the private individual."

The Senator hastens to declare: "I am now dealing with private business ventures and not with those institutions which have always been regarded as quasi-public in their character." But the deep and broad principle enunciated stands, and it is clearly and admirably stated. We are glad Senator Reed has seen fit to deliver this address in the solid city of St. Louis, in the centre of our national territory, for it is good seed sown in fertile ground and must bring forth abundant increase. For in this matter of individual ownership and control of property and enterprise we have been slipping our cables for a long time, and there should be immediate "resumption" of our former attitude toward "business," that we may free ourselves from the tightening chains that bind us. Our "individualism," to be supreme, must reach the centre of our wealth and activities, as well as the circumference. And we indulge in no dogmatism when we say that the political "atmosphere" of Washington is not the proper environment for a careful and capable consideration of our economic interests. Therefore, the "public opinion" of the diversified vocations, interests and industries of this great interior to the west of us should have a guiding influence on the more intensified commercial and financial institutions that have developed in the older sections of our country.

Our own devotion to the principle of "individualism" is so well known that we need not now do more than reaffirm it. But as long as our thought as a people remains under the domination of this political control, or attempted control, of "business" by Federal statute, we must "go to the people," absorbed in their own vocations and free from the influence of a theoretical discussion and a selfish propaganda, for the real and strong support of our liberties through the concentration and crystallization of "public opinion" as the arbiter of our destinies. And an engrossing and all-encompassing principle, such as is expressed in the paragraph we have quoted, must abide and grow and bring forth abundant harvest when it becomes the conviction of the masses who now inhabit the Mississippi Valley. And we cannot, happily, foresee the time when those who own these vast and fertile prairies and plains will turn against the rights of private property, and follow the blood-stained star of Bolshevism, which if it ever establishes its baleful ascendency over our manufactures will first destroy our Eastern seaboard.

We are not only an agricultural people by nature of our inclination and environment, agriculture not only transforms into manufacture, but it merges with it, and the combination as it is progressing in this interior valley becomes our economic mainstay —what we term our East should know, therefore, and feel, its dependence upon this glowing and fertile area wherein this seed-grain of truth has been dropped. We say "dependence"—without failing to appreciate the true reciprocity between the sections. But the solidity and solidarity in business this Senator has seen fit to address, as is well known, was slow in following the "idealism" that would have embraced a world, an idealism that did turn us toward Europe and its difficulties and needs, and which, though loyal to the sweep of this quasi-duty, quickly recovered its poise, and pronounced its own verdict on the so-called "failure of the Administration."

St. Louis is a great manufacturing city. If agriculture precedes manufacture, manufacture follows agriculture—that portion of the agricultural increment which clings to the soil where the "wealth" originates transforms into manufacturing integers and energies. Unity of business interests occurs through this merger. In the same way the agriculture of the manufacturing district of the country intensifies and progresses with the development of this valley. These are natural laws—the millions of minds at work under individualism to supply local and individual needs, living and growing by service, establish, as we have often asserted, co-operation through the competition, which is emulation energized to fulness and diversity by enlarged and new businesses. No Government direction and control can do more than limit this liberty and minimize results.

It must appear that if we can re-establish the independence of individual effort in our country, self-reliance will separate our economics from our politics, and sectionalism and class-selfishness will disappear in a rejuvenated unity. There is no better soil in which to revive this principle than that wherein agriculture and manufacture meet and merge. The farmers and merchants of the territory we call "The West" do not feel the menace of the labor-union policies as do the businesses of "The East." A doctrine of freedom and independence in business established in the centre of our domain will withstand all the onslaughts of socialism and communism. And thus, the seed of these really simple truths will germinate and bear fruit.

THE IMPENDING SOLDIER BONUS FROM THE FEDERAL GOVERNMENT.

As was foreshadowed last week, the so-called "five-way" soldier bonus bill has come to the Senate from the Finance Committee with a favorable report, Senator McComber, its author, still endeavoring to show that no appreciable financial burden will be imposed, because the outlay will not begin for a year to come, and it will be an easy matter to devise methods (other than by taxation?) for meeting that outlay when it does come. Anywhere from 1½ to 5 billions may be required, but that need not worry anybody.

It is necessary and proper to point out again the incurable vice of this scheme in that it proposes no distinction between those who suffered and those who really gained, both in person and business prospects, by service rendered in the war. The U. S. Chamber of Commerce lays just stress upon this, in a brief which begins a campaign against the measure and has been sent to the President and Cabinet, to Congressmen, and to the 1,400 commercial bodies affiliated with the organization. This brief declares

that only when provision has been made for those who have suffered and thus have a claim should others be considered, and that even then the forms of aid which tend to upbuild and establish the veteran as a self-supporting member of the community are far preferable to a cash bonus. Senator McComber virtually admits this defect in his bill by his sensitiveness over what he calls a misapprehension of its nature. It is generally referred to, says his report, as the "Soldiers' Bonus Bill," whereas its purpose is not to express national gratitude by a money gift, but is just what its title calls it, "a bill to provide adjusted compensation for the veterans of the World War." But its effect would be to provide unadjusted, not "adjusted" compensation, and the public rightly see in it what it undertakes and not what its title declares.

Senator Lenroot has opened a fight against a proposed annual outlay of 10 millions which would come through a bill to retire all army officers, including those in the reserve, under the same rules as now apply to officers in the regular army; he objects to this because it makes a distinction where there should be none and fails to make a distinction where there should be one. The latter is because it puts officers in the volunteer and in the regular army on the same basis, whereas the theory as to the regular army is that after the Government has invited a man to make a military career his life profession and he has accepted, he has given up all possibility of earning a competence otherwise and therefore Government is morally bound to care for him during the rest of his life if he retires disabled. The distinction which is made, but should not be, is that the proposed relief in the emergency force applies to officers and not to privates, and is therefore unjust; thus, a private who has lost a leg would receive less than an officer (possibly only a captain) who has a stiffness of knee that does not bar him from resuming his former gainful occupation, and a colonel who has lost hearing in one ear would get more than a totally disabled private. Such are some of the defects attaching to compensation professedly but not really "adjusted."

Besides the financial untimeliness of the scheme and the impossibility of reconciling it with any attempts to really lighten the burdens of taxation, the Chamber of Commerce brief makes another point in noting the action already taken by many States in granting bonuses. Every State but six, says the brief, has taken some relief action, ranging from establishing "soldier settlement" boards to loans for educational purposes; free scholarships in State normal schools and colleges; loans for reclaiming land and providing rural homes; aid in buying farm machinery and live stock, and in other ways, while about a dozen States have voted cash, and in at least eight more there is now pending some legislative action.

It is obvious that action separately by the States renders needless and even improper any like action by Congress, because duplication would inevitably follow and because State action has at least the excuse that the people have willed it and have thus consented to tax themselves for it, whereas Federal action must tax the unwilling as well as the willing. Upon this one important journal pleads that "the States are far more able at present to pay bonuses than the Federal Government is," since their war burdens were moderate; formerly, each State was expected to raise and equip its quota of men and was permitted to pay bounties, while in this war the Federal Government undertook and assumed everything. "The prompt and generous action of many of the States will greatly relieve the pressure on Congress," proceeds the journal; moreover, if soldiers from States which are paying bonuses are excluded from the Federal bonus, the people of those States would be taxed to aid the veterans of other States, while if all are equally covered, "some States would pay twice, and the others would pay only once." The last observation is plainly correct; there would be just such an inequality, but to say that the States have been less burdened by the war than the Federal Government and are therefore better able now to undertake additional burdens, shows an interesting and not uncommon confusion of thought. The Federal Government is not an entity, having a life and resources of its own, it is merely the sum of the States. The same people who pay taxes in their own States pay income and other taxes to the Federal Government; the same people who bore the war burdens, through that central government, must bear all added burdens, whatever those are, whether imposed by a State Legislature or by Congress.

The "Stars and Stripes," the professed organ of the war veterans, naturally comes to the defense of Senator McComber's bill. The action of the Chamber of Commerce, it says, is "an effort to scare business men with visions of heavier taxation or national bankruptcy," and it predicts the Chamber's opposition will prove futile. It possibly may, but heavier taxation, or, at the least, no appreciable relief from the present crushing load, must follow any scheme of general largess; that is a matter of obdurate arithmetic, and while business men and all taxpayers need not be "scared," they should be aroused and should get a clear understanding of the matter before their minds. Do they want and intend to have relief from the present burden, or are they willing that extravagance and squandering shall continue? They can have one of these, and it is for them to decide which and to cause action accordingly; but they cannot have both, for the two are opposed and cannot exist together.

This veterans' organ also tries to hang garlands on the bonus. "Many authorities," it says, hold that "the bonus would be a much needed stimulant; that the home and farm aid features of the bill would increase productive effort, while the cash feature would be a healthy tonic to the consuming market." To seize from the substance and earnings of all the people and pour them out again for "fructifying" would certainly stimulate some things; the harbor explosion here in 1916 did greatly stimulate the glass-setting industry, and a fire always makes work for various trades. As for the plea that the people have overwhelmingly indorsed the bonus in every State where it has been put to vote, the answer is that the expectant beneficiaries and their friends are naturally in its favor while others are very liable, as in case of every referendum vote, to take no notice of the question. Would not a proposition to give every adult $100 be very "popular" in this State, if offered for ratification at the polls?

Senator King, of Utah, considers the McComber bill the entering wedge of a service pension. He is opposed to that and to every form of cash bonus to

service men who suffered nothing by the war. He is in favor of taking all possible care of the sick and wounded, and believes this bill would interfere with that, as well as being utter recklessness in proposing additional outlays now which are not absolutely necessary.

The opponents of the scheme hope to muster strength enough to beat it on a straight vote. This looks unpromising, and they are more confident of being able to stave off a vote on it in this session, which they say is a special one and should not go beyond its special purposes; if they cannot do better they will try to amend so as to defer the beginning of the alternative payments for at least four years.

Which one of these attempts at resistance do the taxpayers of the country prefer, and which will they assist? Or are they indifferently trusting to a Providence that requires, as a condition of helping people, that they strive to help themselves?

The latest report from Washington is that Senator McComber, in a personal interview, has failed to win President Harding to the support of the bill and that a veto, if necessary, is not improbable; also that the bill is losing strength in the Senate, and that Senator Borah has opened fire on it, saying that he will fight it to the last. These encouraging reports, however, should increase rather than diminish expressions of opposition by the public.

As for the bonus in this State, there was some reason to suspect that the plan was to get the bonds out and in the hands of ostensibly innocent holders and thus present to the Court of Appeals, in the event of an issue raised perhaps a year or two hence, the alternative of a quasi repudiation or of finding some way of getting past the constitutional provisions already pointed out. But the failure of bankers to subscribe for the bonus bonds halted this plan (if it existed) and so a "friendly" action was hastily brought against the bank which made a $25,000 subscription if and when the question of validity was judicially settled affirmatively. The Appellate Division of the Supreme Court, Third Department, called especially for the purpose by Governor Miller, unanimously ruled on Monday in favor of the State's contention, but prudently omitted to file either opinion or argument. The constitutional inhibitions (already quoted in the "Chronicle") against giving or lending the State's credit in any manner "to or in aid of any individual, association, or corporation," and against giving or lending either "the credit or the money of the State to or in aid of any association, corporation, or private undertaking," were avoided by contending that this is not a case in which they apply and that the present purpose is public and hence "valid under first principles." The Attorney-General pointed to past pensions, and argued that the confiscation of private property founds a right to compensation and that "the induction of men into the war constituted confiscation of their persons during the emergency." But not all were inducted into the service, many went voluntarily. It is quite true that the Fifth Amendment of the Federal Constitution forbids taking private property for public use without just compensation; but that a man's body and life are parts of his private property is a new doctrine and seems to entitle the State's law officer to rank among humorists.

An appeal was taken, and the Court of Appeals, it is announced, will at once reconvene for passing on the matter, but the present understanding is that, in the event of a decision in favor of the validity of the bonds, a re-offering of them will be deferred until autumn.

THE INTERNATIONAL COTTON CONFERENCE.

The second world's cotton conference, which opened at Liverpool, England, on Monday, June 13, continuing its sessions three days in that city, then moved on to Manchester for the remainder of the week, and wound up its activities there on Wednesday of the current week, was a memorable event in the cotton industry. Attended by some 600 delegates from 19 nationalities, it was a truly international gathering, even though very largely made up of representatives from Great Britain and the United States. Furthermore, as indicating how thoroughly the cotton industry was represented at the conference, it is to be stated that growers, factors, manufacturers and distributers, were included among the delegates—in fact all interests concerned with the handling of the staple, from the putting in of the seed until the finished product reaches the ultimate consumer. Under these circumstances, it naturally follows that the business brought before the conference was of a character calculated to be of interest to all concerned. It is not our purpose to go into a comprehensive review of the proceedings of the conference, but some of the developments would seem to call for some reference. For instance, a paper by David R. Coker, of Hartsville, S. C., entitled, "How to Improve the Quality of American Cotton and Keep the Supply Adequate to the Demand," was highly interesting and instructive. In brief, Mr. Coker advocated scientific plant culture and the securing to the farmer of a proper differential for full length staple, so that he might see the profit in substituting good for poor seed. He argued, however, and with reason, that before any effective steps can be taken to further improve the average quality of the crop it was necessary that the price of cotton must be brought back to a profitable level. With that accomplished, no difficulty, he averred, will be experienced in maintaining a steady improvement in quality and an adequate supply.

One of the important subjects that engaged the attention of the delegates was the establishment of universal standards for American cotton. Mr. William R. Meadows, cotton technologist of the Bureau of Markets of the U. S. Department of Agriculture, in introducing the subject, called attention to the importance of having only a single set of standards, but said that although the idea was indorsed at a meeting held in Liverpool in 1913, it still remained unrealized. He pointed out the many advantages of the universal standard, and said that the simplest way to bring about its establishment would be for the leading cotton exchanges of Europe to adopt the official cotton standards of the United States for American upland staple, as they now exist, since they have already been considered and approved by competent cotton officials of the leading European exchanges. As opposed to Mr. Meadows's argument in favor of the United States standards, various delegates defended the Liverpool standards, stating that they had stood the test of half a century un-

altered, and advocated their acceptance as the world's standards. Mr. Meadows finally suggested the selection of a committee of experts to pass upon the matter, adding that if the Liverpool standards were found to be the best he stood ready to recommend their adoption. Commenting upon Mr. Meadows's arguments, leading cotton men in New York expressed the belief that the conference was not likely to adopt the American standard of grading, but were of the opinion that an excellent opportunity existed for the adoption of a compromise set of standards which would be acceptable throughout the world. The fact that the American standards were a matter of legislation, having been established by Congressional action, and therefore subject to change in the same manner, militated in the minds of some against the probability of their adoption. On the other hand, Liverpool has built its standards upon trade practice, and its grades, therefore, mean certain definite things developed from manufacturing experiences.

Among the other delegates from the United States who addressed the conference, may be mentioned Mr. Willis H. Booth, of the Guaranty Trust Co. of New York, who, on the theme, "Financing American Cotton for European Use," discussed the problem of assuring a practical and safe method of financing a larger quantity of American supplies, and, while he did not advocate any particular plan, believed much could be done on the lines of eliminating by orderly procedure the disparities responsible for the present exchange situation.

Mr. Giorgis Mylius, of the Italian Cotton Association, complained that American bankers demanded too heavy security. In his belief the signatures of the Italian spinner and Italian banker should be sufficient, but in some cases, he claimed, American bankers demanded a profit on exchange also. A practical answer to this was furnished by Mr. R. S. Hecht, of the Hibernia Bank & Trust Co., of New Orleans, who asserted that what worried the average American banker was the political risk, and he required as much protection as he could get.

At Manchester one of the principal addresses was read by Mr. John Taylor, legal adviser of the Federation of Master Cotton Spinners' Associations. With "Yarn and Cotton Contracts" as his subject, he said that, although custom has given much authority to verbal contracts, there was no safety in reality outside of written agreements. These would be the means of avoiding endless trouble and often actual litigation. The address possessed especial interest to those present, in view of the quite recent epidemic of contract cancellations. In the course of an address on "The Characteristics of Cotton Required by the Spinner and Present Defects in the Raw Material," Mr. William Haworth, of the Fine Cotton Spinners' Association, stated that, owing to faults in baling, foreign matter which did damage to machinery was often introduced, and this, he urged, could certainly be avoided with advantage to the trade. Speaking from the transporter's viewpoint, Mr. Arthur Watson, a railroad manager, advocated a more tightly packed bale, owing to greater convenience in handling and conservation of space, and less liability to damage by fire and water.

Another important paper read at the Conference was on "Needed Reforms in Compressing, Ginning and Baling," by Albert L. Scott, of Boston; Mr. Scott pointed out that if cotton was ginned while too wet, or if the ginning were done too rapidly, the result was rough, wasty, weak cotton. Failure to install modern cleaning attachments, he added, meant a lower grade of material and often a lower price to the farmer, as well as extra waste at the mill. Excessive sampling, he said, meant a direct loss of three or four pounds per bale, and estimated that the amount of cotton wasted amounted to 100,000 bales every year. Country damage from exposure in the open, said Mr. Scott, was probably the greatest economic loss to which the American bale was exposed. The American bale, he remarked, had long been an object of unfavorable comment the world over.

WARNING AGAINST EXCESSIVE BOND ISSUES IN CANADA.

Ottawa, Canada, June 24 1921.

That the organized bond dealers of Canada must use their strength and influence to check excessive bond issues and safeguard the credit of the country, even at their own immediate financial loss, was the text of a striking statement issued by J. H. Gundy of Toronto, retiring president of the Bond Dealers Association of Canada.

"Unless we can educate public opinion to conservatism instead of extravagance, to paying debts instead of incurring them," said Mr. Gundy, "I think that we are going along a road that is a serious one for Canada to follow. While we want to get securities to sell and, from a short-sighted viewpoint, it is to our interest to have lots of bonds, yet looking at the situation from a longer point of view and considering the interest of Canada as a whole, it seems to me the Bond Dealers' Association should frown upon the borrowing and spending of money and urge people to pay their debts rather than incurring new obligations so rapidly as has been the case in the past. If we can check this tendency to borrow to excess, the future of finance in Canada is one that we can look forward to with the greatest satisfaction."

Sir Henry Drayton, Minister of Finance, who was present during Mr. Gundy's remarks, firmly endorsed the warning given.

OIL PROSPECTS IN CANADA.

Ottawa, Canada, June 24 1921.

Cautious optimism characterizes the attitude of the Geological Survey, a department of the Dominion Government, relative to the costly and extensive investigations being carried on in the Northwest and in New Brunswick by the great oil corporations. Both the Imperial Oil Company, identified with Standard Oil, and the Anglo-Persian Company have experts and elaborate staffs working in Northern Alberta. Owing to the remoteness of these fields from the end of steel, coupled with the very high cost of transporting supplies and securing proof of a prospect, the characteristic "oil rush" has not taken place, and development has been confined to corporations of large capital.

Just now the attention of the Canadian business world has been diverted to New Brunswick where the Anglo-Persian Oil Company have concluded elaborate tests of shale oil-bearing properties in three counties. The value of these areas, which are of great extent, is said to depend upon the extraction of oil through distillation, involving a heavier initial outlay than is the case with free oil. Operations were commenced about two months ago by the

Anglo-Persian engineers and at present some fifty tons of shale rock are being put through daily. Contingent upon the success of this work, plans have been drawn up for a 5,000-ton plant which, it is said, will support a population of 15,000 people.

The New Brunswick tests so far show an average of 35 gallons of oil to the ton of rock, and 77 pounds of sulphate of ammonia. This compares favorably with the production of the Scottish fields of 15 to 18 gallons of oil and 56 pounds of ammonia. An average of from 33 to 40 gallons and 60 to 80 pounds of ammonia is looked for from the New Brunswick properties. Drilling has so far reached a depth of 1,500 feet in several places, while in one spot rock removed from 3,000 feet was so saturated with oil as to readily ignite on application of a flame. More than $150,000 has been spent already on the testing station. The whole of the financing is being handled by the Anglo-Persian Company, in which the British Government is a large stock holder.

THE ENDING OF WAR—AMERICA'S OPPORTUNITY.

"War, always picturesque, died its spiritual death dramatically. We may say with certainty, I think, that it proved itself outworn during that little moment of history between 1914-18. It was of no more use in spreading progress; and in itself it suddenly became dangerous, sordid, disturbing beyond the imagination of devils.

"The task before the 20th century is to check, to limit and finally to eliminate, the institution of war."

The alternative, if this is not accomplished, "means the elimination of whole races—always the best races—and the downfall of civilization."

The above sentences are from a new book* from the pen of Will Irwin, one of the most competent and best informed of the American correspondents at the Front. It has already been brought into prominence in connection with the debates in Congress on Disarmament and is certain to have wide influence. It is small and comprehensive, and the facts it sets in juxtaposition are startling, and in their combined array go far to compel the conclusions which are the serious purpose of the author. We cannot do better than to give them in outline.

After reviewing in a few pages the general effects of war in the past, and calling attention to the "New Warfare" occasioned by the abandoning of the hitherto respected restraining Code of War and the various new and terrible instruments of destruction devised and used in the recent fighting, we have a graphic account of what must inevitably be the character of the agencies employed in the next war. Gases of almost inconceivable deadliness and area in their power of destruction, bombs of great size to carry liquids producing gas, and also those spreading inextinguishable flames, aeroplanes and armed tanks of a size and power to rival "dreadnoughts," these are already catalogued widely.

Over against this are chapters giving the figures as nearly accurate as possible of the cost of the last war, as a basis of comparison with what must come in the next one. Of individuals, 10,000,000 soldiers died in battle or of wounds; between 2,000,000 and 3,000,000 additional were permanently disabled, and 30,000,000 more is the estimate of civilians who but for the war "might be living to-day"; this last the result of declining birth rates and the incidental effects of the warfare.

Then, of the race; the careful selection for war of so large a proportion of the sound and vigorous young men to be destroyed, turning back the "culls" to be the breeders of the next generation, and also the lifting of so many of the most virile of the women out of the homes, has an effect difficult to give in exact figures,but which is dramatically suggested in the experience of Spain, which, as a result of prolonged fighting, fell back from the world-circling empire of the 17th century to the exhausted and impotent Spain of the 19th. "Intensify nature with modern science and the matter gets beyond seeming."

Then there is the cost in money and the accumulated instruments of civilization. The visible cost can be computed, but the final cost is beyond even guessing. The national debts, which in many cases certainly cannot be paid, may be graphically stated. That of France, for example, is 46,025 millions, as compared with 6,346 millions in 1913. England's is 39,314 millions, as against 3,485 millions in 1913, and America's 24,974 millions, as against 1,028 millions in 1913; all in dollars. In actual money paid out over the counter the war cost 186 billion dollars. If to this is added the indirect cost in the destruction of property, loss of production, and the capitalized value of the human lives, the sum reaches 337 billion dollars. The national debt of France is almost exactly half her total wealth, farms, mines, factories, buildings, railroads, canals, everything she owns, the accumulation of 20 centuries. Great Britain's national wealth is 120 billions; and her debt is nearly 40 billions.

Compared with the San Francisco earthquake and fire, and the widespread financial disturbance occasioned by it, the visible destruction of property in Northern France alone, the equivalent of twenty or twenty-five San Francisco disasters would almost account for the present disturbed conditions in the whole world.

The United States has increased her national debt 24 fold, or from 1,028 millions in 1913 to 24,974 millions in 1920, and to meet her obligations her heavy income tax must continue for the lifetime of this generation. The war cost us 22,625† millions, as against 3,479 millions for the Civil War. In the fiscal year 1919-20 we spent 1,348 millions on the army and navy, against 65 millions for public works and 59 millions for education, public health and development. When it comes to the question of Preparation or Disarmament, for the cost of a single capital ship, of which the Government has sixteen under construction or planned, the entire plant of two or three great universities like that of Michigan, for example, with its faculty of 500 and 10,000 students, could be constructed.

We may cease to blame the Kaiser alone, or his counsellors alone, for the war; we may recognize that the Germans were carried along by a flood which had been rolling over them and molding their thoughts and their habits for forty years, we must perceive that their prompt acceptance of the decision when it was made was due to the completeness of the nation's preparation both mental and physi-

**The Next War*, by Will Irwin. E. P. Dutton & Co.

† We use the figures just as given by the author, though they are decidedly an underestimate.—Ed.

cal for war; but it does not follow that to-day we should proceed to strip ourselves of all national defenses. That goes beyond the reasonable love of peace which has been hitherto the American attitude toward war. Apart from its danger, completely laying down our arms would do no good, except as an example. We must reach further back than that into the structure of things; is the conviction of our author. We must secure the co-operation of all to repair this world-machine, "which is like some great complex engine; having broken a vital part, it tends to beat itself to pieces with its own power."

Some newspapers have suggested that as Germany is the only country that is "barbaric," in her manner of fighting, all the Allies have to do to prevent another war is to deplete Germany effectively now and then keep strong hands upon her in the future. The absurdity of the suggestion appears when one considers that war of necessity involves on all sides destruction as swift and complete as possible, and that the new agents of destruction are almost incredibly deadly and far-reaching in their instant effect; that they are laboratory products, and can be readily produced almost anywhere; and that they have practically superseded all the older explosives.

On this point Mr. Irwin gives some authoritative testimony. General Mitchell and Captain Bradner, testifying before Congress, said that a few hostile airplanes could drop enough gas-generating liquid every eight days to kill every inhabitant in an area 100 miles square. Colonel Fuller, the British authority, says "there is no reason why any number of cylinders containing deadly gas might not be released in England electrically to-day by a one-armed cripple sitting in Kamchatka." And General Swinton, discussing Colonel Fuller's report, says: "I imagine from the progress that has been made in the past that in the future we will not have recourse to gas alone, but will employ every force in nature that we can. We may not be far from the development of some form of ray that can be turned to deadly purposes . . . The final form of human strife, as I regard it, is germ warfare [spreading pestilence]. I think it will come to that, and I see no reason why it should not, if you mean to fight. We shall wage war on a wholesale scale."

If we are to envisage a "next war" at all we may as well recognize that all who are involved in it will be compelled to make use of every available means of destruction, if they would not be destroyed themselves.

The closing chapters are upon Proposed Ways of Peace. The times are ripe; war made a tremendous contribution to human experience, to collective human consciousness; it is of no more use in spreading progress; and of little use in building up the sense of collective duty; it "has died its spiritual death dramatically." Now we are summoned to take stock of preventive measures.

We have started them in our relations with Latin America on the one hand and with Canada on the other. The Hague Tribunal and the Versailles Peace Treaty mark lines of possible advance. United action of nations on a large scale has come within the scope of practical politics. Economic penalties, coupled with the moral effect of formal public condemnation, have gained a new importance and potency as guarantees of peace. While on the other hand the justice and peace-promoting value of equitable tariffs, ready access of all to raw materials and a continued purpose to furnish financial facilities for restoring the industries and the business of the depleted countries, all of which are open lines for immediate action, will go far to prepare the way and convince the world of the need for beginning a general disarming of the nations.

It is but a few years since the President of the United States had the privilege of bringing about the peace between Russia and Japan. Again a President of the United States has the opportunity of opening the way for a peace that will be for the world and for all time.

It is to be hoped that the support of the country will come to him so promptly and so powerfully that he will issue the invitation to the General Conference over Disarmament in terms that will convince the nations of the strength and earnestness of America's desire and purpose.

We have the first note of its timeliness in this word from Berlin. Dr. Wirth, the new German Chancellor and Foreign Minister, says: "In the near future we will fulfill pledges in disarmament as well as in payment, to show the world that we are doing whatever is in human power."

PHILIPPINE NATIONAL BANK CHANGES SYSTEM OF GRANTING CREDITS TO CONFORM WITH U. S.

E. W. Wilson, General Manager of the Philippine National Bank at Manila, announces through the New York office at 37 Broadway that the bank is changing the system of granting merchants' credits in Manila to conform to American practice. An announcement issued this week regarding the change says:

> Heretofore such credits have been mere overdrafts; the interest charges were calculated on the average daily balances against the banks' customers.
>
> Instead of this, promissory notes with proper endorsement or security are now required at the national bank, which will extend to the Bank of the Philippine Islands and probably to private banks later. Mr. Wilson is of the opinion that this plan gives opportunity to watch the banks' and merchants' interests closer and is in every way more desirable. In the few months he has been in charge of the national bank he has reduced the overdrafts 50%.
>
> Another thing which will affect business relations between America and the Philippines has been provoked by dumping, as merchants here allege, of orders from the United States. This was made possible by the "revolving credits" carried by reputable Manila houses—which have learned a dear lesson by it and will no doubt buy on a stricter basis in future.
>
> Many American houses shipping goods on back orders, after the price slump last year, were good enough to extend time for payment; but while this is commendable if the goods remain on merchants' shelves a year the price of the same quality of new goods is likely in many instances to be much lower than the cost of the overstocks. There are interest and insurance charges to be considered also.
>
> Like the South American trade, in placing orders in future, Philippine merchants will more and more insist that unless the goods are shipped prior to a fixed date the orders shall be cancelled.

NEW CAPITAL FLOTATIONS DURING MAY.

Continuing the practice begun in our issue of March 26, and kept up regularly since then, of presenting monthly compilations showing the new capital flotations in the United States, we give to-day, in tables further below, the figures for the month of May and the five months ending with May. As previously explained, these compilations are intended to furnish a summary of corporate, municipal and foreign Government financing as represented by the new stock and bond issues brought out each month.

It is almost superfluous to say that the May total is not of the same huge proportions as was that for April. In the latter month the aggregate had been swollen in unusual measure by the bringing out of the $230,000,000 Northern Pacific-Great Northern Joint 6½% Convertible bonds, and as this was mainly a refunding operation, its purpose being to provide for the taking up of the $215,227,000 4% Chicago Burlington & Quincy collateral trust bonds maturing July 1 1921, the figures given greatly exaggerated, by reason of that circumstance, the month's demand for strictly new capital. For April the total of the new capital flotations was $518,369,344, of which $222,158,500 was for refunding. For May the total now is only $377,608,044, of which $68,570,500 was for refunding or the taking up of existing

issues. Allowing for the portion representing refunding, the new capital demands for May were actually somewhat larger than for April, the amount being $309,037,544, against $296,210,844, which again shows the importance of distinguishing between the financing which is for refunding and that which is for new capital as is done by us. The total compares, however, with $372,747,932 in May 1920, but with only $208,369,325 in May 1919.

The feature of the financing for May was the borrowing on behalf of foreign governments. The Government of the French Republic, through a powerful banking syndicate headed by J. P. Morgan & Co., brought out its $100,000,000 20-year 7½% bonds, these being offered for subscription at 95 and therefore yielding 8% on the investment. Part of this loan goes to take care of the $50,000,000 City of Paris bonds maturing Oct. 1. Besides this, the United States of Brazil placed an issue of $25,000,000 20-year 8% bonds at 97½, to yield 8¼%, and Newfoundland negotiated in this country $6,000,000 6½% bonds, maturing in 1936, at 93⅝, the yield thus being 7.20%. The new financing on behalf of corporations was quite moderate, reaching (including securities issued in replacement of existing issues) $189,801,825, against $354,051,700 for May 1920 and $170,515,500 for May 1919.

As to the figures for the five months to May 31 we may repeat what we said in presenting the results for the four months, namely that while the grand aggregate of new capital flotations is of large dimensions, nevertheless the amount does not come up to that of last year, even including the refunding operations, while when these are eliminated the total falls substantially below the exceptionally large corresponding figures of the previous year. Including refunding, the new financing for the five months of 1921 foots up to $1,828,033,483, against $1,920,969,039 in the five months of 1920, but comparing with only $1,250,146,241 in the five months of 1919. Eliminating that portion of the new financing which represented the retirement in one form or another of outstanding security issues, the strictly new demands upon the investment markets for the five months of 1921 are found to have been no more than $1,402,044,808, against $1,766,726,120 for the five months of 1920, but as against only $1,036,462,981 in the corresponding period of 1919. In the case of corporate financing, the falling off in the new capital demands has been very marked, the amount of this for the five months of 1921 having been only $858,726,901, against no less than $1,442,791,091 in the five months of 1920 and $618,465,463 in the five months of 1919. On the other hand the borrowing by municipalities was on a greatly increased scale, reaching $340,067,907 in 1921, against $273,935,029 in 1920, and only $197,997,518 in 1919, while the foreign government loans placed here (after allowing $50,000,000 for taking up the City of Paris bonds) amounted to $160,000,000, against $50,000,000 for 1920 and $10,000,000 (outside of refunding) in 1919. The following is a three year summary for May and the five months.

SUMMARY OF CORPORATE, FOREIGN GOVERNMENT AND MUNICIPAL FINANCING.

	New Capital.	*Refunding.*	*Total.*
1921.

Current Events and Discussions

PRESIDENT HARDING'S LETTER TO CONGRESS ASKING FOR LEGISLATION TO REFUND ALLIES' LOANS.

The question of the refunding of the debt owed by the foreign governments to the United States was brought before Congress this week, when President Harding, in identical letters to Senator Penrose, Chairman of the Senate Financial Committee and Representative Fordney of the House Ways and Means Committee, urged that action on a request by Secretary of the Treasury Mellon for legislation empowering the latter to proceed with the refunding of the debt. The Secretary's request was contained in a letter to President Harding, a copy of which accompanied the latter's communication. The President also submitted a draft of a bill designed to authorize the Secretary of the Treasury "to refund or convert, and to extend the time of payment of the principal or interest on both" of the foreign obligations owing to the United States and to "adjust and settle any and all claims not now represented by bonds or obligations which the United States of America now has or hereafter may have against any foreign Government." Following a cabinet meeting on the 17th inst., at which the readjustment of the foreign loan situation was discussed, it was made known that legislation would be sought in behalf of the Secretary of the Treasury to clothe the latter with power to act. It was pointed out that in some cases the department already has that authority under the Liberty Loan Acts, but there are other instances, particularly relating to overdue interest, where additional legislative action is considered necessary. In his letter to President Harding, Secretary Mellon places the indebtedness of foreign governments to the United States growing out of the late war at $10,141,267,585. Other figures bearing on the debt are presented in tables which Secretary Mellon submits, and these are referred to in another item in this issue of our paper. Herewith we give President Harding's letter to Senator Penrose.

THE WHITE HOUSE.

Washington, D. C., June 23 1921.

My Dear Senator.—I am enclosing to you herewith a copy of a letter which I have received from the Secretary of the Treasury relating to the obligations of foreign governments to the United States which arose out of the World War and our participation therein.

The statement is a comprehensive one showing the detailed obligations which are owing to the United States, and the Secretary points out the urgent necessity of broad powers being granted by the Congress for the arrangement for the refunding or conversion or extension of the time payment of principal and interest on these obligations, and the adjustment of other claims of the United States against foreign governments. All the circumstances suggest the grant of broad powers to the Secretary of the Treasury to handle this problem in such a manner as best to protect the interests of our Government.

I hope your Committee and the Congress will find it consistent promptly to sanction such an act as that which is suggested by the enclosed draft. If the Congress will promptly sanction such a grant of authority the Secretary of the Treasury may proceed to the prompt exercise of the powers granted to him, and we reasonably may expect a satisfactory handling of the obligations due and the claims of our Government which are awaiting settlement.

Sincerely yours,

WARREN G. HARDING.

Hon. Boies Penrose, Committee on Finance, United States Senate.

Secretary Mellon's letter to the President follows:

June 21 1921.

My Dear Mr. President.—I desire to call to your attention the situation respecting the matter of the refunding of the debt of foreign governments to the United States arising out of the European War.

This debt as now held, summarized, is as follows:

Obligations for advances made under the various Liberty Bond acts	$9,435,225,329 24
Obligations received from the American Relief Administration	84,093,963 55
Obligations received from the Secretary of War and from the Secretary of the Navy on account of the sale of surplus war materials	565,048,413 80
Obligations held by the United States Grain Corporation	56,899,879 09
Total	$10,141,267,585 68

Annexed hereto are statements showing in detail the obligations above referred to, giving, as to each class, the amount owing by each country and, in the case of loans from the proceeds of Liberty Loan bonds, the amount thereof loaned from the proceeds of the first Liberty Loan bonds and the amount from subsequent Liberty Loan bonds.

From this statement it will be seen that the obligations in respect of loans from the proceeds of Liberty bonds are all demand or overdue obligations, while the other classes referred to mature at various dates, beginning June 30 1921, and extending to Aug. 1 1929. The obligations mentioned as being held by the United States Grain Corporation from foreign Governments on

account of the sale of flour under the Act of Mar. 30 1920. As they may at any time be turned into the United States Treasury, and some of them mature on June 30 next, they are included here so that they may be dealt with along with other like obligations.

From the statement it will also be seen that the obligations of the various classes named are largely owing by the same debtors; that is to say, this Government in the refunding of the various classes of these obligations will to a considerable extent have to deal with the same Governments.

I am advised that, except as to advances made out of the proceeds of Liberty Loan bonds, this department is without authority to consent to any extension of the time for payment of the principal or of the interest of these obligations or to proceed with the refunding thereof. As to the advances made out of the proceeds of Liberty Loan bonds, the existing authority contains such diverse provisions as to interest rates, the maturity and other terms of the refunding bonds that may be accepted by the department as make it difficult to formulate a plan whereby the interests of this Government may be as well protected and the bonds to be received by in as desirable form as would be the case if the entire debt of each country could be dealt with as a whole and free from such restrictions.

In some cases the debtor nations owe large amounts to other countries as well as to the United States, and it may be advisable, and in some cases indeed necessary, to consider comprehensively the entire debt of such countries, their financial condition and resources, so as to work out a refunding plan reasonably within the ability of such countries to carry out.

In the case of some of the debtor countries it is impossible for them to make payment of their obligations as they now mature. It is impossible for some of them to make payments of the maturing interest. To insist on payment might be disastrous to the peoples of such countries; besides, there may have to be given consideration to the bearing of the adverse foreign exchange rates existing at the time against these debtor countries and which may make it desirable to defer payment of interest.

Under the circumstances I have briefly referred to it is, I think, clear that, by reason of the lack of any authority as to a part of these foreign obligations and the restrictions upon the existing authority as to the others, it is impossible in any refunding, under the varying conditions that exist, to deal fairly with the debtor countries and at the same time protect the interests of this country.

To do this it is essential that the Department have ful authority as to all such foreign indebtedness to determine the form and terms of the settlements and of the refunding obligations, the rate or rates of interest, the maturity dates and the right to extend the time for the payment of interest on the indebtedness to be refunded. It is also of importance that the Department should have adequate authority to adjust and settle claims against foreign governments which are not in the form of bonds or obligations, as for example the claim for costs of our military forces of occupation.

I have had prepared a draft of an Act of Congress to accomplish the purpose stated and should you transmit this communication to Congress shall be glad to appear before the appropriate committees relative to the situation and the necessity for the authority requested. Faithfully yours,

A. W. MELLON, *Secretary*.

The following is the draft of the bill submitted with the above letters:

To enable the refunding of obligations of foreign governments owing to the United States of America, and for other purposes:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Treasury, with the approval of the President, is hereby authorized from time to time to refund or convert, and to extend the time of payment of the principal or interest, or both, of any obligation of any foreign government now owing to the United States of America, or any obligation of any foreign government hereafter received by the United States of America (including obligations held by the United States Grain Corporation), arising out of the European War, into bonds or other obligations of such, or of any other foreign government, and from time to time to receive bonds and obligations of any foreign government in substitution for those now or hereafter held by the United States of America, in such form and of such terms, conditions, date or dates of maturity, and rate or rates of interest, and with such security, if any, as shall be deemed for the best interests of the United States of America, and to adjust and settle any and all claims, not now represented by bonds or obligations, which the United States of America now has or hereafter may have against any foreign government and to accept securities therefor.

Senator Penrose announced that hearings on the bill would begin on Wednesday next.

AMOUNTS OF FOREIGN INDEBTEDNESS TO UNITED STATES.

In another item in this week's issue of our paper we refer to the legislation sought by Secretary of the Treasury Mellon to enable the refunding of the obligations of foreign Governments and to effect the adjustment and settlement of claims which the United States has against foreign Governments. These plans are dealt with in letters of President Harding and Secretary Mellon, the latter in his letter summarizing the foreign debt as follows:

Obligations for advances made under the various Liberty Bond Acts	$9,435,225,329 24
Obligations received from the American Relief Administration	84,093,963 35
Obligations received from the Secretary of War and from the Secretary of the Navy on account of the sale of surplus war material	565,048,413 80
Obligations held by the U. S. Grain Corporation	56,899,879 09
Total	$10,141,267,585 68

Secretary Mellon also presents various tables bearing on the war indebtedness of foreign nations to this country. One of these shows that nineteen foreign countries owe the United States a total of $10,141,267,585, as follows:

Great Britain	$4,166,318,358	Greece	$15,000,000
France	3,350,762,930	Esthonia	13,999,144
Italy	1,648,034,050	Cuba	9,025,500
Belgium	375,280,147	Armenia	11,959,917
Russia	192,601,927	Finland	8,281,926
Poland	135,661,659	Latvia	5,132,286
Czecho-Slovakia	91,179,527	Lithuania	4,981,627
Serbia	51,153,159	Hungary	1,685,835
Rumania	36,128,494	Liberia	26,000
Austria	24,055,708		

Other information was supplied as follows by Secretary Mellon:

Advances under the Liberty Loan included:

Great Britain	$4,166,318,358	Serbia	$26,175,139
France	2,950,762,938	Rumania	23,205,819
Italy	1,648,034,050	Greece	15,000,000
Belgium	347,691,566	Cuba	9,025,500
Russia	187,729,750	Liberia	26,000
Czecho-Slovakia	61,256,206		

Obligations received on account of sales of surplus war materials included:

France	$400,000,000	Rumania	$12,922,675
Poland	59,636,320	Esthonia	12,218,377
Belgium	27,588,581	Lithuania	4,159,491
Serbia, Croats and Slovenes	24,978,020	Latvia	2,521,869
Czecho-Slovakia	20,621,994	Russia	406,082

Obligations held by the Grain Corporation included:

Poland	$24,353,590	Czecho-Slovakia	$2,873,238
Austria	24,055,708	Hungary	1,685,835
Armenia	3,931,505		

Obligations received from the American Relief Administration included:

Poland	$51,671,749	Latvia	$2,610,417
Finland	8,281,926	Russia	4,465,465
Armenia	8,028,412	Esthonia	1,785,767
Czecho-Slovakia	6,428,089	Lithuania	822,136

A statement of the obligations held by the Treasury for amounts owed by foreign governments to us is submitted by Secretary Mellon, this including:

OBLIGATIONS HELD FOR ADVANCES UNDER LIBERTY BOND ACTS—INTEREST AT 5%.

FEDERAL RESERVE BOARD ON GERMAN REPARATIONS SETTLEMENT.

The German reparation terms finally agreed upon are commented upon at length by the Federal Reserve Board in its preliminary June "Bulletin," and it describes the

settlement as marking "the return of a greater degree of sanity in European affairs" and opening "a more promising outlook accordingly for future economic readjustment there." It points out, also that it has a special bearing upon the position of the United States, this being "found in the fact that the adjustment unquestionably eliminates the most serious element of uncertainty that has affected international trade since the war." That our market will be called upon to carry a substantial share of the necessary financing growing out of the German adjustment, will naturally, says the Board, be unavoidable. It further states that the Cabinet, after considering at its meeting on May 20 the question of foreign loans, announced that the proceeds should be used for the purchase of goods for export. We quote herewith what the Board has to say:

The Reparations Settlement.

Outside the field of domestic financial problems and the technique of their solution, there have been observed during the past month some occurrences of large importance in their bearing upon international trade and the general prospects of its development. Chief among these is undoubtedly the German reparations plan, as made known on May 5 in official form, and as interpreted by Mr. Lloyd George in his address in the House of Commons on the same date. The final agreement upon terms in the reparations controversy must without doubt be regarded as the triumph of economic over political considerations. It thus marks the return of a greater degree of sanity in European affairs and opens a more promising outlook according ly for future economic readjustment there. This in itself would mean the attainment of a basis of understanding of first class economic significance as a general factor in reconstruction. It has, however, a special bearing upon the position of the United States. This is found in the fact that the adjustment unquestionably eliminates the most serious element of uncertainty that has affected international trade since the war. So long as there was hesitation regarding the final adjustment, trade between Germany and all other nations, including the United States, was necessarily more or less interrupted. Not only was this true, but the considerable investment of American capital in German enterprises which had begun about a year ago could not safely be continued and was necessarily suspended. Sale of German Government obligations in this country, whether with or without Allied indorsement, was equally unlikely to be successful—indeed, ever since the appearance of serious friction regarding the settlement there has been a practical cessation of European offerings of most kinds. This situation fortunately has already become much less acute and conditions are approaching a rather more normal position. That our market will be called upon to carry a substantial share of the necessary financing growing out of the German adjustment will naturally be unavoidable. The Cabinet, after considering at its meeting of May 20 the question of foreign loans, announced however that the proceeds of such as are made should be used for the purchase of goods for export, or in other words, that such advances as we make ought to be taken in goods.

Terms of the Settlement.

In its actual terms the German settlement, though nominally simple, offers numerous complexities. The official text of the protocol made public by the French Government fixes the total payable under Articles 231, 232 and 233 of the Treaty of Versailles at "132,000,000,000 gold marks, less (*a*) the amount already paid on account of reparation; (*b*) sums which may from time to time be credited to Germany in respect of State properties in ceded territory, &c., and (*c*) any sums received from other enemy or ex-enemy Powers in respect of which the Commission may decide that credit should be given to Germany, plus the amount of the Belgian debt to the Allies, the amounts of these deductions and additions to be determined later by the Commission." This total sum is to be represented by (*a*) bonds amounting to 12,000,000,000 marks delivered by July 1 1921, bearing interest at 5%, and with an annual sinking fund of 1%; (*b*) bonds amounting to 38,000,000,000 marks deliverable Nov. 1 1921 and bearing interest and sinking fund as in the case of the first series; (*c*) bonds amounting to 82,000,000,000 marks, with interest and sinking fund provided for as before. As deduction from the amount of the (*c*) bonds, however, there will be reckoned the allowances already specified above. These three classes of bonds become successive liens on incomes which are described as follows: "(*a*) The proceeds of all German maritime and land customs and duties, and in particular the proceeds of all import and export duties; (*b*) the proceeds of a levy of 25% on the value of all exports from Germany, except those exports upon which a levy of not less than 25% is applied under legislation referred to in article 9; (*c*) the proceeds of such direct or indirect taxes or any other funds as may be proposed by the German Government and accepted by the committee on guarantees in addition to, or in substitution for, the funds specified in (*a*) or (*b*) above."

Out of the revenues thus set apart (or under certain conditions from others) Germany is required to pay "(1) the sum of 2,000,000,000 gold marks; (2) (*a*) a sum equivalent to 25% of the value of her exports in each period of 12 months, starting from May 1 1921, as determined by the Commission, or (*b*), alternatively, an equivalent amount as fixed in accordance with any other index proposed by Germany and accepted by the Commission; (3) a further sum equivalent to 1% of the value of her exports, as above defined, or, alternatively, an equivalent amount fixed as provided in paragraph (*b*) above." A feature of doubt with reference to the operation of these provisions is afforded by the ambiguous provision which follows immediately the language already quoted with respect to the sums to be used in making the reparations payments: "Provided always that when Germany shall have discharged her obligations under this schedule, other than her liability in respect of outstanding bonds, the amount to be paid in each year under this paragraph shall be reduced to the amount required in that year to meet the interest and sinking fund on the bonds then outstanding." Interpreting this provision, however, Mr. Lloyd-George in his address in the House of Commons on May 5 used the following language:

"* * * It is clear that at first there will be not enough to pay interest, and you can hardly expect to receive enough money to pay interest upon the whole of the amount due, which is £6,600,000,000, and 6% upon that would be £400,000,000 sterling. Then comes the question what is to be done with the interest in respect of the unissued bonds. Under the treaty, Germany was debited with interest at 5% upon the whole of the debt due from her, with certain powers left to the reparations commission to vary the amount. What is proposed to be done now is that 25% on the exports is to be devoted, with the fixed annual sum, to the payment of the bonds which will be issued. If there is a balance over and above that for any given year, it is to be devoted to the payment of interest upon the unissued bonds, which represents the uncovered capital of the debt, together with a sum equal to 1% of her exports. Beyond that the interest will be wiped out. It will not accumulate against her, and that is a very important concession, and I hope it will have important effects."

Not the least interesting clause in the reparations protocol is found in paragraph 5 of that document, which requires that "Germany shall pay within 25 days from this notification 1,000,000,000 gold marks in gold or approved foreign currencies or approved foreign bills or in drafts at three months on the German Treasury, indorsed by approved German banks and payable in pounds sterling in London, in francs in Paris, in dollars in New York, or any currency in any other place designated by the Commission. These payment will be treated as the two first quarterly installments of payments provided for in Article 4, paragraph 1." The provision of Article 4, paragraph 1, referred to, is the language already quoted above as regards a lump-sum payment of 2,000,000,000 marks and an additinoal amount equal to 25% of her exports.

RETURN OF AMERICAN DOLLAR SECURITIES BY BRITISH TREASURY.

We have, from time to time, given the lists of American securities scheduled for return by the British Treasury. One of these lists showing the securities to be returned during June has not heretofore been given in these columns, and we hence take occasion to print the same to-day. The securities to be returned in July were indicated in our issues of April 9, page 1463 and April 23, page 1684; those announced to be returned in August were reported in these columns May 28, page 2248, while the list of those which will be returned Sept. 1 and 2 was given in our issue of Saturday last, page 2591. The following are the securities announced for return in June.

REGULATION OF FOREIGN EXCHANGES.
(Loan of Securities to the Treasury, Scheme B.)

The Treasury is making arrangements, subject to unforeseen circumstances, for the return of the following securities to holders in June 1921. The three months' notice required by the Deposit Scheme will be issued at the proper time, and it will then in view of the arrangements for packing, shipment, and reception here, no longer be possible to accept instructions for release of these securities in New York.

OFFERING OF SANTO DOMINGO BONDS BY SPEYER & CO. AND EQUITABLE TRUST CO.

Speyer & Co. and the Equitable Trust Company of New York have purchased from the United States Military Government of Santo Domingo $2,500,000 Dominican Republic Four-year 8% Customs Administration Sinking Fund Gold bonds External Loan 1921 and, beginning June 20, are offering the same for subscription at par and interest, yielding (according to date of redemption) from 18.91%, if drawn on Dec. 1 1921, to 9.07%, if paid at maturity June 1 1925. The bonds are to be dated June 1 1921, and mature June 1 1925. Principal, premium and interest are to be payable free of all present or future Dominican taxes, in United States gold coin, at the office of The Equitable Trust Company of New York, the Fiscal Agents of the loan. Interest is payable June 1 and Dec. 1. The bonds are to have a sinking fund sufficient to retire each year at least one-quarter of the total amount of the bonds at 105 and interest. Bonds are to be drawn by lot semi-annually for payment at 105 and interest on each interest date, beginning Dec. 1 1921. All bonds not previously retired by sinking fund are to be paid at maturity at 105 and interest. The issue of these bonds has been approved by the United States Government under the terms of the American Dominican Convention of 1907 and by the United States Military Government of Santo Domingo, and the bonds will contain the following clause:

"With the consent of the United States there is secured the acceptance of and validation of this bond issue by any Government of the Dominican Republic as a legal, binding and irrevocable obligation of the Dominican Republic, and the duties of the General Receiver of the Dominican Customs as provided under the American Dominican Convention of 1907, are extended to this bond issue."

An announcement by Speyer & Co., says:

Until all the bonds are redeemed the Dominican Republic cannot increase its debt or modify its customs duties without the consent of the United States Government, and its customs revenues will be collected by a General Receiver of Customs, appointed by and responsible to the President of the United States.

The bonds are to be secured by a charge upon the customs and other revenues of the Dominican Republic, subject to existing charges and expenses of collection. The customs revenues for the period Aug. 1 1907 to Dec. 31 1920, have averaged annually $4,040,000—the highest returns were $6,274,000 for the year 1920, and the lowest, $2,877,000 for the year 1910.

The amount required for the fixed interest and sinking fund of the loans of 1908 and 1918 and of the present loan is about $2,350,000 per annum.

The Republic's total funded floating debt as of May 31 1921, together with the amount of the present loan is $13,154,343. During the period Nov. 30 1916, to May 31 1921, the Republic reduced its debt by over $10,000,000, or approximately one-half. In addition, the Republic has spent during the same period, under the supervision of American engineers, approximately $6,000,000 for public works of various kinds.

The proceeds of this loan are to be used mainly for the completion of essential public works, consisting of roads, port improvements, schools, &c., and in part for the retirement of Certificates of Indebtedness. This work will be done under the supervision of American engineers, and such portion of the loan as is used for the purchase of supplies and equipment will be pent in the United States.

In connection with the announcement of the withdrawal of the Military Government within a period of eight months, emphasis is placed upon the act that the General Receiver of Dominican Customs, appointed by the President of the United States, as mentioned above, who has been functioning without interruption since 1907, w l cont nue his duties until the last of these bonds has been paid.

In our issue of Saturday last (page 2603) we referred to negotiations which were under way between the military Governor of Santo Domingo and New York bankers for the sale of these bonds.

TEXT OF BILL SIGNED BY PRESIDENT HARDING AMENDING EDGE ACT.

As announced in these columns last week (page 2594), President Harding has signed (June 14) the bill amending the Edge Act so as to modify the requirements respecting the payments as to the paid-in capital of corporations organized under the Act. The amendment does away with that provision of the law requiring that, after initial payments of 25% of subscriptions to the capital stock of Edge Law corporations, subsequent payments shall be in installments of at least 10% of the total amount of subscriptions, in 60-day periods. Under the amendment, after the initial payment of 25%, subsequent payments may, with the consent of the Federal Reserve Board, be paid in upon call of the Boards of Directors of such corporations. We reported in our issue of May 7 (page 1922), the passage of the amendment by the Senate on May 2. The House passed the bill on June 6. The following is the text of the bill as approved by President Harding.

[S. 86.]

AN ACT to amend the Act approved December 23 1913 known as the Federal Reserve Act.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 25 (a) of the Federal Reserve Act, being the section added to said Act by the Act approved Dec. 24 1919, be amended so that the first sentence of the paragraph prescribing the amount of capital stock a corporation organized under that section is required to have and prescribing also the manner in which such capital stock must be paid in, said paragraph being the fourth paragraph following subparagraph (c) of said section, shall read as follows:

"No corporation shall be organized under the provisions of this section with a capital stock of less than $2,000,000, one-quarter of which must be paid in before the corporation may be authorized to begin business, and the remainder of the capital stock of such corporation shall be paid in installments of at least 10 per centum on the whole amount to which the corporation shall be limited as frequently as one installment at the end of each succeeding two months from the time of the commencement of its business operations until the whole of the capital stock shall be paid in: *Provided, however*, That whenever $2,000,000 of the capital stock of any corporation is paid in the remainder of the corporation's capital stock or any unpaid part of such remainder may, with the consent of the Federal Reserve Board and subject to such regulations and conditions as it may prescribe, be paid in upon call from the board of directors; such unpaid subscriptions, however, to be included in the maximum of 10 per centum of the national bank's capital and surplus which a national bank is permitted under the provisions of this Act to hold in stock of corporations engaged in business of the kind described in this section and insection 25 of the Federal Reserve Act as amended: *Provided further*, That no such corporation shall have liabilities outstanding at any one time upon its debentures, bonds, and promissory notes in excess of ten times its paid-in capital and surplus.

Approved June 14 1921.

It is believed that this amendment will greatly facilitate the obtaining of subscriptions to the capital stock of the Foreign Trade Financing Corporation, and so aid materially in bringing into existence at the earliest possible moment, this instrumentality for the maintenance and development of America's foreign trade. During the discussion of the bill in the House on June 6 Representative Appleby had read nto the Record the following letter from Governor Harding of the Federal Reserve Board approving the bill.

Federal Reserve Board, Office of the Governor, Washington, April 16 1921.

My Dear Senator Edge.—Upon receipt of your letter of the 14th instant, inclosing a copy of Senate bill 86 to amend section 25 (*a*) of the Federal Reserve act, I brought the matter to the attention of the Federal Reserve Board, all members being present except the Secretary of the Treasury. I have not had an opportunity so far of ascertaining what his views are, but the bill was considered by the Board in regular session and met with the unanimous approval of the those present, and I was authorized to inform you of the fact.

The law as it stands at present authorizes the organization of corporations with a minimum subscribed capital of $2,000,000 of which at least 25% must be paid in before the corporation can begin business; and it provides further that the remainder of the capital stock must be paid in installments of at least 10% on the whole amount of the subscribed capital as frequently as one installment at the end of each succeeding two months from the time of the commencement of business operations until the whole of the subscribed capital stock shall be paid in. Your amendment, as the Board understands it, provides in cases of corporations having a larger subscribed capital that whenever $2,000,000 of the capital stock is paid in, the remainder of the corporation's capital stock or any unpaid part of such remainder may, with the consent of the Federal Reserve Board, be paid in upon call from the board of directors.

As the present law limits the investment of member banks in the stock of corporations organized under the provisions of either section 25 or 25 (*a*) of the Federal reserve act to an amount not exceeding 10% of the subscribing bank's capital and surplus, the Board feels that it is important that no member bank should have a contingent liability for unpaid subscriptions, which, added to the amount paid in, would exceed the maximum of 10% of the subscribing banks capital and surplus. The proviso in your bill, however, that the unpaid subscriptions must be included in the maximum of 10% of the national bank's capital and surplus which a national bank is permitted under the provisions of the act to hold in stock of corporations engaged in business of the kind described in section 25 and 25 (*a*) of the Federal reserve act, seems to cover this point adequately and appears to the Board to remove any danger of oversubscription.

In the opinion of the Board the public is also protected by the second proviso in the bill that no such corporation shall have liabilities outstanding at any one time upon its debentures, bonds, and promissory notes in excess of ten times its paid-in capital and surplus.

W. G. REDFIELD ON BENEFITS THROUGH FOREIGN TRADE FINANCING CORPORATION.

William G. Redfield, President of the American Manufacturers' Export Association and a member of the Committee on Organization of the Foreign Trade Financing Corporation, spoke before the Virginia Bankers' Association at Hot Springs, Va., June 17 on "Export Trade Conditions and means for their Improvement." He said:

From out the murk and confusion of conflicting world conditions, this fact emerges and will not down—America must sell abroad or wither at home. We have no choice in the matter. We cannot by any conceivable effort or advice bring ourselves where we shall not have a large surplus for which the only market possible is in foreign lands. Cotton, wheat, oil, lumber, agricultural machinery, steel and numerous other products we must sell to the world outside of America or we cannot sell them at all. The alternative to the failure of foreign sale is the failure to sell anywhere. The domestic comfort of the South because of cotton, of the wheat growing States of the Central West, of the oil producing States and of those communities whence the river of steel flows out is all depending on the outward flow of goods to other countries.

It is my belief that if the great Foreign Trade Financing Corporation, which has been proposed, can be brought into active being at an early date, it may undertake not only the problem of long-term financing wherever

t
hat can be sagaciously and safely done but also and increasingly the problem of placing under its own guidance and control and under the privilege of stock ownership, which is granted it by law and regulation, American investments in various parts of the world, too be sources of profit and to be centres of influence for American trade.

F. W.GEHLE ON IMPORTANCE OF FOREIGN CREDIT MACHINERY.

According to F. W. Gehle, of the Mechanics & Metals National Bank of New York, more than at any time before the necessity is apparent for the setting up of credit machinery like that proposed by the organization committee of the Foreign Trade Financing Corporation. Mr. Gehle pointed out that "through the inability of foreign buyers to pay cash for our goods, and through the inability and undesirability of our commercial banking system to provide long-time credits, exports have fallen severely, and the consequent embarrassment is more pronounced than it has been at any time before." From a practical viewpoint, he continued, "the importance of the subject arises not only from the fact of declining exports, but also from the fact that the United States continues in need of a mechanism which will take from the commercial banks the burden of supplying foreign credits which are in effect long-term commitments." Mr. Gehle, whose remarks on the subject were presented at the conference of the New England Bankers' Association in Boston on June 11, added in part:

One reason for the situation which exists to-day is the degree in which the credits of our commercial banks have become "frozen." By conservative estimate 4 thousand million of open credits have been accumulated in the United States as a consequence of trade relations, and the necessity for extensions and adjustments of these accounts for a great deal of the uncertainty that is in our minds concerning the future.

Were proper machinery in operation to pass on the credits, like those described to investors, through the means of well operated and carefully conducted Edge Act corporations, the existing condition would not show the marks of intensity it is showing. To be sure, shifting the burden of long-time foreign trade credits out of the channels of short-term commercial banking into investment channels would not relieve us of all the consequences of the war. But it would be a long step—a very long step—toward establishing the equilibrum and stability that are so longed for by us all.

Were the machinery now in operation which the proposed Foreign Trade Financing Corporation intends to set up, it would assist materially in establishing a sound basis for the entire country's export trade. You naturally ask why it is not set up now and at work. It is exactly six months ago to-day that the Organization Committee of this Corporation was appointed at the nationwide conference of bankers and business men that was held at Chicago under the auspices of the American Bankers Association, the Chamber of Commerce of the United States and the National Foreign Trade Council. This Organization Committee set out to form a Corporation with $100,000,000 of capital which would have the power to extend credit to the extent of $1,100,000,000. It carried its campaign to every bank and every exporter of the country. Had a fair proportion of these responded to the campaign favorably, the Corporation would be in operation to-day. But one obstacle followed another. Objection was made to the size of the Corporation. People wanted to know what the profit was to be on the stock. They wanted to know where credit was to be extended and why. Legal restrictions in a majority of the States of the Union were met. A sentiment was discovered against the extension of credit to foreign people.

The fault, in my estimation lies with the general attitude of the country, which until recently was one not of a great vision, but one more or less of complacency and self-satisfaction. Having since 1914 had the trade of the world thrust upon them, and having profited vastly as a consequence, there was among the rank and file of our people a sentiment that somehow or other trade and its profits would go on, regardless of the warnings that were being issued of the impending change.

Now, however, they are coming swiftly to appreciate what foreign trade really means to them. The prices received by the farmer for his wheat is 50% below its level at this time last year; corn is down 70%; cotton is down 60%; steel is down 50%; copper 40%—other commodities are far below their prices of the period when exports were moving forward in record volume.

I do not say that prices would be high and that a business boom would now be under way were our exports at their recent large volume, but I *do* say that the present depression has been intensified by the collapse that has taken place in our foreign trade.

I believe that bankers and business men throughout the country, appreciative of this, are ready to respond to the leadership of those who have for the past six months been preaching day in and day out the necessity for the establishment of long-term foreign credits. Hence, I believe that the time is near at hand when the Corporation can get started with a fair sized capital—not $100,000,000 necessarily—with every prospect of success.

W. F. H. KOELSCH ON NEED OF DEVELOPING FOREIGN TRADE.

In his annual report at the Convention of National Association of Credit Men at San Francisco on June 14, W. F. H. Koelsch, President of the New Netherland Bank of New York stated that "it is high time that we, as a people, begun to realize that we cannot prosper alone. While it is true that the United States needs foreign trade more than at any time in its history, this trade will not be secured and held without great efforts on our part. At home, these efforts will have to be directed against measures devised by men who believe that America can be prosperous even if the rest of the world faces industrial stagnation. A condition that never can be realized." Mr. Koelsch also said in part:

In the Nation itself, I have watched carefully the various steps of the depression and considered in what ways it might be relieved and a revival of prosperity enjoyed. Serious economic mistakes were committed after the signing of the armistice. Speculation and extravagance were rife in the land, efficiency dropped down and morals lowered. Conditions such as these could produce but one result—an unfavorable reaction in business, such as we have experienced so keenly. In our international trade we have suffered a serious set-back owing to the dislocation of the exchanges and a deferral and repudiation of contracts that have tied up in the ports of the world large sums in frozen credits. The restoration of our international commerce depends largely on long credits, in my sincere judgment. These long credits we are better able to extend than any other people. The machinery for doing so is now made possible in a most practical way under the Edge Act taking advantage of which we may charter under Federal grant institutions whose affairs will be under the supervision of the Federal Reserve Board. These may invest in long term credits and securities arising in foreign trade such as the Federal Reserve banks can not lawfully and should not be permitted to invest in because their assets must be left liquid. The good offices of these corporations, notably that contemplated under the style of the Foreign Trade Financing Corporation should be able to furnish long time credits to foreign buyers through the sale of its debentures to the people based on satisfactory security furnished by the foreign buyers of American products. The reversal of our position from a debtor to a creditor Nation brings obligations which we have not yet recognized but must if we are to be saved from muddling our opportunities and seriously affecting our return to prosperity. We must learn to invest in foreign lands. Trade will follow our investments. We must also learn to buy as well as sell. We must not expect to sell alone as a creditor nation. There is no rule in the business universe that would long permit that. We would simply continue to demoralize our opportunities and retard our production for foreign markets.

H. M. ROBINSON ON URGENCY OF READJUSTMENT OF INTERNATIONAL ACCOUNTS.

The statement that probably the greatest difficulty against a reasonably prompt return to normal conditions lies in the rearrangement of international accounts was made by Henry M. Robinson, President of the First National Bank of Los Angeles and the Los Angeles Trust & Savings Bank in an address before the National Association of Credit Men at their annual convention at San Francisco on June 15. Mr. Robinson alluded to the fact that the positions of the various nations at war, and those from whom they purchased war materials, have shifted more rapidly than ever before in the history of the world, and this shift has led the nations into uncharted seas, where they are faced with new problems—problems the governments and peoples have never before been called upon to solve. "The United States as a Creditor Nation" was the title under which his remarks were presented, and among other things he stated that "More to our advantage than all else in the permanent investment of our moneys abroad and the extension of long-time credits through the Foreign Trade Financing Corporation will be the definite setting up of machinery that makes possible the readjustment of the conditions as between nations." In part, Mr. Robinson also said:

The shifting of the positions of the nations as placed us most advantageously, but we are in danger of losing this position through inexperience and our inconsistent attitude in the problems that confront us.

We are acquiring additional gold from the less fortunate nations; we are establishing, or endeavoring to establish, protective tariffs and even embargoes against an influx of goods from the nations in our debt; and we are endeavoring to increase and maintain our exports and to move them in our own ships.

It is obvious that all these things cannot be continued successfully at one and the same time.

In order to maintain a reasonable prosperity, we are most anxious to give employment to our people and to use all of our productive facilities. Neither of these things can be done unless we can dispose of our excess products. Is it not, therefore, evident that we can continue to dispose of our excess products only if and when exchange is brought more nearly to its normal condition?

The nations of the world with whom we trade can pay for what they get only by what we take from them. This, of course, is modified through exchanges by them and by us with other countries. In its simplest form, the peoples of the world with whom we trade as customers pay for what they get by what we take from them, or by what we take from other peoples, who, in turn, take from the original customers, and the amount we take must at least be equal to what we sell; otherwise, the buying power of the other nations stops, unless any gap in this rough balance is filled by extension of credits to foreign governments or their nationals, or by investments actually made in the countries against which the debit balances run. Even this equal exchange makes no provision for the payment of the loans we have made to debtor peoples. We eliminate from consideration in this discussion those factors such as tourists' expenditures abroad, insurance paid to foreign companies, shipments home by alien workers, and other "invisibles" that modify our international trade balances.

Of course, the tremendous change in the economic position of the various countries came about through the decrease in normal production and through the increase in consumption of Europe. The Allies, particularly, came to our market for war materials and supplies, and, as a sequence, sought credit with which to make payment. After our entry into the war our Government loaned to the Allies the amounts necessary both to cover purchases in this country and to support exchanges.

In so far to-day as our imports are less than our exports, some method for establishing a balance must be set up. Since the war, we have helped, in some degree, to make up this deficit through current loans, and, in a limited way, through loans known as "long term loans." But this cannot continue.

Current loaning is unwise, both from a national and from an international standpoint, and we in America are now discussing the creation of the Foreign Trade Financing Corporation, through which long-term credits may be established abroad. Even current loaning and the creation of the Foreign Trade Financing Corporation will not provide for a con-

tinuing deficit in the balance of trade in our favor in anything like the amount that has obtained since the war.

The bankers of the country realize that immediate action must be taken to start again the clogged movement of our exports. The Foreign Trade Financing Corporation, a $100,000,000 concern, authorized under the Edge Amendment to the Federal Reserve Act, is the immediate suggestion. The banks of the country are called upon to take the lead in the development of this organization, not because the banks themselves will be the principal beneficiaries, but because it is their duty to point the way for the relief of the manufacturer, the workers and the producer of raw materials.

The Foreign Trade Financing Corporation, with its great debenture issuing power, starts the machinery for the furnishing of debtor nations and the nationals of debtor nations with the materials and the credits which will permit them in turn to produce and manufacture those goods which they must sell in order to provide the funds necessary to pay their debts to America.

The development of this organization will to some extent alleviate the situation, but the furnishing of these credits alone is not the final solution of the problem.

The study of the situation leads to the conclusion that we must not only extend credit, but also must make permanent investments abroad, either in actual physical property, in the securities of the nations with whom we trade, or in privately issued securities of their industries and utilities, and to the conclusion that these investments must continue to be made at least until such time as imports and exports are on a more nearly even basis.

By such investment we would aid in the building up of the productivity of debtor nations, and by so doing would answer once and for all the suggestions for readjustment outlined by the resourceful Mr. Keynes, and the equally resourceful Andre Tardieu. There is a world of misinformation abroad as to how the Allies' debts to the United States originated, and on this misinformation claims are made that it is our duty and obligation to release the debtors from the payment of their debts, thus, that our position might be immediately changed so that those now holding second liens should have first liens, and we be out of the loaning business.

The war idealism of the people of this country, could it have been continued until now, would have made easy the settlement of such problems as these, but we have largely dropped away from our notions of idealism and, in all approaches to international problems, are showing the sordidly selfish tendencies of the people of the other nations.

One of the results of the transfer to us of the power held by a creditor nation has, due to our inexperience, and especially because of our rigidity and of our inability to understand the problems of others, created an animosity and a bitterness toward us that is in excess of our just deserts. And I do not have to point out to credit men that there is a psychological feeling on the part of a debtor toward a creditor which tends to the development of animosities, and it is this psychological feeling which is in danger of adding to our international difficulties.

It would therefore be most desirable for us to so conduct ourselves that we may gradually modify this feeling of dislike and animosity, particularly if we are to continue in commercial relations with the rest of the world. This desirability arises not because we are looking for such an ephemeral thing as their love and affection, but rather so that the nations may become satisfied and reasonably friendly customers for the purchase of our excess products.

The peoples of Europe have immediate problems in the rehabilitation of their processes of production—but these problems will not take the years for settlement generally claimed, and before European capacity for production has returned to normal, we must have established ourselves with them as friendly creditors, or as investors in their securities, or in their physical properties.

The suspicions of international bitterness will then, of necessity, disappear because other bitternesses and quarrels with other peoples will take their place. This is possibly cynicism, but it is cynicism based upon other parallels of history.

Meanwhile we, in carrying out this duty, will create organizations and establish a personnel that will be in accord with the customs, attitudes, practices, traditions and prejudices of the nations with whom we deal, and, as a creditor nation, let us hop that this personnel will make such contacts as will beneficially aid in the more speedy modification of the present attitude towards us of the people of the countries with which we trade.

At the annual convention of the California State Bankers' Association at Coronado, on May 27, Mr. Robinson, in pointing out that within the month he had heard both Secretary of State Hughes and Elihu Root endorse the flat and unqualified statement that while in the past religious and political causes have been the base for war, economic pressure and ambition will from now on be the underlying motive for any immediate trouble which may develop between nations, said in part:

Frankly, because of temporary difficulties, our people have at the present time dropped back from any position of idealistic helpfulness and now desire to know exactly where they stand in their material relations with the rest of the world.

"Merely for the sake of not confusing the argument, let us take in this discussion the position that we owe no duty to any one but ourselves. Let us approach our subject from the angle, 'What does it profit America?' and eliminate an idealism or any thought of the other fellow in our discussion of foreign credits.

"In America we look upon our labor troubles and our taxes as the great and serious problems. The development of our foreign trade looks easy, but it is both the hardest problem which we face and the first which we should attack, for until our foreign trade is developed and we find a market for our excess products, there must be a slowing up in our production and difficulty in the readjustment of our labor problems, while those goods which we do market must carry a heavier tax than they would carry if the load could be spread over international, as well as over our domestic, sales.

"Our difficulty in regard to international trade lies in the fact that we have, during the last century, been developing domestic trade in the conquering of this continent, instead of developing international trade and building up relations with other nations. The result is that we have permitted other nations to act as our merchants, our brokers and our insurance agents.

"Four our own protection, we must become ship-minded, and, as rapidly as we can, establish trained personnel, well equipped offices and build up commercial contacts in the ports of the world—this in order that we can build up an organization able to compete on even terms with our commercial rivals, for we must recognize that the principal reason why our competitors have been able to hold out against our attempts to participate adequately in world trade has been the fact that they, and not we, have had this organization.

"This first attempt of ours—it was more than an experiment—to carry on our own foreign trade through our own offices and in our own ships, resulting for the time being in serious losses, has affected the courage of our international traders and financial organizations, and, unfortuntely, has developed a disposition on the part of many of our bankers to question our ability to set up the machinery necessary to finance this trade with any degree of safety.

"One question has led to another. We are asked whether the Foreign Trade Financing Corporation will operate in the interest of any particular group; we are asked whether it will finance shipments already made, or whether it will build for the future.

"Both honest and captious criticisms have run their full limit, and every possibility has ben discussd pro and con. Catagorically, the answers are:

We *can* successfully set up such marketing machinery; this machinery *will* be conducted for the benefit of the producers generally; it will *not* be used for the purpose of liquidating the frozen credits now existing; it will *not* be conducted in the interest of any particular group.

"The Foreign Trade Financing Corporation is an Americann concern, built by Americans for the benefit of American business as a whole.

"I want to call your attention to the criticisms and objections raised before the Federal Reserve System was set up.

"Many of us can recall the attitude of bankers throughout the country and can remember distinctly that many of the leading bankers on the coast believed that the Federal Reserve Act was entirely inadequate and could result only in great injury to the banking system of the United States; that the machinery was inadequate, wrongly conceived and impossible of beneficial operations, *but* it is to be doubted that any one here would at this time seriously question the tremendous benefit that the Federal Reserve System has been to the country, even though they may at one time have thought it a most unfortunate creation.

"What was true of the Federal Reserve System a few years ago is true of the Foreign Trade Financing Corporation to-day.

"We must sell our goods abroad if we are to continue to produce, and if we are to sell our goods abroad in competition with the nations we must be prepared to meet the needs and requirements of our customers. If we do not meet those needs we will most certainly *not* get the business, and if we do not get the business our production will suffer.

"Our problem must be met on a cold basis of enlightened selfishness and there is no need for us to discuss the benefits which will accrue to the other fellow. All we have to do to convince ourselves of the necessity for going ahead is to consider the dangers which we will ourselves face if we do not do so.

"The proposal made by McHugh's committee is the first broad plan submitted, and no other plan even approximately as effective has been suggested. Somewhere we must start if we are ever going to finish, and the best way to start is to begin."

NEWSPAPER AS FINANCIAL ADVERTISING MEDIUM.

"The Daily Newspaper and Its Use by a Bank," was the title of an address to the Financial Advertisers' Association, in convention at Atlanta, Ga., on June 14th, by G. Prather Knapp of the Mississippi Valley Trust Company, St. Louis. He emphasized the importance of a newspaper's editorial policy to its utility as a bank advertising medium. He said, in part:

"Suppose we look at newspapers which ask us for advertising in the same way that we would look at competing restaurants in which we are offered an opportunity to address a few remarks on our business to the gathering of diners. Would we choose the conservative, quiet place, noted for its good food and its quiet assembly of hungry patrons or would we choose the glittering palace just across the street, where food was of little conseqence and where the patronage was gained by a jazz orchestra, a blind tiger—and a Mack Sennett cabaret?

"We do not seek in any way to purchase editorial assistance through advertising, because the newspaper which can be bought, at any price however high or low, is not worth buying. But we do prefer, and we are entitled to prefer the newspaper which appeals to the kind of people we want for customers, and which appeals in them to the feelings and aspirations to which our advertising appeals. We do feel that in preferring such a newspaper, increasing its revenue and enhancing its prestige, we are doing, not the newspaper, but our banks and our communities a definite service."

"I feel that the banks of the United States can use our newspapers in many effective ways besides the obvious one of buying white space in them. We can profit by studying their circulation methods, their editorial policies, their news, their pictures, their organization and their personnel. We can learn from them valuable lessons of public service.

"We can improve their position as public servants while they are improving ours. We can profit by close human relation with their various departments and we can go hand in hand with them in the tremendous publicity job of making Americans a nation of savers and investors, a conservative people, in the best sense of that word."

F. H. SISSON ON DEVELOPING DEMAND FOR GOODS —THE RAILROAD PROBLEM.

In an address before the American Institute of Banking at Minneapolis on June 16, Francis H. Sisson, Vice-President of the Guaranty Trust Company of New York, stated that "Notwithstanding that there is still considerable 'frozen' credit in this country, the principal economic problem is not the credit situation, although many, especially in agricultural districts, appear to think so." The chief obstacle to a general revival of business is, he said, the difficulty of developing an adequate demand for goods. Mr. Sisson continued:

"Superficial consideration of that problem would suggest that the solution would lie wholly in the readjustment of prices. But lower prices in many lines have not aided materially in stimulating buying. As a matter of fact, in some instances, paradoxical though it may seem, the lower the price, the less buying there has been. This curious antithesis has been due, of course, to the belief generally entertained that practically all commodity prices were certain to recede even more than thy have, which has tended, naturally, to prolong the so-called buyers' strike.

"It would be well, however, for the public to study recent price trends and their underlying factors, for many significant developments are occurring. For instance, the wholesale prices of several basic commodities, namely, wheat, corn, cotton, sugar, rubber, copper, lead, pig iron, petroleum and timber, increased 2½% last month. That advance marked the end of a steady decline in the prices of these commodities from their peak on June 1, 1920, which represented a fall of more than 54%. It is interesting to note that the highest price of rubber in the period following the armistice was only 1% above that of July 1, 1914, and on June 1 of this year the price of rubber was 70% below the pre-war price. On that date, too, copper was 2% cheaper than on July 1, 1914; cotton was 3% cheaper, and hides 35% cheaper.

"While there is great unevenness in price levels and some commodities must undergo further liquidation, it is equally true that other prices have depreciated too much and are now beginning to ascend to their rightful level. It is essential for the public to realize that the turn has arrived in the prices of some commodities.

"Many buyers seem to be pursuing a hand-to-mouth purchasing policy in the hope that prices generally will recede to the pre-war level. Apparently, they fail to understand that it is of little consequence at what level prices are stablized—so long as they are stabilized, which is the important object. And stabilization will come when there is proper adjustment of various commodity prices one to another and between costs of production and distribution of commodities and their prices to consumers.

"That which would help this country most of all at present would be a national movement to buy, not 'until it hurts,' but until it helps.

In discussing the railroad situation, Mr. Sisson said:

"Following recent announcement of the Railroad Labor Board authorizing a reduction of wages of railroad employees on about 100 roads and amounting to approximately 12%, effective July 1, there has been considerable agitation for an immediate horizontal reduction in freight and passenger rates. Such a reduction would be extremely advantageous to the economic welfare of the country, of course, if it were possible without further jeopardizing the finances and credit of the carriers and precipitating receiverships—to the very decided economic detriment of the country.

"It should be borne in mind that during Government control the wages of railway employees were increased from an average of $78 a month in December, 1917, to $116 in January, 1920, and to $141 last July. About 10% of the railway employees, chiefly of the unskilled class, had thus received increases approximating 100%, while the average increase over the pay prior to the Federal control was 81%. It is estimated that the present cut will mean an average monthly wage of about $125 for all railroad employees. The advances in wages granted by the Railroad Labor Board in July, 1920, when the cost of living was approximately 112% more than before the war, averaged about 20% for each employee and amounted in the aggregate to about $775,000,000. Since that time reliable estimates place the reduction in living costs at fully 40%.

Expected Savings.

"The wage reduction is expected to save the railroads $400,000,000 annually, and an additional $300,000,000 is expected to be saved through the elimination of waste by the abrogation of the national agreements, although how much may be saved this way is very problematical. It is *anticipated,* however, that $700,000,000 will probably be 'added' to railway net income. But even that very substantial economy will not be sufficient to enable the roads to earn a net return of 5½% or 6% upon the valuation placed on their properties by the Interstate Commerce Commission, as contemplated in the Esch-Cummins Law. Certainly, it will not justify a horizontal rate reduction now.

"During the war, horizontal rate increases were made—flat increases which added the percentage to all of the then existing rates without regard to the fact that although some commodities could be marketed on an economic basis despite the increases, others could not. During the war and the period of speculation which followed, the effects of these horizontal rate increases were not felt so severely.

"The situation now, however, with many commodity prices dropping sharply, is different. The problem is to bring about a rate readjustment by which lower rates will be provided for commodities that cannot be handled at the present rate levels, and not to effect a horizontal rate reduction which will take away from the railroads all that they hope to to save through the forthcoming wage reduction and economies made possible by the abrogation of the national agreements.

"Furthermore, it must not be overlooked that considerable progress has already been made in rate readjustments on the commodity basis, and that thousands of proposed changes, agreed to by railroads and shippers, have been submitted to the Interstate Commerce Commission for its approval.

Half Our People Directly or Indirectly Interested.

"Aside from the very vital bearing that the betterment of railroad finances and credit would have on the general economic situation, there is another very important consideration, namely, that approximately 50,000,000 Americans are the indirect owners of our railroads through the investment of their savings in railroad securities. And, therefore, they should be keenly interested in the welfare of the railroads, because that in some degree effects their own welfare. They themselves want fair treatment; consequently, they should insist that the railroads be given like treatment. And they should realize that there must be further reduction in railroad operating costs before there can be justifiable general reductions in railroad rates."

HOUSE COMMITTEE'S ACTION ON BILL TO PERMIT DEPOSIT OF $50,000,000 IN FEDERAL LAND BANKS.

On June 19 the Banking and Currency Committee of the House moved to reconsider its action of ten days before, in reporting with a favorable recommendation the Curtis-Nelson bill (S 1837), which conferred upon the Secretary of the Treasury the authority to deposit up to $50,000,000, as its needs might require, with the Farm Loan Board to enable it to finance the purchase of mortgages, pending the sale of the periodical bond issues. The Curtis bill, as announced in these columns June 11 (page 2480), passed the Senate on June 2. At its meeting on June 20 the House Committee adopted a substitute measure and ordered a favorable report on the latter. The Committee's bill provides that the Secretary of the Treasury may, in his discretion, make deposits with the Federal Land banks beyond the present $6,000,000 limit, but that the aggregate of such additional deposits outstanding at any one time shall not exceed the difference between the aggregate paid in capital stock of the twelve Federal Land banks and the sum of $50,000,000. The following is the text of the bill as passed by the Senate on June 2:

Be it enacted, by the Senate and House of Representatives of the United States of America in Congress assembled, That Section 32 of the Act of Congress approved July 17 1916, known as the Federal Farm Loan Act, be amended to read as follows:

"Sec. 32. That the Secretary of the Treasury is authorized, in his discretion, upon the request of the Federal Farm Loan Board, to make deposits for the temporary use of any Federal Land bank, out of any money in the Treasury not otherwise appropriated. Such Federal Land bank shal issue to the Secretary of the Treasury, a certificate of indebtedness for any such deposit, bearing a rate of interest not exceeding by more than ½ of 1% per annum the rate borne by the last bond issue of the bank receiving such deposit, to be secured by farm loan bonds or other collateral to the satisfaction of the Secretary of the Treasury. Any such certificate shall be redeemed and paid by such Land bank at the discretion of the Secretary of the Treasury. The aggregate of all sums so deposited by the Secretary of the Treasury shall not exceed the sum of $50,000,000 at any one time."

The substitute proposed by the House Committee reads as follows:

That section 32 of the Federal Farm Loan Act, approved July 17 1916, as amended, is hereby amended by adding after the first paragraph a new paragraph to read as follows:

"Until such time as the aggregate paid-in capital stock of the twelve Federal Land banks shall be $50,000,000, or more, the Secretary of the Treasury may in his discretion make deposits in addition to those authorized by the preceding paragraph, to be secured, redeemed, and paid in the same manner as provided in such paragraph, except that any additional deposit made hereunder shall be called by the Secretary of the Treasury and redeemed by the bank or banks holding the same, within fifteen days after the conclusion of each general offering of Farm Loan bonds by such bank or banks. The aggregate of such additional deposits outstanding at any time shall not exceed the difference between the aggregate paid-in capital stock of the twelve Federal Land banks on the last day of the preceding month, and the sum of $50,000,000. The Certificates of Indebtedness issued to the Secretary of the Treasury by the Federal Land Bank for such additional deposits shall bear a rate of interest not exceeding by more than one-half of one per centum per annum the rate borne by the last bond issue of the Land bank receiving such deposits."

Chairman McFadden of the House Banking and Currency Committee was authorized by a unanimous vote of the Committee on the 19th inst. to request the Committee on Rules to grant a rule for the immediate consideration of the bill as reported by the Committee. With regard to the House bill, Representative McFadden said:

It will be noted that this action provides for sufficient working capital to permit the Farm Loan system to function in an orderly manner and to accumulate from time to time mortgages sufficient to secure periodical bond issues to be authorized in amounts large enough to enable the banking houses who are the distributors of these bonds to make general offerings of these securities to the public, from time to time, at a minimum of cost and pending the time when the automatic working of the law will furnish ample capital for the system to function without further aid from the Public Treasury.

It is estimated by Chairman McFadden that under normal conditions the system should be self-sustaining within a period of at least three years on the assumption, however, that the Treasury Department will dispose independently of the Farm Loan system, the $183,000,000 worth of Farm Loan bonds which it purchased one and one-half years ago under authority of Congress.

While Secretary of the Treasury Mellon appeared before the House Banking and Currency Committee on the 7th inst. in support of the bill passed by the Senate he is reported to have made the statement that

I do not believe the system of extending Federal aid to the classes is sound. In the case of the farm loan banks, however, Congress has created a system of financing the farmer and if it is desirable that the system should function, Congress should appropriate the money to make it possible.

The New York "Commercial" of the 8th inst. in reporting what Secretary Mellon and others had to say regarding the proposed legislation before the House Committee on the 7th inst. said:

He [Secretary Mellon] explained that the only reason he is for the bill is that inasmuch as the banks are in existence and Congress has intended that they should function the additional funds are necessary to augment their present limited capital.

If the question were as to the desirability of the establishemnt of these land banks it would be different said Secretary Mellon. But you have the banks here for a purpose. They haven't enough resources to take care of the situation. They are here and the Government should see that they function.

My views generally are that the system of the Government backing the Federal Land Banks and joint stock land banks is not sound in principle, but they are in existence and they have been authorized by law. If there ever was a time when their operation was required it is now.

Chairman McFadden pointed out that there are nineteen bills pending before the committee proposing to give aid to farmers besides measures in the Senate such as the Norris bill for a $100,000,000 corporation to finance exports of agricultural products.

Mr. McFadden asked Secretary Mellon if he favored unlimited Treauray backing for these enterprises.

"I would not favor such as a general proposition" said Mr. Mellon. "I think the bankers are alive to the situation and I personally do not approve of legislation of this nature. I favor the deposit of $50,000,000 in the Federal land banks only to enable them to function. I would not favor any increase in this amount."

Charles E. Tobdell, Chairman of the Federal Farm Loan Board, also appeared in support of the bill.

Representative Luce of Massachusetts, indicated his opposition to the measure.

SENATE PASSES BILL INCREASING RATE ON JOINT STOCK LAND BANK BONDS.

Senator Kenyon's bill amending the Federal Farm Loan Act so as to increase from 5 to 5½% the rate of interest on bonds issued by the Joint Stock Land banks was passed by the Senate on June 10. During the debate on the bill in the Senate an amendment was offered by Senator Smoot to make the income from Joint Stock Land banks issued after June 30 1923 subject to surtaxes. The amendment was, however, withdrawn before a vote on the bill was taken, Senator Smoot in taking this action saying:

The Senator from Iowa [Mr. Kenyon] seems to think that my amendment is going in some way to jeopardize the interests of the farmer. I cannot see it for the life of me, but I do not want to do anything that will do that. I simply want to give notice now that this question will have to come before Congress. I recognize the fact that we have not time to discuss it thoroughly now. I recognize the fact that we could not get a vote directly upon the question if it is in the form of an amendment to this bill, and therefore I am going to withdraw the amendment.

Incidentally, it may be noted, the Senate Committee on Banking and Currency decided on May 10 to indefinitely postpone action on the Smoot bills to repeal the tax exemption privileges of securities issued by the Joint Stock Land banks. In his remarks in the Senate on June 9 Senator Smoot made the prediction that if Congress does not take away the tax exemption privilege from the bonds of the Joint Stock Land Bank those banks will destroy the Federal farm loan system. He said:

It ought to be announced to the American people just as soon as it can be by the voice of Congress that these institutions, private in character, shall not enjoy the privilege of issuing bonds backed by the Government of the United States exempt from every form of taxation, and the sooner that notice is given to the American people the better it will be for those men who are being asked to invest their money in that kind of institution.

As far as I am concerned, I want every advantage shown to the Federal Farm Loan Bank. If there is any money made by the Federal Farm Loan Bank in the 1% difference between the value of the bond and what the loan to the farmer is, the farmer gets his part of that gain; the farmer gets his dividend on the amount made over and above actual expenses of that 1%. Why should he not? He is compelled to subscribe to stock, and he is entitled to that dividend.

But with the Joint Stock Land banks the profit goes into the pocket of some individual to whom the Government of the United States says: "You are better than all other individuals in the United States, and you can issue obligations with no power in cities or counties or States, even in Uncle Sam himself, to impose a dollar of tax upon you." I am betraying no confidence when I say that the Federal Farm Loan Board first brought this to my attention. I called on the Board and saw the statements from these joint stock land banks. I examined them. I saw what they were going ultimately to do to the Federal Farm Loan Banks, and just as sure as we live, if they are not curbed or checked, and if they are allowed to go on the way they are going now, they will destroy the Federal Farm loan system.

In explaining the purpose of the bill increasing the rate of interest on joint stock land banks from 5 to 5½%, Senator Kenyon (the author of the bill) had the following to say during the debate on the same on June 9:

The point of this matter is this: The Joint-Stock Land banks and the Federal Farm Loan banks have been held up in their operations by the case which was pending in the Supreme Court of the United States for about a year. That case has been determined. The law has been held to be constitutional. The Joint-Stock Land banks are unable to function, are unable to sell their bonds at a 5% rate, in competition with the tremendous number of tax-exempt bonds bearing 5½%, and even in some instances 6%. Our effort in this matter is directed not to help the Joint-Stock Land banks, but purely for the purpose of trying to help the agricultural situation. The profit of the Joint-Stock Land banks now can only be 1% gross, if they can float the bonds at 5%, because, under the Act they can not charge more than 6% interest.

It is idle to talk about floating 5% bonds, which are the basis of this system, and securing thereby money to loan to the farmers. It is true the Federal Farm Loan Board have succeeded in making a flotation of the present issue, but that has been due to an intensive campaign which they have carried on.

The farm situation in this country is known, I hope, to every Senator in the Chamber. It is certainly known to those of us who come from agricultural States. Agriculture needs credit in order to tide over the present emergency. We have loaned I do not know how many billion dollars across the sea; we have appropriated money to help those in distress in Europe; but the farmer, with the best credit on earth and the best security on earth, cannot get money to finance his operations. That was the situation some years ago when the Federal Farm Loan Act was passed. The mortgage rates the farmers had to pay had grown to a very high point, but he was willing to pay almost anything in order to get money. We enacted the Federal Farm Loan Act for the purpose of allowing the farmer to obtain money on long-time loans. Under the Joint-Stock Land banks the loans run for 32 years, I think, with an amortization program, so that at the end of that period the farmer will have paid the loan. He cannot get the money through the Federal Farm Loan system unless the bonds can be floated. Whenever the Joint-Stock Land banks can float the bonds at a less rate than 5½%, of course, they will do so; it will automatically work itself out, because then the banks will receive more profit.

The following is the text of the bill as passed by the Senate:

[S. 1811.]

An ACT to amend the Federal Farm Loan Act, as amended.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the first paragraph of Section 20 of the Federal Farm Loan Act, as amended, be, and hereby is, amended to read as follows:

"Sec. 20. That bonds provided for in this Act shall be issued in denominations of $40, $100, $500, $1,000, and such larger denominations as the Federal Farm Loan Board may authorize; they shall run for specified minimum and maximum periods, subject to payment and retirement, at the option of the Land Bank, at any time after the minimum period specified in the bonds, which shall not be longer than ten years from the date of their issue. They shall have interest coupons attached, payable semi-annually, and shall be issued in series of not less than $50,000, the amount and terms to be fixed by the Federal Farm Loan Board. They shall bear a rate of interest not to exceed 5½% per annum."

Passed the Senate June 9. 1921.

$50,000,000 *POOL IN AID OF LIVE-STOCK INDUSTRY.*

Regarding the status of the plans for the proposed pool of $50,000,000 for cattle financing, to which reference was made in these columns last week (page 2593), the Chicago "Journal of Commerce" on June 22 said:

Final plans for the operation of the $50,000,000 live stock loan pool were outlined yesterday at a meeting of New York and Chicago bankers in the executive offices of the Continental & Commercial National Bank. As finally constituted the organization and working basis is slightly changed from the original outline, but the salient and fundamental points still are there.

The first step will be the incorporation of the Bankers' Live Stock Loan Corporation, whose capital will be subscribed by banks throughout the country. Management of the corporation will be vested in a board of directors, who will be elected by the subscribing banks and will include representatives from a number of cities.

Wall Street Victory.

This point is a victory for the Wall Street interests, who have been holding out for general representation in the pool's affairs. The Chicago bankers, however carried their main point, namely, that the details of management will be in the hands of an executive committee consisting of five Chicago representatives.

An executive manager will be in direct charge of the affairs of the corporation, and will be elected by the directors. The corporation is attempting to secure for this position M. L. McClure, member of the Board of Directors of the Federal Reserve Bank of Kanssas City, who has had wide experience in the live stock industry.

The position of executive manager will carry a salary and its incumbent will scrutinize all applications for loans, and will act under orders of the executive committee who will have full charge of the making of loans by the corporation. There will be advisory committees of bankers appointed in the various States. Probably these committees will be called upon to investigate and make recommendation regarding applications for loans emanating from their States.

Act Through Banks.

It is officially stated that the loans to be made by the corporation will be made through and with recourse on banks and established live stock loaning organizations of substantial capital.

Loans will be made for a period not exceeding six months, but may be renewed, if conditions of collateral, endorsement and guarantee are satisfactory, for succeeding periods of not exceeding six months each, and an aggregate in all of not exceeding thirty months from the date of the original loan.

It is expected that operation of the corporation will be started not later than July 1 which will afford immediately relief to the live stock industry of the United States.

PRESIDENT HARDING'S CONFERENCE WITH MIDDLE WEST BANKERS.

Some twenty bankers of the Middle West were the guests of President Harding at a dinner at the Wnite House on Thursday night of this week (June 23), at which time a discussion was had of financial and business problems confronting the country. The conference was similar to that recently held between President Harding and Eastern bankers. George M. Reynolds, Chairman of the Board of the Continental & Commercial National Bank of Chicago appears to have been the principal spokesman at this week's gathering, and an account of what he had to say appeared as follows in yesterday's New York "Times."

George M. Reynolds, Chairman of the board of the Continental & Commercial National Bank of Chicago, one of the larger financial institutions of the Middle West, is said to have taken a strong stand in favor of American business first. He said that of the whole business of the nation foreign trade represented only 7%. The great question, he held, was whether the United States was to measure its efforts at business revival by the needs and demands of Europe or by this nation's capacity, considered in relation to its own interests.

Mr. Reynolds went on to say that there was little use in trying to help Europe unless European countries, and some more than others, seriously did something to help themselves. By that he meant particularly efforts to correct monetary standards. The remedies to be applied, he said, were fairly obvious—stop printing paper money, higher taxes, unexampled economies, refunding of internal debts and cutting down loans at central banks of issue, thereby promoting deflation.

Incidentally, the impoverished countries of Europe, he held, must import only absolute necessities. To do even this they must brace up and restore their monetary standards—otherwise their exchange position would continue weak and perhaps grow weaker.

The exchange variations he attributed as much to difference in price levels, due to inflation or the absence of efforts at deflation, as to unfavorable trade alliances. Variations between the price levels of two countries, monetary standards and politics he gave as the greatest influences on exchange variations.

Trade revival and final prosperity, Mr. Reynolds said, lay in the increase of business in the domestic markets with a foreign trade maintained along natural lines and developed in a natural way without artficial stimulation so-called long-term credits or quixotic efforts to finance insolvents.

Mr. Reynolds also said that it was a fallacy to think that the wartime movement of capital to foreign nations would aid in reviving business. This nation's fortunes were not so closely tied up with those of Europe, he held, that either continent would make progress by extending credits on which the United States could draw only interest. Spending the proceeds of foreign loans in this country means, he said, that this nation parted with capital, goods which were paid for with its own funds.

It is to be remembered that Europe can pay, if it can pay at all, only in goods, Mr. Reynolds declared. This meant nothing more than that the

balance of trade must be against the United States for an indefinite number of years, or the debt would not be and could not be paid. Even the interest payments on these debts and the $10,000,000,000 of already existing debts meant a balance of trade adverse to the United Statse for many years. There was sound logic, he said, in the proposal to cancel Europe's debt to the United States Government. It might be diplomatically unwise, he remarked, but it was economically sound and was certainly not altruistic.

The conclusion drawn by Mr. Reynolds was that the first duty is to look out for the 93% of business which is domestic, and that the 7% which is foreign will take care of itself.

Those participating with the President in this week's conference included Secretary of the Treasury Mellon, Secretary of Commerce Hoover, John R. Mitchell of the Federal Reserve Board and the following bankers:

John Sherwin, Chairman of the Union Trust Company, Cleveland.
F. H. Goff, President of the Cleveland Trust Company.
W. S. Rowe, President of the First National Bank, Cincinnati.
George M. Reynolds, Chairman of the Continental & Commercial Nat'l Bank, Chicago.
Frank O. Wetmore, President of the First National Bank, Chicago.
E. D. Hulbert, President Merchants Loan & Trust Company, Chicago.
John J. Mitchell, Chairman Illinois Trust & Savings Bank, Chicago.
Richard S. Hawes, Vice-President First National Bank in St. Louis.
J. G. Lonsdale, President National Bank of Commerce, St. Louis.
E. F. Swinney, President of the First National Bank of Kansas City, Mo.
George H. Prince, Chairman Merchants' National Bank, St. Paul.
John S. Drum, President Mercantile Trust Company, San Francisco.
John T. Scott, President First National Bank, Houston.
Oliver C. Fuller, President First Wisconsin National Bank, Milwaukee.
Festus J. Wade, President Mercantile Trust Company, St. Louis.
W. W. Head, President of the Omaha National Bank, Omaha.
John W. Barton, Metropolitan National Bank, Minneapolis.
Charles G. Dawes, Chairman Central Trust Co. of Illinois, Chicago.
William T. Abbott, Central Trust Company of Illinois, Chicago.
John R. Mitchell, Federal Reserve Board.
Milton E. Ailes, Riggs National Bank, Washington.

WAR FINANCE CORPORATION ADVANCES $500,000 FOR FINANCING OF EXPORTS.

The War Finance Corporation on June 17 announced that it has made an advance of $500,000 to a Western bank to finance the exportation of provisions to Great Britain, Germany, France and Holland.

ASSOCIATION OF STOCK EXCHANGE FIRMS ASKS THAT PAYMENT FOR SECURITIES BE MADE BY CHECK.

The Association of Stock Exchange Firms in a notice to members on June 16 regarding the practice of certain persons in making payment for deliveries of securities partly in certified checks and partly in cash, calls attention to the fact that instructions should be given to cashiers to accept for payment only checks on established banking institutions. The notice follows:

To the Members of the Association of Stock Exchange Firms:

June 16 1921.

Our attention has been called to the fact that certain persons representing themselves to be brokers in investment securities are resorting to a sharp practice when securities are delivered in the regular course of business by making payments partly in certified checks and partly in drafts. These drafts when tendered for collection are not paid, and upon inquiry as to why this occurs, various excuses are given, and promises are made that same will be paid within a day or two.

A number of firms have been put to considerable trouble and expense in the collection of these drafts and the strictest care should be exercised in the delivery of securities to unknown houses. Firms should instruct their cashiers that they should accept for payment only checks on established banks or banking institutions.

AMENDMENT TO FEDERAL RESERVE ACT REJECTED DESIGNATING POLITICAL COMPLEXION OF BOARD.

On June 4 the House Committee on Banking and Currency rejected a proposed amendment to the Federal Reserve Act requiring that not more than four of the seven members of the Federal Reserve Board should belong to one political party. At present there is no such limitation on appointment. The Committee voted 8 to 5 against the amendment.

FEDERAL RESERVE BANK OF ST. LOUIS ABOLISHES PROGRESSIVE DISCOUNT RATE.

As indicated in the introduction to the table of Federal Reserve discount rates which we give on a preceding page, the Federal Reserve Bank of St. Louis on June 23 abolished its progressive discount rate which had been in effect since May 25 1920. As a result of this week's action of the bank a flat 6% discount rate for all classes of loans and maturities prevails. A 6% rate for all classes of paper was adopted by the Federal Reserve Bank of Dallas, the latter having reduced from 6½ to 6% its rate on commercial paper, bankers' acceptances, trade acceptances and agricultural and live stock paper. A 6% rate on paper secured by Treasury notes has been adopted by all of the Federal Reserve Banks except Cleveland and Chicago.

STATE INSTITUTIONS ADMITTED TO FEDERAL RESERVE SYSTEM.

The following institutions were admitted to the Federal Reserve System in the week ending June 17 1921:

	Capital.	*Surplus.*	*Total Resources.*
District No. 6—			
Parish Bank & Trust Co., Opelousas, La	$50,000	$10,000	$128,199
District No. 7—			
The American State Bank of Highland Park, Mich	200,000	50,000	2,112,445

INSTITUTIONS AUTHORIZED BY FEDERAL RESERVE BOARD TO EXERCISE TRUST POWERS.

The Federal Reserve Board has granted permission to the following institutions to exercise trust powers:

The First National Bank of Welch, Welch, W. Va.
The Will County National Bank of Joliet, Joliet, Ill.

PERMANENT LIBERTY BOND CONSIGNMENTS BY FEDERAL RESERVE BANK TO BE DISCONTINUED JUNE 30.

On June 20 the Federal Reserve Bank of New York issued the following circular to the banking institutions of this district:

FEDERAL RESERVE BANK OF NEW YORK.

(*Permanent Liberty Bond Consignment Accounts to be Closed June* 30 1921.)

Exchange of Permanent for Temporary Bonds to Continue.

To All Banks, Trust Companies and Savings Banks in the Second Federal Reserve District:

On June 30 1921, we will discontinue the practice of seinding to qualified depositaries of public moneys in this Federal Reserve district permanent Liberty bonds on consignment to facilitate exchanges by them of temporary for permanent Liberty bonds, and all of our permanent bond consignment accounts will then be closed. In returning any such permanent bonds which you may hold plase use forms L and C 303-312 and L and C 303-A herewith enclosed which have been.changed to meet this situation. Upon receipt of the permanent bonds we will credit your consignment account and at the same time will release the corresponding collateral security pledged with us.

With the above exception we will continue to exchange permanent for temporary Liberty bonds as heretofore. Please continue to utilize the forms now in use in effecting such exchanges. Upon receipt of temporary Liberty bonds we will make prompt shipment of the permanent bonds.

Very truly yours,
BENJAMIN STRONG, *Governor.*

SUBSCRIPTIONS TO TREASURY CERTIFICATES AND TREASURY NOTES.

Total subscriptions of $788,007,000 were received to the combined offering on June 8 of $500,000,000 or thereabouts, of three year 5¾% Treasury notes and one year 5½% Treasury Certificates. The details of the offering were given in these columns June 11 (pages 2485 and 2486), and last week (page 2597). We noted the closing of the subscription books on June 15. The total amount of the subscriptions allotted was $625,375,000, the Treasury Certificate allotments being $314,184,000, while the Treasury note allotments were $311,191,600. Both the notes and certificates are dated and bear interest from June 15 1921. The subscriptions allotted were divided among the several Federal Reserve Districts (which are ranked in the order of the percentage of their subscriptions to their quota), as follows:

Federal Reserve District—	*Total Subscriptions Received.*	*Total Subscriptions Allotted.*	*Treasury Note Series A-1924 Allotted.*	*Treasury Cert. Series Ser. T.J.-1922 Allotted*
Philadelphia	$105,714,600	$70,843,000	$45,509,500	$25,333,000
New York	394,353,500	294,380,700	157,225,200	137,155,500
Cleveland	83,012,200	60,400,200	21,175,200	39,225,000
St. Louis	26,604,600	22,441,600	9,740,100	12,701,500
Boston	44,987,000	43,975,000	22,905,000	21,070,000
Richmond	17,224,500	17,224,500	8,698,500	8,526,000
Chicago	54,424,700	54,424,700	20,650,200	33,774,300
Kansas City	14,824,000	14,824,000	5,346,500	9,477,500
Dallas	8,766,600	8,766,600	4,058,600	4,708,000
Minneapolis	10,763,600	10,763,600	5,301,100	5,462,500
San Francisco	21,311,800	21,311,800	8,411,800	12,900,000
Atlanta	6,019,900	6,019,900	2,169,900	3,850,000
Total	$788,007,000	625,375,600	311,191,600	314,184,000

Secretary of the Treasury Mellon in announcing on June 16 that the combined offering had been largely oversubscribed said: "This prompt over-subscription successfully inaugurates the Treasury's announced program of varying its offerings of Treasury certificates from time to time with offerings of short-term notes in moderate amounts."

CONFERENCE REPORT ON ARMY APPROPRIATION BILL ADOPTED.

The Army Appropriation Bill, reported out of conference after the House and Senate conferees had reached a compromise ending the deadlock on the measure, was passed by both Houses of Congress and sent to President Harding this week for his signature. While the lower House had contended for a reduction of the enlisted strength of the army to

150,000 by July 1, next, the Senate had demanded the reduction be extended over a period till the spring of 1922. On this, the chief point of difference, a compromise was reached Oct. 1 being agreed upon as the date for bringing the army down to the minimum figure. The conference report was adopted by the Senate on June 22, by a vote of 58 to 13, five Republicans and eight Democrats voting against it. Republicans who voted not to accept the report were Borah, Johnson, Jones (Wash.), La Follette and Norris, while Democrats who voted "no" were Ashurst, Gerry, Harrison, Kendrick, Pomerene, Shields, Walsh (Mass.) and Watson (Ga.). Following the adoption of the conference report, Senator Wadsworth explained that, under the provisions of the bill as finally passed, the Secretary of War must dismiss from the army before Oct. 1 next, at least 50,000 enlisted men. About 20,000 others would be released through expiration of enlistments and for other normal causes, making the total reduction 70,000 men. The arbitrary dismissal of soldiers before expiration of enlistment, Senator Wadsworth said, meant that the Government was directed to break its contracts with these soldiers.

PRESIDENT HARDING SIGNS BUDGET BILL—TEXT OF ACT.

On June 10 President Harding signed the bill providing for a National budget system and an independent audit of public accounts. The adoption by Congress of the conference report on the bill was referred to in these columns May 28, page 2257. The measure creates in the Treasury Department a bureau to be known as the Bureau of the Budget, which under rules and regulations to be prescribed by the President, will have authority to assemble, correlate, revise, reduce or increase the estimates of the several Government departments or establishments. As announced in another item in this issue, Charles G. Dawes, of Chicago, has been selected to fill the post of Director of the Budget Bureau, created under the new law. A general accounting office is also created under the new legislation—this office to be independent of the executive departments and under the control and direction of the Comptroller General of the United States. The offices of Comptroller of the Treasury and Assistant Comptroller of the Treasury are abolished, to take effect July 1, and the officers and employees of the office of Comptroller of the Treasury will become officers and employees in the General Accounting Office. The powers and duties now conferred upon the Comptroller of the Treasury or the six auditors of the Treasury Department, will be vested in and imposed upon the General Accounting Office. The Director of the Bureau of the Budget is to be appointed by the President—the consent of the Senate not being a requisite thereto as stipulated in the bill originally passed by the Senate. The Comptroller General and Assistant Comptroller General are to be appointed by the President with the advice and consent of the Senate, and are to hold office for fifteen years; they may, however, be removed at any time by joint resolution of Congress, when in the latter's judgment they have become permanently incapacitated or inefficient, or guilty of neglect of duty, etc. The new law also provides that the administrative examination of the accounts and vouchers of the Postal Service now imposed upon the Auditor for the Post Office Department shall be performed, beginning July 1, by a newly created bureau in the Post Office Department to be known as the Bureau of Accounts. This bureau will be under the direction of a comptroller to be appointed by the President with the advice and consent of the Senate at a salary of $5,000 a year. The Director of the Bureau of the Budget and the Assistant Director are to receive salaries of $10,000 and $7,500 a year, respectively; the Comptroller General and the Assistant Comptroller General will also receive salaries of $10,000 and $7,500 a year, respectively. The following is the text of the budget bill as approved by the President:

S. 1084.

An Act to provide a National budget system and an independent audit of Government accounts, and for other purposes:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled:

TITLE I.—DEFINITIONS.

Section 1. This Act may be cited as the "Budget and Accounting Act, 1921."

Sec. 2. When used in this Act—

The terms "department and establishment" and "department or establishment" mean any executive department, independent commission, board, bureau, office, agency, or other establishment of the Government, including the municipal government of the District of Columbia, but do not include the legislative branch of the Government or the Supreme Court of the United States;

The term "the Budget" means the Budget required by section 201 to be transmitted to Congress;

The term "bureau" means the Bureau of the Budget;

The term "director" means the director of the Bureau of the Budget; and

The term "assistant director" means the Assistant Director of the Bureau of the Budget.

TITLE II.—THE BUDGET.

Sec. 201. The President shall transmit to Congress on the first day of each regular session, the Budget, which shall set forth in summary and in detail:

(a) Estimates of the expenditures and appropriations necessary in his judgment for the support of the Government for the ensuing fiscal year; except that the estimates for such year for the legislative branch of the Government and the Supreme Court of the United States shall be transmitted to the President on or before October 15 of each year, and shall be included by him in the Budget without revision;

(b) His estimate of the receipts of the Government during the ensuing fiscal year, under (1) laws existing at the time the Budget is transmitted and also (2) under the revenue proposals, if any, contained in the Budget;

(c) The expenditures and receipts of the Government during the last completed fiscal year;

(d) Estimates of the expenditures and receipts of the Government during the fiscal year in progress;

(e) The amount of annual, permanent, or other appropriations, including balances of appropriations for prior fiscal years, available for expenditure during the fiscal year in progress, as of November 1 of such year;

(f) Balanced statements of (1) the condition of the Treasury at the end of the last completed fiscal year, (2) the estimated condition of the Treasury at the end of the fiscal year in progress, and (3) the estimated condition of the Treasury at the end of the ensuing fiscal year if the financial proposals contained in the Budget are adopted;

(g) All essential facts regarding the bonded and other indebtedness of the Government; and

(h) Such other financial statements and data as in his opinion are necessary or desirable in order to make known in all practicable detail the financial condition of the Government.

Sec. 202 (a) If the estimated receipts for the ensuing fiscal year contained in the Budget, on the basis of laws existing at the time the Budget is transmitted, plus the estimated amounts in the Treasury at the close of the fiscal year in progress, available for expenditure in the ensuing fiscal year, are less than the estimated expenditures for the ensuing fiscal year contained in the Budget, the President in the Budget shall make recommendations to Congress for new taxes, loans, or other appropriate action to meet the estimated deficiency.

(b) If the aggregate of such estimated receipts and such estimated amounts in the Treasury is greater than such estimated expenditures for the ensuing fiscal year, he shall make such recommendations as in his opinion the public interests require.

Sec. 203. (a) The President from time to time may transmit to Congress supplemental or deficiency estimates for such appropriations or expenditures as in his judgment (1) are necessary on account of laws enacted after the transmission of the Budget, or (2) are otherwise in the public interest. He shall accompany such estimates with a statement of the reasons therefor, including the reasons for their omission from the Budget.

(b) Whenever such supplemental or deficiency estimates reach an aggregate which, if they had been contained in the Budget, would have required the President to make a recommendation under subdivision (a) of section 202, he shall thereupon make such recommendation.

Sec. 204. (a) Except as otherwise provided in this Act, the contents, order, and arrangement of the estimates of appropriations and the statements of expenditures and estimated expenditures contained in the Budget or transmitted under section 203, and the notes and other data submitted therewith, shall conform to the requirements of existing law.

(b) Estimates for lump-sum appropriations contained in the Budget or transmitted under section 203 shall be accompanied by statements showing, in such detail and form as may be necessary to inform Congress, the manner of expenditure of such appropriations and of the corresponding appropriations for the fiscal year in progress and the last completed fiscal year. Such statements shall be in lieu of statements of like character now required by law.

Sec. 205. The President, in addition to the Budget, shall transmit to Congress on the first Monday in December, 1921, for the service of the fiscal year ending June 30, 1923, only, an alternative budget, which shall be prepared in such form and amounts and according to such system of classification and itemization as is, in his opinion, most appropriate, with such explanatory notes and tables as may be necessary to show where the various items embraced in the Budget are contained in such alternative budget.

Sec. 206. No estimate or request for any appropriation and no request for an increase in an item of any such estimate or request, and no recommendation as to how the revenue needs of the Government should be met, shall be submitted to Congress or any committee thereof by any officer or employee of any department or establishment, unless at the request of either House of Congress.

Sec. 207. There is hereby created in the Treasury Department a bureau to be known as the Bureau of the Budget. There shall be in a bureau a director and an assistant director, who shall be appointed by the President and receive salaries of $10,000 and $7,500 a year, respectively. The assistant director shall perform such duties as the director may designate, and during the absence or incapacity of the director or during a vacancy in the office of the director he shall act as director. The bureau, under such rules and regulations as the President may prescribe, shall prepare for him the Budget, the alternative Budget, and any supplemental or deficiency estimates, and to this end shall have authority to assemble, correlate, revise, reduce, or increase the estimates of the several departments or establishments.

Sec. 208. (a) The director, under such rules and regulations as the President may prescribe, shall appoint and fix the compensation of attorneys and other employees and make expenditures for rent in the District of Columbia, printing, binding, telegrams, telephone service, law books, books of reference, periodicals, stationery, furniture, office equipment, other supplies, and necessary expenses of the office, within the appropriations made therefor.

(b) No person appointed by the director shall be paid a salary at a rate in excess of $6,000 a year, and not more than four persons so appointed shall be paid a salary at a rate in excess of $5,000 a year.

(c) All employees in the bureau whose compensation is at a rate of $5,000 a year or less shall be appointed in accordance with the civil-service laws and regulations.

(d) The provisions of law prohibiting the transfer of employees of executive departments and independent establishments until after service of three years shall not apply during the fiscal years ending June 30, 1921, and June 30, 1922, to the transfer of employees to the bureau.

(e) The bureau shall not be construed to be a bureau or office created since January 1, 1916, so as to deprive employees therein of the additional compensation allowed civilian employees under the provisions of section 6 of the Legislative, Executive, and Judicial Appropriation Act for the fiscal years ending June 30, 1921, and June 30, 1922, if otherwise entitled thereto.

Sec. 209. The bureau, when directed by the President, shall make a detailed study of the departments and establishments for the purpose of enabling the President to determine what changes (with a view of securing greater economy and efficiency in the conduct of the public service) should be made in (1) the existing organization, activities, and methods of business of such departments or establishments, (2) the appropriations therefor, (3) the assignment of particular activities to particular services, or (4) the regrouping of services. The results of such study shall be embodied in a report or reports to the President, who may transmit to Congress such report or reports or any part thereof with his recommendations on the matters covered thereby.

Sec. 210. The bureau shall prepare for the President a codification of all laws or parts of laws relating to the preparation and transmission to Congress of statements of receipts and expenditures of the Government and of estimates of appropriations. The President shall transmit the same to Congress on or before the first Monday in December, 1921, with a recommendation as to the changes which, in his opinion, should be made in such laws or parts of laws.

Sec. 211. The powers and duties relating to the compiling of estimates now conferred and imposed upon the Division of Bookkeeping and Warrants of the Office of the Secretary of the Treasury are transferred to the bureau.

Sec. 212. The bureau shall, at the request of any committee of either House of Congress having jurisdiction over revenue or appropriations, furnish the committee such aid and information as it may request.

Sec. 213. Under such regulations as the President may prescribe, (1) every department and establishment shall furnish to the bureau such information as the bureau may from time to time require, and (2) the director and the assistant director, or any employee of the bureau when duly authorized, shall, for the purpose of securing such information, have access to, and the right to examine, any books, documents, papers, or records of any such department or establishment.

Sec. 214. (a) The head of each department and establishment shall designate an official thereof as budget officer therefor, who, in each year under his direction and on or before a date fixed by him, shall prepare the departmental estimates.

(b) Such budget officer shall also prepare, under the direction of the head of the department or establishment, such supplemental and deficiency estimates as may be required for its work.

Sec. 215. The head of each department and establishment shall revise the departmental estimates and submit them to the bureau on or before September 15 of each year. In case of his failure so to do, the President shall cause to be prepared such estimates and data as are necessary to enable him to include in the budget estimates and statements in respect to the work of such department or establishment.

Sec. 216. The departmental estimates and any supplemental or deficiency estimates submitted to the bureau by the head of any department or establishment shall be prepared and submitted in such form, manner, and detail as the President may prescribe.

Sec. 217. For expenses of the establishment and maintenance of the bureau there is appropriated, out of any money in the Treasury not otherwise appropriated, the sum of $225,000, to continue available during the fiscal year ending June 30, 1922.

TITLE III.—GENERAL ACCOUNTING OFFICE.

Sec. 301. There is created an establishment of the Government to be known as the General Accounting Office, which shall be independent of the executive departments and under the control and direction of the Comptroller General of the United States. The Offices of Comptroller of the Treasury and Assistant Comptroller of the Treasury are abolished, to take effect July 1, 1921. All other officers and employees of the Office of the Comptroller of the Treasury shall become officers and employees in the General Accounting Office at their grades and salaries on July 1, 1921, and all books, records, documents, papers, furniture, office equipment, and other property of the Office of the Comptroller of the Treasury shall become the property of the General Accounting Office. The Comptroller General is authorized to adopt a seal for the General Accounting Office.

Sec. 302. There shall be in the General Accounting Office a Comptroller General of the United States and an Assistant Comptroller General of the United States, who shall be appointed by the President with the advice and consent of the Senate, and shall receive salaries of $10,000 and $7,500 a year, respectively. The Assistant Comptroller General shall perform such duties as may be assigned to him by the Comptroller General, and during the absence or incapacity of the Comptroller General, or during a vacancy in that office, shall act as Comptroller General.

Sec. 303. Except as hereinafter provided in this section, the Comptroller General and the Assistant Comptroller General shall hold office for fifteen years. The Comptroller General shall not be eligible for reappointment. The Comptroller General or the Assistant Comptroller General may be removed at any time by joint resolution of Congress after notice and hearing, when, in the judgment of Congress, the Comptroller General or Assistant Comptroller General has become permanently incapacitated or has been inefficient, or guilty of neglect of duty, or of malfeasance in office, or of any felony or conduct involving moral turpitude, and for no other cause and in no other manner except by impeachment. Any Comptroller General or Assistant Comptroller General removed in the manner herein provided shall be ineligible for reappointment to that office. When a Comptroller General or Assistant Comptroller General attains the age of seventy years, he shall be retired from his office.

Sec. 304. All powers and duties now conferred or imposed by law upon the Comptroller of the Treasury or the six auditors of the Treasury Department, and the duties of the Division of Bookkeeping and Warrants of the Office of the Secretary of the Treasury relating to keeping the personal ledger accounts of disbursing and collecting officers, shall, so far as not inconsistent with this Act, be vested in and imposed upon the General Accounting Office, and be exercised without direction from any other officer. The balances certified by the Comptroller General shall be final and conclusive upon the executive branch of the Government. The revision by the Comptroller General of settlements made by the six auditors shall be discontinued, except as to settlements made before July 1, 1921.

The administrative examination of the accounts and vouchers of the Postal Service now imposed by law upon the Auditor for the Post Office Department shall be performed on and after July 1, 1921, by a bureau in the Post Office Department to be known as the Bureau of Accounts, which is hereby established for that purpose. The Bureau of Accounts shall be under the direction of a Comptroller, who shall be appointed by the President with the advice and consent of the Senate, and shall receive a salary of $5,000 a year. The Comptroller shall perform the administrative duties now performed by the Auditor for the Post Office Department and such other duties in relation thereto as the Postmaster General may direct. The appropriation of $5,000 for the salary of the Auditor for the Post Office Department for the fiscal year 1922 is transferred and made available for the salary of the Comptroller, Bureau of Accounts, Post Office Department. The officers and employees of the Office of the Auditor for the Post Office Department engaged in the administrative examination of accounts shall become officers and employees of the Bureau of Accounts at their grades and salaries on July 1, 1921. The appropriations for salaries and for contingent and miscellaneous expenses and tabulating equipment for such office for the fiscal year 1922, and all books, records, documents, papers, furniture, office equipment, and other property shall be apportioned between, transferred to, and made available for the Bureau of Accounts and the Generad Accounting Office, respectively, on the basis of duties transferred.

Sec. 305. Section 236 of the Revised Statutes is amended to read as follows:

"Sec. 226. All claims and demands whatever by the Government of the United States or against it, and all accounts whatever in which the Government of the United States is concerned, either as debtor or creditor, shall be settled and adjusted in the General Accounting Office."

Sec. 306. All laws relating generally to the administration of the departments and establishments shall, so far as applicable, govern the General Accounting Office. Copies of any books, records, papers, or documents, and transscripts from the books and proceedings of the General Accounting Office, when certified by the Comptroller General or the Assistant Comptroller General under its seal, shall be admitted as evidence with the same effect as the copies and transcripts referred to in sections 882 and 886 of the Revised Statutes.

Sec. 307. The Comptroller General may provide for the payment of accounts or claims adjusted and settled in the General Accounting Office, through disbursing officers of the several departments and establishments, instead of by warrant.

Sec. 308. The duties now appertaining to the Division of Public Moneys of the Office of the Secretary of the Treasury, so far as they relate to the covering of revenues and repayments into the Treasury, the issue of duplicate checks and warrants, and the certification of outstanding liabilities for payment, shall be performed by the Division of Bookkeeping and Warrants of the Office of the Secretary of the Treasury.

Sec. 309. The Comptroller General shall prescribe the forms, systems, and procedure for administrative appropriation and fund accounting in the several departments and establishments, and for the administrative examination of fiscal officers' accounts and claims against the United States.

Sec. 310. The offices of the six auditors shall be abolished, to take effect July 1, 1921. All other officers and employees of these offices except as otherwise provided herein shall become officers and employees in the General Accounting Office at their grades and salaries on July 1, 1921. All books, records, documents, papers, furniture, office equipment, and all other property of these offices, and of the Division of Bookkeeping and Warrants, so far as they relate to the work of such division transferred by section 304, shall become the property of the General Accounting Office. The General Accounting Office shall occupy temporarily the rooms now occupied by the office of the Comptroller of the Treasury and the six auditors.

Sec. 311. (a) The Comptroller General shall appoint, remove, and fix the compensation of such attorney and other employees in the General Accounting Office as may from time to time be provided for by law.

(b) All such appointments, except to positions carrying a salary at a rate of more than $5,000 a year, shall be made in accordance with the civil-service laws and regulations.

(c) No person appointed by the Comptroller General shall be paid a salary at a rate of more than $6,000 a year, and not more than four persons shall be paid a salary at a rate of more than $5,000 a year.

(d) All officers and employees of the General Accounting Office, whether transferred thereto or appointed by the Comptroller General, shall perform such duties as may be assigned to them by him.

(e) All official acts performed by such officers or employees specially designated therefor by the Comptroller General shall have the same force and effect as though performed by the Comptroller General in person.

(f) The Comptroller General shall make such rules and regulations as may be necessary for carrying on the work of the General Accounting Office, including rules and regulations concerning the admission of attorneys to practice before such office.

Sec. 312. (a) The Comptroller General shall investigate, at the seat of government or elsewhere, all matters relating to the receipt, disbursement, and application of public funds, and shall make to the President when requested by him, and to Congress at the beginning of each regular session, a report in writing of the work of the General Accounting Office, containing recommendations concerning the legislation he may deem necessary to facilitate the prompt and accurate rendition and settlement of accounts and concerning such other matters relating to the receipt, disbursement, and application of public funds as he may think advisable. In such regular report, or in special reports at any time when Congress is in session, he shall make recommendations looking to greater economy or efficiency in public expenditures.

(b) He shall make such investigations and reports as shall be ordered by either House or Congress or by any committee of either House having jurisdiction over revenue, appropriations, or expenditures. The Comptroller General shall also, at the request of any such committee, direct assistants from his office to furnish the committee such aid and information as it may request.

(c) The Comptroller General shall specially report to Congress every expenditure or contract made by any department or establishment in any year in violation of law.

(d) He shall submit to Congress reports upon the adequacy and effectiveness of the administrative examination of accounts and claims in the respective departments and establishments and upon the adequacy and effectiveness of departmental inspection of the offices and accounts of fiscal officers.

(e) He shall furnish such information relating to expenditures and accounting to the Bureau of the Budget as it may request from time to time.

Sec. 313. All departments and establishments shall furnish to the Comptroller General such information regarding the powers, duties, activities, organization, financial transactions, and methods of business of their respective offices as he may from time to time require of them; and the Comptroller General, or any of his assistants or employees, when duly authorized by him, shall, for the purpose of securing such information, have access to and the right to examine any books, documents, papers, or records of any such department or establishment. The authority contained in this section shall not be applicable to expenditures made under the provisions of section 291 of the Revised Statutes.

Sec. 314. The Civil Service Commission shall establish an eligible register for accountants for the General Accounting Office, and the examinations of applicants for entrance upon such register shall be based upon questions approved by the Comptroller General.

Sec. 315. (a) All appropriations for the fiscal year ending June 30, 1922, for the offices of the Comptroller of the Treasury and the six auditors, are transferred to and made available for the General Accounting Office, except as otherwise provided herein.

(b) During such fiscal year the Comptroller General, within the limit of the total appropriations available for the General Accounting Office, may make such changes in the number and compensation of officers and employees appointed by him or transferred to the General Accounting Office under this Act as may be necessary.

(c) There shall also be transferred to the General Accounting Office such portions of the appropriations for rent and contingent and miscellaneous expenses, including allotments for printing and binding, made for the Treasury Department for the fiscal year ending June 30, 1922, as are equal to the amounts expended from similar appropriations during the fiscal year ending June 30, 1921, by the Treasury Department for the offices of the Comptroller of the Treasury and the six auditors.

(d) During the fiscal year ending June 30, 1922, the appropriations and portions of appropriations referred to in this section shall be available for salaries and expenses of the General Accounting Office, including payment for rent in the District of Columbia, traveling expenses, the purchase and exchange of law books, books of reference, and for all necessary miscellaneous and contingent expenses.

Sec. 316. The General Accounting Office and Bureau of Accounts shall not be construed to be a bureau or office created since January 1, 1916, so as to deprive employees therein of the additional compensation allowed civilian employees under the provisions of section 6 of the Legislative, Executive, and Judicial Appropriation Act for the fiscal year ending June 30, 1922, if otherwise entitled thereto.

Sec. 317. The provisions of law prohibiting the transfer of employees of executive departments and independent establishments until after service of three years shall not apply during the fiscal year ending June 30, 1922, to the transfer of employees to the General Accounting Office.

Sec. 318. This Act shall take effect upon its approval by the President; Provided, That sections 301 to 317, inclusive, relating to the General Accounting Office and the Bureau of Accounts, shall take effect July 1, 1921.

As showing the ironing out of the differences between the bill adopted by the Senate on April 25 and that passed by the House on May 5, we give herewith the conference report which, as indicated by us May 28, was accepted by the Senate on May 26 and by the House on May 27:

STATEMENT OF THE MANAGERS ON THE PART OF THE HOUSE.

The managers on the part of the House at the conference on the disagreeing votes of the two Houses on the amendment of the House to the bill (S. 1084) to provide a national budget system and independent audit of Government accounts, and for other purposes, submit the following statement in explanation of the effect of the action agreed upon by the conference committee and submitted in the accompanying conference report:

The bill as agreed upon in conference is practically the same as the bill passed by the House and the bill as passed by the Senate with the exception of two important features.

The Senate Bill provides that the Bureau of the Budget shall be situated in the Treasury Department. The House agrees to this location of the bureau with the further modifications that the bureau shall prepare the budget for the President under such rules and regulations as he may prescribe and that the director of the bureau shall perform the administrative duties personal to the bureau under such rules and regulations as the President may prescribe.

The Senate bill provides that the Director of the Budget and the Assistant Director of the Budget shall be appointed by the President with the advice and consent of the Senate. The House bill provides that they shall be appointed by the President. The bill as agreed upon is identical in this respect with the provisions of the House bill.

The Senate bill provides that the Comptroller General and the Assistant Comptroller General shall hold office for seven years, but may be removed at any time for the causes named in the bill by joint resolution. The House bill provides that the Comptroller General and the Assistant Comptroller General shall hold office during good behavior, but may be removed at any time by concurrent resolution of Congress for the causes named in the bill. The bill as agreed upon in conference fixes the terms of office of the Comptroller General and the Assistant Comptroller General at 15 years, provides for their removal at any time by joint resolution of Congress for the causes named in the bill, and further provides that no Comptroller General shall serve more than one term.

The provisions in the Senate bill authorizing the transfer of employees from other departments to the Bureau of the Budget and the General Accounting Office at increased compensation are eliminated.

The provision in the Senate bill making applicable to employees of the Bureau of the Budget the additional compensation to civilian employees of the Government during the fiscal years 1921 and 1922, is incorporated in the bill as agreed upon in conference.

The provision in the House bill providing for the creation of a Bureau of Accounts in the Post Office Department to take over the duties of the administrative examination of account and vouchers of the Postal Service is incorporated in the bill as agreed upon.

The provision in the Senate bill requiring the General Accounting Office to furnish to the Bureau of the Budget such information relating to expenditures and accounting as may be required from time to time is also incorporated in the bill.

JAMES W. GOOD,
P. P. CAMPBELL,
MARTIN B. MADDEN,
JOSEPH W. BYRNS,
JNO. N. GARNER,
Managers on the part of the House.

CHARLES G. DAWES MADE DIRECTOR OF BUDGET BUREAU.

Charles G. Dawes, Chairman of the Central Trust Company of Illinois, at Chicago, has been made Director of the Bureau of the Budget, both the office and the new department of the Government having been created under the Act recently signed by President, the text of which is given elsewhere in to-day's issue of our paper. The appointment of Mr. Dawes to the new post was announced by President Harding on June 21. Mr. Dawes will assume the duties of the office on July 1, the date of its inception. Mr. Dawes, who was Comptroller of the Currency during President McKinley's Administration, served as a Colonel of Engineers and later as a Brigadier General in the American Expeditionary Forces. With his arrival in Washington on Thursday of this week (June 23) to take up his new work, Mr. Dawes was accompanied by William T. Abbott, Vice-President of the Central Trust Company, who will serve temporarily as Acting Assistant Director of the Budget. In a statement which he issued on Thursday, Mr. Dawes made known his intention to ask President Harding to invite a number of leading business men to go to Washington to serve without compensation in an advisory capacity to the new Bureau. In his statement, commenting on the work ahead of him, Mr. Dawes said:

We all know the desperate condition of the business of the country at present—industrial, agricultural and commercial—and that it is staggering under a tremendous burden of taxation from which it must be relieved if it is to properly revive. Congress has passed the budget law in order to give the President the machinery with which to secure the information necessary for him to direct the reform of Government business administration and save taxes.

He asks me to become the Director of the Budget Bureau, whose first and most important duty under this law is to suggest an alternative budget—that is a more economical budget—for the fiscal year ending June 30 1923. This alternative budget the President is directed to recommend to Congress on the first Monday of December—five months from this date. In other words, the President is depending upon the Budget Bureau, within this short time to make a survey of our vast governmental business activities and to suggest improvements therein, involving economies, with an estimate of their financial effect. The Congress convening next December must, in the ensuing six months, make the appropriations for the fiscal year ending June 30 1923.

Let us see what Congress has done to give the Director of the Budget the machinery to attempt this colossal task. If we are to get any material relief, even so late as the fiscal year ending June 30 1923, the work must be practically completed by Dec. 1 of this year. He is given an appropriation of $225,000 for expenses and employees and an assistant in each department appointed by the Cabinet head. But from the $225,000 appropriation, besides the Assistant Director of the Budget, he can employ for this stupendous work only four men of his own selection at not over $6,000 each. For the rest of his force he is compelled to take his chances on men to be certified to him by the Civil Service Commission. One might as well be handed a toothpick with which to tunnel Pike's Peak. It is evident that if this, the greatest business crisis which our Government has ever confronted, is to be properly met chief reliance will have to be placed on something else than the pitiful machinery provided by law with which to exercise the wide powers extended to the Budget Bureau.

I am, therefore, accepting the position of Director of the Budget only with the idea that the patriotism of the bureau chiefs and the country as a whole can be so aroused in this emergency that it will be met as was the emergency of war four years ago. Unless the bureau chiefs of the departments and the leading business men of the country respond to the call of the President as they did four years ago, the situation is hopeless so far as any material relief for two years is concerned from this source.

In an emergency the conventional must be brushed aside. Contrary to the rules of common sense and propriety in the ordinary situation of an incoming official I must announce my program of inaugurating a budget in advance, because it can only be carried out by an appeal to patriotism. There is no reason why in five months a proper budget cannot be made if the bureau chiefs and American business men are made of the same stuff as were their sons in the last war. My plan is this: I propose to organize my office so far as I can go under the law as quickly as possible after selecting the only four men on whose qualifications for service the law presumes me capable of passing.

The first of these will be my business associate, William T. Abbott, who as acting assistant director, will for a few months aid me in the organization of the work pending the selection of a permanent assistant director. Besides them I shall ask the War Department for the detail of two great co-ordinators—Gen. George Van Horn Moseley, Assistant Chief of Staff, and Col. Henry Smither, Assistant Chief of Staff.

On or before Aug. 1, I shall ask the President to invite a number of leading American business men to come to Washington to serve without compensation in an advisory capacity to the Budget Bureau. These gentlemen, when they arrive, will at first be assigned to the different departments to advise and co-operate with the respective budget officers thereof during the progress of their work. Later, concurrently, they will advise with the Director of the Budget. As soon as possible, pending the organization of my office, and before Aug. 1, I will call together en masse all the bureau chiefs of the departments in Washington and their assistants and explain my purposes.

They, and they alone, being in intimate and close contact with current Governmental business and each fully cognizant of the situation in his own bureau must form the chief basis of the hope of the President, of Congress and of our people for the accomplishment of this work by Dec. 1 called before the representatives of the Budget Bureau, who, if they respond to this appeal, will include the best business minds of the Nation; they must furnish the information and, in many cases, the suggestions of the changes in methods to insure economy through co-ordination.

Outside men, of whatever commanding ability and prestige, cannot go into the vitals of Government business administration in five months unless the bureau chiefs co-operate to the last degree. In advance of my appeal to them collectively, I predict from them not only co-operation but the initiation of suggestions for economies to the budget representatives. It is not to my call that they will respond, but to that of the President of the United States, of Congress and of the American people.

It is inconceivable that the budget representatives who seek only information for the use of the President who is assuming business leadership for the good of the Republic, should be opposed in their quest. No penalty can be too severe or too inexorably pressed if opposition should anywhere develop. I will say here that whever a suggestion for coordination made by a bureau chief is adopted by the Budget Bureau as a policy to be recommended to the President, it will bear his name and not that of the officers of he budget who, after all, act largely as a clearing house for the transmission of the brains and industry of others.

When we call into the service the budget representatives, they will be met by a body of bureau chiefs who have been asked under authority of the President to think in terms of their Government's interest, and who in my judgment will be not only willing but eager to lay before them the suggestions and information which must so largely form the basis of the final conclusions of the Budget Bureau.

To these business men whom the President will call to join with him, with the Cabinet, with the Congressional Committee of Reorganization, with the budget bureau, and above all, with the bureau chiefs in founding the first great national budget, I have this to say:

When the call came to me to take this place, I had the same abhorrence of the thought of leaving private life to engage in such a task as you have. Only the thought that if I declined the President's call in a time of business emergency like this, I would regard myself as a pusillanimous quitter for the balance of my life, led me to accept. If there is one of you, who, after enjoying the benefits of great prosperity, success and prestige under the protection of a Government which you claim to love, declines to accept this call, except for reasons of life and death, your conscience will be cursed by the same conviction. However great the sacrifice, you will come. When the four months of your service is over, whether, it is crowned by success or failure; whether public prise or public criticism results, you will at least have been true to your country.

In the minds of the President, the Cabinet, the chiefs and the public there must exist an absolute confidence in the non-partisanaship, impersonality and disinterestness of the Budget Bureau, which can never succeed properly, if it becomes involved in controversy, public or private, with the heads of the departments.

In Government business administration it is the eyes and ears, but not the fingers, of the Chief Executive. If it misconstrues its own functions and thereby becomes unnecessarily involved in controversies with the department heads, upon whom alone rests the duty of administration, it will fail. In proportion as it functions humbly, it will function powerfully, for the adoption of its suggestions by the President depends upon their reasonableness alone. My own connection with the bureau will cease after the first budget is made, provided the budget machinery is then operating efficiently. But whatever may be the time involved, I have made up my mind to stay with it until it is so operating, provided in the meantime I am not regarded as a failure by the President.

The crisis which confronts us all, as business men, is as great as that when the business community and all our people rose as one in the support of the Liberty loans. For the welfare of the nation, money had then to be spent; for its welfare now it must be saved.

It is a popular misconception that Congress is primarily responsible for the extravagant expenditures of the Government. For twenty years, including 1916, before we went into the war, there were only two years when Congress did not reduce the appropriations asked for by the uncordinated departments of the Government. In the last two years they have cut down the appropriations requested by the departments by billions of dollars. It is Congress which has created the Reorganization Committee and the Budget Bureau in order to give the President and Congress the information necessary for them to meet the existing emergency.

I wish to call attention to the fact that the Budget Bureau is only the agency provided by Congress for this work. Of equal power and perhaps of greater importance is this great Congressional Committee headed by Walter Brown. In its work of recommending methods of consolidation, reclassification and coordination of the Government's business system it is working along the same lines as with the Budget Bureau. Without its cooperation the Budget Bureau cannot properly succeed. It is my great hope that the Budget Bureau may deserve its confidence and that our work may proceed in close contact and mutual understanding with them.

PRESIDENT HARDING ANNULS CONTRACTS WITH UNITED STATES HARNESS CO. FOR DISPOSAL OF SURPLUS STOCKS.

Cancellation of contracts between the Government and the United States Harness Co. of Ranson, W. Va., for the disposal of surplus leather and harness held by the War Department was announced on June 15 by Secretary Weeks. The contracts which were entered into during the Wilson Administration, provided that the harness concern, in which army officers were interested, would dispose of army surplus supplies on a profit sharing basis. They were annulled by President Harding on the advice, it was said, of Attorney General Daugherty, who held that they violated sections of the Criminal Code prohibiting officers or employees of the Government from having an interest in Government property or contracts. The President's action was announced by Secretary Weeks on June 15 in the following:

These contracts were entered into by the former Director of Sales, with the approval of Secretary Baker, and provided that the large accumulation of stock of surplus military harness and accessories were to be turned over to the United States Harness Company to be reconditioned and sold, or sold in its original condition upon a profit-sharing basis.

The facts, developed by the Attorney General, led him to the conclusion that these contracts had been entered into as a result of a conspiracy on the part of certain former temporary officers of the army to secure these contracts and the control of large stocks of harness on hand for their own benefit.

The War Department has naturally followed the advice of the law officer of the Government in this matter.

The day following Secretary Weeks' announcement, Frank J. Hogan, attorney for the harness concern, filed a brief with the President arguing that the Executive was without authority to cancel the contracts in question. Afterward Mr. Hogan issued this statement in explanation of his action.

I have just filed with the President of the United States a paper denying his authority to declare the contract between the Government and the harness company void and inviting his attention to the fact that the harness company had been assured at the War Department that no such action would be attempted without a hearing to them, which hearing has never been granted.

The harness company takes the position, first, that there is no constitutional executive power to declare a Government contract void; second, that this power rests only in the courts, which can act only after hearing; third, that its contract was not only entirely lawful and mutually obligatory on the Government and the company, but that under it the Government and the public have been immensely benefited.

Months ago the Inspector General's Department made an exhaustive investigation of the harness company's contract; nearly four months of an experienced Inspector General's time was consumed in that investigation; every document relating to the matter was examined, witnesses were interrogated under oath, the Inspector General visited the company's factory and scrutinized its operation. As a result the Inspector General made an official report containing the following summary.

The facts set forth in the Inspector's report, supported as they are by the testimony and documentary evidence attached thereto, justify the following conclusions, all of which are in consonance with those of the Inspector:

"1. The War Department made sincere and determined efforts to dispose of, to ultimate consumers and to the best advantage of the Government, the surplus leather and leather equipment remaining on hand after the armistice.

"2. Efforts to place all of the equipment in the hands of ultimate consumers were only abandoned when it became apparent that this purpose could not be accomplished.

"3. An extensive campaign of advertising for the disposal of the entire surplus met with only slight success.

"4. Efforts to dispose of the property in foreign markets were a complete failure.

"5. Individual efforts to sell to large manufacturers of and dealers in leather goods were of no avail.

"6. The attempt to secure the co-operation and help of the leather trade as an association was likewise in vain.

"7. The proposal of the United States Harness Company, which was received when all hope of disposing of the surplus equipment was practically gone, and the proposition submitted was the only available and feasible way by which to market the property.

"8. The contract and its execution have been just and fair and the Government will receive a reasonable return on the equipment.

"9. No party to the contract on either side has been actuated by other than proper motives, and there has been an entire absence of connivance or underhand methods on the part of any one, either before the contract was entered into or after its execution.

"10. The question of the legality of the contract is not within the province of this office to decide."

As regards the legality of the contract, mentioned in the last above quoted clause, the Judge Advocate General rendered an opinion that the contract was legal.

Last March Assistant Secretary of War Wainwright looked into this contract and personally visited the harness company's West Virginia plant to gain first-hand knowledge of its operations.

As a result Colonel Wainwright reported to Secretary of War Weeks that in his opinion the contract was highly beneficial to the Government. It has been well known that the authorities at the War Department have not been favorable to any attempt to cancel the contract, despite strong political pressure that has been made to bring about that result.

The company and its officers have been proceeding under the terms of the contract in the utmost good faith. They intend to continue to do so. They have repeatedly requested a fair hearing from the Department of Justice, offering to furnish any information within their power. They have submitted their books and records to Government auditors. There has been constantly on duty at their factory a regular army officer under whose supervision they have transacted all of their business. If denied a hearing in the department, they stand ready to meet unflinchingly any attack that may be made in the courts.

Commenting on the cancellation of the harness contracts, referred to above, a Washington correspondent of the N. Y. "Times" on June 15 had the following to say:

Secretary Weeks stated that the case was in the hands of the Department of Justice for such action as the Attorney General deemed proper. He said that the only other war contract referred to the Department of Justice was the so-called "salmon case," involving the sale to the Government of 5,000,000 cans of salmon which were held by experts to be unfit to eat.

The purchase of harness and other leather materials for the army and the sale of surplus supplies after the armistice have been the subject of many charges. The contracts with the United States Harness Company were made on Sept. 3 1920, by F. C. Morse, Director of Sales of the War Department, and was approved by Secretary Baker. The United States Harness Company was to remake such harness as needed, remaking and then sell it, the Government to receive 60% of the gross receipts and the company 40%. A minimum price was fixed on the various models of harness as for example, artillery harness, from $14 60 to $12 80. This harness, it is said, cost the Government $226 to $170 a set.

The Congressional Committee on War Expenditures, of which Representative Graham of Illinois was Chairman, made a long report on the subject of the deal. He charged Goetz, Byron, Benke and Cochran with breach of faith with the Government and criminal conspiracy to enrich themselves at the expense of the Government.

It is asserted that all leather purchases for the army throughout the war were under the control of leather makers, tanners and harness makers. Early in the war Joseph C. Byron, a tanner of Williamsport, Pa., was made Chairman of the Co-operative Committee on Leather Equipment and had virtual charge of fixing prices on all leather goods bought by the War Department.

George B. Goetz of the firm of A. D. Goetz & Co., harness makers of Ranson, W. Va., came into the War Department as a captain. He had charge of the purchase of leather materials, while he served in the army, it is charged, Goetz retained his position with the harness company and drew $100 a month salary.

Henry W. Benke, another harness manufacturer, was brought to the War Department at Goetz's suggestion. He inspected all the leather bought for the army. Thus, it is charged, control of price fixing, purchase and inspection of leather goods was centred in the hands of Byron, Goetz, Benke and Cochran.

Officers connected with the Purchasing Division testified that the purchases were beyond all reason, and that if all the leather and leather goods authorized had been purchased, all the hides of the country would have been taken up and 300,000 more. To the civilian population in 1918 was allowed only 30% of the country's production of leather.

Among other things bought were 500,326 double sets of harness, 110,828 single sets, 945,000 saddles, 2,850,853 halters and 585,615 saddle bags.

Another purchase was 80,000 sets of "H. T. G." harness at $30.08 each, not one of which, it is charged, was ever used. The harness was later sold to the United States Harness Company at a minimum price of $5 21.

Orders for more than half a million dollars' worth of leather goods were paced by Colonel Goetz with his own company, it is charged. The correspondence indicates that he transacted much of this business himself. In some cases he inspected the goods; in most cases the orders were signed by some one under his control, but in one instance the investigating committee found that he signed the order himself

In his report Graham charged that Goetz, Benks and Cochran did everything in their power to prevent the sale of the surplus harness after the armistice. On Sept. 3 1920, without asking any bids, it is said, the Director of Sales gave Goetz, Byron, Benks and Cochran an option on all surplus leather goods. The United States Harness Corporation was at once formed with a capital of $300,000 and with Goetz, Byron, Banks and Cochran as the principal officers, drawing a salary of $25,000 each a year and controlling $130,000 of the stock. Seventeen harness firms each bought $10,000 worth of stock, Goetz and Benks retired from the army the day after the option was given.

"There is no doubt in any reasonable man's mind," said Representative Graham in his report, "but that the stockholders of the United States Harness Company will make millions of dollars profits by the contract they have made.

"It has been said that the contract with the United States Harness Company presents the opportunity for the Government to obtain the largest possible return from its surplus leather goods. It may be that this is true, though personally I do not think so. In three months alone they have have made about $250,000 on this contract. 40% of $27,000,000 is $10,800,000."

DECREASES IN WHOLESALE PRICES OF COMMODITIES IN MAY.

The general level of wholesale prices in the United States was only slightly lower in May than in the preceding month, according to information gathered by the U. S. Department of Labor through the Bureau of Labor Statistics. The Bureau's weighted index number dropped from 154 in April 151 in May, a fall of nearly 2%. The May figure is 44½% below the high peak of prices in May 1920. In giving further details of the fall in prices during May the Bureau in its statement made public June 17 said:

Farm products reacted from the low level reached in April, the index number for this group rising from 115 to 117, a gain of 1¾%. Metals and metal products showed no change in the general price level for the two months. In all other groups decreases from April to May took place. Food products as a whole showed the largest decrease, the decline being nearly 5¾%. House-furnishing goods followed next in order, with a drop of nearly 4½%. Cloths and clothing were about 2¾% lower and fuel and lighting materials were about 2½% lower than in the month before. Chemicals and drugs were nearly 1¼% cheaper and building materials nearly one-half of 1% cheaper in May, while in the group of miscellaneous commodities, composed of important articles not falling within other groups, the decrease was about 2%.

Of 327 commodities, or series of quotations, for which comparable data for April and May were obtained, decreases were found to have occurred for 139 commodities and increases for 86 commodities. In 102 cases no change in price took place in the two months.

Below are shown the index numbers of wholesale prices, by groups of commodities, for the months named:

Index Numbers of Wholesale Prices, by Groups of Commodities (1913 *equals* 100).

	1920.	1921	
	May.	*April.*	*May.*
Farm products	244	115	117
Food, &c	287	141	133
Cloths and clothing	347	186	181
Fuel and lighting	235	199	194
Metals aqd metal products	193	138	138
Building materials	341	203	202
Chemicals and drugs	215	168	166
House-furnishing goods	339	274	262
Miscellan ous	246	154	151
All commodities	272	154	151

Comparing prices in May with those of a year ago, when most commodities were at their peak, it is seen that farm products have declined 52%, and foodstuffs, composed largely of manufactured articles, have declined 53½%. Cloths and clothing articles, measured by changes in their index number, show a decrease of nearly 48% and building materials a decrease of nearly 41%. Metals and metal products were 28½% cheaper in May than in the same month of last year; chemicals and drugs were 22¼% cheaper, house-furnishing goods were 22¼% cheaper, and fuel and lighting materials were 17½% cheaper. In the group of miscellaneous commodities the decrease was 38½%.

DECREASE IN RETAIL PRICES OF FOOD.

According to the retail food index issued by the United States Department of Labor through the Bureau of Labor Statistics there was a decline of 4.8% in the retail cost of food to the average family in May as compared with April. The Bureau makes this known in a statement made public June 18, which also says:

Prices of 43 food articles are reported to the Bureau of Labot Statistics each month by retail dealers in 51 important cities. From these prices average prices are made for each article. These average prices are then "weighted" according to the quantity of each article consumed in the average workingman's family. From January 1913 to December 1920, 22 articles of food were used in this index, but from January 1921, 43 articles are included in the index number.

Changes in One Month.

During the month from April 15 1921 to May 15 1921, 35 of the 43 articles on which monthly prices are secured, decreased in price, as follows: Butter, 24%; cheese, 16%; sugar, 13%; lard, 9%; and crisco, 6%; pork chops and oleomargarine, 5%; hens, bread, rice, potatoes, and prunes, 4%; plate beef, fresh milk, nut margarine, eggs and flour, 3%; chuck roast, bacon, canned salmon, evaporated milk, cornmeal, cornflakes, navy beans, baked beans, canned corn, canned peas, and bananas, 2%; rib roast, ham, rolled oats, canned tomatoes, tea, coffee, and raisins, 1%.

Three articles increased in price during the month from April 15 to May 15, as follows: Onions, 44%; cabbage, 10%; and oranges, 5%.

The price of sirloin steak, leg of lamb, and macaroni increased less than five-tenths of 1%.

Prices remained unchanged for round steak and Cream, of Wheat.

Changes in One Year.

For the year period, May 15 1920 to May 15 1921, the percentage decrease in all articles of food combined was 33%. All but two of the 43 articles for which prices were secured on both dates decreased as follows: Potatoes, 77%; sugar, 67%; rice, 53%; lard, 44%; crisco, 42%; butter, 41%; eggs, 37%; oranges, 35%; flour and prunes, 34%; cornmeal, navy beans and cabbage, 33%; onions, 30%; oleomargarine, 29%; cheese and coffee, 27%; canned tomatoes, 25%; nut margarine, 23%; plate beef, 20%; leg of lamb, 18%; chuck roast, pork chops and bacon, 17%; canned corn, 15%; bread, 14%; baked beans, 13%; ham and hens, 12%; round steak, fresh milk and corn flakes, 11%; rib roast, 10%; sirloin steak and canned peas, 8%; bananas, 7%; rolled oats, 6%; tea, 5%; evaporated milk, 3%; canned salmon, 2%; and Cream of Wheat, 1%.

The two articles which increased in price during the year were: Raisins, 13%; and macaroni, 1%.

Changes Since May 1913.

For the 8-year period, May 15 1913 to May 15 1921, the percentage increase in all articles of food, combined, was 50%. The articles named showed increases as follows: Hens, 80%; ham, 82%; leg of lamb, 79%; bread, 77%; flour, 73%; pork chops, 68%; fresh milk, 64%; bacon, 62%; round steak, 60%; sirloin steak, 57%; sugar, 56%; cornmeal, 55%; rib roast, 51%; cheese, 44%; potatoes, 38%; chuck roast, 37%; tea, 29%; eggs, 27%; plate beef, 23%; coffee, 21%; butter, 18%; lard, 6%;, and rice 2%.

The index number, based on 1913 as 100, was 152 in April and 145 in May 1921.

Changes in Retail Prices of Food by Cities.

The average family expenditure for food decreased from April 15 1921, to May 15 1921 in all of the 51 cities from which monthly prices are secured.

The greatest decrease or 8% was shown in Milwaukee and St. Paul. In Buffalo, Denver, and New Orleans, the decrease was 7%. In Birmingham, Chicago, Houston, Minneapolis, Newark, Omaha, Philadelphia, Pittsburgh, Portland, Ore., and Scranton, the decrease was 6%. In Baltimore, Butte, Cincinnati, Cleveland, Columbus, Fall River, Indianapolis, Jacksonville, Kansas City, Louisville, Memphis, Mobile, New Haven, Rochester, Salt Lake City, Savannah, Seattle, Springfield, Ill., and Washington, D. C., the decrease was 5%. In Atlanta, Charleston, S. C., Dallas, Detroit, Little Rock, New York, Norfolk, Peoria and St. Louis, the decrease was 4%. In Boston, Bridgeport, Manchester, Portland, Me., Providence, Richmond, and San Francisco, the decrease was 3%, and in Los Angeles, the decrease was 2%.

COMPARISON OF EMPLOYMENT AND WAGES IN SELECTED INDUSTRIES IN MAY 1921 *AND* 1920.

As compared with May 1920, figures of employment during May 1921 show decreases in 13 industries in the number of employed in the month just concluded, whereas, as compared with April 1921 there was an increase during May 1921 in the number of persons on the pay-roll, and in 5 a decrease. These figures come from the U. S. Department of Labor, which through the Bureau of Labor Statistics received and tabulated reports concerning the volume of employment in May 1921, from representative establishments in 13 manufacturing industries and in bituminous coal mining. The The showing for May 1921 is detailed as follows by the Bureau under date of June 17:

Comparing the figures of May 1921 with those for identical establishments for May 1920, it appears that in 13 industries there were decreases in the number of persons employed. The one industry reporting an increase in the number of persons employed with cigar manufacturing, which shows an increase of 0.3% over May 1920. The largest decrease reported, 41%, appears in car building and repairing. Leather, paper and automobiles show respective decreases of 35%, 34.4% and 34%.

All of the 14 industries show a decrease in the total amount of the pay roll for May 1921 as compared with May 1920. The most important percentage decrease is 56.1, which appears in iron and steel. Paper-making shows a decrease of 48.3%, and leather a decrease of 45%.

COMPARISON OF EMPLOYMENT IN IDENTICAL ESTABLISHMENTS IN MAY 1920 AND MAY 1921.

Industry.	*No. of Establishments*	*Period of Pay-Roll.*	*Number on Pay-Roll in May.*		*% of Increase or Decrease.*	*Amount of Pay-Roll in May.*		*% of Increase or Decrease.*
			1920.	1921.		1920.	1921.	
Iron and steel	111	½ mo.	166,296	111,123	—33.2	$12,341,536	$5,419,262	—56.1

Silk	47	2 wks.	20,645	18,957	—8.2	995,505	856,269	—14.0
Men's clothing	43	1 week	35,298	25,695	—27.2	1,260,437	757,166	—39.9
Leather	35	"	17,307	11,247	—35.0	465,138	255,816	—45.0
Boots and shoes	85	"	69,873	56,788	—18.7	1,751,473	1,286,063	—26.6
Paper making	57	"	32,574	21,366	—34.4	976,203	504,387	—48.3
Cigars	56	"	16,563	16,608	+0.3	369,542	321,397	—13.0
Coal (bitum's)	105	½ mo.	26,325	22,252	—15.5	1,712,984	1,296,938	—24.3

Comparative data for May 1921, and April 1921, appear in the following table. The figures show that in 9 industries there was an increase in the number of persons on the pay roll in May as compared with April, and in 5 a decrease. The largest increases reported are 6.8% in hosiery and underwear; 5.9% in leather, and 5.7% in woolen. Paper making shows the most important percentage decrease—12.5— while in men's ready-made clothing and car building and repairing, respective decreases of 4.1% and 3.4% appear.

In comparing May 1921 and April 1921, 10 industries show an increase in the amount of money paid to employees and 4 show a decrease. The most important increases are 9.6% in automobiles, 7.7% in woolen, and 6.7% in hosiery and underwear. A decrease of 17.3% appears in paper making, and one of 14.6% in men's ready-made clothing.

COMPARISON OF EMPLOYMENT IN IDENTICAL ESTABLISHMENTS, APRIL 1921 AND MAY 1921.

Changes in Wage Rates and Per Capita Earnings.

During the period April 15 to May 15 there were wage changes made by establishments in 11 of the 14 industries.

Iron and Steel.—The entire force of three establishments had respective wage rate decreases of 25%, 18% and 16 2-3%. In one concern practically all laborers were reduced 17½% in wages, while a 10% reduction was made to those engaged in other occupations. Thirty percent of the men in one plant were reduced 15%; 95% of the men in a second plant were reduced approximately 14%; while in a third plant 40% of the men were reduced 12½%. Four plants reported a decrease of 10% affecting the entire force in two plants, 75% of the force in the third plant, and 50% of the force in the fourth plant. A reduction of 8.9% was made to 42% of the employees in one concern. A decrease of 8% was reported by two mills, affecting 42% of the force in the first mill and 40% of the force in the second mill. The entire force of another mill was reduced 7½% in wages. In one establishment, the hot mill department was reduced 7% in wages. Less time was reported for this industry, due to iregular operations. The per capita earnings for May show a decrease of 4% when compared with April.

Automobiles.—In this industry market conditions have improved since April and the per capita earnings show an increase of 4.9%, when comparing April and May figures.

Car Building and Repairing.—All hourly men in one shop had wage decreases ranging from 15 to 20%. A reduction in force was reported by several shops, and the amount of time worked throughout the industry as a whole was less than during the preceding month. The per capita earnings for May are 2.3% less than those for April.

Cotton Manufacturing.—All employees in one establishment were reduced 14% in wages. When per capita earnings for May are compared with those for April, an increase of 0.9% appears.

Cotton Finishing.—There were no wage rate changes reported for this industry during the period in May. The per capita earnings show a decrease of 1.4% when comparing April and May figures.

Hosiery and Underwear.—A decrease of approximately 30% to 90% of the force was reported by one establishment. All employees in two mills were reduced 25% in wages, while the entire force in another mill was reduced about 19%. Ninety per cent of the men in one concern were cut 11% in wages. The increase in the total amount of pay rolls is due to more time being worked during the May pay roll period, but the per capita earnings show a slight decrease of 0.1%.

Woolen.—Increased production was reported for this industry. When comparing per capita earnings for May with those for April, an increase of 1.9% is shown.

Silk.—An increase of 4% affecting one per cent of the employees was reported by one mill. Business conditions remained much the same during May as in the preceding month. The per capita earnings in May were 0.2% less than in April.

Men's Ready-Made Clothing.—The entire force of one plant was reduced approximately 10% in wages. Three establishments reported a wage rate decrease of 8%, affecting 90% of the men in the first establishment and 80% in the second establishment. The number affected in the third establishment was not stated. In one concern, ten per cent of the employees were cut 8% in wages, while 5% of the employees were reduced 5%. Owing to a depression in employment in consequence of a seasonal decline in trade, the per capita earnings for May are 10.9% less than for April.

Leather.—An increase of 5% was granted to 10% of the force in one tannery. Another establishment gave a 2% increase to 6% of the employees. A 20% decrease, affecting the entire force, was reported by one concern. Practically all employees in one establishment were reduced 16 2-3% in wages. All employees in one plant were reduced approximately 9% in wages; while 75% of the employees in another plant were reduced 10%. A decrease of 50 cents per day was made to the entire force in one tannery. The per capita earnings for May show a decrease of 1.6% when compared with the per capita earnings for April.

Boots and Shoes.—A general decrease of 20% was reported by four actories. Decreases ranging from 5 to 10% were made to all employees in one establishment. The entire force in another establishment was cut 8 1-3% in wages. The per capita earnings are 2.4% less for May than for April.

Paper Making.—All employees in one mill were reduced 19% in wages. A general wage rate decrease of 15% was reported by one establishment. Decreases ranging from 8½ to 20% were made to all employees in one concern. The entire force of another concern received decreases ranging from 10 to 15%. A decrease of approximately 10% was made by three plants, affecting the entire force in the first plant, 90% of the force in the second plant and 85% of the force in the third plant. Owing to wage rate reductions, and labor trouble in several mills, the per capita earnings have decreased 5.5% since last month.

Cigars.—A wage reduction of 12% was made to 85% of the force in one establishment. Comparing May with April, an increase of 3.5% in per capita earnings is shown.

Bituminous Coal.—All employees in one mine were reduced 30% in wages. Three mines reported a decrease of 20%, affecting 53% of the men in the first mine, 42% of the men in the second mine and 39% of the men in the third mine. Although many mines are working part time, the per capita earnings for May show an increase of 2.9% over per capita earnings for April.

SHIRT WORKERS WAGES INCREASED IN NEW YORK.

Operators and pressers in the mens' shirt manufacturing industry of New York, who last Feb. had their wages cut 20 and 25%, were granted an increase based on the prevailing scale of wages Monday, June 20, by Dr. William Leiserson, Special Arbitrator. While the award may be called an increase, it is rather, as the arbitrator points out, a readjustment or equalization, the wage cut put into effect the early part of the year having been in the estimation of the arbitrator greater than the decline in the cost of living.

Pointing out that the cost of living, roughly estimated, has declined 15 to 16%, Dr. Leiserson in his decision says that it is only fair to fix the wages of the operators and pressers at about 15% below levels prevailing prior to February. The readjusted scales became effective June 6. Dr. Leiserson's decision, which it is said, affects approximately 3,000 workers, as published in the N. Y. "Daily News Record" on June 21, in part follows:

In February 1921 a verbal agreement was made between the United Shirt Manufacturers' Association, Inc., and the Shirt & Boys' Waist Workers' Union, by which the following reductions in wages were agreed upon: 25% for the operators, 20% for pressers and 15% for cutters. It seems to have been understood also that the agreement between the union and the association was to be in effect until January 1922.

Agreement Made Early.

When this agreement was made the shops of the members of the association were reopened after a long period of shutdown due to depression in the industry. Shortly after the people resumed work, however, it appears that by individual bargaining and by concessions from individual employers the cutters had restored to them practically the entire amount of the decrease.

When it developed that in the men's clothing industry the wage decreases did not go above 15% the shirt makers' union, which is affiliated with the Amalgamated Clothing Workers of America, amde a request to the employers for a return of 15% of the decrease for the operators and of 10% of the decrease for the pressers.

Although the employers contended that under the verbal agreement no wage adjustment could be made before January 1922, they did enter into negotiation with the union, and compromise offers were made both by the union and the association in an effort to reach a settlement. No adjustment could be made, however, and both parties agreed to submit the entire matter to arbitration.

Union Contentions.

At the hearing the union presented its original request that the operators should have 15% of their reductions restored to them and the pressers 10%. The union contended that in February it was interested in assisting the revival of the industry from its depression, and for that reason it had voluntarily agreed to the wage reductions. These reductions were made, however, before other industries began to reduce wages, and apparently both parties were mistaken in their assumptions as to the extent of the fall that wages would take from the present levels.

When therefore, it appeared that in the closely related men's clothing industry the greatest decrease was only 15% and that most other industries had also reduced about this amount, the union felt that it had a right to ask for restoration of part of the decreases that were made. In addition it was contended by the union that all agreements made by the Amalgamated Clothing Workers of America contain an emergency clause which provides that when changes in wages or hours take place in other markets within the industry, or when important changes in industrial conditions generally have taken place, either party to the agreement is free to make a request for a revision of the wage schedule.

The fact that neither the men's clothing industry nor most of the other organized industries have reduced wages more than 15%, and the fact that the cost of living has not fallen as much as was expected by both parties in February, constitutes, in the opinion of the union, such a change in conditions as to warrant the reopening of the case and to support the requests made by the union.

Employers' Argument.

The employers on the other hand, maintain that it was clearly understood that the agreement fixed wages until Jan. 1922, and that no request for a change in wages is warranted at this time, or at any other time prior to the expiration of the agreement. They presented evidence to show that many industries had reduced wages as much as 25% or even more. They maintained that the conditions in the men's clothing industry were so different from those in the shirt industry that no action could be applied to the shirt industry because of anything that had taken place in the men's clothing industry.

In the first place, the men's clothing industry is almost completely organized in all the markets, whereas the shirt industry is unionized in New York City only, and the New York shirt manufacturers have to compete with non-union factories in all the other markets where labor costs are considerably lower. In the second place, the men's clothing industry seems to be experiencing a revival of business, whereas the shirt industry has had no such revival, but is, on the contrary, facing a depression which will shortly compel the shops to shut down for an indefinite period.

Already a number of large shirt factories both in New York and out of town are working on a part time basis, and many announcements of pending shut-downs have been made. For all these reasons the manufacturers contend that any restoration of the wage decreases would be wholly unjustified.

Arbitrator's Opinion.

The arbitrator has considered the evidence carefully and is of the opinion that the first question raised in the proceedings, namely the right of the union to request a change in wage rates at this time, had already been conceded by the manufacturers when they agreed to submit the whole matter to arbitration.

Inasmuch as the manufacturers did enter into negotiations with the union not only on the question of whether the matter might be opened up or not, but also on the amount of the decreases that should be restored to the workers, the arbitrator cannot now hold that no question of wage adjustment can be taken up at this time. It has, as a matter of fact, already been taken up by the manufacturers, and the only question for the arbitrator to consider is whether the restoration of part of the decrease is justified by the facts or not.

It was admitted by both parties that the reason why no request was made in behalf of the cutters was that the cutters had had practically the entire amount of the decrease restored to them. This fact is in the mind of the arbitrator most important, and he is of the opinion that it makes some kind of an adjustment in the wages of operators and pressers absolutely necessary.

Uniformity Necessary.

For, obviously, no stability in the industry can be expected if the agreement is not to be applied equally to all classes of workers, and if the cutters

are to be favored with restoration of part of their decrease, while the operators and pressers are told that the agreement prevents them from getting back any part of their decrease.

Inasmuch as the concessions made to the cutters are not contested by the employers in this case, it must be assumed that conditions in the industry justify them; and therefore these same conditions, as well as the necessity of treating all classes of workers equally, must justify similar treatment of the operators and pressers. And, moreover, unless some adjustment in the wages of these two classes is made, the differential between their earnings and those of the cutters would cause a serious and unjust inequality between these classes of workers.

The next question to be decided is the amount of the decrease that the operators and pressers are entitled to have restored to them. The arbitrator is of the opinion that a 15% decrease from the wages existing before February 1921 is surely justified because of the settlement on this amount in the men's clothing industry on which the union bases its case in part. Rough estimates of the decline in the cost of living show that it has dropped about 15% or 16% since last year.

Conclusion.

It seems fair, therefore, to fix the wages of the operators and the pressers at about 15% below the levels prevailing prior to February. The operators whose wages were cut 25% in February should therefore have their rates changed so as to make the reduction 15% below the rates prevailing before February, and the pressers whose rates were reduced 20% should also have the reduction changed to 15%.

This decision is to be effective as of June 6 1921, as agreed by the parties.

CHARLES R. FLINT ON INDUSTRIAL CONSOLIDATION.

"The North American Review" for June contains an article on "Industrial Consolidation" from the pen of Charles R. Flint, popularly known as the "Father of Trusts," because of the part he played in bringing about the earlier of the industrial combinations. The article is devoted to showing the advantages of consolidation, and as this is a subject of much interest at any time, and particularly so at the present moment, we reproduce below a considerable portion of it. The article is copyrighted by the North American Review Corporation, which reserves to itself all rights appertaining to the copyright. Mr. Flint indulges in a number of aphorisms, saying "A Trades Union is a combination of labor," "A University is a combination of intelligence," "A Bank is a combination of capital," and "An Industrial Consolidation is a combination of labor, intelligence and capital." Then, after pointing out that the mere combination of these factors, however, is not enough—that it must function through the most complete co-operation of work, brains and money for the highest efficiency, he proceeds as follows:

What, precisely, have been the demonstrated advantages of industrial consolidation? The consolidation principle for many years has undergone severe tests which have proved its worth. So far as pecuniary profit goes the results are well known. Industrial dividends during the past five years have amounted to over $2,500,000,000 and investments in manufacturing have increased during the past twenty years from $9,000,000,000 to over $25,000,000,000.

The reasons behind the almost complete record of success of wisely organized and ably managed consolidations are not far to seek.

Most important of these reasons is that, through industrial consolidation, high-speed-automatic-machine and low-cost-quantity-production are attainable up to the point of highest evolution—the continuous *manufacture of one standardized product.*

Because of the magnitude of their affairs, industrial consolidations are able to offer in salaries and in a percentage of net profits generally over and above a previous maximum, a sufficient inducement to secure men of the first order of ability—men who are not tempted by a fixed salary, but by the incentive of making a record and profiting by it.

The consolidated corporation sub-divides its business so that at the head of each of its various departments is a man who, through long experience and concentration, operates at the highest efficiency. Furthermore, industrial consolidations are able not only to secure the best men as executives, administrators and employees, but also to retain men of the highest standing in the consultative professions—lawyers, engineers, architects, chemists and other advisers and technicians. Thus better service is assured with less overhead cost than the aggregate amount which was paid to men of lesser capacity by the various constituent companies.

The consolidation not only adopts the best methods to be found in any of its various plants, but improves them through continual experimentation by the ablest experts.

It reduces stocks of merchandise, thereby saving interest, and carrying charges and minimizing loss from depreciation.

It centralizes sales and advertising, and eliminates duplicate trade catalogues.

It centralizes purchases, and secures important benefits through quantity and time contracts.

It greatly reduces the volume of fixed and circulating capital per unit of output.

It retains lawyers and experts of experience and demonstrated ability for patent and trade-mark protection. By consolidation, inventive genius is less hampered by conflicting patents and expensive litigation is largely eliminated.

It locates factories with relation to labor, raw material and markets.

Throughout the country are many examples of raw materials and fuel being hauled hundreds of miles to a factory; and the finished product carried hundreds of miles back to centres of consumption. Many of these locations have become obsolete from changed conditions, often relics of ancient happenings. The whim of a poor Welsh shoemaker in colonial days fixed Lynn as a great shoe manufacturing centre. A German's skill in knitting for his neighbors in the Pennsylvania German colony centred the stocking industry of America in Philadelphia. The cotton industries have been relocating in the South, nearer to raw material and cheap labor; the shoe industry is relocating in the West, nearer to skins, hides and large consumption.

The best arguments for industrial consolidation are the industrial consolidations themselves.

One which illustrates in marked degree the development of the possibilities of consolidation is the Standard Oil Company. Its executive committee met daily, availed itself of comparative accounting and comparative administration, and placed at the head of each department one of its ablest men who was held responsible for a hundred per cent efficiency. The organizer, who became the largest single shareholder, believed in "team work" and that each member of the executive committee should be an important shareholder.

Its executives did not go to sleep behind the tariff wall of protection; but confident in their strength through consolidation, they boldly entered the contest for the world's markets in competition with the cheap labor and great natural resources of foreign lands. By utilizing and developing the possibilities of consolidation, they not only reduced the prices of their products in the domestic market to an average of 40% below what consumers had been paying to individual concerns, but when the United States was a debtor nation, the exports of Standard Oil products were so large that when J. Pierpont Morgan in 1893 asked for $50,000,000 in gold to replenish our Government's $100,000,000 gold reserve, this pioneer industrial consolidation by the export of its products that year, contributed over $30,000,000 in gold equivalent towards maintaining America's credit.

Among the less well known examples of industrial consolidations and their significant benefits may be cited the Oil Cloth Consolidation. Until this consolidation was effected, oil cloth as a commodity was "a football in the market place." Its quality was low because of the fierce competition on price alone; the distributers and consumers respected neither the goods nor its makers; the conditions were chaotic, consumption low, profits nil and the field unattractive. Consolidation of this industry radically changed the situation for the better in three years. The consumer now is getting dependable quality, the distributers a fixed rate of profit, and the makers have a business which is stable and profitable. Many other lines of trade now in a position af chaos and impending disaster would benefit from the same treatment.

The consolidation, which is the largest known to economic history, the United States Steel Corporation, is another example of the advantages of a wisely organized and ably managed consolidation.

Its prices have consistently held to stable levels, yet its profits have been steadier and larger than those of the individual companies.

All well-managed industrial consolidations utilize the advantages of a central traffic control which eliminates duplicate routes in the transportation of products, sold and received, but the Steel Company went still further and made a great reduction in unnecessary transportation by plant relocation.

One of the first results of its formation was the projection of a new city, scientifically located—Gary, Indiana. Here, at a point precisely engineered between cheap, water-transported ore and fuel, and the centre of distribution of the finished products, great modern mills, homes, churches, schools, etc., were erected upon what had been desert sand dunes.

Such a plan for efficiency could not have been carried out on such a scale except by a gigantic industrial consolidation.

A vivid insight into the relative efficiency of an industrial consolidation and the smaller and less able manufacturer is afforded by the investigations of the Tariff Commission under President Taft, in an effort to ascertain "the differences of cost in production between here and abroad." It developed that in the United States the consolidated manufacturers had, as a rule, conspicuously low costs, while the unconsolidated, isolated manufacturers had relatively high costs.

As a test of the permanency of the advantages of industrial consolidation it may be asked, how have the industrials fared in times of financial stress? The answer is conclusive. The blackest period for American business since industrial consolidations have been in existence began in 1893. In those hard years the sugar, rubber, tobacco, oil, lead, electric and match consolidations weathered storms which brought their unconsolidated competitors to the verge of ruin.

Moreover, we all recall that during the World War the highly developed manufacturing facilities and organizations of our industrial consolidations made up in very large measure for our lamentable lack of preparedness for entry into the War.

The industrial consolidation is a modern illustration of the fable of the bundle of sticks which, though breakable separately, gain great strength, out of all apparent proportion to their number, when combined.

We are now brought to a consideration of the great and significant new trend in American business which, to all constructive students of industry, presents a rich vista of possibilities for business development and extension which are not now viewed in the same narrow light by business men as perhaps they were before the day of Roosevelt and his quickening of the business conscience. To-day they are viewed (1) as profit possibilities, (2) as labor welfare possibilities and (3) as public service possibilities—all three being the net results of co-operative and scientific developments in industry.

A keen sense of public and fiduciary responsibility has been developed, not only on the part of large corporation executives, but—which is more important—among shareholders, whose servants, after all, the corporation executives are. This is largely due to the fact that the public has become an industrial shareholder to a very extensive and rapidly increasing degree.

For instance, five industrial consolidations, the United States Steel Corporation, the Standard Oil Company, the United States Rubber Company, the American Woolen Company and the Computing-Tabulating-Recording Company together have over 200,000 shareholders. This public participation in ownership—which is industrial profit-sharing in every sense of the word—has been made possible through industrial consolidations, which, instead of operating for the private profit of a few, as did old-fashioned business, now operates for the profit of many shareholders who are sometimes more numerous than the customers to whom they sell. It is estimated that over 300,000 employees are financially interested in the industrial consolidations in which they work.

The shareholders in the Standard Oil Company and affiliated companies have received cash dividends of $1,585,000,000, and the market value of its shares has increased from about $56,000,000 to over $2,100,000,000.

The shares of the United States Rubber Company, the American Tobacco Company, and other notable consolidations have paid to the investing public large dividends and their shares have doubled in value.

The 185,000 investors in shares of the United States Steel Corporation have received in cash dividends over $1,000,000,000 and its common shares since 1903 have increased in market value over $350,000,000.

But there are more serious reasons for industrial consolidations than these which we have been considering.

The United States has its industrial future to defend.

We must meet the competition of the cheap labor countries, cheaper now than ever before because of wages being paid in depreciated currency. We must in some way make up for the great difference between the low wages of these countries and the high wages paid in America. That difference

cannot now be made up by a protective tariff, although a sufficient degree of tariff protection should be maintained.

Conditions have changed. A tariff bill framed without taking into consideration the fact that high duties, unwisely levied, increase the high cost of living and interfere with the free operation of the law of supply and demand, and would defeat the very purpose for which it was intended.

This was forecast years ago by Senator William M. Evarts, then sage of the Republican party, at a private dinner on the eve of Ambassador Coolidge's departure for France. The Senator reviewed our changing economic conditions and said to us that we were destined to become the greatest exporting nation of the world. Reciprocity, which had been advocated to relieve trade congestion, he regarded as the highest evolution of protection, and warned his fellow Republicans against carrying the protective policy so far as to lead to a war of tariffs.

We have standards of living higher than anywhere else on the globe in compulsory competition with the cheap labor and consequent low standards of living of the rest of the world. More than that, we are handicapped by the close and intimate co-operation of foreign Governments with their business enterprises; combinations of government and capital to a degree yet unpracticed here.

Since tariffs alone cannot solve the problem, we must meet such foreign competition in greater degree than ever *by lower unit costs through industrial consolidation, industrial relocation and standardization.*

Labor is coming to a realization that production per man must be increased; that mediocrity, slacking and shirking must not be tolerated if our high standards of living are to be maintained.

It is logical to assume that the trials of strength now immediately before us and to come later on in the shock of impact with desperate foreign competition will best be met by an extensive re-engineering and consolidation of American industries. Every person in this country—wage-earner, farmer, manufacturer, consumer, merchants, or banker, is anxious to know whether superior organization, the greater efficiency of labor and superior man-power attainable through the evolution and larger use of labor-saving devices will be sufficient, with the assistance of a logical protective tariff, to maintain the well-being of the American people. It certainly will not be if the industrial leaders of Europe are to be left free to adopt the best methods of organization while Americans of constructive ability and enterprise are to be handicapped as in the past by unnecessary legal uncertainties, unwise legislative attempts at regulation and blind antagonisms.

CHARLES R. FLINT.

FURTHER DISCUSSION OF FRELINGHUYSEN COAL BILLS.

The Frelinghuysen Coal Bills which were discussed at considerable length by W. H. Williams, Senior Vice-President of the Hudson Coal Co. in the "Chronicle" of June 11 (p. 2494 to 2497), were called up and made the unfinished business before the Senate at Washington on June 20. The full text of these bills will be found on a subsequent page.

Senator Frelinghuysen, addressing the Senate said, in part:

Desire to Route Speculators and Save the Public from Extortion.

"Within the last five years the country has suffered from a shortage of coal, due to blizzards, the switchmen's strike and traffic jam. People have also suffered from high prices, while some persons in the coal trade without conscience have taken advantage of the situation to profiteeer. The situation to-day is critical and conditions deplorable.

"While it is true that bituminous coal is cheaper, the mines are idle and labor is unemployed and production is far behind normal. The people are indifferent and are not laying in their stocks. Freight rates are sky-high, and unless something is done to stimulate buying, the panic price of last year in the late spring and summer may be repeated; next winter transporation may be overtaxed, and if so, a shortage will occur. Then, I firmly believe, drastic Government action will be again demanded by the people.

"There was plenty of coal last year, enough labor to mine it, but a shortage of cars delayed deliveries and a buyers' panic was caused. This was entirely unnecessary. Had there been a Government agency charged with the responsibility of correctly informing the people (such as this legislation proposes), I believe the speculators would have been routed and the public saved from extortion.

Sees Remedy in Publicity.

"The public expects this Congress to make some effort to relieve this situation. They will not endure another season of prices for coal delivered to the consumer for domestic and industrial purposes, ranging from $15 to $30 per ton—a price that taxes every household and is reflected in the cost of production in every factory, in railroad and trolley fares, in cost of power, gas and electricity, and retards development of any housing plan. With enough mines and miners to produce 750,000,000 tons a year, and 150,000 coal cars idle during the summer months, the condition is one which can and should be relieved.

"Even now with bituminous coal a drug on the market, the anthracite situation is complex. Anthracite for domestic purposes is selling from $12 to $15 per ton, while other commodities are selling 20% to 40% lower than during the war. The operators, the railroads, with high freight rates, and the dealers are complacent over the situation, and no one can tell why. No one seems to care except the consumer, who complains bitterly, as I will show by letters which depict deplorable conditions among those who need coal. Although the consumer is the largest part of human society, interest in him seems to lag at times.

"A thorough study by a department of Government with widespread publicity will remedy many of the evils and abuses now existing. This legislation provides for this. In anthracite prices we know that high wages, increased cost of mining, royalties and freight rates have largely added to the cost, but there seems to be an unduly large cost between the car at destination and the bin of the consumer, and nobody can tell the reason or find out. This legislation proposes that the Department of Commerce shall find out and make public the facts.

Neither Government Regulation or Control Is Sought.

"There is nothing in this legislation which controls or regulates their business. It does, however, compel full information and provides for the publication of all facts regarding the production and distribution of this essential commodity. It does provide that it shall be the Government's duty to study the question and advise Congress and the public of all the essential details that make up the price of coal.

"I have never advocated Government ownership, control or drastic regulation. I do not believe the Government should compete with legitimate business enterprises or should interfere with the law of supply and demand. But I do believe that the Government should compel full information, for the public benefit, in commodities essential to the life and comfort of the people.

Justification for Government Study of the Situation.

"To say that a branch of Government should not study the question and compel information to stabilize the industry and bring relief in improved conditions is foolish, and to say that this is Government interference in business is ridiculous. Oftimes selfish influences compel us here to oppose legislation, the great cry is raised of interference with business and too much regulation, and the Government goes on in sublime ignorance, except for the superficial investigations now and then made by Congress. Then the people wake up and demand drastic legislation, which is never thoroughly digested, hastily passes and confuses but does not cure. * * *

"I have no antagonism to the coal operators, but I must frankly state that I believe a great many coal producers to-day are committed to the theory that the coal industry can be best exploited by maintaining the same seasonal speculative atmosphere, many of the producers resting complacently under the present depressed business situation in the belief that when the demand for fuel appears they will be able to employ the opportunity to recover the losses now being sustained with compound interest."

The National Coal Association, comprising leading bituminous coal operators of the United States, have issued an eight-page brochure stating their objections to the regulation of business by legislation particularly to the coal industry stabilization bill introduced by Senator Frelinghuysen. These objections which they consider fundamental, are summarized by John B. Pratt, director of publicity for the association, as follows:

Any Act for Compulsory Publicity Would, They Believe, Be Unconstitutional.

Washington, June 19.—Opposition to the so-called "Coal Industry Stabilization Act," sponsored by Senator Frelinghuysen of New Jersey, on the ground that it is paternalistic, discriminatory and unconstitutional, was expressed in a statement to-day by the National Coal Association, composed of bituminous coal operators with more than one-half of the soft-coal output of the country.

"The bituminous operators join with the other branches of the industry in announcing their opposition to this pending legislation, which is both regulatory and inquisitorial in its character, and singles out the coal industry as one for particular legislative direction and control," says the association.

The bituminous coal operators, the association's statement says, have expressed themselves to Senate committees as well as officials of the Government, as entirely willing to co-operate with the Government in giving voluntary information for public use, as to production, distribution and prices of coal. But they insist that the Frelinghuysen bill which, among other things, makes this submission of this data compulsory, "violates the Constitution in that it attempts to enforce the disclosure of information concerning matters which are not within the power of Congress to control."

The Bill, if Enacted, Would Probably Prove the Forerunner of Further Inquisitorial and Regulatory Interference with Private Business.

"The bill," says the association, "is directly contrary to the announced policy of 'less Government in business' which has made such a popular appeal to the people."

After enumerating many features of the bill, which are criticized as inquisitorial and as unlawful interference with the right of industry and business, the association says:

"The bill, if passed, would be a forerunner and precedent for similar paterial and regulatory legislation with reference to every line of private business.

"If Congress has the power to enact legislation of this character concerning the coal industry and all consumers of coal, it must have the same power to enact similar legislation with reference to other lines of private business, and if it is conceded that such legislation offers a panacea for supposed evils in the coal industry, it will in similar fashion be assumed that by legislation can be found a cure-all for every supposed defect in private business.

Such a program of legislation, once embarked upon, will lead rapidly to the destruction of private initiative, competition, and the whole structure of the producing and merchandising business of this country.

"This bill, therefore, is of vital importance to the entire nation, not only because it includes within its scope every one who is engaged in the coal industry and every one who consumes more than 100 tons of coal a year, but also because, if passed, it would form a precedent for further legislation relating to other lines of business.

"The coal industry, as well as other lines of business, has suffered from extraordinary conditions due to the great world war, and that industry, like others, is attempting to readjust itself to the present conditions arising from this unprecedented catastrophe. To assume that legislation is necessary at this time because of recent and transitory conditions is unwarranted.

"Representatives of the bituminous coal operators and of other branches of the industry have repeatedly stated that they are ready and willing to furnish the Secretary of Commerce commercial information concerning the production of coal, the shipments made and the average prices realized, so as to enable the Secretary to publish from time to time statistical data concerning the industry. The information so offered to be furnished would serve any purpose which the Secretary of Commerce has announced.

Bituminous Operators Entirely Willing to Furnish Voluntary Information Without Further Legislation.

"We are advised that the Secretary of Commerce has already approved the suggestion made by representatives of the lumber, automobile, and certain other industries which the Secretary considers basic, that they will furnish voluntary information of a character similar to that offered by the coal industry and without any further legislation. This proposed arrangement with such industries is in accord with the long-established custom under which reports have voluntarily been furnished by producers of all agricultural products to the Department of Agriculture.

"The coal industry has for many years past voluntarily given information to different departments of the Government, such as the Geological Survey, to the entire satisfaction of Government officials and the public, without any enabling legislation therefor.

"There is no ground for discriminating between the coal industry and the several other industries and enacting special and inquisitorial legislation of the character of the Frelinghuysen bill."

The association contends that the bill, by its very phrasing, shows an intent to establish Government control over a

private industry, in that it provides, among other things, that the Secretary of Commerce and the Director of the Bureau of Mines shall each year submit a report to Congress "with such recommendations for further legislation relating to the mining, distribution, transportation or sale of coal as they may deem necessary." "Private industry," says the association, "cannot voluntarily submit to legislation in which the deliberate purpose is announced, as it is, to control ultimately every phase of such industry."

Regarding the probable effect of the "Seasonable Rate Bill for the Transportation of Coal," W. H. Williams, Senior Vice-President of the Hudson Coal Co., in a note to the "Chronicle" says:

The experience of the anthracite companies, which reduce prices 50c per ton each April, has been that people reduce purchases to necessities in February and March, increase buying in April and May—and stop buying during balance of summer. The practice is of doubtful value. Compare also V. 112, p. 2494.

The discussion in the Senate on June 23 was reported by the "Times" as follows:

"What the coal consumer needs," said Senator Frelinghuysen, "is a leader to prevent the constant recurrence of, first, scarcity, and second, overproduction."

Senator Willis of Ohio suggested that lower tariffs on coal in Summer and higher in Winter might result in small consumers being required to pay more for their fuel. "Large users would provide storage," he said, "and take their coal in the Summer, while the little fellows and the household consumers would be unable to get facilities and be forced to pay the higher rates."

Senator Frelinghuysen said domestic consumers under present conditions lost more because of high prices due to Winter demand and shortages than they possibly could from the rate differential proposed.

Senator La Follette of Wisconsin started a flank attack on the Transportation Act by way of the seasonal coal freight rate bill. He put in three amendments to the coal bill—one to repeal Transportation Act provisions for rates on the basis of a 6% property investment return; another to restore intrastate rates to exclusive State jurisdiction, and a third to authorize freight rate making regardless of property values involved.

FULL TEXT OF FRELINGHUYSEN COAL BILLS.

The coal bills which were introduced in the United States Senate on May 14 by Senator Frelinghuysen and were subsequently reported favorably by the Committee on Interstate Commerce, have been discussed at considerable length in the "Chronicle" of June 11, pages 2494 to 2497, as well as in the foregoing article in this issue of the paper.

The full text of these bills as presented on May 14 follows:

S 1806—*TO PROVIDE SEASONAL TRANSPORTATION RATES FOR COAL.*

(1) Bill to further Amend the Inter-State Commerce Act, as amended, to provide for Seasonal Rates for the Transportation of Coal.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 15a of the Inter-State Commerce Act be amended by adding a new paragraph (19) at the end thereof, as follows, to-wit:

"(19) In order to promote continuous operation of coal mines, steady employment of coal miners, and economical use of facilities for distribution of coal, the commission is hereby authorized to initiate, establish, approve or adjust rates for the transportation of coal during specified seasons or periods which shall be greater or less than the rates for other specified seasons or periods, but which in the judgment of the commission will yield as nearly as may be the same annual revenue for like movement as rates without seasonal variation, to be maintained by carriers as a whole or as a whole in each of such coal rate groups or territories as the commission may from time to time designate for that purpose, or by such carrier or carriers as the commission may designate.

"The term 'coal' shall include anthracite and bituminous coal, lignite, coke, including petroleum coke, and briquettes and boulets made from anthracite and bituminous coal and from coke.

"Whenever the commission is of opinion that an emergency affecting the transportation of coal and requiring immediate action exists in any section of the country the commission shall have, and is hereby given, authority, either upon complaint or upon its own initiative without complaint, at once if it so orders without answer or other formal pleading by the interested carrier or carriers, to suspend the operation of any schedule in so far as it affects coal rates, whether seasonal or not, upon filing with such schedule and delivering to the carrier or carriers affected thereby a statement in writing of its reasons for such suspension, and defer the use of such coal rates, and to initiate in lieu thereof such seasonal rates for the transportation of coal as in its judgment the emergency may require.

"The commission shall thereupon enter upon a hearing concerning the lawfulness of the schedule, the operation of which had been so suspended, and the proceedings thereon shall be the same as nearly as may be as those provided in paragraph (7) of section 15.

"Nothing contained in this paragraph shall be construed as repealing, modifying, or denying any other authority heretofore conferred upon the commission."

(2) *Bill S* 1807—*"To Aid in Stabilizing the Coal Industry."*

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the Coal Industry Stabilization Act.

Sec. 2. That when used in this Act, unless the context indicated otherwise—

The term "person" includes a partnership, association, or corporation, as well as an individual.

The term "coal" includes anthracite, semi-anthracite, bituminous, and sub-bituminous coal, lignite, and coke.

The term "commerce" means commerce among the several States, or with foreign nations, or in any territory or possession of the United States, or in the District of Columbia, or between any such territory or possession and another, or between any such territory or possession and any State or foreign nation, or between the District of Columbia and any State, territory, possession or foreign nation.

The term "operator" means a person engaged in the business of operating a coal mine from which coal is transported in commerce.

The term "dealer" means a person engaged in the business of selling coal in commerce at wholesale or retail.

The term "Secretary" means the Secretary of Commerce.

The term "Director" means the Director of the Bureau of Mines.

Sec. 3. That the powers and duties conferred or imposed upon the Secretary or the Director by this Act may be exercised by them through such agency or agencies as they may designate.

Secretary of Commerce to Collect Data as to Production, Stocks on Hand, Distribution and Prices.

Sec. 4. That the Secretary shall from time to time investigate—

(1) The tonnage of coal produced and tonnage of coal sold in commerce, including railway fuel;

(2) That stocks of coal on hand in any section of the country or in such consuming territories or districts as may be outlined or designated by the Secretary and the consumption requirements in such sections or consuming territories or districts;

(3) The distribution of shipments of coal in commerce to any such section, territory, or district, including the distribution of coal cars;

(4) The contract and prevailing market prices received or paid for coal by persons engaged or interested in the mining, sale, storage, or distribution of coal.

The Secretary is authorized to require, secure, and collect such information currently or at such time or times as in his judgment may be necessary in the public interest from all persons engaged or interested in the mining, sale, storage, or distribution of coal.

The data and information furnished by any person at the request of the Secretary and pursuant to the provisions of this section, shall be limited in its use to the purposes of this Act, and it shall not be used for any other purpose whatsoever.

The President May Direct Investigation as to Costs and Profits of Mining, Etc.

Sec. 5. That if in the judgment of the President it is deemed necessary and he shall so declare, then the Secretary, under the direction of the President, shall investigate costs and profits in connection with the mining, sale, storage, and distribution of coal.

In such event, and during the time such action is deemed necessary, the Secretary is authorized to require, secure, and collect such information from all persons engaged or interested in the mining, sale, storage, or distribution of coal.

The data and information furnished by any person, at the request of the Secretary and pursuant to the provisions of this section, shall be limited in its use to the purposes of this Act and it shall not be used for any other purpose whatsoever.

Sec. 6. That the Secretary shall investigate, from time to time, the wages, working conditions and practices, terms of employment, and the living expenses of miners and other workmen employed in mines, washeries, coking plants, and other plants pertinent thereto from which coal is transported in commerce.

Sec. 7. That the Secretary shall, on request, and to the extent that he deems proper in the public interest, place at the disposal of any private or public board, commission, or other group engaged in the arbitration, conciliation, or settlement of any labor dispute arising in any mine from which coal is shipped in commerce, all data and information in the files of his office relating to the matter in controversy, except data and information which would separately disclose the business transactions of any person.

The Secretary Shall Investigate Practicability of a Zoning System, a Central Agency, Improved Methods of Storage, Etc.

Sec. 8. That the Secretary shall investigate the desirability and practicability of a statutory zoning system defining the distance from the mine within which coal therefrom may be transported in commerce, and shall submit a report thereon to Congress on or before December 5, 1921, accompanied by such recommendations as he may deem proper.

Sec. 9. That the Secretary shall investigate the desirability and practicability of the purchase by one central agency of all coal for the use of the Federal Government, and shall submit a report thereon to Congress on or before December 5, 1921, accompanied by such recommendation as he may deem proper.

Sec. 10. That the director, under the direction of the Secretary of the Interior, shall investigate, from time to time, methods and processes for the storage, inspection, sampling, analysis, purchase, classification, and economic utilization of coal, and conduct such experiments and researches as he may find advisable to determine the most efficient means for such storage and other processes involved in the preparation, transportation, and utilization of coal. The director shall co-operate with dealers, consumers, and others to encourage the construction of facilities for the storage of coal and for its utilization.

Sec. 11. That the director, under the direction of the Secretary of the Interior, shall investigate the desirability and practicability of prescribing standards for various kinds and grades of coal prepared for the market, and shall submit a report thereon to Congress on or before December 5, 1921, accompanied by such recommendations as he may deem proper.

The Secretary Shall Report to Congress Annually in December Result of Investigation.

Sec. 12. That the Secretary and the director shall, on or before the first Monday of December in each year, submit a report to Congress, setting forth therein the work and activities of their offices for the past year, and a summary of the results of investigations conducted by them as required by this Act, together with such recommendations for further legislation relating to the mining, distribution, transportation, or sale of coal as they may deem necessary.

Other Departments, Bureaus, Etc., Shall Co-operate with the Secretary.

Sec. 13. That the various departments, bureaus, boards, commissions and agencies of the Government, when directed by the President, shall furnish to the Secretary or the director upon their request any records, papers, and information in their possession relating to any matter which the Secretary or the director, is authorized to investigate under the provisions of this Act, and shall detail, from time to time, such officers and employees for service under the Secretary or the director as the President may direct.

Sec. 14. That it shall be the duty of the Interstate Commerce Commission and the Secretary to co-operate with each other in carrying out the provisions of this Act and in promoting the proper distribution and use of coal cars to secure the most efficient transportation of coal in commerce, but nothing contained in this section shall be construed to limit or repeal any of the provisions contained in the Interstate Commerce Act or the amendments thereto nor in the Transportation Act of 1920. The Secretary

may also co-operate with any State or municipal official, board, commission, or agency in carrying out the procisions of this Act.

Sec. 15. That the Secretary and the director shall file, analyze, and compile all data and information obtained under sections 4, 5, 6, and 10 and shall keep such data and information revised currently and available for immediate reference. They shall publish, from time to time, in such form as they may deem proper, such portions of the data and information obtained thereunder, as they may deem advisable in the public interest, except data and information which would separately disclose the business transactions of any person, and trade secrets or names of customers.

Sec. 16. That upon the request of the Secretary or the director each operator, dealer, or other person, and each person who consumes coal in quantities in excess of one hundred tons annually, and each common carrier engaged in the transportation of coal, shall furnish the information required by the provisions of this Act. Such information shall be furnished under oath, or otherwise, as the Secretary or the director may require, and shall be filed with the Secretary or the director, as the case may be, within such reasonable periods of time as they may prescribe, unless additional time is granted.

Sec. 17. That any person subject to the provisions of this Act who shall wilfully neglect or fail to furnish or cause to be furnished, within the time prescribed by the Secretary or the director, any information required by the Secretary or the director pursuant to the provisions of this Act shall be guilty of a misdemeanor and shall, on conviction, be punished by a fine of not more than $1,000 or by imprisonment for not more than six months, or both.

Sec. 18. That any person subject to the provisions of this Act who shall willfully make or cause to be made any false or misleading statement of fact in any answer or report filed or furnished on the request of the Secretary or the director pursuant to the provisions of this Act shall be guilty of a misdemeanor and shall, on conviction, be punished by a fine of not more than $1,000 or by imprisonment for not more than six months, or both.

Sec. 19. That the Secretary or the director may conduct any investigation authorized by this Act, personally or by such examiners as they may designate for that purpose in any part of the United States. For the sole purpose of securing the information and data which may be required by the Secretary or the director pursuant to the provisions of this Act, the Secretary or the director or their duly authorized agents shall at all reasonable times have access to and the right to examine mines, washeries, yards, docks, equipment, and other places of business of any operator or dealer or other person engaged in the mining, sale, or distribution of coal and the right to sample coal at any place.

For the sole purpose of securing the information and data which may be reqiured by the Secretary or the director pursuant to the provisions of this Act, the books, papers, records, accounts, documents, or correspondence of any operator, dealer, or other person subject to the provisions of this Act shall be subject to examination by the Secretary or the director or their duly authorized agents.

Penalty for Refusal to Produce Books, Accounts, Etc.—Other Penalties.

Any operator, dealer, or other person, subject to the provisions of this Act, who shall refuse to permit the Secretary or the director, or their duly authorized agents, to have access to and to examine any such mines, washeries, yards, equipment, docks, offices or other place of business and to sample the coal at any place, or who shall refuse to produce such books, papers, records, accounts, documents, or correspondence for such examination for the purposes aforesaid shall be guilty of a misdemeanor and shall on conviction, be punished by a fine of not more than $1,000, or by imprisonment for not more than six months, or both.

Sec. 20. That the term "person" as used in sections 17, 18 and 19 includes an officer or employee of a corporation or a member or employee of a partnership who as such officer, employee, or member is under a duty to perform the act in respect to which the violation occurs.

Sec. 21. That any officer or employee serving under the Secretary or the director who shall make public any information obtained by the Secretary or director, or contained within the records of their offices, without the authority of the Secretary or the director, unless directed by a court, shall be guilty of a misdemeanor and shall, on conviction, be punished by a fine of not more than $1,000 or by imprisonment for not more than six months, or by both.

Sec. 22. That the director, with the approval of the Secretary of the Interior, or the Secretary, shall have the power to make and enforce all rules and regulations necessary for carrying out the provisions of this Act and to prescribe the method of procedure to be followed in making the investigations authorized by this Act.

Sec. 23. That this Act shall not be construed to authorize the creation of any deficiency.

Sec. 24. That all laws and parts of laws in conflict with the provisions of this Act are hereby repealed.

ANNUAL CONVENTION OF AMERICAN FEDERATION OF LABOR.

The American Federation of Labor concluded its 41st annual convention at Denver, Colo., this week, having been in session since June 13. The convention adopted a number of resolutions bearing on national, economic and political problems. On Thursday, June 23, it voted down a proposal calling for an amendment to the Constitution of the United States taking the power of declaring war from Congress and placing it in the hands of the people through referendum vote. The declaration, which went to a roll call after a stormy debate, also provided that "all those voting in favor of the declaration of war, be compelled to take up the active prosecution of the same before those who voted against the declaration of war."

The convention at the same time called upon Congress to enact legislation to control the meat packing industry of the country.

On the preceding day, that is, June 22, the convention went on record (as have past meetings of the labor organization) in favor of government ownership of the railroads, directing its Executive Council to draw up "proposed legislation designed to give the workers through Government regulation equal rights and privileges with capital in organ ized enterprises." The convention sustained the action of the Resolutions Committee in striking out of the resolution a phrase that would have put organized labor on record as declaring for Government control and democratic operation of "all industries organized under corporate grants and privileges." The Council was also directed to "assist the recognized railroad labor organizations by every effort within their power to have proper legislation enacted providing for Government ownership and democratic operation of the railroad system of the United States.

The convention also on June 22 adopted resolutions expressing sympathy with the Irish people in their efforts to secure independence, but it refused to accept a plea made by a minority committee that a boycott be placed on British goods as a measure of support for the Irish cause.

Other action of the convention on the same day included adoption of the Executive Council's report asking the United States to take a leading step for world-wide disarmament by agreement and commendation of Secretary of the Navy Denby for his prompt action in ordering the return of Admiral Sim's following his recent speech on "jackass votes" in London.

On June 16 the labor meeting unanimously repudiated the "one big union" idea, sustaining the action of its Committee on Organization in not concurring in a resolution calling for "one body of workers through amalgamations, federations and protective agreements."

President Samuel Gompers, addressing the opening session of the convention on June 13 attended by some 500 delegates, declared that the "enemies of labor" and the advocates of the open shop had failed to "crush" the trades union movement. Similar sentiments were expressed in the report of the Executive Council of the Federation. Closer alliance and co-operation between the organized industrial workers of the country and the farmers was urged by Mr. Gompers, in "order that we shall not be crushed by the reaction of industrial captains or princes of finance." His remarks were further quoted in press dispatches from Denver as follows:

"Men in industry and in agriculture," said President Gompers in his opening address, "must have a closer alliance, to see to it that they shall not be crushed by captains of industry and princes of finance."

He warned that "the same interests that are promoting the alleged anti-union drive in this country are trying to drive back the farmers from the position they have attained in the last few years," and he urged united co-operation in opposing "the movement being made to wipe out the Department of Labor and destroy the Department of Agriculture."

"The labor movement of America stands now intact, and will continue to," Mr. Gompers said, declaring that the drive of the anti-union forces on organized labor had failed.

"Before the next snow falls," he added, "there will be 5,000,000 members in the American Federation of Labor. The labor movement of America, as well as throughout the entire world, was never taught the meaning of the word 'retreat,' and will go marching forward and upward."

No movement in history had been put to a greater test than the trade union movement, said President Gompers, adding that it had successfully withstood the "fires of antagonism, bitterness and relentlessness."

"The only purpose of the anti-union drive," he continued, "is to weaken the spirit of the working people of the country and make further inroads on the standards of life of the toilers of America and force a reduction in wages."

The labor leader referred briefly to world disarmament, expressing the hope that this would be brought about through international agreements.

"One thing we need is solidarity among the toiling masses of this country," declared Mr. Gompers. "We need a new spirit, not of resentment, but of desire to protect the interests of the working masses of this country, to protect and strengthen the groundwork of our own structure.

"While we love every human being, no matter where born or where he may reside, one principle from which we cannot depart is 'America first.'

"The labor movement of America is endeavoring to cultivate the best of relations with other interests of our country, but if we are to retain our standards and our rights we must present a solid front, united in spirit, in fact and in idealism."

The chief points in the report of the executive council were summarized in the press dispatches as follows:

The trade union movement in America has successfully defended its position against the organized effort of anti-union employers," the Executive Council of the American Federation of Labor declare in its annual report submitted to-day. It adds that "the outlook is for a continuance of not only successful defense, but steady and consistent progress."

"It is true," says the report, "that the organized employers are still making strenuous efforts to destroy trade unionism and that in many directions the campaign to reduce wages continues. What is equally true is that these movements continue with constantly decreasing vigor and effect, and that their momentum of three months ago has been dissipated."

While the annual report of Secretary Frank Morrison showed the membership of the Federation to be 3,906,528, as compared with 4,078,740 in 1920, it was stated that the ranks of organized labor had increased, as this report did not include members now involved in strikes or lockouts or unemployed.

The Secretary's report showed also that there had been 1,634 strikes during the year, involving 191,934 members, costing $8,462,174. The Federation defense fund showed a balance of $161,217.

FARMERS' COUNCIL OFFERS AID TO AMERICAN FEDERATION OF LABOR.

Co-operation of the farmers with the organized industrial workers of the country "to achieve the ideals of economic industrial and agricultural as well as political freedom," was pledged by the Farmers' National Council in a telegram received on June 15 at the annual convention of the American Federation of Labor. The message from the headquarters of the council in Washington said that "only by uniting upon a common basis of fundamental justice can we achieve real freedom for all workers."

The Farmers National Council welcomes your indorsement of its program for active working together of farmer and labor forces," said the telegram, "to achieve the ideals of economic, industrial and agricultural, as well as political freedom, for which our country was founded. We have been working to this end and will be glad to join hands with you to stop the present control of our railroads, natural resources, ships and banking and credit system in the interest of a little clique of investn ent bankers and selfish un-American citizens of great wealth and to secure an honest tax system and control of the meat packers.

"We warn you against false spokesmen of farmer organizations who denounce the getting together of farmers and other workers. Only by uniting upon common basis of fundamental justice can we achieve real freedom for all workers. The interests of farmers as workers is four times as great as their interest as capitalists. The laborer is worthy of his hire, but has not received it in this country on farms, in factories, mines, trade or transportation and cannot receive it until privilege and monopoly is ended. To achieve that end joint action of farmers and other workers is essential."

TEXT OF SHIPPING BOARD WAGE AGREEMENT WITH MARINE ENGINEERS.

The United States Shipping Board on June 16 made public the agreement adopted by representatives of the Board and the National Marine Engineers' Beneficial Association, which, as noted in these columns last week, formally terminated the strike that had begun May 1. The agreement, providing, among other things, for a reduction of 15% in wages, went into effect June 14 and will be continued until Dec. 31. After the agreement with the engineers had been made public it was announced that a similar contract had been entered into between the Shipping Board and the radio operators, and that seamen, firemen, cooks and other marine employees also were negotiating for new contracts. In a general order signed by Chairman Lasker the Board directed that protection be given employees who worked during the marine controversy. It follows:

In order to carry out the promise made by the Shipping Board to protect the men who have come to its assistance in the recent controversy with the marine engineers, it is ordered that all engineers and assistant engineers who have been employed since May 1 to take the place of striking engineers shall be retained in their positions so long as they are efficient and qualified to discharge their duties. No man now employed on any Shipping Board vessel shall be discharged to make room for the engineers who have left their ships because of the recent marine labor controversy.

In a notice to all district officers of the Board Chairman Lasker said:

The attached wage scale and working conditions for marine engineers promulgated to-day should be put into effect upon all Shipping Board vessels, effective June 14 1921, and continued until Dec. 31 1921. These orders and the order for the protection in employment of the men who came to the aid of the Board in manning the ships should be carried out in letter as well as spirit.

The wage scale and rules follow:

Wage scale rules and regulations governing employment of engineers for transatlantic, transpacific, Atlantic, Pacific and Gulf Coast service:

Vessels are to be classed according to their "power-tonnage," represented by gross tonnage plus indicated horse-power as given in the "list of merchant vessels of the United States," as compiled by the Commissioner of Navigation, or in other recognized maritime lists.

Working Rules and Wages.

Agreed on in committee conference between the representatives of the United States Shipping Board and National Marine Engineers' Beneficial Association.

Classes—	*Single Screw.*	*Twin Screw.*
A	over 20,001	over 15,001
B	12,001 to 20,000	9,000 to 15,000
C	7,501 to 12,000	5,501 to 9,000
D	5,001 to 7,000	3,501 to 5,500
E	below 5,001	below 3,501

	Engineers' Wages				
Classes—	A	B	C	D	E
Chief Engineer	$330	$295	$285	$270	$260
First Assistant Engineer	205	200	195	190	185
Second Assistant Engineer	180	175	170	165	160
Third Engineer	160	155	150	145	140
Fourth Assistant Engineer	140	135	---	---	---
Junior Engineer	115	---	---	---	---

Rule 1. Watch and watch to be maintained on sailing day or at any outside port or ports of call. No engineer shall be required or permitted to take charge of a watch upon leaving or immediately after leaving port, unless he shall have had at least six hours off duty within the twelve hours immediately preceding time of sailing.

Rule 2. A working day at any port where watches are broken shall be from 8 a. m. to 5 p. m., during which time one hour shall be allowed for dinner.

Note.—In tropical or other ports where conditions make it desirable to make special arrangements about working hours on account of climate conditions, a special arrangement may be made which is mutually satisfactory to meet the situation.

Rule 3. When a ship arrives in home port the engineer standing the night watch shall have the next day off.

Note.—For the purpose of these rules a "home port" shall be considered the port at which shipping articles are opened or the port at which crew is paid off upon completion of the voyage.

Rule 4. If the chief or assistant engineer is required to stay on board in any port on Sundays or on New Year's Day, July 4, Labor Day, Thanksgiving Day or Christmas Day, he shall have one full day off with pay, or be paid one day's additional pay, but this shall not apply to a vessel sailing on or ready to proceed on her voyage.

It is the intention of this rule that no work shall be performed by the engineers except that which is necessary for the safety of the vessel, boilers or machinery.

Rule 5. In all ports of call and foreign ports, one engineer shall be required to stay aboard at night. Engineers shall alternate and shall receive no extra compensation for this work.

It is the intention of this rule that no night work shall be performed by the engineers except for the safety of the vessel, boilers or machinery.

Rule 6. No overtime shall be performed at sea except for the safety of the vessel.

The following work shall be considered necessary for the safety of the vessel:

All repairs to main engines and boilers in service, feed pumps, ballast pump, fire pump, general service pump, circulating pumps (main or auxiliary), air pumps (main or auxiliary), sanitary pumps, fresh water pumps, ice machines, dynamos, fuel pumps, evaporator feed pumps, ash hoists; telemotor, steering engine and gear, fuel transfer pumps, feed heaters, fuel heaters, condensers (main or auxiliary , evaporators, steam and exhaust lines, ballast and bilge lines, fresh water, sanitary and fire lines in engine room and fire room, anchor or windlass capstans, toilets and sanitary fittings, provided same become disabled after the commencement of the voyage.

The following work shall not be considered necessary for the safety of the vessel:

All repairs to jacking or turning engine, deck machinery or piping, galley and fittings, ventilators, building racks for grate-bars, store rooms, rearranging store rooms, and all boiler work, not necessary for the propulsion of the ship. Rearranging of pipes and machinery, &c., provided, however, that on each passage the engineers may be required to take indicator diagram from main engines.

Rule 7. A working day in port in excess of eight hours shall not be performed or paid for unless the work is done by written order of the chief engineer, master, owner or agent of the vessel. An entry shall be made in the engine room log book every time an assistant engineer is required to perform overtime service, covering kind of work, reason for same, and time started and finished. Authorized overtime to be paid at the pro rata rate.

Rule 8. No engineer shall be laid off Sundays or holidays, but at the option of the chief engineer the assistants shall be granted shore liberty with pay.

Rule 9. When in port and board is not furnished, $3 per day shall be allowed for subsistence, and $2 50 per day shall be allowed for lodging when no room is provided.

Rule 10. Final discharge of engineers to be at port of signing on ship's articles, except when impracticable or through no fault of his own, or in case of sale or abandonment of vessel by owner at other port, in which event members are to be reimbursed for all time and travel expenses incurred incident to return to port at which articles were signed.

In the event any question arises concerning the discharge of an engineer he shall have the right of appeal to the home port engineer before final decision is rendered.

Rule 11. This agreement to terminate Dec. 31 1921.

The American Steamship Owners' Association, representng a majority of all the vessel owners affected by the strike, has refused to accept the terms agreed upon with the unions by the Shipping Board. A telegram from the President of the Steamship Owners' Association to the Board protesting against the new terms was published in these columns last week, page 2601. A subsequent telegram was sent by the Association on June 16. This telegram was embodied in the following statement issued by the Association:

At a joint meeting to-day of the executive committee and of the committee on wages and working conditions aboard ship the following message was approved and transmitted to Chairman Lasker of the new Shipping Board in Washington:

"The executive committee of the American Steamship Owners' Association has heard the report of the committee on wages and working conditions in reference to its meeting with the Shipping Board at Washington on June 15 1921, and to the request that the private shipowners should put into operation certain rules and conditions approved by the Board to be promulgated June 16 1921. After careful reconsideration in conjunction with the representatives of the Pacific American Steamship Association and the Shipowners' Association of the Pacific Coast, it was

"*Resolved*, That while we are anxious to co-operate with the Shipping Board, we regret that so far as privately owned steamships are concerned, we are unable to alter the position announced in the telegram addressed to Admiral Benson on the subject under date of June 2 1921, in which the reasons for adhering to the declared policy of the Association were fully set forth."

PRESIDENT HARDING OUTLINES POLICY TO SHIPPING BOARD.

President Harding held a conference on June 17 with the newly elected Shipping Board, during which problems confronting the American merchant marine were discussed and future plans outlined for the Board. Mr. Lasker said the President told them the shipping of the world was "at the lowest ebb in history in proportion to the number of ships operating and that all business was sick." The President told the Board that while he strongly believed the ships should be turned over to private ownership as soon as possible at fair prices, it should be done only in communities prepared not only to operate the vessels but to help develop markets for the goods carried in them. The Board is instructed to write off all war costs and war items on vessels and otherwise, and to start on a new basis of actual valuation of the property left from the war building program.

This means the writing off of probably $2,000,000,000 in ships and yards as war loss, it is said.

After the conference Chairman Lasker outlined the President's policy instructions as follows:

The President told us there was nothing he wanted so much when he finished his term of four years as to be recorded the head of the Administration under which the American merchant marine was re-established.

He said he felt that this could not be completely accomplished in two years or even three or four years, and that the future had to be built solidly on the development of the private initiative and operation, but that we were to dispose of the ships at the right prices and not sacrifice them to bring this about.

The President advised the Board to get a correct inventory in order that the Board might show Congress the true value of the fleet to-day and to base operation thereafter on that valuation. The President said that he desired to see American ships go to every port ultimately, but did not feel that the ships should be operated at ruinous losses to accomplish that end. He suggested to the Board that a thorough survey be made in that direction.

The personnel of the new Shipping Board was announced in these columns last week. Chairman Lasker was sworn in on June 13, his appointment, with those of the other members of the board, having been confirmed by the Senate on June 9.

S. DAVIES WARFIELD'S TESTIMONY BEFORE SENATE COMMITTEE INQUIRING INTO RAILROADS.

S. Davies Warfield, President of the National Association of Owners of Railroad Securities, testifying before the Senate Committee on Inter-State Commerce now investigating railroad conditions, on June 22, declared that only through far reaching economical methods for conducting transportation and obliteration of old-time prejudices, can rates and fares be made satisfactory to the people, compete with other forms of transportation and produce the return essential to enable the roads to finance their obligations. He stated that a return on railroad property in the aggregate less than that provided in the Esch-Cummins Act would not maintain transportation, and any attempt to impair the provisions of that Act would be a menace to the successful operation, in the public interest, of the transportation system. "The question for the moment is," said Mr. Warfield, "Can sufficent revenue be obtained from rates and fares that will be considered reasonable by the public and the shippers, and will these rates bear a relation to the price obtainable for the articles transported that will not impede commerce; or will part of the money required to meet the necessities of transportation have to be supplied, in the public interest, by taxation." The latter, he said, means Government operation and eventual Government ownership, and unless effective railroad organization is consummated to introduce rigid economies this could not be avoided. Discussing freight rates he showed where the war produced abnormally high prices and high rail operating costs. When deflation set in prices broke precipitately and the unprecedented and unforeseen era of business readjustment, he said, was the real cause of the loss of business to the railroads.

The economies to be instituted, he classed under two headings: "One, by effecting an organization of the officials of the railroads as grouped in each of the four territories now established by the Inter-State Commerce Commission; and, two, through a central agency or corporation to supply equipment to the railroads without profit to the Corporation, and to perform other services, under the supervision of the Commission." The Commission has laid out the country in four districts, applying widely different ratios of increase or decrease in rates in the several districts, he said, with the carriers already grouped in these districts. On the aggregate group value of the property of the carriers in the respective groups the yield from rates is computed. He contended these and other conditions made it logical for the carriers of each group to organize themselves. A group railway board, of not less than five members, to be selected by each group of carriers. From among the carriers of the group men to be selected to report on advanced methods for producing economies. Three officials are to be selected from the four Group Boards, twelve in all, to serve on a National Board, with twelve additional members selected from the trustees of the National Railway Service Corporation. This National Board would be composed of practical railroad officials and men trained in finance and general business administration. This Board would determine questions of legislation and public policy. The group boards and their committees are advisory. "Neither the National Board," he said, "nor the four group boards would interfere with the boards of directors of railroads." The suggestions of the group and service boards now proposed should be submitted to the directors of the respective railroads, thus keeping before directors the relation of co-ordination to economical operation. Through the organization proposed, information, he stated, would be available, scientifically assembled, to inform the shippers and the public the relation of railroad rates to commerce. He contended that there is no organization of the railroads to speak with authority on these subjects whose conclusions of suggestions could be accepted as authentic. "If the railroads themselves cannot produce convincing evidence of the necessity of a railroad rate and the relation that rate bears to the commodity transported, fault cannot be found if Governmental agencies step in to take up those questions," he said.

Mr. Warfield discussed the relation of valuation to the proposed large consolidations and pointed out where the group organizations, in cooperation with the recently appointed Board of Economics and Engineering, would be "helpful to the Commission in working out the proposed large consolidations." He called attention to the desirability of keeping consolidations within reasonable limits so as not to impair incentive and retard the building into territories awaiting development. He advocated the immediate adoption of means to fund the obligations of the railroads to the railroad administration.

The full purposes of the National Railway Service Corporation, organized by the Association of security owners in July last, which operates without profit, were given. This Corporation, it was stated, has been supplying equipment to railroads otherwise unable to secure funds to purchase equipment. This Corporation it is contended, should not only supply carriers with equipment under long time yearly payments, but, if so provided by Congress, it would be enabled to acquire a "floating supply" of equipment to be leased to carriers on a per diem basis. The railroads could largely reduce their capitalization for equipment, making purchases to meet only their normal requirements, securing from the Service Corporation the equipment to meet seasonal demands. Large savings would be made in first cost of equipment, and a greatly reduced number of cars required, the floating equipment being shifted from one railroad to another and from one section of the country to another. He asked that Congress require a court or a receiver in a receivership to continue agreements made by carriers in the purchase of equipment. The knowledge that a receivership would not break an agreement would provide a more extended and stable market for the Corporation's certificates. He advocated the use of the excess earnings fund provided under the Act through the Corporation, to be used as a margin to enable the Corporation to sell its equipment obligations at minimum rates of interest.

It was pointed out that the Esch-Cummins Act and the Commerce Act give wide powers of supervision and regulation to the Commission and the Labor Board. The Commission is required to institute economies if the railroads themselves do not produce them. The railroads complain of excessive regulation, which he held grew out of the lack of method for the coordination of effort. "It remains with the railroads themselves," he said, "to limit Governmental regulation by the organization of agencies among themselves which would guarantee to the public and the shippers adequate transportation facilities at rates which the public must be satisfied are in line with intensive economies and wise administration."

Mr. Warfield advocated co-ordinated relations between the Commission and the Labor Board. He said while Congress had placed extensive powers with the Commission, which provides the money through rates and fares to operate the railroads, the Labor Board, another Governmental body, had been given the adjustment of wages, now constituting 65% of all railroad operating expenditures. "Can the Commission," he said, "in the wording of the Commerce Act exercise 'authority to inquire into the management of the business—keep itself informed as to the manner and method in which the same is conducted—have complete information necessary to enable the Commission to perform the duties and objects for which it was created,' when Congress, without co-ordinate relations between the two bodies, charges one with the sole right to fix wages, and the other with the duty of supplying the money from rates to pay them, keep the railroads running and enable them to sell their securities?"

Mr. Warfield discussed the Board of Economics and Engineering, appointed by the Association as the only instrumentality free from entangling alliances, which could review the questions involved unhampered by ties of individual, railroad or financial identity or ownership, or by the influences of any particular security owning or banking group,

and from the environment that attends Governmental appointment. That it could pursue it investigations and reach conclusions solely with the purpose of securing the substantial economies that can be made in the public interest, only possible of attainment by those in position to view the transportation system as a whole. He gave the subjects now under investigation by this Board, as follows:

1. *a* Standardization of equipment; *b* repairs and shop practices; *c* power economies, including locomotive improvements and electrification.
2. Car service.
3. Joint facilities and terminals.
4. Consolidations of railroads—valuation.
5. Transportation economies—loss and damage.
6. Routing of traffic.
7. Purchase of fuel and supplies.
8. Simplification of accounting.
9. Traffic rates and divisions.
10. Wages and working conditions.

The Board is in consultation with representatives of car-manufacturing companies to adopt standard methods in respect to equipment. He stated that the group organizations and the plans proposed to investigate, report and institute economies under the group plan, had been gone into by the Board of Economics and Engineering, and it was the opinion of that Board that through such organization large economies could be instituted. The Board hopes to have the co-operation of the railroads in each of the divisions established by the Commission in determining methods for producing economies and of making them effective, including the joint use of terminals and other facilities, standardization of equipment and many other means of effecting general operating economies.

Mr. Warfield presented drafts of two bills, one entitled: "An Act to further economies and efficiency in railroad transportation," to effect the organizations suggested of the railroads in the four group territories; the other, "An Act to incorporate national railway service corporation, and to define its powers and duties, and for other purposes." He said that Congress was not asked to enforce the suggestions made in relation to the economies to be secured, that request is made that the railroads themselves effect the organizations to secure these economies and to bring such relations between the carriers as will permit the economical operation of the transportation system as a whole. All of the actions of these boards are subject to the supervision of the Inter-State Commerce Commission. Neither was it desired, he said, to enforce upon railroads the acquisition of equipment through the National Railway Service Corporation; that the Commission should determine to what extent the Corporation should be used by the railroads. He declared that there was nothing involved in the suggestions made not within the spirit of the Transportation Act, nor that is not necessary to carry out its purposes. In closing, Mr. Warfield stated:

It has been made apparent that the country cannot look to a thousand or so executives of railroads, nearly two hundred alone representing the great systems, to reach agreements and conclusions among themselves respecting the co-ordination of facilities and service, and the introduction of economies to the extent essential to guarantee the most economical administration and methods of transportation under the system that is at present observed. Unless these conditions are recognized and relieved through definite organization, then transportation under private operation must fail.

The Board of Economics and Engineering is composed of Messrs. John F. Stevens, F. A. Molitor, John F. Wallace, W. L. Darling, L. B. Stillwell and W. W. Colpitts.

ELISHA LEE ON RAILROAD BONDED INDEBTEDNESS.

Elisha Lee, Vice-President of the Pennsylvania RR., speaking before the Bond Men's Club at Philadelphia on June 14, expressed the belief that we are justified in three general conclusions regarding the funded debt of railroads, viz.:

1. Outstanding railroad bonds as a whole represent the real investment of real money.
2. They are secured by property worth more than double their face value.
3. The property so pledged may be counted upon to retain its practical value and utility indefinitely.

"These factors," said Mr. Lee, "create a situation in which the owners of railroad bonds may justly claim not only the highest conceivable legal, but also moral right to expect that the integrity of their savings and investments will be fully protected. I stress the moral element because it enters into the value and stability of investments just as surely as do legal and economic considerations." Mr. Lee, in his further discussion dealing with the subject of railroad bonds, said in part:

Roughly, if we exclude inter-company holdings, the railroads of the United States have outstanding in the hands of the public $16,000,000,000 of capital securities. Of these, about nine and one-half billions are funded debt, or "bonds," and six and one-half billions capital stock, or owners' equity.

There has been invested in the railroad properties, as shown by the book accounts of the various companies, a total of about $20,000,000,000, or some $4,000,000,000 more than the combined net capitalization, and over double the face value of the bonds taken alone.

These figures, then, as far as they go, indicate that the railroads have been pledged or bonded for an indebtedness equal to not over half of their primary worth. That is, they cost $20,000,000,000 to bring to their present state of development and are mortgaged for less than $10,000,000,000.

It is rather interesting to note that this relationship between the amount of funded debt and the book cost of the railroads corresponds very closely to what in ordinary real estate circles would be regarded as the earmarks of a high-grade first mortgage. A man who has helped someone else to build a home, an office building, a hotel or a factory, by lending the owner half of its original cost and taking a mortgage for security, is commonly looked upon as having made a very safe and sure investment and as having utilized his savings in a commendable manner, beneficially to mankind in general.

Under such circumstances, the legal and moral obligation of the borrower to repay is held to be of the highest order, and any action, Governmental or otherwise, calculated to impair his ability to fulfill that duty, would be justly and universally resented and condemned.

Is the man who has lent his savings to help build a railroad any less deserving of fair treatment than one who has helped to finance a shoe factory, a silk mill, an apartment house, a theatre, or a ship-yard?

Judged by the ordinary standards of business obligation, railroad bonds as a whole ought to be at least as good as first mortgages upon the best real estate in Philadelphia, and to the extent by which hostile legislation or regulation, in the past, has detracted from their status, their holders have proper and just cause to consider themselves the victims of unjust political discrimination.

These conclusions, of course, presuppose that the property investment accounts of the railroads are collectively free from inflation, that the physical valuation now under way will sustain the records of original cost and that the capitalization of the railroads as a whole is not diluted by water.

Without attempting any detailed discussion, let us briefly examine these three factors which obviously are closely correlated.

As to the property investment accounts, these have been kept since 1907 under the direct supervision of the Inter-State Commerce Commission, and upon a uniform system for all roads. In determining value for rate-making last summer, as required by the terms of the Transportation Act, the Commission accepted practically the maximum sum claimed by the railroads, as appearing upon their books—a remarkable testimony, indeed, to the reliability of these figures, in view of the Commission's extreme conservatism and the certainty that anything capable of being construed as in any way favoring the roads would lay the Commission open to immediate and severe political attack.

The pending physical valuation of the railroads, in the belief of those officers who have been for some years detailed to that work, will show a present worth for the railroads as a whole, substantially in excess not only of their capitalization, but of their combined property investment accounts. I am happy to state that the latest information which reaches us of the progress of the valuation work tends in every respect to confirm this expectation.

Railroad capitalization as a whole is not watered: it is decidedly the reverse. I have already pointed out that the combined property investment accounts exceed total net outstanding securities by about $4,000,000,000; that the conservative Inter-State Commerce Commission accepted substantially the railroads' own figures of investment value for rate-making purposes; and that in the opinion of the best experts the results of the physical valuation will amply sustain these figures.

There have regrettably been a few cases in which railroad securities have been issued to represent not physical property but prospective or anticipated earning power.

I have no desire to appear as an apologist for such practices, but their extent and relative importance have been grossly, and I fear deliberately, exaggerated, to the irreparable injury of the owners of that overwhelming proportion of railroad securities which represent not merely honest capitalization but often substantial under-capitalization.

Among those who have notably suffered in this respect have been the holders of Pennsylvania RR. stock, who not only paid in more than $40,000,000 in cash premiums above par value, but have in the more prosperous past, reinvested in their property, without adding to the capitalization, far larger sums out of net earnings which legally and morally might have been distributed as dividends.

It is more than conservative to say that for every dollar of Pennsylvania Railroad stock there are at least two dollars' worth of equity in tangible property over and above indebtedness, yet Pennsylvania stock is sold to-day at a depreciation of one-third its par value and the directors have had no choice but to reduce for the time at least the long-established and moderate dividend of 6%.

The bond-holders, too, have suffered with the stockholders through the declining market value of their securities. These injustices reflect in no small measure the effects of the false propaganda which has long been carried on to create the impression that railroad securities as a whole are watered.

If we should examine one by one the property investments of all substantial, well-planned railroad systems, we should find incontrovertible evidence that railroad capitalization as a whole is greatly the reverse of watered, and that any argument to reduce earnings, or hold up wages, which is based upon the supposed existence of a net over-capitalization, is totally without foundation, and hard to reconcile with the usually accepted standards of good faith.

Many railroad bonds have long periods to run. Fifty years is quite common; others have been drawn to mature in a century. Have their holders any reason to fear that the railroads are in danger of being superseded by other forms of transportation and their security value thus impaired?

My judgment is that we have no cause to prepare against such contingency within any period for which those of us who are now living may reasonably feel called upon to make calculations, either for ourselves or our dependents.

The possibilities of the motor-car and the aeroplane, it is true, appear unlimited, but I anticipate that they are more likely to tend to develop new transportation fields of their own, the character of which we cannot as yet very clearly discern, rather than extensively to invade those of the railroads.

The telephone did not wipe out the telegraph, although it seemed an improved means for the electrical transmission of intelligence. Typewriters have not eliminated pens and pencils, though they seem to offer a superior

method of writing; indeed, the fountain pen industry reached its zenith side by side with the typewriter. When we come to think of it, is it not an interesting fact that in spite of the great development of rail transportation in this country, of which we are justly proud, we are more actively engaged than ever in construction of highways for trackless vehicles, and are greater road builders than were even the Romans of antiquity.

Quite possibly, in ways we do not yet foresee, the increased use of motor cars and aeroplanes, instead of diminishing the utility of railroads, will increase the necessity for their existence and their continued improvement and expansion.

Most of what I have said applies just as aptly to the stockholders of the railroads as to the bondholders, because railroad stock as a whole represents real value and honest investment. Indeed, it is obvious from the figures and facts I have given that as against the $6,500,000,000 of capital stock outstanding there must be over $10,000,000,000 of equity in the property investments over and above the funded indebtedness.

To carry out the moral duty of the American people and sustain the value of the investments in the railroads, both stock and bonds, we shall have to bring about a very different relationship between income and outgo and from that which has prevailed in recent years. Last year the net railway operating income of the railroads represented only three-tenths of 1% of their total property investment. That meant nothing earned for the stock and less than 1% for the bonds. Such a condition, or anything approaching it, if allowed to become permanent, would mean wholesale confiscation of savings. It is unthinkable to me that the people of the United States will ever permit such an outcome.

What is ahead of us? Is a remedy for the situation in sight? Are we justified in anticipating better times coming for those who have devoted their savings to the development of railroads?

I have no desire to appear over-optimistic, to create any false sense of security, or to minimize the difficulties that still remain to be overcome. But I cannot help feeling that signs are not wanting that the corner has been turned, and that we can begin to discern something which has at least the appearance of daylight ahead. The more immediate and easily recognized of these factors seem to be:

1. The wage decision of the Labor Board, which, while not going as far as the railroad managers believe will prove necessary, shows that the Board realizes substantial downward adjustment is necessary.

2. The Labor Board's action with respect to the National Agreements, which, while by no means wiping them out cleanly, as many appear to suppose, nevertheless constitutes a clear recognition of their economic unsoundness and total unsuitability to the peace-time operation of the railroads.

3. The fact that President Harding believes in a fair deal for the railroads and is not afraid to say so.

4. The evidence of a growing friendly and constructive attitude in Congress, particularly exemplified in the present helpful inquiry at Washington into the railroad situation.

Back of all of this and more fundamental in its nature lies the really remarkable change which has taken place in public sentiment toward the railroads. Few, I believe, have as yet grasped its full significance, or realize for how long a period the friendly sentiment of the people toward the transportation industry has been in process of crystallization.

I think it very questionable whether at any time within the last decade it has been really popular to "bait" the railroads, though as is often the case the volubility of an organized minority may have misled those who have been courting popularity.

Most recently the trend of public sentiment has been incapable of misinterpretation. The press and public were almost unanimous in their condemnation of the Adamson Law of 1916, upon the enactment of which many persons lay the original blame for the subsequent wage and labor troubles of the railroads. Had Congress submitted the Adamson Law to popular referendum it is as near a certainty as anything can be that it would never have gone into effect.

ADMIRAL SIMS RETURNS TO UNITED STATES—CONTENDS HIS SPEECH AS TO "JACKASS VOTES" WAS MISQUOTED.

Rear Admiral William S. Sims, ordered home from London, reached this country on Wednesday June 22 on the Olympic and on the following day reported to the Secretary of the Navy Denby at Washington, in compliance with whose order he came home. Admiral Sims handed Secretary Denby a written statement about his recent speech in London in which he was quoted as criticizing Irish sympathizers in the United States and which resulted in his recall from leave. The officer reiterated that he had been misquoted in press dispatches reporting his address. The Admiral refused to comment on the case in any way, but Secretary Denby said after his interview with the officer:

Admiral Sims has denied the accuracy of the statements attributed to him. He stated that he was incorrectly quoted.

I gave him a written memorandum setting forth those statements and asking him to inform me in writing where he was misquoted and to tell me, if he could, what he did say in that speech. I asked him to give me an early reply. My memorandum was an official communication to Admiral Sims in the form of an order.

"RACE OF ARMAMENTS AGAINST AMERICA" WOULD BE FATAL MISTAKE, SAYS GENERAL SMUTS.

Addressing the second session of the British Imperial Conference at London on Tuesday, June 21, General Jan Christian Smuts, Premier of the Union of South Africa, made a plea for a policy which should make a "race for armaments impossible." "That," said General Smuts, with the breadth of view characteristic of all his public utterances, "should be the cardinal feature of our foreign policy." "The most fatal mistake of all, in my humble opinion," he added, "would be a race of armaments against America." Taking up the international political situation General Smuts expressed the belief that the stage on which great historical events of the future would take place had shifted from Europe to the Far East and the Pacific. "The problems of the Pacific," he declared, "are to my mind the world problems of the next fifty years or more. In these problems, as an empire, we are vitally interested. Three of the dominions border on the door. There, too, are the United States and Japan. There also is China. The fate of the greatest human population on earth will have to be decided. There Europe, Asia and America are meeting, and there, I believe, the next great chapter in human history will be written." General Smuts referred to the League of Nations, expressing faith in its purpose and principles. He said:

The Covenant may be faulty, it may need amendment in order to make it more workable and more generally acceptable, but let us never forget that the Covenant embodies the most deeply felt longings of the human race for a better life.

There more than anywhere else do we find serious effort made to translate into practical reality the great ideals that actuated us during the war, ideals for which millions of our best gave their lives, a method of understanding instead of the violence of force. The operation of consultation and conference in all great difficulties, which we have found so fruitful in our empire system, is the method which the League attempts to apply to the affairs of the world. Let us in the British Empire back it for all it is worth. It may well prove a way out of the present morass. It may become the foundation of a new international system which will render armaments unnecessary and give the world at large the blessings which we enjoy in our lesser League of Nations in the empire.

After praising the efforts that had been made by the Entente to settle the post-war and Treaty problems with Germany, and contending that great advance had taken place in this direction, General Smuts, according to copyright cable advices from London to the N. Y. "Times," continued as follows:

The other great advance that has been made—and it is an enormous advance—is the final disarmament of Germany. That the greatest military empire that ever existed in history should be reduced to a peace establishment of 100,000 men is something which I considered practically impossible. It is a great achievement, so far-reaching indeed that it ought to become the basis of a new departure in world policy.

We cannot stop with Germany. We cannot stop with the disarmament of Germany. It is impossible for us to continue to envisage the future of the world from the point of view of war. I believe it is impossible for us to contemplate the piling up of armaments in the future of the world and the exhaustion of our very limited remaining resources in order to carry out a policy of that kind.

Such a policy would be criminal. It would be the betrayal of the causes for which we fought during the war. And if we embarked on such a policy it would be our undoing. If we were to go forward into the future staggering under the load of military and naval armaments while our competitors in Central Europe were free from the incubus of great armies we should be severely handicapped and in the end we should have the fruits of victory lost to us by our post-war policy.

Already circumstances are developing on these lines. Already under operation of inexorable economic factors we find that the position is developing to the advantage of Central Europe. Depreciation of their currencies, universal depreciation of currencies, and unsettlement of the exchanges are having the effect of a practical repudiation of liabilities on the part of a large part of the Continent. If we add to our financial responsibilities and have in addition to pile on fresh burdens of new armies and navies, I am afraid the future for us is very dark indeed and we shall in the long run lose.

We have won on the field of battle. Armaments depend upon policy, and therefore I press very strongly that our policy should be such as to make a race for armaments impossible. That should be the cardinal feature of our foreign policy. We should not go into the future under this awful handicap of having to support great armaments, build new fleets and raise new armies while our economic competitors are free of that liability under the Peace Treaty.

Most Fatal Mistake of All.

The most fatal mistake of all, in my humble opinion, would be a race of armaments against America. America is the nation that is closest to us in all the human ties. The Dominions look upon her as the oldest of them. She is the relation with whom we most closely agree and with whom we can most cordially work together. She left our circle a long time ago because of a great historic mistake. I am not sure that a wise policy after the great events through which we have recently passed might not repair the effects of that great historic error and once more bring America into lines of general co-operation with the British Empire.

America, after all, has proved a staunch and tried friend during the war. She came in late because she did not realize what was at stake. In the very darkest hour of the war she came in and ranged herself on our side. That was, I believe, the determining factor in the victory of our great cause.

Since the war we have somewhat drifted apart. I need not go into the story. I do not know the whole story. It is only known to you here. There are matters on which we have not seen eye to eye to some extent, springing from what happened at Paris and also from mistakes made by statesmen, but these mistakes do not affect the fundamental attitude of the two peoples.

To my mind it seems clear that the only paty of safety for the British Empire is a path on which she can walk together with America. In saying this I do not wish to be understood as advocating an American alliance. Nothing of the kind. I do not advocate an alliance or any, exclusive arrangement with America. It would be undesirable. It would be impossible and unnecessary. The British Empire is not in need of exclusive allies. It emerged from the war quite the greatest power in the world, and it is only unwisdom or unsound policy that could rob her of that great position.

She does not want exclusive alliances. What she wants to see established is more universal friendship in the world. The nations of the British Empire work to make all nations of the world more friendly to each other. We wish to remove grounds for misunderstandings and causes of friction and to bring together all free peoples of the world in a system of friendly conferences and consultations in regard to their difficulties. We wish to see a real society of nations, away from old ideas and practices of National dominations or imperial dominations which were the real root and causes of the great war. No, not in alliances, in any exclusive alliances, but in a new spirit of amity and co-operation do we seek a solution of the problems of the future.

Although America is not a member of the League of Nations there is no doubt that co-operation between her and the British Empire would be an easy and natural thing, and there is no doubt it would be the wise thing.

Scene on the World Stage Shifted.

The South African Prime Minister then spoke of shaping a course for the future. The whole world position had radically altered. Europe was no longer what she was and the position she once occupied in the world had been largely lost. The scene had shifted on the great stage. That was the most important fact in the world situation to-day and a fact to which the empire's foreign policy should have especial regard.

"Our temptation, is still to look on the European stage as of first importance. It is no longer so. Let us be friendly and helpful all round, but let us not be too deeply involved. Fires are still burning there, the pot is occasionally boiling over, but these are not really first-rate events any more. This state of affairs in Central Europe will probably continue for many years to come, and no act on our part could very largely alter the situation. Therefore, not from a feeling of selfishness but in a spirit of wisdom one would counsel prudence and reserve in our continental commitments, that we do not let ourselves in for European entanglements more than is necessary, and that we be impartial, friendly and helpful to all alike and avoid any partisan attitude in concerns of the Continent of Europe.

Undoubtedly the scene has shifted away from Europe to the Far East and to the Pacific. The problems of the Pacific are to my mind the world problems of the next fifty years or more. In these problems we are, as an empire, very vitally interested. Three of the dominions border on the door. There, too, are the United States and Japan. There also is China. The fate of the greatest human population on earth will have to be decided. There Europe, Asia and America are meeting, and there I believe the next great chapter in human history will be enacted.

I ask myself what will be the character of that history—will it be along the old lines, will it be the old spirit of National and imperial domination which has been the undoing of Europe, or shall we have learned our lesson, shall we have purged our souls in the fires through which we have passed? Will it be a future of peaceful co-operation, of friendly co-ordination of all the vast interests at stake? Shall we act in continuous friendly consultation, in the true spirit of a society of nations, or will there once more be a repetition of rival groups, of exclusive alliances, and finally of a terrible catastrophe more fatal than the one we have passed through? That, to my mind, is the alternative; that is the parting of the ways at which we have arrived.

Great Chance of the Conference.

"Now, that is the great matter, I take it, we are met to consider in this conference. If we are wisely guided at this juncture this conference may well become one of the great landmarks in history. It comes most opportunely. The American Senate has already made the first move in a unanimous resolution calling for a conference of the United States, the British Empire and Japan.

"Japan has been a consistent supporter of the League of Nations. She is one of the great powers with a permanent seat in the Council, and she has, so far as I can gather, consistently been a power for good. In the councils of the League of Nations the British Empire again is not only one of the strongest influences behind the League, but she is honestly and sincerely feeling her way to a better ordering of international relations. China is not only a member of the League but has been elected a member of the Council at the last meeting of the Assembly at Geneva.

"All the great parties concerned in the Pacific and in Pacific policy are therefore pledged to friendly conference and consultation in regard to what is the most important and possibly the most dangerous next phase of world politics. They are all pledged to the new system of conference and consultation either by membership of the League and its councils or, in the case of America, by a resolution which the Senate has just passed. It is now for this conference of ours to give the lead and guide the powers concerned into a friendly conference, or system of conferences, in regard to this great issue."

Premier Smuts concluded as follows:

As you said yesterday, Mr. Prime Minister [Lloyd George], the British Empire involves the great question of the relations of East and West. That great question is now coming to a head. There is no doubt that the British Empire is more vitally interested than any other country in this, for she has her feet planted on all continents. By her great position she is called upon to act as peacemaker and mediator between East and West, and nowhere else has she such scope, such opportunity for great world service as just here. Great rival civilizations are meeting and great questions have to be decided for the future.

You spoke yesterday most eloquently on the Peace Treaty, the sacredness of the Peace Treaty and the obligation to carry out the Peace Treaty. There is one chapter in that Treaty which, to my mind, should be specially sacred to the British Empire. That is the first chapter of the League of Nations. The covenant may be faulty, it may need amendment in order to make it more workable and more generally acceptable, but let us never forget that the covenant embodies the most deeply felt longings of the human race for a better life.

There more than anywhere else do we find serious effort made to translate into practical reality the great ideals that actuated us during the war, ideals for which millions of our best gave their lives, a method of understanding instead of the violence of force. The operation of consultation and conference in all great difficulties, which we have found so fruitful in our Empire system, is the method which the League attempts to apply to the affairs of the world. Let us in the British Empire back it for all it is worth. It may well prove a way out of the present morass. It may become the foundation of a new international system which will render armaments unnecessary and give the world at large the blessings which we enjoy in our lesser league of nations in the Empire.

LLOYD GEORGE TELLS IMPERIAL CONFERENCE BRITAIN IS READY TO DISCUSS PROPOSALS FOR DISARMAMENT.

The British Prime Minister, Lloyd George, opened the sessions of the British Imperial Conference at London on Monday, June 20, with the declaration that co-operation with the United States was a cardinal principle of the Empire's policy. He averred that Great Britain was prepared to discuss proposals from American statesmen with respect to the limiting of armaments, adding "we can undertake that no such overtures will find lack of willingness on our part to meet them." This remark accompanied the Premier's statement that Great Britain desired to renew the Anglo-Japanese Treaty and that sea power was necessary to the Empire's existence.

In his pronouncement for a renewal of the Anglo-Japanese Treaty, the Premier referred to the valuable aid Japan had rendered in transporting Australian and New Zealand troops to Europe during the war, and said:

We desire to renew that well-tried friendship which has stood us both in such good stead and apply it to the solution of all questions of the Far East, where Japan has special interests and where we ourselves, like America, desire equal opportunities and the open door.

Mr. Lloyd George applauded the decision of Canada to place a minister in Washington and promised the co-operation of the parent Government. Referring again to the Japanese Treaty, the Premier said:

We look confidently to the Government and the people of the United States for sympathy and understanding in this respect. Friendly co-operation with America is a cardinal principle, dictated by instinct as much as by reason and common sense. We desire to work with this great Republic in all parts of the world.

The Imperial Conference, which is the successor of the Imperial War Cabinet meetings of 1917 and 1918, followed by the British Empire peace delegation in Paris, was attended by the Premiers of Britain's overseas dominions. Following is a summary of the salient points in the Premier's speech, as given in cable advices of June 20 to the New York "Times":

Lord Curzon would give the conference a comprehensive survey of foreign affairs, but meanwhile Lloyd George wished to refer "to one of the most urgent and important of foreign questions, the relations of the British Empire with the United States and Japan.

Importance of Peace in Pacific.

"There is no quarter of the world," continued the Prime Minister, "where we desire more greatly to maintain peace and fair play for all nations and to avoid competition of armaments than in the Pacific and in the Far East. Our alliance with Japan has been a valuable factor in that direction in the past. We have found Japan a faithful ally who rendered us valuable assistance in an hour of serious and very critical need. The British Empire will not easily forget that Japanese men of war escorted the transports which brought the Australian and New Zealand forces to Europe at the time when German cruisers were still at large in the Indian and Pacific oceans.

"We desire to preserve that well-tried friendship, which has stood us both in good stead and to apply it to the solution of all questions in the Far East where Japan has special interests and where we ourselves, like the United States, desire equal opportunities and the open door. Not the least among these questions is the future of China, which looks to us as to the United States for sympathetic treatment and fair play.

"No greater calamity could overtake the world than any further accentuation of the world's divisions upon the line of race. The British Empire has done signal service to humanity in bridging those divisions in the past. The loyalty of the King-Emperor's Asiatic peoples is proof that to depart from that policy, to fail in that duty, would not only greatly increase the dangers of international war but would divide the British Empire against itself. Our foreign policy can never range itself in any sense upon differences of race and civilization between East and West. It would be fatal to the Empire.

Look for American Sympathy.

"We look confidently to the Government and people of the United States for their sympathy and understanding in this respect. Friendly co-operation with the United States is for us a cardinal principle dictated by what seems to us the proper nature of things, dictated by instinct quite as much as by reason and common sense.

"We desire to work with the great Republic in all parts of the world. Like it, we want stability and peace on the basis of liberty and justice. Like it, we desire to avoid the growth of armaments, whether in the Pacific or elsewhere, and we rejoice that American opinion should be showing so much earnestness in that direction at the present time. We are ready to discuss with American statesmen any proposal for limitation of armaments which they may wish to set out, and we can undertake that no such overtures will find lack of willingness on our part to meet them.

"In the meantime we canno forget that the very life of the United Kingdom, as also of Australia and New Zealand, and, indeed of the whole Empire, has been built upon sea power, and that sea power is necessarily the basis of the whole Empire's existence. We have, therefore, to look to measures which our security requires. We aim at nothing more. We cannot possibly be content with less."

Canadian Minister at Washington.

Later, speaking on the questions before the conference, Mr. Lloyd George said:

"Another change which has taken place since the war is the decision of the Canadian Government to have a Minister of its own at Washington, a very important development. We have co-operated willingly with that, and we shall welcome our Canadian colleague at Washington as soon as the appointment is made.

"We shall be glad to have any suggestions that occur to you as to methods by which the business of the dominions in London, so far as it passes through our hands, may be transacted with greater dignity and efficiency.

"We shall also welcome any suggestions which you may have to make for associating yourselves more closely with the conduct of foreign relations. There was a time when Downing Street controlled the Empire. To-day the Empire is in charge of Downing Street."

The British Prime Minister then gave his general conception of the relationship in which he met the Dominion delegates. The British Dominions had been fully accepted into the comity of nations by the whole world. They were signatories to the Treaty of Versailles and all the other treaties of peace. They were members of the Assembly of the League of Nations. In other words, they had achieved full national status. India had also proved her right to a new status in the councils of the British commonwealth.

Dominions Vital Factor in War.

In conclusion, Mr. Lloyd George said the war had demonstrated that the British Empire was not an abstraction, but a living force to be reckoned with. This reality had altered the history of the world.

Those of us who know how narrow the margin was between victory and defeat can proclaim without hesitation that without these two million men that came from outside the United Kingdom, Prussiaism would probably have triumphed in the West and East before the American troops arrived on the stage, and Lord Curzon, who is at this moment discussing with M.

Briand, Prime Minister of France, the execution of the victorious treaty, would have been discussing how best to carry out the humiliating conditions dictated by the triumphant war lords of Germany. The reign of unbridled force would have been supreme, and this generation would have had to spend its day in interpreting and enduring that calamitous fact in all spheres of human activity and influence.

The unregulated unity of the British Empire saved France, Great Britain and civilization from that catastrophe. Our present troubles are bad enough. Victory has its cares as well as defeat. But they are ephemeral and will soon be surmounted. Defeat would have reversed the engine of progress and democracy would have been driven back centuries on its tracks.

Mr. Lloyd George's declarations with respect to British policy toward the United States before the Imperial Conference on Monday followed closely along the lines of a speech made in the House of Commons on June 17 by Austen Chamberlain, Government leader. The renewal of the Anglo-Japanese agreement, Mr. Chamberlain declared, "was pre-eminently a matter in which all parts of the Empire were interested, and until they had been in conference he could not say what the outcome of the deliberations of the conference might be or what exact course of policy they would adopt. Objections had been made, he said, to a renewal of the Alliance on the ground that the conditions which gave rise to it had passed away. But what about the conditions of to-morrow? They had to look forward into the possible combination of the future. Mr. Chamberlain said that he did not believe that the intentions or results of the Anglo-Japanese Alliance gave rise to any real apprehension among the governing authorities of the United States and he was certain that there was no reason for them to feel any such apprehensions. It could only excite apprehension among people who were ill-informed on the obligations of the Treaty or who misconceived the resolute determination of the British people to maintain friendly relations with their American kinsmen. It must always be a cardinal feature of British policy to remove any misunderstandings that stood in the way of good relations with the United States and to cultivate those good relations to the utmost of Britain's power. He said further that he entirely agreed that to have a new competition in armaments, and that such a competition should be between this country and America, would be not merely a tragedy to the two countries but a tragedy to the civilized world. He added:

I think it right to say that we shall be no party to any alliance directed against America or in which we might be called upon to act against America. I do not therefore say that a continuance of the Anglo-Japanese Alliance in modified form is not possible. I think it may be found to be possible to reconcile our desire for a perfect understanding and the closest possible co-operation with the United States with a continuance of our close and intimate association with our ally. Surely the object must be to secure such confidence, such understanding and such co-operation among the great Pacific Powers as to prevent any new competition in armaments and to secure peace.

OUR STATE DEPARTMENT NOT INFORMED REGARDING JAPANESE TREATY.

The State Department at Washington issued a formal statement on June 22 denying that it had been kept cognizant of the progress of the negotiations looking to a renewal of the Anglo-Japanese treaty. The statement was as follows:

In view of a dispatch of the Associated Press with respect to the renewal of the Anglo-Japanese alliance published this morning to the effect that "it is understood that the State Department has been kept fully informed of the plans of the British Government and that is has been given assurances that in the renewal of the treaty every precaution will be taken to guard against the inclusion of anything inimical to American rights" it is deemed proper to say that the State Department is not informed with respect to the plans of the British Government and has received no assurances in the matter.

This statement is made to avoid the receiving by the American public of a false impression that the department has been kept cognizant of the progress of the negotiations.

FRENCH OPINION OF THE IMPERIAL CONFERENCE AT LONDON.

A special cable dispatch from Paris to the New York "Evening Post" under date of June 23 and copyrighted by the "Public Ledger" Co., says that France sees in the Imperial Conference at London the interdependent strength of England and the Dominions to decide no only the future of Anglo-Japanese relations but also those between Great Britain and France, according to Philippe Millet, who writes in the "Petit-Parisien":

The conference illuminates a new and important fact; henceforth there is no more English policy, only British policy. It was not the same before the war. Then England directed all the foreign policy of the empire. She treated the Dominions as minors, children whose advice counted for little at most. The war changed all that. Having given a million men, the Dominions claimed and obtained the right to be heard.

The capital point we have no right to forget is there is no more England. What we have facing us now is an empire or more exactly a federation simultaneously strict and loose, sometimes in disaccord in secondary questions but firmly united when its existence is menaced. Although Great Britain's voice remains preponderant, it is the Dominions which will determine in the last resort the great decisions of London.

THIRD INTERNATIONALE MEETS—"ITS WEAPON REVOLUTION, ITS STRONGHOLD PROLETARIAN RUSSIA."

An Associated Press dispatch from Riga, Letvia, June 23 says the conference of the Third Internationale of Moscow opened in the Soviet capital the day before, according to a radio message through the official service from Moscow, under date of Wednesday. The message says:

"The Congress of the Internationale opened to-day. Its aim is Communism, its weapon revolution, and its stronghold proletarian Russia."

Mystery, it is reported, surrounds the actual proceedings in the preliminary conferences and what occurred in the five days between the opening ceremonies of the Internationale Congress and parade of Friday June 17, and the meeting of June 22.

SIX HUNDRED NEW ENGLAND BANKERS ON "JUNE PARTY" TO NEW YORK.

A party of New England bankers and their ladies, to the number of 600, will be entertained in New York at an outing described as a "June party," on June 25, 26, 27, 28 and 29. While the purpose of the trip will be pleasure, it is hoped that this bringing together of presidents and other officers of New England banks will be instrumental in promoting a more active spirit of co-operation between New England bankers. The trip has been arranged by the National Shawmut Bank of Boston, through the courtesy of the management of the Hotel Commodore. The bank has extended an invitation to the officers of its several hundred New England correspondent banks to be guests on this occasion. An extensive program has been arranged for the entertainment of the visiting bankers. This program will include a reception by Mayor Hylan and a trip up the Hudson River through the Harlem Ship Canal and Harlem River. Visits will be made to various city institutions and the guests will have an opportunity of studying government methods in the handling of immigrants at Ellis Island. At police headquarters there will be an exhibition drill showing how New York policemen are trained, and an inspection of the New York Police Headquarters, including the Bertillon system and Detective Bureau. On Monday evening a formal dinner and ball will be tendered the visiting bankers at the Hotel Commodore. Calvin Coolidge, Vice-President of the United States, will be the principal speaker at this dinner. Police Commissioner Richard E. Enright of New York, Job E. Hedges and F. A. Wallis, United States Commissioner of Immigration at New York, will also address the visitors. On Tuesday the entire party will be taken by special train to the Westchester-Biltmore Country Club at Rye, N. Y. The feature of Tuesday's program will be the golf tournament for visiting bankers, which will be held in the afternoon, with the Shawmut-Commodore trophy for first prize and the Westchester-Biltmore Country Club cup for second prize. A number of other interesting events have been arranged.

NEW OFFICERS OF ASSOCIATION OF RESERVE CITY BANKERS.

At the concluding session of the convention of the Association of Reserve City Bankers in Buffalo on June 4, C. Howard Marfield, Vice-President of the Seaboard National Bank of New York City, was elected President of the Association for the ensuing year; the other officers of the Association are: Vice-President, George R. Rodgers, Vice-President of the Manufacturers & Traders National Bank of Buffalo; Secretary & Treasurer, James F. Mead, President of the Continental National Bank of Kansas City

The following were elected members of the board of directors of the Association: Heyward E. Boyce, President of the Drovers & Mechanics National Bank of Baltimore; J. William Hardt, Cashier of the Franklin National Bank of Philadelphia; Walter W. Head, President of the Omaha National Bank of Omaha, Neb.; G. N. Hitchcock, Vice-President of the National Bank of Commerce of St. Louis; George H. Pittman, Vice-President of the American Exchange National Bank of Dallas, Tex. The 1922 convention is to be held at Kansas City, Mo.

ITEMS ABOUT BANKS, TRUST COMPANIES, ETC.

Only five shares of bank stock were sold at auction this week and none were sold at the Stock Exchange. A sale of 100 shares of trust company stock was also made at auction.

Shares. BANKS—*New York.*	*Low.*	*High.*	*Close.*	*Last previous sale.*
3 Chemical National Bank	460	460	460	Mar. 1921— 508
2 Corn Exchange Bank	300	300	300	April 1921— 305
TRUST COMPANY—*New York.*				
100 Columbia Trust Co	280	280	280	----------

A New York Stock Exchange membership was reported posted for transfer this week, the consideration being stated at $90,000, as against $82,000 the last preceding transaction.

Premier Briand, of France, on June 15 personally decorated Otto H. Kahn, of New York, with the cravat of a Commander of the Legion of Honor.

On June 23, a deal which was arranged more than a year ago, was consummated between the American Surety Company and the First National Bank of this city for the acquisition of the Wall St. Wing of the old "T" shaped Schermerhorn Building at 96 Broadway, by the bank. The main part of the building on Broadway and Pine Streets is retained by the surety company which has already built an extension to its home at 100 Broadway upon this property. The property which the bank acquires fronts 22.6 feet on Wall St. and has a depth of 75 ft. With the property already owned by the bank the new site gives it a frontage of 72.4 feet on Broadway and 113.10 feet on Wall St.

The Board of Directors of the United States Mortgage & Trust Company of this city have declared a stock dividend of 50% subject to authorization by the stockholders at a special meeting to be called for the purpose. This will increase the capital stock from $2,000,000 to $3,000,000.

At a meeting of the stockholders of the Foreign Trade Banking Corporation of this city on June 23 the recommendation of the directors that the corporation be dissolved was ratified. The Foreign Trade Banking Corporation was organized in 1918 with a capital of $2,000,000 and was the pioneer discount bank in this country. It was organized by Max May, together with George A. Gaston of Gaston, Williams & Wigmore, who held controlling interest in the corporation. Its directors included George A. Gaston, Harry T. Hall and Benjamin S. Guiness. Reference to the proposed dissolution of the corporation was made in our issue of June 4.

P. Jordi, until recently Manager of the Foreign Department of the American Foreign Banking Corporation, has joined the Foreign Exchange Department of the Irving National Bank of this city.

At a meeting of the directors of the Brooklyn City Safe Deposit Company of Brooklyn, N. Y., on June 15, two new officials were added to the executive staff of the company, namely: William D. McClure and Charles B. Royce. These two men have been made Assistant Secretaries. Mr. Royce is also an Assistant Secretary of the Brooklyn Trust Company of Brooklyn. Mr. McClure has been connected with the Brooklyn City Safe Deposit Company for 23 years.

At a meeting of the directors of the Union Trust Company of Rochester, N. Y., on June 8, Mrs. Frank Palmateer, heretofore Assistant Secretary of that institution, was made Treasurer. Mrs. Palmateer was made an Assistant Secretary of the trust company in 1915 being the first woman officer in any bank in Rochester, a distinction which she still has.

George Higginson, a son of one of the founders of the well-known banking house of Lee, Higginson & Co. of Boston and brother of the late Major Henry L. Higginson, died at his home at Lenox, Mass., on June 20. Mr. Higginson as a young man engaged in the East Indian trade. He retired from business many years ago, since which time he had lived on his Lenox estate, "The Corners." He was in his eighty-eighth year.

The Cambridge Trust Company of Chester, Pa., announces the death of its President, Garnett Pendleton, on June 15.

H. J. Crawford has been elected president of the Oil City National Bank of Oil City, Pa., in place of C. M. Lamberton, whose death occurred June 7. Mr. Crawford was formerly Vice-President. No Vice-President has been elected in his place.

According to press dispatches from Lancaster, Pa., the Agricultural Trust Co. of that city was closed on Thursday (June 23) of this week by the State Banking Department, following the arrest of Charles D. Zell, the Treasurer of the institution, for alleged embezzlement and larceny. Later on the same day, it is said, the accused Treasurer confessed to the embezzlement of the bank's funds to an amount estimated at $100,000 and returned money and assigned property totalling $34,000. The Agricultural Trust Co. has a capital of $250,000 with surplus and undivided profits of $40,000 and deposits in excess of $2,000,000. As of May 30 last, its resources were $2,012,826. The institution began business in 1915 and was built up, it is said, chiefly through the energy of Mr. Zell. Deputy Banking Commissioner Cameron is reported as making the following statement regarding the condition of the bank:

> A careful investigation of the affairs of the Agricultural Trust Co. has been made by the officers of the Banking Department. This investigation has disclosed that the books and records of the bank are in a lamentable condition due to the manipulations and peculations of the Treasurer, Charles D. Zell.
>
> The investigation revealed that the Treasurer has for some time been speculating through Philadelphia brokers and using the funds of the company for that purpose.
>
> The amount of the shortage has not been determined, owing to the condition of the records and the ramifications of the Treasurer's speculative operations. Owing to the conduct of the affairs of the company by the Treasurer the reserve has fallen below the legal requirements and the readily negotiable assets of the company have been pledged in efforts to maintain such legal reserve.

It is also stated that on the evening of the day on which the bank was closed announcement was made that a fund of $100,000 had been raised and that all depositors would be paid in full.

The annual convention of the Ohio Bankers' Association will be held in Cleveland July 13, 14 and 15. The business program promises to be one of the best and strongest, as well as the most helpful, ever offered by the Association, and the Entertainment Committee promises an entertainment program fully up to the business sessions. The tentative plans include a buffet supper and smoker for the men on the evening of the 13th, while the afternoon plans call for an automobile tour of the city for the ladies, with buffet supper at one of the country clubs and the evening at one of the large motion picture theatres. On July 14 a boat ride during the afternoon, with buffet supper served on board, returning in time for Keith's Theatre is promised. On the 15th there will be a ball game between Cleveland and Boston. The Entertainment Committee, under the Chairmanship of Allard Smith of the Union Trust Co., is laying particular stress upon the welcome and good times offered to the ladies of the visiting delegates. 1,500 or more Ohio bankers are expected and at least 500 ladies.

Announcement was made on June 21 that Vincent A. Conkey, Vice-President of the Northern National Bank of Cleveland, Ohio, has resigned to become associated with the Merchants' Discount Co., Swetland Building, Cleveland, as Vice-President. Mr. Conkey had been with the National City Bank 20 years and with the Northern National Bank about two years. The Merchants Discount Co. was organized and began business in January of this year; it is capitalized for $2,000,000, consisting of 8% Debeture stock and 20,000 shares of no par Common stock, and deals in first and second mortgages and construction loans. Associated with Mr. Conkey on the board of the Merchants' Discount Co. will be R. L. Freudenberger, who has been associated with Josiah Kirby, in the organization of the Doan Savings & Loan, the Union Mortgage Co., the National Mortgage Co., the Builders Investment and the Cleveland Discount Co., and who has been responsible for the organization of the Merchants Discount Co. The board of directors is as follows:

A. J. Morton, real estate operator; V. A. Conkey, Vice-Pres. Northern National Bank; R. E. Hayslett, Treas. Hydraulic Steel Co.; G. S. Salzman, Treas. H. J. Walker Co.; Will J. Feddery, Mgr. "Hardware Age"; Karl Z. Shetler, Empire Plow Works; D. A. Shaw, Pres. The Grant Motor Corp.; F. L. Dempsey, Mgr. Securities Department; J. E. Maloney, Gen. M'gr. Hydraulic Pressed Steel Co.; W. J. Minahan, Auditor, The Standard Oil Co.; Lawrence Olsen, Pres. The American Bearing & Die Casting Co.; R. L. Freudenberger, Pres. The R. L. Freudenberger Co.; I. Wilkoff, Wilkoff & Co., Youngstown, Ohio; Henry Welf, retired jeweler; F. J. Lynch, Secretary The Attica Realty Co., director the Cleveland Finance Co.

Volney T. Malott, Chairman of the Board of Directors of the Indiana National Bank of Indianapolis, died at his home in that city on June 14 after a protracted illness. Mr. Malott, who was in his eighty-third year, was prominently

identified with the banking interests of Indianapolis and was a leading factor in the financial affairs of many of the railroads in that section of the country for more than fifty years. He was born in Jefferson County, Kentucky, but moved to Indianapolis with his family when nine years old where he later attended the Marion County Seminary and the Indianapolis High School. His banking career began in 1853 when at the age of fourteen he was employed by the Traders' Bank of Indianapolis. Two years later he was made a teller in the Wooley Banking House with which he had become connected, an institution which subsequently became the Bank of the Capitol. In 1857, Mr. Malott entered as teller the Indianapolis Branch of the Bank of the State of Indiana, resigning five years later—at which time he was made a director of the institution—to become Secretary-Treasurer and a director of the Peru & Indianapolis Railroad. In 1865, while still in the service of the railroad, Mr. Malott with others organized the Merchants' National Bank and was connected with the institution until 1870 when he resigned. Nine years later he returned to the Merchants' National as its President, serving until 1883 when he sold his interest in the institution and became President of the Indiana National Bank in which he had purchased an interest. Upon the consolidation of the Capital National Bank with the Indiana National Bank in 1912, Mr. Malott became Chairman of the Board of the enlarged institution. This position he held at the time of his death. Mr. Malott was also at the time of his death a member of the Executive Committee and a director of the Union Trust Co. of Indianapolis, an institution of which he had been one of the founders in 1893. In addition, he was identified with many of the important civic and commercial organizations of Indianapolis, including the Board of Trade and the Chamber of Commerce. Among the railroads with which he was identified at one time or another during his career were the Indianapolis Union Railway, Vandalia system of railroads, Chicago & Atlantic Railway Company (now the Chicago & Erie Railroad Company) Chicago & Western Indiana Railway Company, operating the Chicago Belt Railroad, and Indianapolis, Peru & Chicago, Railroad.

R. B. Fuessle, formerly Assistant Cashier, has been elected a Vice-President of the National City Bank of Chicago. Mr. Fuessle has been with that institution since its organization in 1907, has worked his way up through the ranks and has received this well deserved recognition of his ability because of his thorough knowledge of every phase of banking. Edward P. Vollertsen, formerly Vice-President of the Union Trust Co. of Rochester, New York, has been elected Cashier of the National City Bank of Chicago. Mr. Vollertsen succeeds Claude H. Beaty, who resigned to accept the office of Assistant Chief Examiner of the New York Federal Reserve District. In going to New York, Mr. Beaty returns to the line of work in which he was engaged before he came to the National City Bank. Mr. Vollertsen was for many years connected with the Fidelity Trust Co. of Rochester, New York, and in 1916 was elected Secretary of that institution. In 1920 he resigned to become Vice-President of the Union Trust Co. of Rochester. Mr. Vollertsen is widely known among New York bankers, having held the office of Secretary of Group Two, N. Y. State Bankers' Association.

The Continental and Commercial banks, Chicago, have issued through their publicity department an attractive booklet containing the banks' principal advertisements of 1920-21. The advertisements are printed in black over a green tint-black. A color scheme of green, blue and yellow makes a striking cover.

A new financial institution, namely the Italian Trust & Savings Bank of Chicago, will open its doors for business at 495 N. Halsted St. at Milwaukee and Grand Ave. on or about July 15. The new institution will have a capital of $100,000 and a surplus of $10,000. The stock is in shares of $100 each and will be disposed of at $110 per share. The officers of the bank are: Lawrence H. Whiting, President; Milton M. Morse, Vice-President and Cashier; Guido Marchi, Vice-President and Earl B. McKnight, Assistant Cashier.

The National Bank of Belleville, Kan., changed its name, effective June 14, to the "First National Bank in Belleville."

The United States National Bank of Denver, in moving into its new home in the United States National Bank Building, northwest corner of 17th and Stout Streets, takes another progressive step. On June 18 a public reception was held in the spacious new quarters which were decorated with floral offerings sent with congratulations from other Denver banks, Middle West and New York banks. The officials of the bank, acting as hosts, conducted the throngs of patrons and friends through all the departments, explaining the detail workings of the *dernier cri* in the most complete commercial banking home of the Rocky Mountain region.

The First National and Citizens National banks of El Dorado, Ark., have been consolidated under the charter of the First National Bank of El Dorado, with a capital of $350,000 in shares of $100 each. The consolidation became effective June 4. The officers of the enlarged bank are: R. N. Garrett, Chairman of Board; H. C. McKinney, President; C. H. Murphy, Vice-President, and M. G. Wade, Cashier.

Nathaniel Beaman, President of the National Bank of Commerce of Norfolk for the past thirty years and one of the foremost financiers of Eastern Virginia, died at his home in Norfolk on June 15 of heart disease after an illness of a few hours' duration. Mr. Beaman was born in Murfreesboro, N. C., in 1859 and was educated in the schools of that place. In 1880 he went to Norfolk, where he engaged in the wholesale grocery business as a member of the firm of Brinkley & Beaman. His first official connection with the banking business began eleven years later when in 1891 he became President of the National Bank of Commerce, the position he held at the time of his death. Under his able leadership the bank grew from a small institution to one of the largest banks in Virginia. Mr. Beaman was also at the time of his death a directior of the Merchants & Planters' Bank of Norfolk and prominently connected with numerous other business enterprises. He served as Mayor of Norfolk in 1901.

Formal opening of the Bank of Italy's new head office building at Market, Powell and Eddy streets, San Francisco, will occur June 27, 28 and 29. The bank has set aside these days for public inspection of this new edifice, one of the largest exclusive bank buildings in the United States. A. P. Giannini, President of the Bank of Italy, announces that the doors will be open for business on June 30, immediately following the three days' public reception. He also said:

> Although certain construction details will not be entirely complete at that time, it seems the part of wisdom to move into the new building at once, for the better accommodation of the bank's clients. The other branches in San Francisco are at present so crowded that it is feared many people will be seriously inconvenienced unless this step is taken to relieve the congestion. Rather than subject our clients to the possible unpleasant necessity of transacting their business in an over-crowded lobby, we are moving into these more commodious quarters, trusting the public will bear with us during the brief period that the remaining minor details of construction are in the process of completion.

First organized in October 1904, the Bank of Italy has progressed rapidly during the succeeding seventeen years, until to-day it stands in the front rank of American financial institutions. Its ownership is vested in 4,000 California citizens, whose confidence and faith has made possible its remarkable development. The opening of the new building marks a distinct epoch not only in the growth of the Bank o Italy, but in the progress of California and San Francisco as well. With resources of more than $160,000,000, the Bank of Italy is now the largest bank in the West. It has over 235,000 depositors—ranking second in this particular in the United States. It has 26 branches in 20 California cities.

The Citizens Trust & Savings Bank of Los Angeles. opened for business in its new home at 736-740 South Hill Street that city on June 11. Souvenirs of the occasion in the form of a De Luxe leather pass book with the depositor's name embossed in gold on the title page were given to each "first day depositor" whether for a checking or a savings account. These pass books were numbered so that the first depositor received No. 1 and so on down the line. Every facility for the rendering of efficient service to its clients has been installed in the bank's new quarters, the women in particular being provided with conveniences to insure their comfort, establish a social meeting place and to make their dealings with the bank not only pleasant but profitable. The Citizens Trust & Savings Bank is owned by the stockholders of the Citizens National Bank of Los Angeles, the

combined resources of the two institutions being over $50,000,000. George W. Walker is Chairman of the Board of Directors and Orra E. Monnette, President.

Charles F. Stern, who has been California State Superintendent of Banks for about three years, and whose resignation took effect June 20, has become associated with the First National Bank of Los Angeles and of the Los Angeles Trust & Savings Bank as Vice-President. This appointment is of particular importance to Southern California, Mr. Stern, through his past experience, being equipped with not only a wide knowledge of banking conditions throughout the entire State, but also with an almost unequalled knowledge of business and banking personnel and a thorough understanding of commodity movements in California. He was appointed State Superintendent of Banks on Dec. 14 1918. Mr. Stern brings to Los Angeles an intimate knowledge of the resources of the State, of the financia needs of its people, and a thorough understanding of commodity supplies and demands, and his addition at the present time to the official staff of the First National Bank and the Los Angeles Trust & Savings Bank is of particular value, not only to California itself, but also to Arizona, Nevada and New Mexico, since Los Angeles banks are lending material aid to the financing of the commodities of the entire southwest. He was appointed to the State Board of Education in June 1914, and later became a member of the California State Highway Commission, which position he held previous to his appointment as State Superintendent of Banks.

THE ENGLISH GOLD AND SILVER MARKETS.

We reprint the following from the weekly circular of Samuel Montagu & Co. of London, written under date of June 9, 1921:

GOLD.

The Bank of England gold reserve against its note issue is £126,545,430, as compared with £126,543,235 last week.

A fair amount of gold came on offer and was taken for New York. The price to-day is the highest quoted since Jan. 13 last when it was 110s. 6d.

We are informed from Bombay that the drop in the sterling exchange to about 1s. 3d. evoked higher quotations in the gold market. As high as Rs. 30-3- was quoted for the May settlement. The improved price induced a flow of gold to the extent of 30,000 tolas daily and purchases were made by the Banks. The recent rise in the value of the dollar made gold shipments from India to America profitable, and an actual transfer of gold was arranged.

SILVER.

Prices have moved upward during the week, but business has been only on a small scale. The chief factor has been an appreciation of the U. S. dollar, diminishing the chance of free supplies from that quarter, and causing some degree of nervousness on the part of bear operators, who sought to cover their commitments upon a starved market. Part of the demand emanated from China, but the Indian Bazaars have not been much in evidence.

It is interesting to hear from India how the world supplies centred upon that country during the first four months of the year. We are informed that silver worth Rs. 1,47,27,777 was imported into Bombay from Shanghai, Rs. 65,72,297 from America, Rs. 28,44,482 from miscellaneous ports like Busrah, Jeddah, Behrein, Aden, Muskat, Koweit and Sydney, and 30 lacs into Calcutta, plus the whole output of the Burma Mines, worth several lacs. These contributions from widely scattered districts were in addition to £3,363,640 worth from London, still easily the chief source of supply. The total exceeds £5,000,000 in value and 31,500,000 ounces in weight. This is a large importation for one-third of a year, when we remember that the average net imports during the five years before the war were only 41,000,000 ounces. The conditions, however, are not identical by any means, for the Indian people as a whole are more prosperous now than then, and therefore more likely buyers of precious metal. On the other hand, the average price of silver in India during the pre-war quinquennium was about 65 rupees the 100 tolas, whilst during the first four months of this year it was about 90 rupees, that is to say about 38% higher. A reference to the statistics of past years reveals that the Indian demand is usually relatively better the lower the range of the current quotation.

According to the Chinese Bureau of Economic Information a mining expert has arrived in Pekin reporting the discovery of a silver mine on the eastern hill of Siupaiting about 45 li east of Chiehmo, Shangtung. It is remarkable how small an output of silver (1919, 65,000 fine ounces) is derived from this great silver using country. India proper which probably absorbs more of the metal than any other country also produces very little—under 200,000 ounces in 1919—though Burma was credited with nearly 2,000,000 ounces in that year.

The State Council of Finland has authorized the Bank of Finland and the Director of the Mint to make a contract with a British firm for 20,000,000 coins of nickel-bronze, of which 10,000,000 are to be 1-mark pieces, 5,000,000 in 50-penni pieces, and 5,000,000 in 25-penni pieces. In days gone by the mark pieces and the principal fractions would have been minted in silver.

a U. S. deposits deducted, $898,000.
Bills payable, rediscounts, acceptances and other liabilities, $1,606,000.
Excess reserve, $146,450 increase.

Philadelphia Banks.—The Philadelphia Clearing House statement for the week ending June 18 with comparative figures for the two weeks preceding is as follows. Reserve requirements for members of the Federal Reserve system are 10% on demand deposits and 3% on time deposits, all to be kept with the Federal Reserve Bank. "Cash in vaults" is not a part of legsl reserve. For trust companies not members of the Federal Reserve system the reserve required is 15% on demand deposits and includes "Reserve with legal depositaries" and "Cash in vaults."

Deferred availability items	85,681,257	121,580,305	101,296,000
All other liabilities	7,114,725	7,078,462	28,879,000
Total liabilities	1,574,666,886	1,754,636,314	1,873,766,000
Ratio of total reserves to depost and F. R. note liabilities combined	68.9%	60.6%	39.2%
Ratio of total reserves to F. R. Notes in circulation after getting aside 35% against deposit liabilities	103.0%	90.8%	42.7%
Contingent liability on bills purchased for foreign correspondents	41,449,158	41,449,518	6,088,731

Note.—In conformity with the practice of the Federal Reserve Board at Washington, method of computing ratios of reserves to liabilities was changed beginning with the return for March 18. Instead of computing reserves on the basis of *net* deposits—that is, including in the total of deposits "deferred availability items" but deducting "uncollected items"—the new method is to disregard both amounts and figure the percentages entirely on the gross amount of the deposits. For last year, however, the computations are on the old basis; that is, reserve percentages are calculated on basis of *net* deposits and Federal Reserve notes in circulation.

A further change was made beginning with the return for April 8. This change consists in showing the ratio of reserves *to Federal Reserve notes* after setting aside 35% against the deposit liabilities. Previously the practice was to show the ratio of reserves *to deposits* after setting aside 40% against the Reserve notes in circulation.

The Federal Reserve Banks.—Following is the weekly statement issued by the Federal Reserve Board on June 23. The figures for the system as a whole are given in the following table, and in addition we present the results for seven preceding weeks, together with those of corresponding weeks of last year. The second table shows the resources and liabilities separately for each of the twelve banks. The Federal Reserve Agents' Accounts (third table following) gives details regarding transactions in Federal Reserve notes between the Comptroller and Reserve Agents and between the latter and Federal Reserve banks. In commenting upon the return for the latest week the Federal Reserve Board says:

Aggregate reductions of $236,400,000 in earning assets, accompanied by corresponding decreases in deposit liabilities, are indicated by the Federal Reserve Board's weekly bank statement issued as at close of business on June 22 1921. Redemption by the Government of special certificates taken by the banks to cover temporary advances to the Treasury more than accounts for the reduction in earning assets. As against an increase of $4,900,000 in gold reserves and of $4,400,000 in total cash reserves, there is shown a further reduction of $35,100,000 in Federal Reserve note circulation. The banks' reserve ratio, wihch had declined from 58.3% on June 8 to 56.8% on June 15, shows a rise for the week under review to 60.4%.

Holdings of paper secured by Government obligations show a decrease of $6,300,000 for the week, while other discounts increased by $52,500,000 and acceptances on hand declined by $13,700,000. Treasury certificate holdings of the Federal Reserve banks decreased by $267,700,000, all of the special certificates held a week ago having been redeemed by the Treasury with the exception of $21,000,000 held by the New York Reserve bank. Total earning assets of the Reserve banks on June 22 stood at $2,082,400,000, or about 35% below the total reported on June 25 of last year.

Of the total holdings of $658,000,000 of paper secured by United States Government obligations, $449,000,000, or 68.3% were secured by Liberty and other U. S. bonds, $170,400,000 or 25.9% by Victory notes, $2,700,000 or 4% by Treasury notes, and $35,400,000, or 5.4% by Treasury certificates, compared with $450,900,000, $181,300,000, $1,100,000 and $31,000,000 shown the week before.

During the week the Richmond and Minneapolis Reserve Banks increased the amount of their rediscounts with the New York Reserve Bank, the former from $20,000,000 to $24,800,000, and the latter from $10,000,000 to $12,800,000, while the Dallas Bank reduced its rediscounts with the Boston Bank from $7,400,000 to $4,100,000. The total amount of inter-reserve-bank accommodation shows an increase from $37,500,000 to $41,700,000 for the week.

Government deposits show an increase of $3,300,000, member's reserve deposits declined by $218,800,000, other deposits, composed largely of non-members' clearing accounts and cashiers' checks, show a reduction of $16,500,000, and total deposits—a decline of $232,000,000 for the week.

Member Banks of the Federal Reserve System.—Following is the weekly statement issued by the Federal Reserve Board giving the principal items of the resources and liabilities of the Member Banks. Definitions of the different items in the statement were given in the statement of Dec. 14 1917, published in the "Chronicle" Dec. 29 1917, page 2523.

STATEMENT SHOWING PRINCIPAL RESOURCE AND LIABILITY ITEMS OF REPORTING MEMBER BANKSIN FEDERAL RESERVE BANK AND BRANCH CITIES AND ALL OTHER REPORTING BANKS AS AT CLOSE OF BUSINESS JUNE 15 1921.

Aggregate increases of $240,000,000 in investments, representing the excess of investments in the June 15 issues of Treasury certificates and 3-year notes over the amounts of tax certificates redeemed on that date, accompanied by much larger increases in deposits and a reduction of $190,000,000 in accommodation at the Federal Reserve banks, are indicated in the Federal Reserve Board's weekly consolidated statement of condition on June 15 of 817 member banks in leading cities.

The statement carries a new item: U. S. Treasury notes, of which the reporting banks show total holdings of $152,000,000, or nearly one-half of the amount allotted by the Treasury. Member banks in New York City report $82,000,000 of these securities among their assets. Holdings of Treasury certificates are shown about $96,000,000 larger than the week before, the New York banks alone reporting an increase of $62 000,000 in this item. Other United States securities show an increase of $3,000,000 and a nominal decrease at the New York City banks.

An increase of $9,000,000 in loans supported by corporate securities is offset by an equal decrease in loans secured by Government obligations, while other, i. e., commercial, loans and discounts, show no change. For the New York City banks an increase of $10,000,000 in loans supported by corporate securities, as against net liquidation of $25,000,000 in other loans is noted. In consequence of these changes total loans and investments of reporting banks show an increase for the week of $240,000,000, while those of the New York City banks increased by about $120,000,000.

In connection with the redemption of matured tax certificates, accommodation of the reporting banks at the Federal Reserve banks shows a decrease for the week from $1,358,000,000 to $1,168,000,000, or from 8.9 to 7.6% of the banks' total loans and investments. For the New York City banks a reduction of $99,000,000 in the total accommodation at the local reserve bank and a decline in the ratio of accommodation from 8.2 to 7.5% are noted.

In consequence of the large Government operations, particularly the allotment of the newly issued certificates and notes, Government deposits show an increase for the week of $385,000,000. Other demand deposits (net) were $171,000,000 larger than the week before, this increase apparently representing balances to cover checks in payment of taxes, and customers' subscriptions to newly issued Government securities. Time deposits were $12,000,000 larger than on the previous Wednesday. For the New York City banks increases of $249,000,000 in Government deposits of $87,000,000 in other demand deposits, and of $5,000,000 in time deposits are shown.

In keeping with the substantial increase in deposit liabilities and to provide cover for outstanding checks and drafts in payment of income and excess profits taxes, the reporting member banks show an increase of $162,000,000 in their reserve balances with the Federal Reserve banks, while their cash in vault shows a reduction of $19,000,000. For the New York City banks an increase of $100,000,000 in aggregate reserve balances and a reduction of $6,000,000 in cash are shown.

1. Data for all reporting member banks in each Federal Reserve District at close of business June 15 1921. Three ciphers (000) omitted.

Bankers' Gazette.

Wall Street, Friday Night, June 24 1921.

Railroad and Miscellaneous Stocks.—The stock market has continued to be almost wholly in control of the professional element again this week. The wave of liquidation, which was so pronounced a feature of last week's market, continued until Tuesday and carried with it the railway list, which heretofore had been largely exempt. At that time the bottom seems to have been reached, however, and a reaction then set in which has been partially successful in restoring prices. This recovery was stimulated somewhat by announcement that the Great Northern dividend is to be maintained, but in the absence of outside interest prices on Thursday and to-day have drifted generally towards a lower level. The decline mentioned carried Can. Pac. 9½ points below last week's closing price, Rock Island pfd. 7½, Reading 6, Balt. & Ohio and Gr. Nor. 5 and several others in this group from 3 to 5, while prominent industrial issues covered a range of from 5 to 15 points with widely varying net results.

There has been a paucity of news, other than that mentioned, directly affecting the market. Cotton has sold at the lowest price quoted in several years past, Sterling exchange has steadily declined in this market and the Bank of England has reduced its official discount rate from 6½ to 6%. There is no improvement in the steel industry. On the contrary consumers are waiting, and it is reported will continue to wait, for lower prices, stocks in jobbers' hands are gradually being reduced at concessions and considerable quantities of manufactured steel, which were sold to France after the close of the war, are now being offered here at less than the present cost of production.

The following sales have occurred this week of shares not represented in our detailed list on the pages which follow:

State and Railroad Bonds.—No sales of State bonds have been reported at the Board this week.

The market for railway and industrial bonds has shown a tendency to decreasing activity while business in the various foreign issues has largely increased in volume. In all departments prices have been relatively well maintained.

Some of the local tractions have been notably strong including B.R.Ts., Inter. Mets., Hud. & Man. and Interboros. On the other hand Cuba A Sug. 8s have declined over 4 points and more than half the active list is lower.

United States Bonds.—Sales of Government bonds at the Board include $2,500 4s coup. at 104½, $2,000 2s reg. at 100 and the various Liberty Loan issues.

Note.—The above table includes only sales of coupon bonds. Transactions in registered bonds were:

6 1st 3½s	87.04 to 87.78	115 3d 4¼s	91.10 to 91.44
4 1st 4s	87.00	135 4th 4¼s	86.54 to 86.88
3 1st 4¼s	87.00 to 87.10	490 Victory 4¾s	98.16 to 98.28
80 2d 4¼s	86.40 to 86.76		

Foreign Exchange.—Sterling exchange ruled quiet with the trend toward still lower levels, though losses were not particularly severe. The Continental exchanges moved irregularly, closing in most cases at a small net loss for the week.

To-day's (Friday's) actual rates for sterling exchange were 3 67⅛@3 68 for sixty days, 3 72⅝@3 73⅜ for checks and 3 73⅛@3 73⅞ for cables. Commercial on banks, sight, 3 72⅛@3 72⅞; sixty days, 3 65⅛@3 65⅝; ninety days, 3 61⅛@3 61⅞, and documents for payment (sixty days), 3 65⅝@3 66¾. Cotton for payment, 3 72⅛@3 72⅞, and grain for payment, 3 72⅛@3 72⅞.

To-day's (Friday's) actual rates for Paris bankers' francs were 7.87@7.91¼ for long and 7 93@7.97¼ for short. German bankers' marks are not yet quoted for long and short bills. Amsterdam bankers' builders were 32.44@32.49 for long and 32.80@32.85 for short.

Exchange at Paris on London, 46.79 fr.; week's range, 46.16 fr. high and 46.89 fr. low.

The range for foreign exchange for the week follows:

	Sixty Days.	Checks.	Cables.
Sterling Actual—			
High for the week	3 74⅜	3 79¾	3 80¼
Low for the week	3 67⅛	3 72⅝	3 73⅛
Paris Bankers' Francs (in cents per franc)—			
High for the week	8.15	8.23	8.24
Low for the week	7.87	7.95	7.96
Germany Bankers' Marks—			
High for the week	----	1.45¼	1.46¼
Low for the week	----	1.36½	1.37½
Amsterdam Bankers' Guilders—			
High for the week	32.99	33.40	33.45
Low for the week	32.44	32.85	32.90

Domestic Exchange.—Chicago, par. St. Louis, 15@25c. per $1,000 discount. Boston, par. San Francisco, par. Montreal, $139 68 per $1,000 premium. Cincinnati, par.

Outside Market.—Prices on the "curb" were further depressed in the trading at the beginning of the week, with new low levels reached in a number of instances. A better tone was in evidence as the week progressed, but the improvement was small. Business continues of meagre proportions. Oil stocks were of chief interest. Guffey-Gillespie Oil suffered a sharp break on the announcement of application for a receiver, dropping from 9½ to 5¾, but recovered all the loss and sold finally at 9. Carib Syndicate sold down from 6½ to 4⅞ and closed to-day at 5¼. Maracaibo Oil advanced from 23¼ to 24⅞, weakened to 23⅜ and sold to-day back to 24¾. Gilliland Oil com. fell from 10¼ to 3 and recovered to 5. Merritt Oil declined from 8¾ to 7 and closed to-day at 7¾. Midwest Refining lost seven points to 120, then recovered all the loss and sold finally at 125. Simms Petroleum was off from 7⅞ to 6½, with the close to-day at 6¾. Trading in the industrial list was small. Cities Service com. suffered a break from 131 to 106 but recovered to 125. The pref. sold down from 49 to 42½ and at 43 finally. Cleveland Automobile advanced from 25 to 28. Durant Motors lost a point to 22. Lincoln Motor weakened from 17 to 15¾. Couley Tin Foil receded from 13 to 11 and ends the week at 12. Glen Alden Coal sank from 41½ to 37¾. Bond trading was also smaller. A feature was the activity and strength in Interboro R. T. 7s, which sold up from 73 to 79¼. A heavy business was also reported in Humble Oil 7s, the price dropping from 95½ to 94¾.

A complete record of "curb" market transactions for the week will be found on page 2737.

New York "Curb" Market.—Below we give a record of the transactions in the outside security market from June 18 to June 24, both inclusive. It covers the week ending Friday afternoon.

It should be understood that no such reliability attaches to transactions on the "Curb" as to those on the regularly organized stock exchanges. On the "Curb" any security may be dealt in and any one can meet there and make prices and have them included in the lists of those who make it a business to furnish daily records of the transactions. The possibility that fictitious transactions may creep in, or even that dealings in spurious securities may be included, should, hence, always be kept in mind, particularly as regards mining shares. In the circumstances, it is out of the question for any one to vouch for the absolute trustworthiness of this record of "Curb" transactions, and we give it for what it may be worth.

RAILROAD GROSS EARNINGS

The following table shows the gross earnings of various STEAM roads from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from Jan. 1 to and including the latest week or month. *The returns of the electric railways are brought together separately on a subsequent page.*

ROADS.	Latest Gross Earnings. Week or Month.	Current Year.	Previous Year.	Jan. 1 to Latest Date. Current Year.	Previous Year.

Federal Sugar Refining Co., New York.

(*Report for* 22 *Months ended April* 2 1921.)

The income account for the 22 months ended April 2 1921 together with balance sheet as of that date, as certified by Barrow, Wade, Guthrie & Co., will be found under "Reports and Documents" on a subsequent page.

President Claus A. Spreckels is quoted as saying:

Last year at the annual meeting of the stockholders I explained frankly why no financial statement would be issued at that time. I said that it was the custom of the company to omit statements sometimes or to issue them at irregular periods and on that occasion I would follow its traditionsI

My reason for doing this was that although the company's financial position was highly favorable at the time, I did not wish to create a fals. sense of optimism in the minds of the stockholders. I said that sugar prices had been raised to a level which seemed to me to be absurd, and e believed, therefore, that serious difficulties were ahead of the sugar industry.

The company has paid its dividends up to this time and so far as I can see will continue to pay them.

Pacific Gas & Electric Company.

(15*th Annual Report—Year ended Dec.* 31 1920.)

The remarks of President W. E. Creed are cited fully on subsequent pages, together with the income account, balance sheet and numerous statistical tables.

Special attention is called to the following features of the report noted by A. F. Hockenbeamer, 2d Vice-President and Treasurer also see the map of the system on page 210 of the "Railway & Industrial Section."

The company's statement shows that the amount available for the payment of fixed charges was $11,935,235, or 2.4 times all interest charges, and that after the payment of the regular 6% dividends upon its 1st Pref. stock, aggregating $1,777,933, there remained a balance of $2,142,026. The company's 5% Common stock dividend was also earned by a margin of $441,180.

The company's earnings under the existing system of public regulation are based upon only a fair rate of return on the value of its properties, and without any regard whatever for the amount of stocks and bonds outstanding. The properties account at the close of the year it should be observed stood at $164,655 623. Of this amount $91,875,790, or almost 60%, represents cash actually invested in new construction and the acquisition of properties in the last 15 years.

The company's contribution to the upbuilding of the material resources of the State of California and the development of its agricultural, mining, manufacturing and other basic industries is indicated by the fact that it has either completed, or will bring to completion at an early date, 138,741 h.p. of additional hydro-electric installations, in addition to 16,756 h.p. of additional electric energy in its steam stations a total of 155,497 h.p., representing an additional generating capacity equivalent to more than 50% of its former water power capacity, and more than one-third of its former capacity if steam stations be included. In this and other new construction, $11,314,609 was expended during the year. Even before undertaking these new developments the company was one of the largest owners and operators of hydro-electric plants in the United States.

Conservatism in the management of the financial affairs of the corporation is indicated by the fact that in the last 15 years less than one-third of the net earnings was paid out in cash dividends, no less than $40,726,000 of net earnings having been used to retire bonds, reinvested in the property, or expended for replacement and rehabilitation.

Net working assets of $12,053,084 are reported, including cash and United States Treasury certificates of indebtedness of $3,078,402. This is a betterment of $1,050,702 in the company's cash position as compared with the close of the preceding year.

The following table indicates the increase in business which the company has enjoyed in recent years and also the expansion of its electric installations for the service of its customers, new and old.

Mexican Light & Power Co.—Mex. Tramways Co.

(*Report of Reorganization Committee dated May* 30 1921).

The bondholders' committee of the Mexican Light & Power Co., Ltd.; Mexican Electric Light Co., Ltd.; Pachuca Light & Power Co., and Mexico Tramways Co. in presenting the plan outlined on a subsequent page have made a report which is dated at London May 30 saying in brief:

Outlook.—The revolution of May 1920, seems to have established the Government upon a popular basis, and although the position in Mexico remains difficult, the outlook is certainly more hopeful than it was, and we believe justifies us in making the provisional plan which is to be submitted to the bondholders at the meetings [on June 29].

Present Status.—The Associated Companies have paid no interest upon their bonds and unfunded debts for over six years, and the funds now available falls far short such interest, quite apart from the principal of the unfunded debts, which are long overdue and have to be dealt with.

The debts of the Associated Companies as at Dec. 31 1920, exceeded £8,897,000, viz.: (*a*) £3,672,000 for interest due to bondholders and sinking fund payments in arrear on the bond issues; (*b*) £5,225,000 in respect of the principal and interest on the unfunded debts, including $16,245,626 60 (approximately £3,338,000) due by the Light & Power Company to the Tramways Co., in respect of cash advances. Since Nov. 1913, no dividend has been paid on the $6,000,000 7% Cumulative Preference Shares of the Light & Power Co.

Financing New Plants.—The most important factor to be taken into consideration in arriving at the amount available for distribution among the bondholders was the immediate necessity for largely increasing the capacity of the power plants, which, as previously reported, are overloaded. Unfortunately the past season has been an abnormally dry one, and this has involved the Light & Power Company in serious difficulties.

In 1913 plans were prepared with a view to building another power plant. The necessity for this development has since been accentuated by the large increase in the population of Mexico City, and since the revolution in May last the demands for power both in the Federal District. District of Mexico and in the mining areas have been growing very rapidly.

Owing to disorganized railway conditions, it has been impossible to obtain a regular supply of oil to run the steam plant, with the result that the reservoir at Necaxa is being drawn down to an alarming extent and it has been necessary to reduce the supply of power to consumers by 25%, subjecting the company to very serious criticism.

As mentioned in our last report, another unit of 16,000 H. P. is being installed at the Necaxa Plant, and this should be ready for operation in the coming autumn. This addition, however, will not effectively meet the demand, and, therefore, the Committee have arranged for two consulting engineers to visit Mexico and report on the whole situation and advise as to how this can be most economically and efficiently carried out.

Tramways.—The troubles of the Tramways Company were intensified by the fact that its properties were seized by the Government authorities in 1914 and were not returned until 1919, the revenues in the meantime being appropriated by the authorities, and the properties allowed to deteriorate. Since the return of the undertaking, all available earnings have been devoted to rehabilitation, but much remains to be done.

Under present conditions it is impossible to finance these extensions and rehabilitations by the issue of securities, so that in making their proposals the Committee have been forced to make provision out of the present available funds and future earnings for the more immediate capital requirements.

Overdue Interest of Light & Power Cos.—Immediately after the Agreemen has been ratified by the bondholders and sanctioned by the Court, the holders of the 1st M. bonds of the Light & Power Co., the Electric Light Co. and the Pachuca Co. will receive in cash approximately 75% of the arrears of interest, and the balance will be paid by installments prior to July 1 1923. Payment of the current interest will be resumed, beginning in each case with the first coupon falling due after the middle of the present year.

Payment of the Interest Coupons of the 2d M. bonds of the Light & Power Co., will commence on June 1 1922, paying at least one coupon every half year, and it is hoped that it will be possible to pay off all the arrears of interest rapidly after the arrears of the 1st M. bonds have been settled. These arrears must be paid as and when there is in the opinion of the Committee income available for the purpose.

Tramways.—Owing to the long intervention by the Government, there was no opportunity of accumulating funds from the earnings of the Tramways undertaking, and those in hand must be applied towards the capital expenditure referred to above. It is only possible, therefore, to start payment of the coupons on the Tramways Cos. 1st M. on Sept. 1 1921, paying at least one coupon every half-year, but it is hoped that in and after 1924 the arrears can be liquidated more rapidly as the agreement requires that these arrears shall be paid.

For the same reason, payment of the interest on the 6% 2d M. Tramways bonds cannot be resumed for some time. It has therefore been deemed wise to convert them into Cumulative Income bonds for a period of years. Provision, however, is made by which, when all arrears are paid and the full interest has been punctually paid thereafter for three successive years, they will automatically revert to their former status.

Claim Against Mex. Govt.—The Tramways Company has a very heavy claim against the Mexican Government for loss of earnings and for damages resulting from the intervention, and on broad lines the Mexican authorities recognize its existence, but although constant efforts have been made to reach some concrete settlement, nothing has so far been accomplished. Therefore, although it is expected that the company will receive substantial damages, the committee do not feel justified in taking this claim into account in the present arrangements.

Sinking Fund.—The suspension of the several sinking funds for a term of years seems wise in view of the circumstances, and this involves some extension of the dates of maturity of the various bond issues.

Debt of Tramways to Light & Power Co.—As mentioned above, the Light & Power Co., is heavily indebted to the Tramways Co., due to the circumstance that the Tramways Company had greater facilities for raising money in London, and it was therefore arranged for the Tramways Company to advance to the Light & Power Company the sums required by it for its capital expenditure, the Tramways Company in turn raising the funds necessary for the purpose by issuing its own bonds and borrowing from its bankers. On Dec. 31 1920, as a result of such financial transactions, the Light & Power Company was indebted to the Tranways Company to the extent of $16,245,626 60, and on the other hand the Tramways Company owed to its bankers £1,813,897 12.

The proposed arrangements provide for the Light & Power Company settling its indebtedness as at Dec. 31 1921, to the Tramways Company to the extent of $5,000,000 in cash, and as to the balance by the issue of 6% Cum. Income bonds of the Light & Power Company. The Tramways Company, with the cash received from the Light & Power Company, will be placed in a position to settle its indebtedness to its bankers, and the Committee are satisfied that it will be possible to arrange this on fair terms.

It is proposed to increase the authorized amounts of the 1st M. Bond Issue of the Tramways Co., but this is not likely to result in any change in the amounts outstanding in the near future. It is hoped that in the course of a few years, when further developments become necessary it will be possible to provide the major part of the funds required by the sale of these bonds upon favorable terms. These additional bonds, however, will be issuable only to the amount of 75% of the amount of additional capital expenditure.

Status Following Readjustment.—Upon consummation of the plan the financial position of the companies, after providing the sums required to meet the payments of arrears of interest to be made during 1921 and to settle the unfunded debts and all inter-Company accounts in respect of advances under lease contracts, &c., would be approximately as follows:

(A) LIGHT AND POWER COMPANIES.

(1) $5,210,062 *Arrears of Interest Coupons Outstanding as at Jan.* 1 1922.	
Mexican Light & Power Co 1st M. bds, $850,537; 2d M. bds, $3,650,000	$4,500,537
Mexican Electric Light Co. 1st Mortgage bonds	417,525
Pachuca Light & Power Co., 1st Mortgage bonds	292,000
(2) Funds allocated towards providing additional power	3,000,000

(B) TRAMWAYS COMPANY.

(1) $6,547,535 *Arrears of Interest Coupons Outstanding as at Jan.* 1 1922.	
5% 1st Mortgage bonds	$3,346,850
6% 2d Mortgage bonds	3,200,685
(2) Funds allocated towards restoration of property & providing additional equipment	$1,000,000

Earnings for the first four Months of 1921.

During this period in 1921 the Light & Power business was seriously affected by the shortage of water:

4 *Months to*	*Light & Power Companies*		*Tramways Company.*	
Apr. 30—	1921.	1920.	1921	1920.
Gross earnings	$2,085,414	$2,170,867	$2,086,449	$1,533,646
Operating expenses	1,139,169	788.178	1,769,853	1,367,957
Net earnings	$946,245	$1,382,689	$316,596	$165,689

Future Earnings.—Interest Charges.—Having regard to the shortage of water which will probably necessitate operating the steam plants for many months owing to the serious depletion of the reservoirs, the committee find it impossible to estimate future earnings beyond expressing the belief that they will be sufficient to provide for the proposed annual fixed charges as future which will be as follows:

Annual Fixed Interest Charges of $1,526,707 *for Light and Power Cos.*

Mexican Light & Power Co., 1st M. bonds, 5% on $11,340,500 bds. $567,025
2d M. bonds 5% on £2,000,000 bonds at $4 86 2-3 ---------- 486,666
Mexican Electric Light Co., 1st M. bds. 5% p.a. on $5,567,000 bds. 278,000
Pachuca Light & Power Co., 1st M. bds., interest at 5% on £800,000
interest at 5% on £800,000 bds at 4.86 2-3 ---------- 194,666

The interest on the 6% Income bonds of the Mexican Light & Power Co. is only payable when the earnings permit and after discharge of the arrears of interest specified above amounting to $5,210,062 on the Prior Securities

Annual Fixed Charges of $835,380 *for Tramways Company.*

F. C. Distrito Federal bonds, 8% on $5,850,000 (Mex.) at 50% --$234,000
Mexico Electric Tramways Ltd., "A" bonds 5% p.a. on $355,400
bonds at $4 86 2-3 ---------- 86,480
Mexico Tramways Co., 1st M. bonds 5% p.a. on $10,298,000 bds. 514,900

The interest on £1,461,500 6% 2d M. bonds of the Tramways Co. is only payable when earnings permit and after discharge of the arrears of interest specified above amounting to $3,346,850 on the 1st M. bonds.

See also plan on a subsequent page.—V. 111, p. 1757.

Lone Star Gas Co., Dallas, Tex., & Pittsburgh, Pa.

(Results for Calendar Year—Statement to Pittsburgh Stk. Exch.)

Owing to the fall in the price of crude oil (see "Chronicle" of June 18, p. 2644), the quarterly dividend of 50 cts. a share (2%) usually paid June 30, will, it is announced, be omitted (V. 112, p. 2649).

Pittsburgh Stock Exchange some weeks ago listed the $651,700 stock offered to stockholders of record Dec. 18 1920 at par ($25 per share), and authorized the listing of $348,300 more, being the remainder of the $1,000,000 new stock authorized last December, when and as issued, making the total listed $10,651,700 and the maximum to be listed $11,000,000.

The company holds leases on approximately 91,063 acres, viz., 54,229 in Texas, 36,484 in Oklahoma and 350 in Louisiana. It owns and has an interest in 61 producing oil wells, viz.: (1) Texas: Clay County, 1; Eastland County, 3; Palo Pinto, 1; Stephens, 24; total, 29. (2) Oklahoma: Caddo County, 5; Cotton, 8; Stephens, 19; total, 32. (3) Grand total, 61. Total production from the above wells and leases averaging about 700 bbls. of oil per day. Tank farms at Ranger, Tex.

[It was announced on or about June 15 1921 that the company had brought in a 1,200-bbl. oil well in the Duncan districts of Southwestern Oklahoma. The pay was found at a depth of 2,243 feet and the 1,200-bbl. flow was reached at 11 ft. in the sand. As the company's chief holdings are in Texas, this Oklahoma strike is considered of much importance.—"Pittsburgh Money" June 18.]

The Lanston Monotype Machine Co., Phila., Pa.

(Report for Fiscal Year ending Feb. 28 1921.)

President J. Maury Dove, May 5, wrote in substance:

Results.—The net earnings for the year were $1,663,530, the largest profits ever shown in any year. These earnings were not the result of a large profit on any single unit but the result of increased volume of sales of all units. A large amount of the earnings were, as usual, reinvested in factory equipment.

English Co.—The business of the English Corp. in its territory has been fairly good. We have a contract with that corporation for delivery of a large number of keyboards, casting machines and parts. By reason of the rate of exchange we have deferred in part deliveries under this contract.

Govt. Contract.—Our contract with the U. S. Government was finally adjusted by the Government on a basis that showed but a small profit to the company for the work done.

Art Director.—To enable the company to improve, wherever possible, its existing type faces and to provide for the production of additional type faces along the most artistic lines, the services of Frederic W. Goudy were secured as Art Director to the company. Mr. Goudy is known as a man pre-eminent in his profession.

Patents.—Many patents were taken out during the year, and many applications for patents were filed.

INCOME ACCOUNT FOR YEARS ENDED FEB. 28.

American Window Glass Machine Co., Pittsburgh, Pa.

(Report for 11 *Months ending March* 31 1921.)

At the annual meeting May 3 President William L. Monro reported in brief:

Royalties.—There has been a material reduction in the amount of royalties received from the American Window Glass Co., the general business depression having affected the volume of the latter's sales of window glass. The reduction in the amount of royalties received during the preceding year was due solely to the decreased volume of business of the American W. G. Co.

Dividend Received.—In addition to the royalties received during the past year, the company received in dividends on its holdings of Common stock of the American Window Glass Co. the sum of $649,960.

Capacity, &c.—When the present depression passes it will require a number of years of intensive building before the existing shortage of houses is taken care of. With that in view, the American Window Glass Co. has been spending large sums of money in important improvements which will materially increase its capacity and substantially reduce its costs.

Infringement—Settlements—Merger Co.—During the past fiscal year settlements were made by the American Window Glass Co. with 7 different companies that had been infringing their patents. A new company has been formed and taken over most of the infringing companies, and the American Window Glass Co. has arranged to grant a license to the new company. This license provides for a substantial minimum annual royalty for at least 8 years. [Compare Interstate Window Glass Co., V. 111, p. 2429; V. 112, p. 1745, 1982, 2088.] While some of the early patents covering the process have expired, yet many of the most important patents have a number of years to run. In addition to these patents, however, a large number of additional patents have been taken out which, while not essential to the mechanical blowing of window glass, have, nevertheless, a most important bearing on the degrees of success of the operations, and we consider them of great value.

Excess Profits Tax.—Our records have always been kept on the basis of actual cash receipts and disbursements, and the figures shown are subject to final adjustment of the income and excess profits tax. Consideration is being given to the matter of making provision for the expiration of patents by depreciation charges, which will have a material effect on the final amount of such taxes.

Total Royalties to April 8 1921.—Under the license agreement with the American Window Glass Co., dated May 7 1903, the total amount of royalty which has accrued from the date of the license to April 8 1921 is $13,805,735, of which $13,560,622 has been paid, leaving a balance of $245,113, which is not included in these statements, as the same was not due at the close of the fiscal year. (Compare V. 109, p. 372.)

—V. 112, p. 1980.

United States Rubber Company, New York.

(29th Annual Report—Year ended Dec. 31 1920.)

The report was printed in full in "Chronicle" of April 9 on pages xxiv and xxv of advertisements, while the comparative income account for four years past was shown on p. 1510. The preliminary report for 1920 was cited at considerable length in "Chronicle" of Feb. 5, p. 558.

Chairman Samuel P. Colt under date of April 7 1921 says in substance:

Results for 1920.—The net sales for the year 1920 were $256,150,130, being an increase of $30,560,665 over the sales of 1919.

The net income before interest but after making provision for depreciation of plants and adequate reserves for Federal, Canadian and British taxes on income and profits, amounted to $26,864,297 [contrasting with $21,396,099 in 1919]. Deducting the net interest charges, $5,643,314, the Preferred dividends, $5,200,000, dividends on minority stock of subsidiary cos., $18,718, and dividends on Common stock (8%), $6,480,000, leaves balance of surplus for the year of $9,522,265.

Adding to the foregoing surplus certain adjustments made during the year, $492,952, and having "appropriated and set aside as a reserve to provide for any contingencies that might arise hereafter in connection with inventory valuations, contracts or other matters, $6,000,000, and having brought forward the total surplus as at Dec. 31 1919, $52,310,163, less the Common stock dividend of 12½% paid Feb. 19 1920, $9,000,000, makes the total profit and loss surplus as of Dec. 31 1920, $47,325,380.

Ten-Year Gold Notes.—The company on Aug. 1 1920 issued and sold $20,000,000 of 10-Year 7½% Gold Notes, which were secured by $25,000,000 of its First & Ref. Mtge. bonds. The proceeds were used in payment for additions to fixed properties. (V. 111, p. 396.)

Stock for Employees, &c.—The item of notes receivable of employees, $7,430,207, is represented by notes of employees given for purchase of shares of the Common capital stock of the company secured by 98,326 shares of such stock. Common stock of $2,427,705 (book value) is also being carried under service contracts and agreements with some of the principal officers of the company, as shown in the balance sheet.

Inventories.—To meet the heavy decline in prices of certain materials, notably cotton fabrics, inventories have been written down $11,151,444 below cost, thus bringing the inventory valuations down to a conservative basis. This reduction was charged against reserves previously created in anticipation of such a decline in prices. In addition to this write-off of $11,151,444, there was appropriated out of the income for the year 1920 and set up as a reserve the sum of $6,000,000, which your Chairman believes s sufficient to take care of any contingencies that might arise hereafter in connection with inventory valuations, contracts or other matters.

Plants and Fixed Properties.—There has been expended upon the plants and fixed properties of the company during the year 1920 $28,616,616, notably in the enlargement of our tire plants at Detroit, Hartford, Providence and Indianapolis. The work is practically completed and paid for and your Chairman feels there will be no necessity for additional expansion of plants or fixed properties for some time to come.

Export Business.—The export sales of the company increased 9.66% compared with those for the previous year. Export business during the latter part of the year suffered in common with domestic business from greatly reduced buying. Already there are some indications of revival and it is hoped that the company will be justified during 1921 in executing plans which will make our products available through direct distribution in every important market of the world.

Crude Rubber and Rubber Plantations.—The year 1920 opened with crude rubber (first latex crepe) at 55c. a lb. and closed below 20c. a lb. Your company carried over about seven months' supply of crude on hand and to arrive at .2679c., which is below the average cost of production, and with the revival of business the price of crude rubber is certain to advance.

While we did not push the production of our estates in Sumatra, owing to the low prices, the amount of rubber received therefrom in 1920 was in excess of the previous year. During the year we have increased the area of our plantations both by development of land previously owned and by further purchases at favorable prices.

Stockholders.—The number of stockholders as of Jan. 15 1919 and Jan. 15 1921 is respectively as follows: Common stockholders, 4,009 in 1919 and 11,878 in 1921; Pref. stockholders, 15,030 and 17,353; total increase (both classes), 10,192.

Outlook for 1921.—Our policy for the coming year will be a continuance of the conservatism exercised in the past. It is not proposed to extend the business by new construction or otherwise requiring the outlay of further capital, but with the completion of the much needed enlargement of the capacity of its tire plants it is intended to keep within our present facilities and to conserve its assets in conformity with the times. Your Chairman feels that adherence to this policy will not only insure safety, but that it may reasonably be expected that the profits of the business will be adequate o meet all charges and also provide satisfactory earnings on capital stock.

New York Dock Company.

(*20th Annual Report—Year ended Dec.* 36 1920.)

Pres. William E. Halm, New York, Apr. 26. says in subst.:

Results.—The net operating revenue increased 12% over 1919, the increase of 13% in gross earnings from all sources having more than overcome the 13.8% increase in expenses. The net result for the year, after deducting the deficit of $192,621 from operation of the railway, amounted to $1,069,070, an increase of $147,126, or 16% over last year.

Railroad.—The operation of the railwav resulted in a deficit of $192,621 as compared with a deficit of $172,262 for the preceding year. The rate adjustments that followed the passage of the Transportation Act, 1920, were not nearly sufficient to overcome the increase in wages and other expenses accompanied by a serious decrease in business, and the loss from operation of the railway was greater than ever. The railway is preparing certain claims against the U. S. Government for losses resulting from operation of the railway during the war, based on the provisions of the Transportation Act, 1920.

Outlook.—Our earnings from the lease of piers have not as yet been seriously affected by the existing worldwide depression in the steamship business, inasmuch as all piers, with the exception of three that rae retained for transient trade, are leased to responsible steamship concerns.

Special effort has been made to decrease space available for storage by leasing surplus warehouses for commercial purposes, with the result that a somewhat lessened demand for storage space has not greatly reduced earnings.

Depreciation, &c.—The depreciation fund Dec. 31 1920 amounted to $1,274,429, which is invested in Liberty bonds, U. S. Treasury certificates and bonds of the N. Y. Dock Co. Depreciation of $352,675 was charged to expenses during the year and transferred to the depreciation fund, and an additional amount of $196,234 was transferred from surplus.

Old Pier No. 16 has been demolished and new Pier No. 16 completed and turned over to tenants on Oct. 15 1920.

The policy of improving the condition of bulkheads, piers and buildings has been continued throughout the year; such changes being made with a view to permanency so far as practicable.

Taxes.—The assessed valuation of the propertv for the year 1921 has been increased $11,500,000 by the N. Y. City Board of Taxes and Assessments. If this increase in the assessed valuation is maintained, on which the higher tax rate for the year 1921 will apply, the amount of the company's city taxes will be increased nearly $100,000 per annum. An appeal from the assessment has been taken.

c After deducting $450,000 bonds held in treasury.—V. 112, p. 1873.

Mississippi River Power Co., Keokuk, Iowa.

(*Report for Fiscal Year ending Dec.* 31 1920.)

Stone & Webster, Inc., General Manager, says in subst.:

[Regarding the adjustment of the 37½% accumulated dividend on the $6,000,000 Pref. stock through the declaration this week of a stock dividend of 37½% in 6% Cum. Pref. stock, see news item below.]

Results.—Total gross earnings increased 21.8% over 1919. Operating expenses and taxes increased 22.2% as a result of purchase of a small amount of steam relay and increase in the Federal income tax, labor and material generally.

Business Development.—The power zone has shown a large and substantial growth during the past 20 years.

Population of the Communities Served by the Company (Census Figures).

	1900.	1910.	1920.
Principal towns Burlington to St. Louis	873,000	1,019,000	1,123,000

General business conditions throughout the power zone were unusually good during the first 8 months, followed by a decrease in activity in common with the rest of the country. New power business signed during 1920 amounted to 9,550 kilowatts.

The outlook for 1921 in the power zone is satisfactory. There is a steady increase in the demand for electricity from the public utilities served by your company. The present depression is affecting only a few of our industrial customers seriously, and it is expected that conditions will greatly improve during the coming year.

Properties.—The additions may be grouped as follows: Electric power plant, $122,988; electric transmission and distributing system, $130,136; miscellaneous debit, $13,443.

Construction work has been in progress on the new 33,000-volt transmission line from power plant to Fort Madison, about one-half completed.

Financial.—During the year the company sold $648,300 1st M. 5% bonds and with the proceeds together with surplus earnings $750,000 of the $1,500,000 6% debentures were retired and the balance outstanding extended to May 1 1921. Also bank loans were reduced $315,000 and $259,900 1st M. 5% bonds were retired by the sinking fund. The $1,500,000 3-year 6% coupon notes certified in 1919 were not offered for sale and have been canceled.

Decrease in Weight of Debt and Increase in Percentage of Balance, after Charges.

	1914.	1916.	1919.	1920.
Gross earnings	$1,576,469	$1,737,547	$2,321,954	$2,827,964
Total debt per $, gross earns.	15.10	14.00	9.90	7.80
Bal. aft. int. & amort. chges.	211,584	294,954	568,589	981,086
P.C. balance to gross earns.	13.4	17.0	24.5	34.7

Rates.—On May 15 the P. U. Commission of Missouri approved the increase in rates which has been under negotiation with Union Electric Light & Power Co. of St. Louis for nearly two years. As explained in the 1919 report, this increase provides for the payment of $2,500,000 in excess of the amount which would be received from the original rates during the 9-year period ending July 31 1928.

Plant, &c.—The hydro-electric plant, which is located on the Mississippi River at Keokuk about 140 miles north of St. Louis, contains 15 turbines with a generating capacity of 150,000 electrical horse-power, and distributes its energy through five sub-stations. Drainage area 119,800 sq. miles; water storage capacity, 10,400,000,000 cu. ft. Two main transmission lines extend south to St. Louis and north to Burlington, the overhead pole lines aggregating 481.8 miles, viz.: 110,000 voltage, 287.4 miles; 66,000 voltage, 28.7 miles; 33,000 voltage, 38.1 miles; 11,000 voltage, 127.6 miles.

United States Gypsum Co. (of Illinois), Chicago.

(19th Annual Report—Year ending Dec. 31 1920.)

President Sewell L. Avery, April 25 1921, wrote in subst.:

Properties Included.—The following report covers the business of the United States Gypsum Co. and its subsidiaries, the United States Gypsum Co. of Delaware, the Gypsum Fireproofing Co., the Samson Plaster Board Co. and the Canadian Gypsum Co., Ltd.

Results.—Notwithstanding the difficulties of car supply and inadequate labor, which greatly restricted our production, the company's report for 1920 shows a net income for the year of $2,126,767 before deducting the Federal income and excess profits taxes, which are estimated to be $421,567.

The earnings applicable to the Common stock, after paying the 7% dividend on the Prefe rred and also the Federal taxes just mentioned, amount to $1,287,876, or 32.64%. This compares with 17.37% in 1919 and 7.85% in 1918. [The Common stock has recently been receiving dividends of 1% quarterly.]

Additions.—The company has expended $1,807,329 for additional properties and new facilities. The net increase in plant investment, after deducting properties disposed of, was $1,674,419, notably for the acquisition of the extensive Marsh deposits of gypsum adjoining our alabaster properties and a well situated deposit of excellent gypsum with a mill site at Sweetwater, Texas, with less important acquisitions of mineral lands at Amboy, Calif., and Grand Rapids, Mich.

New properties constructed by the company are a Sheetrock wallboard plant at Gypsum, O., now in successful operation, and additions to the Oakfield, N. Y., Sheetrock plant, capacity of which has been doubled. The rapid growth of our wallboard business has required an increase in our paper supply, and a material addition has been made to the company's paper mill in Ohio.

Increases in capacity of practically all the properties of your company have been made during the year, and it is estimated that the expenditures assure a 50% increased output under conditions favorable to continuous operation.

Balance Sheet.—Materials and finished products are carried in the inventory at the lowest justifiable price.

The reserves set aside out of earnings are believed to be adequate to meet any probable losses against the accounts which they protect. The usual and ample reserves for depreciation of plants and depletion of mineral have been provided.

New Process.—A notable achievement of the company's laboratory has been the conception, development and invention of a chemical treatment of plaster in the course of its manufacture which effectually overcomes the rapid deterioration of plaster in storage and adds other qualities of a nature highly desirable to the trade. The product has been successfully produced by one plant for nearly a year, and it is now being shipped from the company's important plaster-producing mills. The company's interests in this process are being protected by United States letters patent.

[In 1920 the company was reincorporated under the laws of Illinois and the authorized Preferred stock was increased from $6,000,000 to $10,000,000. par $100, and the Common from 40,000 shares of $100 each ($4,000,000) to 400,000 shares of $20 each ($8,000,000). the Pref. shares being exchanged share for share for new Preferred and one old Common share of $100 each for five new Common shares of $20 each. On Dec. 31 1920 as shown by the balance sheet the Illinois company had in process of issuance $5,965,500 of its $10,000,000 Preferred and $5,756,400 of its $8,000,000 Common, of which $1,808,396 was then in the treasury.—Ed.]

Jones Brothers Tea Company, Inc.

(Report for Fiscal Year ending Dec. 31 1920.)

The usual comparative statement of income was in the "Chronicle" of April 2, p. 1404, showing sales of $22,743,098, contrasting with $22,231,382 in 1919, $15,832,697 in 1918 and $13,252,059 in 1917. After paying in 1920 $280,000 (7%) in dividends on Preferred stock and $200,000 (2%) on Common stock, a surplus of $15,332 was carried to profit and loss.

GENERAL INVESTMENT NEWS.

RAILROADS, INCLUDING ELECTRIC ROADS.

Geneal Railroad and Electric Railway News.—The following table summarizes recent railroad and electric railway news of a more or less general character, full details concerning which are commonly published on preceding pages under the heading "Current Events and Discussions" (if not in the "Editorial Department"), either in the week the matter becomes public or shortly thereafter.

Car Loadings.—Data for the weeks ended June 4 and June 11 received this week show total loadings of 706,508 and 788,997 cars, respectively, contrasting with 828,907 and 930,976 in 1920 and with 776,610 and 807,205 in 1919. The total of 788,997 is the record for the year to date, contrasting with 787,237 for week of May 28 and with 658,222 for week ended Feb. 26, the minimum for the current year (not 666,642 for April 2 week as previously stated). The total car loading since Jan. 1 1921, it is stated, aggregates 16,356,189 cars, as compared with 18,811,135 in 1920 and 16,670,897 in 1919

Idle Cars.—The surplus on June 8 numbered 389,526, against 393,701 May 30, 422,568 May 23, 507,274 (the peak) April 8 and 256,749 Jan. 8 1921. "Times" June 22, p. 22.

Shriner Convention Creates Heavy Traffic.—32 special trains on Chicago Rock Island & Pacific, & c. "Ry. Age" June 17, p. 1419.

Freight Rates.—In view of the bear raid on stocks on June 22 an apparently authoritative statement was put out in Washington to the effect that "no Government action looking to a wholesale reduction in rates was in contemplation." "Fin. Am." June 22, p. 2.

Conference as to westbound rates; a readjustment with somewhat lower rates on iron and steel, paper and other schedules is proposed. "Times" June 24, p. 24. Compare opposition of local organizations. "Wall St. Journal" June 21, p. 6, and see Southern Pacific Co. below.

Illinois freight rates, the increase in which was suspended by the Illinois P. U. Commission, will, it is stated, remain unchanged till the injunction case is decided. "Fin. Am." June 20, p. 1.

Maximum rates on Atlantic seaboard, it is held, must be adjusted. "Fin. Am." June 22.

Gov. Allen of Kansas asks 7 RR. Presidents to rate conference June 24. "Fin. Am." June 23, p. 1.

Freight rate proposals in Congress. "Ry. Age" June 17, p. 1418.

Rules for Big Four Brotherhoods to Stand Pending Negotiations.—"Times" June 19, p. 15.

U. S. Supreme Court Sustains K. C. So. Ry. in Opposing Assessment for Highway Construction.—"Ry. Age" June 17, p. 1419.

Maintenance Charges During Guaranty Period (Col. W. A. Colston before Accountants' Association).—Idem, p. 1403.

RR. Losses from Colorado Flood Exceed $5,000,000.—Idem, p. 1399 to 1401.

Short Line Associates (consisting of some 500 *RRs. with nearly* 25,000 *miles of road) Establish Consolidated Purchasing Agency.* Idem, p. 1401.

More Fruit and Vegetables Shipped by Rail in Spite of Higher Rates.—To June 4 367,741 carloads, an increase of 58,560 over 1920. Idem, p. 1402.

RRs. Case on Wage Reduction before Labor Board Closed. Idem, p. 1389.

Hearings before Senate Committee. Idem, p. 1395 to 1397.

Wages.—(a) No agreement yet as to overtime, but some roads are said to contemplate replacing the time and a half rate by the straight wage for extra service, allowing the workers who object to appael to the RR. Labor Board. "Wall St. Jour." June 21, p. 10. Pullman Co. must deal with the rail unions. See that company below.

President Harding Said to Favor Expediting Rail Settlements, but the Necessity for a Large Appropriation is said to be an Obstacle to Funding of Entire Amount Due the U. S. as Capital Outlay. "Boston N. B." June 23, p. 5; June 20, p. 11.

Labor Again Urges Government Ownership of RRs.—The Am. Fed. of Labor in convention at Denver on June 22, sustaining the action of the committee in striking out the declaration in favor of Government control and democratic operation of "all industries organized under corporate grants and privileges," reaffirmed its stand for Government ownership with democratic operation of the railroads, and directed its executive council to draw up proposed legislation designed to give the workers through Government regulation, equal rights and privileges with capital in organized enterprises. "Times" June 23, p. 3; June 20, p. 15; June 18, p. 7. Efforts to depose Samuel Gompers. "Post" June 21, p. 2. John Lewis wishes to succeed to Presidency of Am. Fed. of Labor.

No. of RR. Employees, &c.—I.-S. C. Commission reports (a) the compensation paid to RR. employees for first quarter of 1921 as $757,325,356, compared with $795,616,330 in 1920; decrease $38,290,974, or 4.81%; (b) number employed, 1,804,822 Jan. 15 1921; 1,593,068 March 15; (c) percentage decrease in number employed in January compared with same month 1920, 9.76%; Feb., 14.92%; March, 20.74%. Compare also "Ry. Age" June 17, p. 1380, as to employees of 175 Class 1 roads.

Matters Covered in "Chronicle" of June 18.—(a) Return of American Dollar Securities by British Treasury, p. 2591; compare V. 112, p. 2248, 1684, 1463, 514; V. 111, p. 2371, 1801, 743, 243. (b) Railroad situation (Lewis G. Harriman), p. 2594. (c) Wage reductions planned by Brooklyn and Interborough Rapid Transit Cos., p. 2601 and 2641, 2642. (d) Board of Engineers appointed by security holders to study railroad economics, p. 2602.

Barcelona Traction Lt. & Power Co.—*Interest.*—

Holders of the 5½% 1st M. bonds are informed that under the terms of the bondholders' agreement of Dec. 1918, it was arranged that as from June 1

1921, the int. on the 1st M. bonds should be increased from 2 to 4% p. a. This provision was made on the assumption that the operating companies would, from 1918 onwards, be able to carry on under normal and improving conditions. This expectation, however, has not been realized and the directors and the bondholders committee consider it their duty to issue a warning note that, although the receipts of the operating companies have shown considerable increase, it is possible that the net revenue of the Company may not justify payment of the int. at the increased rate on Dec. 1 next. See V. 112, p. 2189.

Boston & Maine RR.—*Seeks Government Loan.*—
The company has applied to the I. S. C. Commission for a Government loan of $3,049,000 for 15 years for the purpose of paying off $1,775,000 Fitchburg RR. 3½% bonds due Oct. 1 1921, $1,000,000 of Boston & Maine RR. 3½% bonds due Nov. 1 1921, and $274,000 of Manchester & Lawrence 4% bonds due Jan. 1 1922.—V. 112, p. 2641.

Broadway & 7th Ave. RR., N. Y. City.—*Committee.*—
A protective committee has been formed to protect the holders of the $8,150,000 1st Consolidated Mtge. 5% gold bonds due Dec. 1 1943. Holders are asked to deposit their bonds with the Metropolitan Trust Co., New York, depositary.
The committee consists of Harold B. Thorne, Vice-Pres. Metropolitan Trust Co., Chairman; C. W. Benson, V.-Pres. United States Trust Co., Paterson, N. J., Frank Coenen of Pouch & Co., and Robert K. Prentice of Globe & Rutgers Fire Insurance Co.—V. 111, p. 1851.

Brooklyn Rapid Transit Co.—*To Reopen Ocean Av. Line.*
Service on the Ocean Ave. trolley line between Bergen St. and Sheepshead Bay which has been closed down for almost a year, will be reopened June 25. The Transit Commission has given its permission to the Nassau Electric RR., operator of the line, to file a tariff which will have the effect of reopening the line between the points named.
The Nassau Company notified the Commission that residents of the section affected had petitioned Receiver Garrison to provide the service and were willing to accept this service with the understanding that transfers would not be issued to or required from connecting or intersecting lines. In addition the petitioners agreed to contribute $2,000 toward the cost of putting the tracks in operating condition.
The receiver believes the revenue from operation will at least pay operating expenses during the period from June 25 to Sept. 1 but receiver reserves the right to discontinue the service upon 10 days' notice.

Wage Reductions Planned.
See "Chronicle" p. 2601.—V. 112, p. 2641.

Buffalo & Lake Erie Traction Co.—*Wages.*—
A board of arbitrators recently decided to reduce the wages of the men 16 2-3%.—V. 112, p. 743.

Central RR. of New Jersey.—*Special Dividend.*
A special dividend of 2% has been declared on the capital stock, payable June 30 to holders of record June 25, together with the regular quart. div. of 2%, payable Aug. 1 to holders of record July 20. Special dividends at the rate of 4% per ann. (J. & D.) have been paid from Dec. 1899 to June 1920, incl. The Dec. 1920 payment was deferred until Feb. 25 1921, owing to the fact that the company was enjoined from receiving its part of the coal company dividend by decree of the Federal court in the so-called Reading Trust suit.—See V. 112, p. 743; V. 112, 2641, 2536.

Central RR. of S. C.—*New Bond Issue.*—
The I. S. C. Commission has authorized the company to issue and to exchange or sell at par and int. $300,000 serial 6% Refunding bonds, dated July 1 1921, and maturing serially July 1 1922, to July 1 1976, both incl., to retire a like amount of 1st mtge. 6% gold bonds maturing July 1 1921. The company is operating under lease by Atlantic Coast Line RR.—See V. 112, p. 2536, 2082.

Chicago & Eastern Illinois RR.—*Abandon Coal Line.*—
Abandonment of the operation of the Chicago & Indiana Coal Ry. division is proposed by Redmond D. Stephens, co-receiver, in a petition filed with the I.-S. C. Commission. Insufficient traffic and exclusion of the division from the reorganized company, Mr. Stephens said, makes operation of the division physically impossible because of lack of funds, necessary credit, equipment and facilities.
The Division which it is proposed to abandon extends from a point near Morocco, Ind., to Brazil, Ind., and from Percy Jct., Ind., to La Crosse, Ind.
The Commission has extended from June 30 1921 to Jan. 1 1922 the time within which the company may issue bonds, preferred stock and common stock and to pledge bonds as security for a Government loan, under previous authority given by the Commission.—V. 112, p. 2082.

Chicago Indianapolis & Louisville RR.—*Bonds.*—
The I. S. C. Commission has authorized the company to pledge and repledge, from time to time, all or any part of $3,493,000 1st & Gen. Mtge. 5% bonds, series A, as collateral security for any note or notes which may be issued without authorization of the Commission.—V. 112, p. 1518.

Chicago North Shore & Milwaukee RR.—*Bonds.*—
The company has applied to the Illinois P. U. Commission for authority to issue $500,000 7% secured sinking fund gold bonds and $98,400 of 1st mortgage bonds.
It is believed that part of the proceeds of this issue will be used to take care of the $260,000 serial notes which matured and were paid off June 15 last. The balance, it is believed, will be used for capital expenditures. Announcement of the financing is expected shortly.—V. 112, p. 2642.

Chicago Terre Haute & S. E. Ry.—*Valuation—Notes.*—
A supplemental tentative valuation and final value has been placed upon the road by the I.-S. C. Commission. The Commission's revaluation of the carrier's lands, in accordance with the Supreme Court's decision in the Kansas City Southern case, raises their assigned value from $1,017,415 to only $1,053,557, but the final value of the entire property, now stated to be $20,502,223 considerably exceeds the depreciated value found in an earlier tentative valuation, which was $17,561,158.
The I.-S. C. Commission has authorized the company to issue 7% promissory notes of various amounts and maturities aggregating $837,000 payable serially from Oct. 1 1921 to Oct. 1 1925, to refund the amount remaining unpaid of 7% demand notes now outstanding, and to pledge as collateral security for the notes all or part of its 1st & Ref. Mtge. 5% gold bonds aggregating $1,485,000. The Commission has also authorized the company to pledge all or part of $180,000 1st & Ref. 5s of 1960 now held in treasury as collateral security for its $100,000 7% demand note in favor of First National Bank of Chicago.
Control of the road has recently been acquired by Chicago Milwaukee & St. Paul.—V. 112, p. 2189.

Chicago Utilities Co.—*Foreclosure Sale.*—
The United States Mortgage & Trust Co., trustee, gives notice that the sale of the assets of the company pledged under its indenture dated June 1 1912 will take place July 15 at the Exchange Salesroom, 14-16 Vesey St. No bid of less than $750,000 will be accepted. The following is a description of the property to be sold:
(1) 1,000 shares, par $100, capital stock Chicago Tunnel Co.
(2) 1,000 shares, par $100, capital stock Chicago Warehouse & Terminal Co.
(3) 50 shares, par $100, capital stock Illinois Tel. & Tel. Co.
(4) $23,913,081 Secured 6% Demand Notes of Chicago Tunnel Co. and which are secured by mortgage dated 1912, made by said company to Central Trust Co. of Ill., trustee, upon all the property, &c., of Chicago Tunnel Co.
(5) $6,293,343 Secured 6% Demand Notes of Chicago Warehouse & Terminal Co. which are secured by mortgage to Central Trust Co. of Ill., trustee, upon all the property, &c., of Chicago Warehouse & Terminal Co.
(6) All the right, title and interest of the Chicago Utilities Co. in and to the real and other fixed property of every kind and nature of the foregoing companies.
(7) All the estate, right, title and interest, property, possesssions, &c., owned by Chicago Utilities Co.—V. 111, p. 1143.

Cincinnati (O.) Traction Co.—*Franchise Modified, &c.*
Mayor Galvin of Cincinnati has signed an ordinance modifying the existing franchise. The franchise as modified provides that the city tax, which is not payable until it is earned and which has not been earned for 1920, nor for the 6 months of this year, is not to be considered a deficit, nor is the amount due the reserve fund to be so considered.
The tax is not to be counted as due until after Jan. 1 1922, when it is to be paid in quarterly installments until fares have been reduced to 7½ cents.
The ordinance provides that unless the operating costs for the months of May and June will permit the company to reduce the fare ½ cent on Aug. 1, it shall become inoperative and the old franchise again will be in full force and effect. Further, if there is not a reduction of an additional ½ cent Nov. 1 then also the ordinance is to be without effect.
Another provision of the ordinance is that the rate of fare for children between the ages of 10 and 18 years attending school are to be carried to and from school on a five-cent ticket under regulations to be made by the Street RR. Director and the company.
Two suits seeking a total of $525,000 from the company and the Cincinnati St. Ry. for franchise tax, were filed in the Common Pleas Court by Robert S. Alcorn, as a taxpayer. Both actions are identical in nature, but one demands $350,000 for the tax alleged to have been due and unpaid in 1920 and the other demands $195,000 alleged to have become due April 15 last.—V. 112, p. 2413.

Cleveland Painesville & Eastern RR.—*Wages.*—
The trainmen have accepted the decision of a board of arbitration reducing their wages from 55, 58 and 60 cents an hour to 43, 45 and 48 cents an hour, according to the length of time in service.
Trainmen of the Cleveland Southwestern & Columbus Ry. have also accepted the same reduction in wages.—V. 109, p. 676.

Cleve. Southwestern & Columbus Ry.—*Wage Reduction*
See Cleveland Painesville & Eastern RR. above.—V. 112, p. 1865.

Columbus Delaware & Marion Electric Co.—*New Bond Issue, &c.*—
The company on May 17 recorded at Marion, O., a new General Mtge. for $1,822,000 8% bonds covering all the property owned by the company. Bonds to the amount of $500,000 are to be issued immediately.
The mortgage securing the First & Ref. Mtge. 5% Gold Bonds, due 1937, is closed so far as additional bonds in the hands of the public are concerned, as no bonds can be issued except as they may be deposited as security for the new General Mortgage or issued for the purpose of refunding the present Divisional Bonds which are now outstanding.
Certain percentages of the Columbus Delaware & Marion Electric RR. bonds due May 1 last have already been exchanged, either for 1st & Ref. Mtge. 5% Gold Bonds, due 1937, or for 5-Year 7% Gold Notes of Columbus, Delaware & Marion Electric Company.
At present company is paying dividends on a total of $2,200,000 par value of Preferred and Common stocks, and earning over double its total bond interest.—V. 111, p. 1471.

Community Traction Co.—*May Deficit.*—
The net deficit from operation in May amounted to $56,371 and the total deficit for the four months operation amounts to $260,672.
Owing to the reduction in wages of 10 cents an hour over last year's scale to 45, 47 and 50 cents an hour, it is expected that operations for June will make a better showing.—V. 112, p. 2642.

Connecticut Co.—*Legislation for Relief of Trollies.*—
The 1921 session of the Connecticut General Assembly enacted several relief measures for trolley companies operating within the State. The principal being (*a*) relief from the burdensome requirements of bridge construction and pavement costs levied on the trolley companies; (*b*) rigid regulations of jitney buses and (*c*) the granting of permission to electric railways to operate motor bus lines as connecting links or feeders.
Paving requirements were covered in the passage of a bill by which companies were required to pave 8 in. on each side of the rails, making 32 in. for a single track and twice that amount for a double track. The demands heretofore have been 8 ft. 8 in. over all for single track and 19 ft. for double.
By another act the highway commissioner is empowered to determine what amount electric railways shall pay toward bridge construction. Formerly one-third of the cost of construction had been levied on bridges located in towns, and an indefinite contribution toward the cost of those in cities, the sum to be determined by conference and agreement.
On the subject of taxation two important measures were passed. The first reduces the State tax levied on electric railways from 4½% of gross earnings to 3% of gross. The second taxation bill enacted is designed to enable the electric railways to clean up their back taxes within six years after July 1 1922. Interest will be charged during these years at the rate o 4½% and after that date at the rate of 8%.
A similar arrangement of interest charges was provided in a bill covering the Connecticut Co.'s indebtedness of $500,000 to the State for the cost of the Washington bridge between Milford and Stratford. These measures are expected to go a long way toward re-establishment of Connecticut street railways on a dividend basis. See also V. 112, p. 2642.

Cuba RR.—*New Director.*—
William H. Woodin, President of the American Car & Foundry Co., has been elected a director, thereby increasing the board from 10 to 11 members.—V. 112, p. 1024, 257.

Denver & Rio Grande RR.—*Chairman Resigns.*—
B. B. Odell, who has resigned as chairman of the stockholders' committee because of pressing business obligations, has declared that the action of the committee for the restoration of the property of the stockholders "is most worthy and should be prosecuted to the fullest extent."—V. 112, p. 2076, 2082, 2190, 2299, 2305.

Detroit United Ry.—*New Interurban Rate Bill.*—
Governor Groesbeck of Michigan having affixed his signature, the new interurban railway rate bill, passed at the last session of the Michigan State legislature, will become effective within the next three months. Under the Act the Michigan P. U. Commission is given power to regulate the rates not in excess of 3 cents a mile with a minimum trip fare of 5 cents.
The City of Detroit is willing to pay $1,339,998 for the 8 D. U. R. lines which the people have voted to purchase. As this figure is $261,000 less than the sum the company alleges the property is worth, it is likely the matter will be settled by arbitration. The company announces that with the issue of June 17 the "Electric Railway Service" a bulletin published by the company, suspends publication.—V. 112, p. 2642.

Eastern Massachusetts Street Ry.—*July 1 Interest.*—
The company will pay the July 1 interest on the Refunding Mtge. bonds, Series A and B. The interest due Jan. 1 1921 and July 1 1920 on these bonds was deferred under the provision of the mortgage permitting the company to postpone the interest if earnings were insufficient to cover it. See V. 112, p. 2083, 2190, 2536.

Eighth Ave. RR.—*To Consider Needs, &c.*—
The stockholders will meet July 13, to consider the financial condition o the company, the payment or refunding of outstanding obligations and to provide for future needs; the sale of any part of its real property; the issuance and sale of notes or bonds secured by mortgage of its property and franchise; and to vote on such resolutions as may be proposed to provide for the company's future financial needs.—V. 112, p. 2413.

Great Northern Ry.—*Regular Dividend.*—
The regular quarterly dividend of 1¾% has been declared on the Pref. stock, payable Aug. 1 to holders of record July 2. Company has been paying dividends at the rate of 7% per annum on its Pref. stock, since 1899.—V. 112, p. 1866, 1519.

Hartford & Springfield Street Ry.—*Status—Payment of $600,000 1st M. 5s Due July 1 Deferred Pending Re-org.*—
The bondholders' committee named below submits a statement from the receiver dated June 10 and says in brief:
This voluntary committee, formed in Sept. 1918, individually own or represent nearly one-fifth of the $600,000 Hartford & Springfield 1st M. 5s.
The enclosed letter from the receiver shows that he is at the present time borrowing no money and that the road is in much improved physical condition.
Several laws have been passed that will materially help the street railway situation in this State, particularly a reduction of the tax rate from 4½% to 3% of the gross earnings, and a provision by which the amount of paving which the street railway companies will have to pay is reduced from 8½ feet to 2 feet 8 inches.
The committee feels that in any reorganization no new issue of securities can be made to look attractive until the costs of operation are substantially reduced. We urge, therefore, the continuation of the receivership, and that bondholders do not send in their bonds on July 1 for collection, as

there is no money available for their payment. The committee will prepare a deposit agreement and ask for a deposit of bonds as soon as in their judgment the best interests of the bondholders require definite action.

[Signed: F. R. Cooley, Hartford, Conn., Chairman; A. A. Montgomery, Portland, Me.; F. J. Kingsbury, New Haven, Conn.]

Condensed Statement by Receiver Harrison B. Freeman, Hartford Conn., June 10 1921.

Operating Results During Receivership from Oct. 1 1918 *to May* 1 1921, 31 *Mos.*

Hart.&Spring.Div.	*GrossRec.*	*Op.Exp.*	*Hartford Div.*	*GrossRec.*	*Op.Exp.*

Oct. 1919-1920	255,140	265,131	1920-May 1 '21	$152,450	$130,422
7 mos. to May 1 '21	151,301	157,984	Tot. sys., 31 mos.	$804,566	$789,479

The Hartford & Springfield Division comprises all the lines formerly operated plus 4.7 miles in Suffield owned by the N. Y. N. H. & H. RR. Co. The Hartford Division figures show the results of operating our cars under a new contract entered into with the Connecticut Company on July 1 1920, from East Windsor Hill to Hartford and from Windsor Center to Hartford.

When the company went into receiver's hands it owed over $50,000 in open accounts and had failed to pay the interest upon its bonds. The first three months thereafter showed a falling off of about 20% in the gross earnings, due to the influenza epidemic, and the winter of 1920 was so severe that it caused the shutting down of a considerable portion of the system.

In spite of adverse circumstances it has been possible to keep the whole system in operation except for this short period during the winter of 1920. To do so it was necessary to borrow money, as the road during the first two winters did not earn sufficient to pay its operating expenses. All the notes of the receiver have been paid up, however, and there are now no loans, notes or certificates of the receiver outstanding and all bills incurred by the receiver up to June 1 are paid.

The receiver has been compelled to spend considerable money for replacing worn out equipment and about $15,000 has been spent in putting the power station in good condition. Two second-hand cars have been purchased for $6,400. Over $20,000 has been spent in the last two years in new trucks and parts for the cars, all of which has been charged to and paid for out of operating expenses. It is planned to spend a considerable amount upon the tracks and trestles during this season. It has been necessary to increase wages about 50% since the receiver was appointed.

On April 1 1920 the Hartford & Springfield went upon a flat 10-cent fare for each zone in place of the previous 7-cent fare. At first this increased the gross receipts considerably, but during the summer of 1920 receipts fell off due to certain causes over which the road had no control, and since the industrial depression set in they have been running about the same as last year.

At the time the receiver was appointed, State taxes and assessments for highway improvements amounted to $59,650, none of which have been paid; taxes aggregating $29,653 have accrued from Oct. 1 1918 to Jan. 1 1921.

In any reorganization some provision must be made for these taxes and such claims as may be decided by the Superior Court to be preferred.

The Rockville Division (Rockville Broad Brook & East Windsor Street Ry.) has average earnings at the present time of about $100 a day, which are not sufficient to pay operating expenses, maintenance and taxes. This division has not earned the interest upon its bonds for many years. The Hartford & Springfield Street Ry. Co. guaranteed and paid this interest, but as the latter has not earned nor paid the interest on its own 1st M. bonds its guaranty of the bonds is now of no value.

As to the future of the Hartford & Springfield system I feel fairly optimistic and believe that this street railway can be made to earn its operating expenses, taxes, and something to apply on bond interest as soon as the industrial depression has passed and there has been a readjustment so that operating expenses can be reduced.—V. 111, p. 895.

Indianapolis Street Ry.—*Surrenders Franchise.*—

The company has formally notified the Indiana P. S. Commission that ts franchise has been surrendered to the City of Indianapolis in accordance with the act passed at the 1921 session of the Indiana Legislature which permits public utility companies to surrender their franchises for indeterminate permits. See also Annual Report in V. 112, p. 2637.

Interborough Rapid Transit Co.—*Wage Reductions.*

See "Chronicle," p. 2601.—V. 112, p. 2642.

International Ry. (Buffalo).—*To Return Bonds, &c.*—

The committee for the Refunding & Improvement 5% bonds of 1962, Charles W. Beall, Chairman, in a notice to the holders of certificates of deposit says:

In view of the generally improved status of the company, particularly with respect to earnings, the committee, in response to the request of a number of its depositors, has decided to release the bonds deposited under the agreement of Nov. 18 1918, and return them to the holders of certificates of deposit issued therefor by the Bankers Trust Co., depositary.

The committee is making no charge for its won services, and the investment houses named below, although not obligated to do so, have agreed to pay the larger part of the necessary expenses of the committee. The remainder is to be borne by the depositors at the rate of only $1 per $1,000 of bonds deposited.

The holders of certificates of deposit should forward their certificates to Bankers Trust Co., depositary, 16 Wall St., New York, accompanied by payment at rate of $1 for each $1,000 of deposited bonds. The appropriate amount of deposited bonds will be returned, carrying the int. maturing Nov. 1 1921 and thereafter.

Committee.—Charles W. Beall, Chairman, Harris, Forbes & Co., N. Y.; Francis E. Frothingham, Coffin & Burr, Inc., Boston and N. Y.; Arthur Perry, Arthur Perry & Co., Boston; Richard B. Young, E. H. Rollins & Sons, N. Y.—V. 112, p. 2537.

Kansas City Southern Ry.—*Annual Report—Dividend.*

For Annual Report see under "Financial Reports" above and "Reports and Documents" on subsequent pages.

In connection with the regular quarterly dividend of 1% on Pref. stock, declared June 21 and payable July 15 to holders of record June 30, the company states that the payment will be made out of current earnings.

The May statement shows net after taxes for the month, $387,379; net after taxes for the five months ending May 31 were $2,054,958. See "Railway Earnings Dept." on a preceding page.—V. 112, p. 2190.

Lancaster & Chester Ry.—*To Extend Bonds.*—

Arrangements have been made whereby the present $135,000 5% bonds due July 1 will be renewed and carried by the present holders.—V. 96, p. 1089.

Leavenworth & Topeka RR.—*Bond Application.*—

The company has applied to the Kansas P. U. Commission for permission to issue $80,000 7% 10-year bonds of which $50,000 would be used to retire debt. The road also may attempt to build its own track into Topeka from Meriden. It now owns track only from Leavenworth to Meriden.—V. 109, p. 2263.

Lehigh Valley RR.—*Decisions—Further Extens. Granted.*

The U. S. Supreme Court on June 6 refused to review decisions of New York courts holding the company liable for damages resulting to certain freight shipments in the Black Tom explosion on July 29-30 1916. Suits aggregating $10,000,000 have been filed or are pending as a result of the disaster, when cars carrying barges loaded with munitions exploded.

The appeal brought by the Lehigh Valley was from a decision in favor of John Lysaght, Ltd., a British corporation, and was considered somewhat in the light of a test case, although other similar suits have been variously decided.

The New Jersey Supreme Court has sustained a Hudson County trial court's judgment in favor of the company dependent in actions resulting from the "Black Tom" explosion of July 1916, brought by the King of England, the Aetna Explosives Co. and the Republic of France.

Under the trial court's decision France received $122,566 out of $1,150,037 sued for. The King of England sued for $3,066,228 and the Aetna Explosives Co. for $417,092. They received nothing from the trial court.

The Supreme Court stated in effect that while the Lehigh Valley could have been responsible, and was so held, for damage to stores on its own dock, resulting from the company's negligence, damage resulting from negligence on the part of the Central RR. of New Jersey, should not be paid by the Lehigh Valley Co.

Judge Charles M. Hough, in the U. S. District Court, June 22, issued an order granting the company an additional 30-days (until July 24) in which to complete the plan for the segregation of its coal properties. This is the second extension of time secured by the company.—V. 112, p. 2305.

Liberty White RR.—*Receiver—To be Scrapped.*—

This road which runs from Tylertown to Liberty, Miss., about 48 miles, has been placed in charge of Kenneth G. Price of McComb, Miss., as receiver. The receiver, it is reported, has been ordered to discontinue operation and to sell equipment, rails, &c., for benefit of creditors.—V. 99, p. 1451.

Little Schuylkill Nav. RR. & Coal Co.—*Div. Cut.*—

A semi-annual dividend of 2% has been declared on the outstanding $2,487,850 capital stock, par $50, payable July 15 to holders of record June 20. The company, up to and incl. Jan. last, paid quarterly dividends of 1¼% each.—V. 106, p. 189.

Louisiana & Northwest Ry.—*To Extend Debts, &c.*—

Federal Judge G. W. Jack has ordered E. R. Bernstein, receiver to appear in the Federal Court at Shreveport, La., June 24 and show cause, if any, why the time of payment of $210,000 claimed to have been loaned the company by Liberty Central Trust Co., St. Louis, petitioner in the suit on which the order is issued, should not be extended 90 days, provided accrued interest is paid on the loan or why $239,000 receivers' certificates accepted as security by the plaintiff company when George W. Hunter was receiver, should not be sold and the proceeds applied to the liquidation of the debt.—V. 109, p. 1273.

Louisville & Nashville RR.—*To Increase Capital—Stock Dividend Proposed—First & Refunding Mortgage.*—

The stockholders will vote July 23 (1) on increasing the capital stock from $72,000,000 to $125,000,000 and approving the issuance to the stockholders ratably as a stock dividend of so much of the $53,000,000 increase as the I.-S. C. Commission shall authorize to be so issued. (2) on taking such further action, if any, as may be considered advisable in connection with the authorization, execution and issuance of the proposed First & Ref. Mtge. and bonds adopted at the annual meeting April 6 1921.

Data from Letter of President W. L. Mapother, June 20.

At the annual meeting April 6 a First & Ref. Mtge. for the purpose of retiring existing bonds and other debt of this company and for other purposes was authorized, and will involve an ultimate issue of bonds in excess of the company's present debt.

The most liberal and secure basis of such mortgages by the large systems of railroads needing large amounts for construction of extensions, for additions and betterments and to provide for refunding future maturities of existing bond issues, is to insert a condition that at no time shall the amount of bonds issued under such mortgage exceed at par three times the par value of the stock issued and outstanding. This happens to be almost the exact present ratio of the company's funded debt to its present capital stock—a ratio which the proposed new mortgage will necessarily disturb.

The obvious remedy is to increase the capital stock, for if the company is to maintain its present standard of excellence and to go forward in the development of the vast tonnage of the future it must be placed in a position to offer the public investment securities which will be approved and recommended by the most conservative bankers.

For these reasons, and in order to provide for future expansions, the management decided to recommend that the authorized capital stock be increased from 720,000 shares to 1,250,000 shares of par $100 each.

Having reached this conclusion, the question arose as to whether the additional stock should be sold or distributed to the stockholders as a stock dividend. As bearing upon this question, the records of the company disclose the following facts:

The company's surplus as of Dec. 31 1920 stands at $82,985,890, and all discounts from the sale of bonds since 1902, aggregating approximately $7,000,000, have been charged off to profit and loss. The annual amounts of surplus earned closed into profit and loss account, less dividends paid, aggregate (speaking in round numbers) about $96,000,000. This does not include the items of depreciation of equipment (which stands on the books at $30,900,097), and of depreciation of certain items of roadway (which stands on the books at $13,796,051).

In view of the foregoing facts, showing that the proposed increase of stock represents the previous earnings of the company (and merely a part of them) which were used to increase the property investment instead of being distributed in dividends, the management has decided it to be right and proper that there be issued to the stockholders ratably as a stock dividend so much of the $53,000,000 increase of capital stock as the I.-S. C. Commission shall authorize to be so issued.—V. 112, p. 2642.

Marshall & East Texas Ry.—*Application Dismissed.*—

The I. S. C. Commission has affirmed its decision of April 1 last in dismissing the company's appli ation for permission to dismantle a portion of its road, the Commission holding that it had no jurisdiction in the matter.—See V. 112, p. 1740.

Meadville Conneaut Lake & Linesville RR.—

The $200,000 5% bonds due July 1 will be paid off at maturity at office of Merchants Nat'l Bank, Meadville, Pa.—V. 96, p. 790.

Mexico Tramways.—*Plan, &c.*—

See Mexican Light & Power Co. under Industrials below and compare "Financial Reports" above.—V. 112, p. 2642.

Missouri-Illinois RR.—*Operation.*—

The company on June 1 opened its entire line for business. The company is successor to Illinois Southern, and the line extends from Salem, Ill., southwest to Kellogg, and from St. Genevieve, Mo., southwest to Bismarck, a distance of 127 miles, with a branch from Collins, Ill., south to Chester, 11 miles.—V. 112, p. 2414.

Missouri Kansas & Texas Ry.—*Progress—Improvements.*

Samuel O. Dunn, Editor of the "Railway Age," has a 4-page article (Part I) on the "Progress of Missouri Kansas & Texas Ry. Lines since 1913."

According to reports from Dallas improvements costing up to $6,000,000 are being contemplated by the M. K. & T. Ry. of Texas. Funds to carry out this program, it is stated, will probably be raised through the issuance of $6,095,897 receiver's certificates.—V. 112, p. 2643.

New York Central RR.—*Decision in Old Suit.*—

In the old standing suit by stockholders to enjoin consolidation of Lake Shore and New York Central the Circuit Court of Appeals holds that section 4 of the Anti-Trust Act limits suits to enjoin violations to those brought by the Government, and does not authorize a stockholder to maintain a suit to restrain his corporation from consolidating with another on the ground that it would be an illegal combination under the Act.—V. 112, p. 2537.

N. Y. Chicago & St. Louis Ry.—*First Pref. Dividend.*—

A dividend of 5% [not 2½%, as previously reported] has been declared on the $5,000,000 First Pref. stock, payable July 2 to holders of record June 20. On July 12 1920 a payment of 5%, supposed to cover the total dividends for the year 1920, was made (see V. 110, p. 2658).—V. 112, p. 2191, 2537.

New York New Haven & Hartford RR.—*July 1 Int. to be Met.*—Pres. E. J. Pearson, replying to a report that the New Haven was going to default on the Debenture bond interest July 1, says:

The affairs of the New Haven show improvement. Revenues during the month of June have increased. Expenses have decreased owing to the decreased cost of coal and materials. After July 1 labor costs will be still less. The divisions case is yet to be heard from. There is no doubt in the minds of the management that the New Haven will meet its interest, rentals, and other fixed charges on July 1.

Cash Position—Decision Near on Rate Divisions.—The Boston "News Bureau" June 20 said:

There are no new developments of an unfavorable nature to account for the selling of New Haven stock, carrying it down to a new low record at 13⅛. On the contrary, there are pending events which should inspire confidence. Even in March, when there were rumors of receivership afloat, the stock did not sell below 14¾ and in 1920 it did not sell under 15½.

Possibly the approach of July 1, when New Haven has the largest interest payments to meet of any month in the year, is causing uneasiness. Interest payments on that date total $2,321,970. There need be no cause for concern. New Haven is meeting all its bills and is in position to take care of the July obligations [see President's statement].

After July there are no very large interest payments until Nov. Interest charges over remaining months of 1921, including serial payments due under equipment trusts, are as follows:

July	$2,321,970	Sept.	$405,506	Nov.	$1,478,110
August	94,933	October	839,312	December	201,795

According to the balance sheet as of March 31 last, as filed with the Massachusetts P. S. Comm., New Haven had cash on hand of $6,414,499.

A development of greatest significance not only to New Haven, but the other New England roads, is likely within a short time, namely, a decision in the rate divisions matter now before the I.-S. C. Commission. It is confidently expected in some well-informed quarters that the New England roads will get not less than $15,000,000 out of this, and possibly more. New Haven will probably get about 65% of what is decided upon.

In conclusion, it is well to remember that a wage reduction will go into effect July 1, through which New Haven will save $6,000,000 to $8,000,000. —V. 112, p. 2537, 2414.

New York Rys.—*Negotiations for Wage Reduction.*—

Receiver Job E. Hedges says: "Anent the general subject of wages in the New York Railways, I have taken up the matter with the proper officers of the brotherhood for their consideration. The relation of the brotherhood railways and the receiver have always been frank and open, and I believe all questions will be met with a desire for fairness and justice.—V. 112, p. 2643.

New York State Rys.—*Wage Cut.*—

A reduction of 11.7% in wages (from 60 to 53 cents an hour) has been decreed for motormen and conductors employed by the company in Rochester, Syracuse and Utica by the Board of Arbitration. The rate for shopmen and miscellaneous employees is reduced 12½%, and that for watchmen, car cleaners, &c., 15%.—V. 112, p. 1866.

Ocean Shore RR., Calif.—*Abandonment.*—

The I.-S. Commerce Commission has issued a certificate authorizing the abandonment of a line of road in California extending from San Francisco to Tunitas Glen, in San Mateo County, and a second line extending from Santa Cruz to Swanton, Santa Cruz County.

Gross revenues have never equalled operating expenses, and a deficit, amounting to $407,848 at the close of 1920, has been met by assessments on the outstanding stock aggregating $29 per share. Traffic has diminished progressively, chiefly because of increasing competition by motor vehicles.—V. 111, p. 2041.

Ohio Electric Ry.—*Would Surrender Leases.*—

Receiver B. J. Jones has brought suit in the Federal Court at Toledo, to surrender the leases of (*a*) Indiana Columbus & Eastern Traction Co.; (*b*) Columbus, Newark & Zanesville Traction Co.; and (*c*) Ft. Wayne, Van Wert & Lima Traction Co.

The petition filed by Mr. Jones recites that the roads are not paying sufficient revenue to pay operating expenses, meet the interest on bonds and pay the rent required under the terms of the leases. All roads are being operated by different receivers.—V. 112, p. 1025.

Patterson & Western RR. (Calif.)—*Abandonment.*—

The I. S. C. Commission has authorized the abandonment of the company's line of road extending from Patterson to Jones Station, Stanislaus County, Calif. 23.6 miles. The line is a narrow gauge road built in 1916 by Mineral Products Co. (which owns the entire capital stock) for the purpose of affording access to its mineral deposits, which were then supposed to be valuable bu' later found to be erroneous, and the idea of developing the deposits was abandoned. No passenger service was ever rendered.

Pennsylvania Co.—*No. P. C. C. & St. L. Div.—Bonds.*—

See that company below.

The $17,793,000 4½% bonds due July 1 will be paid off at maturity at agency of company, 85 Cedar St., New York, or Broad St. Station, Philadelphia.—V. 112, p. 2414.

Pennsylvania RR.—*Officers' Salaries Cut.*—

The directors at a meeting June 23 adopted a resolution by which the salaries of officers will be reduced on July 1 to conform to the reductions in wages ordered by the U. S. Railroad Labor Board, also effective on July 1. —V. 112, p. 2643.

Philadelphia Company.—*Bonds Stricken from List.*—

The Phila. Stock Exchange on June 18 struck off the regular list $336,000 Consol. Mtge. and Coll. Trust 5% bonds, due Nov. 1 1951, leaving the amount listed $12,612,000.—V. 112, p. 2410, 2306.

Philadelphia Rapid Transit Co.—*Net Income for Year 1921 Estimated at $2,000,000, but Necessary Additions, &c., Will Absorb the Entire Amount Leaving Nothing for Dividends —No Securities Available for Capitalizing the Additions.*—J. E. Mitten, Chairman of Executive Committee, in statement dated at Philadelphia, June 20, outlines the policy and program for the year 1921 substantially as follows:

The policy of this management as stated at their annual meeting last March, requires that the property shall be improved from the run-down war time condition so that it may function more efficiently and that this be accomplished before resuming payment of P. R. T. dividends.

Passenger Traffic.—913,870,643 passengers were carried during 1920, which is an increase of 468,271,455 over the 445,599,008 passengers carried during 1910. An average increase for each of the ten years 1911-1920, to have been 46,827,145 passengers per year.

P. R. T. System during the past 5 months has not only suffered the loss of this normal increase, which approximates 4,000,000 passengers per month, but has actually carried 24,401,705 less passengers than were carried during the same months of 1920.

During May 74,908,021 passengers were carried, as against 83,378,689 in May 1920, or approximately 10% less. If this condition continues, 10% better service can be supplied to the public with the same number of cars as were in operation last winter.

The present shortage of car equipment, caused by the number of cars required in shops for general overhauling and the equipping of 300 near-side cars with center exits, will be overcome when the work on these cars is completed and they are returned to service, all of which will be accomplished prior to the time of heaviest winter traffic.

Earnings.—Passenger earnings for the first five months of 1921 and 1920, compare as follows:

	1921.	1920.	Inc. %
January	$3,552,152	$2,987,814	18.89
February	3,140,821	2,643,357	18.82
March	3,665,427	3,110,660	17.83
April	3,559,788	3,105,643	14.62
May	3,686,931	3,306,189	11.52
Total 5 months	17,605,119	15,153,663	

$4,500,000 increased passenger earnings for the full year 1921 as compared with 1920 is all that can be now counted on in view of this declining rate of monthly increase.

Operating costs are higher because of the increased allowance required for renewal account necessary to make the desired improvement in the condition of the property. This, together with sundry improvements in service will not only use up the monies saved through decreased wages, but in addition serve to considerably increase the total costs of operation.

Since the 7c. cash fare with 4 tickets for 25c. tariff is expected to remain in effect until P. R. T. property values have been determined, the carrying out of this program of construction and improvement is subject to modification only in so far as the monies received in fares may be lessened by an even greater loss in passenger traffic.

Net income for the year 1921 is estimated at $2,000,000.

Improvements to Property.—Adequate provision for necessary repairs, renewals and improvements could not be made during the wartime period because of the high cost and in fact impossibility of securing sufficient labor and material.

The very extensive program of repaving undertaken by the City requires during this year the rebuilding of over 90 miles of track construction which represents more than double the usual undertaking. This, with over 60 miles of trolley wire renewals, and certain car improvements, representing the making of center exist on near-side cars, together with the purchase of one-man cars for the unimportant outlying lines, the purchase of modern snow sweepers, additional shop and carhouse facilities, with other necessary improvements and additions to property, will require a total expenditure approximating $4,000,000.

Of this amount $2,000,000 represents renewals to property and will therefore be added to operating costs. The remaining $2,000,000 being the approximate cost of the new construction over the old, and representing additions to property, is properly capitalizable, but because of the fact that we have no securities now salable from which new capital can be secured, the estimated $2,000,000 of net earnings for 1921 which would otherwise be available for dividends on P. R. T. stock, must be used to meet the cost of this new construction.

The practice of appropriating P. R. T. surplus to provide for the capital needs of the property conforms with the procedure of the past 10 years of this management, during which there was earned a surplus of $10,041,000 of which only $5,846,000 was declared in dividends on P. R. T. stock. The surplus of $4,195,000 remaining undistributed has been used for construction purposes and acquiring new property.—V. 112, p. 1978, 1742.

Philadelphia Wilmington & Baltimore RR.—*To Pay Certificates Due July 1.*—

The $5,093,000 4% stock trust certificates due July 1 will be paid off at maturity at office of Trustee, the Pennsylvania Company for Insurances on Lives and Granting Annuities, Phila.—V. 112, p. 945.

Pittsburgh Cincinnati Chicago & St. Louis RR.—*Directors Decide to Postpone Action on Usual Semi-Ann. Div.*—

The directors on June 22 decided to postpone action on the regular semi-annual dividend of 2% usually paid about July 25 on the outstanding Capital stock, par $100. Dividends of 2% each have been paid semi-annually from July 1918 to Jan. 1921, inclusive.

An official statement says: "The directors decided, in view of existing low earnings and prevailing adverse conditions, to postpone consideration of the dividend on the stock until later in the year, by which time the earnings for the year and final results of the reduction of wages by the Labor Board and its action respecting the national agreements and working conditions can be ascertained. Also settlements with the Government for the Federal control and guaranty period will, no doubt, be definitely determined.

"All of the capital stock of the company, except about 1%, is owned by the Pennsylvania Co."—V. 112, p. 1024, 933.

Pittsburgh Fort Wayne & Chicago Ry—*Control.*—

See Pennsylvania RR. in V. 112, p. 2643.—V. 112, p. 2191.

Pittsburgh & West Virginia Ry.—*Contract.*—

The company has let a contract for the construction of the proposed Bell branch into the coal fields owned by John A. Bell of Pittsburgh. The branch involves the building of 3¼ miles of track and will be completed by Dec. 16 next. Bell agrees to establish coal mining operations having a daily capacity of 3,000 tons, all of which will be shipped over the Pittsburgh & West Virginia Ry. under contract.—V. 112, p. 2643.

Public Service Ry., N. J.—*10% Wage Cut.*—

The trolleymen have voted to accept a 10% wage reduction proposed by the company. The wages for all platform men from Aug. 1 on will be: First 3 months, 46 cents an hour; next 9 months, 48 cents; thereafter, 50 cents. One-man car operators will get 5 cents extra.

Under the new agreement which is to run for two years, the trolleymen are assured that any further decline in prices and wages in other businesses can not affect their salary.

The wage scale accepted by the men was a compromise agreed to after the trolleymen had practically unanimously voted down a previous proposal by the company of a 20% cut. The new scale means a 5-cent-an-hour reduction in the salary of all platform men. They were being paid at a rate of 51, 53 and 55 cents an hour at the present time.—V. 112, p. 2643.

Rhode Island Co.—*Receivers Must Pay $1,000,000.*—

Presiding Justice Tanner of the Superior Court, in a decree entered June 20, ordered the receivers to pay $1,000,000 to Cornelius S. Sweetland, receiver of the United Traction & Electric Co. This is a sum for reimbursement for the use and occupation of the properties of the Union RR., Pawtucket Street Ry. and Rhode Island Suburban Ry. since the operation under the receivership. The United Traction & Electric Co. owned all the capital stock of these companies. A decree of the court entered May 28 1919, provided that the receivers of the Rhode Island Co., should pay for the use of the properties from Jan. 30 1919, the date of the appointment of a temporary receiver to April 21 1919, the date when the leases were terminated, a sum to be determined by Richard E. Lyman, master in chancery, and approved by the court.—V. 112, p. 653.

Rio Grande RR., Texas.—*To Be Rebuilt.*—

According to a report from Brownsville, Tex., this road which runs from Brownsville to Point Isabel, Tex., will be rebuilt immediately. The report also says that $191,000 bonds for the purpose have been sold to residents. The line, which is a narrow gauge road of 3 ft. 6 in. was chartered in the year 1870 and was opened for business two years later. It was built by a party of Spanairds and the equipment was of the foreign type. The idea is to convert the track to standard gauge and to improve it. One train daily is operated each way for passengers, the schedule time for the run of 22½ miles being 1¾ hours. D. A. O'Brien is Pres. & Gen. Mgr.; James A. Browne, Vice-Pres., and J. O'Brien, Sec.—V. 108, p. 2330.

Rockville Broad Brook & East Windsor St. RR.—*Status.*

See Hartford & Springfield Street Ry. above.—V. 84, p. 104.

St. Louis-San Francisco Ry.—*Voting Trust Expires.*—

Notice of the expiration of the stock voting trust is given by the trustees to the holders of the Pref. stock certificates series "A" and Common stock trust certificates. Holders are required to surrender their certificates for exchange at the office of the Guaranty Trust Co. of New York on and after July 1 next. See "Chronicle" June 18, p. xxiii.

The New York Stock Exchange has authorized the listing on or after July 1 of $7,500,000 6% Non-Cum. Pref. stock, Series A; par $100, and $46,432,000 Common stock, par $100, upon official notice of issuance in exchange for outstanding stock trust certificates therefor now listed, with authority to add from time to time $4,015,000 Common stock, on official notice of the issuance and distribution, as per reorganization plan of Nov. 1 1915.—V. 112, p. 2643, 2414.

Salisbury & Spencer Ry., N. C.—*Fare Increase.*—

The company has been permitted to increase its fares from 8 to 10 cents in the city of Concord, N. C.—V. 104, p. 2344.

Southern India Gas & Electric Co.—*Offering of new 7% Preferred Stock—May Exchange 6% Preferred Stock.*—

The stockholders are offered the opportunity: (1) to subscribe for new 7% preferred stock at $95 and divs. For each share of 7% preferred stock so subscribed, two shares of the existing 6% preferred stock may be exchanged for two shares of 7% preferred stock; (2) stockholders may also exchange any part of their 6% preferred stock for 7% preferred stock without subscription to 7% preferred stock upon the payment of $10 per share; upon condition, however, that they will agree not to sell prior to July 1 1923, for less than $95 per share the 7% stock so acquired. The purpose of this requirement is to protect the company's market during the campaign which it proposes to conduct for the purpose of selling its preferred stock to its customers. The stockholders may (3) deposit any part of their 6% preferred stock with LaFayette (Ind.) Loan & Trust Co. of LaFayette, as trustee under an agreement providing for the acceptance of dividends at only 5% per annum on the amount of stock deposited until July 1 1926, at which time upon surrender of trustee's certificates the stockholders will be entitled to receive 7% preferred stock to a par amount equal to the 6% preferred stock so deposited.

For the convenience of subscribers to the 7% preferred stock who do not wish to make full payment at the time of subscription, the company will accept payment as follows: (*a*) $10 per share at the time of making subscription, (*b*) $10 per share each calendar month for seven months thereafter, and (*c*) $15 for the eighth month. Int. will be allowed on partial payments at 7% per annum, and dividends accrued and unpaid will be adjusted at the time of final payment when the exchange privilege provided in (1) may be exercised.

The right of stockholders to so subscribe and exchange or deposit their stock expires on July 15 1921, unless the time is extended by the directors. See also V. 112, p. 1284, 1618, 1742, 2307, 2538.

Southern N. Y. Power & Ry. Corp.—*Wages.*—

The company and the employees have entered into a new wage scale expiring June 1 1922. The new agreement fixes the wages of motormen and conductors at 35c. an hour the first 6 mos., 37c. an hour the second 6 mos., 39c. an hour after two year service and 40c. an hour thereafter.—V. 112, p. 163.

Southern Pacific Co.—*Reduction in Freight Rates.*—

G. W. Luce, Freight Traffic Manager for the company, on his return from Chicago and other Eastern points where he has been for the past

several weeks in conference with other freight traffic men in order to bring about reductions in freight rates, issued a statement pointing out the large number of reductions that have already been made.

In addition to the recent reductions proposed on freight for export and import, in transcontinental rates to meet water competition, on shipments of ore from New Mexico and Arizona, and on fresh or green vegetables, melons and canteloupes and applies, the Southern Pacific Co., according to Luce, has, since the increase in rates granted by the Inter-State Commerce Commission Aug. 26 1920, made more than 600 freight tariff adjustments, resulting in the publication of thousands of new and reduced local rates from and to individual points. These adjustments have been voluntary or at the request of patrons of the company, Luce says.—V. 112, p. 2643.

Southern Ry.—*Repays $5,000,000 to War Finance Corp.*

The company has repaid to the War Finance Corp. $5,000,000 on account of the advance of $7,400,000 made to the Southern Ry. system in 1919.

Settlement with U. S. Railroad Administration.—

The U. S. Railroad Administration has announced that it has made a settlement with the.ompany for all claims arising for the period of Federal control. The company received $6,000,000 as the final balance due it, after the adjustment of all claims on both sides. It is understood that the Southern had claimed $35,000,000, but that the difference represents, in part, the claims of the Government for capital expenditures made on its property.—V. 112, p. 2538.

Tampa Northern RR.—*U. S. Loan—Promissory Notes.*—

The I.-S. C. Commission has authorized the company to issue under date of Feb. 24 1921, a promissory note of $100,000 (int. at 7%) payable 90 days after date to Bankers Trust Co., or order, in part renewal of a promissory note for $200,000; and to issue from time to time, within two years from the date hereof, a note or notes not exceeding $100,000 in renewal thereof.

The note for $200,000 was accepted by Bankers Trust Co. as a short term maturity and has been renewed from time to time, covering a period of over 4 years. This note is endorsed by Seaboard Air Line Ry. which owns all the capital stock, and is further secured by the pledge of $480,000 of that company's 1st & Consol. Mtge. gold bonds, seriea A. On Feb. 24 1921, the maturity of the last renewal, the Trust company refused to extend the note for the full amount. The Commission has approved the making of a loan of $100,000 by the United States for the purpose of discharging in part this matured debt. The company now proposes to issue its promissory note for the remaining $100,000.—V. 111, p. 793.

Tenn. & Cumberland River RR.—*Being Dismantled.*—

This road, running from Tennessee Ridge, where it connected with the Memphis line of the L. & N. to Bear Spring, a distance of about 18 miles, is now being torn up and the equipment removed to other lines. The line was constructed some 25 years ago, largely through the efforts of Dr. Lory, Gen. Mgr. of the Cumberland River Land Co.

Toledo Rys. & Light Co.—*Bonds Called.*—

The holders of the extended bonds of the Toledo Heating & Lighting Co. are notified that $50,000 of the bonds have been called for payment July 1 at Security Savings Bank & Trust Co., Toledo, O., trustee.—V. 112, p. 746.

Toronto Ry.—*Municipal Operation Sept. 1.*—

Civic Finance Commissioner Ross of Toronto has been authorized by the City Council to issue Debentures for $10,000,000. The Transportation Commission, which is preparing for the city to take over the street railway on Sept. 1, asked for $7,000,000 and part of the balance of the $10,000,000 will be used in the rehabilitation and operation of the system.—V. 112, p. 2191.

Trenton & Mercer County Traction Corp.—*Fare.*—

The New Jersey P. U. Commission has granted the company permission to increase cash fares from 7 to 8 cents. The 1 cent charge for transfers is continued. The company sought a cash fare of 10 cents.—V. 112, p. 1868.

Tri-City Ry. & Light Co.—*Wages Reduced.*—

Under an agreement effective June 13 wages were reduced from 70 cents an hour to 55 cents an hour for trainmen on two-man cars. One-man car operaters are to receive 55 cents an hour. Operation of one-man cars was recently begun.—V. 112, p. 373.

Union Street Ry., New Bedford.—*Earnings.*—

Calendar Years—	1920.	1919.
Number of revenue passengers carried	31,730,868	27,354,946
Number of revenue passengers per mile of main trk.	755,496	592,552

a Adjustments of losses and depreciation.—V. 112, p. 258.

United Railways Co. of St. Louis.—*Fares & Wages.*—

The Missouri P. S. Commission has extended the present rate of 7 cents fare until Dec. 31 1921. This action is based on the showing of receivers' financial report for the first four months this year.

A new wage contract has been agreed upon by the receiver and the carmen's union. The old three-year contract expired on June 1, and the new agreement is retroactive from that date. The new contract is to run only until Jan. 1 1922, and the pay of trainmen who were in the employ of the company on June 1 is not affected, these rates being 55 cents the first year, 60 cents an hour the second year and 65 cents the third year and thereafter. Under the new agreement new employees are to draw 50 cents an hour the first year, 55 cents the second year, 60 cents the third year, and 65 cents an hour the fourth year and thereafter.

Other employees in the carmen's union, except trainmen, were cut approximately 5 cents an hour—car placers from 48½ to 43½ cents, car cleaners from 44¼ to 39¼, while trackmen who were getting 49¼ are to get 42; others who were getting 48 are to get 41, and some who were drawing 44 cents now are to get 35 cents an hour.—V. 112, p. 2529.

United States RR. Administration.—*Final Settlement.*—

The U. S. RR. Administration reports the following final settlements for the 26 months of Federal control and has paid out to the several roads the following amounts: Port Bolivar Iron Ore Ry., $35,000; Chicago Milwaukee & Gary, $200,000; Bangor & Aroostook, $575,000. See also V. 112, p. 163, 471, 1145, 1979, 2191.

Utah Power & Light Co.—*Wages Cut.*—

A board of arbitration has recommended wage cuts averaging about 12½%. Reductions range from 11% to as high as 18.9%. The company asked for a wage cut of 25%, but both parties will abide by the decision of the arbitrators. Carmen will get from 50 to 57 cents an hour, compared with the old scale of 57 to 64 cents an hour. The cut is retroactive to May 1 and the agreement will run to April 30 1922.—V. 112, p. 2191.

Virginia Ry. & Power Co.—*Fares.*—

The Richmond City Council Committee has refused the company's petition for a straight 7c. fare but has adopted a motion extending the present ordinance providing for a 6c. fare for 12 months after July 29 or until the company is given a blanket franchise.—V. 112, p. 2307.

Wheeling Traction Co.—*Wages.*—

A board of arbitration has decided that the existing sale of wages, viz.: 53, 58 and 61 cents an hour, according to length of time in service, should continue for another year.—V. 112, p. 1618.

Wichita Northwestern Ry.—*U. S. Loan, &c.*—

The I. S. C. Commission has authorized the company (1) to issue $600,000 1st Consol. Mtge. bonds, and (2) to pledge the same with the Secretary of the Treasury as collateral security for a U. S. loan of $381,750.

On May 28 the company had outstanding $250,000 bonds due Nov. 1932, a first mortgage upon certain portions of its line. It also had execute another first mortgage upon another portion of its property under which $100,000 of bonds, maturing Nov. 1 1932, had been issued and pledged as collateral security for a loan.

The company has defaulted under the provisions of the first mentioned mortgage, and the tru tee has notified it that proceedings looking toward foreclosure will be undertaken. To assist the company in retiring this bond issue which has thus become due and payable, and to enable it to make additions and betterments which are absolutely essential, the Commission has authorized a U. S. loan of $381,750. Of this amount $200,000 is to be used in part payment of the bond issue and $181,750 is to be expended in the completion of the road. In addition to retiring the bonds outstanding under the first-mentioned mortgage, company is also to retire the bonds nominally outstanding under the other mortgage, and both mortgages are to be discharged and satisfied of record.

As security for the loan company proposes to execute a new 6% First Consolidated Mortgage for $600,000 dated June 1 1921 and due June 1 1931 to Midwest Reserve Trust Co., Kansas City, Mo.—V. 112, p. 2414.

Wisconsin Public Service Co.—*Development.*—

The *North East Power Co.*, a subsidiary has applied to the Railroad Commission, Wisconsin, for authority to proceed with a hydroelectric power plant project on the Peshtigo River, near Ellis Junction, Wis., which involves an investment of $3,500,000. Two sites are to be developed by the construction of concrete dams, reservoirs and generating plants.—V. 111, p. 2425

INDUSTRIAL AND MISCELLANEOUS.

General Industrial and Public Utility News.—The following table summarizes recent industrial and public utility news of a general character, such as is commonly treated at length on preceding pages under the caption "Current Events and Discussions" (if not in the "Editorial Department"), either concurrently or as early as practicable after the matter becomes public.

Steel & Iron.—The "Iron Age" of June 23 says in substance: "In many lines of steel consumption business seems to have adjourned for the summer, but meanwhile liquidation of steel products in the hands of users is proceeding in a most unusual way. Practically all large manufacturing consumers have turned jobbers and are selling off bars, structural shapes, &c., at prices close to the warehouse basis.

"There are also shipment back to this country of some of the steel and considerable quantities of small tools, hardware, and building equipment sold in 1919 at a job lot price by the U. S. Army to the Government of France. Resale in this country was never dreamed of, but now it is coming at prices, in the case of tools, about one-third below the domestic market. Another hang-over from the war is 300,000 tons of finished steel, chiefly plates and shapes, which the Shipping Board is planning to put upon the market.

"The operation of blast furnaces and steel works is slightly below the rate of last week. The Carnegie Steel Co. (U. S. Steel Corp.) has blown out another blast furnace and now has only 14 in operation out of 59.

"There is no longer any strict adherence to the prices announced by the Steel Corporation as effective April 13. Reports have gone through the trade that a formal announcement of lower prices would be made July 1. However market developments appear to be making any such formality unnecessary. All producers are meeting competition as it develops.

"The market on bars and structural shapes is now about 2c. [against $3.50 cents at Pittsburgh June 22 1920] while 1.90c. for plates, or $6 per ton below the April 13 price, is not uncommon [On June 22 1920 the price at Pittsburgh was 3.50cts.] Sheets are now about $5 per ton below the April schedule [3.75 cts. for black sheets at Pittsburgh, against 4 cts. May 24 1921 and 5.50 cts. June 22 1920 and bolt and nut discounts have been revised downward.

"The Lake Superior ore prices for 1921 is considered established by the sale of 150,000 tons to an Ontario steel interest at a reduction of $1 per ton from the 1920 [to the 1919] basis. Buying of lake ores for this year will be light as 27,600,000 tons was on dock or in furnace yards on May 1. The new price means a heavy depreciation in ore inventories, but in many cases 50c. to $1 a ton was written off on ore carried over into 1921 and the big iron market has long anticipated the reduction in ore. [Mesabi Non Bessemer is $5.55 per gross ton at Lake Erie Dock contrasting with $3.36 the 10 year aver. 1904—1913 incl. Compare "Iron Age" June 23, p. 1697, 1705.]

"Automobile companies look for some check in July to the sagging which started in May and caused the cuts in their prices. With no decided change this year the expected trend is toward betterment.

"Reports persist that the railroads are getting ready to repair cars, particularly grain cars, which are in a deplorable state, but nothing of this has developed as yet in the steel market.

"Pig iron prices have again declined 50c. at Chicago and from 50c. to $1 at Pittsburgh [At Chicago on June 21 No. 2 foundry was quoted at $20.50 against $43 June 22 1920 and Bessemer at Pittsburgh on June 21 quoted at $24 46 against $25 96 May 24 1921 and $44 40 June 22 1920. On June 23 pig iron at Chicago was reported as further cut to around $20.]

Iron and steel exports for May were 104,072 gross tons against 547,000 in Jan. 1921; machinery exports were valued at $20,396,000 or one-half the monthly aver. for the 10 months just preceding. (Compare p. 1706 "Iron Age" of June 23. High rate production for steel in 1920. Idem p. 1703.)

U. S. Bureau of Labor Statistics reports the number of men employed in May 1921 as follows: (1) 111 Iron and Steel establishments, 111,123; aver. pay $48.77; May 1920, 166,296, aver. pay, $74.21; (2) automobile mfrs. (*a*) 46 establishments 87,266; aver. wage, $33.48; May 1920, in 44 establishments, 128,982; aver. wage, $34.67; (3) car builders and repairers, (*a*) in 62 establishments, 44,027; aver. wage $65.62; (*b*) May 1920, in 60 establishments, 69,577; aver. wage $62.84.

The answer of the U. S. Steel Corp. in the Pittsburgh trust case was given at length in "Iron Age" of June 9, pages 1551 to 1554.

Coal.—"Coal Age" of June 23, says in brief:

"Production of bituminous coal is being maintained around 8,000,000 net tons a week by the strenuous efforts of shippers. It is with difficulty that this coal is being forced on the market, price recession giving evidence of the selling pressure being exerted. "Coal Age" index of spot prices is 92, a drop of 3 points from 95 the previous week." [Spot prices for mine run net tons, f. o. b. at mines are quoted at Columbus, O., as follows: Pocahontas, $3 25@ $3 50 against $3 60 May 17; Kanawha $2 00@$2 25 against $2 30 May 17; Hocking $2 00@$2 25 against $2 20 May 17. At Chicago Franklin is quoted at $2 25@$3 50 against $3 25 May 17 and Indiana Vein 4 at $3 50, $2 25 to $2 75 against $3 10 May 17.—Ed.]

"Exports and shipments to Lake Erie ports for trans-shipment by boat and storage on the Upper Lake docks represent the only steady outlets now open to the trade, and it is only the Northern and Middle Appalachian fields that are in position to participate in these markets.

"The situation at the lake front is steadily drifting into a deadlock. Accumulation of coal in cars at Lake Erie ports now exceed 1,300,000 tons and were it not that, contrary to usual practice, the Steel Corporation boats are taking coal on the up-trip, shipments by water would fall off for lack of boats. Steamers are now being tied up in Duluth Harbor because ore is not being shipped down and it does not pay to operate the boats with a one-way cargo of coal.

"Exports offshore are being maintained. In the first half of June foreign shipments through Hampton Roads were, in round numbers, 700,000 net tons, compared with 1,217,000 during the month of May, while total dumpings at this port were 1,300,000 net tons to June 15, compared with 2,030,000 net tons during May. The movement to the United Kingdom, 344,000 net tons, bears out the estimate made in this review a week ago that our export trade would benefit to the extent of 1,000,000 net tons by the end of June as a result of the British strike.

"While the Eastern bituminous fields are pegging along at a rate only slightly better than half of normal, the Middle West is in deep gloom. The steam market is dead.

"Production of bituminous coal at 8,000,000 tons a week represents between 70 and 90% of the best that could be expected if industry were not depressed, for 10,000,000 tons a week, or 520,000,000 tons a year, would represent prosperity in the soft coal trade. In view of this, the bituminous-coal industry has no such cause for complaint as for instance, iron and steel, operating at less that 30% of normal.

"Anthracite, on the other hand, is going full blast. Production between 1,900,000 and 2,000,000 net tons a week represents the best this field can do. Steam sizes of hard coal are suffering from lack of demand and as produced are largely going into storage, but domestic sizes are readily moved

Production from January to date is 37,700,000 net tons, a figure exceeded since 1913 only in the war years of 1917 and 1918. There are signs, however, that demand for household sizes is becoming less urgent and it is reported that independent coal is now being offered in Chicago below company circular.

"The following data from the Geological Survey show the output of coal in May during the past eight years and in each year to May 31:

Production of Coal (in net tons) for May and the 5 Months ending May 31

Year—	Bituminous Coal. May.	Bituminous Coal. 5 Months.	Anthracite Coal. May.	Anthracite Coal. 5 Months.
1913	37,205,000	188,000,000	7,945,000	38,300,000
1914	28,551,000	173,000,000	8,348,000	35,600,000
1915	30,938,000	179,000,000	7,807,000	35,200,000
1916	38,804,000	208,000,000	7,212,000	36,100,000
1917	47,086,000	226,000,000	x8,933,000	x39,500,000
1918	50,443,000	231,000,000	x8,880,000	x41,200,000
1919	37,547,000	176,000,000	7,525,000	32,500,000
1920	38,993,000	213,000,000	7,946,000	36,100,000
1921	33,255,000	162,000,000	9,497,000	37,700,000

x Years of very large washery production.

For text of the Frelinghuysen coal bills and the discussion in Senate respecting same, see "Current Events," &c. above.

Oil, Gasoline, &c.—Continuing the price movement noted last week the Magnolia Petroleum Co. has cut its prices for crude oil at the wells from $1 25 to $1 00 and from 75 cts. and $1 00 to 60 cts. and 85 cts, respectively. Texas Co. and Standard of La. have cut Caddo heavy from 80 cts. to 60 cts., the lowest prices, it is said, in six or seven years. The wholesale price for gasoline has been reduced at New York by the Standard Oil Co. of N. Y. from 24½ to 24 cts.; in N. J., Md., W. Va. and Dist. of Columbia the Standard of N. J. has made a cut of 1 ct. and in No. and So. Caro. 1½ cts.; at Chicago the Standard of Ohio has reduced the price from 24 to 21½ ct.

Wholesale Prices for Gasoline at Leading Cities as Reported June 23 1921 and Jan. 1.

	June '21.	Jan.1'21.	Jan.1'20.	Jan.1'19.	Jan.1'15.
New York, N. Y	24.0	31.0	24.5	24.5	12.0
Boston, Mass	25.5	32.0	25.5	25.5	14.0
Philadelphia, Pa	23.0	31.0	25.2	24.0	10.0
Baltimore, Md	21.5	29.5	28.5	22.5	9.0
New Orleans, La	20.5	28.5	22.5	23.0	10.5
Chicago, Ill	20.0	27.0	24.0	22.5	11.0
Kansas City, Kans	17.0	26.5	23.4	22.1	10.3
San Francisco, Cal	25.0	27.0	21.5	21.5	10.5

Gasoline stocks in U. S. on April 30 are figured by the Bureau of Mines at the high record figure of 747,222,900 gal., against 713,043,480 gal. on April 1; consumption, including exports, for April averaged 13,069,808 gal. daily, compared with 12.716,699 gal. in March and 11,393,314 gal. in April 1920.

Mexican oil exports in May totalled 14,066,044 bbls., a decrease of 2,185,675 from April, due partly to seamen's strike.

Shipments from Mexico by Ten of the Leading Companies.

	May.	April.		May.	April.
Standard Oil	2,266,554	1,796,768	Atlantic Gulf	1,036,177	1,302,307
Mex. Petro	2,074,108	2,419,941	Island Oil&Tran	825,073	854,013
Mex. Eagle	1,846,146	2,470,296	Gulf Oil	819,277	1,050,000
Atlanta Lobos	1,171,521	888,654	Texas Co	718,925	965,347
Int. Pet. (Me.)	1,144,658	866,966	Sinclair (Freep't)	580,625	908,054

The Phelan report on Mexico's oil properties was cited in "Oil, Paint & Drug Reporter," Petroleum Section, page 9, on June 20. Compare comments in "Boston News Bureau" June 24, page 1; also see Mexican Petroleum Co. below, and "Current Events" in Chronicle June 1, p. 2603.

Pres. W. C. Teagle of Standard of N. J., predicts drop in output of oil, 'Times", June 22, p. 22.

Other Prices.—Cotton, midland uplands, on June 20 dropped to the lowest level since 1915, namely, 10.85 cts., against 18.25 in Jan. 10 1921 and 43.75 the high July 22, and the low 14½ Dec. 22 in 1920 ("Times" June 21, page 26). Print cloths have been weak in sympathy with cotton. Refined sugar on June 21 got down to 5½ cts., contrasting with 5¾ June 26 and 8¼ March 18; in 1920 sugar sold up to 23 cts. July 12 and down to 8 cts. Dec. 17.

Additional automobile companies have reduced their price lists. A table for 25 such companies shows price cuts compared with the war peak ranging from 32% for the Willys-Overland and 28% for the Ford and Chandler, down to 5% for the Columbia—"Boston News Bureau" June 22, p. 2.

Crude rubber on June 23 made a new low record, 11¾ cts. a pound, as against $1 in 1913 and 55 cts. the approximate high price in 1920; the price from 1913 to 1918, it is stated, never fell below 53 cts. "Times" June 24, p. 22.

The American Smelting & Refining Co. on June 23 reduced the price of lead from 4.50 cts. to 4.40 cts. a lb. The low for 1921 to date was 4 cts. Feb. 28.

Abitibi Power & Paper Co.—*Omits Dividend.*—

The regular quarterly dividend usually paid July 15 on the outstanding 250,000 shares of Common stock, no par value, will be omitted on that date. The action, it is stated, was taken because of the recent strike at the company's plants and of business conditions in general.

In April last a quarterly dividend of $1 per share was paid on the Common stock. This compares with dividends of $1 50 per share each paid in Jan. 1921 and in July and Oct. 1920.

Earnings for the six months ending June 30 1921 are estimated at $1,500,000, or more than three times the dividend requirement.—V. 112, p. 1400, 2192.

Alabama Power Co.—*Further Data.*—

In connection with the offering of $2,500,000 1st Mtge. Lien & Ref. 7¼% Bonds (See V. 112, p. 2644), Pres. T. W. Martin further says:

Physical Property.—Owns the "Lock 12" hydro-electric development on the Coosa River, 45 miles southeast of Birmingham. Present installed capacity is 90,000 h.p. and construction has been practically completed for the installation of the 6th and final unit, which will provide an ultimate capacity of 110,000 h.p. Also owns a steam turbine station of 15,000 h.p. capacity located at Gadsden, 60 miles northeast of Birmingham, and a second steam turbine station of 35,000 h.p. capacity located 25 miles northwest of Birmingham on the Black Warrior River.

Company recently constructed for and at the expense of the U. S. Government a complete 45,000 h.p. addition to the Warrior plant, and the use of this addition by the company at any time is provided for on a favorable basis. In addition, owns a small hydro-electric development of 2,000 h.p. capacity at Jackson Shoals, about 40 miles east of Birmingham. These stations are connected with each other and with Birmingham and other markets by a comprehensive system of steel-tower transmission lines, the transmission lines now in operation aggregating about 1,000 miles in length.

New Hydro-Electric Plant.—Company plans shortly to begin construction of a second large hydro-electric development to be known as the Mitchell Power Plant, which will have an initial installed generating capacity of 60,000 h.p. and an ultimate capacity of 120,000 h.p. The addition of this new 60,000 h.p. unit will increase the present hydro-electric capacity by over half, and will increase the total installed generating capacity to 220,000 h.p., of which over 77% will be hydro-electric.

Purpose of this Issue.—In order to provide for funded floated debt and for the future financing of extensive developments and additions, Company has created this new 1st Mtge. Lien & Ref. Mtge., which will provide that bonds may be issued thereunder in one or more series, in such amounts as company may from time to time determine. No series may mature later than 1981.

Additional Bonds.—Additional 1st M. Lien & Ref. bonds may be issued (1) against the deposit of a like amount of additional 1st Mtge. bonds of 1946; (2) after the exhaustion or maturity of the 1st M. bonds for not to exceed 80% of cost of extensions and additions to the property; (3) to a limited extent, with the 80% provision governing, against certain other properties, and (4) to refund 1st Mtge. bonds, underlying bonds and bonds of this or other series; provided that in all cases the annual net earnings shall equal twice the annual int. charges on all bonds issued and proposed.

Improvement & Sinking Fund.—The company shall pay to the trustees, to be used as below, the following percentages of the aggregate of all outstanding 1st M. 5% bonds of 1946 and all outstanding 1st Mtge. Lien & Ref. bonds in excess of the amount of 1st Mtge. 5% bonds due 1946 pledged thereunder: (*a*) 1922 to 1925, incl., ½% of all such bonds; (*b*) 1926 to 1931, incl., 1% of all such bonds; (*c*) 1932 to 1945, incl., 1½% of all such bonds; (*d*) 1946 to 1950, incl., 1½% of all 1st M. Lien & Ref. bonds outstanding.

The fund so created may be used only to, either (1) pay for the acquisition of additional property or for permanent extensions and improvements which might otherwise have been made (and may not thereafter be made) the basis for the issuance of bonds; (2) if not so expended within a specified time, must be used for bond retirement—any bonds thus retired to be canceled.

See offering in V. 112, p. 2644.

Allied Packers, Inc.—*Time Extended—July 1 Interest.*—

The Readjustment Committee, Geo. W. Davison, Chairman, announces that the time for deposit under the plan dated April 30 1921, of Debentures and Stock with Central Union Trust Co., Depositary, 80 Broadway, N. Y. City, or with the Sub-Depositaries, viz.: First National Bank, Philadelphia, Fort Dearborn Trust & Savings Bank, Chicago, and First National Bank, Boston, has been extended until June 29.

There have been actually deposited under the Plan over 30% of Debentures, over 55% of Preferred stock, and over 45% of Common stock, and as a result of conferences with security holders additional deposits in considerable amounts are expected in the near future.

Deposits actually made under the plan and the assurances that have been given in respect to additional deposits thereunder during the current month lead the company to believe that security holders in sufficient amount will assent to the plan to enable its consummation and accordingly the company expects to pay the interest due July 1 1921, on its outstanding debenture in order to maintain the present position of the various classes of securities pending the consummation of the plan.—V. 112, p. 2081, 2086.

American Agricultural Chemical Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of $30,000,000 7½% 1st Ref. Mtge. Sinking Fund gold bonds, Series A, due Feb. 1 1941 (see offering in V. 112, p. 472), upon official notice of their issuance in exchange for Lee, Higginson & Co., interim receipts now outstanding. —V. 112, p. 2539.

American Dock & Improvement Co.—*Listing.*—

The New York Stock Exchange has authorized the listing on and after July 1 of $4,987,000 1st Mtge. 6% Guaranteed bonds, as extended to July 1 1936. Guaranteed principal and interest by Central RR. Co. of New Jersey.—V. 112, p. 2539.

Amer. Lace Mfg. Co., Elyria, O.—33 1-3% *Stock Div.*—

A 33 1-3% stock dividend has been declared on the outstanding $484,200 capital stock, par $100, payable to holders of record July 1. The company will buy or sell fractional shares on a basis of $100 per share. A certificate was filed with the Secretary of State at Columbus, Ohio, on June 17, increasing the authorized capital stock from $500,000 to $750,000.

It is said that business has been very satisfactory and that the plant has been operated for a long time on a 10-hour day basis to keep apace with orders.—V. 111, p. 1280.

American Shipbuilding Co.—*Extra Dividend.*—

An extra dividend of 2¼% has been declared on the Common stock in addition to the usual quarterly dividend of 1¾%, both payable Aug. 1 to holders of record July 15. Extra dividends of like amount have been paid quarterly since Feb. 1919.—V. 112, p. 1285.

American Ship & Commerce Corp.—*Listing.*—

The Phila. Stock Exchange has admitted to the list 147,111 additional shares Capital stock without par value, being part of a total of 210,821 shares applied for Mar. 15 1921, making the total listed 668,116 shares.

The issue of the 210,821 additional shares was authorized by the Directors June 4 1920 when the sale of 100,000 shares at $25 per share, to be taken up and paid for in cash 90 days from that date was authorized. Such 100,000 shares have been paid for in cash and are part of the 210,821.

The directors on Oct. 11 and Nov. 19 1920 authorized the exchange of 47,113 shares, share for share, for 47,113 shares (par $25) of Common stock of Shawmut Steamship Co. Such 47,113 shares are part of the 210,821 additional shares above. Also 63,708 shares of the 210,821 above shares are reserved for conversion of the 10-year sinking fund 10% Conv. notes on the basis of three shares of stock for each $100 of notes.—V. 112, p. 2638, 2645.

American Smelt. & Refin. Co.—*Lead Prices Reduced.*—

The company has reduced its price of lead from 4.50c. to 4.40c. a pound. —V. 112, p. 2645.

American Sugar Refining Co.—*Contract Upheld.*—

Pres. Earl B. Babst, June 23, says in substance: A jury in the U. S. District Court at Baltimore has sustained the validity of the sales contract of Franklin Sugar Refining Co. a subsidiary for sales of sugar at 22½ cents a pound made during the shortage last June and July. Frey & Son, large wholesale grocers, Baltimore, raised a multitude of technical defenses, but the court and jury upheld the broker's sales memorandum as a binding contract. In the language of the court: "The law for reasons of convenience has determined that a broker, though paid as he usually is by only one party, is so far the agent of both of them that he may sign a memorandum which will make the contract enforceable under the statute of frauds."

A wide response doubtless will be found in the business world to the words of Judge John C. Rose, in his charge to the jury, when he said: "Just now we are having a period which tries men's souls, not quite in the same sense as in the Revolutionary days but in a very real sense after all. It puts men under a very strong temptation to sharpen their recollections. A year ago people were eager to buy sugar at wholesale at 22½c."—V. 112, p. 2539.

American Sumatra Tobacco Co.—*Regular Div.—Status.*

A quarterly dividend of 2% has been declared on the Common stock, payable Aug. 1 to holders of record July 15. A like amount was paid in May last when the rate was cut from 2½% quar. (See V. 112, p. 1619.)

An official statement, June 23, says in part: "A survey of the company's financial position presented to the board showed current assets well over two for one of current liabilities, accompanied by a substantial reduction in the company's indebtedness.

"Physical inventory taken at current market prices showed a reduction of inventories on hand to less than $3,000,000, which, it was assured, could be marketed at satisfactory prices.

"Sales of the current fiscal year to date are about equivalent to those of last year.

"The new crops which are partially in process of harvesting are in sat factory condition and the rumors which have been circulated in respect thereto, partially predicated upon a premature Government report, have recently been corrected by Government Bulletin No. 181, issued by the Department of Agriculture under date of June 7, which shows that the first report was erroneous."—V. 112, p. 2416, 2308.

American Telephone & Telegraph Co.—*Int on Subscrip.*

On June 21 the company mailed to all stockholders information regarding the new stock offered for subscription to stockholders of record May 20 (V. 112, p. 2086). Its provisions apply only to those who have not yet exercised their rights of subscription. The circular says:

The allowance of 6% int. on advance payments received as of June 6 and June 20 upon subscriptions due July 20 for the new stock issue has met with

the approval of stockholders as evidenced by subscriptions to over $22,500,000 already received from more than 30,000 stockholders.

It has also brought out a general request that another prepayment date on which interest be allowed should be added between June 20 and the due date of July 20. Arrangements have therefore been made to allow interest at the rate of 6% per annum on payments due July 20 received after June 20 and before July 7 1921 as follows: Interest for 15 days amounting to 25 cents per $100 will be allowed and should be deducted from the remittance leaving as the balance to be remitted: (a) $99.75 for each share where the subscription is under Plan A (payment in full); or (b) $9.97½ for each share where the subscription is under Plan B (partial payment).—V. 112, p. 2539, 2308.

American Window Glass Machine Co.—*Annual Report —Merger and Licensing of Outside Companies.*—

See "Financial Reports" on a preceding page.—V. 112, p. 1980, 1027.

American Woolen Co.—*Operating 95% Capacity.*—

Despite all rumors and reports of short-time operations at the plants of the company the fact of the matter is that the company is operating its entire system at virtually as high a capacity as it has ever obtained. This means better than 95% full. There is the usual intimation that the company is making no money on its business, but the books do not reveal operating losses nor does the balance sheet show the slightest need of urgent liquidation. American Woolen is earning its $7 dividend comfortably, and as a result of the forthcoming big spring business will show it handsomely covered when the year ends next Dec. 31. (Boston "News Bureau."—V. 112, p. 2308.

Art Metal Construction Co.—*Listing.*—

The New York Stock Exchange has authorized the listing of temporary interchangeable voting trust certificates representing $1,606,430 Capital stock, par $10 on official notice of issuance in exchange for present outstanding voting trust certificates. See also V. 112, p. 2539.

Atlantic Gulf Oil Corp.—*New Oil Well.*—

The corporation, a subsidiary of Atlantic Gulf & West Indies SS. Lines has brought in another big well in the Zacamixtle field, flowing 60,000 barrels. The well was brought in at 1,610 ft. and is said to be the shallowest in that district. A few days ago the company announced the completion of a 50,000 barrel well in the same section.—V. 112, p. 2645.

Atlantic Gulf & West Indies SS. Lines.—*Financing Approved.*—The stockholders on June 24 approved the financing outlined in V. 112, p. 2539, 2645.

Atlantic Refining Co.—*Definitive Debentures Ready.*—

The Equitable Trust Co. of N. Y., 37 Wall St., N. Y. City, is now prepared to exchange the 10-year 6½% gold debenture interim certificates for definitive debentures. (See offering in V. 112, p. 565)—V. 112, p. 2308.

Avery Co., Chicago.—*Listed.*—

The Chicago Stock Exchange has admitted to the list $2,680,800 additional Common stock.—V. 111, p. 2136.

Babbitt Bros. Lands, Inc.—*Bonds Offered.*—Hunter, Dulin & Co., and Blyth, Witter & Co., Los Angeles, San Francisco, &c., are offering at 100 and int., by advertisement on another page, $1,500,000 1st Mtge. Serial 8% Sinking Fund Gold Bonds.

Dated June 1 1921. Due serially Dec. 1 1921-1940. Denom. $500 and $1,000 (c). Callable on any int. date on 30 days notice at 105 and int. Int. payable J. & D. at Los Angeles Trust & Savings Bank, Los Angeles, trustee, Anglo & London Paris National Bank, San Francisco, and Continental & Commercial National Bank, Chicago, without deduction for normal Federal income tax, not exceeding 2%.

Data From Letter signed by David Babbitt and C. J. Babbitt (Guarantors), Flagstaff, Ariz., June 4.

History.—Business is the result of 35 years' steady and systematic growth. In 1886, 4 of the Babbit Brothers settled in Northern Arizona and started in the cattle business and shortly thereafter opened a general merchandise store. These two branches have developed until the merchandising business operating under the name of Babbit Bros. Trading Co., does a large wholesale and retail business of a diversified nature, with headquarters in Flagstaff and branches in 7 cities and towns in the State. Livestock operations are carried on mainly in Arizona and extend into 5 counties.

Growth & Development.—Owns or are interested in 32 different stock outfits, 13 of which the bankers have selected, whose realty holdings are the basis of this bond issue. Properties aggregate 375,575 acres owned in fee. These lands allow stock to graze on approximately 2,000,000 acres, which with our other interests, make a total acreage of about 3,500,000. At the present time, there are on these holdings approximately 63,000 head of cattle and 94,000 head of sheep.

Earnings.—Leases of all properties are guaranteed a total annual rental of $150,000, or more than sufficient to meet principal and interest payments. The net annual earnings for a 5-year period of Babbitt Bros. Trading Co. and the livestock outfits covered in this financing total $378,500.

Security.—Secured by a first closed mortgage on the following properties:

(1) 375,575 acres of pasturage lands (which lands directly control in excess of 2,000,000 acres) valued at $1,648,971.

(2) Farm lands devoted to grain, general crops and alfalfa in Northern Arizona aggregating 4,286 acres appraised at $354,500.

(3) City and town properties valued at $508,450.

(4) Properties in California, consisting of 488 acres of the Laguna Ranch, and 40 acres in the San Fernando Valley appraised at $503,000.

(5) As additional security the entire stock, excepting directors' shares of Babbitt Bros. Trading Co., will be pledged; net worth $4,254,636.

Guaranty.—Guaranteed unconditionally principal and interest, jointly and severally by David Babbitt, C. J. Babbitt and William Babbitt. Net worth of these three men is estimated as well in excess of $1,500,000.

Sinking Fund.—In addition to the serial maturities, the unexpended balance of the lease fund of $150,000 will be used for the sinking fund, to purchase the last outstanding maturities at 105 and int.

Purpose.—To pay present mortgages and to pay in full purchase money contracts aggregating in excess of $500,000, and to reduce current bank debt

Barge Service Corp.—*Equipment Notes.*—

The Columbia Trust Co., New York, has been appointed trustee of $500,000 8% participating equipment notes.

Barrett Co.—*Loan on Building.*—

Lawrence, Blake & Jewell have placed a loan of $1,700,000 for the Barrett Building Co. Loan covers 94-8 Washington St., 24-36 Rector and 57-69 West 8ts. being improved with a 17-story office building. The Barrett Co. will occupy 60,000 sq. ft. for its own use. The plot contains 19,500 sq. ft. of land and 252,000 rentable feet. The loan runs for 10 years and bears 6% interest.—V. 111, p. 2523.

Bathurst Co., Ltd., New Brunswick, Can.—*Bonds Offered.*—Callaway, Fish & Co., New York, are offering at 98½ and int. yielding 7.65%, the Bathurst Co., Ltd., $1,500,000 First Mtge. 20-yr. Convertible 7½% bonds, Series "A."

Dated June 1 1921. Due June 1 1941. Int. payable J. & D. in United States in gold coin of present weight and fineness. Miners Bank of Wilkes-Barre, Pa., trustee, callable at 115 and int. on 60 days' notice.

Convertibility.—Bonds are convertible into stock at any time, par for par.

Sinking Fund.—A sinking fund of $50,000 will be set aside by semi-annual payments to purchase bonds in the open market up to 115 and int. and if not purchasable at or below that price, the trustee is to invest the sinking fund in U. S. or Canadian Government bonds and hold same for the benefit and ultimate redemption of these series "A" bonds.

Data from Letter of V.-Pres. Angus McLean, Bathurst, N. B., May 23.

Company.—Incorp. in 1921 under Dominion of Canada laws and purchased all the property, rights and franchises of the Bathurst Lumber Co., Ltd., as a going concern. The Lumber company has been in successful operation since 1907 and the business started and developed by them will be continued and further enlarged. Mills situated at Bathurst, N. B.

Capitalization—	*Authorized.*	*Outstanding.*
Capital stock	$15,000,000	$9,774,000
20-Year 7½% Convertible bonds (present issue)	3,000,000	1,500,000

Timber Properties.—Consist of the following areas owned or controlled under lease from the Legislatures of New Brunswick and Quebec Provinces: (a) New Brunswick, 1,043½ sq. miles or 667,840 acres; (b) Quebec, 480¾ sq. miles or 307,680 acres.

The above lands are held by the company and in addition they own 4-5ths of the capital stock of the Cascapedia Manufacturing & Trading Co., a joint stock company incor. in Canada. This company controls under lease from the Quebec Government 1,051½ sq. miles of 672,960 acres of timber lands in the Gaspe Peninsula, on the Rivers Grand Cascapedia, Little Cascapedia and Bonaventure.

Assets.—As of April 30 1921, upon the sale of these bonds, current assets $3,125,105 against current liabilities of $1,402,670.

Earnings.—Net earnings of the Lumber Co., after deducting all expenses, maintenance, interest, &c., were as follows: 1916, $664,195; 1917, $641,765; 1918, $683,385; 1919, $661,556; 1920, $1,771,533; 5-yr. period, $4,422,434.

There have been deducted from the net earnings as reported to be $4,422,434 for the five year period, the following: Bond interest & taxes, $337,567; income taxes, $71,048; dividend paid, $965,015; reserve for bad debts, $115,574; reserve for depreciation & obsolescence, $1,627,343; Other losses, $105,462; total, $3,222,009. Less amount written off for depreciated market value of inventory, $598,375. Surplus, $602,050.

Beacon Falls Ruber Shoe Co.—*Balance Sheet.*—

Consolidated Balance Sheet Feb. 28 1921 (incl. Top Notch Co., Inc., and Beacon Falls Electric Co.)

Assets—		*Liabilities*—

x Consisting of (a) finished goods, $1,575,546; (b) goods in process and raw materials, $332,747; (c) factory and miscell. supplies, $157,591. Compare V. 112, p. 2645, 2540.

Beaver Board Companies.—*Dividends Passed.*—

A press dispatch from Chicago, June 22, stated that the Chicago Stock Exchange has been notified that at a meeting of the board of directors of the Beaver Board Companies on June 17, the Preferred and Common dividends, ordinarily payable July 1, were passed.—V. 112, p. 1870, 935.

Boston Cape Cod & New York Canal Co.—*Government Offers $11,500,000 for Canal.*—

Secretary of War Weeks has recommended to Congress that the Government purchase the canal for $11,500,000. The purchase price, it was announced, has been agreed upon by the company and the Department, and is approximately $5,000,000 less than the price allowed by a Federal Court jury at Boston in condemnation proceedings instituted by the Government.—V. 112, p. 852.

Boston Ground Rent Trust.—*Obituary.*—

Lawrence Minot, who has been active in connection with the Boston Ground Rent Trust, Bay State Associates, Western Real Estate Trustees, Dwelling Associates, and other real estate trusts in Boston, died a few days ago. William Minot succeeds Lawrence Minot as trustee of the Boston Ground Rent Trust and the Hotel Bellevue Trust.

British American Nickel Corp., Ltd.—*Refinancing.*—

The corporation has definitely carried through its re-financing scheme and its capital is now arranged for as follows: (a) $6,000,000 1st Income bonds; (b) $18,500,000 2nd Income bonds (consisting of $6,000,000 "A" income and $12,500,000 "B" income), and (c) $20,000,000 Common stock.

Hon. Edgar N. Rhodes, Speaker of the House of Commons, effective July 1, will take charge of the Corporation, having been appointed Pres. & Mgr. Director. Capt. D. Vogt resigns as President, having been elected Vice-Pres. & Man. Director for its European office. A. Gronningsater, Chief Consulting Eng., has been appointed Technical Director, and S. M. Brown, Sec.-Treas., has been elected a member of the Board. Other directors are, J. Fred Booth, Ottawa; F. W. Field, Toronto; Sir Eric Hambro, London, Eng.; E. R. Wood, Toronto; Sir U. J. R. Borresen, Kristiania, Norway.

The corporation's mine and smelter plants at Sudbury and its refinery at Deschene, Quebec, are of most modern and adequate construction and have a capacity of up to 10,000 tons of nickel per year. The plant which has been temporarily shut down owing to business depression is ready to resume when conditions warrant.—V. 112, p. 1744.

Butte Water Co.—*To Pay Bonds.*—

The $2,000,000 First Mortgage Bonds, maturing July 1 will be paid upon presentation on and after July 1 at office of the Company, Room 1801, 25 Broadway, N. Y. City.

Canadian Car & Foundry Co., Ltd.—*Tenders.*—

The Royal Trust Co., trustee, 105 St. James St., Montreal, Canada, will, until July 18 receive bids for the sale to it of First Mtge. 6% bonds due Dec. 1 1939, to an amount sufficient to absorb $200,476 now in the sinking fund.—V. 111, p. 2524.

Canadian General Electric Co.—*Capital Increase.*—

The shareholders, June 15, approved an increase in the capital stock from $12,000,000 ($10,000,000 Com. and $2,000,000 pref.) to $20,000,000, the additional $8,000,000 being all common stock. The stockholders also authorized the payment of stock dividends either fully or partly paid, and authorized the company to acquire interests in or control of any other company whose business might directly or indirectly be of benefit to the company.—Compare V. 112, p. 2087.

Carib Syndicate, Ltd.—*To Organize Carib Co. of Maine—Texas Co. to Have Option on 51% of Stock at $5,000,000.*—

The stockholders will vote July 7 on authorizing the corporation to sell and convey all its property and assets (situated outside the State of New York), to a corporation to be organized in Maine to be known as the Carib Company, with an authorized capital stock of $268,825, par $25 and to receive for said transfer 49% of the authorized stock of the Maine Company.

Secretary N. W. Ross, June 15, in a notice says:

The Texas Co. is desirous of acquiring an option to purchase 51% interest in the Carib Syndicate, Ltd. In order that such option may be lawfully acquired and exercised, it becomes desirable to organize a corporation in Maine with sufficient capital to provide for the issuance to the Carib Syndicate, Ltd., of shares equal in number to its present outstanding shares of stock and also to provide for the Texas Co's. 51% interest.

It is proposed that the Texas Company shall pay $5,000,000 to the Maine corporation for 51% of its stock in the event it shall exercise its option. During the period of the option, the Texas Co., through the selection of 7 out of 11 directors of the Maine corporation, will undertake its management and within stipulated limits will advance such sums as the Maine corporation may acquire.—V. 111, p. 2524.

Central Steel Co.—*Mill Merger Planned.*—The "Iron Trade Review," June 16 says in substance:

Companies Going into Merger.—Details of a merger of the Central Steel Co., the Massillon Rolling Mill Co., and the National Pressed Steel Co., all of Massillon, O., have been agreed upon by the directorates of the three companies under the name of the Central Steel Co. and will be formally ratified by the stockholders at a meeting to be held soon, it has been announced. The consolidation will involve a capitalization of $18,000,000. The merger has been under consideration for more than a year.

Result of Merger—Management, &c.—Officials of the companies say that greater manufacturing efficiency and additional economy in distribution will result. Each of the three companies will continue its present lines of manufacture and virtually the same management will govern under the consolidation as existed when the plants were operated separately. R. E.

Bebb of Canton, who has headed the three companies for the past five years will remain in charge as chief executive officer.

New Company, &c.—The merger has been planned by reorganization of the Central Steel Co. under the non-par law of Ohio and the taking over by the Central Steel Co. of all the property business and assets of the other companies by the exchange of stock of the Central Steel Co. to the stockholders of the other two companies.

Present Auth. Capital—		*Preferred.*	*Common.*
Central Steel Company (V. 108, p. 2435)		$5,000,000	$2,000,000
Massillon Rolling Mill Co. (V. 104, p. 564)		1,750,000	1,750,000
National Pressed Steel Co		500,000	1,500,000
New Capitalization—			
Central Steel Co	(8%)	10,000,000	300,000 sh.

Combined balance sheet will show total assets in excess of $18,000,000.

Properties.—(*a*) Central Steel Co. has 10 openhearth furnaces, billet and bar mills and produces alloy and special steel in semi-finished form.

(*b*) Massillon Rolling Mill Co. has 8 black sheet, 3 black plate and 11 cold mills and makes rails, automobile and special sheets

(*c*) National Pressed Steel Co. has a universal plate and a strip mill. It manufactures steel lumber and other products.

Sales.—Combined sales of the three companies for the last 4 years are announced as totaling $110,000,000.—V. 112, p. 2645.

Cerro de Pasco Copper Co.—*Copper Output (in Lbs.).*—

1921—*May*	1920.	*Increase.*	1921—5 *Mos.*—	1920.	*Decrease.*
4,444,000	3,890,000	554,000	22,228,000	22,844,000	616,000

—V. 112, p. 2416.

Certain-teed Products Corp.—*U. S. Order.*—

It was announced June 23 that company has obtained a U. S. Government order for approximately 120,000 squares of roofing for immediate shipment to army camps in the South. The order, it is said, approximates $225,000.—V. 112, p. 2646.

Chace (Cotton) Mills, Fall River.—*Smaller Dividend.*—

A quarterly dividend of 1¼% has been declared on the outstanding $1,200,000 capital stock, par $100, payable July 1 to holders of record June 21. In Jan. and April last, quarterly dividends of 2% each were paid. Dividend record for 1920: Jan., 6%; April and July, 10% each; Oct., 4%; total, 30%. —V. 112, p. 65.

Chadwick, Hoskins Co.—*New Director.*—

Joseph S. Maxwell, Vice-President of the New York Trust Co., has been elected a director.—V. 111, p. 2142.

Chicago Pneumatic Tool Co.—*Dividend Decreased.*—

The directors have declared a quarterly dividend of 1% on the com. stock, payable July 25 to holders of record July 15. Distributions of 2% each have been made quarterly from Jan. 1920 to April 1921, inclusive.

Chairman John R. McGinley says: "Although business has been greatly restricted by introduction of rigid economies, the company has been able to operate after liberal charges for taxes and depreciation at a small profit for first five months of this year."—V. 112, p. 1286, 1142.

Coca-Cola Co., Atlanta, Ga.—*Dividend Deferred.*—

Action has been deferred on the regular semi-annual dividend of 3½% usually paid July 1 on the 7% Cumul. Pref. stock. Dividends of 3½% each have been paid semi-annually from Jan. 1920 to Jan. 1921 incl. This action, it is stated, was taken in order to conserve cash resources.

President Charles Howard Candler, says in part: "Business is growing steadily better. The sales of the past few months have shown a large increase over sales a few months ago. The volume of business is at present running along the 1919 level but from present indications will be as good as the 1920 season."—V. 112, p. 2310, 1286.

Columbia Gas & Electric Co.—*New Director.*—

Polk Laffoon has been elected a director and Vice-President. T. F. Wickham has resigned from the directorate.—V. 112, p. 2646, 1744.

Commonwealth Edison Co.—*Bond Application.*—

The company has applied to the Illinois P. U. Commission for permission to issue $6,000,000 1st mtge. gold bonds. The proceeds of the issue, is its said, will be used to cover improvements and extensions for the current year in general and its new Calumet station in particular. The bonds, it is reported will be secured equally with the 5½% bonds now outstanding. The new securities, it is expected, will be offered by Chicago bankers on a 6¾% basis.—V. 112, p. 852.

Cornell (Cotton) Mills Corp.—*Extra Dividend of 1%.*—

An extra dividend of 1% has been declared on the stock, in addition to the quarterly dividend of 2%, both payable July 1 to holders of record June 21. In Jan. and April last like amounts were paid extra An extra of 3% was paid in Oct. 1920. In April and July 1920 dividends of 10% each were paid, while in June 1920 a special distribution of 20% was made. —V. 112, p. 1286, 66.

Corn Products Ref'ng Co.—*Usual Extra Div.—Extension.*

An extra dividend of ½ of 1% has been declared on the Common stock, in addition to the regular quarterly dividend of 1%, both payable July 20 to holders of record July 5 . An extra of ½ of 1% was paid in each of the four quarters of 1920, and also in Jan. and Apr. last.

President E. T. Bedford June 24, said in substance: "Earnings in the second quarter which ends June 30 justifies the continuation of the present dividends. Business both as regards volume and profits is exceedingly good. Our foreign relations has greatly improved and as a matter of fact they are stronger now than they have ever been because our company has its own plants and offices abroad. There has been a mistaken idea that the profits of the company were predicated on the price of sugar. As a matter of fact, the most prosperous year that the company had ever had was when sugar was selling for 9 cents a pound. At that time the company made greater earnings in proportion than when sugar was selling for 22c. a pound."

Judge Learned Hand in the U. S. District Court, June 21, signed an order amending the decree of Mar. 31 1919 and extending the time within which the company is required to dispose of its interests in the National Starch Co. until Oct. 1.—V. 112, p. 1745.

Cuba Cane Sugar Corp.—*To Pay Interest.*—

An official statement, issued July 22, says: "The interest due July 1 on the 10-Year 7% Convertible Debenture bonds will be paid and money for that purpose already has been deposited in a special account with the Guaranty Trust Co , at whose office the coupons are payable."

[The semi-annual interest, due July 1, on the outstanding $25,000,000 of 7% Convertible debentures dated Jan. 1 1920, will amount to $875,000.] —V. 112, p. 2417, 376.

Dodge Mfg. Co.—*New Building.*—

It is stated that this company, through its subsidiary, Dodge Building Corp., will erect a new 12-story office and loft building at an cost of about $1,500,000, which will provide 8,000,000 sq. ft. of space. Building will front 165 ft. on Broadway, 50 ft. on Murray St. and 73 ft. on Park Place —V. 112, p. 2647.

(Jacob) Dold Packing Co.—*Capital Increased.*—

The company has filed notice at Albany increasing its capital from $6,000,000 to $8,500,000.—V. 107, p. 1840.

(E. I.) du Pont de Nemours & Co.—*New Secretary.*—

Charles Copeland, Assistant Treasurer, has been elected Secretary and Director to succeed the late Alexis I. du Pont.—V. 112, p. 2417, 2195.

Empire Cotton Oil Co.—*Debentures Offered.*—

The company is offering for sale to stockholders $500,000 Debentures. Proceeds to be used to increase working capital. Any portion not subscribed for by stockholders will be offered for public subscription, it is stated.

An official statement says: "The company up to the close of its last fiscal year, July 1 1920, and since its organization July 1 1912, has had a very prosperous career. Like other industrial corporations, however, it has suffered some losses during the process of deflation owing to the fall in the price of its products as compared with the cost of manufacture, but the arrangement just completed restores the company to a basis which assures a continuance in the future of the profitable business which it has enjoyed in the past."

Henry E. Watkins is President.

Exchange Buffet Corp.—*Stock Offered.*—

Millett, Roe & Hagen, New York, are offering a limited amount of Capital stock of no par value at 94 a share yielding 8½%. Authorized 62,500 shares. Outstanding 55,565 shares.

Corporation is operating 32 restaurants and 38 cigar stands at business centers in New York, Brooklyn and Newark. Is installing a new restaurant at 412 Broadway, near Canal St., and on May 1 took over a large cigar stand in the Wall St. Exchange Building 43 Exchange Place. Has secured through lease the basement of a new building being erected at 73-79 Maiden Lane and 9-11 Gold St., N. Y. City. It is expected that these additions will add materially to the earning power.

Dividend Distributions Fiscal Years ending April 30.

1914.	1915.	1916.	1917.	1918.	1919.	1920.	1921
$4	$4	$5	$5	$6	$6	$7	$8

Earnings Fiscal Years—	1914-15	1917-16	1917-18	1918-19	1919-20
Net earnings	$283,834	$459,118	$477,127	$473,311	$785,628
Depreciation and taxes	29,891	49,902	76,914	177,639	330,883
Bal for dividends	253,943	409,216	400,213	295,672	x54,745

x In 1919 paid $125,545 accumulated taxes for 1917 and 1918 not previously determined.

Net earnings before depreciation and taxes, for the 6 months ending Oct. 31 1920 were $564,694, as compared with $455,694 for same period in 1919 and $216,526 in 1918. Compare V. 111, p. 298, 392.

Fisk Rubber Co., Chicopee Falls, Mass.—*Output, &c.*—

A current report believed by the "Chronicle" to be based on fact, states that the company plans an output of 100,000 tires this month, an increase of 35% over the 65,000 total of May. Last month with little initial equipment or so-called "factory business" Fisk actually did more business than in May a year ago, and compared with the previous month of this year, April sales in units showed an 80% gain.

Since the first of the year the company has reduced its finished inventory by over 225,000 tires. It is rapidly getting rid of all surplus stocks as a result of the energetic spring selling campaign coupled with a careful manufacturing program.—V. 112, p. 1512.

Ford Motor Co.—*To Increase Output.*—

The production for June, it is stated, will exceed that of any month in the company's history. At the present rate approximately 105,000 cars will be built at the Detroit plant alone. The Canadian plant in Windsor is scheduled to produce 7,000 cars, and another foreign factory will build 4,000, making the total output for June 116,000. In May 111,308 cars were constructed.—V. 112, p. 2541.

General Electric Co.—*Listing.*—

The New York Stock Exchange has authorized the listing on or after July 15 of $3,321,500 additional Capital stock par $100 on official notice of issuance as a 2% stock dividend payable July 15 to holders of record June 8 making the total amount applied for $172,901,200.—V. 112, p. 2541, 2310.

General Fireproofing Co.—*Smaller Common Dividends.*

A quarterly dividend of 1% has been declared on the Common stock, payable July 1. This issue has been on a 7% per annum basis since 1913; 1% extra was paid in 1914. The last dividend of 1¾% paid on the Common stock was in April last.—V. 112, p. 656.

General Motors Corp.—*Consolidating Subsidiaries.*—

The corporation announces that J. Parker B. Fiske has resigned as Pres. & Gen. Mgr. of the Frigidaire Corp., effective June 20. The Frigidaire interests are being merged into the Delco Light Co. of Dayton, Ohio, a subsidiary of General Motors, and will be under the direction of R. H. Grant, Gen. Mgr.

Bonus Awards for Calendar Year 1920.—

The corporation this week is awarding 6,577 of its employees 6,332 shares of 7% debenture stock and 117,552 shares of Common stock as bonus for the calendar year ended 1920. The bonus plan was adopted in 1918 principally with a view to induce employees of exceptional merit to remain with the coropration for a period of at least 5 years. It is the intention to continue the plan year after year, the right being reserved, of course, to modify or repeal the plan at any time, however a bonus once granted an employee cannot be recalled or modified.

The annual awards under the bonus plan are held in trust for the employee for a period of five years, but during that time dividends are paid direct to the employee.

Awards (in shares) for the three calendar years are as follows:

	1920.	1919.	1918.	*Total.*
Common shares	117,552	214,659	261,460	593,671
No. employees	32,10	1,721	2,277	7,208
7% Deb. shares	6,332	14,088	----	20,420
No. employees	3,367	4,709	----	8,076

The Corporation each year, after deducting from net earnings 6% on the capital employed in the business, sets aside 10% of the remaining net earnings and this money is placed in the Bonus Fund, which is invested in the Common and 7% Debenutre stock. The total amount of money set aside out of earnings in the three years, with which to carry out the bonus plan work is in excess of $13,000,000. This does not include the expenditures of administration.—V. 112, p. 2310, 2195

Goodyear Tire & Rubber Co.—*Increases Production.*—

A dispatch from Akron, June 24, states that a call has been issued by the company for from 1,500 to 2,000 tire builders, making a total of nearly 3,000 men the company will re-employ this week. While definite production figures are not available, it is understood the company will seek to reach a production of more than 25,000 tires daily as soon as possible. The factories now are on a basis of 20,500 tires a day and working 5½ days a week. Every tire department will operate 24 hours a day with three full 8-hour shifts, and 6 full days a week, officials announce.

The production increase, it is stated, is due not only to steadily increasing dealer's sales, but to a spurt in tire specifications from automobile manufacturers. Nearly all car makers have increased their original equipment orders for July.

The company has reduced prices on all truck tires. Average reduction on 6,7 and 8-inch pneumatic truck tires is 23½%. Reduction on all solid truck tires averages 12%. Prices on pneumatic truck tires over 8 inches and on new solid tires have also been reduced.—V. 112, p. 2419, 2541.

Greenfield Tap & Die Corp.—*Acquisition.*—

The directors on June 9 voted to purchase the entire capital stock o the Greenfield (Mass.) Machine Co., manufacturers of cylindrical and universal grinders, and the Morgan Grinder Co., Worcester, manufacturers of internal grinders. This combination together with the machines now produced by the Greenfield Tap & Die Corp will constitute the machine division of the Greenfield Tap & Die Corp. The operation and organization of both plants will remain the same for the present, although eventually the Worcester plant will be moved to Greenfield.—V. 112, p. 2541.

(D. W.) Griffith, Inc.—*Smaller Dividend.*—

A dividend of 50 cents per share has been declared on the Class "A" stock payable July 22 to holders of record July 1. On Mar. 4 last a dividend of $1 per share was paid.—V. 112, p. 377.

Groton Iron Works.—*Notes.*—

The Groton Iron Works has notified holders of its notes maturing April 3 and Oct. 3 1921 that the majority have accepted the proposal of the company that notes be taken up and interest-bearing bonds be given in exchange. The bonds are to be secured by all the assets of the company. Noteholders who have not responded are asked to send in their notes to facilitate obtaining new construction. ("Wall Street Journal.")—V. 111, p. 1476.

Guffey-Gillespie Oil Co.—*Application for Receiver, &c.*

The application of the Tidewater Oil Co. to the Federal Court at Wilmington, Del., for the appointment of a receiver for the Guffey-Gillespie company has been postponed to June 29. The court, however, has granted a temporary injunction against the management of the Guffey company from paying out any funds except for wages.

One of the chief reasons for the Tidewater Oil Co. asking that a receiver be appointed is that the management of the Guffey-Gillespie is said to have refused to show their books to the Tidewater interests, who recently secured control of over 60% of the stock through purchase at $15 a share.

It was the plan of the Tidewater company to take over complete management of the Guffey company because it believed many economies in operation could be effected, especially in the Midcontinent field. The present Guffey-Gillespie management, according to Tidewater, failed to carry out these economies themselves. It is also stated that the present Guffey management has refused to resign with the exception of Joseph F. Guffey.

J. C. Chaplin, V-Pres. of Colonial Trust Co., Pittsburgh, announced June 22, that regisnations of all Guffey-Gillespie directors had been placed in his hands.—V. 112, p. 1985.

Gulf Oil Corp.—*To Pay Notes.*—
The $6,000,000 6% notes due July 1 will be paid off at office of Union Trust Co., Pittsburgh. The money has been provided by the issuance of $35,000,000 7% debenture bonds. See V. 112, p. 657, 853, 1029.

Hanna Furnace Co., Cleveland, O.—*Guaranteed Bonds Offered.*—Dillon, Read & Co., New York, &c., and Union Trust Co., Cleveland, are offering at 99½ and int. yielding over 8.10% by advertisement on another page, $4,000,000 1st M. 8% Sinking Fund Gold bonds.

Dated June 1 1921. Due June 1 1926. Denom. $1,000 (c*) Int. pay-payable J. & D. at Dillon, Read & Co., New York, and Union Trust Co., Cleveland, trustee. Callable as a whole on any int. date, on 30 days' notice: at 103 and int., to and incl. June 1 1923; at 102 and int., to and incl. June 1 1924, and at 101 and int. thereafter. Penn. 4-mill tax refunded.

Guaranty.—Principal, interest and sinking fund guaranteed by endorsement by M. A. Hanna & Co., Cleveland.

Sinking Fund.—Mortgage provides a sinking fund of $300,000 annually, accruing from June 1 1921, payable quarterly, for the purchase of bonds in the market if obtainable up to par and int., but if bonds are not so obtainable any accumulations in excess of $300,000 shall revert to the company.

Data from Letter of Pres. H. M. Hanna, Jr., Cleveland, June 18.

Company.—A consolidation of the Hanna interests in 1920 (V. 111, p. 1856). Company is the largest independent producer of merchant pig iron in the United States operating 8 modern blast furnaces in the Middle West with a yearly capacity of approximately 1,000,000 tons. Entire product is marketed by its sales agents, M. A. Hanna & Co., of Cleveland.

Security.—Secured by direct first mortgage lien on entire fixed assets and leaseholds now or hereafter owned, subject to serial 5% and 6% bonds aggregating $440,000, on a part of the properties mortgaged. Further secured by pledge of securities representing company's interests in Hanna Ore Mining Co., and various ore and coal mining, coke producing, lake vessel, and other companies.

Purpose.—Proceeds will be utilized in payment of current obligations and in increasing working capital.

Earnings.—Net income after depreciation, available for interest and Federal taxes, of the combined properties now operated, for the 4 years ended Dec. 31 1920 (incl. Buffalo Union Furnace Plant for the 4 years ended April 30 1920): 1920, $1,709,994; 1919, $1,941,857; 1918, $3,730,423; 1917, $2,637,770.

Balance Sheet of Dec. 31 1920 (*after present financing*).

x Assets—		*Liabilities*—

Total (each side)	$22,813,070		

x Included in the above assets are raw materials, supplies, &c., together with securities, taken over from the Buffalo Union Furnace Co., under the lease agreement and purchase option, aggregating $1,944,228 covering which a similar amount appears, per contra. y At cost or market, whichever is lower. z Represents 189,500 no par value shares. Compare V. 111, p. 1856, V. 112, p. 166.

Haytian American Corp.—*Receiver's Sale.*—
Pursuant to decree of the U. S. District Court, Southern District of New York, James N. Rosenberg, Receiver, will offer at public sale at Court Room No. 3, Woolworth Bldg., N. Y. City, on July 8, all of the assets of the Corporation, including all of the outstanding capital stock of Compagnie des Chemins de Fer de La Plaine du Cul de Sac, Compagnie d'Eclairage Electrique des Villes de Port Au Prince et Du Cap-Haitien, Haytian American Sugar Co., and approximately 73% of the outstanding Capital stock of Compagnie Haitienne du Wharf de Port Au Prince, together with various bonds, obligations and indebtedness of the several above-named companies to the Haytian American Corp., being substantially the entire debt of the several companies. [The plan proposed by the management—V. 112, p. 377—has been abandoned.]—V. 112, p. 1982.

Houghton & Dutton Co.—*Stock Increase—Dividends.*—
The stockholders on April 5 last authorized an increase in the authorized capital stock from $200,000 common, $200,000 7% pref. and $900,000 7% 2d pref. to $500,000 common, $200,000 7% pref. and $1,000,000 7% 2d pref.

A stock div. of 21% on the 2d pref. stock was paid in 2d pref. stock to stock of record March 30 in payment of all divs. unpaid and accrued. A stock div. of 100% on the common was also paid to com. stock of record March 30. This brings the outstanding stock up to $400,000 common, $103,800 7% pref. and $968,000 2d pref. Company has $90,000 mortgage outstanding.—V. 112, V. 2311.

Humble Oil & Refining Co.—*Production.*—
During the first quarter of 1921 the company produced 3,767,000 bbls. This compares with approximately 10,000,000 bbls. produced in 1920, 7,000,000 bbls. in 1919 and 5,000,000 bbls. in 1918.—V. 112, p. 2088, 1029.

(Robert H.) Ingersoll & Bro. (Ingersoll Watches).
Readjustment—Status—Creditors' Committee—Balance Sheet.—
The committee in charge of the readjustment of the affairs of the company, of which Howard C. Smith, of Hathaway, Smith, Folds & Co. is chairman, in a notice to the creditors June 21 states in brief:

"The committee's examination of the company's affairs convinces them that the organization had been unduly extended for the business which the company was doing. Its business was at a minimum, due largely to the fact that for several years co. made no discount on quantity sales.

"In addition, complications between the Waterbury Clock Co. and this company, covering their business made it necessary to readjust their relations and to determine what these should be before any estimate of the future could be made.

"Steps were at once taken to reduce expenses and this has now been done in the amount of over $70,000 a month, and further reductions are being worked out as business develops.

"On the advice of T. S. Atwater (the committee's manager), the company has already started sales of watches on a jobbing basis and one contract has already been closed, with several more in negotiation.

"The committee has undertaken negotiations for liquidating the company's debts and expects shortly to submit to the creditors a thoroughly workable plan."

Committee.—Howard C. Smith, Hathaway, Smith, Folds & Co., Chairman; T. S. Atwater, Manager; James H. Carter, V.-Pres. National City Bank, N. Y.; L. M. Graves, V.-Pres. National Union Bank, Boston; J. W. Brantman, Illinois Watch Case Co.; Henry Ollesheimer, Pres. Metropolitan Bank, N. Y., with Shearman & Sterling, counsel, and Vincent Jaunne, Sec.

Condensed General Balance Sheet May 31 1921.

Assets—		*Liabilities*—	
Cash	$169,781	b Current operations	$202,193
Impounded bank balance	168,095	c Oper. prior to Apr. 16 '21	2,702,586

c Notes and accts. payable dep. with Bankers Comm., $1,739,745; notes and accts. payable undeposited, $879,404; foreign drafts discounted, $50,138; int. accrued on 11.1 & 11.2, $4,317; reserve for deferred liability, $28,982.

International Fur Exchange, Inc.—*To Be Liquidated.*—
The International Fur Exchange, Inc., having sold all of its branches to two corporations organized in St. Louis and being stripped of its receivables, stocks of fur and a claim for $2,500,000 against a credit insurance company, is to go through a long and gradual process of liquidation. The bankers interested in the company generally have written off as a total loss 25% of its obligations to them, the Guaranty Trust Co., for example, charging $1,500,000 to its profit and loss account.

Although it is believed that the write-off covers considerably more than the loss which will be realized eventually, the directors of the Chase National Bank took an ultra-conservative action in writing off 50%, or $4,500,000, as a charge to its profit and loss account. The corporation's liquidation is going to take a long time. In fact, it may not be cleared up for two years or more. ("Journal of Commerce.") See V. 112, p. 2647.

International Nickel Co.—*Executive Committee.*—
Charles Hayden has been elected a member of the executive committee.—V. 112, p. 2542, 1532.

Interstate Public Service Corp.—*Notes Offered.*—
William H. Foxall & Co., Inc., Rochester, N. Y., are offering at 100 and int. $250,000 10-Year 8% Secured Convertible Gold Notes. Dated July 1 1921. Due July 1 1931. Interest payable J. & J. at Bankers Trust Co., N. Y. City, or Union Trust Co., Rochester, N. Y., trustee Denom. $1,000 and $500(c*). Red. on any int. date on and after Jan. 1 1927 by sinking fund at 100 and int.

Data from Letter of J. George Kaelber, President of the Company.

Capitalization after this Financing—	*Authorized.*	*Outstanding.*
30-Year Collateral Trust 5% gold bonds	$2,500,000	x$1,158,000
10-year 8% secured notes, due 1931 (this issue)	250,000	250,000
8% unsecured coupon notes, due 1921	310,000	252,000
7% Preferred stock	500,000	420,000
Common stock	1,500,000	750,000

x Includes $358,000 deposited as security for this note issue.

Corporation.—Owns all of stocks and securities of Keystone Electric Service Corp., supplying electric light and power in Johnsonburg, Kane, Mt. Jewett, Ridgway, St. Marys, James City and several small communities in Pennsylvania.

Earnings.—Net earnings for 1920 were $141,955, equal to 1.77 times annual interest requirements on all the present funded debt, including this new issue, and the unsecured 8% notes.

Conversion.—At option of holder notes may be converted on any interest date into the 30-year collateral trust 5% gold bonds of corporation on the following basis: On or before July 1 1924 at 75 for bonds; from July 1 1924 to and incl. July 1 1927 at 80, and thereafter to and incl. July 1 1931 at 85.

Island Oil & Transport Corp.—*New Well.*—
The company received a cable June 18 that well on Lot 191, Zaxamixtle, came in good for 75,000 bbls. a day.—V. 112, p. 2196.

(H. W.) Johns-Manville Co., Milwaukee.—*New Plant.*—
The company will proceed with the work of constructing and equipping its new plant at Waukegan, Ill., projected at an estimated investment of $6,000,000, and replacing the present asbestos and roofing products plant in Wauwatosa. Work was started more than a year ago, but has proceeded haltingly. Reduction of wages in the building trades and more favorable prices of materials has induced the company to resume work with the intention of pushing it to completion.—"Iron Age."—V. 108, p. 273.

Jones Bros. Tea Co., Inc.—*May Sales.*—

1921—*May*—1920.	*Decrease.*	1921—5 *Mos.*—1920	*Decrease.*
$1,427,103 $1,721,517	$294,414	$7,164,243 $8,086,566	$922,323

—V. 112, p. 2311, 1982.

Kewanee (Ill.) Boiler Co.—*Bonds Offered.*—Bartlett, Knight & Co., Chicago, are offering at prices to yield 8% $1,000,000 (closed) 1st Mtge. 6% Serial Gold bonds. (See advertising pages.) The bankers state:

Dated March 1 1920; due $100,000 March 1 1923 to 1932 incl. Red., all or part (but no part less than the whole of any maturity) at 101 on any int. date. Denom. $100 and $500. Union State Savings Bank & Trust Co., Kewanee, Ill., trustee. Int. payable M. & S. without deduction for normal Federal income tax of 2%.

Company.—Incorp. in 1892. Is one of the largest manufacturers of steel heating and power boilers and cast iron radiators in the country. Plant and general offices at Kewanee, Ill. Sales offices in Chicago, Minneapolis and other large cities.

Security.—A direct obligation of the Kewanee Boiler Co. and secured by a closed first mortgage upon the company's property. All the buildings are of modern construction, situated on over 27 acres of land in the city of Kewanee. Real estate plant and equipment, less depreciation, is carried on co.'s books at $2,300,000.

Purpose.—Proceeds of this issue were used to retire a small former mortgage, to increase the size of the plant and to enable company to keep pace with the revival of building, which will greatly increase the demand for its product.

Earnings.—Average earnings for past 5 years have been over 4½ times interest requirements of this issue, and for 10 years average earnings have been over 3 times.

Dividends.—Pref. stock dividends have been paid regularly and Common stock has received 7% annually to Feb. 1 1918 and 8% since. Extra dividends on the Common have also been paid.—V. 103, p. 2432.

(S. S.) Kresge Co.—*Listing.*—
The New York Stock Exchange has authorized the listing of $2,000,000 additional Common stock, par $100, on official notice from the trustee of issuance in exchange for outstanding stock option warrants, making the total amount applied for $12,000,000.—V. 112, p. 2542.

Lamson-Sessions Co., Cleveland.—*Consolidation.*—
The consolidation of the Lamson-Sessions Co., Cleveland, and the Falls Rivet Co., Kent, O., has been announced, effective July 1. Combined capitalization will be $3,000,000. The title of the consolidation has not yet been decided. Combined total capacity 2,000 tons of finished product monthly. Products include nuts, bolts, rivets, monkey wrenches, &c. The merger will involve no new financing. Officials will be: Pres., F. C. Case, now Pres. of Lamson-Sessions Co.; V.-Pres., Roy Smith, Pres. of Falls Rivet Co.; V.-Pres. & Treas., J. G. Jennings; Sec., I. L. Jennings. Directors include the officers and George S. Case, Charles L. Wasmer, H. L. Judd, Cleveland; T. King, Boston, and W. S. Kent, Kent, O. "Iron Trade Review.")

Laurel Lake Mills, Fall River.—*Capital Increase.*—
The stockholders have voted to increase the capital stock from $600,000 to $900,000 by the issuance of $300,000 of Pref. stock. See V. 112, p. 2647.

Laurentian Power Co., Ltd.—*Bonds Offered.*—Nesbitt, Thomson & Co., Ltd., Montreal, are offering at 88½ and int. to yield 7¼% $1,000,000 6% 1st & Ref. Mtge. Sinking Fund Bonds.

Dated Jan. 1 1916. Due Jan. 1 1936. Int. payable J. & J. at Imperial Bank of Canada, Montreal and New York. Denom. $100, $500 ad $1,000. Trustee, Montreal Trust Co. Annual sinking fund begins Jan. 1 1923.

Data from Letter of Pres. Adelard Turgeon, Montreal, March 17

Company.—Incorp. under Quebec Companies Act March 13 1911. Powe house at Seven Falls has an installed capacity of 18,000 h.p.; total capacity

of 24,000 h.p. Company has a 25-mile high-tension transmission line of 50,000 volts. Has a contract with the Quebec Railway, Light & Power Co. for 10,000 h.p. until Sept. 1 1940.

Capitalization—	*Authorized.*	*Issued.*
Common stock	$2,000,000	$2,000,000
7% Cumulative Preferred stock	350,000	350,000
6% bonds due 1936 (this issue)	2,000,000	x1,400,000

x Of these bonds, $400,000 are held in escrow to retire a like amount of underlying 5% bonds of the Stadacona Hydraulic Co., due 1931. The remaining treasury bonds can only be issued to the extent of 66 2-3% of the cost of additional capital expenditure.

Earnings.—The net earnings from above contract alone for 1920 are $161,000, or equal to twice the interest charges on the outstanding bonds after deducting operating and maintenance expenses.—V. 112, p. 1872.

Lehigh Coal & Navigation Co.—*Bonds Called.*—

Eleven ($11,000) Consolidated Mtge. 4½% Sinking Fund gold bonds, Series "A," have been called for payment July 1 at 102½ and int. at the Pennsylvania Co. for Insurances on Lives & Granting Annuities, 517 Chestnut St., Philadelphia.—V. 112, p. 1030, 938.

Loew's Theatres Co.—*New Name, &c.*—

See Loew's Boston Theatres Co. above.—V. 112, p. 2418.

Loew's Boston Theatres Co.—*Listing—New Name, &c.*

The Boston Stock Exchange has substituted for the 171,250 shares (par $10) Common stock Loew's Theatres Co. now on the list, temporary certificates for 114,167 shares (par $25) Common stock Loew's Boston Theatres Co. Action to this end was taken by the stockholders April 20 1921 when (*a*) the name of the Corporation was changed to Loew's Boston Theatres Co.; (*b*) the par value of the Common stock was changed to $25 per share in place of $10 per share; (*c*) the authorized Common stock was increased from $2,000,000 to $3,000,000. The stock was distributed and exchanged by issuing 114,167 shares of the new stock, par $25, to the stockholders in exchange for their stock in proportion of two of the new shares or three of the old shares.

Balance Sheet April 10 1921 (*After Adjustment*)

Purpose.—To provide for betterments and additions to the plant.—V. 112, p. 2089, 1983.

Ludlum Steel Co., Watervliet, N. Y.—*Stock Offered.*—

Richardson, Hill & Co., Boston, are offering at $20 per share, Common stock (no par value). A circular shows:

Capitalization—	*Authorized.*	*Outstanding.*
7% Serial Gold Coupon notes (V. 108, p. 1515)	$1,000,000	$800,000
Common stock (no par)	200,000 sh.	110,955 sh.

Business.—Company manufactures alloy, carbon and special steels by electric furnace process. The Ludlum furnace, perfected in 1913, is the only one developed exclusively for tool steel making.

Sales.—Sales for the last 5 years have averaged $3,579,041 per year. Sales in 1920 were $3,931,242, the second largest in the company's history.

Earnings.—Average net earnings for these 5 years were $585,000 per year. After writing off raw materials and supplies to market value, net earnings in 1920 were $3 per share on the Common stock now outstanding (including present offering).

Purpose.—The purpose of present financing is to reduce current debt.

Consolidated Balance Sheet Dec. 31 1920 (*Including Subsidiary Companies*).

McCord Manufacturing Co.—*Orders.*—

An order has been received from Dodge Brothers for 20,000 automobile radiators. In order to fill the order the equivalent of 40 days' operations at capacity will be required.—V. 112, p. 1405, 378.

Mapos Central Sugar Co.—*Foreclosure Sale.*—

As a result of default under its mortgage to Continental Trust Co., Baltimore, trustee, given to secure an issue of $1,000,000 6% 1st Mtge. bonds, the property of the company in Cuba will be sold at public auction July 23. The sale will be under foreclosure proceedings instituted by the trustee in the District Court of Sancti Spiritus, Cuba, where the property is located.

Massillon Rolling Mill Co.—*Merger.*—

See Central Steel Co. above.—V. 104, p. 564.

Mathieson Alkali Works, Inc.—*Preferred Dividend Deferred—Reopens Saltville Plant—Wage Reductions, &c.*—

The directors have decided to omit the regular quarterly dividend on the Pref. stock due July 1.

Data From Letter of Pres. E. M. Allen, New York, June 20.

Because of acute business depression, which has affected the company in common with all other manufacturing enterprises, the directors in the best interests of the company deferred the Pref. dividend usually paid July 1 in order to conserve the company's cash resources in every way possible. As dividends on the Pref. stock are cumulative, this action should result only in postponing the payment.

In the interests of economy, we closed the Saltville works on April 3. During the interval, we have shipped a very large proportion of the finished product in storage, which was produced during the period of high costs. We have also reduced wages 35% from the peak rates. We have made many necessary repairs and changes and are starting the plant this week under conditions which justify the expectation that, under normal production, costs will be largely decreased.

The Niagara Falls plant is still running at only 30% capacity. With the exception of bleach, the sales of which are largely dependent upon the paper industry, there are practically no manufactured stocks on hand. We have reduced labor costs at these works 30% from the peak rates, which under normal trade conditions, will also enable us to largely reduce costs of production.

Our chief trouble has arisen from the failure of customers to accept deliveries of merchandise. Our normal capacity for the balance of the year is under contract at good prices but under conditions now existing, it seems more advisable to recognize the difficulties under which patrons are laboring than to take the chance of loss of good will which would be incident to an effort to force deliveries upon them.—V. 112, p. 1515.

Maxwell Motor Corp.—*Trustee.*—

The Central Union Trust Co. of New York has been appointed trustee of the $13,500,000 1, 2 and 3-year 7% gold notes, dated June 1 1921.—V. 112, p. 2648, 2542.

Mexican Eagle Oil Co., Ltd., London.—*Production Increasing Despite Appearance of Salt Water—Status—Usual Interim Dividend—Change in Fiscal Year.*—

The Whitehall Securities Corp., Ltd., the London fiscal agents, issued the following statement (in substance):

Successful Drilling.—Since the report for year ended June 30 1920, further successful drilling has resulted in the completion of Los Naranjos Well No. 21, also Potrero Well No. 10, and Zacamixtle No. 4, with estimated daily production of 60,000, 10,000, and 20,000 barrels respectively. In addition, Naranjos Well No. 19 has recently been successfully completed, and the Tampico management state that in their opinion this well will probably be one of the largest in the district. This additional production (with the exception of Zacamixtle No. 4) being in excess of the company's present needs to keep their pipelines fully engaged, has been shut in as reserve. Other wells are drilling in the Los Naranjos district, also in Horcones and Cerro Viejo, adjacent to the recent successful Potrero Well No. 10.

Production Increased.—The company is engaged in an extensive drilling programme in the Zacamixtle district, and is also preparing several drilling locations in a new pool, recently proved between Los Naranjos and Zacamixtle, known as the Central Amatlan field. In furtherance of the company's policy of keeping exploration work well in advance of production requirements, work is energetically proceeding for drilling on the company's large areas south of the Tuxpam River, also on the Isthmus of Tehuantepec and in the State of Tabasco.

Despite the appearance of salt water in areas where heavy competition exists, the company's production has steadily increased, and further consolidation of the position has resulted by the completion of reserve production mentioned above.

Pipe-Line Capacity to be Increased.—The company's crude oil supply is still largely in excess of its pipe-line capacity. It was originally intended to bring the pipe-line capacity up to a total quantity of 140,000 barrels of crude oil daily—i. e., 50,000 barrels to Tuxpam and 90,000 barrels to Tampico. Owing to the large quantities of crude available, however, it has been further arranged to increase the pipe-line capacity to these ports to the extent of an additional 10,000 barrels daily to Tuxpam and 5,000 barrels daily to Tampico. Once this has been carried out the company will have a combined delivery to these two ports of 155,000 barrels daily.

Oil Loaded.—The total amount of oil loaded at Tuxpam from July 1 1920, to Dec. 31 1920, excluding shipments to Minatitlan, amounted to 4,495,939 barrels for the six months, as compared with 6,051,740 barrels for the previous twelve months. Shipments and local sales ex Tampico amounted to 9,096,129 barrels for the six months, as compared with 12,540,808 barrels for the previous twelve months. Shipments and local sales ex Minatitlan were 2,254,605 barrels for the six months, against a total for the previous twelve months of 3,840,586 barrels.

Refineries, &c.—The Tampico refinery is able to take care of a through-put of 65,000 barrels daily, and the further extensions to enable a through-put of 90,000 barrels daily to be taken care of are well in hand, and should be finished shortly.

The refinery at Minatitlan, which is capable of attaining a through-put of 15,000 barrels daily when required, is now operating at a through-put of 12,500 barrels daily.

The present capacity of the topping plant at Tuxpam is 15,000 barrels daily, but the construction of a further 10,000 barrel unit is in hand, which will bring the total capacity of the topping plant at Tuxpam up to 25,000 barrels daily. Progress on this second unit has been slow, owing to the difficulty of obtaining material.

Fleet.—The Eagle Oil Transport Co.'s fleet of tank steamers now amounts to a total of 293,600 deadweight tons, an increase of 63,000 tons d. w. capacity over last year.

Alteration of Financial Year.—The directors propose that the financial year end Dec. 31 instead of June 30, as heretofore. In order that shareholders may not suffer inconvenience by the proposed change, the company will issue (about Dec. 1921) accounts for the year ending June 30 1921, and also (about June 1922) further accounts for the six months ending Dec. 31 1921. Thereafter yearly accounts will be issued to Dec. 31.

Dividend.—The usual second interim dividend of 6% will be paid on June 30 1921.—V. 112, p. 2648.

Mexican Petroleum Co., Ltd.—*Earnings—Outlook.*—

Blair & Co. have sent out to the members of the syndicate which floated the $10,000,000 Marine Equip bonds of the Pan American Petroleum & Transport Co. in July 1920 (V. 112, p. 394) the following statement:

"In view of your interest in the bonds of Pan American Petroleum & Transport Co., we beg to advise you that Mexican Petroleum has made the following official statement to us:

" 'The last balance sheet dated May 1 1921, shows quick assets of $29,062,750, of which $11,957,224 was cash and current liabilities, including reserves for taxes and contingencies, $11,774,575. Net earnings available for interest charges for four months ended April 30 1921, are $5,181,638, and it is estimated for the present calendar year net earnings after allowing $6,000,000 for taxes and other items will be $22,150,000, of which $530,000 is necessary for interest this year. These estimated earnings, which it is anticipated will be the largest in the company's history, are largely based on contracts with thoroughly responsible purchasers.' "

Pres. Doheny on the Salt Water Raids and the Loaning Supply.

Commenting to a representative of the N. Y. "World" on the reports of salt water in the Mexican oil wells, President Edward L. Doheny said:

"Reports that our wells were going over into salt water have been used on the basis of every bear raid on the stock which has been made since last Feb. Most of the talk has already been discredited and disproved. No additional news of salt water in wells has come to us since then.

"The charge that the Pan-American Petroleum & Transport Co. is selling or loaning stock on the Street has also been indulged in ever since Feb. Mr. Barron of the Boston 'News Bureau' wired me in March or April inquiring with regard to this matter. I immediately sent our Auditor and Secretary into the vaults to count every share of stock and wired back that all the Mexican Petroleum Common and Pref. stock owned by the Pan-American Petroleum & Transport Co. was in the vault in Los Angeles, had never been taken out nor loaned to anybody for any purpose; that not a share had been sold and that the stock stood in the name of the Pan-American on the books of the Mexican Petroleum Co., as could be evidenced by the registrar both in New York and Los Angeles. The same statement is true to-day.

"The same is true as to the Huasteca Petroleum Co., which is a substantial stockholder of the Mexican Petroleum Co., Ltd., and this statement can be made also with regard to the President and managing officers of the company.

"It is also true that all statements given out with regard to the company's properties by its officers have always been true and conservative, that they have been favorable, notably since our visits in Nov., in Feb., March and in April to Mexico, which were made by the President, the Vice-President and many officers in view of the very interesting developments which were being obtained as the result of the drilling campaign begun last year.

"As to the amount of stock available for trading purposes being only 70,000 shares as suggested, I cannot be exactly informed, because all that I can know is the total amount of it owned by the Pan-American Petroleum & Transport Co., the Huasteca Petroleum Co. and its officials. The difference, as shown by the dividend list, amounts to 118,612 shares of Mexican Petroleum common stock, which is owned by many persons and firms. I have no means of knowing whether they have loaned this stock for trading purposes or not. Consequently, while the outside limit of the total amount which might be loaned is as above given—118,612 shares—the difference between our own holdings and the total issue it seems quite likely that a substantial part of that difference is not actually available for loaning or trading purposes. Whether it amounts to over 70,000 shares or not I have no means of knowing.

"I hope the Stock Exchange will make such an investigation as will bring to the light of day the mystery and conspiracy which exists with regard to the drive on these securities and particularly that point which the general public does not understand, as to how enormous sales can be made daily with a limited amount of stock available for loaning purposes.

"In connection with such an investigation the company's books and any information its officials may have which the Stock Exchange desires will always be available on request."

[See also under "Current Events" in V. 112, p. 2606, and the much talked-of report of J. A. Phelan given in full in the Petroleum Section (p. 9) of "Oil, Paint & Drug Reporter" for June 20.—Ed.]—V. 112, p. 2648.

Mexico Light & Power Co—Mexico Tramways.—

Financial Plan.—The bondholders committee named below, at London, under date of May 30, presented substantially the following plan on whch the bondholders of the several companies will vote at Winchester House, Old Broad St., London, on June 29. Compare also the report of the committee under "Financial Reports" above.

Principal Terms of the Provisional Agreement of Arrangement.

Protective bondholders' committees to be appointed for the several bond issues now outstanding, with power to suspend the current interest on the bonds for one year in case extraordinary conditions render such action advisable, and also with power on behalf of Mex. Lt. & P. 1st M. bonds and Mex. Tramways Gen. Consol. 1st M. 5% to nominate a majority of the bonds.

(A) The Mexican Light & Power Co., Ltd.

(1) 5% *First Mortgage Gold Bonds.*—Maturity to be extended from Feb. 1 1933 to Feb. 1 1940. Arrears of interest to be paid as follows: Coupons Nos. 24 to 33 forthwith, Nos. 34 and 35 on or before June 30 1922 and No. 36 June 30 1923. Current interest to be resumed by payment of No. 37, due Aug. 1 1921.

Sinking fund payments to be resumed in 1928. All payments to that date to be waived and the method of calculation to be modfiied.

(2) 5% *Second Mortgage 50-Year Bonds.*—Maturity to be extended from Dec. 1 1961 to Dec. 1 1968. Payment to be made on June 1 1922 and half-yearly thereafter of at least one interest coupon and after 1925 all arrears to be discharged as quickly as the funds in the opinion of the committee will permit. Sinking fund not to commence until 1928; prior payments to be waived.

6% *Cumulative Income Bonds.*—An issue of about $12,000,000 6% Cumulative Income bonds to be created and issued at par to the Tramways Co. in settlement of part of the debt due to them as at Dec. 31 1921.

Creditors for Advances.—The debt to the Tramways Co. to be settled by (*a*) a payment in cash of $5,000,000 and (*b*) the issuance of the Income bonds as above mentioned; and unfunded debts of £72,968 17s. 10d. to be discharged by the payment of £32,723 19s. 5d. in cash and £15,000 in 6% 2d Mortgage bonds of the Tramways Co., the balance of the collateral held by the creditors namely £77,000 6% 2d Mtge. bonds of the Tramways Co. to be returned to such company.

(B) The Mexican Electric Light Co., Ltd.

5% *First Mortgage Gold Bonds.*—Maturity to be extended from July 1 1935 to July 1 1942. Arrears of interest to be paid as follows: Coupons Nos. 19 to 28 forthwith, Nos. 29 and 30 on or before June 30 1922 and No. 31 June 30 1923. Current interest to be resumed by payment of No. 32 falling due July 1 1921. Sinking fund payments to be resumed in 1928; all prior payments to date waived.

(C) Pachuca Light & Power Co.

5% *50-Year First Mortgage Bonds.*—Maturity to be extended from Oct. 1 1960 to Oct. 1 1967. Arrears of interest to be paid as follows: Coupons Nos. 9 to 18 forthwith, Nos. 19 and 20 on or before June 30 1922 and No. 21 June 30 1923. Current interest to be resumed by payment of No. 22, due Oct. 1 1921. Sinking fund to be resumed in 1928; prior payments to be waived.

(D) Mexico Tramways Co.

(1) *General Consol. First Mortgage 50-Year 5% Gold Bonds.*—Authorized amount to be increased (under restrictions) from $15,000,000 to $20,000,000. Maturity to be extended from Sept. 1 1956 to Sept. 1 1963. Payment to be made half-yearly beginning Sept. 1 1921 of at least one interest coupon and after 1924 all arrears to be discharged as quickly as the company's funds in opinion of committee will permit. Sinking fund payments not to be resumed until 1928; prior payments to be waived.

(2) 6% *50-Year Mortgage Bonds (Second Mortgage Bonds).*—Maturity to be extended from Jan. 1 1959 to Jan. 1 1966.

The payment of the arrears of interest to be postponed so that such arrears as well as the current interest and revised sinking fund payments will only be paid out of the surplus earnings so far as sufficient but cumulative.

As soon as all the arrears of interest have been discharged an additional 1% per annum from the surplus revenue to be applied as a sinking fund. This arrangement to remain in existence until all arrears of interest have been discharged and the current interest has been paid regularly for six consecutive half-yearly periods. After this date the interest to become again fixed and the sinking fund stipulated by the Trust Deed to come into operation should the date be 1928 or later.

All sinking fund payments accrued to date to be waived.

Creditors for Advances.—The debts due to creditors for advances amounting at Dec. 31 1920 to £1,813,897 12s. 0d. to be liquidated by the payment in cash of £982,250, and by the creditors retaining out of their collateral £196,500 6% 2d Mtge. bonds of the Tramways Co.

The balance of the collateral held by the creditors namely £1,201,700 6% 2d Mtge. bonds of the Tramways Co. £1,200,000 2d Mtge. bonds and 9,900 ordinary shares of the Light & Power Co. and £22,660 Mexican Govt. Treasury bonds to be returned to the company, the committee to have power to modify the terms of settlement with any creditor if necessary.

Underlying Companies.—The committee will be authorized to approve of any arrangements for extending the maturity of the First and Second Debentures of the Compania de los Ferrocarriles del Distrito Federal de Mexico and for providing a sinking fund for the 1st Debentures of the Mexico Electric Tramways, Ltd.

The depositaries are Bank of Scotland, 30 Bishopsgate, London, E.C., and Edinburgh; London County Westminster & Parr's Bank, Ltd., 41 Lothbury, London, E.C.; The National Provincial & Union Bank of England, Ltd., 2 Princes St., London, E.C. The bonds at present under deposit will be voted in favor of the Provisional Agreement at the meetings to be called for such purpose and it will not be necessary for a holder of Deposit Receipts to take any steps in connection therewith unless he objects to the arrangements, in which case he may withdraw his bonds before June 29 1921.

Bondholders' Committee.—E. R. Peacock, G. C. Cassels, H. F. Chamen, Robert Fleming, A. P. Holt, H. Malcolm Hubbard and Alexander Roger. See "Financial Reports" above.—V. 111, p. 1757.

Middle States Oil Corp.—*New Wells.*—

The company reports that its well No. 2 on the River lease, South Bend field, Texas, has come in for 450 barrels. Imperial, it is stated, has completed its No. 2 well on the Holt lease, it making 700 barrels a day.—V. 112, p. 2542, 2197.

Midwest Oil Co.—*Balance Sheet.*—

x*Consolidated Balance Sheet, March 31 1921 (incl. Wyoming Oil Fields Co. and Natrona Pipe Line & Refinery Co.)*

—V. 112, p. 2312, 1746.

Moline Plow Co.—*Committee for 1st Pref. Stock.*—

The committee named below has been formed to protect the interest of the first preferred stockholders. In a circular June 17, the committee states:

The financial condition of the company has for some time been unsatisfactory. Owing chiefly to the general business depression, Company's inventory and debt had become very large by the end of 1920. This condition has not improved to date as had been hoped. Preliminary figures available for first half of 1921 indicate that company will have a substantial loss for that period.

As a result it seems probable that company will be unable to pay the $1,000,000 7% Gold notes Series C due Sept. 1 next, or to pay interest on that date on the $4,000,000 outstanding notes. This default will bring about the maturity of the whole issue.

This situation has led to the formation of two Protective Committees representing the banking and commercial creditors and the noteholders (see V. 112, p. 2648).

In view of these circumstances it is imperative that immediate action be taken to protect the 1st Pref. Stockholders and the Committee requests the 1st Pref. stockholders to deposit their stock at the earliest possible moment either with Bankers Trust Co., 16 Wall St., New York, or National City Bank, 105 So. Dearborn St., Chicago, depositaries.

Committee.—Alfred Jaretzki (Sullivan & Cromwell, N. Y.), Chairman; Stanley Field (Chicago); David R. Forgan (Pres. National City Bank, Chicago); Arthur M. Heard (Pres. Amoskeag National Bank, Manchester, N. H.); B. W. Jones, (V.-Pres. Bankers Trust Co., N. Y.); G. Hermann Kinnicutt (Kissel, Kinnicutt & Co., N. Y.) with H. B. Watt, Sec., 16 Wall St., N. Y. City.—V. 112, p. 2648.

Pachuca Light & Power.—*Financial Plan.*—
See Mexican Light & Power Co. above.—V. 103, p. 65.

Pan American Petroleum & Transport Co.—*Status.*—
See Mexican Petroleum Co. above.—V. 112, p. 2543

Paragon Refining Co.—*New Chairman, &c.*—
H. L. Thompson has been elected Chairman of the board to succeed the late W. Y. Cartwright; L. R. Crawford has been elected President to succeed the late C. A. Ulsh.—V. 112, p. 1624, 265.

Penn Central Light & Power Co.—*Pref. Stock.*—
The stockholders of record May 26 were given the right to subscribe on or before June 15 for 12,741 additional pref. shares of no par value at $43 per share.
The proceeds of the new stock are to be used to pay off floating debt and for general corporate purposes. See V. 112, p. 1406.

Penn Seaboard Steel Corp.—*Listing.*—
The New York Stock Exchange has authorized the listing on or after June 26 of voting trust certificates for 350,000 shares, no par value, of capital stock extended to June 26 1926. The present voting trust agreement expires June 26 but has been extended for a further period of 5 years. See V. 112, p. 2313, 2419.

Pennsylvania Edison Co.—*Consolidation, &c.—Terms of Exchange—Promissory Notes to be Paid off—Earnings.*—
Company has recently been organized in Pennsylvania to acquire by merger (subject to approval of Penn. P. S. Comm.) all the property, franchises, &c., of Pennsylvania Utilities Co. (V. 112, p. 2198) operating in and about City of Easton.
The merger provides for the exchange of $772,300 Preferred stock and $813,900 Common stock of Pennsylvania Utilities Co. (representing 96.53% of the outstanding Pref. and 98.22% of the outstanding Common stock) now held by Metropolitan Edison Co. for 10,862 shares of Common stock of no par value of the new corporation. This exchange constitutes a reduction of $500,000 in outstanding capital stock, assuming the value of the non-par common stock to be $100 per share.
Metropolitan Edison Co. has agreed to exchange $1,929,731 of Pennsylvania Utilities Co. promissory notes for 5,000 shares of non-par preferred stock and 14,297 shares of non-par common stock of the new corporation.
The General Gas & Electric Co. has agreed to exchange $216,000 of Pennsylvania Utilities Co. promissory notes for 2,160 shares of non-par Preferred Stock of the new corporation, which will leave the new company free from floating debt, other than current debt.
Minority holders of Pennsylvania Utilities Co. preferred and common stocks will be given the privilege of exchanging their stock for non-par preferred and common stocks of the new corporation share for share. The non-par preferred stock of the new corporation will bear cumulative dividends from date of issue at the rate of $8 per share per annum.
A comparison of the securities of Pennsylvania Utilities Co. at May 31 1921, with the securities of the Pennsylvania Edison Company (the consolidated corporation), after exchange of securities as stated above follows:

	May 31 1921.	*After merger*
1st Mtge. bds (not incl. bds. in sinking fund)	$4,068,900	$4,068,900
10-year 6% Secured Gold notes	1,075,000	1,075,000
Equipment Trust certificates	74,500	74,500
Notes payable	2,262,926	x32,250

Other income	13,586	Pref. div. requirements	59,496
		Balance	$155,697

Pennsylvania Utilities Co.—*Successor Company.*—
See Pennsylvania Edison Co. above.—V. 112, p. 2198.

Pittsburgh & Mt. Shasta Gold Mining & Milling Co.
The Pittsburgh Stock Exchange has authorized the listing of 2,500,000 additional shares Capital stock (par $1) making the total authorized for the list 5,000,000 shares. Stockholders on Feb. 15 1921 ratified an increase in capital from $2,500,000 to $5,000,000; of the increase, $620,000 was set aside to pay a stock dividend of 25% payable on May 25 1921, to holders of record on March 25 1921, and $1,860,000 was offered for sale on a basis of ¾ of a share for each share owned, to stockholders, of record on March 25 1921 at 30 cents per share. Of this amount 1,428,450 shares were sold (11,827 shares being subscribed by stockholders and the balance sold to a syndicate). 471,550 shares of stock remains unissued in the treasury. Bonds authorized and isused $109,150 1st Mtge. 6s due May 1923. Bonds became due May 1921 but were extended to May 20 19 3.
Company was incorp. July 18 1903 in W. Va. Properties owned and controlled consist of two groups of claims. (*a*) Bennington Group—Consists of 10 claims, located in the lower half of section 35, Flat Creek Mining District, Shasta County, Cal., acreage 175; (*b*) Allegheny Group—Consists of 20 claims, and with several fractional claims has a total acreage 347.64, located in the western half of sections 23 and 26; this group lies almost due north of the Bennington group, its southern boundary being less than a mile distant. Company has now patents for both properties.
Officers include Pres., John J. Schneider, Buffalo, N. Y.; Vice-Pres., Rudolph Scmitt; Sec. & Treas., T. V. Scott, Pittsburgh.

Pittsburgh Rolls Corporation.—*Obituary.*—
Joseph S. Seaman, Chairman of the board, died in Pittsburgh, Pa., on June 15.—V. 112, p. 1406, 1151.

Procter & Gamble Co.—*Annual Stock Dividend.*—
The directors have declared the rgeular quarterly cash dividend of 5% on the Common stock and an extra stock dividend of 4%, both payable Aug. 15 to holders of record Aug. 1. Company has paid a 4% stock dividend in August each year since 1913.—V. 112, p. 855.

Pullman Co.—*Wage Cut Denied.*—
The Railroad Labor Board has dismissed the company's application for a reduction in the wages of the operating department. The Board ruled that the company must deal with accredited representatives of the rail unions and that a wage reduction which was accepted by representatives of employees formed by the company was invalid. The case arose when members of the "company union" agreed to accept a 12% reduction last winter. Investigation by the Board, however, showed that a majority of the employees belonged to the accredited unions.
Clive Runnels, Vice-President of the company, says: "We considered the Labor Board's ruling from all points, and will decide in a day or two just what course we will pursue. We contended that so long as we put our proposition up to the men, and there was no controversy, the Transportation Law had been satisfied. Pullman evidence to the Board indicated that of 10,079 employees, 6,172 attended the mass meeting June 2, and of these 2,246 voted to accept the cut, 2,220 opposed it, and 1,706 declined to vote."—V. 112, p. 2649.

Quaker Oats Co.—*No Common Dividend.*—
The directors on June 23 decided to omit the quarterly dividend usually paid July 15 on the outstanding $11,250,000 Common stock, par $100. On April 15 last a quarterly dividend of 1½% was paid.
An official statement says: "In view of the conditions prevailing in the past few months and in the present month, the directors considered it advisable to declare no dividend on the Common stock at this time. The company's borrowed money, however, has been reduced 40% since Jan. 1 1921. The outlook for fall business is excellent."
The regular quarterly dividend of 1½% on the Pref. stock has been declared, payable Aug. 31 to holders of record Aug. 1.—V. 112, p. 1022.

Rand Mines, Ltd.—*Interim Dividend.*—
An interim dividend of 35%, equivalent to 1s. 9d. sterling per ordinary share, has been declared payable in London on or about Aug. 10.
The "American shares," which are equivalent to 2½ English shares, will receive a dividend of 4s. 4½d. sterling. The Bankers Trust Co. will notify registered holders of "American shares" of the date on which the proceeds of such dividend will be paid on their shares.—V. 112, p. 2649, 2090.

Republic Motor Truck Co., Inc.—*Passes Dividend.*—
The directors have decided to pass the quarterly dividend of 1¾% on the 7% Cumul. Pref. stock.—V. 111, p. 2049.

Republic Rubber Co., Youngstown, O.—*Receivership*—
Upon application brought by New York interests Federal Judge D. C. Westenhaver on June 22 at Cleveland appointed C. N. Booth, Vice-Pres. receiver for both the Republic Rubber Corp. and its subsidiary the Republic Rubber Co.
Suit was filed by Elizabeth Hine Gates, New York, a preferred stockholder against the Republic Rubber Co. The petition asserts that the company had to contract for cotton fabric and rubber in large quantities at high prices during the war, and that after July 1 1920, these supplies could neither be produced profitably nor sold; that as a result the company has outstanding commitments for the purchase of raw materials on which it has sustained $2,000,000 loss or more, and that vendors of raw material contracts are insisting on carrying out the contracts. The petition also claims that the company is indebted $400,000 on past due obligations.
Arthur I. Irish, Sec. of the Corporation which owns over 90% of both the Pref. and Common stock of the Republic Rubber Co. for the same reason asked that a receiver be appointed to take charge of the business of the Corporation which he says, owes $550,000 in past due notes.—V. 112, p. 940.

Rochester Gas & Electric Corp.—*To Pay Bonds.*—
The $700,000 4½% bonds due July 1 will be paid off at maturity at office of Rochester Trust & Safe Deposit Co., Rochester, N. Y.—V. 112, p. 940.

Sears, Roebuck & Co.—*No New Financing.*—
Vice-Pres. A. H. Loeb in response to rumors that the company might find it necessary to resort to new financing to obtain money to pay off the $16,500,000 7% notes due Oct. 15 next or to request the holders to extend them, said: "We have not the remotest thought of arranging new financing, and rumors of new borrowing are ridiculous. We are paying off loans as we go along instead of borrowing, and that is a comfortable position to be in. Funds are obtained by turning inventories into cash. Our financial position is getting better every day. As for the notes due Oct. 15, there has been a substantial reduction in the amount outstanding, as a result of our purchases in the open market.
"More than $2,000,000 of the $16,500,000 notes due next fall have already been taken up. Since Jan. 1 our obligations have been reduced by about $20,000,000, and we expect to do still better in the next six months.
"There has not been much improvement as yet in buying of merchandise by the farmers, but we still have ahead of us what are normally our best six months of the year."—V. 112, p. 2420.

Sligo Iron & Steel Co.—*Receiver.*—
The Yough Trust Co., Connellsville, Pa., has been appointed receiver by Judge Orr, in the U. S. District Court at Pittsburgh, after a suit had been entered against the company by Connellsville Machine & Car Supply Co. and First National Bank, Greensburg, Pa.

Standard Oil Co. (Calif.).—*Listing.*—
The New York Stock Exchange has authorized the listing of $99,373,311 Capital stock par $25, on official notice of issuance in exchange for outstanding shares of $100 each with authority to add $15,626,689 additional Capital stock, on official notice of issuance and payment in full, making the total amount applied for $115,000,000.—V. 112, p. 2544.

(F. B.) Stearns (Motor Car) Co.—*Orders.*—
The company reports that orders have been booked for three months ahead and that factory continues to operate at capacity which is slightly in excess of 300 cars per month.—V. 112, p. 2544, 1031.

Studebaker Corporation, South Bend.—*Status.*—
President A. R. Erskine has confirmed the following published statement as revised for us in one important respect
The corporation has paid off the last of its bank borrowings; on Jan. 1 last it owed the banks $8,500,000. The cash account today is approximately $2,500,000 larger than on Jan. 1 1921, all of which means that there has been an improvement of $8,500,000 in Studebaker's quick asset position in less than six months.
There is an actual increase in the demand for Studebaker cars over the last two weeks. Orders on hand to-day are close to 8,000 cars or in excess of the orders on the books a month ago. Current production is at the rate of better than 90,000 cars a year as compared with a record production in any single year of 60,000 cars and in 1920 of 52,000 cars. ("Wall St. Journal" June 18.)—V. 112, p. 2420.

Tecumseh Cotton Mills Corp.—*Dividend Decreased.*—
A quarterly dividend of 1½% has been declared, payable July 1 to holders of record June 20. In April last 2% was paid, while in Oct. and Jan. last dividends of 3% each were paid. This compares with 10% paid in July 1920 and 5% each in Jan. and April 1920. A dividend of 50% was also paid in March 1920 in Liberty bonds.—V. 112, p. 1290.

For other Investment News, see pages 2762, 2775 and 2776.

Reports and Documents.

NORTHERN PACIFIC RAILWAY COMPANY

TWENTY-FOURTH ANNUAL REPORT—FOR THE FISCAL YEAR ENDING DEC. 31, 1920.

Office of the
NORTHERN PACIFIC RAILWAY COMPANY,
St. Paul, Minnesota.

Rent for leased roads	51,331 86	51,322 02	—9 84
Miscellaneous rents	10,157 84	9,643 07	—514 77
Interest on funded debt	12,117,483 28	12,134,437 60	+16,954 32
Interest on unfunded debt	248,526 77	14,060 08	—234,466 69
Miscellan's income charges	259,356 23	231,895 32	—27,460 91
Total deductions from gross income	13,880,509 37	13,558,633 87	—321,875 50
Less Federal deductions	*1,072,843 99	*261,924 42	+810,919 57
Net deductions	12,807,665 38	13,296,709 45	+489,044 07
Net corporate income	22,836,736 74	19,094,183 31	—3,742,553 43
Disposition of Net Income—			
Dividend appropriations of income	17,360,000 00	17,360,000 00	
Income balance for year—transferred to profit and loss	5,476,736 74	1,734,183 31	—3,742,553 43

* In arriving at "Total operating income" and "Total nonoperating income," Federal items for 1919 amounting to $18,353,596 64 and for 1920 to $4,002,969 68 have been added to corporate items. In arriving at "total deductions from gross income," Federal items for 1919 amounting to $1,072,843 99 and for 1920 to $261,924 42 have been added to corporate items. In order to arrive at the correct "income balance" for each year it is necessary to deduct the amounts shown above.

MILEAGE OPERATED.

Changes have taken place in the mileage operated as follows:

	Miles.	
There were added:		
March 1 1920, Fort Sherman Branch, Idaho, operation reinstated	13.61	
Dec. 31 1920, Great Northern Ry., Helena to Hyndman, Montana, operation reinstated	2.66	
Dec. 31 1920, Lake Superior Terminal and Transfer Ry. tracks in Superior transferred from side tracks	1.13	
Sundry minor changes and corrections	.41	
Total additions		17.81
Deductions—		
Dec. 31 1920, Cuyuna Northern Branch, South, Minnesota, operation discontinued	3.56	
Dec. 31 1920, O.-W. R. and N. Co. joint tracks, Gray's Harbor District, Washington, transferred to second track	1.22	
		4.78
Net addition		13.03
Mileage operated December 31 1919		6,642.26
Mileage operated December 31 1920		6,655.29
Average mileage operated during the year		6,653.36

REVENUE TRAIN MILEAGE.

Revenue passenger train miles during the year were 9,977,960, an increase of 306,599 miles compared with the previous year.

Revenue freight and mixed train miles during the year were 11,904,455, an increase of 420,650 miles.

Revenue special train miles during the year were 12,820, a decrease of 5,662 miles.

All revenue train miles during the year were 21,895,235, an increase of 721,587 train miles.

EARNINGS.

FREIGHT BUSINESS.

Freight revenue was $81,090,389.63, an increase of $8,155,667.04 or 11.18% compared with the previous year. Freight revenue for 1917 was $65,258,994.76.

7,852,847,753 tons of revenue freight were moved one mile, an increase of $263,811,333 tons one miles, or 3.48% compared with the previous year.

The average earnings per ton mile increased from .00961 to .01033.

The revenue train load decreased from 660.85 to 659.66 tons. The total train load, including company freight, increased from 752.33 tons to 761.21.

The number of miles run by revenue freight trains was 11,209,167, an increase of 401,421, or 3.71%.

PASSENGER BUSINESS.

Passenger revenue was $21,143,707.94, an increase of $812,390.48 or 4.00% compared with the previous year.

Mail revenue was $2,891,069.40, an increase of $1,938,107.25 or 203.38%; making allowance for back mail pay received in 1920, there was an increase of $178,081.03 or 11.87%.

Express revenue was $2,326,076.90, an increase of $304,817.35, or 15.08%.

Sleeping car, parlor and chair car, excess baggage and miscellaneous passenger revenue was $801,527.22, an increase of $658,486.50, or 460.35%. This increase was caused by The Pullman Company not paying any portion of earnings to railroads in 1919.

Total revenue from persons and property carried on passenger trains was $27,162,381.46, an increase of $3,713,801.58, or 15.84% compared with the previous year. Total revenue from passenger trains in 1917 was $18,874,197.67.

The number of passengers carried was 8,447,966, a decrease of 185,620 over the previous year, and the number of passengers carried one mile was 719,445,961, a decrease of 29,189,636, or 3.90%.

The number of miles run by revenue passenger trains was 9,977,960, an increase of 306,599, or 3.17%.

The average rate per passenger mile was 2.939 cents against 2.716 cents last year.

EARNINGS AND EXPENSES PER MILE OPERATED.

	1917.	1918.	1919.	1920.
Operating revenues per mile	$13,526 37	$15,594 28	$15,282 27	$16,996 59
*Operating expenses per mile	8,171 39	10,857 13	11,934 71	15,177 88
Net oper. revenue per mile	5,354 98	4,737 15	3,347 56	1,818 71
*Taxes per mile	1,059 52	1,236 01	1,365 42	1,519 34
Net	$4,295 46	$3,501 14	$1,982 14	$299 37

RATIOS.

	1917.	1918.	1919.	1920.
Operating expenses to oper. revenue	60.41%	69.62%	78.10%	89.30%
Taxes to operating revenue	7.83%	7.93%	8.93%	8.94%

* The corporate expenditures for expenses and taxes are included in order to make proper comparison between the four years, 1917, 1918, 1919 and 1920, and for the same reason are also included in the ratios.

OPERATING EXPENSES.

CONDUCTING TRANSPORTATION.

The charges for transportation expenses were $48,439,001.28, an increase of $10,164,538.53 or 26.56%, as against an increase in total operating revenue of 12.25%. The charges for 1917 were $28,531,412.99.

MAINTENANCE OF EQUIPMENT.

The charges for maintenance of equipment were $25,593,923.34, an increase of $5,784,804.48 or 29.20%. The charges for 1917 were $11,245,120.34.

LOCOMOTIVES.

Total number of locomotives on active list Dec. 31 1919, the date of the last annual report		1,406
Additions:		
Locomotives purchased	61	
Locomotives remodeled	4	
		65
		1,471

Deductions:		
Locomotives sold during the year, from active list	1	
Locomotives dismantled and withdrawn from service	24	25
Total locomotives on active list Dec. 31 1920		1,446
In addition to the locomotives on active list there were:		
Withdrawn from service and on hand Dec. 31 1919	39	
Withdrawn from service during the year	23	62
Less—Dismantled during year	22	
Rebuilt and reinstated on active list	4	26
Leaving on hand locomotives withdrawn from service which may be sold		36

Of the 71 locomotives, the purchase of which was authorized during the year, 6 Mallet and 4 Switching, have not been delivered.

PASSENGER EQUIPMENT.

On December 31, 1920, the Company owned 1,041 passenger train cars, a decrease of 23 cars, destroyed or transferred to other classes during the year.

Of the 1,041 cars owned, 710 were not due in shops for two months or more.

No additional passenger equipment is under contract for construction or is building at company shops.

FREIGHT EQUIPMENT.

Comparative number and capacity of freight cars:

	Dec. 31 1917.		Dec. 31 1919.		Dec. 31 1920.		Increase (+) or Decrease (—).	
	Number	Capacity (Tons).	Number	Capacity (Tons)	Number	Capacity (Tons)	Number	Capacity (Tons)
Box	25,654	981,930	26,980	1,037,375	26,293	1,015,175	—687	—22,200
Furniture and automobile	827	32,325	1,031	40,795	996	39,585	—35	—1,210
Refrigerator	4,354	141,145	4,396	143,200	4,346	141,940	—50	—1,260
Stock	2,361	54,970	2,290	53,380	2,203	51,510	—87	—1,870
Flat	8,144	290,185	7,786	277,830	7,633	272,460	—153	—5,370
Oil	62	2,560	62	2,560	62	2,560		
Coal	5,130	252,545	5,438	268,330	5,729	282,975	+291	+14,645
Ballast and ore	1,548	69,660	1,504	68,010	1,467	66,530	—37	—1,480
Total	48,080	1,825,320	49,487	1,891,480	48,729	1,872,735	—758	—18,745
Percentage							—1.5	—1.0
Average capacity per car		38.0		38.2		38.4		

Of the total number of freight train cars on the road on December 31, 1920, 3,322, or 7.04%, were in need of repairs requiring one hour labor or more per car; and 2,419, or 5.13%, required heavy repairs or in excess of twenty hours' labor on each car.

MISCELLANEOUS EQUIPMENT.

The purchase of 90 caboose cars has been authorized, none of which have been delivered.

MAINTENANCE OF WAY AND STRUCTURES.

The charges for maintenance of way and structures were $21,012,798.18, an increase of $4,789,142.79 or 29.52%. The charges for 1917 were $10,782,178.23.

GENERAL.

FINANCIAL RESULTS OF OPERATION.

During the first two months of 1920 your property remained under Federal control. The compensation under contract with the United States Government for this period was $5,301,309.04, out of which your company was obliged to assume operating expenses and war taxes amounting to $696,097.69, leaving net compensation of $4,605,211.35. The net railway operating income accruing to the Government from the use of your property was $3,741,045.26.

As a result of the Government guaranty to your company for the succeeding six months there was included in the income account $14,760,606.14. In actual operation there was a deficit for this six months' period of $1,238,010.96.

For the last four months of the year the net railway operating income was $6,142,521.61.

It is thus apparent that while the amount actually accruing to your company for the year from the use and operation of its property was $24,270,328.14, its actual net railway operating income was only $7,949,458.22.

The operating revenues, $113,084,407.78, were the largest in the company's history and the decrease in total operating income was due entirely to the great increase in operating expenses (due largely to higher wages and prices of fuel and materials), and to increase in taxes.

CLAIMS FOR BALANCES DUE FROM GOVERNMENT.

Your management has reached an agreement with the Director-General of Railroads as to the balance due to your company in connection with the use of its property during the period of Federal control ending February 29, 1920. Under this agreement your company will receive at once $9,000,000.

The check of the quantities of material and supplies turned over to the Director-General at the commencement of Federal control, and of the quantities returned to your company at the end of Federal control, has not been completed. Your company will receive, in addition to the amount above stated, the balance found due it for the value of material and supplies delivered to the Director-General for which he has not made settlement.

Your company has also presented to the Inter-State Commerce Commission, under the provisions of the Transportation Act, its claim for an amount which, when added to its net railway operating income for the six months' period ending August 31, 1920, will equal the amount guaranteed by the Government for that period. On this claim payments amounting to $12,000,000, have been made pending final consideration and settlement.

VALUATION WORK.

The Bureau of Valuation of the Inter-State Commerce Commission has continued the work of valuing your property. The field work in connection with the compilation of the inventory of all of the property owned has been completed and it is understood that under the present program of the Commission preliminary Engineering and Land Reports will be served on the company some time late in 1921.

The number of company employees engaged in this work at the present time is 118 and the total expenditure for the company's portion of the work up to December 31, 1920, was $1,399,745.64.

STOCKHOLDERS AND EMPLOYEES.

On December 31, 1920, there were approximately 36,000 holders of the stock of your company, an increase during the year of 5,235. This makes an average holding of about 69 shares for each stockholder, compared with an average holding on December 31, 1919, of 80½ shares. Average number of employees in 1920 was 35,244 and on March 31, 1921, there were about 27,000.

LAND DEPARTMENT.

The operations of the Land Department for the year 1920 are shown on pages 36 and 37 [pamphlet report]. New sales were less by 2,968.90 acres than the acreage included in canceled contracts. Payments of principal and interest by contract holders were much less than in the previous year. These results reflect the difficult situation which the farming and stock-growing industries in territory occupied by your lines have had to confront. The Company's policy has been to treat contract holders leniently, and contracts have been canceled only when no adjustments could be made.

OIL DEVELOPMENT.

The year 1920 has shown marked progress in oil exploration in Montana. During the year work was under way on 97 wells in 28 areas throughout the State. Omitting the Elk Basin oil district, which is largely in Wyoming, oil in commercial quantities has been produced in only one distinctively Montana field, the Cat Creek District in eastern Fergus County. On December 31, ten wells were producing oil and fourteen wells were being drilled in this field, several of which have since been brought in. The first oil was shipped out of the district in August and up to the end of the year 948 carloads had been shipped, all consigned to Wyoming points. The territory so far proved is quite limited, none of it being within the grant of lands to the Northern Pacific. A small commercial well was brought in on Northern Pacific land in the Devil's Basin District in Musselshell County, north of Roundup, but so far no oil has been shipped. Drilling is being carried on actively at numerous points in Central and Eastern Montana.

Although the oil thus far produced from Northern Pacific lands has been inconsiderable, there are within those lands a number of so-called "structures" of which the geology suggests that oil may be found under them. Your management has considered it unwise to give drilling rights in these lands until further investigations could be made as to their oil-bearing possibilities. With that end in view, the Absaroka Oil Development Company was formed with an authorized capital of $1,000,000. Control of this company will be retained by your subsidiary, the Northwestern Improvement Company. The organization of the company has been completed and the work of examining the lands will be pushed forward energetically.

SUBSIDIARY COMPANIES.

On page 39 of this [pamphlet] report will be found results of the operation of the Spokane, Portland and Seattle Railway Company, together with its subsidiaries, the Oregon Trunk and Oregon Electric Railways, and on page 40 [pamphlet report] the results of the operation of the Minnesota and International Railway Company.

The Spokane, Portland and Seattle Railway Company, owned jointly by your company and the Great Northern, has settled with the Government for the balance due for the use of its property. No settlement has as yet been reached by the Oregon Trunk, the Oregon Electric, or the Minnesota and International Companies.

CHANGES IN BALANCE SHEET ACCOUNTS.

The analysis of the accounts reflecting sales of lands granted in aid of construction by the United States and the State of Minnesota, to which reference was made in the last annual report, has been completed and the results are embodied in the general balance sheet statement.

The entries covering the adjustments of these land grant transactions have been reviewed by the Inter-State Commerce Commission and found correct in principle.

Further analysis of the "Investment in road and equipment" account developed that the cost of stocks and bonds of The Manitoba Railway Company to the amount of $8,199,044.69 had been included in that account, and that a part of the cost of the property of The Washington Central Railway Company to the amount of $1,389,234.33 had not been included in that account. In accordance with the requirements of the Inter-State Commerce Commission proper adjustments have been made.

As a result of these entries "Investment in road and equipment" account has been increased $17,505,454.36, "Corporate surplus" has been increased $15,484,873.04, "Funded debt" has been increased $827,000 and other accounts have been changed $1,193,581.32.

REFUNDING OF NORTHERN PACIFIC-GREAT NORTHERN, C. B. AND Q. COLLATERAL JOINT 4% BONDS.

The joint bonds issued in 1901, when your company, together with the Great Northern Railway Company, acquired approximately 97% of the stock of the Chicago, Burlington & Quincy Railroad Company, will mature July 1, 1921. The amount outstanding is $215,227,000. For the payment of these bonds your company and the Great Northern Railway Company are jointly and severally liable.

It was necessary for the two obligor companies to make some provision for refunding this indebtedness, and application was made to the Inter-State Commerce Commission for authority to issue the Joint Collateral Bonds of the two companies to the amount of $230,000,000, payable in 15 years, bearing interest at 6½% per annum. This authority was granted and the new issue has been sold to the public at 96½.

The new joint 6½% bonds are convertible to the extent of $115,000,000, into 6% Gold Bonds of your company, issued under its Refunding and Improvement Mortgage, and to an equal amount into the 7% General Mortgage Bonds of the Great Northern Railway Company.

The funds derived from the sale of the new issue of joint bonds will be used for the payment at maturity of the joint 4% bonds now outstanding.

INCREASE IN FREIGHT RATES AND PASSENGER FARES.

In July, 1920, the Inter-State Commerce Commission authorized increases in freight rates and passenger fares throughout the United States. The increased rates and fares became effective August 26, 1920, on traffic moving in interstate commerce. Similar increases have since been authorized in all States served by your lines except the State of North Dakota. Proceedings begun to secure such increases in that State are now pending before the Inter-State Commerce Commission, and it is believed that they will shortly be brought to a conclusion.

COMPARATIVE STATEMENT OF PAYROLLS.

On July 20, 1920, the United States Labor Board rendered its Wage Decision No. 2, effective as of May 1, 1920, under which wages for all employees covered by working agreements and properly before the Board, were granted substantial increases in rates of pay. It was necessary to grant similar increases to employees not before the Board. These increases amounted in all to nearly $11,200,000 per annum.

Comparison of your company's payroll for a period of years shows the cumulative effect of the wage increases since the beginning of the war:

Total payroll for year ending June 30 1915	$24,486,852 00
Total payroll for year ending December 31 1916	28,204,669 00
Total payroll for year ending December 31 1917	35,877,879 00
Total payroll for year ending December 31 1918	49,632,127 00
Total payroll for year ending December 31 1919	52,605,396 00
Total payroll for year ending December 31 1920	66,503,794 00

MATERIALS AND SUPPLIES.

There has been a marked advance, within the past five years, in the prices of all materials used in the operation and maintenance of railroads. The following statement shows the extent of this advance in the single item of coal for locomotives:

Year Ended Dec. 31—	*Coal Used by Locomotives, Tons.*	*Average Cost per Ton.*	*Total Cost.*
1916	2,520,215	$2.566	$6,466,872 00
1917	2,745,034	3.030	8,317,453 00
1918	2,718,558	3.8884	10,570,841 00
1919	2,460,428	4.1008	10,089,723 00
1920	2,625,493	4.6740	12,271,554 00

Because of difficulties in the eastern coal fields the companies operating coal docks at the head of Lake Superior were unable in 1919 to bring up an adequate supply of railroad fuel from those fields, and it became necessary in 1920 to purchase and use a considerable amount of Illinois coal. Eastern coal brought the highest prices ever paid, ranging from eight to nine dollars per ton delivered on docks at the Head of the Lakes.

TAXES.

Taxes are constantly increasing and become more burdensome from year to year. The following statement shows the amounts charged to Railway tax accruals in each of the four years ending with 1920. It will be noted that the total amount charged in 1920 was more than 46% greater than the amount charged in 1917.

	1917.	1918.	1919.	1920.
State taxes	$5,169,742 57	$5,865,666 69	$6,913,707 44	$8,453,990 33
Federal taxes	1,727,242 85	*a*2,264,762 40	*b*2,055,483 31	*c*1,620,591 91
Canadian & miscellaneous taxes	13,742 77	26,654 17	31,546 72	34,104 14
Totals	$6,910,728 19	$8,157,083 26	$9,000,737 47	$10,108,686 38

a $89,657 00 refunded by Government and credited to Profit and Loss.
b 89,657 00 refunded by Government and $181,434 00 abated and credited to Profit and Loss.
c 181,434 00 abated by Government and not charged to Income.

ST. PAUL-DULUTH DIVISION MORTGAGE BONDS.

Since the last report your management, exercising the discretion reposed in it by Article III of the Agreement of November 15, 1900, between your company, and the Guaranty Trust Company, had acquired up to December 31, 1920, $5,261,000 par value of the outstanding bonds secured by mortgage on the St. Paul-Duluth Division of your railroad. These bonds were acquired by the use of funds derived from the sale of the St. Paul and Duluth lands. These funds had been invested in Liberty Bonds and a direct exchange was made, par for par, of Liberty Bonds for the St. Paul-Duluth Division Bonds of your company. There are still outstanding $2,819,000 of these St. Paul-Duluth Division Bonds, and the company now has on hand funds derived from the sale of St. Paul and Duluth lands, available for their retirement.

EXPRESS CONTRACT.

Effective September 1, 1920, a contract was entered into between your company and the American Railway Express Company, giving to the latter the exclusive right to move express business over your railroad. The contract is terminable at the end of two and one-half years; if not then terminated it runs until September 1, 1925. It provides that your company shall receive all of the net earnings from express transportation over its railroad less a commission of 2½% to be paid to the Express Company.

EQUIPMENT TRUST.

It was considered necessary to acquire some additional heavy locomotives and other equipment during the past year, largely to replace units already retired or approaching retirement. To finance this purchase an Equipment Trust was created and $4,500,000 of Equipment Trust certificates, bearing interest at the rate of 7% per annum were sold. The following equipment was acquired under this trust:

60 Air dump cars.
300 Hart Convertible cars.
25 Mikado type locomotives.
20 Pacific type locomotives.
20 Switching locomotives.
6 Mallet locomotives.

LOAN FROM GOVERNMENT.

For the purpose of providing additional equipment and additions and betterments to existing equipment and to way and structures, your company filed application with the Inter-State Commerce Commission under the provisions of Section 210 of the Transportation Act, 1920, for a loan of $6,000,000. The application was approved, and on November 23, 1920, your company issued note for $6,000,000 payable in five years with interest at 6% and secured by $6,000,000 United States Liberty bonds as collateral.

CHANGES IN OFFICIAL ORGANIZATION.

On the termination of Federal control Mr. J. M. Hannaford was re-elected President of your company. He held that office until December 1, 1920, when he resigned because of his desire to be relieved from its active duties and responsibilities. Mr. Charles Donnelly was elected to succeed him.

Since the last report, two of the company's most faithful and efficient officers have died. Mr. Thomas Cooper, who held the office of Vice-President and Land Commissioner at the time of his retirement on October 1, 1919, died at his home in Long Beach, California, on October 20, 1920. Mr. C. A. Clark, Treasurer of the company, and who had been in its service continuously since 1882, died at his home in St. Paul on August 1, 1920. Mr. H. A. Clifford, for many years the company's Cashier, was elected as his successor.

By Order of the Board of Directors,

HOWARD ELLIOTT, *Chairman.*
CHARLES DONNELLY, *President.*

NORTHERN PACIFIC RAILWAY COMPANY.

GENERAL BALANCE SHEET, DECEMBER 31 1920

ASSETS.

INVESTMENTS:		
Road and Equipment December 31 1919—		
Road	$417,651,309 81	
Equipment	82,170,700 50

Superior Colliery Co.—*Reorganization Plan Amended.*—Admendments (of Feb. 1 1921) to agreement of June 5 1915 and plan of reorganization for Superior Colliery Co. and Superior Development Co. and abrogation of the amendments dated Aug. 15 1918 are shown in a circular of Feb. 1 1921 which says in substance.

Present Outstanding Indebtedness and Capital Stock of Colliery Company.

First Mortage bonds (now outstanding or pledged)	$251,000
First Adjustment bonds ($75,000 thereof to be retired)	965,000
Income notes	430,000
Capital stock	1,447,500

Interest has been paid on the 1st Mtge. bonds so issued to and incl. Oct. 1 1920. No int. has ever been paid on adjustment bonds or Income notes.

Foreclosure Sale of Superior Development Co.—Prior to foreclosure, Oct. 7 1920, the Development Company had outstanding $10,000 1st Mtge. bonds, $965,000 1st Adj. bonds, and $ 00,000 capital stock. All of the property was sold to a representative of the Committee for $56,000, making applicable upon the 1st Mtge. bonds of the Development Co., the principal amount thereof, to-wit, $10,000, with int. from Oct. 1 1918, and upon the Adj. M. bonds the sum of $35 87 per bond.

Sinking Fund Payments.—The Colliery Company has made good defaults in the payments due from it to the Sinking Fund in both mortgages up to and including period ending Aug. 1 1920.

Articles Nos. 1, 2, 3, 4 and 5 of the plan of reorg. are modified as follows:

Transfer of Property.—1. The committee may transfer all or any part of the property of the Development company to the Colliery Company, or may convey all or any part of either property to a new company to be formed, in accordance with this plan; or they may cause the property or any part thereof of the Development company to be sold or conveyed to others.

Treatment and Application of Bonds of Colliery Company.

2. Of the new 1st M. bonds, $10,000 with April 1 1921 int. coupons, shall be exchanged for like amount of deposited 1st M. bonds of the Development Co. with cash equal to the unpaid interest to and incl. Oct. 1 1920.

Modification of 1st M. Bonds.—(*a*) Article I, Section 1, Subdivision (B) shall be modified so that 1st M. bonds may be certified for additions, extensions, betterments, &c , made or acquired subsequent to Jan. 1 1920, and further so as to change the provisions with reference to the approval of the holders of 1st Adjustment bonds after First M. bonds amounting to $100,000 shall have been issued under Subdivision (B), so as to provide that such approval shall be required after $400,000 such bonds are issued.

(*b*) Article II, Section 2, shall be modified so that the proceeds of property sold may be applied for any of the purposes for which bonds may be certified under Subdivision (B) [above].

(*c*) Article III, Section 1, shall be modified so that a majority of the outstanding bonds, instead of 2-3, may authorize the trustee to waive defaults.

(*d*) Article V shall be modified so that the company will pay the trustee within 90 days after Feb. 1 each year beginning Feb. 1 1921, (instead of 30 days after Feb. and Aug.) 5 cents per ton of 2,240 lbs. of "run of mine" coal; and further so that sinking fund moneys applicable to the redemption of 1st M. bonds shall be used by the trustee either in the redemption of bonds or purchase of 1st mtge. bonds for cancellation at par and int.

(*e*) Article VI, Section 7, shall be modified so that the proceeds of insurance may be applied for the purposes for which bonds may be certified as provided in Subdivision (B). [above].

Modification of Adjustment Mtge.—3. The provisions of the 1st *Adjustment bonds* shall be abrogated and the mortgage modified so that interest at not exceeding 5% as directors may declare shall be paid beginning May 1 1921, to and incl. Nov. 1 1923, and that there shall be paid firm interest at rate of 5% on and after May 1 1924. They shall be called Second Mortgage.

The foregoing amendments shall be made to the 1st M. or Adjust. M. or shall be superseded by a new Mortgage containing above provisions.

Capital Stock.—4. The outstanding capital stock of the Colliery co. shall equal the amount of Adjustment bonds outstanding, plus an amount received by the committee in return for Development Co. assets and such amount of capital stock equal to the total amount of int. due beginning May 1 1913, to Nov. 1 1920 upon the Adjustment M. bonds, plus 55 undeposited shares. The balance of the capital stock outstanding as of Feb. 1 1921, shall be returned to the treasury of the Colliery Co., it being the intention that its $1,447,500 capital stock shall be distributed as follows:

To the holders of $890,000 Adjustment M. bonds outstanding	$890,000
To the holders of Adjustment M. bonds the stock issued to the Committee in return for assets of the Development Co	89,000
To the holders of Adjustment M. bonds for 8 years' accrued int. amounting to 40%	356,000
To the Superior Colliery Co., to be held in its treasury	107,000
There being now outstanding and undeposited	5,500

Cancellation of Income Note.—5. The income notes of the Colliery Co. both principal and interest shall be cancelled.

Article 6 of the plan is stricken out and a new Article 6 inserted which provides that (*a*) the moneys on Jan. 1 1921, in the sinking fund in the hands of Guaranty Trust Co., trustee under the 1st Adj. M., shall not be applied as provided in the M., but shall be paid over to the Committee and may be used by it on account of its compensation, expenses, &c., desirable.

(*b*) In connection with the transfer of the property of the Development Co., the committee may cause the Colliery Co. to pay or assume all or any part of the compensation, expenses, &c. of the committee.

(*c*) Any defaults under the 1st M. or the 1st Adjustment M. existing on Jan. 31 1921, shall be waived—the consideration for the waiver as to interest due upon the 1st Adjustment bonds being the delivery to the holders of such bonds of capital stock as above.

[Signed G. E. Warren, G. T. Maxwell, H. B. Hollins, Comm. Columbia Trust Co., Depositary.]—Compare V. 107, p. 910; V. 112, p. 2650.

Texas Co.—*Option on 51% of Carib Syndicate Stock.*—See Carib Syndicate, Ltd., above.—V. 112, p. 1626.

Tidewater Oil Co.—*Seeks Receiver for Guffey-Gillespie.*—See Guffey-Gillespie Oil Co. above.—V. 112, p. 2650.

Union Twist Drill Co., Athol, Mass.—*Omits Dividend.* The quarterly dividend usually paid June 30 on the outstanding Common stock, par $5, will be omitted on that date. In March last a quarterly dividend of 31¼ cents per share was paid, while during 1920 four quarterly dividends of 62½ cents per share each were paid.

The regular quarterly dividend of 1¾% on the Pref. stock has been declared, payable June 30 to holders of record June 24.—V. 112, p. 2314.

ILLINOIS CENTRAL RAILROAD COMPANY

SEVENTY-FIRST ANNUAL REPORT—FOR THE YEAR ENDED DECEMBER 31 1920.

To the Stockholders of the Illinois Central Railroad Company:

There is submitted herewith the report of the Board of Directors covering the affairs of your Company for the year ended December 31 1920.

The number of miles of road as of December 31 1919 was		4,799.77
Additions for year:		
January 1 1920—Tracks of New Orleans Great Northern RR. at Monticello, Miss., not reported in previous years	.36	
December 1 1920—Rechaining at Tara, Ia	.02	.38
		4,800.15
Less:		
February 1 1920—Reduction due to construction of cut-off at Scottsburg, Ky	.62	
February 1 1920—Shortening line at Carbondale, Ill	.10	
March 1 1920—Shortening line due to construction of cut-off at Camp Knox, Ky	.03	.75
The number of miles operated on December 31 1920 was		4,799.40
The average number of miles of road operated during the year was		4,799.44

INCOME.

Income Balance Transferred to Credit of Profit and Loss	13,434,841 43	11,880,619 40	+1,554,222 03

The income account for the current year 1920 consists of the Federal contract compensation for January and February, less Corporate expenses and war taxes; and the income resulting from operation for the ten months beginning March 1 1920. To these sums is added an amount which represents the difference between the amount earned and the amount guaranteed under Section 209 of the Transportation Act, 1920, during the six months' guaranty period, from March 1 to August 31 1920, inclusive, which amount stands as a claim against the Government. For the year 1919 the income account was made up of compensation accrued to your Company under the contract with the Government entered into pursuant to the Federal Control Act, from which were deducted Corporate expenses and Federal war taxes. To the income for the respective years was added income from securities owned and other Corporate income and there was deducted interest on funded debt and other Corporate charges.

In the current year's income the items "Operating Revenues," amounting to $121,804,579 25, and "Operating Expenses," amounting to $121,874,327 47, represent operating results for the months from March to December 1920, inclusive. There were no corresponding figures for the previous year because in that year all operating revenues accrued to and all operating expenses were borne by the Government and in lieu thereof there accrued to your Company rental payable by the Government under the terms of the Federal Control Act and the standard form of contract entered into by your Company with the Director-General of Railroads.

The item "United States Government-Guaranty Period Claim" of $19,499,886 56 is the sum by which the Railway Operating Income, as defined in Section 209 of the Transportation Act, 1920, for the six months from March 1 to August 31 1920, was insufficient to meet the guaranty under this section of the Act.

The decrease of $14,496,832 49 in "Rental from United States Railroad Administration" for the year 1920, compared with the year 1919, is due to the fact that rental payable under the Federal Control Act and the Standard Contract accrued for January and February of the current year only, while in the year 1919 the rent for the entire year accrued to your Company.

There was a decrease of $233,974 72 in "Operating Expenses, Corporate, not assumed by United States Railroad Administration" for the reason that Federal control terminated March 1 1920, and similar expenses for the remaining ten months were included in "Operating Expenses." In the previous year the expenses for the entire twelve months were included in this account. These expenses were for salaries and expenses of officers and clerks necessary to maintain the Corporate organization.

The increase of $6,319,061 96 in "Federal War Income and Other Taxes" is principally due to the inclusion in the current year of ten months of State and other taxes accruing from March to December 1920, in addition to Federal war income taxes for the year. The State and other taxes for the first two months of the year 1920 were chargeable to the Director-General of Railroads. In the previous year the Company assumed the Federal war income taxes and the State and other taxes for the entire year were borne by the Director-General of Railroads.

The increase of $23,319 80 for the calendar year 1920 in the item "Uncollectible Railway Revenues" was for transportation charges earned by your Company determined to be uncollectible and therefore charged off. Uncollectible railway revenues in the previous year were included in the accounts of the Director-General of Railroads and any portion thereof antedating the Federal control period was charged back to your Company by the Director-General and in the report of the previous year included in "Expenses Prior to January 1 1918."

The increase of $3,196,849 02 for "Equipment Rents-Net Credit" is the excess of income over outgo for hire of railway equipment for the last ten months of the current year. In the previous year, as also in the months of January and February 1920, this income accrued to the Director-General of Railroads under the terms of the Federal Control Act and the Standard Contract.

The increase of $191,297 36 in "Joint Facility Rents-Net Debit" is for the excess of rentals paid over rentals received for tracks and terminal facilities used in common with other carriers for the last ten months of the year. The corresponding rentals for the first two months of the current year and for the previous year accrued to or were assumed by the Director-General of Railroads.

"Income from Investments and Other Corporate Income" decreased $414,122 66. There was a decrease of $1,005,858 53 in the amount of interest receivable on Louisville New Orleans & Texas Railway Company Second Mortgage Income Bonds and a decrease of $126,382 06 compared with the previous year, caused by a reduction in the amount of revenues accrued prior to January 1 1918, being reported by the Director-General of Railroads. These decreases were offset in part by an increase of $150,006 38 in dividends from securities owned, representing an increase of $400,000 00 in dividends on Madison Coal Corporation stock, less decrease of $249,993 62 on account of dividends received on Dubuque & Sioux City Railroad Company capital stock last year and on which no dividends were paid during the current year. There was also an increase of $564,219 03 in "Income from Unfunded Securities and Accounts," the major portion of which was for interest receivable from The Yazoo & Mississippi Valley Railroad Company on its unfunded indebtedness to your Company. The balance of the increase, $3,892 52, consisted of minor items of non-operating income received this year as compared with the previous year.

The increase of $14,125 00 in "Interest on Funded Debt and Other Miscellaneous Corporate Charges" is largely due to an increase in interest on funded debt, less a substantial decrease in rents for leased roads. The increase in interest on funded debt was on account of additional securities issued during the year for new equipment. The decrease in rents for leased roads represents the deficit from operations of the Dubuque & Sioux City Railroad by your Company during the last four months of the current year and is repayable by the Dubuque & Sioux City Railroad Company.

ASSETS AND LIABILITIES.

The financial condition of the Company on December 31 1920, as compared with the previous year, is shown in the General Balance Sheet, Table 4 [pamphlet report].

The following is an explanation of the important changes in "Investments" and "Funded Debt" during the year:

INVESTMENTS.

Expenditures for additions and betterments amounted to $17,295,942 82 as shown in detail on page 8 [pamphlet report]. Of this sum $15,191,281 07 was for improvements to lines of railroad owned by your company and to its equipment and is included in General Balance Sheet Account "Road and Equipment since June 30 1907." The balance of $2,104,661 75 covered improvements to the railroads of subsidiary companies and is included in General Balance Sheet Account "Investments in Affiliated Companies—Advances."

The increase of $196,500 00 in "Investments in Affiliated Companies—Bonds" was as follows:

Purchase of Ocean Steamship Company of Savannah Seven Per Cent Gold Bonds of 1925, at par	$209,000 00
Less: Peoria & Pekin Union Railway Company Five Per Cent Debenture Bonds matured August 1 1920, redeemed, par value	12,500 00
Increase	$196,500 00

There was an increase of $2,044,172 66 in "Investments in Affiliated Companies—Advances," as shown in Table 6, [pamphlet report], representing advances to subsidiary companies, as follows:

Advances for additions and betterments to the lines of railroad and equipment of subsidiary companies, as per details on page 8 [pamphlet report]	$2,104,661 75
Less: Reduction in advances to non-transportation subsidiary companies	60,489 09
Increase	$2,044,172 66

There was an increase of $2,088,900 00 in "Other Investments—Bonds" explained as follows:

The Yazoo and Mississippi Valley Railroad Company Registered Five Per Cent Gold Improvement Bonds	$2,614,000 00

These bonds were transferred from the Insurance and Pension Funds closed out during the year.

Less: Sale of United States Fourth Liberty Loan Four and One-Quarter Per Cent Bonds sold to Central of Georgia Railway Company	$525,000 00	
Homewood Country Club First Mortgage Five Per Cent Bonds, redeemed	100 00	
		525,100 00
Increase		$2,088,900 00

ADDITIONS AND BETTERMENTS—EXPENDITURES:

There was expended during the year for Additions and Betterments (including improvements on subsidiary properties), $17,295,942 82. The following is a classified statement of these expenditures:

	Additions and Betterments on Owned Lines.	*Advances for Additions and Betterments to Lines of Subsidiary Companies.*	*Total Expended*
Road—			
Engineering	$116,660 90	$13,656 38	$130,317 28

Grand total	$15,191,281 07	$2,104,661 75	$17,295,942 82

The following shows the amount advanced during the year to each of the subsidiary companies, these amounts being included in total advances shown in Table No. 6 of this]pamphlet] report:

Benton Southern RR. Co	$82 36
Bloomington Southern RR. Co	Cr.612 00
Blue Island RR. Co	1,708 57
Canton Aberdeen & Nashville RR. Co	23,321 09
Chicago St. Louis & New Orleans RR. Co	1,340,047 05
Dubuque & Sioux City RR. Co	467,600 66
Fredonia & Reeds RR. Co	6,228 61
Golconda Northern Ry	213,718 71
Kensington & Eastern RR. Co	55,374 16
Memphis RR. Terminal Co	Cr6.000 00
South Chicago RR. Co	3,192 54
Total	$2,104,661 75

FUNDED DEBT.

There was an increase in "Funded Debt" of $18,911,085 00, as follows:

Illinois Central Railroad Company Six Per Cent Equipment Gold Notes issued under Government Equipment Trust No. 33			$9,117,000 00
Illinois Central Equipment Trust, Series "F," Seven Per Cent Certificates issued			8,107,000 00
Illinois Central Railroad Company One to Fifteen Year Secured Six Per Cent Notes issued			4,440,000 00
Illinois Central Railroad Company and Chicago, St. Louis & New Orleans Railroad Company Joint First Refunding Mortgage Five Per Cent Bonds, Series "A," issued for conversion of Sterling Bonds into Dollar Bonds			5,085 00
Total			$21,669,085 00
Less: Equipment trust obligations retired and canceled: Illinois Central Railroad Company Equipment Trusts:			
Series "A"	$800,000 00		
Series "B"	350,000 00		
Series "C"	198,000 00		
Series "D"	190,000 00		
Series "E"	550,000 00		
Chicago St. Louis & New Orleans Railroad Company Equipment Trust, Series "A"	570,000 00		
	$2,658,000 00		
Real estate Mortgage matured and paid	100,000 00		$2,758,000 00
Net Increase			$18,911,085 00

"Funded Debt Held in Treasury" decreased $70,000 00 due to the retirement of a like amount of matured Chicago St. Louis & New Orleans Railroad Company Equipment Trust, Series "A" Bonds.

ROAD AND EQUIPMENT.

The following is a summary of the more important improvements during the year, the cost of which was charged wholly or in part to Road and Equipment.

ADDITIONS AND BETTERMENTS—ROAD.

136 new industrial sidings were built or extended.

137 new company sidings were built or extended, a net addition of 18.33 miles. Included therein were additions to yard facilities of 5.03 miles at Freeport, Ill., 2 miles at Centralia, Ill., and 1.70 miles at Nonconnah, Tenn.

The grading for the Markham Yard, located between Harvey, Ill., and Homewood, Ill., referred to in the report of the previous year, was continued.

Second main track was constructed from Amboy, Ill., to Sublette, Ill., 5.79 miles, and from Heyworth, Ill., to Clinton, Ill., 8.66 miles. There were constructed during the year 12.53 miles of third main track between Peotone, Ill., and Tucker, Ill.

That portion of the line change and grade reduction work between Dawson Springs, Ky., and Scottsburgh, Ky., known as the Scottsburg Grade Reduction, was completed.

The 56th St. subway, Chicago, Ill., was finished. This completed the renewal of bridges over streets between 51st St. and 67th St., Chicago, Ill. The construction of the new St. Charles Air Line bridge over the south branch of the Chicago river was completed and the old structure retired. The bridge over the Rock river at Dixon, Ill., was replaced with a new structure during the year in order to permit the operation of new Central type locomotives on the Amboy District.

The construction of subway at Washington Street, Bloomington, Ill., and two subways at Lemp and 14th Streets, Ft. Dodge, Iowa, was commenced.

The interlocking plant at Bemis, Tenn., referred to in the previous report, was completed.

The suburban platforms with waiting rooms at track level, at Chicago, Ill., between 51st and 53rd Streets, 56th and 57th Streets, and 59th and 60th Streets; suburban stations at street level at 51st, 53rd, 56th, 57th, 59th and 60th Streets; also, interchange facilities for the Chicago Lake Shore and South Bend Railway at Kensington, Chicago, Ill., referred to in the previous report, were completed. A suburban station was constructed at 175th Street, south of Chicago, Ill., to serve the Calumet Country Club. A new passenger station and a new freight station with power house and track facilities were constructed at Centralia, Ill. A new freight and passenger station was constructed at Newbern, Tenn.

New icing facilities were constructed at Jackson, Miss., and improvements made to the ice house at Waterloo, Iowa.

Improvements were made in water facilities at Kankakee, Ill., Hart, Ill., Centralia, Ill., Peotone, Ill., and New Orleans, La. A new 100,000 gallon capacity creosoted frame water tank was erected at Peotone, Ill.

Roundhouse stalls at Centralia, Ill., Clinton, Ill., Amboy, Ill., Freeport, Ill., and Paducah, Ky., were extended to accommodate the new Central type freight locomotives. New 100-ft. turntables, replacing 85-ft. turntables, were installed at Centralia, Ill., Clinton, Ill., and Freeport, Ill.

Work of constructing block signals between Ilsley, Ky., and Princeton, Ky., a distance of 20.5 miles, was commenced. There were 2,408 miles of block signals in operation at the close of the year.

2,335 lineal feet of permanent bridges and trestles were constructed replacing pile and timber bridges and trestles; 1,032 feet of permanent bridges nad trestles were filled and 11,893 lineal feet of pile and timber bridges and trestles were rebuilt or replaced by embankment. 2.75 miles of track were ballasted or reballasted and brought up to the present standard.

ADDITIONS AND BETTERMENTS—EQUIPMENT.

Twenty-five Pacific type locomotives were added and eighteen locomotives of various types were disposed of, resulting in an increase of seven locomotives. Three Consolidation type freight locomotives were converted into Mikado type freight locomotives and three Pacific type passenger locomotives and nine freight locomotives of various classes were superheated. The increase in tractive power of locomotives for the year was 744,910 pounds.

Seven passenger train cars were destroyed and one sold.

One thousand six hundred and twenty-seven freight train cars were added and four hundred and eighty were destroyed, sold or transferred to other classes, resulting in a net increase for the year of one thousand one hundred and forty-seven cars.

GENERAL REMARKS.

Federal control having terminated on March 1, 1920, your Company accepted the provisions of Section 209 ofthe Transportation Act, 1920, and was thereby guaranteed by the Government an income for the six months beginning March 1 1920, of not less than one-half of a year's compensation as fixed in the Federal Control contract, subject to increases due to adjustments as provided for in Section 4 of the Federal Control Act.

Approximately twenty per cent. was added to your Company's payrolls by the decision of the Railroad Labor Board, which though rendered on July 20 1920, was retroactive from May 1 1920.

To meet increases in labor costs due in part to this decision, increases in costs of fuel and supplies, as well as to provide the six per cent. return upon property values as provided in the Transportation Act, the Interstate Commerce Commission, by its decision in the case known as Ex Parte 74, rendered July 29 1920, but effective Aug. 26 1920, permitted increases of forty per cent. in interstate freight rates in the territory North of the Ohio River and East of the Mississippi; of thirty-five per cent in territory West of the Mississippi; and twenty-five per cent in Southern territory. Interstate rates applying between territories were increased thirty-three and one-third per cent. Interstate passenger fares other than suburban, and rates on milk and cream carried on passenger trains were increased everywhere twenty per cent. and the railroads were granted a surcharge for transporting passengers in sleeping cars equal to one-half of the regular sleeping car fare. Intrastate rates and fares were not increased at the same time or to the same extent as the interstate. State commissions, to whom applications were promptly made for increases in State rates, were in several States without authority to allow increases in passenger fares, and in some States the increases granted in freight rates were less than the interstate advances. By action of the Interstate Commerce Commission, protected in many instances by Federal injunctions, most of these rates were finally advanced to the interstate basis. In only two States, however, were the full advances effective before the end of the year, and in one of the two the increase was not made until October 1 1920. Generally speaking, intrastate passenger fare increases in the important states of Illinois, Iowa, Indiana and Louisiana were not effective until the end of the year, and advances in freight rates in these and other States were only partially effective.

The marked decline in traffic during the final months of the year prevented your road from earning the sums hoped for from the rate increases. To meet this situation expenses were promptly reduced to correspond with the decline in traffic so far as this could be done consistently with safe and efficient operation.

Prior to September 1 1920, through freight traffic was moved over the Yazoo and Mississippi Valley Railroad between Asylum, Miss., and West Junction, Tenn., under a trackage agreement covering that part of the line between Asylum, Miss., and Gwin, Miss. On September 1, an agreement was made extending this arrangement to the line between Gwin, Miss., and West Junction, Tenn., in lieu of the traffic arrangement previously existing between the two Companies.

An equipment trust agreement known as "Government Equipment Trust No. 33" was executed during the year to cover the minimum purchase price of three thousand five hundred coal cars allocated to your Company by the Director-General of Railroads, and $9,117,000.00 of notes of your Company bearing interest at six per cent. per annum were delivered to the Government under this agreement. Additional notes will be issued later to cover the purchase price of one hundred fifty coal cars received subsequent to the execution of the trust agreement and to provide for the balance of the purchase price on the original three thousand five hundred cars.

Your Company contracted for the purchase of seventy-five locomotives, fifty-five passenger train cars and one thousand five hundred fifty freight train cars to cost approximately $13,515,000.00. To provide funds for the purchase of this equipment there was issued during the year "Illinois Central Equipment Trust, Series F," amounting to $8,107,000.00 and there was advanced by the United States Government under the provisions of Section 210 of the Transportation Act $4,440,000.00, your Company giving its notes maturing in equal amounts annually between 1921 and 1935, bearing interest at the rate of six per cent. per annum, to secure the loan. The balance of the purchase price of the equipment was paid in cash by your Company.

The number of stockholders as shown by the books of your Company at the close of the year was 13,645, as compared with 11,966 last year.

The Board desires to express its appreciation to the officers and employees for their loyal and efficient services during the past year.

By order of the Board of Directors.

C. H. MARKHAM,
President.

TABLE 2—INCOME STATEMENT FOR THE YEARS ENDED DECEMBER 31 1920 1AND 1919.

	1920.	1919.	*Increase.*	*Decrease.*
Average miles operated	4,799.44	4,793.22	6.22	
Railway operating revenues	$121,804,579 25		$121,804,579 25	
Railway operating expenses	121,874,327 47		121,874,327 47	
Net revenue from railway operations	Def.$69,748 22			$69,748 22
United States Government—Guaranty period claim	19,499,886 56		$19,499,886 56

Dividends Paid on Common Stock	1.700 846	1.708 095	—7 249
Balance	$441.180	$103.297	+$337,883

Income and Surplus Accounts certified by Messrs. Price, Waterhouse & Co., appear elsewhere in this report.

POPULATION AND CUSTOMERS.

The report of the United States Census Bureau for the past ten years reveals a continuation of California's rapid growth in population, this State being one of the three which registered an increase of upwards of one million persons. The figures for these States are considered worthy of reproduction here, as indicating the substantial basis for the enduring prosperity of the territory served by your Company.

	1920.	1910.	Increase—Number.	Increase—Per Ct.
New York	10.384.144	9,113,614	1.270 530	13.94
Pennsylvania	8.720,159	7.665.111	1.055.048	13.76
California	3,426,861	2,377,549	1,049.312	44.13

It is evident that in actual growth of population California ranks closely with the two largest States of the Union and that in ratio of growth this State expanded more than three times as rapidly as either of the other two.

That your Company has more than kept pace with this advance is indicated by the fact that in the decade covered by the above comparison the number of consumers connected to its distribution lines has increased from 242,126 to 569,360, an addition of 327,234 or 135%.

The total number of customers at the close of 1920 was 569,360, or whom 286,542 were users of gas, 266,132 of electricity, and 16,686 of water and steam. The net gain during the year was 48,741. Excluding 8,944 customers taken over with the lease of the properties of the Sierra and San Francisco Power Company, the net addition, representing the normal growth of the Company, was 39,797. During the past 13 years the net addition of customers to the Company's distribution system was 386,745 (212%) as shown by the following summary:

	No. Customers at Dec. 31— 1907.	1919.	1920.	Net Gain— In 1920	In 13 Yrs
Gas Customers	122 304	269 870	286.542	16.672	164,238
Electric Customers	54,772	235,719	266,132	30,413	211,360
Water Customers	5,539	14.587	16.234	1,647	10,695
Steam Customers	----	443	452	9	452
Total Customers	182.615	520.619	569.360	48,741	386,745

NOTES ON INCOME AND SURPLUS ACCOUNTS.

GROSS EARNINGS.

The following comparison of 1920 against 1919 gross revenues shows directly the substantial growth in all branches of the Company's activities, and also indirectly emphasizes the diversity of its business and the stability of earning power implied by this diversification.

Department—	1920.	1919.	Increase.
Electric Department—			
Commercial and Residential Business.	$8,207,868	$6,082.949	$2,124,919
State, County and Municipal Business	1,186,789	962,068	224,721
Sales of Power—			
Agricultural Industry	2.246,697	1,094,092	1,152,605
Mining Industry	1,110 322	949.678	160,644
Transportation Industry	2.557.636	1,021,145	1,536,491
Manufacturing Industry	3.526 059	2,682.785	43.274
Other Light & Power Corporations	1,196.295	498,480	697,815
Commercial and Miscellaneous	1,518,392	1,181,488	336,904
Temporary and Miscellaneous Lighting and Power	21 263	2.199	19.064
Total Electric Sales (62.5% of total)	$21,571,321	$14,474,884	$7,096,437
Gas Department—			
State, County and Municipal Business	$294,599	$294,434	$165
Commercial and Residential Business	10,804,236	9,583 248	1,220,988
Sales to Other Gas Companies	62 847	55 652	7.195
Total Gas Sales (32.4% of total)	$11,161,682	$9,933,334	$1,228,348
Water Department—			
Municipal Business	$30,035	$24.954	$5,081
Commercial and Domestic Business	352.353	289,804	62,549
Irrigation	197.237	170.138	27,099
Power	58 711	55 711	3.000
Total Water Sales (1.9% of total)	$638,336	$540,607	$97,729
Street Railway Department (2.2% of total)	$753 028	$671.105	$81,923
Steam Sales Department (1% of total)	$451 005	$318 442	$32.563
Total All Departments	$34,475.372	$25,938.372	$8,537,000

That the growth of business pointed out in the preceding table was but a continuation of the experience of preceding years may be gathered from the following table, showing gross revenues by departments during the past five years. As a matter of fact, in no single year of the Company's entire history has the volume of its business ever failed to show an increase.

Year.	Sources of Gross Operating Revenue. Electricity.	Gas.	Street Railway.	Water.	Steam.	Total.	Increase Each Year.
1915	$9,924,482	$7,560,185	$425,338	$420,217	$200,079	$18,530,301	
1916	10,100,033	7,438,255	442,303	427,516	207,391	18,615,498	*$85,197
1917	10,859,785	7,771,058	491,021	475,333	216,184	19,813,381	1,197,883
1918	12,384,499	8,923,484	534,068	509,273	244,193	22,595,517	2,782,136
1919	14,474,884	9,933,334	671,105	540,607	318,442	25,938,372	3,342,855
1920	21,571,321	11,161,682	753,028	638,336	351,005	34,475,372	8,537,000
Gain in 5 years	$11,646,839	$3,601,497	$327,690	$218,119	$150,926	$15,945,071	$15,945,071

* Post Exposition Year.

The increase of $8,537,000 in gross operating revenue during 1920 is attributable:

(*a*) to the normal growth of the Company's business incident to the net addition of 39,797 consumers to its lines, exclusive of the 8,944 customers added through the Sierra lease.

(*b*) to the lease as of January 1 1920 of the properties of the Sierra & San Francisco Power Company, which had gross earnings of about $2,500,000 per annum prior to the lease.

(*c*) to the acquisition as of October 3 1919 of the properties of the Northern California Power Company, Consolidated, which had gross earnings of about $1,200,000 per annum prior to being purchsed by your Company.

(*d*) to the increased rates for electricity and gas which were authorized by the Railroad Commission of California as an offset to increased operating costs, and which became effective on July 10th and July 24th 1920, respectively.

While it is not feasible to make an exact statement of the extent to which each of the foregoing factors contributed to the total gain in gross earnings, it is a fair estimate that the growth in business exclusive of that of acquired properties was responsible for about $5,100,000 of this additional revenue, this increase far outstripping the record of any previous year in the Company's history.

It will be observed from the foregoing table that the gross revenue of the Electric Department has more than doubled in the past five years, while that of the Gas Department has increased 50%.

Particular attention is directed to the following statement, contrasting sales of electric power during 1920 with similar sales during 1915. The increase of almost seven millions of dollars, or 170%, in the comparatively short term of five years, is a fair measure of the rapid expansion during this period of the basic industries in the territory served. The progressive policy pursued by your Company in the development of its hydro electric resources, involving the investment of large amounts of new capital in power generation and distribution facilities, has been an essential factor in this expansion.

SALES OF ELECTRIC POWER.

Industry—	Power Sales— 1920.	1915.	Increase— Amount.	Increase— Per Ct.
Agriculture	$2,246,697	$354,171	$1,892,526	534.4
Mining	1,110,322	650,740	459,582	70.6
Transportation	2,557,636	870,326	1,687,310	193.9
Manufacturing	3,526,059	1,663,099	1,862,960	112.0
Commercial and Miscellaneous Power	1,518 392	513,460	1,004.932	195.7
	$10,959,106	$4,051,796	$6,907,310	170.5

It is inevitable, with the large and fast growing population, unexcelled natural resources, and geographical location of your Company's business field, that the development of the agricultural, manufacturing, commercial and other resources of this section will proceed at a still more rapid pace in the future; and it is in anticipation of the progressively increasing demands that will be made upon it for electric energy from year to year that your Company is now proceeding with the largest hydro-electric development program in its history.

OPERATING EXPENSES AND TAXES.

Operating expenses and taxes, excluding reserves for casualties, uncollectible accounts and depreciation, increased by $6,091,745, absorbing 71.4% of the year's additional gross operating revenue. The shortage of water which adversely affected your Company's costs for the past two or three years continued during the spring and summer months of 1920, necessitating the use of an abnormal quantity of fuel oil for generating electricity in steam stations. Oil prices advanced 25 cents per barrel in March, and 12 cents per barrel in August, 1920, a total advance of 37 cents per

barrel, or 23.7% over the price at the beginning of the year. Material costs, though in a lesser degree, registered an advance over the previous year's averages, having apparently reached a peak about the middle of the year. In January, 1920, the average cost of materials and supplies, based upon prices of 31 representative articles in common use by the Company, was 45% in excess of January, 1916, prices, while in December, 1920, the average increase was 53%.

The items of material, labor, oil and taxes comprised about 85% of operating and maintenance expenses (exclusive of reserves). Using the prices of 1916 as the bases of comparison, and representing these as 100%, the extent to which these major cost items have increased during the past four years is illustrated by the following table; which also affords a comparison with the relatively small increase in average revenue received by the Company per k.w.h. of electricity, and per thousand cubic feet of gas.

Year—	Fuel Oil.	Operating Labor.	Taxes.	*Material.	Gross Rev. per Unit of Electricity.	Gas.
1916	100%	100%	100%	100%	100.0%	100.0%
1917	162%	107%	129%	131%	95.5%	100.0%
1918	181%	122%	183%	144%	101.7%	105.9%
1919	215%	139%	202%	133%	113.5%	111.5%
1920	252%	156%	263%	140%	115.9%	115.2%

* Based upon average of prices in January and July of each year.

The completion in the summer of 1921 of new hydro-electric plants on the Pit and Stanislaus Rivers, with a combined installed capacity of 43,566 horsepower should render possible a reduction of operating costs through the substitution of hydro-electric energy for much of that now generated by the use of fuel oil in steam stations.

Taxes will undoubtedly continue the uniformly upward trend of past years. In 1920 taxes absorbed 21.69% or upwards of one-fifth of net operating income, compared with 11.08% in 1916. A comparison by years follows:

Year—	Amount of Taxes.	Required to Pay Taxes—Percentage of Gross Operating Income.	Required to Pay Taxes—Percentage of Net Operating Income (Before Deducting Taxes).
1916	$972,565 17	5.22%	11.08%
1917	1,253,239 40	6.33%	15.26%
1918	1,782,939 31	7.89%	18.48%
1919	1,962,038 39	7.56%	19.33%
1920	2,558,709 43	7.42%	21.69%
Increase in 4 years	$1,586,144 26 or 163%		

MAINTENANCE AND DEPRECIATION.

In pursuance of its policy of maintaining its properties in first-class physical condition—a prerequisite of the high standard of service which your Company at all times endeavors to furnish—there was expended for maintenance during the year $2,740,210, in addition to which $1,788,302 was set aside from earnings as a reserve for depreciation. This combined upkeep provision of $4,528,512 represents 13.14% of gross operating revenue, compared with 12.52% in 1919 and 12.71% in 1918. These figures are exclusive of a special depreciation reserve of $1,000,000 which was also set aside out of earnings.

More than forty-six millions of dollars have been expended for maintenance or appropriated for depreciation in the past fifteen years, as indicated by the following table:

Expended for Maintenance	$18,946,537 46
Appropriated for Depreciation	27,095,811 25
Total	$46,042,348 71
Average per year	$3,069,489 91

NET EARNINGS FROM OPERATION.

Net earnings from operation increased $1,335,528, representing 15.6% of the increase in gross operating revenues, and from miscellaneous income $266,146, a total increase of $1,601,674. The amount available for the payment of fixed charges was $11,935,235, or two and four-tenths times bond interest.

FIXED CHARGES.

Bond and other interest as shown by the following table increased $635,179, and amortization of bond discount and expense $98,587, this addition of $733,766 to fixed charges being chiefly due to the inclusion of a full year's interest on the bonds of the Northern California Power Company, Consolidated, which were assumed in connection with the purchase of that Company's properties, and to the sale of $10,000,000 par value of Five-year 7% Collateral Trust notes issued in May, 1920, to provide the funds for additional facilities necessitated by the Company's increasing business.

Items—	1920.	1919.	Increase
Interest on Bonds Outstanding	$4,777,343	$4,147,854	$629,489
Interest on Bonds in Sinking Funds	308,206	273,017	35,189
Interest on Notes Payable	15,283	5,261	10,022
Miscellaneous Interest Payable	5,044	252	4,792
Total	$5,105,876	$4,426,384	$679,492
Less, Interest Charged to Construction	185,440	141,127	44,313
Balance (Interest Charged to Operating Account)	$4,920,436	$4,285,257	$635,179

DIVIDENDS.

There remained after the payment of the regular 6% dividends upon Preferred Stock aggregating $1,777,933, a balance of $2,142,026. Common stock dividends at the rate of 5% per annum amounted to $1,700,846, leaving a balance of $441,180, or $337,883 in excess of the 1919 figure to be added to corporate surplus.

CONSERVATION OF ASSETS.

As shown in the first of the two following tables, net earnings, after bond interest, have aggregated $61,008,952 in the fifteen years since this Company's organization. It will be noted from the second table, giving the approximate disposition of these earnings, that only 33% of the total amount was paid out in cash dividends, the remainder being retained in the business.

Year.	Gross Revenue Including Miscellaneous Income.	Maintenance, Operating Expenses and Reserves.	Taxes.	Net Earnings Before Depreciation.	Interest.	Balance.
1906	$8,947,162	$4,139,233	$283,886	$4,524,043	$2,784,908	$1,739,135
1907	11,342,140	5,978,967	247,262	5,115,911	2,854,264	2,261,647
1908	12,657,305	6,517,930	274,789	5,864,586	3,021,722	2,842,864
1909	13,491,288	7,211,517	320,059	5,959,712	2,988,521	2,971,191
1910	14,044,596	7,538,461	382,880	6,123,255	3,006,256	3,116,999
1911	14,604,609	7,697,370	516,702	6,390,537	3,254,133	3,136,404
1912	14,744,651	7,808,592	622,969	6,313,090	3,568,943	2,744,147
1913	16,202,337	8,655,044	676,163	6,871,130	3,902,045	2,969,085
1914	17,220,503	8,170,874	743,047	8,306,582	4,191,401	4,115,181
1915	18,944,180	8,356,148	849,445	9,738,587	3,985,410	5,753,177
1916	19,125,384	8,586,318	972,565	9,566,501	3,844,933	5,721,568
1917	20,321,728	10,351,452	1,253,239	8,717,037	4,100,907	4,616,130
1918	23,105,718	11,247,391	1,782,939	10,075,388	4,117,066	5,958,322
1919	26,582,688	14,287,089	1,962,038	10,333,561	4,285,257	6,048,304
1920	35,385,834	20,891,000	2,558,799	11,935,235	4,920,436	7,014,799
	266,720,123	137,438,186	13,446,782	115,835,155	54,826,202	61,008,953

To retire bonds	$11,766,000
Reinvested in Property	13,595,000
For Replacements and Rehabilitation	14,610,000
Cash Dividends	20,283,000
Other Purposes	755,000
Total	$61,009,000

RESERVES.

Reserves at December 31, 1920, after charging off realized losses, stood as follows, compared with December 31, 1919:

Description of Reserves—	Dec. 31 1920.	Dec. 31 1919.	Increase (+) or Decrease (—).
For Depreciation	$8,652,408 58	$6,634,717 39	+$2,017,691 19
Insurance & Casualty Funds	204,726 57	155,591 30	+49,135 27
Uncollectible Accounts Reserve	160,811 21	130,938 95	+29,872 26
Reserve for Earnings in Litigation	1,820,134 09	1,849,321 50	—29,187 41
Reserve for Northern California Power Company Consolidated Plant Adjustments and Accrued Depreciation	1,648,136 94	1,799,576 92	—151,439 98
	$12,486,217 39	$10,570,146 06	+$1,916,071 33

NOTES ON BALANCE SHEET.

PLANTS AND PROPERTIES.

During 1920 construction work on the Pit River and Spring Gap hydro-electric plants was carried forward vigorously. These and other new installations under way or completed during the year aggregate over one hundred and fifty-five thousand horsepower of additional generating capacity, equivalent to more than one-half of the Company's present hydro-electric generating capacity and to upwards of one-third of the total installed capacity, including steam stations. A summary covering only the most important items of new construction, follows:

Nature of Work.	Installed Capacity (H.P.) of Electric Plants.	Date Work Commenced.	Approximate Date of Completion.
Electric Plants—			
Spaulding Plant No. 2	1,341	April 1920	October 1920
Hat Creek Plant Nos. 1 and 2	33,512	June 1920	July 1921
Steam Turbine, Sta. "C," Oakland	16,756	July 1920	March 1921
Pit River Plant No. 1	93,834	Novem. 1920	Spring 1922
Total	145,553 h.p.		
Spring Gap Plant (leased property)	10,054	August 1920	July 1921
Total Installed Capacity of Plants under Construction or Completed during 1920	155,497 h.p.		
Other Work—			
Newark—Wise Tower Line		Jan. 1920	Jan. 1921
High Pressure Gas Transmission Line, Sacramento to Woodland		July 1920	April 1921

The expenditures during the year for plant additions, including the above items and also including the usual service extensions incident to the net addition of almost forty thousand customers to the Company's system, aggregated $11,314,609.64, as indicated below:

The Plants and Properties Account, at the close of the previous fiscal year, stood at		$154,054,204 48
Gross Expenditures for additions, betterments and improvements during the year 1920 amounted to	$11,314,609 64	
Of which there was charged to Operating Expenses through the medium of Depreciation Reserve	713,190 15	
Leaving Balance carried to Plants and Properties Account		10,601,419 49
The total of which at December 31 1920 stood at		$164,655,623 97

In the fifteen years since its organization the Company has increased its plant account by $91,875,790.25 through construction and the acquisition of additional properties. Detailed statement by years follows:

Year—	Construction.	Other Properties Acquired.	Total.
1906	$3,860,243 84	$13,820,125 00	$17,680,368 84
1907	3,674,474 69	47,861 17	3,722,335 86
1908	2,099,996 91	----------	2,099,996 91
1909	1,746,705 64	90,632 46	1,837,338 10
1910	2,879,158 45	593,766 29	3,472,924 74
1911	2,248,521 31	4,768,949 31	7,017,470 62
1912	7,495,763 69	404,285 15	7,900,048 84
1913	7,406,415 80	389,208 36	7,795,624 16
1914	2,733,949 35	4,181 50	2,738,130 85
1915	2,089,447 17	120,478 44	2,209,925 61
1916	3,658,426 33	12,681 31	3,671,107 64
1917	2,778,535 82	1,800,055 76	4,578,591 58
1918	1,555,578 93	256,719 48	1,812,298 41
1919	3,106,667 71	*11,631,540 89	14,738,208 60
1920	10,600,208 89	1,210 60	10,601,419 49
Total	$57,934,094 53	$33,941,695 72	$91,875,790 25

* Includes purchase of the properties of the Northern California Power Company, Consolidated, and the Durham Light and Power Company.

FUNDED DEBT.

In May, 1920, in order to provide the funds necessary for carrying on the construction program outlined, the Company issued $10.000,000 par value of Five-Year 7% Collateral Trust Convertible Gold Notes. As an offset against this increase in funded debt, the underlying issues outstanding in the hands of the public were decreased by $1,243,806 through the purchase of bonds for sinking fund purposes, leaving a net increase in funded debt at the close of the year of $8,756,194.

Following is a detailed list of bonds outstanding in the hands of the public at December 31, 1920, compared with the preceding year:

BOND ISSUES.	*Rate.*	*Due Date.*	*Outstanding Dec. 31 1920.*	*Outstanding Dec. 31 1919*	*Increase.*	*Decrease.*
P. G. & E. Co. General and Refunding	5%	Jan. 1 1942	$36,542,000	$36,542,000	----------	----------

The Sacramento Valley Power Co. 1st and Refunding	6%	July 1 1941	478,000	497,000	----------	19,000
Northern California Power Co. Cons. Series "A" Gold Debentures	6%	Feb. 1 1920	----------	382.006	----------	382,006
Total Bonds	-----	----------	$95,758,600	$87 002 406	$8,756 194	----------

The following table shows that the amount of bonds outstanding in the hands of the public increased in the five years to December 31, 1920, by $19,585,800. During these five years the value of the properties securing these bonds, after charging all replacements and the value of obsolete and abandoned plant to operating expenses through the medium of depreciation reserve, was increased by $35,401,626 through the construction of plant additions and the acquisition of other properties. In other words, in this five-year period only 55% of the cost of net construction was obtained through the issuance of secured obligations. During the same period bond interest was earned 2.4 times on the average. In both respects this largely exceeds the requirements of the most conservative mortgages securing public utility bonds.

Year.	*Bonds Outstanding December 31.*	*Cost of Net Plant Additions.*	*Gross Earnings All Sources.*	*Net Earnings Before Depreciation.*	*Annual Interest on All Bonds Outstanding December 31.*	*Per Cent of Gross Required for Bond Interest.*	*Per Cent of Net Required for Bond Interest.*
1915	$76,172,8 0	----------	$18,944,180	$9,738,587	$3,810,930	20.1%	39.1%

CAPITAL STOCK.

In the latter part of 1920 the Company actively resumed the direct sale of its First Preferred 6% Stock to its customers, employees and other residents of its territory. During the last six months of the year, 3,670 sales were made aggregating $3,635,050 par value of stock, or slightly less than ten shares per purchaser. In addition, $16,400 par value of this stock was exchanged for Original Preferred. Total direct sales of First Preferred Stock made by this Company since its inauguration of the "customer-ownership" plan in June, 1914, have aggregated $18,426,450, as follows:

	No. of Sales.	*Par Value.*
1914	3,739	$8,801,300
1915	1,712	3,785,100
1916	617	1,123.100
1917	650	890,000
1918	192	156,000
1919	52	35,900
1920	3,670	3,635.050
Total	10.632	$18,426,450

The net addition of new stockholders during the year, after eliminating duplications due to the ownership by single stockholders of more than one class of stock, was 5,207, the total number of stockholders at the close of 1920 being 14,020, of whom about 78% are rseidents of California. The following table shows the status of stock outstanding in the hands of the public at December 31st:

Capital Stock—	*December 31 1920.*	*December 31 1919.*	*Inc. (+) or Dec. (—).*
First Preferred Stock—6% Cumulative	*$33,628,230	*$29,976,780	+$3,651.450
Original Preferred Stock—6% Cumulative	56,800	72,800	—16,000
Common Stock	34.004.058	34,004,058	----------
	$67,689,088	$64,053,638	+$3,635,450

* Includes stock subscribed for but not fully paid.

SINKING FUNDS.

The condition of Sinking Funds is summarized in the following table:

Character of Sinking Fund Assets—	*December 31 1920.*	*December 31 1919.*	*Additions during 1920.*
Bonds of Company—at par	$13,971,590 00	$12,605,690 00	$1,365,900 00
Liberty Loan Bonds—at par	364,400 00	232,000 00	132,400 00
Cash and Accrued Interest—not yet invested	102,350 22	107,013 82	Decr.4,663 60
Total Assets	$14,438,340 22	$12,944,703 82	$1,493,636 40
Net Annual Interest Saving through bond retirements	$700,116 50	$626,409 50	$73,707 00

The $14,335,990 par value bonds held in Sinking Funds at the close of 1920 were acquired by the following means:

From Profits	$12,801,790
In Exchange for other bonds	493,000
From proceeds of sale of Common Stock	1.041.200
	$14,335,990

CURRENT ASSETS AND LIABILITIES.

Throughout the year the Company conducted its business on a cash basis, and at the close of 1920 there were no unpaid obligations except current accounts and certain unmatured notes of the Northern California Power Company, Consolidated, aggregating $196,826.82, which were assumed in connection with the purchase of that property. By discounting all bills on which it was possible to secure cash discounts, the Company made a saving of $43,940.88. A cash balance of $3,078,402, including $1,000,000 United States Treasury Certificates, was carried forward into 1921.

Net working assets at December 31, 1920, amounted to $12,053,084, computed on the basis indicated by the following table. Against these assets there was a contingent liability representing revenues involved in rate litigation which has been pending for several years, against which a reserve of $1,820,134.09 has been set up.

	Dec. 31 1920.	*Dec. 31 1919.*	*Inc.(+) or Dec. (—).*

OPERATING DEPARTMENTS.

Matters relating to the Operating Departments are more fully dealt with in the following report presented at the annual meeting of stockholders by Mr. J. A. Britton, Vice-President and General Manager.

REPORT OF VICE-PRESIDENT AND GENERAL MANAGER.

The Company's operations now embrace 36 counties in the North-Central part of the State, with an estimated population served of 2,000,000.

In its activities it uses 677 motor vehicles and employs at the present time 6,800 men and women.

It contributes to the material wealth of the State, in payment of services rendered and materials purchased and disbursement of dividends and bond interest, upwards of 30 million dollars annually.

It owns in fee 96,737 acres of land in the State and operates 28 power plants and 20 gas plants.

It has been the pioneer in long-distance high-tension transmission, in regulation of energy by means of load dispatchers, in high-head development in water-power plants, in publication of a house organ, in sales to consumers of its securities. It has made possible, through the flexibility and diversity of its system, the longest inter-connected series of electric systems in the world. It is now building the highest voltage lines, namely, at 220,000 volts. It pioneered the oil gas process and system of high-pressure gas distribution, and many other noteworthy and economic procedures.

It has an employees' pension plan, and an Employees' Association of 3,900 members banded together as an independent organization for educational and social purposes. Finally, it aims to represent service in its fullest expression to its consumers.

The continued drought during the year affected the Electric Department revenues of the Company, due to shortage of power and increased operating expenses by the reason of the necessity of maximum operation of steam plants. The Gas Department expenses were likewise increased because of increased oil costs.

I mention at this point a few of the most important incidents occurring during the year.

January 1, 1920—Merging into P. G. & E. system of the leased property of Sierra and S. F. Power Company.

January 1, 1920—Commencement of second circuit on Wise towers from Newark to Wise Power House—170 miles, completed January 1, 1921.

June 1, 1920—Commencement of work on Hat Creek Plants Nos. 1 and 2, installed capacity 33,512 H.P.—to be completed July 15, 1921.

July 1, 1920—Commenced work on steam turbine in Station "C," Oakland—16,756 H.P.—completed March, 1921.

July 1, 1920—Commenced work on high pressure gas transmission line from Sacramento to Woodland.

July 10, 1920—15% surcharge on electric rates granted by Railroad Commission.

July 24, 1920—General increase in gas rates and establishment of fixed schedules.

August 1, 1920—Commencement of work on 10,054 H.P. hydro-electro plant at Spring Gap, on Stanislaus River to be completed July 15, 1921.

October 15, 1920—Tie-in with system of San Joaquin Light and Power Corporation.

October 27, 1920—Completion of Spaulding Plant No. 2—1,341 H.P.

November 1, 1920—Commencement of work on Pit River Plant No. 1—93,834 H.P.—to be completed in spring of 1922.

The total amount expended for labor in the year was $10,918,759—an increase over 19[illegible] of $3,804,515.

The average number of employees in 1920 was 6,517, and the average annual wage per employee was $1,675.

The total oil used in all departments during the year 1920 was 4,792,700 barrels, of which 2,435,029 barrels were used for generating electric power, 2,227,021 in the manufacture of gas, and 130,650 in the steam and water departments.

ELECTRIC DEPARTMENT.

PRODUCTION OF ELECTRIC ENERGY IN K. W. H., 1920.

	P. G. & E. Co.	S. & S. F. Pr. Co.	Total.	P. G. & E. Co. Inc. (+) or Dec. (—). K. W. H.	Per Cent.
Hydro	697,531,114	164,187,584	861,718,698	+175,296,347	+33.57%
Steam	370,048,460	117,848,300	487,896,760	+39,133,470	+11.83%
Purchased	93,361,301	32,701,914	126,063,215	—48,046,923	—33.98%
Total	1,160 940 875	314.737.798	1,475.678.673	+166.382.894	+16.73%

Sales of electric energy on the Pacific Company's ststem during 1920 aggregated 789,922,625 K. W. H., an increase of 131,473,281 K. W. H., or 19.97%, over sales in 1919. The system load factor was 64.9% compared with 60.7% in the previous year. The highest peak of the year was 347,190 H. P., and the average daily load on the system was 225,194 H. P. The total connected load on the Pacific Company's system was 847,049 H. P., or 73,241 H. P. in excess of last year's figures.

The capacity of the plants of the Company generating electric energy are as follows, expressed in horsepower:

Hydro Plants.

	H.P.
Alto, Placer County	2,681
Centerville, Butte County	8,579
Coal Canyon, Butte County	1,341
Coleman, Shasta County	20,107
Colgate, Yuba County	20,878
Cow Creek, Shasta County	2,011
DeSalba, Butte County	17,426
Deer Creek, Nevada County	7,373
Drum, Placer County	33,512
Electra, Amador County	26,810
Fall River Mills, Shasta County	1,274
Folsom, Sacramento County	4,021
Halsey, Placer County	16,756
Inskip, Tehama County	8,043
Kilarc, Shasta County	4,021
*LaGrange, Stanislaus County	1,206
Lime Saddle, Butte County	2,681
*Phoenix, Tuolumne County	2,513
South, Tehama County	5,362
Spaulding No. 1, Nevada County	5,027
Spaulding No. 2, Nevada County	1,341
*Stanislaus, Tuolumne County	45,576
Volta, Shasta County	8,378
Wise, Placer County	16,756
Total, Hydro Plants	263,673

Steam Plants.

	H.P.
San Francisco	85,791
Oakland	28,150
Sacramento	6,702
*North Beach	36,193
Total, Steam Plants	156,836
Total, Electric Generating Capacity	420,509

* S. & S. F. Pr. Co.

The following is a brief description of the electric distribution facilities for supplying the 266,132 consumers connected to the system:

	1920.
Miles of 110 000 volt line	499.50
Miles of 60,000 volt line	1,959.30
Miles of 24,000 volt line	190.30
Total High Tension Lines	2,649.10
Miles of overhead distribution lines (less than 20 K. V.)	6,841.77
Miles of underground distribution)	135.51
Total	9,626.38

Number of transformers connected with distribution system 31,499 having a capacity of 383,024 K.W., and 671,902 H.P. in transformers, installed in 227 substations.

The draft on storage in 1920 occurred as follows:

South Yuba	June 13
Electra	July 16
Relief	July 23
Strawberry	July 19

GAS DEPARTMENT.

In operation, 20 plants as follows:

	Sales in Cu. Ft.
San Francisco, two plants, supplying eight cities and suburban territory	5,581,836,900
Oakland, supplying eight cities and suburban territory	3,363,583,900
San Jose	327,708,200
Fresno	386,178,500
San Rafael, supplying four cities and suburban territory	98,491,500
Santa Rosa, supplying Petaluma, Sebastopol	109,662,900
Napa	39,218,000
Vallejo	120,738,600
Woodland	27,237,300
Chico, supplying two cities	43,523,600
Grass Valley, supplying Nevada City and suburban territory	17,120,800
Sacramento	404,983,000
Marysville, supplying Yuba City and suburban territory	40,608,900
Colusa	16,695,100
Oroville	19,883,900
Los Gatos	13,911,600
Red Bluff	8,315,700
Redding	10,158,800
Willows	14,792,800
Total sales in cu. ft., 1920	$10,644,650,000

To supply this amount of gas required 3,005.97 miles of gas mains of various sizes from 30-inch to 2-inch, both high and low pressure operated at pressures from 70 pounds to one-seventh of a pound.

The increase in sales over 1919 was 860,397,600 cubic feet —8.08%.

STREET RAILWAY.

Miles of track, 44.14. Passengers carried, 15,770,295—gain over 1919, 1,690,923 or 12%.

This was the peak year in the operation of the railway system. Jitney competition, commencing in 1914, resulted in diminished revenues; but this form of competition has spent itself by reason of local enactments, and the year 1920 showed a remarkable gain in business.

	1919.	1920.
Number of conductors and motormen, December 31st	218	231
Increase, 13 men.		
Total number of car miles run	3,228,316	3,210,112

WATER DEPARTMENT.

The Company operates for domestic and manufacturing service 8 pumping stations with a capacity of 41 million gallons daily—3 in the City of Stockton; 1 in Livermore, Alameda County; 1 in Dixon, Solano County; 1 in Redding, Shasta County, and 2 in Willows, Glenn County. Gallons of water pumped 3,371,395,574. Daily average 9,211,463. Miles of mains, 236, all sizes. It supplies, by a system of 104 lakes and reservoirs and 817 miles of ditches, water for the irrigation of over 20,000 acres of land in Placer, Nevada and Butte Counties, besides supplying water in those counties in a minor way for power.

Water supplied through gravity system estimated at a daily average in irrigation season of 53,000,000 gallons.

CLAIMS AND SAFETY.

The total cost for compensation, damages to persons and property, salaries and incidental departmental expense was $135,257.25. (This does not include salaries and incidental expense of the Safety Department or expenditures for accident prevention.) Of this sum $78,914.28 was paid out on account of industrial accidents, principally for compensation and medical care.

The total cost was $43,032.46 greater than in 1919, in which year there was expended $92,224.79. It was .392 per cent of the gross revenue as against .356 per cent in 1919. However, excepting 1919 and 1915 (which was also .392),

the percentage was the lowest since we began keeping a percentage comparison in 1912.

The "manual rates" for compensation, casualty, automobile and like insurance, without provision for damages to property or to injuries on the Sacramento Street Railway, which are not subject to ordinary insurance, would have been in excess of $650,000. Such insurance after the usual rebates and adjustments would have actually cost $300,000.

The increase in cost over 1919 was due primarily to the added operations of the company following the acquisition of the Northern California and the Sierra properties and to the undertaking of the Pit River and other construction work, and secondarily to increased medical and hospital rates and to the fact that compensation payments increased with advancing wage rates.

It may be said that for the eight years the Compensation Act has been in effect we have taken only one case from the Industrial Accident Commission to the Supreme Court. In that (a case involving alleged liability for injuries to an employee of an independent contractor) the judgment of the court was in our favor. This also I believe is an unusual record.

Accident prevention was carried on during the year along the lines laid down in 1914 and 1915. There were made 698 safety recommendations. This brings the number of recommendations made since the beginning of our safety campaign up to a total of 9,488.

OTHER DEPARTMENTAL ACTIVITIES.

The activities of the Property Department have been materially increased during the year by reason of newly acquired properties. It has charge of fire protection and insurance of all properties, bonding of employees, stationery and printing requiremtns and charge of head office buildings.

To encourage the use by the public of the commodities which it manufactures, the Company has a commercial department which not only seeks to secure new consumers but to procure additional use by all consumers, and to that end Divisions sell appliances including incandescent lamps —the gross sales of such appliances in 1920 being $792,468.

Fourteen hundred and fifty electric ranges are installed, largely outside of gas territory, averaging a revenue each of $5.25 per month; with heaters, approximately $8.50 per month.

During the year the Rate Department took care of 55 applications before the Railroad Commission, the more important being the rate measures and financial applications. These applications did not include any of the matters dealing with informal complaints.

The Law Department has 36 suits pending before it; 22 were finally disposed of during the year. It co-operates with all departments in preparation of all necessary legal documents, and has charge of all matters necessitating court action.

A reorganization of the departments of the Company was effected on November 1, 1920. Prominent features of this include the appointment of a Vice-President in charge of Electrical Construction and Operation, a Vice-President in charge of Public Relations and Service, the creation of an Electrical Engineering Department separate from the Department of Electrical Construction and Operation, and the institution of a President's Advisory Board and Committees on Engineering and Employees' Welfare.

It is a pleasure to me to express my sincere appreciation of the loyal and effective work rendered by all officers and employees during the year.

For the Board of Directors,

W. E. CREED, *President.*

ACCOUNTANTS' CERTIFICATES.

Messrs. Price, Waterhouse & Co., certified public accountants, have made the usual audit of the Company's books and their certified statements covering Balance Sheet at December 31, 1920, and Income and Surplus Accounts for year 1920 follow:

We have audited the books of the Pacific Gas and Electric Company for the year ending December 31, 1920, and certify that in our opinion the above Income Account and Surplus Account are fair and correct statements of the operations of the Company for the year.

PRICE, WATERHOUSE & CO.

San Francisco, Cal., March 31, 1921.

THE KANSAS CITY SOUTHERN RAILWAY COMPANY

TWENTY-FIRST ANNUAL REPORT FOR THE FISCAL YEAR ENDED DECEMBER 31, 1920.

Kansas City, Mo., May 24, 1921.

To the Stockholders of

The Kansas City Southern Railway Company:

The twenty-first annual report of the affairs of your Company, being for the year ended December 31, 1920, is herewith presented.

FEDERAL CONTROL.

Pursuant to a proclamation by the President of the United States, made December 24, 1919, and the Transportation Act, 1920, a Congressional measure approved February 28, 1920, Federal control terminated at 12:01 A.M., March 1, 1920, and your property was then restored to the corporate management.

The standard return in compensation for the use of your property during Federal control has not yet been definitely fixed, its certification having been deferred pending decision upon certain questions of accounting. Such annual return for the properties owned or normally controlled by the Company, as tentatively certified by the Inter-State Commerce Commission, is as follows:

The Kansas City Southern Railway Co		$3,216,697 65	
Texarkana & Fort Smith Railway Co		318,729 68	
The Kansas City Shreveport & Gulf Terminal Co.		6,014 66	
Glenn-Pool Tank Line Co	$11,592 22		
Less accrual to Midland Valley Railroad Co	2,898 05		
		8,694 17	
			$3,550,136 16
The Poteau Valley Railroad Co	*Deficit*	$3,232 19	
The Arkansas Western Railway Co	"	6,575 51	
Port Arthur Canal & Dock Co	"	36,049 44	
			45,857 14
Total			$3,504,279 02

As stated in the preceding annual report, after prolonged negotiations between the Chairman of your Board and the Director-General, a compensation agreement in standard form was executed by the proper officers of the several companies and delivered upon the stipulation that depreciation arising from the abandonment of property in connection with former improvements shall inure to the corporate advantage. The Director-General expressed reluctance to depart in any degree from the standard covenants, meanwhile corporate management resumed, and as a result no compensation agreement has been entered into with the Railroad Administration. Provision is made in the Federal Control Act for the compensation of carriers not parties to contracts of the kind here in question.

Settlement has not yet been made with the Director-General of amounts due for the occupancy and use of your property nor of other mutual obligations growing out of Federal control.

The accounts of the Railroad Administration as of December 31, 1920, showed the following debits and credits to your Company (including the Texarkana & Fort Smith Railway Company), viz.:

Corporation Dr.—			
Liabilities December 31 1917 paid		$2,761,178 50	
Additions and Betterments		1,919,699 29	
Cash Advanced:			
For Interest payments		983,856 28	
For Dividend payments		420,000 00	
For payment of Liberty Loan Bonds and Treasury Certificates of Indebtedness		360,840 11	
Expenses Prior to January 1 1918		543,794 98	
Agents and Conductors balances, Federal, February 29 1920		3,845 33	
Material and Supplies, Federal, February 29 1920		1,567,785 96	
Leased Rail and Fixtures, Federal, February 29 1920		11,638 33	
Miscellaneous Debits		171,635 23	
		$8,744,274 01	
Cash Advanced from Washington:			
For Interest payments	$3,105,800 00		
For Dividend payments	1,260,000 00		
For Equipment Trust payments	178,850 00		
For Miscellaneous payments	213,350 00		
		4,758,000 00	
			$13,502,274 01
Corporation Cr.—			
Cash on hand and in transit December 31 1917		$1,950,965 36	
Material and Supplies December 31 1917		1,146,538 72	
Assets December 31 1917		1,262,694 57	
Agents and Conductors balances Dec. 31 1917		341,261 75	
Non-operating Income items		188,052 71	
Equipment retired		416,932 59	
Revenues Prior to January 1 1918		163,823 01	
Accrued Depreciation—Equipment		362,493 31	
Mileage Scrip, Federal, February 29 1920		378 45	
			5,833,140 47
Balance in favor of Railroad Administration (Standard Return omitted)			$7,669,133 54

The above statement excludes the standard return for the twenty-six months of Federal control due from the Railroad Administration and amounting (as tentatively certified) to $7,660,092.54, interest due to or by the Company on open account balances, interest due the Company on additions and betterments completed since January 1, 1918, and the value of roadway property retired and not replaced. The account is also subject to revision with respect to the quantity of material and supplies returned by the Director-General as compared with that delivered to him at the beginning of Federal control.

GUARANTY PERIOD.

By the terms of Section 209 of the Transportation Act, 1920, the Federal Government undertook to guarantee that the railway operating income of carriers affected for the six months next following the termination of Federal control, should not be less than one-half of the annual just compensation secured to them by the Federal Control Act; provided, that if for the guaranty period as a whole, the railway operating income were in excess of the sum guaranteed, such excess should accrue to the Government and be paid into the Treasury of the United States. The guaranty was made applicable alone to those carriers which, on or before March 15, 1920, should file with the Inter-State Commerce Commission a written statement accepting all the provisions of the said section. Accordingly, your Board of Directors on February 26, 1920, adopted an appropriate resolution of acceptance, and written notice thereof was duly filed with the Commission.

Inasmuch as the standard return forms the basis of the guaranty, the aggregate amount due your Company thereunder cannot be ascertained until the standard return is determined, nor until all transactions pertaining to the guaranty period shall have been closed. For these reasons, no comprehensive settlement has been effected. But in September, 1920, the Company received from the Government the sum of $600,000 by way of advance.

The statement following shows income of the parent Company (including the Texarkana & Fort Smith Railway Company) applicable to the guaranty period, so far as disclosed by entries in the accounts to December 31, 1920:

Railway Operating Income guaranteed			$1,790,751 43
Credits—			
Railway Operating Revenues	$10,216,526 82		
Rent from Locomotives	25,236 38		
Rent from Passenger-train Cars	14,956 84		
Rent from Work Equipment	3,436 07		
Joint Facility Rent Income	86,588 52		
Miscellaneous Income	113,355 03		
		$10,460,099 66	
Debits—			
Railway Operating Expenses	$8,820,913 29		
Railway Tax Accruals (excluding War Taxes)	438,254 82		
Uncollectible Railway Revenues	268 83		
Hire of Freight Cars—Debit bal.	351,925 83		
Rent for Locomotives	14,519 90		
Rent for Passenger-train Cars	38,166 99		
Rent for Work Equipment	2,371 64		
Joint Facility Rents	123,259 24		
		9,789,680 54	
Railway Operating Income realized			670,419 12
Claim for Deficiency of Income guaranteed			$1,120,332 31

WAGE ADJUSTMENTS.

In July, 1920, the United States Railroad Labor Board ordered an advance in wages, retroactive to May 1, 1920, applicable to all employees except certain subordinate officers, certain employees of the engineering department, and employees of the police department, amounting on the average approximately to 19%. Due to this award and other adjustments made necessary thereby, it is estimated that the payrolls of your Company for the year were increased to the extent of $1,169,694.15.

COST OF SUPPLIES.

The prices of supplies consumed in operation and of materials used in construction and maintenance, continued generally to fluctuate between wide limits. In some instances there were notable increases, and in others substantial recessions, from the high level heretofore reached. The price of coal sustained an advance of 21.93%, while that of fuel oil underment an advance amounting to 33.54%. The appended exhibit shows the approximate average changes in the costs of principal materials in comparison with the preceding year:

DESCRIPTION OF MATERIAL.	Increase
Maintenance of Way and Structures:	
White Oak Lumber	79.0%
Yellow Pine Lumber	50.7
Hand Cars	32.6
Roadway Tools	30.9

(*) Decrease.

RATE ADJUSTMENTS.

The Transportation Act, 1920, directs the Inter-State Commerce Commission to establish or adjust rates so that carriers as a whole or as a whole in each of such rate groups or territories as the Commission may from time to time designate, will, under honest, efficient and economical management, and reasonable expenditures for maintenance of way, structures and equipment, produce an aggregate annual net railway operating income equal as nearly as may be to a fair return upon the aggregate value of the railway property of carriers held for and used in the service of transportation. The Act further directs that during the two years begun March 1, 1920, the Commission shall take as such a fair return a sum equal to 5½% of such aggregate value, but may, in its discretion, add thereto a sum not exceeding ½ of 1% to make provision wholly or in part for additions, betterments or equipment, chargeable to capital account.

On July 29, 1920, the Commission, acting upon the application of the carriers, approved an advance in interstate freight and passenger rates, effective August 26, 1920. The advances authorized ranged from 25 to 40% of fregiht rates then existing in the several territories created for that purpose, and amounted to 20% of passenger rates, with an additional surcharge equal to 50% of sleeping and parlor car fares, which accrues to the railroad companies. The advance in freight rates applicable to the territory occupied by your road amounted to 35%.

Following the order of the Commission, all the several States traversed by your road approved corresponding advances in intrastate freight rates, with the exception of Kansas and Texas. The State of Kansas allowed an advance of 30%, and the State of Texas 33 1-3%. The revised intrastate rates applied generally to all freight traffic, but in some instances coal, coke, highway building material and certain other commodities were excepted. Missouri and Oklahoma approved an advance of 20% in passenger rates. No advances in passenger rates were allowed by Kansas, Arkansas, Texas or Louisiana.

In all States where lesser advances were permitted than by the Commission action has been taken with a view to the adjustment of intrastate rates to the level of those affecting interstate traffic.

It is estimated that the revenues of the principal Company (including the Texarkana & Fort Smith Railway Company) for the year underwent an increase due to these adjustments of rates in the following amount:

Freight Revenue	$1,356,905 06
Passenger Revenue	172,432 31
Total	$1,529,337 37

MILES OF RAILROAD.

The track mileage of your Company at the end of the year was as below stated:

Main Line—			
Kansas City, Mo., to Belt Junction, Mo	12.01		
Grandview, Mo., to Port Arthur, Tex	765.14	777.15	miles
Second Track—			
Between Second and Wyandotte Streets, Kansas City, Mo., and Air Line Junction, Mo	5.41		
Pittsburgh Yards	1.32		
Between Mile Posts 159 and 163	3.75		
Between DeQueen, Ark., and Neal Springs, Ark	8.45	18.93	"
Branches—			
Spiro, Okla., to Fort Smith, Ark	16.44		
Jenson, Ark., to Bonanza Mine	2.83		
Lockport Junction, La., to Lockport, La	4.03		
DeQuincy, La., to Lake Charles, La	22.59		
Asbury, Mo., to Lawton, Kans	5.16	51.05	"
Yard, Terminal and Side Tracks—			
North of Belt Junction, Mo., and in and about Kansas City	85.72		
All other Yard, Terminal and Side Tracks	343.51	429.23	"
Total owned or controlled		1,276.36	miles
Operated Under Trackage Rights—			
Tracks of the St. Louis-San Francisco Railway Co., between Belt Junction, Mo., and Grandview, Mo., used under contract:			
Main Line	10.96		
Side Tracks	2.33		
Tracks of the Kansas City Terminal Railway Co., between Union Station at Kansas City, Mo., and Sheffield, Mo., used under joint contract:			
First Main Track	5.31		
Second Main Track	5.11		
Tracks of the Missouri Pacific Railway Co., between Troost Avenue and Santa Fe Street, Kansas City, Mo., used under contract	1.55	25.26	"
Operated Under Lease—			
Yard Track of the St. Louis-San Francisco Railway Co., Kansas City, Kans		.05	"
Total in System		1,301.67	miles

MILEAGE BY STATES.

State.	Owned by The K. C. S. Ry. Co. and Subsidiary Companies.				Under Trackage Rights.	Under Lease, Yard Track.	Total Mileage.
	Main Line.	Second Main Track.	Branc's.	Yard Track & Sidings.			
Missouri	174.67	9.16	3.29	121.91	25.26	----	334.29
Kansas	18.38	1.32	1.87	52.00	----	0.05	73.62
Arkansas	152.92	8.45	4.23	50.26	----	----	215.86
Oklahoma	127.64	----	15.04	48.55	----	----	191.23

In addition to this railroad property, its rights of way, real estate, buildings, equipment and appurtenances, the Company controls, by virtue of its ownership of securities, all the property of the following corporations, viz.:

THE ARKANSAS WESTERN RAILWAY COMPANY.

A standard-gauge line from Heavener, Oklahoma, to Waldron, Arkansas, 32.33 miles, together with rights of way, buildings and appurtenances; controlled by your Company through ownership of all the capital stock and bonds.

THE POTEAU VALLEY RAILROAD COMPANY.

A standard-gauge line from Shady Point, Oklahoma, to Calhoun, Oklahoma, 6.67 miles, together with rights of way, buildings and appurtenances; controlled by your Company through ownership of all the capital stock.

THE KANSAS CITY, SHREVEPORT & GULF TERMINAL COMPANY.

Union depot property at Shreveport, Louisiana, including its real estate, buildings and 1.20 mile of yard and terminal track; controlled by your Company through ownership of all the capital stock.

PORT ARTHUR CANAL & DOCK COMPANY.

Lands, slips, docks, wharves, warehouses, one grain elevator (capacity 500,000 bushels), etc., all at Port Arthur, Texas; controlled by your Company through ownership of all the capital stock and bonds.

THE K. C. S. ELEVATOR COMPANY.

One grain elevator, of capacity 650,000 bushels, situated at Kansas City, Missouri; controlled by your Company through ownership of all the capital stock.

GLENN POOL TANK LINE COMPANY.

A company owning 158 tank cars; controlled jointly by your Company as the owner of 75% of the capital stock, and the Midland Valley Railroad Company as owner of the remaining 25% of the stock.

That portion of the system lying within the State of Texas, the mileage of which is included in the operated mileage of your Company, is owned by the Texarkana & Fort Smith Railway Company.

For the sake of completeness, however, the reports for that company are included in those of the principal Company.

DEPRECIATION RESERVE FUND.

The principal Company and the Texarkana & Fort Smith Railway Company began in June, 1916, making regular monthly charges to operating expenses representing the so-called depreciation of equipment. Moneys equalling the amount of such charges for depreciation, and the amount of charges to operating expenses for the amortization of equipment retired and of property abandoned in connection with improvements, together with proceeds from the sale of obsolete equipment, are deposited in a special fund set aside for additions to and betterments of your property. The total amount so deposited, and withdrawals therefrom, are shown by the statement following:

DEPOSITS.

Charges for Depreciation of Equipment:		
From June 1 1916 to Dec. 31 1917	$215,923 27	
From March 1 1920 to Dec. 31 1920	181,648 28	$397,571 55
Charges for Amortization of Retired Equipment		32,206 62
Charges for Amortization of Abandoned Property:		
From March 1 1920 to December 31 1920		75,228 10
Proceeds from the Sale of Obsolete Equipment		165,926 00
Interest on Bank Balances		9,681 33
Total		$680,613 60
Less Amounts Charged and Undeposited		50,424 06 $630,189 54

WITHDRAWALS.

Part Payment for 7 Mallet Locomotives	$391,530 60	
Improvements to Existing Equipment	12,198 34	403,728 94
Balance December 31 1920		$226,460 60

The above statement excludes the depreciation reserve created by the Federal management through charges to maintenance during Federal control. That reserve at the termination of Federal control, including adjustments to December 31, 1920, was as below stated:

Steam Locomotives	$184,677 18
Freight-train Cars	151,065 63
Passenger-train Cars	17,921 52
Work Equipment	8,828 98
Total	$362 493 31

This amount has been set up in the corporate accounts as a charge against the Railroad Administration.

REFUNDING AND IMPROVEMENT MORTGAGE BONDS.

There was no change in the situation with respect to the Refunding and Improvement Mortgage Bonds authorized by the stockholders June 29, 1909. The status in that regard at the end of the year was as follows:

Total authorized issue	$21,000,000 00
Issued and sold	18,000,000 00
Unissued December 31 1920	$3,000,000 00

EQUIPMENT TRUSTS.

Equipment Trust No. 34, covering locomotives and freight-train cars previously assigned to your Company by the Railroad Administration, was entered into with the Director-General as of January 15, 1920. The equipment so acquired, the cost so far as ascertained at the end of the year, and the equipment trust notes issued in connection therewith, are set forth below:

3 Pacific Type Locomotives	$153,764 64	
200 50-ton Composite Gondola Cars	531,645 22	
100 40-ton Box Cars	281,823 98	
		$967,233 84
Less Cash payment		13,233 84
Balance represented by 15 Temporary Equipment Gold Notes for $63,600 00 each, bearing interest at 6% per annum, and maturing in equal annual installments during 15 years		$954,000 00

The aggregate face amount of Equipment Trust Notes outstanding December 31, 1920, was:

Series "D" dated December 15 1912	$620,000 00	
Paid during the year	124,000 00	
		$496,000 00
Trust No. 34, dated January 15 1920		954,000 00
Total		$1,450,000 00

ADDITIONS AND BETTERMENTS.

Net expenditures were made from current funds for Additions and Betterments to road and equipment in the amounts following:

For Road	$555,001 94
For Equipment	Cr. 37,570 88
Total Additions and Betterments	$517,431 06

A classified schedule of such expenditures is presented in the statistical section of this [pamphlet] report.

The bridges, trestles and culverts of your road were improved by increasing the length of steel bridges from 23,058 feet to 23,203 feet; by increasing the length of trestles from 64,356 feet to 64,768 feet, to enlarge waterways; increasing the number of stone and concrete culverts from 703 to 705; increasing the number of cast iron pipe culverts from 603 to 606, and by increasing the number of concrete pipe culverts from 134 to 146. A table showing the progressive improvements made in bridges and culverts from June 30, 1900, to December 31, 1920, appears in the statistical section.

The work of widening cuts and fills to standard specifications was carried forward. Expenditures for that purpose were made in the amount of $1,815.61.

The ballasting was reinforced in various locations at a cost of $1,547.33. The condition of your main line with respect to ballast as of date December 31, 1920, was as below:

Section of 6 inches or more under ties	697.85 miles
Section of less than 6 inches under ties	79.30 "
Total main line mileage owned	777.15 miles

No new rail was laid during the year in substitution for lighter sections. The weights of rail in your main line as of December 31, 1920, including adjustments for previous measurements, were as follows:

Rail weighing 85 pounds per yard	698.93 miles
Rail weighing 80 pounds per yard	73.71 "
Rail weighing less than 80 pounds per yard	4.51 "
Total main line mileage owned	777.15 miles

Work upon the schedule for the reinforcement of track through the application of tie plates, with a view to stability, permanence, and economy of maintenance, was continued, the sum expended for this purpose being $30,421.46.

New station buildings, required by public authority or made necessary by the demands of traffic, have been erected at the following locations. The expenditures for these facilities made during the year were as below set forth:

Mena, Ark	$44,552 75
Vivian, La	30,566 54
Fisher, La	8,393 88
Total	$83,513 17

The expenditures for additions and betterments include the cost of a number of new sidings to serve industries not heretofore reached by your tracks, and to accommodate new industries in process of establishment.

The following is a list of such industry tracks, some of which have been completed, and others are in course of construction:

NEW TRACKS TO SERVE NEW INDUSTRIES.

Completed—	
Sihler Serum Co	Kansas City, Kan.
Geo. Hoyland Flour Co	Kansas City, Mo.
American Steel & Wire Co	Kansas City, Mo.
McElwain-Barton Shoe Co	Kansas City, Mo.
American Asphalt Roof Corporation	Kansas City, Mo.
National Lumber & Creosoting Co	Leeds, Mo.
West Line Rock Co	West Line, Mo.
N. & S. Coal Co	Mile 78
Klaner Coal Co	Hume, Mo.
Sheridan Coal Co	Mile 120
Fred North	Neosho, Mo.
Thompson-Ross Lumber Co	Anderson, Mo.
Various Industries	Fort Smith, Ark.
LeFlore Glass Co	Poteau, Okla.
Heavener Smokeless Coal Co	Heavener, Okla.
Ashdown Compress & Warehouse Co	Ashdown, Ark.
Futrell Veneer Co	Texarkana, Tex.
Ivory Handle Co	Texarkana, Tex.
Paramount Petroleum Co	Superior, La.
Paramount Petroleum Co	North Shreveport, La.
Continental Supply Co	Shreveport, La.
C. D. Kaombach	Shreveport, La.
Southern Flour & Feed Co	Shreveport, La.
Pelican Well Tool & Supply Co	Shreveport, La.
Oil Well Supply Co	Shreveport, La.
Flenniken Construction Co	Cedar Grove, La.
Frost-Johnson Lumber Co	Trenton, La.
Sabine Lumber Co	Loring, La.
Weber-King Lumber Co	Barham, La.
Lake Charles Naval Stores Co	Lansco, La.
Standard Oil Co	Leesville, La.
Frank Miller Warehouse	Leesville, La.
Lutcher-Moore Lumber Co	Lunita, La.
Heisig & Norvell	Beaumont, Tex.
Magnolia Petroleum Co	Sun, Tex.
Adams-Gorin Co	Port Arthur, Tex.
Uncompleted—	
North Cherokee Coal Co	Worland, Mo.
Independent Rock Co	Mile 430
Willowbrook Brick & Tile Co	Mile 550

NEW TRACKS TO SERVE EXISTING INDUSTRIES.

Completed—	
Michael-Swanson-Brady Produce Co	Kansas City, Mo.
Speas Vinegar Co	Kansas City, Mo.
Black Steel & Wire Co	Mile 8
Blue Jay Coal & Mining Co	Worland, Mo.
Southern Sulphur & Acid Co	Texarkana, Tex.
Texarkana Compress Co	Texarkana, Tex.
Louisiana Oil & Refining Co	Gas Center, La.
International Oil & Gas Corporation	Cedar Grove, La.
The Texas Co	Port Arthur, Tex.
Uncompleted—	
Bates Smokeless Coal Co	Bates, Ark.

In addition to the foregoing, these new industries have located on existing tracks of the Company:

White Star Gas & Oil Co	Kansas City, Mo.
Kansas City Macaroni Co	Kansas City, Mo.
Atlas Investment Co	Kansas City, Mo.
American Magnestone Corporation	Kansas City, Mo.
Concrete Steel & Construction Co	Joplin, Mo.
DeQueen Potato Co	DeQueen, Ark.
Louisiana Iron & Supply Co	Shreveport, La.
N. Risinger (Saw Mill)	Mile 590

It is worthy of mention that the Caddo Central Oil & Refining Corporation, heretofore operating a small refinery at Cedar Grove, Louisiana, has erected there a much larger additional refining plant, served by its own track.

Improvements to existing equipment, made at a cost of $76,452.00, consisted mainly in the following:

Locomotives—Application of superheaters, piston valve cylinders, electric headlights, and cabs for head brakemen.
Freight-Train Cars—Application of steel underframes, metal draft arms, metal carlines, and improved draft gears.
Passenger-Train Cars—Application of steel underframes.

FEDERAL VALUATION.

Your Company's valuation case, together with certain other valuation cases, was set down for reargument before the Inter-State Commerce Commission on January 7, 1920, and arguments were had at considerable length touching the elements properly to be considered in the valuation of railway properties and the proper weight to be attached to them. It was urged upon the Commission, in behalf of the Company, that its earning power under reasonable rates was entitled to the greatest weight in the determination of its value.

On March 8, 1920, the Supreme Court of the United States decided the mandamus case brought by the Company against the Inter-State Commerce Commission to require the latter, as a part of its valuation proceedings, to ascertain the cost of acquisition by purchase or condemnation of the rights of way and other lands of the Company as of valuation date, June 30, 1914. The decision was in favor of the Company. As required by the decision, the Commission has entered upon the duty of ascertaining the cost of acquisition of carrier lands of the railroads of the country. The Company has submitted to the representatives of the Commission the essential data to enable it to determine the Company's cost of acquisition, and the Commission's report thereon is practically completed. It is expected that the result of this proceeding will be to add from $4,000,000.00 to $5,000,000.00 to the land schedules of the Company previously made by the Commission. The Commission has stated its intention to announce a further tentative valuation in the near future, stating the final figure of value, and also stating the excess cost of acquisition of the Company's lands.

On November 15, 1920, the Company's motion for a rehearing in its valuation case was argued by its General Counsel before Director Prouty and other members of the Board of Tenative Valuation. The argument consumed two days and a half, during which various claims of the Company were discussed informally and at length, and it was felt that a clearer understanding of the Company's position was obtained than would have been possible at a more formal hearing.

In view of the fact that the Company's valuation proceeding is in the nature of a pioneer case, in which the rules, principles and methods of railroad valuation are being tried out, it has been necessary to devote considerable time to it. There are many difficult questions connected with railroad valuation which are yet to be solved, and considerable time doubtless will be required for that purpose.

The cost to your Company of Federal valuation to December 31, 1920, is as follows:

	To Dec. 31 1919.	*For the year ended Dec. 31 1920.*	*Total.*
Field work	$68,824 72	--------	$68,824 72
Valuation orders, Inter-State Commerce Commission	21,007 28	--------	21,007 28
Contributions to Presidents' Conference Committee	2,311 17	--------	2,311 17
Appraisal of real estate	12,351 84	$9,653 04	22,004 88
General and miscellaneous	162,743 42	33,776 98	196,520 40
Totals	$267,238 43	$43,430 02	$310,668 45

OTHER LEGAL MATTERS.

In addition to the above proceedings, much time has been spent by the Legal Department and other departments in the preparation of statements of the claims of your Company against the Government, growing out of the Federal control of railroads, which continued until February 29, 1920, and also out of the guaranty of one-half of the standard return to the railroads during the period from March 1 to August 31, 1920, provided for in the Transportation Act, 1920. A general statement of the Company's claim growing out of the period of Federal control has been filed, and the detailed claims are in course of active preparation. The statements called for by the Inter-State Commerce Commission with regard to operations during the guaranty period have also been filed.

On account of the fact that the statements of the claims against the Government involve many complex factors, such as the rapid increase in the cost of materials and labor due to war conditions, the question of the relative condition in which the property was received by the Director-General and turned back by him to the Company, and many other items, the work of computing these statements is one of great difficulty and magnitude.

In connection with this Company's income tax return for the year 1917, the Commissioner of Internal Revenue has raised the question whether the invested capital of the Company is correctly stated in the return, for the purpose of determining its liability for excess profits taxes. Stated briefly, the Commissioner has taken the incomplete Federal valuation figures, and made deductions for borrowed money, and other adjustments, producing, in the opinion of the management, a very erroneous result. The matter was discussed informally by the General Counsel and General Solicitor for the Company with the Commissioner's office on October 26, 1920, and the general subject was discussed in an argument by the representatives of the railroad companies generally on December 6, 1920. It is the expectation that an agreement will be reached with the Commissioner upon some equitable method of determining the invested capital of the Company for purposes of the excess profits tax.

Reference was made in the report for the year ended December 31, 1919, to indictments brought against an oil company and certain railway corporations, including this Company and the Texarkana & Fort Smith, in connection with shipments of unrefined naptha. Indictments against the oil company, were tried; the oil company was found guilty on 99 counts and fined $99,000, and the understanding prevails that it is perfecting an appeal. No further steps have been taken in the case against your Companies, and probably will not be until the appeal of the oil company is determined.

The appended balance sheets * and statistical statements give full detailed information concerning expenditures for improvements and the results of operation.

Besides information with respect to the corporate business of your Company, this report contains, for comparative purposes, statistical data which show the operating results obtained under Federal control.

A report, including balance sheet, income account and other pertinent matter, in form prescribed by the Inter-State Commerce Commission, has been filed with that body at Washington.

By order of the Board of Directors.

J. A. EDSON, *President.*

* (For comparative income account, balance sheet, &c., see company's statement under "Financial Reports" on a preceding page.)

Troy Laundry Machinery Co., Ltd.—*Bonds Offered.*—Chandler & Co., Inc., New York, and King, Hoagland & Co., Chicago, are offering at 97½ and int., yielding over 8¼%, by advertisement on another page $1,250,000 15-Year Sinking Fund 8% gold bonds.

Balance Sheet Nov. 30 1920 (After This Financing).

For description of bonds, property, earnings, &c., see V. 112, p. 2650, 2421.

United Cigar Stores Co. of America.—*Smaller Dividend*
A dividend of 1½% has been declared on the Common stock, payable July 25 to holders of record July 5. This distribution will make a total of 8½% paid in the first seven months of the current year. In June last 2% was paid; in March and April 1% each, and in Jan. and Feb. 1½% each.—V. 112, p. 2545, 1985.

United States Playing Card Co.—*Extra Dividend.*—
An extra dividend of 5% has been declared on the outstanding $3,335,900 capital stock, par $100, together with the regular quarterly dividend of 3%, both payable July 1 to holders of record June 20. In Oct. 1918, Jan. and July 1920 and in Jan. 1921 extra dividends of 5% each, were paid n cash; in Jan. 1919, 5% extra in Liberty bonds.—V. 112, p. 1749, 1626.

Valley Ranch Co., Phoenix, Ariz.—*Bonds Offered.*—
California Company, Blyth, Witter & Co., Security Trust & Savings Bank, California Bank, Banks, Huntley & Co., Los Angeles, Calif., are offering at 100 and int. $1,000,000 1st Mtge. 8% Serial Bonds. Dated May 1 1921; due serially May 1 1922 to 1931. Denom. $1,000, $500 (c*) Red. all or part in numerical order on any int. date on 30 days notice at 100 and int. toge her with a premium thereover of ½ of 1% for each unexpired year or portion thereof. Int. payable M. & N. at Security Trust & Savings Bank, Los Angeles, trustee, or at Guaranty Trust Co., New York. Federal income taxes not exceeding 4% paid by Company.

Secured on a closed first mortagge on over 16,350 acres of land in Salt River Valley of Arizona, 9 cotton gins, and an 8-press cotton oil mill, appraised value $2,650,000.

Company was incorporated in Arizona in April 1921, for the purpose of acquiring and operating the properties of the so-called Litchfield Ranch, together with 9 cotton gins and 1 cotton oil mill.

United States Rubber Co.—*Rumors Denied.*—

Officials deny rumors that the company has ceased to operate its extensive rubber plantations in the Far East because of the abnormally low price at which crude rubber is now quoted. In accordnace with the policy adopted by the Rubber Growers' Association output on some of the company's estates has been somewhat curtailed but since the company benefits materially through the use of specially prepared rubber from its own plantations it will continue to receive from this source a substantial proportion of its total crude rubber requirements.—V. 112, p. 2545.

Virginia-Carolina Chemical Co.—*No Pref. Div. Declared.*

The directors on June 23 voted to defer payment of the quarterly dividend of 2% usually paid July 15 on the outstanding $21,568,573 8% Cum. Pref. stock, par $100. Dividends at the rate of 8% p. a. have been paid in cash since 1918. An official statement dated June 23 says:

"The directors this day have resolved not to declare the usual quarterly dividend on the Pref. stock owing to trade conditions. The Pref. dividend is cumulative and under its charter the holder of the Pref. stock will be entitled to legal interest on the deferred dividend when and as declared and paid."—V. 112, p. 2092, 1309.

(Charles) Warner Co.—*No Action on Common Divid.*—

The directors deferred action on the current Common dividend. In April last, a quarterly dividend of 50c. per share was paid. It is officially stated that the reason for deferring action on the Common dividend was due to the belief of the directors that the cash resources should be conserved at this time.

The regular quarterly dividends of 1¾% on the both First and Second Pref. stocks have been declared, both payable July 28 to holders of record June 30.—V. 112, p. 1407, 271.

Westchester Biltmore Corp.—*New Mortgage.*—

The stockholders will vote June 29 on mortgaging the property and franchises to The Harriman National Bank, New York, as trustee, to secure an issueof First Mortgage 6% Serial Bonds aggregating $3,000,000, the proceeds of which are to be utilized for the sole purpose of constructing and completing the buildings contemplated to be erected upon the mortgaged premises, for other improvements thereon and for payment of the mortgages aggregating $250,000 on the Manursing Island properties.

West Sacramento (Calif.) Co.—*Reorganization Plan.*—

At a joint meeting of the stock and bond holders held June 10 Philip I. Manson, Chairman of Reorganization Committee, outlined a plan for reorganizing the company and raising $200,000 cash for urgent necessities, such as underlying liens, taxes, &c.

The plan (in substance) provides that a new company with a total capitalization of $2,500,000 divided into 10,000 shares ($100 par, of 7% noncumulative Preferred stock and 15,000 shares ($100 par) of Common stock be formed to succeed the present company.

The present bondholders (about $700,000 bonds outstanding) are to receive 10 shares of Pref. stock in the new company in exchange for each $1,000 bond now held and accrued interest unpaid on the bonds and now amounting to about $420 a bond is to be paid by the issuance of common stock at par.

Present stockholders ($2,000,000 outstanding), who have paid in more than $600,000 in assessments, are to receive one share of new Common stock in exchange for each two shares of Common now outstanding. This will mean that $1,000,000 new Common stock will be issued for the old stock.

The $200,000 required to meet present underlying liens, &c., will be raised by the sale of Pref. stock at par. This Pref. stock is to be taken by the new Common stockholders on the basis of 15% of their stockholdings. Through this means $150,000 of the $200,000 will be secured.

The plan also calls for the creation of a fund for the retirement of the new Preferred stock. One-half of all proceeds derived from the sale of land or otherwise is to be deposited in this fund. This fund, together with any surplus which in the judgment of the directors could be used for such purpose, is to be directed to the retirement of the Preferred stock.

Philip I. Manson (Chairman), A. K. Tichenor and Sydney L. Schwartz are acting as a reorganization committee. George M. Jones is Secretary.

For those bondholders who do not wish to join in the reorganization, the privilege is still held open to surrender their bonds in exchange for land at the valuation fixed by the Stine appraisement. The company still has about 2,500 acres of land, inclusive of the 800 acres embraced in the townsite.—V. 94, p. 1453.

Western Stone Co., Chicago.—*To Liquidate.*—

The directors are expected to act shortly on liquidating the company as authorized by the stockholders. It is reported that the Producers Supply Co. has offered to purchase the quarries at Joliet. The other proposition which might be considered is to retain them under the company's control and operation. In either case it is believed the balance of property consisting of docks and real estate will be disposed of through real estate agents, which should net stockholders more than the present selling price of the stock.—V. 97, p. 449.

Willys Corporation.—*May Issue $20,000,000 Bonds.*—

Bankers and others interested are understood to be completing arrangements for new financing involving the possible issuance of $20,000,000 of bonds. Interests associated with the company have had various financing plans under consideration during the past few months, but have thus far been unable to come to definite terms.

Some time ago a banking committee, investigating the situation, reported that as of March 31 last current assets were approximately $24,000,000. Plant of the subsidiary Auto-Lite Co. was carried at about $3,200,000 and the plant of another subsidiary, New Process Gear Co., was held at $2,650,000. Total tangible assets, exclusive of the Elizabeth project, were $29,850,000. Total current liabilities were approximately $14,400,000. There is outstanding $15,000,000 First Pref. stock. This indicates that tangible assets, exclusive of Elizabeth project, are approximately the same as combined current liabilities and liability to First Pref. stockholders. It appears, therefore, that the equity of the $10,000,000 2d Pref. stock and the 4,450,000 shares of no par value Common stock lies entirely in the Elizabeth project and the possibility of future increase in the value of the corporation's treasury assets. These assets include about $11,000,000 of Willys-Overland Co. Com. stock, carried at $8 a share.

Under the plan now under consideration it is understood that the two subsidiaries, Auto-Lite Corp. and New Process Gear Corp., will go into one unit and the Elizabeth project, where the Chrysler Six automobile is to be built, will make up a separate division. Ultimately the Elizabeth project may be entirely divorced from the parent company and be taken over by W. P. Chrysler, Vice-President of the corporation. ("Wall Street Journal.")—V. 112, p. 1310.

Willys-Overland Co.—*Financing Plan.*—

It is understood that the plan to finance the company contains a proposition whereby the banks would realize 75% on their loans. The remaining 25% would be taken care of through an extension of credits. The plan is meeting with favor, as it would place Willys-Overland in a very strong financial position and facilitate the handling of an enlarged business.

The plan, as suggested, it is understood, would include the financing of Willys Corp. (see above) and provide for putting its new motor plant at Elizabeth, N. J., in operation in the not distant future. This plant is one of the most modern in the United States. ("Wall Street Journal.")—V. 112, p. 2545.

Wolverine Copper Mining Co.—*Copper Output (in Lbs.*

1921—*May*—1920.	*Increase.*	1921—5 *Mos.*—1920.	*Increase.*
396,503 305,603	90,900	1,784,892 1,437,365	347,527

—V. 112, p. 2323, 1749.

Worcester Electric Light Co.—*Stock Offered.*—

The stockholders of record June 16 are offered the right to subscribe at $155 per share for $400,000 stock in the ratio of one share of new stock for every 5 shares of old stock held. Subscriptions must be made in full on or before July 30 at the company's office, Worcester, Mass.—V. 112, p. 2421.

Wright Aeronautical Corp.—*Listing.*—*Earnings.*—

The New York Stock Exchange has authorized the listing of temporary certificates for 224,390 shares of stock, no par value, with authority to add 25,610 shares additional, making the total amount applied for 250,000 shares.

The earnings statement, Jan. 1 to April 30 1921, shows: Gross sales, $847,314; cost of sales, $680,011; undistributed overhead expenses, $77,812 net profit on sales, $89,491; other income, $22,720; gross income, $112,211. Deductions, $45,355; net income from operations, $66,856; income from trust fund, $52,906; profit on sale of Simplex auto division, $151; total income, $119,913; Federal taxes, $5,966; balance, surpls, $113,947.—V. 112, p 1626.

The Commercial Times.

COMMERCIAL EPITOME

New York, Friday Night, June 24 1921.

Trade continues to slow down. Normal midsummer dulness may be somewhat accentuated this year. More mills than usual may shut down. Retailers' prices keep up. Wages are still very high. Between the two production and consumption both suffer. Europe is, of course, still in the slough of despond. Its money buys little. Austria will have to be helped somehow. Europe faces a grim struggle. It owes the United States $10,000,000,000. Gold is nevertheless still flowing into this country. We have plenty to sell, despite the fact that production is restricted by high costs and retailers' exactions blocking the channels of consumption. But Europe cannot buy. The world in general cannot buy. Meanwhile trade is oppressed by excess profits taxes and high surtaxes on incomes. Economic dislocation aggravates the disorders. The farming community, comprising 50% of the American population, finds that what it has to sell has fallen in price far more than the things it has to buy. The farmer's buying power is seriously reduced. This has caused vast unemployment among workmen in the United States at all of its great manufacturing centres. Prices and wages, moreover, have not declined with anything like even approximate uniformity. The glaring inequilities tell on purchasing power and on the condition of trade. The process of readjustment, to something like pre-war or peace conditions, is slow and painful. Collections in the meantime are slower. Failures are more numerous. For the week just ended they are 272 against 114 in the same week last year, 112 in 1919, and 180 in 1918, though it is true that in the same week of 1917 there were 290. Cotton is more depressed than wool. Cotton mills sell little. Woolen mills are faring better. Money rates are easier. Retail trade has been helped by the recent hot weather. Jobbers are re-offering more frequently, even though only on a small scale. The Lancashire cotton strike has been ended and Manchester has a large business in sight with the Far East. And it is believed that the British coal strike will soon end. Of course this is necessary in order to start up Lancashire's mills. The decline in the Bank of England rate of discount of course helps Lancashire, however. On this side of the water textile trade is dull, and the sales of print cloths at Fall River were estimated at only 50,000 pieces for the week. Iron and steel are dull and depressed.

In a country with a population of 106,000,000 people some trade must be going on, especially after prolonged abstention from buying, and the American Railway Association for the week ending June 11 reports an increase compared with the previous week of 82,489 cars loaded. Thomas W. Lamont, of J. P. Morgan & Co., says that Germany's acceptance of the reparations terms will mean in the long run a stimulus to manufactures, better markets for farm products, and sound and increasing prosperity in both the foreign and domestic trade of the United States.

The Goodyear Tire & Rubber Co. has reduced tire prices to about pre-war levels. Lexington motor cars have just been reduced from $200 to $600 per car. The National Industrial Conference Board announces that the cost of living since July 1920 has decreased 20.8%, but is still 61.9% higher than in July 1914. The Board's estimates are said to be based upon retail prices for the principal items of a wage-earner's family budget. Intensive selling as an economic aid is the doctrine advocated by the "Sell Now League," a recently formed organization of American business men, with offices here. A committee of the League is attempting to enlist the membership of manufacturers and merchants of the United States in order to spread their idea of an effective remedy for business depression. No financial aid is sought. A general strike in the Pittston district of Pennsylvania Coal Co. was ordered, effective June 20; wage violations are charged. Two big coal companies in the Wilkesbarre zone were tied up on June 20 by a strike of nearly 10,000 men and boys. Shirt operators and pressers, who last February had their wages cut 25% and 20%, respectively, have been granted an increase from the present scale by a decision of William N. Leiserson, special arbitrator, who has modified the reductions to a flat 15%.

The strike of building trades in Holyoke, Mass., ended June 20. Union men accepted a cut of 15c an hour. Also the strike of building trade workers at Springfield, Mass., of two weeks' duration ended June 20. The Carpenters' Union accepted a reduction of 10%. Fifteen hundred employees of the Brookside Cotton Mills, Knoxville, Tenn., have voted to accept 22½% cut in wages. Many of the workers have been out since April 11. The Dwight Cotton Mills, at Alabama City, Ala., normally employing 1,500 hands, have resumed operations on an increased scale. They will run 10 hours a day, five days a week, until further notice. The mills of the Nelson B. White & Sons Co., at Winchester Springs, Mass., have resumed operations on a 4-day-a-week schedule. For the week ended June 14 at Detroit, 110,180 men were employed by 79 members of the Employers' Association. This is 3,350 less than the previous week, and represents the largest decrease this year. Part-time workers in 28 shops totaled 14,004, or 6,308 less than a week ago. More than 2,500 men in the Wheeling, West Virginia, district were thrown out of employment on the 18th instant, when three steel mills suspended operations in full or in part. The American Brass Co., at Waterbury, Conn., announced another cut, averaging about 10%. Motormen and conductors of the trolley lines in northern New Jersey accepted a cut of 5c an hour.

Here the marine workers' strike is ended. The few who are taken back by the shipping companies accept a wage cut of 15%. It is called the worst defeat suffered by organized labor in its recent conflicts with employers. The three remaining unions of marine workers, i.e., the cooks and stewards, the firemen and the seamen, voted to end their strike. The action of the unions amounts to a complete capitulation. The marine engineers ended their strike two weeks ago when their international president signed a six months' agreement with the United States Shipping Board, accepting the 15% cut.

Financial London, it is said, is taking a serious view of the deficit in the Egyptian budget. A poor cotton market is believed to have contributed largely to the shortage. Bankers may refuse the cash advances necessary to carry on fully the irrigation works of Egypt. Such a step would greatly reduce the production of Egyptian cotton. It is said that curtailment of irrigation has been suggested as an economical measure by the financial advisers to the Government.

Members of the Liverpool Steamship Owners' Association, who have been in Hamburg recently, say that they were struck with the rapidity with which that port is recovering its trade, and the extent to which the trade is being carried by American ships.

The coal dispute in England has quickened research experiments to such an extraordinary degree that what might be called the battle of temperatures seems to be going decidedly against the miners. Hitherto many by-products of coal have been wasted because of the use of coal at high temperatures, but the coming method will be to treat coal at a lower temperature and extract from it oils and sulphates to be used for fertilizing, etc. Vast developments already are being contemplated at the collieries. Many experts say that it will come to pass that the coal mines will produce oil and that the coal residue will be used for burning in any grate, and this coal will be smokeless.

LARD firm; prime western 10.85@10.95c.; refined to Continent 12c.; South American 12.25c.; Brazil in kegs 13.25c. Futures advanced on higher cables and a rise in hog prices. Commission houses bought. Shorts were the largest buyers. But some export demand also appeared. Today prices advanced and are higher than last Friday.

DAILY CLOSING PRICES OF LARD FUTURES IN CHICAGO.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery ----- cts.	9.92	10.00	10.07	9.97	10.02	10.17
September delivery ----	10.25	10.35	10.42	10.32	10.37	10.50
October delivery ------	10.40	10.47	10.57	10.45	10.52	10.65

PORK dull; mess $24.@$24.50; family $30@$33; short clears $22@$24.50. July port closed at $17.75 an advance for the week of 15c. Beef quiet; mess $12.@$14; packet $14@$15; family $16@$17; extra India mess $20@$22; No. 1 canned roast beef $2; No. 2 $3.25. Cut meats quiet but steady; pickled hams 10 to 20 lbs. 21⅜@23⅜c.; pickled bellies 10 to 12 lbs. 15 @ 17c. Butter, creamery extras 34½@35c. Cheese, flats 10@16½c. Eggs, fresh gathered extras 31@32c.

COFFEE on the spot quiet and lower; No. 7 Rio, 6¼c.; No. 4 Santos, 9@9½c.; fair to good Cucuta, 10@10½c. Futures declined at one time with stocks and cotton, then rallied. The trade sold at times. The speculation increased. Cost and freight prices and Rio exchange for a time fell. July liquidation also was a feature and a good deal of switching was done. September was switched to May at 92 points at one time and July to May at 130 points. Wall Street and Cotton Exchange interests sold. The trade sold December. Shorts covered. On the new "low" there was some investment buying, especially as stocks and cotton rallied. Later prices advanced with a rise in Rio exchange of ¼d. Santos advanced. The rise in Rio exchange reported to 7½d. was supposed to mean that the Brazilian Government is taking energetic measures to stabilize it. On Thursday Rio exchange fell ¼d., and this had a rather depressing effect. To-day prices fell and they show a decline for the week.

Spot (unofficial) --6¼c.	October -----6.17@6.18	March ------6.80@6.81

September --6.03@6.04		

SUGAR quiet but steady; centrifugal 96 degrees test, Porto Rican 4s. Futures have fluctuated within very narrow bounds, latterly being rather firmer. Stocks are big and demand small, but prices are already down to a level ruinous to planters. The Cuban situation is reported to be more acute than ever. It is proposed to valorize 1,000,000 tons of the stock in Cuba, or as this might be too slow a process, it is also suggested that an extension of the U. S.

Federal Bank Reserve system be introduced in Cuba. Sales were announced of Philippine centrifugal float aggregating 6,000 tons at 4c. c. i. f., part due to arrive the first week of July and the rest in the third week of that month; San Domingo in port sold at 2 9-16c. c. i. f.; Porto Rico for prompt shipment at 4c. c. i. f. Raw sugar has recently been selling here at the queer looking price of 4c., after payment of a duty of 2c. per lb. or equal to 2.4c. as Cuban sugar has a preferential of 20% on the American tariff. It is said that 2,000,000 tons of unsold sugar are held back in Cuba. It is not inaptly called "an iceberg of frozen credits." Europe is largely, it is said, supplying its own needs. The U. S. is pretty well supplied for the time being. Havana reports stated that the unsettled financial conditions existing there, coupled with a chaotic sugar situation generally throughout the island, have brought about serious unrest among unpaid sugar plantation workers which, it is said, has resulted in riots. Cuban officials are said to have refused to comment upon the situation. Meanwhile the Cuban Cabinet continues to work on a scheme for further financing the big surplus crop. Another Havana dispatch says the Cuban Government is studying a plan to relieve the pressure on raw sugar market, by purchasing 1,000,000 tons of sugar at 3c. a lb. in warehouses, payment to be made in 7% internal bonds. Receipts of sugar at Atlantic ports for the week were 41,355 tons, against 32,038 in the previous week, 56,807 in the same week last year and 72,657 two years ago; meltings 42,000, against 51,000 in the previous week, 70,000 last year and 73,000 two years ago; stock 204,006 tons, against 204,651 in the previous week, 52,614 last year and 104,783 two years ago. To-day prices declined slightly and are lower for the week.

Spot (unofficial)	4c	September	2.71@2.72
December	2.53@2.55	July	2.75@2.78
October	2.65@2.66	March	2.54@2.55

OILS.—Linseed lower on heavy importations and large resale offerings. Offerings for resale are said to have been made at 72c. and this has caused keen competition by first hands who it is said are willing to make concessions. English oil was offered quite freely at 66c. and there were reports of offerings even as low as 63c. but these reports were not confirmed. Paint interests it is said bought resale and English oil very freely. Prices were as follows: June carloads 74@77c.; less than carloads 77@80c.; 5 bbls. or less 79@82c. Cocoanut, Ceylon 10¼@10½c.; Cochin 11¼@11½c.; Olive $1.35@$1.50; Soya bean 8@8½c. Lard strained winter 87c. Cod, domestic 43c. Newfoundland 46c. Cottonseed oil sales to-day 8,400 bbls. July closed at 7.42@7.50c.; Oct. at 7.94@7.95c. Dec. at 7.80@7.90c. Jan. at 7.85@7.93c. Spirits of turpentine 58½c. Common to good strained rosin $5.00.

PETROLEUM lower on lack of buying power and heavy stocks. Further reductions in the price of crude oil were made during the week. The Magnolia Petroleum Co. cut the price at wells in the Mid-Continent field 15 to 25c. Gasoline declined in sympathy with a decline in crude and a light demand. Stocks of gasoline are also very large. Business in kerosene is still largely of a hand to mouth character. Fuel and gas oil remain quiet as does bunker oil, which is largely nominal at $1 57 per bbl. Prices are as follows: Gasoline, cargo lots, cases 32¾c.; U. S. Navy specifications, 17c. Export Naphtha, cargo lots 18½c.; 63 to 66 deg. 21½c.; 66 to 68 deg. 22½c. Refined petroleum tanks wagon to store 13c.; steel bbls. to garages 24c. Kerosene for export in cargo lots, bulk 6 to 7c.; in bbls. 15 to 16c.; cases 18@19c. James A. Phelan is reported to have declared that potential oil production in Mexico is almost unlimited and that the United States will have to depend chiefly on Mexico for its fuel oil in future. Mexican Treasury and Commerce Departments brand as "absurd and unfounded" reports of depletion in Mexican oil fields.

Pennsylvania	$2 50	Indiana	$1 63	Electra	$1 00
Corning	1 40	Princeton	1 52	Strawn	1 00
Cabell	1 31	Illinois	1 52	Thrall	1 00
Somerset, 32 deg. and above	1 10	Plymouth	0 90	Healdton	1 00
Ragland	0 75	Kansas & Oklahoma	1 00	Moran	1 00
Wooster	2 05	Corsicana, light	87	Henrietta	1 00
Lima	1 83	Corsicana, heavy	50	Caddo, La., light	1 50
				Caddo, crude	1 00

RUBBER dull and lower. Manufacturers of rubber goods are playing a waiting game. Smoked ribbed sheets were quoted at 11¾c.; first latex pale crepe reported sold at 11¾c., a new "low"; brown crepe thin, clean, 10¼c. Para dull at 15½c. for up-river fine. Central dull at 6c. for Corinto. These are nominal quotations. First latex pale crepe crude plantation rubber sold at 11¾c. per lb. in New York on the 23d inst., a new low, which represents a decline of nearly 80% from the 1919-20 peak of 55 cents.

HIDES have been dull and rather lower. The demand for common dry hides is small here. Germans are said to be buying freely in the River Plate section. Nobody is buying here. Things are stagnant. Wet salted are quiet, scarce, and steady. City packers are very dull. Leather and skins dull and weak. Chicago hides were dull and lower. Colombia sold on the basis of 13c. for Bogata. Armour steers said to have sold at $44.25 equal to 15¾c. cost and freight.

OCEAN FREIGHTS dull and depressed.

Charters included coal from Hampton Roads to Riga and Reval $6 75 option; Petrograd $7 25, free discharge, June loading; from Atlantic range o Havre $5 75 prompt; to Petrograd $8 prompt; sulphur from Galveston o Buenos Aires $6 June; one round trip in West India trade $2 25 June; rain from Montreal to Antwerp 25c. per 100 lbs. Canadian currency; if mburg 27½c. June-July; 25,000 quarters from a Gulf port to West Italy or the Atlantic islands 8s. July; coal from Atlantic range to Petrograd $7 25 July; to Hamburg $5 50 June; timber from a Gulf port to South Africa 2.35s. July; timer charter 3,777 ton steamer $2 50 per net registered ton per month; 52,000 quarters of grain from Montreal to Antwerp, Hamburg range, 27½c. per 100 lbs. Canadian currency; coal from Atlantic range to Gibraltar $5 50 June; to West Italy $5 90 June; to Copenhagen $6 June; spelter from Boulogne to New York 20s. June; nitrate of soda from Chile to Galveston-Boston range $4 June; 30,000 quarters grain from Montreal to Antwerp and Hamburg, 27½c. per 100 lbs. Canadian currency, July; 3,136-ton steamer, one round trip in transatlantic trade 7s.; lumber from North Pacific to Atlantic port $17 prompt; coal from Atlantic range to Teneriffe $5 70 Welsh form July; heavy grain from San Lorenzo to United Kingdom or Continent 57s. 6d. June 25th, canceling.

TOBACCO has been in the main quiet although there has been from time to time a moderate amount of buying. It is true that to all appearance cigar manufacturers are to say the least carrying no great quantity of tobacco. But on the other hand trade is none too good. Tobacco has not escaped the general dullness. The consumption of cigars it appears is not so great as it was during the war. Economy is practiced in the matter of tobacco as in so many other things. Pipe smoking is supposed to be more general than formerly; it affects the cigar trade. At any rate that is the notion of not a few. Southern business has been small. Hopkinsville sales recently amounted to 288,000 lbs. for a week at lower prices; the average for the week was $8 83, the lowest of the present season. Total sales for the season to date are 20,694,460 lbs.; average price $10 40. The weeks prices ranged from $1 to $20. Dry weather in eastern sections has latterly hindered the transplanting of tobacco. In Virginia progress is retarded by insufficient moisture; some sections await rain to finish resetting plants. In North Carolina, the crop looks poor to good. Tobacco over large areas there is blooming too small. In South Carolina it is hurt by drought. In Wisconsin it is doing well; it is delayed considerably by dry weather. In Kentucky transplanting is nearing completion; the early died badly on account of hot dry weather.

COPPER dull and depressed. In some quarters there is an inclination to accept 12¾c. for July, while in other directions 12½c. is asked. On the other hand some holders are quoting 13½c. for July. Export business was light. London of late has been more active at a small decline, but considering the heavy recent liquidation there prices were well maintained. Tin quiet and lower at 28½@28¾c. Lead steady but quiet at 4½c. spot New York. Zinc quiet and unchanged at 4.40@4.45c.

PIG IRON has been dull and fell 50c. at Chicago and 50 to $1 at Pittsburgh. Resales in the Chicago district are at even greater cuts. Elsewhere the market is distinctly depressed. Buffalo furnaces are selling at below eastern prices i. e. $23 and under. There is nothing fundamentally new. It is a story of poor business and declining prices.

STEEL has remained dull and some mills have closed and more may have to. Government offerings have a bad effect. There is sharp competition for business. Mills are running, it is intimated, at smaller capacity than last week. Lake ore trade was dull and prices $1 lower than last year. Sheets have been cut $5 and galvanizing extras on wire products $4 to $5 per ton. British mills have reduced prices £3 to £5 in heavy steel products, notably plates and shapes. They are having a sharp fight for business. In this country it is every mill for itself; price lists cut small figures. "Get the business" seems to be the slogan.

WOOL has been dull and lower, or only barely steady. The better grades sell more readily than the lower grades. Fine stapled bright wools have declined. Foreign markets are reported steady. Sydney, Australia, cabled June 20 that prices there were firm at the sale on that day. Japanese and Continental buyers were taking the super wools. The selection was good. Up to date the sales have totalled some 282,000 bales. The quotation on 70s. super warp wools shrinking 48% is given by Boston people at 24½d., or about 86c. clean landed basis, while 64s. warps were costing about 22¾d., or about 77c. for wools estimated to shrink about 46%. On June 20 at Dunedin, New Zealand, offered 10,000 bales, of which 9,200 were sold. There was a sharp demand for fine crossbreds, which were up a halfpenny, but coarser grades were the same as at the sale at Christchurch. At last week's London wool auction sales the home trade bought 39,000 bales and the Continent 70,000 bales. The sales closed last Saturday with a poor demand. At the wool sale held at Dunedin, New Zealand, June 22 10,000 bales were offered and 9,000 sold. The selection was mostly of medium grades. Compared with the sale at Timaru last week merino and halfbred superfine, medium and coarse crossbreds were about unchanged. Merino medium was 10% higher; fine, crossbreds 5% and pieces 10 to 12% higher. Clean scoured c. i. f. London, 56 to 58s., were 22 to 24d.; 50 to 56s., 81½ to 20½d.; 48 to 50s., 15 to 27d.; 46 to 48s., 13½ to 25d.; 44 to 46s., 11 to 12½d.; 40 to 44s., 9 to 11d.

COTTON.

Friday Night, June 24 1921.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 100,160 bales, against 113,556 bales last week and 109,659 bales the previous week, making the total receipts since Aug. 1 1920 6,288,801 bales, against 6,653,656 bales for the same period of 1919-20, showing a decrease since Aug. 1 1920 of 424,855 bales.

* Estimated.

Speculation in cotton for future delivery has been more active, with sharper fluctuations in prices, and at one time, with stocks higher and crop reports less favorable the turn has been upward. The ending, however, is lower than a week ago. July liquidation told. The weekly Government report on the 22nd instant, however, was less favorable than had been expected, and on the same day came reports of heavy gales in the Gulf section of Texas, ranging from 60 to 75 miles an hour, with rains and big tides. It suggested that the grade might be lowered, or at any rate that picking might be delayed. This storm originated in the Carribean Sea, early in the week, and for a time was ignored. Very many believe that it did no material damage to the crop. But as the market was oversold in Wall Street and the West, where the cotton trade is perhaps not very well understood by the generality of people, it had for the moment no small effect. The general notion is that there is still a big short interest for Western and Wall St. account. It was formed recently, it was understood, at a time when stocks were very much depressed. And the weather at the South was good. It has been on the whole, perhaps, more favorable since the issuance of the Government report on June 1, and there has been quite a general belief that the July report would show considerable improvement in the condition of the crop, say something like 72%, as against 66 in the June report. This for a time had more or less effect, even though the 10-year average for July 1 is 79.3. One of the things enlarged upon, however, has been the damage done by weevil. The weekly report laid no small stress on it. It said that in Texas the weevil is increasing and is doing considerable damage. Much damage is being done by the same pest in Georgia. The plant in that State is also unusually small. Weevil is reported in scattered localities in Southeastern Oklahoma. In Southern Alabama it is plentiful, and the infestation is becoming general in that State. The pest is also rather numerous in Mississippi. The damage in that State is only slight thus far, because of the slow development of the plant. In central, eastern and southern South Carolina weevil is plentiful, and the infestation is reported to be considerable in southwestern Tennessee. Weevil is also reported in Louisiana. The condition of the crop in North Carolina is still declared officially to be poor. The condition in eastern Texas is said to be poor; Oklahoma is two weeks late; Tennessee is late; North Carolina, as already stated, is poor; Mississippi is behind hand; Louisiana, though good in some part, is poor in others.

And as regards the strike situation, it is said that the strike leaders in the Lancashire district urge from the workers an acceptance of the wage cut. A ballot is being taken on the subject, and the result, it is said, will be known to-day. And as regards the coal strike, despite the recent majority vote of miners favoring a continuance of it, British financial circles express a belief that the men will soon return to work. Manchester advices are to the effect that there is a big trade in sight with India and China as soon as the mill and coal strikes are ended. In fact, it is said that already there is a good business being done with Madras. A good monsoon is reported in India, and as that is supposed to mean abundant crops of all kinds and a corresponding increase in the buying power of that quarter of the globe, it is accepted as of hopeful augury for Lancashire. Meantime spot demand for Liverpool has of late increased somewhat. Manchester and the Continent, moreover, have been buying futures there. Long liquidation in Liverpool has died down. On the other hand, shorts have shown certain anxiety to cover, especially when New York prices showed strength. It would seem that after all Liverpool looks to New York to give the cue, so far as its own immediate fluctuations are concerned. Here the trade has been buying October and December steadily, and at times, it is said, on quite a large scale. Liverpool has also bought more or less, and at times Japanese interests are said to have been buyers. Wall St. and the West from time to time have covered to some extent.

The acreage is being cut, not only in this country, but also in Egypt, where the planted area is now estimated at 1,400,000 feddans (feddan equal to about 1¼ acres), against 1,897,416 in 1920 and 1,633,461 in 1919. Later came news that the cotton strike in Manchester had ended and that the Bank of England had reduced its rate of discount to 6%. It caused a small advance for the moment. But only for the moment. It soon gave place to a decline, owing to July liquidation, predictions of a large issue of July notices in New Orleans on Saturday and here next Monday, reports that Fall River will further curtail its output, and finally that the Texas storm had done no serious harm. Fall River's sales of print cloths this week are estimated at only 50,000 pieces.

On the other hand, there is deep-seated skepticism among many as to the possibility of starting a genuine old-time bull speculation at this stage of the season. Stocks are big; consumption is slow; Europe is poor; its issues of paper money are stupendous, and its buying power correspondingly affected. Latterly foreign exchange has been weak. Exports still lag. Cotton goods are dull here and at Fall River. Manchester complains that bids on cloths are too low. Yarns there are quite and irregular. In this

country trade is generally slow. The great farming class, comprising something like 50% of the population of the United States, finds that what it has to sell has declined far more than what it has to buy. This is one of the great drawbacks of the day. It is aggravated by unduly high prices maintained by retailers. And many believe that the crop in the main is looking well. In most parts of Texas, according to the Government weekly report, conditions are good to very good; in Arkansas they are described in the main very good to excellent; in Oklahoma, at least fair; in South Carolina and parts of Alabama, good. The South and Liverpool at times have been selling more or less freely. Silver has declined somewhat. The stock in New York is large and gradually increasing. To-day prices advanced a trifle, closing barely steady. The National Ginners' report put the condition at 70%, and the acreage cut at 29%. The closing prices are 22 to 35 points lower on near months than a week ago. Spot cotton closed at 11.05c for middling, a decline for the week of 35 points. The New York Cotton Exchange will be closed on July 2, also the Stock and Produce Exchanges.

The following averages of the differences between grades, as figured from the June 23 quotations of the ten markets, designated by the Secretary of Agriculture, are the differences from middling established for deliveries in the New York market on June 30.

Middling fair	2.20 on	*Middling "yellow" tinged	2.38 off
Strict good middling	1.70 on	*Strict low mid. "yellow" tinged	3.55 off
Good middling	1.10 on	*Low middling "yellow" tinged	4.58 off
Strict middling	0.55 on	Good middling "yellow" stained	2.18 off
Strict low middling	0.98 off	*Strict mid. "yellow" stained	3.08 off
Low middling	2.15 off	*Middling "yellow" stained	4.10 off
*Strict good ordinary	3.23 off	*Good middling "blue" stained	2.65 off
*Good ordinary	4.25 off	*Strict middling "blue" stained	3.55 off
Strict good mid. "yellow" tinged	0.08 on	*Middling "blue" stained	4.48 off
Good middling "yellow" tinged	0.43 off	*These ten grades are not deliverable upon future contracts.	
Strict middling "yellow" tinged	1.35 off		

The official quotation for middling upland cotton in the New York market each day for the past week has been:

June 18 *to June* 24—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
Middling uplands	11.40	10.85	11.05	11.20	11.00	11.05

NEW YORK QUOTATIONS FOR 32 YEARS.

The quotations for middling upland at New York on June 24 for each of the past 32 years have been as follows:

1921	11.05	1913	12.30	1905	9.30	1897	6.75

* Estimated.

Continental imports for past week have been 33,000 bales.

The above figures for 1921 show a decrease from last week of 11,829 bales, a gain of 1,005,957 bales over 1920, an excess of 1,394,740 bales over 1919 and a gain of 2,946,036 bales over 1918.

AT THE INTERIOR TOWNS the movement—that is, the receipts for the week since Aug. 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of the previous year—is set out in detail below:

Towns.	Movement to June 24 1921.				Movement to June 25 1920.

a Last year's figures are for Natchez, Miss. * Last year's figures are for Cincinnati, Ohio.

The above totals show that the interior stocks have *decreased* during the week 35,648 bales and are to-night 350,611 bales more than at the same time last year. The receipts at all towns have been 38,320 bales more than the same week last year.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE AUG. 1.—We give below a statement showing the overland movement for the week and since Aug. 1, as made

up from telegraphic reports Friday night. The results for the week and since Aug. 1 in the last two years are as follows:

June 24—	1920-21 Week.	1920-21 Since Aug. 1.	1919-20 Week.	1919-20 Since Aug. 1.
Shipped—				
Via St. Louis	13,786	771,011	7,565	781,219
Via Mounds, &c	3,224	240,382	4,521	414,231
Via Rock Island	----	35,909	156	24,152
Via Louisville	1,062	68,481	2,416	116,172
Via Virginia points	5,361	141,776	948	224,097
Via other routes, &c	24,304	513,301	4,781	474,748
Total gross overland	47,737	1,770,860	20,387	2,034,619
Deduct Shipments—				
Overland to N. Y., Boston, &c	3,289	135,332	1,090	181,759
Between interior towns	1,602	46,570	472	69,732
Inland, &c., from South	6,689	296,989	3,826	256,738
Total to be deducted	11,580	478,891	5,388	508,229
Leaving total net overland†	36,157	1,291,969	14,999	1,526,390

† Including movement by rail to Canada.

The foregoing shows the week's net overland movement has been 36,157 bales, against 14,999 bales for the week last year, and that for the season to date the aggregated net overland exhibits a decrease from a year ago of 234,421 bales.

In Sight and Spinners' Takings.	1920-21 Week.	1920-21 Since Aug. 1.	1919-20 Week.	1919-20 Since Aug. 1.
Receipts at ports to June 24	100,160	6,228,801	23,204	6,653,656
Net Overland to June 24	36,157	1,291,969	14,999	1,526,390

Sundry articles							59,018	71,146
Total exports of cotton manufactures							674,625	927,926

The foregoing shows that there was exported from the United Kingdom during the ten months 674,625,000 pounds of manufactured cotton, against 927,926,000 pounds last year, a decrease of 253,301,000 pounds.

WEATHER REPORTS BY TELEGRAPH.—Our advices from the South to-night by telegraph indicate that while beneficial rain has fallen during the week in many sections, moisture is claimed to be needed along the Atlantic and in Alabama and Tennessee. Temperature has favored the development of the plant. Texas reports are to the effect that crop is mostly in satisfactory condition except in the East, but that there are some complaints of shedding and the boll weevil is increasing and causing moderate damage.

TEXAS.—*General.*—Cotton is mostly in satisfactory condition except in east, where it continues rather poor. Some complaints of shedding. Weevil increasing and causing moderate damage.

COTTON CONSUMPTION AND OVERLAND MOVEMENT TO JUNE 1.—Below we present a synopsis of the crop movement for the month of May and the ten months ended May 31 for three years:

	1920-21.	1919-20.	1918-19.
Gross overland for May	224,354	184,436	211,817
Gross overland for 10 months	1,614,545	1,930,329	2,024,862
Net overland for May	178,773	145,625	165,510
Net overland for 10 months	1,176,692	1,446,781	1,685,226
Port receipts in May	613,932	225,207	477,178
Port receipts for 10 months	5,862,708	6,535,891	4,920,826
Exports in May	444,665	378,723	404,156
Exports in 10 months	4,545,917	6,017,895	4,326,028
Port stocks on May 31	1,572,521	1,022,313	1,313,557
Northern spinners' takings to June 1	1,755,810	2,626,581	1,840,676
Southern consumption to June 1	2,557,000	3,068,000	2,982,000
Overland to Canada for 10 months (included in net overland	134,777	177,228	171,001
Burnt North and South in 10 months	1,042	993	7,342
Came in sight during May	994,705	593,743	742,738
Amount of crop in sight May 31	10,211,400	11,560,672	10,164,952
Came in sight balance of season	----	913,880	1,437,682
Total crop	----	12,217,552	11,602,634
Average *gross* weight of bales	510.2	506.05	512.04
Average *net* weight of bales	494	481.05	487.04

WORLD'S SUPPLY AND TAKINGS OF COTTON.—The following brief but comprehensive statement indicates at a glance the world's supply of cotton for the week and since Aug. 1 for the last two seasons, from all sources from which statistics are obtainable; also the takings, or amounts gone out of signt, for the like period.

Cotton Takings. Week and Season.	1920-21. Week.	1920-21. Season.	1919-20. Week.	1919-20. Season.
Visible supply June 17	6,556,309	----	5,642,684	----
Visible supply Aug. 1	----	4,956,257	----	4,792,018
American in sight to June 24	165,669	10,789,846	90,349	11,709,405
Bombay receipts to June 23	*b*70,000	2,526,000	50,000	3,302,000
Other India shipm'ts to June 23	*b*4,000	234,000	8,000	481,000
Alexandria receipts to June 22	*b*6,000	597,000	----	752,000
Other supply to June 22*	*b*2,000	366,000	6,000	248,000
Total supply	6,803,978	19,469,103	5,797,033	21,284,423
Deduct—				
Visible supply June 24	6,544,480	6,544,480	5,538,523	5,538,523
Total takings to June 24 *a*	259,498	12,924,623	288,510	15,745,900
Of which American	171,498	9,270,623	206,510	11,361,900
Of which other	88,000	3,654,000	52,000	4,384,000

a This total includes the estimated consumption by Southern mills, 2,790,000 bales in 1920-21 and 3,343,000 bales in 1919-20—takings not being available—and the aggregate amounts taken by Northern and foreign spinners, 10,134,623 bales in 1920-21 and 12,402,900 bales in 1919-20, of which 6,480,623 bales and 8,018,900 bales American. *b* Estimated.

ALEXANDRIA RECEIPTS AND SHIPMENTS OF COTTON.

The following are the receipts and shipments for the week ending June 1 and for the corresponding week of the two previous years:

Alexandria, Egypt, June 1.	1920-21.	1919-20.	1918-19.
Receipts (cantars)—			
This week	32,000	2,229	14,748
Since Aug. 1	4,306,707	5,632,193	4,794,538

Exports (bales)—	Week.	Since Aug. 1.	Week.	Since Aug. 1.	Week.	Since Aug. 1.
To Liverpool	3,500	103,349	8	246,904	254	103,670
To Manchester, &c	----	79,522	----	143,739	5,355	103,504
To Continent & India	1,600	127,227	500	131,071	801	132,599
To America	190	44,513	21	282,622	3,744	56,579
Total exports	5,290	354,611	601	804,336	10,158	196,352

Note.—A cantar is 99 lbs. Egyptian bales weigh about 750 lbs.
This statement shows that the receipts for the week ended June 1 were 32,000 cantars and the foreign shipments 5,290 bales.

MANCHESTER MARKET.—Our report received by cable to-night from Manchester states that the market is steady for both yarns and cloths. The demand for India is improving. We give prices for to-day and leave those for previous weeks of this and last year for comparison:

BREADSTUFFS

Friday Night, June 24 1921.

Flour declined early in the week, with wheat down some 6 to 9c. at Minneapolis, and trade quiet. Many are awaiting offerings of new wheat flour. Buyers in the meantime are cautious. Later, it was stated that new crop flour was offered very moderately from the Southwest and a few sales have been made for forward delivery on a basis of $7 25 to $7 50 for 95% straights. Not a few buyers here are holding off for lower prices. Latterly, rather larger offerings of spring wheat have been reported at lower prices. Foreign demand has been light. Reports from England seem to indicate that English mills are arranging to compete with American flour. That of course means that they would change their extraction. Exporters have taken first clears for immediate loading and sales were reported at the close of last week of 5,000 bbls. With some further business in prospect. Forward business, however, is neglected. Foreign buyers await offerings of new crop flour. Cornmeal has been in moderate demand. Offerings later on became larger of new flour at irregular prices, generally higher than buyers will pay. New Southwestern straights were quoted at around $7 25 to $7 50. New soft flours being offered to a moderate extent. Clearances are fairly large on old business and shipments from New York on June 22 included, curiously enough, 48,000 sacks to Petrograd. Export demand has latterly fallen off.

Wheat declined at one time with stocks and cotton and later turned upward with them. Larger receipts at one time had their effect; also a substantial increase in the visible supply, larger offerings, favorable crop reports and the fact that a new harvest is at hand. The visible supply in the United States last week increased 1,210,000 bushels in sharp contrast with a decrease in the same week last year of 3,394,000 bushels. This is a difference of practically 4,600,000 bushels. It raised the total to 11,280,000 bushels against 28,558,000 a year ago. American and Canadian crop news has been in the main good. The Canadian crop has been estimated at 360,000,000 bushels or some 100,000,000 bushels larger than the last one. Of course if this turns out to be correct it will add just so much to Canada's export surplus. In Poland the crop is said to be equal to 90% of its home requirements. In India, too, the monsoon has broken with good rains. And new wheat is beginning to arrive at western markets. Kansas City predicts large receipts there by the end of June. Exporters bought early in the week 1,000,000 bushels half Manitoba and hard for July shipment from the Gulf. Germany wants our wheat but on 90 days credit which holders here are not disposed to grant. France sends rather unfavorable crop reports. It needs rain. So does Argentina.

The Minnesota State Board of Grain Appeals has re-adopted the Federal weight standards for the grading of grain in that State. Minneapolis wired June 21: "Reports from Redfield, Huron, Watertown and Aberdeen, South Dakota, indicate the development of a bad spot in the crop situation. Four counties in South Dakota—Brown, Hand, Spink and Beadle—are complaining of need of rain, and a dry condition extends in less urgent degree over adjoining counties. This is a heavy producing part of South Dakota. Rains reasonably soon, it is believed, would bring full relief and no damage of consequence would be recorded, but much apprehension is likely if another week passes without rain and temperatures are high." To-day prices were unchanged, but they are slighlty lower for the week.

Indian corn declined with wheat early in the week but rallied with it later. And hot dry weather has had some effect, even apart from the influence of wheat. Rains are said to be much needed. It is even asserted that parts of the belt may suffer more or less severely unless they occur in the near future. The forecast at times has been for unsettled and cooler weather east of the Missouri River and this had some effect. Rains were reported on the 23d inst., Moreover, the visible supply in the United States last week increased 1,010,000 bushels, against an increase in the same week last year of only 131,000 bushels. This raised an already large total to 22,962,000 bushels, against 2,759,000 a year ago. It had a more or less sobering effect on the cash market. It is true that on the 20th inst. exporters were said to have taken 500,000 bushels on the 21st inst., 100,000 bushels and on the 23d 100,000 bushels more, but the effect was not marked. Later rains caused selling. The West, it is also said, will make big deliveries on July contracts. Western carriers are said to be having trouble in getting storage for corn they had bought. To-day prices declined and are lower than a week ago.

Oats declined in the fore part of the week with wheat and rallied later with that cereal. The visible supply in the U. S. however, increased 764,000 bushels last week. This raised the total to such rather formidable looking figures as 31,557,000 bushels against 4,624,000 a year ago. Not to go any further this is a damper on bull speculation. The receipts have been fair. Reports of damage to the crop have been current but they have had no great effect. They have not been taken very seriously because the general notion here is that despite some deterioration the crop is likely to be large enough not only to supply the home demand but to leave a goodly surplus for export if wanted. Still prices at one time did respond to some extent to a rise in wheat. Later came beneficial rains which with the big supplies weighted somewhat on the price. Today prices were slightly lower, and they also show a decline for the week.

Rye declined early in the week, but later rallied with other grain. Besides, on June 21 exporters took 125,000 bushels, which is not so bad for these times. At one time, however, the talk of impending offerings of new rye with wheat at the same time declining caused depression in spite of indications of some foreign demand. The visible supply in the United States decreased last week 292,000 bushels, as against 1,528,000 in the same week last year. This brought the total down to 939,000 bushels, against 9,054,000 bushels a year ago. But even such statistics have no great weight at the present time. Men are looking forward rather to the coming supply. To-day prices were irregular. They are unchanged on July and ⅝c. lower on September for the week.

WEATHER BULLETIN FOR THE WEEK ENDING JUNE 21.—The general summary of the weather bulletin issued by the Department of Agriculture, indicating the influence of the weather for the week ending June 21 is as follows:

COTTON.—The temperature averaged above normal throughout most of the cotton belt, but rainfall was of a very local character. Some good rains occurred in the eastern portion of the belt, where droughty conditions had prevailed, but in others the falls were light and insufficient to relieve the drought. Cotton made rapid growth in Texas, Louisiana, and Arkansas, while the advance was mostly good in Oklahoma, although the crop is considerably later than average. Progress was only poor to fair in Alabama and Mississippi and there was a slight improvement in Georgia and North Carolina; fairly good advance was reported from South Carolina. Cotton is generally well cultivated, with little or no complaint of grassy fields, but its general condition continues unsatisfactory in many localities, particularly in the States east of the Mississippi River. The condition ranges from fair to very good in Arkansas and also in Texas, except in the eastern portion of the latter State, where it is poor ,while the condition, in general, is fairly good in Oklahoma. Weevil activity is rather widespread and damage is increasing in Georgia and Texas; they are reported this week from southeastern Oklahoma and southwestern Tennessee.

CORN.—There was ample moisture, heat, and sunshine for corn in trans-Mississippi Valley States, and the crop generally made excellent progress and is in a satisfactory condition. Corn improved in much of the Ohio Valley and Lake regions, but there was a lack of moisture in considerable areas in these sections, and generally in the Southeast and East where the growth was rather slow; the crop is in rather a serious condition in a few places in the Southeast. There was slight frost damage in New York and New England on the 16th. Cultivation made satisfactory progress, and the fields are generally clean, except in the lower Great Plains States where heavy rains fell.

WINTER WHEAT.—The harvest of winter wheat progressed during the week northward to Maryland, the central portions of Indiana and Illinois and southeastern Iowa and Nebraska. The weather was generally favorable for this work and rapid progress was made, except in portions of Texas and western Oklahoma, where considerable interruption was caused by frequent rains. The high temperature caused wheat to ripen rapidly in the northern portion of the belt, in fact too rapidly in some localities, particularly in the upper Mississippi Valley. The weather continued favorable for the development of small grains in the Rocky Mountain districts and the far Northwest, except that it was too dry for wheat in central Washington. High winds damaged grains in California, but showers were beneficial in much of Nevada.

SPRING WHEAT.—Good rains were received in the western portion of the spring wheat belt, where droughty conditions had heretofore prevailed This crop, in general, made satisfactory advance, although the high temperatures in the eastern portion of the belt were somewhat unfavorable; some black rust was reported from southeastern South Dakota.

OATS.—It was too warm for oats in the interior districts, and they are heading short and not filling well in many localities east of the Mississippi River, owing to deficient moisture. Some improvement, however, has occurred in the Great Plains district, but the stands are thin in Kansas, while rust is damaging in Oklahoma.

RICE.—The weather has been rather too cool for rice in California and this crop is making slow growth in Georgia, but it is in excellent condition in Arkansas.

The statement of the movement of breadstuffs to market indicated below are prepared by us from figures collected by the New York Produce Exchange. The receipts at Western lake and river ports for the week ending last Saturday and since Aug. 1 for each of the last three years have been:

THE DRY GOODS TRADE.

New York, Friday Night, June 24 1921.

Exceptionally hot weather reported from all parts of the country has stimulated seasonal buying, and many retailers are reported to be seizing the opportunity to offer broken lots and goods that have been in their possession longer than usual. There has been no indication that normal buying by the public has been restored, or that jobbers generally feel the confidence in the situation that would warrant them in replenishing stocks that in many cases are badly depleted. The demand that has been occasioned by the weather, and that has been foreseen by many in the trade for some time, caught jobbers, in some instances, totally unprepared, and orders for immediate shipment on fast-moving specialty goods are in evidence, with agents seeking certain stocks for special orders. All advices show that retailers generally are trading on smaller margins, and are apparently content to confine themselves to a closer profit with primary markets. This condition has given rise to confidence that is being freely expressed in some quarters, and is pointed out as one of the features most earnestly to be desired at present if the situation is to be restored to the normal. While many manufacturers have been forced to close entirely, a fair percentage of others are experiencing sufficient business to enable them to operate profitably. It is unfortunate that some lines are practically dormant to the benefit of others, but this is a condition that confronts the trade and has to be reckoned with.

DOMESTIC COTTON GOODS.—The sharp drop in cotton occurring this week has had a demoralizing effect on the cotton goods section, and particularly so at this time when Spring requirements for 1922 are being considered. The net result of the decline in cotton has been a weakening of the cotton goods market, although the reduction has not been radical enough to do any material harm, and has indeed been more in the nature of a reticence of buyers than a sharp decline in price. At present 64 x 60's in 38½-inch may be had at 6⅝c per yard, and some sales at 7⅝c for 68 x 72's have been reported but not confirmed. Demand has been light and prices quoted are understood to be only nominal, as any transaction of fair volume is subject to trading. The position which sheetings have maintained for themselves has remained unchanged throughout the week, and there has been very little demand in evidence. It is understood that any well-rated concern with orders for carload lots may shade the market at least ⅛c. For immediate shipment, voiles, lawns, organdies, and, in fact, nearly all constructions in the fine goods field have been sought after, and the demand is probably augmented by the favorable reports of rapid movements from retail circles. After some delay there is evidence to show that the converters in several instances are actively entering the markets for their requirements for the next Spring season. Cotton duck has shown no signs of recovery, and there is practically no effort on the part of agents to secure orders.

WOOLEN GOODS.—The situation in the woolen goods division continues to be the brightest section of the trade. Beginning recently with favorable reports on the settlement of the strike question and wage adjustments and the passage of the Emergency Tariff protecting wools, the outlook of mills, manufacturers and retailers appears to be cheerful. In the dress goods division an increased demand is in evidence, but has not as yet reached sufficient volume to force this field into the prominence of the men's wear. The Fall season in women's wear is being inaugurated by the cutting trade on a heavy scale, and the feature so far appears to be the inclination for staple serges in various color combinations. The activity in the men's wear division still continues to lead in interest, with all indications pointing to the opening of the Spring 1922 season within the next few weeks. Predictions are being expressed that buying will be heavy and this view is authenticated by the demand for duplicate orders, which are still coming in for the current year's Winter season. This is a feature that has been much discussed, but that has not as yet been thoroughly settled, as some of the manufacturers are accepting the duplicate orders offered, while others are refusing them. The duplicate orders appear to cover all classes of goods, although the staple lines are most in demand.

FOREIGN DRY GOODS.—Following the recent advance which the burlap market experienced has come a period of quiet and slack trading. The actual quotations have receded slightly from those of last week, and the demand has fallen off. The principal reason advanced for the decline in prices is the rumor to the effect that the India Mills intend to resume a normal six-day week, and increased production is looked upon with uneasiness in this market. There have recently been heavy shipments of burlap, both to Atlantic and Pacific ports, and the imports in this field are estimated to be increasing. While burlaps are nominally quoted at 3.75c for spot lightweights and 4.45c for heavies, there is practically no trading, the majority of the houses apparently being content to await developments. Advices from Calcutta show that the situation there is normal and burlaps held on a firm basis. The linen situation here still continues to confuse importers and dealers. There appears to be a fair demand still in evidence from large buyers for lines in toweling, etc., for the replenishing of depleted stocks, but no inclination is being shown to order for future requirements. Stocks in this country are variously estimated, but generally conceded to be depleted, and as the stocks in Europe are also depleted, it is reasonable to suppose that there would be some effort to place orders for future requirements. However, this has not been done so far, and the market experiences no activity beyond the demand for immediate shipments.

State and City Department

STATE AND CITY SECTION.

A new number of our "State and City Section," revised to date, appears to-day, and all readers of the paper who are subscribers should receive a copy of it. As previously announced, this Supplement is now printed in two parts, Part One containing the New England, Central and Middle States, being issued to-day, while Part Two, embracing the rest of the country, will be published next December.

NEWS ITEMS.

Canada.—*Suggestions for Dealing with Financial Difficulties of Western Municipalities.*—The Canadian Bond Dealers' Association at its recent meeting gave consideration to the matter of the financial difficulties of certain municipalities in Western Canada and the Toronto "Globe" on June 16 furnished the following outline of the discussion:

"The discussion was led by W. L. McKinnon, reporting for the Committee on Municipal Administration and Finance, and Mr. McKinnon's remarks, made public yesterday, show the result of a careful survey of the situation. Subsequently, the association expressed its appreciation and instructed the new Executive to give consideration to the proposals made.

Mr. McKinnon first gave the names of municipalities in default as follows: Province of Quebec: St. Michel de Laval, Montreal North and Pointe aux Trembles; British Columbia: Town of Greenwood (payment of $35,000 on principal only); Alberta: Athabasca, Bassano, Coronatior, Macleod, Redcliff and Village of Diamond City; Saskatchewan: Battleford, Canora, Humboldt, Melville, Scott, Sutherland and Wilkie in default, with Swift Current in arrears; also a number of Saskatchewan rural telephone districts in default.

"Mr. McKinnon followed this list of defaults with adeclaration that 'the situation of the municipalities in Canada, as a whole, is thoroughly satisfactory.' Presenting the results of a recent survey of nearly every municipality in the Dominion, Mr. McKinnon said that in the 60 Canadian cities the assessment on the average was $1,054 per capita, as compared with a standard assessment of $1,000 per capita. In 380 towns the average assessment was $553 per capita, as compared with a standard of $750. In 619 villages the assessment was $502 per capita, against a standard of $500. 'It seems clear, then,' he said, 'that the assessment of our cities, towns and villages is not too great throughout Canada, as a whole.' By similar analysis, he had found that the average total debt in the 60 cities was $184 per capita, against a standard of $200, in the 380 towns $76 against a standard of $150, and in 619 villages $32 against a standard of $100, so that the debt position offhe municipalities, on the whole, is quite sound.

"A few years ago the assessment of western cities was greatly inflated on the average, but it is now more nearly normal. The deflation of the debt, however, could not be so quickly accomplished, and he feared would remain about standard for some years. East of the Great Lakes the debt and assessment both of towns and villages showed a healthy average. The same was true of the average towns and villages of the Prairie Provinces, but there were some individual cases 'where the financial situation was so bad that the confidence of investors in every part of Canada has been shaken and the credit of all Western municipalities has suffered severely.' These exceptions, however, should not obscure the fact that in a great number of cases the suspicion of several could not be for a moment entertained.

Mr. McKinnon said that Ontario had given financial aid to the town of Latchford, the one municipality in trouble, and it is not now in arrears. Manitoba had also given assistance where needed, and British Columbia had aided its municipalities also. A certain limited amount of Government assistance had been voted in Alberta, but Saskatchewan, so far, had shown no inclination to assist the municipalities in default. Mr. McKinnon emphasized the helplessness of bondholders, when it comes to enforcing payment of interest and principal through the pressure of law, mentioning that an unsatisfactory current account could throw a municipality with a reasonably low debenture debt into default.

" 'It is necessary,' he said, 'that the various Provinces give assistance to the municipalities at present in financial difficulties, if the credit of our municipalities is to be restored and the confidence of investors retained.'

"He suggested that whenever a municipality is in financial difficulty the Provincial Government interested should take care of that portion of the municipal debt which is beyond the power of the municipality to carry. Also, that the Government insist that each defaulting municipality raise over and above taxes needed for current expenses, a debenture tax of at least 14½ mills for the purpose of meeting debenture interest and principal payments. The rate mentioned would, at 6% retire in 30 years a debenture debt equal to 20% of a reasonable standard assessment. He also suggested that the proper municipal department of the Government conduct an inquiry into the financial affairs of any municipality as soon as default occurs in payment of interest or principal without bondholders asking for such an inquiry. Also, the proper municipal department should investigate the capital and current position of all municipalities and veto anything being done either on current or capital account which would impair its credit or make a municipality liable to the danger of default. Also, the Provincial Department should collect, compare and analyze statistics of all municipalities in its Province and many outside to gain information for the avoidance of costly errors.

"The municipal department of the Province should, in short, be the guardian of the bond holders' interests, as well as the interests of the municipality."

Delaware.—*Governor Calls Senate into Special Session.*—Governor Denney on June 15 issued a proclamation conveying the Delaware Senate in special session on June 27 to confirm the appointments of Chancellor, Chief Justice and Associate Judges and other appointments made since the Legislature adjourned May 16.

New Haven, Conn.—*Manager Form of Government Rejected by Voters.*—The voters of New Haven in a special referendum election rejected a proposed new charter providing for a council manager form of government. The vote was 7,909 for the charter to 18,717 against.

New York State.—*Soldiers' Bonus Act Upheld by Court.*—The Appellate Division of the New York Supreme Court (Third Department) on June 20, unanimously sustained the constitutionality of the soldiers' bonus law (V. 112, p. 2659). The New York "Times" account of the decision says:

"Within two hours after arguments ended the Appellate Division of the Supreme Court, Third Department, this afternoon declared the soldier bonus law constitutional.

"The ruling was unanimous, but John M. Kellogg, Presiding Judge, said that he would permit an appeal to the Court of Appeals by the defendant, the Westchester National Bank of Peekskill, which raised the question of the constitutionality of the law and the validity of the bonus bonds, which are to be sold by State Controller Wendell. So the Court of Appeals will convene Monday to hear the bank's appeal. A decision is expected on or before July 12.

"In hearing the arguments to-day the court set a precedent, for it listened first to the appellat's side as presented by Attorney General Newton. He upheld the validity of the law, basing his arguments on three considerations:

First.—That the State has inherent power to grant pensions or gratuities to resident veterans of wars.

Second.—That amendments to the State Constitution made in 1874 did not limit this inherent power of the State, but applied at most to cities, towns and villages.

Third.—That the soldier bonus would be expended for a public purpose based on good morals, equity and justice and as such was valid under first principles and the Constitution of the State and the United States.

"In reply to the argument that the Constitution was amended in 1874 to prevent the State from giving pensions and bonuses, Mr. Newton pointed out that these provisions aimed to prevent the State from giving or loaning credit or money in aid of any corporation, association or private enterprise. He held that the bonus to be given soldiers could not be construed as giving credit or money to a private enterprise.

"The Attorney-General argued that nations had always paid their soldiers for service in the army or navy, and since it was the duty of every citizen to serve his country, such pay did not rest upon the obligation of a contract or the right of the soldiers.

"Louis Marshell, counsel for the Westchester Bank, which declined to accept $25,000 in bonus bonds for which it bid until such securities received the stamp of validity by the highest courts, contended that the law was in violation of the taxing power of the State in that it was designed to accomplish a private rather than a public purpose.

"He also declared the law was void because of failure to conform to the constitutional provision prohibiting the contracting of a debt by the State 'for a period longer than that of the probable life of the work or object for which the debt is to be contracted, to be determined by general laws.'

"The State Soldiers' Bonus bonds of $10,000,000 will not be offered for sale until early Fall, according to word received yesterday from State officials by bankers. At least two syndicates were planning to bid on the issue, if brought out immediately, but they might not bid so high for this issue as for the $31,800,000 of State bonds, bought on June 9 for 101.25, and now being sold through a syndicate.

"The declaration of the Supreme Court that the Soldier Bonus is constitutional, in the opinion of bankers, removed all possible clouds from the title of the bonds. The bankers say they are willing to undertake the sale of the bonds, and will bid on them when the State officials get ready to sell."

Philippine Islands (Government of).—*Bill Authorizing Increase in Debt Limit Passed by House of Representatives.*—The House of Representatives on June 20 passed a bill authorizing the Philippine Government to increase the limit of indebtedness from $15,000,000 to $30,000,000, so as to relieve the present acute financial situation.

Port of Umpqua (P. O. Reedsport), Ore.—*Suit to Halt Issuance of Bonds.*—A special dispatch from Gardiner to the Portland "Oregonian" dated June 18 had the following to say concerning a suit filed in the Circuit Court at Roseburg by representatives of the tax payers' league of the Port of Umpqua against the Umpqua port commissioners to enjoin the proposed issuance of $250,000 6% port bonds:

"Suit was filed in the circuit court at Roseburg June 13 by John Hedden, Fred Assenheimer and Frank F. Wells, representing the taxpayers' league of the Port of Umpqua against the Umpqua port commissioners to enjoin the proposed issuance of $250,000 of 6% port bonds.

Warren P. Reed, founder and promoter of Reedsport, and president of the port commission: J. R. Browne, Arthur Walker, W. F. Peck, Joseph R. Butler, commissioners; The Ralph Schneelock Bond Brokers, and the Power & Equipment company of Portland, are named as defendants.

One of the chief allegations is that the commission adopted an ordinance authorizing the issuance of bonds in the sum of $250,000, attaching an emergency clause to prevent a referendum. Meetings were held clandestinely and no opportunity was given for objection, the complaint alleges. It is asserted in the complaint that the town of Reedsport is dependent upon the lumber trade for its prosperity and that when the decline in lumber prices stopped the mills, W. P. Reed, president of the port commission, devised the plan of issuing bonds to keep work going at the port. It is also alleged that he planned the construction of a big suction dredge for filling up a swamp section of the city.

On May 28 the taxpayers filed a referendum on the proposed bond issue and an initiative petition for the repeal of the issue, and these are now pending.

The port commissioners refuse to submit the bonds to a vote of the people unless compelled to do so by court order.

Some of the people of the port district have objected to this attitude and recall petitions are being circulated to hold an election and vote upon the question of their recall.

The Ralph Schneelock company has refused to accept the bonds until the controversy is settled.

Already outstanding is a bond issue of $200,000. Reedsport is in default in payment of the semi-annual interest due May 1 on the $100,000 of waterworks bonds owned by the State of Oregon.

The City of Reedsport waterworks bonds were bought by State Treasurer Hoff in the latter part of October, 1919, from State industrial accident funds, paying $108,339 90 for them. They are part of the lot purchased from the bond house of Morris Bros., Inc., now bankrupt, and the City of Reedsport received only $92,300 for them. The profit made by the Portland bond house, of which John L. Etheridge was president, was $16,039 90. The bonds mature serially from Nov. 1 1929 to 1943.

The City of Reedsport has issued a considerable amount of City warrants which, it was expected, would be taken up soon after spring taxes were due, but owing to the fact that few Reedsport taxes have, as yet, been paid, there are no available funds with which to call in the warrants."

Texas.—*Amendments to State Constitution to be Voted on.*—At a special election to be held July 23 five constitutional amendments will be submitted for the approval of the voters of Texas. A special dispatch from Austin to the Dallas "News" dated June 17 gave the following succinct statement of each proposition:

"First, is that to abolish the offices of three Prison Commissioners, as now constituted, and permit the Legislature to prescribe the form of management, argument having been made that one head and one responsibility would be more efficient and more economical. If adopted, this amendment would permit the Legislature to provide for but one head.

Second, is the proposal to remove the present salary limits for certain State officers and permit the Legislature to increase the salaries up to new maximums, Governor from $4,000 up to $8,000; Treasurer, Comptroller and Land Commissioner from $2,500 to not exceeding $5,000 each; Attorney General, $4,000 up to $7,500; Secretary of State, $2,000 not to exceed $5,000. The Legislature is not obligated to appropriate the higher amounts, but is empowered to make the salaries at any amount not exceeding those stipulated.

Third, is the amendment to raise the State pension tax from 5c to 7c on each $100 of assessed valuation, so as to give the State pensioners slightly more money.

Fourth, is to reduce the mileage allowances of legislators from 20c. to 10c. per mile in traveling to and from sessions of the Legislature; also increasing their pay to not more than $10 per day for a session of 120 days and $5 per day thereafter during such session. At present the pay is $5 per day for sixty days and $2 thereafter. The Legislature is not compelled to make the maximum salary $10 per day, but can not exceed that.

Fifth, last and important to elections, is the proposition to permit only fully naturalized foreign citizens to vote in this State. At present foreigners may vote after making formal declaration of intention to become a citizen of the United States. It also proposes to permit husband and wife to pay the poll tax of the other and get receipt, regardless of where they reside. At this time all voters in cities of over 10,000 inhabitants must get their poll tax receipt in person. This amendment also would permit absentees voting in general elections, as is now allowed in primary elections. A person who expected to be absent from the State or otherwise away from his voting place at general elections could cast his ballot in advance if this amendment is adopted."

Vermont (State of).—*Railroad Bonds Considered Legal Investments for State and Savings Banks.*—Complying with Section 5363 of the General Laws as amended by the Legislature of 1919, the Bank Commissioner on Mar. 1 1921 issued a list of the railroad securities considered legal investments for State and savings banks. The list for May 1 1919 was printed in full in the "Chronicle" of Aug. 2 1919, page 500. The list for March 1 1921 we give herewith, indicating by means of an asterisk (*) the securities added since 1919.

The only bonds eliminated since the 1919 list was published are those which have matured and the Louisville & Nashville RR. general 6s, 1930, which have been retired.

MILWAUKEE, Wisc.—*NO BIDS RECEIVED.*—With regard to city of Milwaukee not receiving a bid for its $2,850,000 5½% 20-year serial tax-free coupon bonds on June 21—V. 112, p. 1663—the Milwaukee "Sentinel" of June 21 had the following to say:
"When the Board of Public Debt Commissioners met on Tuesday to open bids on $2,200,000 of sewerage system bonds, $300,000 of sewer bonds and $330,000 electric lighting bonds, all to bear 5½% interest, not a single bid had been submitted.
"Such an occurrence has been unknown in Milwaukee until recent years and has been very rare even in these years of high bond interest.
"The Commission will put out its next issue of bonds at 6% and will endeavor to negotiate the sale of the $2,850,000 offered without a bidder on Wednesday, by mixing them with the issue bearing the higher rate of interest. The issue will be for school, sewerage commission, grade crossing, park and vocational school purposes and will aggregate $2,950,000."

MINERVA, Stark County, Ohio.—*BOND SALE.*—The $8,229 36 6% street impt. bonds offered without success on June 10—V. 112, p. 2663—were sold at a private sale to the Minerva Banking Co.

MONTANA (State of)—*BOND OFFERING.*—Sealed proposals will be received by A. E. McFatridge, Clerk of the State Board of Examiners, (P. O. Helena) until 2 p. m. June 28 for $700,000 negotiable coupon bonds, being part of an authorized issue of $2,804,000. Series A and B bonds. Interest rate 5½%. Denom. $1,000. Date July 1 1921. Prin. and semi-ann. int. (J. & J.) payable at in gold the office of the State Treasurer. The bonds are to be registered as to principal in the owner's name on the books of the State Treasurer. Due July 1 1941, and each bond redeemable at the option of the State Board of Examiners on July 1 1931, or at any interest payment thereafter, upon a 30 day notice. No bids for less than par and accrued interest will be accepted. Each bid must be without conditon or qualification, except that any bidder may stipulate that no bonds save those awarded him shall be sold at the same time or within ninety (90) days thereafter, and must be accompanied by a certified check in a sum equal to 2% of the amount of the bond bid for, payable to the order of the State Treasurer. Bids may also be presented for any part or all of "Series A" or "Series B" of said educational bonds of the State of Montana in the total amount of $2,804,000.00. Delivery of and payment for the bonds may be made at the office of the State Treasurer at Helena, Mont., or at any financial center at the purchaser's option and the purchaser's expense. The validity of these bonds has been sustained in an action instituted in the Supreme Court of the State of Montana, and the approving opinion of Chester B. Masslich, attorney of New York City, as to the legality of the bonds will be furnished the purchaser without charge.

MONTICELLO, Jefferson County, Fla.—*BOND OFFERINGDE-FERRED.*—The offering of the $36,000 and $14,000 6% bonds—V. 112, p. 2336—has been postponed until July 14.

The City of Philadelphia, Trustee under the will of Stephen Girard, deceased, 512 Lafayette Bldg., Philadelphia, Pa	500,000	100 & int.

The "Philadelphia Record" of June 22 had the following to say regarding the sale:

"Bonds of the State's 5% Series C road construction issue to the amount of $8,805,000 were sold on June 21 when a number of bids were opened by the Governor, Auditor General and State Treasurer. Nearly all the bidders offered par and accrued interest, a syndicate of Philadelphia, Pittsburgh and New York bankers making that offer on condition that all other bids be rejected and the bonds not be put out until October. This syndicate also offered to market the remainder of the $50,000,000 road loan authorized in 1918 and its offer was accepted. The first payments will be made July 1, and all of the proceeds will be to meet costs of road construction. When the letter of the syndicate offering to market the remainder of the issue was presented the Governor asked how soon it could be done and was informed it would be as soon as practicable at par and interest. He then asked if the condition was that other and higher bids, as well as that of the Board of City Trusts, be rejected and was informed that was what was informed that was what was required, it being stated in reply to him that, owing to present market conditions, it was necessary to establish a price. Later in the day it was announced that the syndicate had withdrawn its stipulation relative to other bids and all bidders would receive the bonds for which they bid. The State sold its first issue of $12,000,000 at a premium, but the second issue of $11,800,000 was put out at par to a syndicate last year, and it is the plan to exchange them for bonds similar to those offered to-day. Representatives of numerous bond houses were here for the opening of the bids, which the Governor opened personally, J. Lord Rigby, Deputy Auditor General, acting as clerk, with Deputy Attorney General Emerson Collins representing the legal department."

The syndicate that purchased the $8,000,000 is now offering them to investors, in an advertisement which appears on a preceeding page of this issue, to yield 4.93%. These bonds are reported to be legal investments for Savings Banks and Trust Funds in Pennsylvania, New York, New Jersey, Massachusetts, Connecticut and other States. Negotiable interim certificates will be issued pending the engraving of definitive bonds.

PETERSBURG, Lincoln County, Tenn.—*BOND ELECTION.*—An election will be held about the middle of August to vote on the question of issuing $11,000 school bonds.

PETERSBURG, Dinwiddie County, Va.—*NOTE SALE.*—Reports say that Cassatt & Co., of Philadelphia, have purchased from the City of Petersburg $200,000 of its six months' notes.

PHELPS, Ontario County, N. Y.—*BOND SALE.*—The $8,000 6% 3⅓ yr. (aver.) paving bonds offered on June 20—V. 112, p. 2563—were sold to C. H. Garlock of Phelps, N. Y. for par and accrued interest plus a premium of $25, equal to 100.3125, a basis of about 5.90%. Date July 11921. Due yearly on July 1 as follows: $5,000 1922, and 1923; $2,000, 1924 to 1926, incl.

PHOENIX, Maricopa County, Ariz.—*BOND OFFERING.*—Bids will be received until July 27 for purchase of the following 6% bonds—V. 112, p. 2563—Denom. $1,000.

$175,000 Verde water system bonds.
100,000 Cave Creek water control bonds.
70,000 State Armory bonds.
60,000 Street paving bonds.
20,000 Police signal bonds.
40,000 City park bonds.
Frank Thomas Clerk.

PICKAWAY COUNTY (P. O. Circleville), Ohio.—*NO BIDS RECEIVED.*—No bids were received on June 20 for the $55,000 6% highway bonds offered on that date—V. 112, p. 2563.

PIEDMONT SCHOOL DISTRICT, San Bernardino County, Calif.—*BOND OFFERING.*—Harry L. Allison, Clerk Board of County Supervisors (P. O. San Bernardino), will receive bids until 10 a. m. July 5 for $19,000 6% bonds. Denom. $1,000. Date June 13 1921. Int. J. & D.

Due $1,000 yearly on June 13 from 1923 to 1941, incl. Cert. check or cash for $500 required. These bonds were voted on June 3 by 14 to 0. Bonded debt, none; assessed value, non-operative property, $391,515.

PIERCE COUNTY (P. O. Blackshear), Ga.—*BOND OFFERING.*—Sealed bids will be received until 10 a. m. July 8 by A. P. Davis, Clerk Board of County Commissioners, for $40,000 5% road bonds. Date Jan. 1 1920. Prin. and semi-ann. int. (J. & D.), payable in gold in New York. Due yearly on Jan. 1 as follows: $1,000 1930 to 1934, incl., $2,000 1935 to 1944, incl., and $3,000 1945 to 1949, incl. Cert. check on an incorporated bank or trust company for 2% of the amount of bonds bid for, payable to the above official required. Approving legal opinion of Chester B. Masslich, N. Y., will be furnished. Delivery at place of purchaser's choice on or about July 20 1921.

PINE COUNTY SCHOOL DISTRICT NO. 18, Minn.—*BOND SALE.*—This district sold an issue of $30,000 6% school bonds to the Kerrick State Bank of Kerrick.

PORTAGE, Minn.—*BOND SALE.*—On April 23 the Orr State Bank of Orr was awarded $6,000 6% road bonds at par. Denom. $1,000. Date Mar. 1 1921. Int. M. & S. Due $2,000 yearly on Mar. 1 from 1922 to 1924, incl.

PORTLAND, Cumberland County, Me.—*LOAN OFFERING.*—J. R. Gilmartin, City Treasurer, will receive bids until 12 m. June 27 for $200,000 notes dated July 1 and due Oct. 1 1921, at the First National Bank of Boston, Mass. Denoms. to suit purchaser. The notes will be ready for delivery Friday July 1 1921, at the First National Bank of Boston, and will be certified as to genuineness and validity by said bank under advice of Ropes, Gray, Boyden & Perkins, and all legal papers incident to the loan will be filed with said bank, where they may be inspected at any time.

PORTLAND, Ore.—*CORRECTION.*—The amount of fire apparatus bonds voted upon June 7 and defeated on that date by the voters was $200,000 (not $2,000,000 as stated in V. 112, p. 2665).

POWDER RIVER COUNTY SCHOOL DISTRICT NO. 76 (P. O. Broadus), Mont.—*BOND OFFERING.*—Until 7 p. m. June 27 bids will be received by Board of School Trustees for $1,350 funding bonds at not exceeding 6% interest. Int. semi-annually.

PRAIRIETON SCHOOL TOWNSHIP (P. O. Praireton), Vigo County, Ind.—*BOND OFFERING.*—William F. Farmer, Township Trustee, will receive bids until 1:30 p. m. July 6 for $27,000 6% coupon school bonds. Denom. $1,000. Date July 15 1921. Prin. and semi-ann. int. (J. & J.) payable at the McKeen National Bank, Terre Haute, Ind. Due $1,000 each six months from July 15 1922 to July 15 1935, incl.

PRESTON, Franklin County, Ida.—*BOND OFFERING.*—Until 7:30 p. m. June 30 John F. Daley, City Clerk, will receive bids for $32,000 municipal coupon funding bonds at not exceeding 6% interest. Denom. $1,000. No bids accepted for less than par and accrued interest.

PULASKI COUNTY (P. O. Winamac), Ind.—*BOND OFFERING.*—Cecil Bachtenkircher, County Treasurer, will receive bids until 3 p. m. June 27 for the following 6% highway construction and improvement bonds.
$17,000 Dillard Berryman et al, Harrison Township bonds. Denom. $850. Due $850 each six months from May 15 1922 to Nov. 15 1931, incl. Date Mar. 1 1921.
14,000 Gustave Selmer and Thomas Conway et al., Rich Grove Township bonds. Denom. $700. Due $700 each six months from May 15 1922 to Nov. 15 1931, incl. Date Mar. 1 1921.
10,900 A. W. Paine et al., Rich Grove Township bonds. Denom. $545. Due $545 each six months from May 15 1922 to Nov. 15 1931, incl. May 3 1921.
Int. M. & N.

QUEEN AMES COUNTY (P. O. Talliot), Md.—*BOND SALE.*—The $53,000 6% tax-free lateral road bonds offered on June 21—V. 112, p. 2564—were sold to the Mercantile Trust and Deposit Co. of Baltimore at 100.41, a basis of about 5.99%. Date July 1 1921. Due yearly on Jan. 1 as follows: $8,000, 1923 and $9,000, 1924 to 1928, incl.

RAMSEUR SCHOOL DISTRICT (P. O. Ramseur), Randolph County, No. Caro.—*BOND OFFERING.*—I. F. Craven, Secretary Board of Education, will receive bids at the Bank of Ramseur, Ramseur, until 3 p. m. June 30 for the purchase of $75,000 6% school bonds. Denom. $1,000. Date July 1 1921. Int. semi-ann., payable at the Hanover National Bank, N. Y. Due yearly as follows: $2,000 1926 to 1935, incl.; $3,000 1936 to 1945, incl., and $5,000 1946 to 1950, incl. Cert. check for $1,500 required.

REEDLEY JOINT UNION HIGH SCHOOL DISTRICT, Fresno County, Calif.—*BONDS NOT SOLD.*—Fred E. Main, Deputy County Clerk, informs us that no sale was made of $450,000 6% school bonds on May 27. The said official also informs us that the bonds are to be revoted upon to correct a technicality in the proceedings.

REEDSPORT, Douglas County, Ore.—*CORRECTION.*—W. Benson, City Recorder, advises us that the city of Reedsport did not sell all of its $50,000 6% water system bonds, as stated in V. 112, p. 2564—but only sold $40,000 of them to Jas. Lyons of Reedsport at 90. These bonds are in denom. of $500, dated June 1 1920 and mature from 1930 to 1943, incl. Int. payable J. & D.

REINBECK CONSOLIDATED INDEPENDENT SCHOOL DISTRICT (P. O. Reinbeck), Grundy, Tama and Blackhawk Counties, Iowa.—*BOND OFFERING.*—Sealed bids will be received by the Board of School Directors until 1 p. m. July 2 for $225,000 6% school building bonds. Denom. $1,000. Date June 1 1921. Int. semi-ann. payable at some place in Iowa, or in Chicago, Ill., or Minneapolis, Minn. Due June 1 1926. At said date the saeled bids will be publicly announced and the Board of Directors will then receive open bids. The Board of Directors agree to furnish printed bonds and the approving opinion of Attorneys Chapman, Cutler and Parker, and the bonds are to be sold with the understanding that the opinion of Attorneys Chapman, Cutler and Parker shall be accepted by the purchaser as conclusive upon the question of the legality of the issue.

RICHMOND, Wayne County, Ind.—*BOND SALE.*—On June 23 the $43,000 6% tax-free South Seventh Street sewer relief bonds dated June 1 1921—V. 112, p. 2665—were sold to Thos. D. Sheerin at par and accrued int. Due yearly on Dec. 1 as follows: $5,000, 1923 to 1930 incl., and $3,000 1931. Harris Trust & Savings Bank of Chicago also submitted a bid of par, but it was rejected because it contained a clause which could not be accepted by the city.

RICHMOND, Henrico County, Va.—*BOND SALE.*—On June 21 the following tax-free coupon (with privilege of registration) bonds—V. 112, p. 2564—were sold to Estabrook & Co., Hannahs, Ballin & Lee, Blodget & Co. and Curtis & Sanger, all of New York:
$500,000 4½% street and park road impt. bonds at 87.72 and interest, a basis of about 6.16%. Due July 1 1931.
*500,000 5% school bonds at 87.72 and interest, a basis of about 5.835%. Due July 1 1955.
Date July 1 1921. * These bonds, which were offered by the said firms subsequent to their purchase of same, to the investing public to yield 5¾%, have all been sold. The other issue is still being offered by them to investors to yield 5¾%.

ROCHESTER, N. Y.—*NOTE SALE.*—On June 17 an issue of $150,000 overdue tax notes offered on that date was awarded to the Genesee Valley Trust Co. of Rochester, N. Y. at 6% interest plus a $151 premium. Due in 8 months from June 21 1921.

ROCKY MOUNT GRADED SCHOOL DISTRICT (P. O. Rocky Mount), Edgecombe County, No. Caro.—*BOND SALE.*—On June 20 the $30,000 6% 1-30 year serial coupon (with privilege of registration) school bonds, dated July 1 1921—V. 112, p. 2338—were sold to the Rocky Mount Clearing House at par.

SALISBURY, Rowan County, No. Caro.—*BONDS OFFERED BY BANKERS.*—R. M. Grant & Co. of New York, Boston, St. Louis and Chicago, are offering to investors to yield from 6½% to 6% interest $200,000 6% tax-free gold coupon street improvement bonds.

SALINE TOWNSHIP RURAL SCHOOL DISTRICT (P. O. Hammondsville), Jefferson County, Ohio.—*BOND OFFERING.*—Elmer L. Ellicott, Clerk of the Board of Education, will receive bids until 6 p. m. July 14 for $30,000 6% coupon bonds. Date June 1 1921. Denom. $1,000. Prin. and int. payable at the Union Savings Bank and Trust Co. of Steubenville, Ohio. Due $2,000 on July 14 and $1,000 on Jan. 14 in each of the years from 1922 to 1931, incl. Cert. check for $300, payable to above clerk required. Purchaser to pay accrued interest.

Preparation and Certification

In connection with the issuance of Bonds and other obligations, this Company's plan for the preparation and certification of Municipal issues offers valuable safeguards against over-issue and forgery. Municipal officials are invited to investigate this service, which has been availed of by over 629 cities and towns in thirty-four States and the Territory of Hawaii, for bond issues aggregating $384,000,000.

New Booklet, "Municipal and Corporation Bonds," will be sent upon request

STATE AND CITY
SECTION
OF THE
COMMERCIAL & FINANCIAL CHRONICLE.

Copyrighted in 1921 according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington, D. C

Vol. 112. NEW YORK, JUNE 25 1921 No. 2922.

STATE AND CITY SECTION.

The State and City Section, issued semi-annually on the last Saturday of June and December, is furnished *without extra charge* to every annual subscriber of the **Commercial & Financial Chronicle.**

Terms for the **Chronicle**, including this and five other Sections, or Supplements, issued periodically and all furnished without extra charge to annual subscribers, are Ten Dollars per annum within the United States, $13.50 (which includes postage) in Europe and $11.50 in Canada.

WILLIAM B. DANA COMPANY, Publishers,
Front, Pine and Depeyster Streets,
P. O. Box 3, Wall Street Station. New York.

DATE OF ISSUE OF THIS PUBLICATION.

As explained in previous numbers, this periodical, owing to the great pressure for space, is now issued in two parts. The first part, comprising the New England and the Middle and the Central States (the latter embracing Ohio, Indiana, Illinois and Michigan) appears to-day. The second part, comprising the rest of the country, is published towards the close of the year, and will appear next December.

MUNICIPAL BOND SALES IN 1920.

In presenting again our customary annual analysis of the municipal bond sales, the figures this time covering the calendar year 1920, the features which stand out with greatest prominence are the magnitude of the sales and the increasing rates of interest at which the obligations were put out. The aggregate of the municipal bond disposals for the twelve months closely approaches the unprecedented total of the preceding year, the comparison being between $683,188,255 for 1920 and $691,518,914 for 1919. The maximum total previously recorded in any year had been the $498,557,993 for 1915—from which it is apparent that the emissions of this class of obligations for the latest two years ran roughly $200,000,000 per annum heavier than ever before known.

That the total for 1919 should have been exceptionally large was not surprising, seeing that it followed very small sales in 1918, the last year of the war, when, owing to the needs of the Federal Government, rigid limitations were put on the issuance of all classes of securities except those made on behalf of the Federal Government itself in its prosecution of the war. Under the provisions of the War Finance Corporation Act, which became a law on April 5, 1918, it may be recalled, a Capital Issues Committee was created, whose duty it was to determine whether any proposed new issues of securities in excess of $100,000 was "compatible with the national interests." No punitive powers were delegated to this committee and, as has many times been pointed out by us, none were really necessary, inasmuch as everyone was prepared from the first to render implicit obedience to the Committee's orders and decisions. In effect, there was a rationing of capital, in order that the financial requirements of the United States Government should not be interfered with any more than absolutely necessary. The matter is of importance now merely for the purpose of recalling that the municipal bond disposals in the year in question were abnormally small, and as indicating that there was hence occasion for the great expansion in the total which occurred in 1919 with the removal of the restrictions which had held down the new emissions in 1918.

The aggregate of the sales for the twelve months of 1918 reached only $296,520,458, notwithstanding that a very good demand had prevailed for obligations of this class because of their tax-exemption features. The total was the smallest of any year since 1907. After this diminutive total, the rise to the very exceptional aggregate of $691,518,914 in 1919 seemed natural, the conclusion appearing warranted that considerable amounts of new bond issues which could not be brought out in 1918, because of the restrictions then existing, had been crowded into 1919. Obviously, however, entirely different significance attaches to the continuance of these municipal bond disposals at the same high figures in 1920, leading to the conviction, as it does, that new bond flotations in the municipal bond field are for the time being running at much higher levels as a regular thing, and the conclusion is further fortified by the experience in the first half of 1921, during which new municipal bond issues have come in a perfect avalanche.

By reason of the fact that State and municipal bonds enjoy exemption from Federal income taxes of every description—not alone the normal income tax, but also the cumulative surtaxes—there is certain to be a greater or smaller demand for this class of obligations so long as Federal tax rates continue on their present burdensome scale. In 1920 these civic bond issues had the further advantage, at least as compared with the year preceding, that they no longer had to compete with the Federal Government in its own demands upon the investment markets. In 1920, as in 1919, the United States Treasury kept putting out new short-term issues of Treasury certificates of indebtedness (to retire maturing issue of these certificates or in anticipation of tax collections) but it put out no long-term obligations, whereas in 1919 it floated the Victory Liberty Loan for $4,500,000,000. Therefore, States and municipalities had the investment market to themselves in their new borrowings, those seeking these obliga-

tions being much the same as those who would bid for new obligations of the Federal Government.

On the other hand, taxes were eating up the profits of business, leaving little surplus income for investment, while at the same time the money market during 1920 was in a state of tension, with money and interest rates steadily rising. The Federal Reserve banks repeatedly advanced their discount rates during the year. All this operated to the detriment of municipal borrowers, obliging the latter to pay increasing rates for the accommodation they needed in the market. In offering, at the close of 1919, a new issue of tax certificates (dated January 2, 1920) the United States Treasury advanced the rate of interest from 4½ to 4¾%, and thereafter the rate in these certificates of indebtedness had to be repeatedly further raised, until in June 1920 the Government was paying 5¾% and 6% for this class of accommodation. And no material change in this situation occurred up to the end of the year, the two new series put out in December 1920 bearing respectively 5¾% in the case of the 6-months' issue and 6% in the case of the series maturing in one year. The effect of the high rates which the Federal Treasury had to pay for its short-term borrowings was to depreciate the market value of the different Liberty Loan and Victory Loan issues, and likewise municipal issues and other high-class obligations, thereby making municipal bond disposals on occasions by no means an easy matter.

Even though there was always more or less demand for municipal obligations, investors, in view of all these happenings, were demanding a higher rate of return, and therefore the municipalities in their appeals to the investment market had to take cognizance of the situation and offer a better income yield. The Liberty Loan and Victory Loan issues of the United States were generally at their lowest figures in May, 1920, which means that the rate of return to the investor was then at its maximum figure, but there was little recovery in the last half of the year and at least one issue of Liberty Loan bonds, namely the Third Liberty Loan, reached its lowest figure in December. The decline on most United States issues was ten points or more, the Fourth Liberty Loan, for instance, selling at 93 in January and at 82 in May, and the First 3½s at 100.40 in January and at 89.10 in July. Municipal and other high-class issues followed a closely similar course. Thus New York City 4½s of 1967 sold at the New York Stock Exchange at 100⅜ in January and down to 90 in August.

As an indication of the course of prices for the municipal bonds brought out during 1920, we may note that Philadelphia was able to place $3,000,000 50-year, 4¼ at 100.29 in January, but in December, in a new offering, had to make the rate of interest 5%, and at that interest rate disposed of $5,310,500 bonds at prices ranging from 100 to 103.7778. Cincinnati on January 30, 1920, disposed of $1,250,000 5% rapid transit bonds at 100.941, but on August 25 got no more than 100.662 on an offering of $2,580,000 8-year deficiency funding bonds, though the interest rate was now 6%. Detroit on January 19 obtained 101.05 for $100,000 4½% bridge improvement bonds, but on November 15, 1920, in disposing of $1,000,000 public utility bonds, had to make the interest rate 5½%, and obtained 103.17.

The distribution of the bond disposals of 1920 among the different geographical divisions of the country was in some particulars quite different from that in 1919 or in the years immediately preceding. In previous annual reviews of these bond sales we have had occasion to point out that the increase in the output of new civic obligations had been especially pronounced in the newer parts of the country, supporting the inference that the new issues represented outlays in the normal development of the cities and towns in those parts of the country. Even the contracted disposals of 1918 bore testimony to the same underlying tendency, since it appeared that the cutting down in the new capital applications by municipalities had been entirely in the older and more settled communities, where the needs of development and of civic improvement would be far less urgent than in the newer parts of the country. For 1920, however, the order of things has been reversed. In the newer sections a marked decrease is observable from the huge totals of 1919, while in the older parts of the country, where the additions had been relatively light in 1919, and where the annual totals had for a long series of years been running pretty even, with little or no tendency to expansion, there was in 1920 a tremendous leap forward. In other words, for the North Atlantic and North Central divisions combined the aggregate of new municipal bond issues for 1920 is found to have been $429,334,390, as against $317,663,537 for 1919, and $162,730,301 for 1918, though the comparison loses some of its significance when we note that prior to 1918 the yearly additions had for some time been running above $300,000,000. It is really the North Central Group of States that is mainly responsible for the 1920 expansion, the 1920 disposals for the North Atlantic Division falling well below the maximum of the previous highest totals, while contrariwise the aggregate for the North Central Group runs well above the very heaviest of the previous totals. As a matter of fact, prior to 1914 the new issues for the North Central Group had never reached $100,000,000, as against the $265,312,587 now recorded for 1920 and the $190,876,129 for 1919. For the rest of the country, outside these two grand divisions—that is, for the South Atlantic States, the South Central Division and the Pacific or Western Division—the new issues were only $253,853,865 for 1920, as against $373,855,377 for 1919, but comparing with only $133,790,157 for 1918.

A noticeable thing in recent compilations has been the way the bond issues of the States themselves, as distinguished from the municipalities and other civic units within their confines, have been increasing. Not so very long ago State bonds appeared likely to become extinct, so few were the new offerings. But in 1920 the States themselves put out $87,607,275 of new bonds ($57,327,000 of which were contributed by the North Atlantic Division and the North Central Division) as against $74,407,250 in 1919 and $38,687,000 in 1918. In the immediate future the totals are certain to run still higher, as numerous new issues are in prospect for the purpose of making bonus payments to soldiers and to provide means for the building of extensive systems of highways and for the carrying on of various other undertakings.

It has already been indicated that interest rates in the new bond issues, which as a matter of fact had

for many previous years been tending steadily upward, in 1920 rose still higher. To afford a graphic illustration of the course of interest rates in recent years, we insert here the following table to show the aggregate of the new bonds put out at the various rates of interest for 1901, 1906 and for 1919 and 1920. We exclude the New York City sinking fund takings, as these are nearly always low rate issues and furnish no criterion of market conditions.

COMPARATIVE INTEREST RATES, EXCLUDING NEW YORK CITY SINKING FUND TAKINGS.

	1920. $	P C of Total	1919. $	P C of Total	1906. $	P C of Total	1901. $	P C of Total
3 per cent..	----------	----	---------	----	5,257,456	2.77	19,971,249	14.25
3½ per cent	13,831,468	2.04	5,000	0.00	19,169,650	10.09	68,693,268	49.00

4¼ per cent	3,373,000	0.50	21,641,700	3.16	254,000	0.13	229,000	0.17
4½ per cent	66,725,866	9.86	130,661,230	19.11	14,598,010	7.68	5,214,978	3.72
5 per cent..	192,745,879	28.48	278,322,949	40.71	17,436,088	9.18	9,301,985	6.63
Higher than 5 per cent	332,701,740	49.15	149,596,507	21.88	7,146,959	3.76	2,758,797	1.97
Unknown & Unusual..	43,253,638	6.39	86,230,754	12.60	6,027,828	3.17	6,439,746	4.59
Total....	676,864,255	100.0	683,808,914	100.0	190,020,271	100.0	140,185,499	100.0

In 1901, it will be seen, out of a total of $140,185,499 bonds placed, $116,240,993, or 82.92% of the whole, consisted of 3s, 3½s and 4s, the 3½s forming much the larger part, they comprising $68,693,268, or nearly one-half of the year's disposals. In 1920, on the other hand, out of a total of $676,864,255 (this being minus the New York City sinking fund takings), no 3% issues were floated, only $13,831,468 of 3½s, only $24,232,664 even of 4s, while $592,173,485 of the year's sales, or 87.49%, were 4½s, 5s and higher rates. Indeed, nearly half of the new issues ($332,701,740, or 49.15%) carried interest rates *higher than* 5%.

In connection with the distribution of the sales among the different geographical divisions of the country another point worth noting is that with three or four exceptions the larger cities did not contribute very greatly to the year's expansion. New York City made no public offerings of bonds, though $6,324,000 of bonds were sold to the city's sinking funds. Nor did this city put out any issues of a permanent character in 1919 or 1918. On the other hand, the city made public offerings of $55,000,000 in both 1917 and 1916 and $71,000,000 in 1915 and $65,000,000 in 1914. Philadelphia put out $12,713,000 of new bonds in 1920, which compares with $10,000,000 in 1919, $12,500,000 in 1918 and $20,049,900 in 1917. Boston disposed of $2,073,500 in 1920, against $3,108,500 in 1919, $2,106,200 in 1918 and $4,215,500 in 1917.

A few of the Western cities, however, made quite substantial additions to their offerings. Cleveland placed bonds to an aggregate of $14,244,000 in 1920, against $11,218,000 in 1919, $2,702,000 in 1918, and $7,774,200 in 1917. Detroit placed $11,323,000, against $3,026,000 in 1919, $7,337,898 in 1918, and $1,597,000 in 1917. St. Louis broke its precedence of many years by issuing $1,040,000 bonds. Pittsburgh's record of sales stands at $6,366,000 for 1920, against $6,644,000 for 1919, $470,000 for 1918, and $264,000 for 1917.

To complete our analysis of the bond disposals of 1920 we furnish below a comparison of the new bond issues according to the purposes for which they were used or created:

Calendar Year.	1920. $	P C of Total	1919. $	P C of Total	1918. $	P C of Total	1917. $	P C of Total

After apportioning the amounts under the different heads, an aggregate remains of $126,354,675 for 1920, it will be seen, under the designation "Miscellaneous," and the amounts for other years are also large. In explanation it should be said that this item comprises mainly bonds issued for special purposes, like South Dakota's issue of $9,500,000 for rural credits; Philadelphia's issue of $4,160,500 for "port and transit purposes"; Maine's issue of $3,000,000 for soldiers' bonus; Rhode Island's $2,500,000, Connecticut's $2,500,000, Massachusetts's $2,500,000; also Minnesota's $7,500,000 issue of bonus certificates; Massachusetts's disposals of $7,868,000 for canals and subways; West Virginia's $13,500,000 of Debt Settlement bonds; and bonds for the improvement of levees, for irrigation, for the acquisition of street railways—purposes of not sufficiently common occurrence to warrant our providing an extra column for the same in our full-page compilation. A foot-note to the detailed table on the following page gives the leading items that go to make up the "Miscellaneous" column.

In conclusion, we will reiterate what we have said in previous years, namely, that our figures deal only with issues of a permanent character—such as, by their nature, constitute a real addition to the debts of the municipalities. We rigidly exclude floating debt obligations and everything of a temporary nature, and we are careful also to avoid duplication or the inclusion of loans that do not belong in the footings. As the best explanation of our reasons for excluding floating-debt obligations, we may refer to the case of this city, which during 1920 issued no less than $261,225,000 of temporary obligations in anticipation of taxes, and redeemed $230,820,500 of the same class of obligations, and also issued $199,799,443 of corporate stock notes (a new form of obligation since 1912), and retired $174,605,000.

In order that the reader may know what the grand aggregate of sales for the 12 months would be with all these various items included, we will say that the total in that event would be close to $1,500,000,000.

The actual municipal bond sales for the twelve months within the territorial limits of the United States were, we have seen, $683,188,255, the temporary loans reached $577,512,948, sales of permanent securities in Canada were $164,319,775; general fund bonds of New York City, $32,500,000; general fund bonds of Baltimore, $300,000; besides which the Territory of Hawaii sold $277,000 bonds, and the Philippine Islands $16,000,000 bonds, giving a grand total of $1,474,097,978. In the following we furnish a five-year tabular comparison of the various classes of new issues:

Full Cal. Year.	1920.	1919.	1918.	1917.	1916.
	$	$	$	$	$
Perm.l'ns(U.S.)	683,188,255	691,518,914	296,520,458	451,278,762	457,140,955
*Tempor. loans (U. S.).....	577,512,948	475,833,359	438,420,581	395,326,999	300,795,629
Canadian loans (permanent)	164,319,775	809,175,828	721,087,066	701,286,567	258,515,696
Bonds U. S. possessions..	16,277,000	11,700,000	800,000	2,715,000	6,450,000
Gen. fund b'ds (N. Y. C.).	32,500,000	28,500,000	27,000,000	25,000,000	23,500,000
Gen. fund b'ds (Baltimore).	300,000	300,000	300,000	300,000	300,000
Total all l'ns (12 months)	1,474,097,978	2,017,028,101	1,484,128,105	1,575,907,328	1,046,702,280

* Includes temporary securities (revenue bonds and corporate stock notes) issued by New York City, $497,417,343 in 1920, $375,050,900 in 1919, $361,050,464 in 1918, $303,851,400 in 1917, and $229,409,452 in 1916.

It will be noted that in recent years the amount of temporary loans negotiated has heavily increased. As a matter of fact, however, practically the entire difference is due to the increased temporary borrowing of New York City, which in 1920 placed $497,417,343 of temporary loans, against $375,050,900 in 1919, $361,050,463 98 in 1918, $303,851,400 in 1917, $229,409,452 in 1916, and but $154,658,878 in 1915.

A full-page tabular presentation of the sales of a permanent character within the limits of the United States for the late year appears on the following page. In giving this compilation, we are continuing a practice begun by us with the bond transactions of 1901.

ANALYSIS OF MUNICIPAL BOND SALES FOR CALENDAR YEAR 1920.

* Of the total of $14,831,000 issued as 3s and 3½s, $13,500,000 were put out as 3½s by the State of West Virginia in settlement of its share of the old Virginia West Virginia debt and $1,000,000 also as 3½s by the City of New York and purchased by its sinking fund.

NOTE.—In the column headed "Unknown and Unusual" the total of $43,253,638 is made up mostly of odd rates. For instance, New York's total of $861,631 includes issues floated at rates of interest such as 4.75%, 4.85% and 4⅛%. Practically all of Indiana's total were 4¾% issues, as were those of Michigan, Massachusetts and Pennsylvania. Of the $3,779,038 credited to Georgia $3,000,000 were issued by the State bearing 5.83%.

The column called "Miscellaneous" (as to purpose of issue) in the second table, amounting to $126,354,675, is made up mostly of bonds issued for purposes which we were unable to classify under our headings. For instance, the State of Massachusetts sold $7,868,000 for canals and subways and $2,500,000 soldiers' bonus bonds. Other States issuing soldiers' bonus bonds were Maine, $3,000,000; Rhode Island, $2,500,000; Connecticut, $2,500,000, and Minnesota, $7,500,000. Of Pennsylvania's total, $4,160,500 were issued by the City of Philadelphia for port and transit purposes and $4,800,000 by Allegheny County for tunnel purposes. West Virginia issued $13,500,000 debt settlement bonds; Cincinnati, Ohio, sold $2,850,000 rapid transit and $3,580,000 deficiency bonds; Detroit, Mich., $2,750,000 street railway bonds; St. Paul, Minn., sold $6,253,900 tax deficiency bonds; South Dakota, $9,500,000 for "Rural Credits." The Port of Portland, Ore., sold $3,000,000 harbor bonds. In California Sutter County Reclamation District placed $4,952,000 bonds; Los Angeles sold $2,400,000 harbor bonds, and Turlock Irrigation District disposed of $3,080,000 bonds.

United States Debt and the Congressional Acts Authorizing It.

In the following detailed statement of the debt of the United States, we give references to the laws authorizing each of the issues of bonds outstanding to-day. In 1917 the country entered upon an entirely new era in its debt history. In the prosecution of the war against the Imperial German Government, new obligations were issued on a scale of unparalleled magnitude. By the Act of April 4 1917 authority was conferred upon the Secretary of the Treasury to issue $5,000,000,000 long-term bonds at not to exceed 3½% interest ($3,000,000,000 of this being for the purpose of establishing credits in the United States for the foreign Governments enlisted in the war against Germany), and $2,000,000,000 certificates of indebtedness, the latter running for periods not exceeding one year. By the further Act of Sept. 24 1917, authority was conferred to issue $7,538,945,460 convertible 4% bonds to retire the $3,000,000,000 non-taxable 3½% issue authorized to cover loans to the Allies, and to provide for new Allied credits of $4,000,000,000, the remaining $538,945,460 to be used for converting certain outstanding bonds, including the Danish West Indies, Alaskan Railway, Panama Canal and naval construction issues. The bill also provided for the issuance of $2,000,000,000 *each* of one-year Treasury certificates of indebtness and five-year war savings certificates. The interest rate on the certificates the Secretary of the Treasury was left to fix. By the further Act of April 4 1918, amending the Act of Sept. 24 1917, authority was conferred to issue $12,000,000,000 of bonds at not exceeding 4¼% interest, the 12 billion dollars, however, to include the bonds issued under the Second Liberty Loan, and $3,638,945,460 being in lieu of corresponding amounts of unissued bonds authorized by previous Acts. Under the same Act the limit upon the amount of certificates of indebtedness that might be outstanding at any one time was raised from $4,000,000,000 to $8,000,000,000, and was further raised to $10,000,000,000 under the Act of March 3 1919. By the further Act of July 9 1918, amending previous Liberty bond enactments, the limit of the bond issue was raised to $20,000,000,000 at not exceeding 4¼%; but including bonds theretofore issued and increasing from $5,500,000,000 to $7,000,000,000 the additional loans or credits that might be extended to the Allies, making $10,000,000,000 altogether that may be loaned to the Allies. By the further Act of March 3 1919 (Victory Liberty Loan Act) amending previous Liberty Loan Acts and the War Finance Corporation Act, the Secretary of the Treasury was authorized to borrow an aggregate not exceeding $7,000,000,000 at such rate or rates of interest as he might prescribe, issuing therefor notes payable in not less than one year nor more than five years. By the Liberty Bond Exemption Bill of Sept. 24 1918, the total of War Savings Certificates that might be issued was raised from $2,000,000,000 to $4,000,000,000.

In June 1917 $2,000,000,000 of 3½% bonds were offered under the Act of April 24 1917. The subscriptions amounted to $3,036,226,850, but only $2,000,000,000 was accepted. In October 1917 an offering of $3,000,000,000 4s under the Act of Sept. 24 1917 was made. Subscriptions reached an aggregate of $4,617,532,300. In accordance with previous announcement, one-half of the over-subscription was accepted, making the total of bonds put out under this offer $3,807,865,000. In April 1918 $3,000,000,000 of 4¼% non-convertible bonds (Third Liberty Loan) were offered under the Act of April 4 1918. The subscriptions amounted to $4,176,516,850, all of which were accepted. In Sept.-Oct. 1918 $6,000,000,000 of 4¼% non-convertible bonds (Fourth Liberty Loan) were offered under the Act of July 9 1918. The subscriptions amounted to $6,964,524,650, all of which were accepted. In April-May 1919, $4,500,000,000 of convertible gold notes were issued in two series, the one bearing interest at 3¾%, the other at 4¾%. The subscriptions amounted to $5,249,908,300, but only $4,500,000,000 was accepted.

Note.—The Act authorizing the First Liberty Loan was given in the "Chronicle" of April 28, page 1649, with further particulars in the issue of May 12 1917, page 1849, and the text of the Treasury circular in the issue of May 19, page 1959; and of the Second Loan the full text of the bill as it became a law in the "Chronicle" of Sept. 29 1917, page 1252, and the text of the Treasury circular in the issue of Oct. 6, page 1355. The Act authorizing the Third Liberty Loan was presented in the "Chronicle" of April 6 1918, page 1404, and the text of the Treasury circular in the issue of April 13, page 1517. The Act authorizing the Fourth Liberty Loan appeared in the "Chronicle" of July 13 1918, page 131, the Treasury circular in the issue of Oct. 5, page 1328, and the text of the Liberty Bond Exemption Bill on Oct. 5, page 1327. The Act authorizing the Fifth (Victory) Liberty Loan was given in the "Chronicle" of March 8 1919, page 919, and the text of the Treasury Circular in the issue of April 26 1919, page 1670. Certificates of indebtedness have been issued from time to time under the Act of April 24 1917 and the amendatory Acts of Sept. 24 1917, April 4 1918, July 9 1918 and March 3 1919, always for short periods.

In the following we present a preliminary detailed statement of the debt of the United States as made up by the Treasurer at the close of business on May 31 1921, this being based on the daily Treasury statements, and, therefore, subject to revision in a minor way.

INTEREST-BEARING DEBT OUTSTANDING MAY 31 1921.

Victory Liberty Loan notes	Sept. 24 1917 as amended	*c*	Redeemable June 15 or Dec. 15 1922; payable May 20 1923	June, Dec.	4,495,374,000	473,257,445	*c* 4,022,116,555
Postal Savings bonds (1st to 18th series)	June 25 1910	2½%	*l* 1931-40	Jan., July	11,718,240	---	11,718,240
War Savings and Thrift stamps	Sept. 24 1917	*l* 4%	Payable Jan. 1 1923 to 1925	*l* At mat'y.	---	---	704,382,584
Aggregate of interest-bearing debt					---	---	23,713,843,159

* 4¾ to 6%. † 5½ to 6%. *a* Of this total, about $1,410,030,000 at 3½%; $26,144,450 at 4%; $512,617,700 at 4¼%; and $3,692,150 2d converted 4¼%. *b* Of this total about $104,000,000 at 4%, balance at 4¼%. *c* About $675,000,000 at 3¾% and the remainder at 4¾%. *l* Payable at dates mentioned. For date of redemption see below under "Postal Savings Bonds." *l* Thrift Stamps do not bear interest.

The Government debt on May 31 1921 was made up of (1) interest-bearing debt, $23,713,843,159.40; of (2) debt on which interest has ceased, $8,638,220.26; of (3) debt bearing no interest, $230,260,212.77; making total *gross debt* $23,952,741,592.43; subtracting from the total the net balance in the general fund of the Treasury ($244,565,951.59) at the same date (May 31 1921), the net debt at that time is seen to have been $23,708,175,640.84.

CERTIFICATES OF INDEBTEDNESS UNDER ACT OF SEPT. 24 1917, APR. 4 1918, APR. 23 1918, MAR 3 1919.—(Column 7.)—Sec. 6 of Act of Sept. 24 1917 provides for the issuance of certificates of indebtedness at not less than par and at such rates of interest as the Secretary of the Treasury may prescribe for the purposes of the Act and to meet public expenditures authorized by law, each certificate so issued payable at such time not exceeding one year from the date of its issue, and redeemable before maturity upon such terms and conditions, and the interest accruing thereon payable at such time or times as the Secretary of the Treasury may prescribe. The sum of such certificates outstanding was not at any one time to exceed in the aggregate $4,000,000,000. but this was increased under the Act of April 4 1918 to $8,000,000,000 and further increased to $10,000,000,000 under the Act of March 3 1919. Under the authority thus granted the Secretary has issued varying amounts of these certificates from time to time, through the Federal Reserve banks, all for short periods, the rate of interest being at first fixed at 4%, then raised to 4¼%, to 4½, to 4¾, to 5, to 5¼, to 5½, to 5¾, and finally to 6%. There were outstanding May 31 1921 $2,831,948,450 at various rates of interest. In June 1921 the Secretary of the Treasury in offering a new series of Treasury Certificates of Indebtedness, bearing 5½% interest, and running one year, also offered a series of 5¾% 3-year notes, not subject to prior redemption and carrying no exemption from surtaxes, excess profits and war profits taxes, and allotted $311,191,000 of the notes and $314,184,000 of the certificates.

LOANS TO BE REPLACED BY LIBERTY LOAN.—Under the Act of April 24 1917, authorizing the First Liberty Loan bonds, and again under the Act of Sept. 24 1917, authorizing the Second Liberty Loan, as well as under the Third Liberty Loan, all referred to below, the Secretary of the Treasury is authorized to issue Liberty Loan bonds to replace, at his discretion, bonds not already emitted under the following: Act of Aug. 5 1909, Section 39, Panama Canal Loan (Column 9), referred toabove: Act of June 3 1916, Section 124, an Act for making further and more effectual provision for the national defense and other purposes, and providing for the expenditure of not more than $20,000,000 for a Government nitrate manufacturing plant; Act of Sept. 7 1916, Section 13, an Act to establish a United States Shipping Board for the purpose of encouraging, developing and creating a naval auxiliary and a naval reserve and a merchant marine to meet the requirements of the commerce of the United States with its territories and possessions, and with foreign countries, to regulate carriers by water engaged in the foreign and inter-State commerce of the United States, and for other purposes; Act of March 3 1917, Section 400, "An Act to provide increased revenue to defray the expenses of the increased appropriations for the Army and Navy, and the extension of fortifications, and for other purposes." (See certificates of indebtedness above), and the Public Resolution of March 4 1917, entitled: "Joint resolution to expedite the delivery of materials, equipment and munitions and to secure more expeditious construction of ships."

LIBERTY LOAN OF 1917, FIRST.—(Column 1.) Authorized by Act of April 24 1917, entitled "An Act to authorize an issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend credit to foreign governments, and for other purposes." Under the Act the Secretary was empowered to borrow, with the approval of the President, up to $5,000,000,000, exclusive of the sums authorized by Section 4 of the Act (see Loans to be Replaced by Liberty Loan above) to meet expenditures authorized for the national security and defense and other public purposes authorized by law and to issue therefor bonds of the United States. The bonds out bear 3½% interest and are payable in United States gold coin of the present standard of value, and exempt both as to principal and interest, from all taxation, except estate or inheritance taxes, imposed by authority of the United States or its possessions or by any State or local taxing authority. The bonds do not bear the circulation privilege. Provision was made by Section 2 of the Act for the establishing of credits to and the purchasing of obligations of foreign governments, $3,000,000,000, or so much thereof as might be necesaary being appropriated for the purpose. Under Section 3 it was provided that payments to the United States on or before maturity by foreign governments for obligations incurred by them under Section 2 must be applied to the redemption or purchase at not more than par and accrued interest of any bonds of the United States issued under authority of the Act; and if such bonds are not available for this purpose the Secretary of the Treasury shall redeem or purchase any other outstanding interest-bearing obligations of the United States which may at such time be subject to call or which may be purchased at not more than par and accrued interest.

Section 5 provides that any series of bonds issued under authority of the Act may be convertible into bonds bearing a higher rate of interest than the rate at which the same were issued if any subsequent series of bonds shall be issued at a higher rate of interest before the termination of the war, the date of such termination to be fixed by a proclamation of the President of the United States.

Under the Act $2,000,000,000 gold bonds, running 15-30 years and bearing 3½ interest payable semi-annually June 15 and Dec. 15 were offered for subscription, denominations of coupon bonds being $50, $100, $500 and $1,000, and registered bonds $100, $500, $1,000, $5,000 $10,000, $50,000 and $100,000. Subscriptions were received from over 4,000,000 individual subscribers and aggregated $3,036,226,850. In scaling down the allotments to the total offered, all subscriptions up to and including $10,000 were awarded in full, but on larger amounts the allotments ranged from 60% down to 20.17%. The total of bonds issued was $1,989,455,550, but only about $1,410,000,000 remained outstanding May 31 1921 as 3½s with full tax exemption; in addition, some $26,144,450 appear as First Liberty Loan Convertible 4s and $512,617,700, as converted 4¼s and $3,492,150 Second Converted 4¼s.

LIBERTY LOAN OF 1917, SECOND.—(Column 2.)—Authorized by Act of Sept. 24 1917, entitled "An Act to authorize an additional issue of bonds to meet expenditures for the national security and defense, and for the purpose of assisting in the prosecution of the war, to extend additional credit to foreign governments, and for other purposes."

The Act in its general outlines is similar to that of April 24 1917, but authorizes the issuance of not exceeding $7,538,945,460 bonds, bearing not exceeding 4% interest, in addition to the $2,000,000,000 bonds issued under authority of the Act of April 24 1917. *Provided*, That of this sum $3,063,945,460 shall be in lieu of that amount of the unissued bonds authorized by Sections 1 and 4 of the Act approved April 24 1917, $225,000,000 shall be in lieu of that amount of the unissued bonds authorized by Section 39 of the Act, approved Aug. 5 1909, $150,000,000 shall be in lieu of the unissued bonds authorized by the joint resolution approved March 4 1917, and $100,000,000 shall be in lieu of the unissued bonds authorized by Section 400 of the Act, approved March 3 1917.

Section 2 provides for the appropriation out of any money in the Treasury not otherwise appropriated, of the sum of $4,000,000,000, and in addition thereto the unexpended balance of the appropriations made by Section 2 (the section that authorizes loans to the Allies) of the Act approved April 24 1917 and under the same conditions.

Section 4 provides for the convertibility of the bonds into any issue thereafter bearing a higher rate of interest. Under Section 7 it is provided that none of the bonds shall bear the circulation privilege. The bonds are exempt, both as to principal and interest from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. The interest on an amount of such bonds and certificates the principal of which does not exceed in the aggregate $5,000, owned by any individual, partnership, association, or corporation, is exempt from the taxes provided for in subdivision (b) of this section.

Section 11, which relates to the conversion privilege of the *first* issue of Liberty Loan Bonds, states that no bonds shall be issued under authority of Sections 1 and 4 of said Act approved April 24 1917, in addition to the $2,000,000,000 already issued or offered for subscription.

Under authority of the Act, the Secretary of the Treasury offered for subscription on Oct. 1 an issue of $3,000,000,000 or more of 4% 10-25-Year bonds of the same denominations as the first Liberty Loan, reserving the right to allot bonds in excess of $3,000,000,000 to the extent of not over one-half of the sum by which the subscriptions received exceeded $3,000,000,000. Subscriptions totaled $4,617,532,300, or $1,617,532,300 more than the minimum sought, and on the basis of 50% of the oversubscriptions, the amount issued was $3,807,865,000; all those up to $50,000 were allotted in full. Total number of subscribers was approximately 9,400,000. On May 31 1921 only about $104,000,000 remained outstanding as 4s; in addition, some $3,213,847,700 appear as Second Liberty Loan converted 4¼s.

With the issue of the Second Liberty 4s, dated Nov. 15 1917, a conversion privilege arose with respect to the First Liberty 3½s which continued until May 15 1918. The bonds issued upon conversion retained the date of maturity, the terms of redemption, and the dates of interest payment of the 3½s, but otherwise had the terms of the Second Liberty 4s. When the Third Liberty 4¼s were issued on May 9 1918, the holders of the unconverted First Liberty 3½s had the privilege of conversion into the new 4¼s and so did the holders of First Liberty converted 4s and of Second Liberty 4s. The privilege continued for six months or until Nov. 9 1918. The Third Liberty 4¼s are non-convertible, and hence the 4¼% bonds issued upon conversion of prior issues likewise are non-convertible. With the issuance of the Fourth Liberty Loan on Oct. 24 1918, a new privilege of exchange accrued to the holders of the unconverted First Liberty 3½s; this privilege remained open until April 24 1919. By Sec. 5 of the Victory Liberty Loan Act of March 3 1919, authority was conferred upon the Secretary of the Treasury to extend the privilege of converting the 4% bonds of 1932-47 of the First Liberty Loan converted and the 4% bonds of 1927-42 of the Second Liberty Loan into 4¼% bonds. Accordingly, by circular dated Mar. 7 1919, and published in the "Chronicle" of March 15 1919, page 1021, the Secretary offered a new privilege of conversion. This privilege to be terminated at any time upon six months public notice. The privilege does not apply to the unconverted 3½s of the First Liberty Loan.

LIBERTY LOAN OF 1918, THIRD (Column 3).—Authorized by Act of April 4 1918, amending the Act of Sept. 24 1917. Following the general lines of the Act which it amends, it authorizes the issuance of not exceeding $12,000,000,000 bonds, bearing not exceeding 4¼% interest, in addition to the $2,000,000,000 issued under authority of the Act of April 24 1917, but including the bonds outstanding under the Second Liberty Loan and the $3,063,945,460 reserved for unissued bonds of earlier Acts. Section 2 increased the *additional* loans or credits that may be extended to the Allies from $4,000,000,000 to $5,500,000,000.

Section 3 provides that holders of bonds bearing interest at a higher rate than four per centum per annum, whether issued under Section 1 or upon conversion of three and one half per centum bonds issued under the Act approved April 24 1917, or upon conversion of four per centum bonds issued upon conversion of such three and one half per centum bonds, shall not be entitled to any privilege of conversion under or pursuant to this section or otherwise. Under Section 7 it is provided that none of the bonds shall bear the circulation privilege. The bonds are non-convertible and not subject to redemption before maturity, but are exempt from taxation as indicated above under Second Liberty Loan and receivable for Federal inheritance taxes.

Under authority of the Act, the Secretary of the Treasury offered for subscription on April 6 1918 $3,000,000,000 4¼% 10-year gold bonds with coupon bonds for $5,000 and $10,000 and registered bonds for $50 in addition to the same denominations as the First Liberty Loan, reserving the right to allot additional bonds to the extent of full amount of any oversubscripion. Subscriptions totaled $4,176,5.6,850, or $1,176,516,850 more than the minimum sought, and all were allotted. Total number of subscribers was 18,376,815. Outstanding May 31 1921. $3,643,848,200.

LIBERTY LOAN OF 1918, FOURTH (Column 4).—Authorized by Act of July 9 1918, amending previous Liberty Loan enactments. Section 1 increases from $12,000,000,000 to $20,000,000,000 the total of bonds bearing not exceeding 4¼% interest that may be issued under the various Acts. Section 2 increases the loans or credits that may be extended to the Allies from $5,500,000,000 to $7,000,000,000, in addition to the $3,000,000,000 authorized under the First Liberty Loan Act. Section 3 provides that, with the approval of the Secretary of the Treasury, bonds, while beneficially owned by a non-resident alien individual, or by a foreign corporation, partnership or association, not engaged in business in the United States, shall be exempt both as to principal and interest from any and all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority.

Under authority of the Act, the Secretary of the Treasury offered for subscription on Sept. 28 $6,000,000,000 4¼% 10-year gold bonds of the same denomination as those of the Third Loan, reserving the right to allot additional bonds to the extent of full amount of any oversubscription. Subscriptions totaled $6,964,524,650, or $964,524,650 more than the minimum sought, and all were allotted. Total number of subscribers was approximately 21,000,000. The bonds are not available for bank note circulation.

Supplementary to the passage of the above authorizing Act, there was passed and signed by the President on Sept. 24 a bill designed to stimulate sales of Liberty Bonds by exempting from the supertaxes and from war excess profits taxes interest on a certain amount of Liberty bond holdings. The principal provisions of the bill are:

(1) The interest on an amount of bonds of the Fourth Liberty Loan, the principal of which does not exceed $30,000, owned by any individual, partnership, association, or corporation, shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war-profits taxes, now or hereafter imposed, upon the income or profits of individuals, partnerships, associations, or corporations;

(2) The interest received after Jan. 1 1918 on an amount of bonds of the First Liberty Loan converted, dated either Nov. 15 1917 or May 9 1918, the Second Liberty Loan, converted and unconverted, and the Third Liberty Loan, the principal of which does not exceed $45,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from such taxes: *Provided, however*, That no owner of such bonds shall be entitled to such exemption in respect to the interest on an aggregate amount of such bonds exceeding 1½ times the principal amount of bonds of the Fourth Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax return; and

(3) The interest on an amount of bonds, the principal of which does not exceed $30,000, owned by any individual, partnership, association, or corporation, issued upon conversion of 3½% bonds of the First Liberty Loan in the exercise of any privilege arising as a consequence of the issue of bonds of the Fourth Liberty Loan, shall be exempt from such taxes.

The exemptions provided in this section shall be in addition to the exemption provided in Section 7 of the Second Liberty Bond Act in respect to the interest on an amount of bonds and certificates, authorized by such Act and amendments thereto, the principal of which does not exceed in the aggregate $5,000, and in addition to all other exemptions provided in the Second Liberty Bond Act.

Sec 2. That Section 6 of the Second Liberty Bond Act is hereby amended by striking out the figures "$2,000,000,000," and inserting in lieu thereof the figures "$4,000,000,000." Such section is further amended by striking out the words "The amount of war savings certificates sold to any one person at any one time shall not exceed $100, and it shall not be lawful for any one person at any one time to hold war savings certificates to an aggregate amount exceeding $1,000," and inserting in lieu thereof the words "It shall not be lawful for any one person at any one time to hold war savings certificates of any one series to an aggregate amount exceeding $1,000."

Amount of Fourth Liberty Loan bonds now outstanding May 31 1921, $6,357,692,050. bearing 4¼% interest.

FIFTH OR VICTORY LIBERTY LOAN OF 1919 (Column 5).—Authorized by Act of March 3 1919, amending previous Liberty Loan enactments and the War Finance Corporation Act. Under the Act the Second Liberty Bond Act is amended by adding thereto a new section [18] which provides (a) for the issuing of notes to an amount not exceeding $7,000,000, 00 in the aggregate, at such rates of interest as the Secretary of the Treasury may prescribe and payable at such time not less than one year nor more than five years as he may prescribe, redeemable before maturity at the option of the United States; (*b*) the notes to be issued in one or more series as follows: "(1) Exempt, both as to principal and interest, from all taxation (except estate or inheritance taxes) now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority. (2 and 3) Exempt, both as to principal and and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes commonly known as surtaxes and excess profits and war profits taxes now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations, or corporations, except that the interest on an amount of such notes the principal of which does not exceed $30,000 so owned, is exempted. Or, (4) Exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) all income, excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations."

Holders have the option of converting their holdings of notes of any series into any other series of same date of issue at par. The notes do not bear the circulating privilege. Under authority of the Act the Secretary of the Treasury on April 21 invited subscriptions for $4,500,000,000 convertible gold notes bearing 3¾% or 4¼% of the same denominations as those of the Fourth Liberty Loan. The notes bearing 3¾% to enjoy exemption as per (1) above and 2, 3 & 4 to apply to the 4¼s. The Secretary announced that allotments would be restricted to the $4,500,000,000 offered, but that applications not in excess of $10,000 would be allotted in full. Subscriptions aggregated $5,249,908,300, or $749,908,300 in excess of the offering. Total number of subscribers was approximately 12,000,0 0. The receipts by the Treasury up to May 31 1921 on account of the principal of the Victory notes was $4,495,374,000. Notes outstanding May 31 1921, $4,022,116,555, of which about $675,000,000 at 3½%. In June 1921 the Secretary made a combined offer of 5¾% 3-year notes (exempt from the normal income tax, but not from the surtaxes, the excess profits and the war profits taxes), the notes not being subject to prior redemption, and 5½% one-year Treasury Certificates of Indebtedness, and allotted $311,-191,000 of the former and $314,184,000 of the latter.

The Victory Liberty Loan Act, in addition to providing for the issuance of the $4,500,000,000 notes as above, covered the following changes in the exemption and conversion privileges contained in preceding Acts:

Sec. 2. (a) That until the expiration of five years after the date of the termination of the war between the United States and the German Government, as fixed by proclamation of the President, in addition to the exemptions provided in Section 7 of the Second Liberty Bond Act in respect to the interest on an amount of bonds and certificates, authorized by such Act and amendments thereto, the principal of which does not exceed in the aggregate $5,000, and in addition to all other exemptions provided in the Second Liberty Bond Act or the supplement to Second Liberty Bond Act, the interest received on and after Jan. 1 1919 on an amount of bonds of the First Liberty Loan Converted, dated Nov. 15 1917, May 9 1918 or Oct. 24 1918, the Second Liberty Loan, converted and unconverted, the Third Liberty Loan, and the Fourth Liberty Loan, the principal of which does not exceed $30,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from graduated additional

Note.—Reference to the statutes governing older issues of bonds and of War Savings and Thrift Stamps will be found in the issue of the "State and City" Section for December 21 1918.

income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations.

(b) In addition to the exemption provided in subdivision (a), and in addition to the other exemptions therein referred to, the interest received on and after Jan. 1 1919 on an amount of the bonds therein specified the principal of which does not exceed $20,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes therein specified: *Provided*, That no owner of such bonds shall be entitled to such exemption in respect to the interest on an aggregate principal amount of such bonds exceeding three times the principal amount of notes of the Victory Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax return.

In April 1895 we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year On this occasion we begin our statement with 1878, as that year antedates all of the issues now outstanding. The statement is subjoined.

Note 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, and is exclusive of interest charge on Pacific Railway bonds, but is incorrectly swelled to a small extent by interest on Thrift Stamps which are not separately stated.

Note 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

**Note* 3.—Under the Act of March 14 1900 the Treasury Department has kept the gold reserve fund as a separate item, and not included it in the available cash balance. In the above statement, however, we have continued to include the item so as not to embarrass comparison with previous years.

a Under the new form of statement issued by the Treasury Department the gold reserve ($152,979,025 63 May 31 1921) is deducted from the total of United States notes outstanding, decreasing to that extent the debt bearing no interest and consequently making a similar reduction in the balance of cash available to pay maturing obligations

b Deficit added. *i* Continued at 3½%. *f* Continued at 3%. ‡ Approximate.

LEGISLATURE meets biennially in odd years on the first Wednesday in January, and there is no limit to length of sessions.
* Is chosen by Legislature.

HISTORY OF DEBT.—For history of Maine State debt up to 1889, see "State and City Supplement" of April 1895, page 9.

At present the debt stands as follows:

LOANS— Name and Purpose.				Interest— Rate.	Payable.	Outstanding— When Due.	Principal
Maine Insane Hospital						1947	a50,000
University of Maine						1947	b100,000
University of Maine						----	118,300
Loan of 1869, not presented for payment							500
Highway bonds, 1913			c	4	M-S	Sept 1 '21-'53	247,500
Do	do	1914	c	4	J-J	July 1 '22-'54	379,500
Do	do	1915	c	4g	A-O	Apr 1 '22-'33	300,000
						Apr 1 '34-'35	100,000
Do	do	1916	c	4g	M-S	Mar 1 '22-'33	300,000
						Mar 1 '34-'36	45,000
Do	do	1917	c	4g	----	May 1 '37-'46	200,000
War Loan 1917				4		1937	500,000
War loan, 1918			c	4g	J-D	Dec 1 '23-'32	*500,000
State Highway 1920				5g	A-O	Apr 1'30-'54	$2,500,000
State Bridge 1920				5g	A-O	Apr 1 '22-'30	450,000
Soldiers' Bonus 1920				5½g	J-D	Dec 1 '21-'30	3,000,000

*Subject to call at 103 and int. on Dec. 1 1923 or any int. period thereafter.
a Under Chapter 89, Public Laws 1917, this bond was renewed for 30 years.
b Under Chapter 47, Resolves of 1917, this bond was renewed for 30 yrs.

INTEREST is payable at the State Treasury, Augusta, Me.

TOTAL DEBT.—The subjoined statement shows Maine's total funded debt on each of the dates named

	Jan. 1 1921.	*Jan.* 1 1920.	*Jan.* 1 1919.	*Jan.* 1 1918.
Bonded debt	$8,902,300	$3,189,800	$3,268,800	$2,629,300

On Jan. 1 1921 the assets of the State were as follows: Cash on hand, $4,992,761 58; securities, &c., $747,194 05. The total liabilities of the State on Jan. 1 1921, including bonded debt, were $14,858,121 70.

ASSESSED VALUATION.—Valuations are taken only in even years.

Years.	Assessed Valuation— Real.	Personal.	Total.	State tax per $1,000
1918	$451,910,817	$125,531,712	$577,442,529	$7.50
1916	418,442,815	102,960,118	521,402,933	5.00
1914	401,279,430	97,208,419	498,487,849	4.50
1912	388,551,157	89,640,887	478,192,044	4.00
1910	366,132,326	85,647,793	451,780,119	5.00
1908	345,572,709	82,679,756	428,252,465	3.00
1906	316,053,787	78,679,203	394,732,990	2.50
1904	292,464,911	74,049,103	366,514,014	2.75

Years—	*Total Valu'n.*	*Tax rate.*	*Years*—	*Total Valu'n.*	*Tax rate.*
1902	$352,228,897	$2.75	1860	$164,714,168	$1.25
1900	336,699,649	2.75	1850	100,157,573	2.00
1890	309,096,041	2.25	1840	69,246,288	2.90
1880	235,978,716	5.00	1830	28,807,687	1.90
1870	224,812,900	6.00	1820	20,962,77£	----

POPULATION OF STATE.—According to United States Census.

1920	768,014	1880	648,936	1840	501,793	1810	228,075
1910	742,371	1870	626,915	1830	399,455	1800	151,719
1900	694,466	1860	628,279	1820	298,335	1790	96,540
1890	661,086	1850	583,169				

DEBT LIMITATIONS.—STATE.—The debt of the State is now limited by Secs. 14 and 17, Article 9, of the State constitution. Sec. 17 was added and Section 14 amended in Sept. 1912. V. 95, p. 766. Further amendments to Sections 14 and 17 were made in Sept. 1919 and to Section 14 in Sept. 1920. See "Chronicle" of Jan. 15 1921, page 281.

At a special session in Nov. 1919 the Legislature passed a resolution proposing to amend Article 9 of the Constitution by adding to Section 14 after word "war" the words "to provide for the payment of a bonus to Maine soldiers and sailors in the war with Germany," and adding a new section No. 19, to Article 9 which would provide for a bond issue of $3,000,000 to pay the bonus. The voters approved this amendment Sept. 13 1920.

Sections 14, 17 and 19 now read as follows:

SECTION 14. The credit of the State shall not be directly or indirectly loaned in any case. The Legislature shall not create any debt or debts, liability or liabilities, on behalf of the State, which shall singly or in the aggregate, with previous debts and liabilities hereafter incurred, at any one time exceed $800,000 except for the purposes of building State highways, intra-State, inter-State and international bridges, to suppress insurrection, to repel invasion, or for purposes of war; to provide for the payment of a bonus to Maine soldiers and sailors in the war with Germany; or for the purposes of building and maintaining public wharves and for the establishment of adequate port facilities in the State of Maine; but this amendment shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States, or to any fund which the State shall hold in trust for any Indian tribe.

SECTION 17. The Legislature may authorize the issuing of bonds not exceeding ten million dollars in amount at any one time, payable within forty-one years, at a rate of interest not exceeding five per centum per annum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building of State highways, and intra-State, inter-State and international bridges; provided, however, that bonds issued and outstanding under the authority of this section shall never, in the aggregate, exceed ten million dollars; the expenditure of said money to be divided equitably among the several counties of the State.

Sec. 19. The Legislature may authorize the issuing of bonds not to exceed the amount of three million dollars, payable within ten years, which bonds or their proceeds shall be devoted exclusively to paying a bonus to Maine soldiers and sailors in the war with Germany.

MUNICIPAL.—At an election held Sept. 11, 1911 the voters adopted an amendment to Article XXII. of the constitution increasing the debt limit of cities of 40,000 or more (which concerns Portland alone) from 5% to 7½% of the assessed valuation. We print Article XXII. below, italicizing the part added and placing in brackets the words eliminated.

Article XXII. Limitation of Municipal Indebtedness. No city or town *having less than forty thousand inhabitants, according to the last Census taken by the United States,* shall *hereafter* create any debt or liability which singly or in the aggregate, with previous debts or liabilities, shall exceed five per centum of the last regular valuation of said city or town, *provided, however, that cities having a population of forty thousand or more, according to the last Census taken by the United States, may create a debt or liability which, singly or in the aggregate, with previous debts or liabilities, shall equal seven and one-half per centum of the last regular valuation of said city, that cities of forty thousand inhabitants or over may, by a vote of their city government, increase the present rate of five per centum by one-fourth of one per centum in any one municipal year, until, in not less than ten years, the maximum rate of seven and one-half per centum is reached, that any city failing to take the increase in any one municipal year, then the increase for that year is lost and no increase can be made until the next year, as provided above: and provided, further,* that the adoption of this Article shall not be construed as applying to any fund received in trust by the said city or town, nor to any loan for the purpose of renewing existing loans or for war or to temporary loans to be paid out of money raised by taxes during the year in which they *were* [are] made.

EXEMPT FROM TAXATION.—The Legislature of 1909 approved an Act exempting from taxation all bonds issued after Feb. 1 1909 by the State or any county municipality, village, corporation or water district therein. Banks and trust companies holding such securities are allowed to deduct the same from the assessment of their shares. By Chapter 221 of the laws of 1919 the exemption was extended so as to make it apply to "notes and other obligations," as well as bonds, and so as to cover light and power districts as well as water districts. See V. 108, p. 2257, for amended Act in full. At a special session in Nov. 1919 the Legislature further extended the exemption so as to make it apply to sewerage district bonds.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in the State of Maine are contained in Sections 27 to 35, inclusive, of Chapter 52 of the Revised Statutes of 1916. At the 1917 session several amendments were adopted by the Legislature. Section 1, paragraph "a" was changed so as to provide for the investment in bonds issued by Federal farm loan banks. Paragraph "b" of sub-division 3 was amended to allow investments in underlying mortgage bonds, other than first mortgage bonds, and consolidated and refunding mortgage bonds of any completed railroads organized under the laws of any State of the United States. Paragraph "c" of sub-division 3 of the old law was stricken out and in place thereof a new paragraph added, prescribing the conditions under which investments provided for in paragraph "b" can be made. The word "street," formerly contained in paragraph "e," has been eliminated and the word "electric" inserted. The provisions of paragraph "f" relating to investments in [street] electric railroad bonds were completely changed. Two new paragraphs were added to sub-section 3, to be known as paragraphs "i" and "j," permitting savings banks in Maine to invest in first mortgage bonds of any public service corporation located wholly or in part in the States, other than Maine, and engaged in the business of producing and distributing electric light and power, and also in the first mortgage bonds of any public service corporation combining business of an electric railroad, light and power company. In 1919 (by Chapter 50, P. L. 1919) an addition was made to Section 27 under which permission is given to invest 10% of the assets in bankers' acceptances and bills of exchange under certain restrictions and limitations. In 1920 an addition was made to Section 27, which permits investment of not exceeding two per cent of the deposits and surplus in prior lien equipment obligations or equipment

trust certificates issued by the National Railway Service Corporation. The full text of the law as it now stands, with the amendments made in 1919 and 1920, reads as follows:

SECTION 27 Savings banks and institutions for savings are restricted to and hereafter may invest their deposits as follows:

First. a. In the public funds of the United States and District of Columbia, and in the bonds issued by any farm loan bank organized under authority of the United States Government.

b. In the public funds of any of the New England States and of the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington.

Second. a. In the bonds of the counties, cities and towns of any of the New England States.

b. In the bonds of cities and districts in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, having a population of seventy-five thousand or more, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein.

c. In the bonds of counties of twenty thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein, except when issued in aid of railroads, *provided*, that the net municipal indebtedness of such county does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

d. In the bonds of any city of ten thousand inhabitants or more in the States of New York, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas, Nebraska, California, Oregon and Washington, when issued for municipal purposes, and which are a direct obligation on all the taxable property therein except when issued in aid of railroads, *provided* that the net municipal indebtedness of such city does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

e. In the refunding bonds of counties and cities above enumerated issued to take up at maturity bonds which were legal and constitutional when issued, *provided* that the interest has been fully paid on such original bonds for at least five years last prior to such refunding; *provided, further*, that such counties and cities can otherwise meet the foregoing conditions.

f. In the bonds and obligations of school district boards, boards of education and other corporate bodies within such cities, authorized to issue bonds payable primarily from taxes levied on all the taxable property in said district; *provided* that the population of the district is ten thousand or more, and the population and assessed valuation of the district are equal to at least 90% of the population and the assessed valuation of the city within which such district is located; *provided, further*, that the net municipal indebtedness of such district does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes

g. In the bonds or obligations of any municipal or quasi-municipal corporation of this State, when such securities are a direct obligation on all the taxable property of said corporation

Third, a. In the railroad bonds of this State.

b: In the first mortgage bonds of any completed railroads of the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Missouri, Kansas and Nebraska, and in the underlying mortgage bonds other than first mortgage bonds and the consolidated mortgage bonds and refunding mortgage bonds of any completed railroads organized under the laws of any State of the United States and located within the United States, and in the first mortgage bonds of any completed railroads of any other State of the United States: provided, however, that such underlying, consolidated and refunding mortgage bonds and such first mortgage bonds of railroads other than those of said named States shall be secured by liens upon a completed railroad of standard gauge and of not less than one hundred miles in length exclusive of sidings and shall be of any of the several classes established by paragraph *c*.

c: First mortgage bonds, and underlying mortgage bonds other than first mortgage bonds, provided, that the net earnings for each of the three fiscal years next preceding the time of making the investment shall have been not less than one and three-fourths times, and the gross operating revenues shall have been not less than five times all fixed charges for interest and rentals; and provided, further, that the mortgage or mortgages securing any issue or issues of such underlying bonds is or are prior to and to be refunded by a mortgage which covers a mileage at least 25% greater than is covered by any prior mortgage which it is destined to refund and that such refunding mortgage is a first mortgage upon that part of the mileage covered by it which is in excess of, and distinct from, the mileage covered by all prior mortgages.

Consolidated mortgage bonds and refunding mortgage bonds; provided, that the net earnings for each of the three fiscal years next preceding the time of making the investment shall have been not less than one and three-fourths times, and the gross operating revenues shall have been not less than five times all fixed charges for interest and rentals; and provided, further, that the mortgage by which an issue of any such bonds is secured covers a mileage at least 25% greater than is covered by any prior mortgage which is destined to refund and is a first mortgage upon that part of the mileage covered by it which is in excess of and distinct from the mileage covered by all prior mortgages.

d. In the mortgage bonds of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular stated dividend upon the stock of such leased road and the interest on its bonds

[*Note.*—Bonds issued pursuant to an Act entitled "An Act to provide for the reorganization or consolidation of the railroad companies constituting the Boston & Maine RR. System," approved April 2 1915, are a legal investment for savings banks.]

e: Electric railroad companies are not railroad companies within the meaning of the foregoing clauses of this section.

f, (1): In the bonds of electric railroads constructed in this State prior to the twenty-seventh day of April, eighteen hundred and ninety-five, and in bonds of electric railroads in this State constructed after said date; provided, an amount of capital stock equal to 33 1-3% of the mortgage debt shall have been paid in, in cash, and expended upon the road evidenced by a certificate of the Public Utilities Commission or of the Bank Commissioner of this State, filed in the office of the Secretary of State, that said percentage has been paid in and expended upon the road in addition to the amount of the bonded debt; provided, further that in lieu of the foregoing certificate such bonds may be certified as legal for the purpose hereof on satisfactory proof to the Bank Commissioner that annual dividends in amount equal to 5% per annum on an amount of capital stock equal to one-third of the bonded debt has been earned and paid for a period of five years next prior thereto.

f, (2): In the first mortgage bonds of any completed electric railroad which is located wholly or partly in the States of New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Maryland, Ohio, Indiana, Kentucky, Michigan, Wisconsin, Minnesota, Iowa, Illinois, Kansas, Nebraska, California, Colorado, Delaware, North Dakota, South Dakota, West Virginia, Idaho, Montana, Oregon, Oklahoma and Washington; provided, that all certificates hereinafter issued making such bonds legal for investments by savings banks shall show that in addition to the provisions specified in the first clause of this paragraph the average net income of said corporation for a period of three years next prior to making such bonds legal shall have been not less than one and one-half times interest charges on the bonds outstanding secured by such mortgage and all prior liens, evidenced by a certificate of the Bank Commissioner of this State filed in the office of the Secretary of State of this State; and the Bank Commissioner for making investigation upon any application filed under the provisions of this paragraph shall charge a reasonable fee for services and expenses attendant thereon, including the payment of experts, and in no case shall such fee be less than twenty-five dollars, the same to be paid by the railroad company seeking to make its bonds a legal investment under this paragraph, whether the same are admitted or not, and all sums so collected shall be added to the appropriation for the banking department, to be expended by the Bank Commissioner under the authority and with the approval of the Governor and Council. No bonds secured by an open mortgage shall be legal under this section unless the mortgage provides that the total amount of bonds certified and outstanding under it shall at no time exceed 80% of the amount of cash expended upon the road. All certificates heretofore issued wherein any bonds were made legal investments for savings banks shall continue to be in full force and effect, the provisions of this paragraph notwithstanding."

g. In consolidated or refunding bonds, which are of an issue to retire the entire funded debt under the conditions as applied to first mortgage bonds in paragraphs "b," "c" and "f," of this sub-division, and which are secured by a mortgage on the whole or any part of the system; provided, that all certificates hereinafter issued making such bonds legal for investments by savings banks shall show that in addition to the provisions specified in the first clause of paragraph "f" of the average net income of said corporation for a period of three years next prior to making such bonds legal shall have been not less than two times interest charges on the bonds outstanding secured by such mortgage and all prior liens."

h In the first mortgage bonds of any bridge company owning a railroad bridge, located wholly or partly in the State of Maine provided payment of said bonds as to principal and interest is guaranteed by a railroad company organized under the laws of the State and owning and operating a railroad in this State.

i. In the first mortgage bonds of any public service corporation located, wholly or in part, in the States, other than Maine, named in paragraph "*f*," engaged in the business of producing and distributing electric light and power, when they otherwise comply with the provisions specified in paragraphs "*f*" and "*g*;" provided, that the average gross income of said corporation for the three years next preceding such investment shall have been not less than two hundred thousand dollars for each year, and the average net income of said corporation for the same period shall have been not less than twice interest charges on the bonds outstanding secured by such mortgage and all prior liens; and further provided, that such net income for the last preceding year shall have been not less than one and one-half times the interest charges on all the interest-bearing indebtedness of the corporation. The net income of a company, as described in this section, shall be its net earnings and income derived from the property covered by the mortgage in question, after payment of all operating expenses, maintenance charges, repairs, renewals, rentals and taxes and all guaranteed, interest and guaranteed dividends paid by or due from it. Satisfactory proof of such gross and net earnings must be furnished to the Bank Commissioner and certified by him the the manner provided in paragraph "*f*" for electric railroads, before the bonds shall become a legal investment.

j. In the first mortgage bonds of any public service corporation, combining business of an electric railroad, light and power company and an artificial gas company, or any two of them, which otherwise complies with the provisions specified in paragraphs "*f*" and "*g*" and "*i*;" provided the average gross income of such corporation for the three years next preceding shall have been a t least three hundred thousand dollars per annum.

Fourth. In the mortgage bonds of any water company in the New England States actually engaged in supplying any city or cities, town or towns, village or villages, or other municipal corporations, with water for domestic use and for the extinguishment of fires, whenever such company is earning more than its fixed charges and interest on its debts and its running expenses.

Fifth. In bonds of any corporation other than railroad and water companies incorporated under the authority of this State and actually conducting in this State the business for which such corporation was created, which is earning an amount in excess of fixed charges, interest on its debts and running expenses equivalent to 5% per annum on an amount of capital stock equal to one-half of its entire funded debt.

Sixth. a. In the stock of any bank or banking association incorporated under the authority of the State.

b. In the stock of any bank or banking association incorporated under the authority of the United States, if located within the New England States.

c. In stock of any RR. company of this State unencumbered by mortgage.

d. In the bonds, stock or notes of any railroad in New England which has earned and paid an annual dividend equivalent to five per cent on a capital stock equal to one-third of its funded debt for a period of ten years next prior thereto, and in the stock or notes of the New York Central & Hudson River, the Illinois Central, the Lake Shore & Michigan Southern and the Pennsylvania Railroad companies.

e. In the stock of any railroad leased to any dividend-paying railroad in New England upon terms guaranteeing the payment of a regular state-dividend upon the stock of such leased road and the interest on its bonds.

f In the stock of any corporation, other than railroad and water companies, incorporated under authority of this State and actually conducting in this State the business for which such corporation was created, which earns and is paying a regular dividend of not less than 5% a year; and any savings bank or institution for savings owning stock of any such corporation that has earned and paid regular dividends of 5% or more for five years, may, if any such corporation, by a vote of its stockholders, sells and conveys all its property and assets (franchise excepted) to trustees of a voluntary association, to hold and carry on the same business, for the members of such association, legally hold and own the certificates of shares of such association, issued in exchange for stock of such corporation; provided, however, that the deed of trust creating such voluntary association shall, in express terms, exempt the owner or owners of such certificates from individual liability thereon or on account of debts or obligations contracted by such association.

g Not exceeding two per cent of their deposits and surplus in the prior lien equipment obligations or equipment trust certificates issued by the National Railway Service Corporation in pursuance of any equipment trusts financed in whole or in part through a loan or loans made or approved by the Inter-State Commerce Commission, provided such securities are issued for not exceeding in par value sixty per cent of the cost of standard railway equipment and that such obligations shall mature in approximately equal annual or semi-annual installments over a period of not exceeding fifteen years.

Seventh. a. In loans secured by first mortgages of real estate in this State and New Hampshire to an amount not exceeding 60% of the value of such real estate.

b. In notes with a pledge as collateral of any funds, bonds, notes or stocks which the bank or institution would, by this section, be authorized to purchase, provided the market value of said collateral is equal to the amount of the loan.

c. In notes with a pledge as collateral of any savings bank deposit book issued by any savings bank in this State.

d. In notes with a pledge as collateral of such funds, bonds, notes or stocks as in the judgment of the trustees it is safe and for the interest of the bank to accept to an amount not exceeding 75% of the market value of such funds, bonds, notes or stocks.

e. In loans to any municipal corporation in this State.

f. In loans secured by a mortgage of such personal property as in the judgment of the trustees it is safe and for the interest of the bank to accept.

g. In loans to any corporation owning real estate in this State and actually conducting in this State the business for which such corporation was created.

Eighth.—Savings banks and institutions for savings may acquire and hold stocks, bonds and other securities not authorized by law, hereafter acquired in settlements and reorganizations and accepted to reduce and avoid loss on defaulted loans and investments held by said banks and institutions, and may continue to hold such stocks, bonds and other securities heretofore so acquired, and shall not be obliged to sell or dispose of the same except at such times and in such manner as will prevent unnecessary loss or embarrassment to the business of the bank or institution.

The addition made to Sec. 27 by the 1919 Legislature (Chapter 50, P. L. 1919) so as to authorize investments in bankers acceptances and bills o exchange reads as follows:

AN ACT additional to Section 27 of Chapter 52 of the Revised Statutes Permitting Savings Banks and Institutions for Savings to Invest in Certain Kinds of Acceptances.

Be it enacted by the People of the State of Maine as follows:

Section 1. *Savings banks and institutions for savings may invest their deposits as follows:*

(a) Bankers' acceptances and bills of exchange of the kind and maturities made eligible by law for rediscount with Federal Reserve banks, provided the same are accepted by a trust and banking company, incorporated under the laws of this State, or a member of the Federal Reserve system located in any of the New England States or the State of New York.

(b) Bills of exchange drawn by the seller on the purchaser of goods sold and accepted by such purchaser of the kind and maturities made eligible by law for rediscount with Federal Reserve banks, provided the same are endorsed by a trust and banking company incorporated under the laws of this State, or a member of the Federal Reserve system located in any of the New England States or the State of New York.

Sect. 2. Not more than ten per centum of the assets of any savings bank or institution for savings shall be invested in such acceptances. The aggregate amount of the liability of any trust and banking company or of any national bank to any savings bank or institution for savings, whether as principal or indorser, for acceptances held by such savings bank or institution for savings, shall not exceed twenty per centum of the paid-up capital and surplus of such trust and banking company or national bank, and not more than five per centum of the assets of any savings bank or institution

for savings shall be invested in the acceptances of a trust and banking company or of a national bank of which a trustee of such savings bank or institution for savings is a director.

Section 28. *a.* The term "net municipal indebtedness of counties," as used in the preceding section, shall be construed to include all bonds which are a direct obligation of the county less the amount of any sinking fund available in the reduction of such debt.

b. The term "net municipal indebtedness of cities and districts," as used in the preceding section, shall be construed to include in the case of either not only all bonds which are a direct obligation of the cities, but also all bonds of the districts or boards within the same, as above enumerated, exclusive of any such debt created for a water supply and of the amount of any sinking fund available in reduction of such debt.

c. The number of inhabitants of cities and counties shall be determined by the last previous official census thereof, as established by the last United States or State census or city or county census taken in the same manner as United States or State census and duly certified to by the clerk or treasurer of such city or the auditor or treasurer of such county.

Section 29. All investments having a fixed maturity shall be charged and entered on the books of the bank at their cost to the bank or at par when a premium is paid. The Bank Commissioner may require any investment to be charged down to such sum as in his judgment represents its fair value. He may at any time call for a report of the financial condition of any corporation offering, or likely to offer, its bonds, stocks or notes to any savings bank in the State, or whose notes are held by any such savings bank as much in detail as he may require, verified by the oath of such officers of such corporation as he may specify. He may communicate any such report, or an abstract thereof, to the officers, of any of said savings banks. If such report is not furnished the Bank Commissioner within the time specified in his call therefor, or within such extension of time as he may grant, the bonds, stocks and notes of such corporation shall thereupon cease to be a legal investment for savings banks under this section, and shall not again become a legal investment until a report in all respects satisfactory to the Bank Commissioner is furnished. Any officer of a corporation who wilfully makes a false report hereunder, and any officer, trustee, director, clerk or employee of a savings bank, trust company or loan and building association who willfully or knowingly undertakes in any manner to deceive or mislead the Bank Commissioner, or any officer or representative of the State Banking Department, as to the true condition or value of any of the investments of such savings bank, trust company or loan and building association, or willfully conceals any material fact connected therewith, shall be punished by a fine not exceeding five hundred dollars or imprisonment not exceeding two years, or by both such fine and imprisonment.

SECTION 30. Any such bank or institution may hold real estate in the city or town in which such bank or institution is located to an amount not exceeding 5% of its deposits or to an amount not exceeding its reserve fund.

SECTION 31. No such bank or institution shall hold by way of investment, or as security for loans, or both, more than one-fifth of the capital stock of any corporation, nor invest more than 10% of its deposits, in the capital stock or notes of any corporation, nor have more than 50% of its deposits in mortgages of real estate. This section and the two preceding do not apply to real estate, or other assets, acquired by the foreclosure of a mortgage thereon, or upon judgment for debts, or in settlements to secure debts, nor to bonds enumerated in the first five sub-divisions of Section 27 of this chapter.

SECTION 32. Nothing in this chapter affects the legality of investments made, of transactions had, or the payment of interest at a rate not exceeding 6% on deposits made, prior to the dividend next following March 11 1877. And all investments authorized by any law in force when such investments were made, or transactions had, are valid, and this chapter does not require the change of investments for these hereinbefore named, except as same can be done gradually by the sale or redemption of securities so invested in, in such manner as to prevent loss or embarrassment in the business of such corporation or unnecessary loss or injury to the borrowers on such securities. Any investment in securities not named in Section 27 is a misdemeanor, on the part of the trustees authorizing, or officers making, the same; and such trustees and officers are subject to the prosecutions and punishments prescribed by law for that offense.

SECTION 33. Savings banks and institutions for savings may deposit on call in banks or banking associations incorporated under the authority of this State, or the laws of the United States, and receive interest for the same, and may deposit, subject to the approval of the bank commissioner, with such banks or banking associations, any securities received as collateral for time loans made to any person or corporation without the State.

SECTION 34. Savings banks and institutions for savings may, by vote of the trustees of such corporation, when, in the judgment of such trustees such action is necessary to pay depositors and to prevent loss by sales of assets, borrow money within or without the State and pledge bonds, notes or other securities as collateral therefor. The trustees of such corporation shall cause a copy of said vote to be sent forthwith to the Bank Commissioner, and shall also notify him of any action taken thereunder.

SECTION 35. The trustees shall see to the proper investment of deposits and funds of the corporation in the manner hereinbefore prescribed. No loan shall be made directly or indirectly to any officer of the corporation or to any firm of which such officer is a member.

ITS

DEBT, RESOURCES, &c.

Admitted as a State—One of Original Thirteen
Total Area of State (square miles)—9,305
State Capital—Concord
Governor (term exp. 1st Wed. Jan. 1923)—Albert O. Brown
Secretary of State (chosen by Legislature)—Edw. C. Bean
Treasurer (term expires Jan. 1923)—J. W. Plummer
Attorney-General—Oscar L. Young

LEGISLATURE meets biennially in odd years on the first Wednesday in January, and length of session is not limited.

HISTORY OF DEBT.—New Hampshire's debt history is very brief. This State has always been extremely conservative, and no bonds were issued until after the breaking out of the Civil War. In 1866 New Hampshire reported her funded indebtedness at $4,169,816, contracted exclusively for war purposes. June 1 1869 the total outstanding was $3,213,962.22, against which the Treasurer reported an asset of $77,082.89. The State debt at the present time is as follows:

LOANS— Name and Purpose—		Interest— %	Payable.	Principal— When Due.	Outstand'g
Highway bonds		3½	------	July 1 1920	$65,000
do do of 1912		3½	J & J	July 1 '21-'24	300,000
Hospital, 1905		3½	J & J	July 1 '21-25	50,000
do 1907		3½	J & J	July 1 1927	150,000
do 1909	c	3½	J & J	July 1 1929	85,000
War Loan bonds	c	4½	J & J	July 1 '30-'36	500,000
War recognition bonds		---	------	Dec. 1 1923	700,000
War recognition bonds		---	------	Dec. 1 1925	789,000
Loan of 1873 (overdue)		---	------	----------	500
Trust funds		---	------	----------	1,110,864

PAR VALUE OF BONDS.—The bonds are in $500 and $1,000 pieces.

INTEREST is payable at the National Shawmut Bank of Boston and at State Treasurer's office.

TAX-EXEMPT.—All issues are exempt when held by savings banks and citizens of New Hampshire.

TOTAL DEBT.—The *net* debt on Sept. 1 1920 was $3,040,524 17. The subjoined statement shows New Hampshire's *total* debt on the dates named. Assets Sept. 1 1920 were $659,940 31.

	Sept. 1 '20.	*Sept.* 1 '19.	*Sept.* 1 '18.	*Sept.* 1 '17.
Total funded debt	$2,589,500	$1,171,500	$1,230,500	$817,500
Trust funds	1,110,864	1,176,993	1,167,873	1,165,130
Floating debt	100	450,100	100	100
Total debt	$3,700,464	$2,798,593	$2,398,473	$1,982,730

ASSESSED VALUATION.—The State's total assessed valuation was as below. The average tax rate for 1919 (per $1,000) was $22.80; for 1920 it was $23 70.

Years—	*Assessed Val.*	*Years*—	*Assessed Val.*	*Years*—	*Assessed Val.*
1920	$511,456,583	1912	*$390,086,029	1902	$214,616,655
1919	469,858,171	1911	263,074,386	1900	209,670,845
1918	453,327,679	1910	255,085,571	1898	204,734,731
1917	428,107,097	1908	244,971,264	1896	200,957,600
1916	410,150,583	1906	231,641,571	1894	197,839,543
1915	398,845,480	1905	225,082,628	1893	196,117,060
1914	390,877,626	1904	220,624,307	1881	168,964,903

The preceding values are simply the aggregate of the inventories of the various towns in the State. In addition, the State taxes at different rates savings banks and trust companies, insurance capital, railroads, building and loan associations, telegraph and telephone companies, parlor car and express companies. These, less exemptions allowed by statute, in 1920 amount to $146,254,035.

*** Chapter 169, Laws of 1911, creates a permanent tax commission, one of whose duties it is to equalize valuations in the year 1912 and every second year thereafter, so that the same shall represent the "true and market value" of property. *This will account for the great increase in valuations in 1912, not only for the State itself, but for the various civil divisions, as shown by the returns of the different municipalities on this and following pages.***

POPULATION OF STATE—							
1920	443,083	1880	346,991	1840	284,574	1800	183,858
1910	430,572	1870	318,300	1830	269,328	1790	41,881
1900	411,588	1860	326,073	1820	244,165		
1890	376,530	1850	317,976	1810	214,460		

DEBT LIMITATION.—There is no restriction in the constitution of New Hampshire upon the debt-making power of the people through the "General Court," *except* the following, which is the last clause of Article 5 of Part Second of that instrument.

Provided, That the General Court shall not authorize any town to loan or give its money or credit directly or indirectly for the benefit of any corporation having for its object a dividend of profits or in any way aid the same by taking its stocks or bonds.

The above is an amendment to the constitution which was ratified in 1877. The amendment would appear to be intended as a complete estoppel to municipal loaning of money or credit to railroad and industrial corporations. It is to be noticed, however, that by its terms the restriction does not specifically mention "cities," the words being "any town."

In addition to the foregoing is the "Municipal Bond Act of 1895." It tells in the matter of issuing bonds what a municipal corporation may do, what it must do, and what it cannot do. The law enacts:

Sec. 1. The term "municipal corporation" means town, city, school district, village district and village precinct. *Sec.* 2. Bonds issued must be payable within 20 years, interest semi-annual, not exceeding 6%, may be payable in gold coin. If made payable in less than 20 years, may be extended, but never beyond 20 years from time of issue. *Sec.* 3. Bonds (except of cities) must be authorized by a vote of two-thirds of all voters present and voting at an annual meeting of such corporation, or at a special meeting properly called, &c. (for which see Act). Bonds must be signed by a majority of the Governing Board, countersigned by Treasurer and have seal of corporation. Time and place of payment and rate of interest, &c., may be delegated to Governing Board. *Sec.* 4. City bonds must be authorized by resolution of City Council passed by at least two-thirds of members elected to each branch, taken by yeas and nays, signed by Mayor, countersigned by Treasurer, seal of city affixed Place of payment, rate of interest and sale may be delegated to Treasurer. *Sec.* 5. Bonds shall be payable to bearer or to registered holder by name, and must be in form set out in Act—which see. In case bonds be made subject to call, they must contain statement to that effect as given in Act. "The validity of any bonds shall not be affected by any variation from the forms herein prescribed." *Sec.* 6. Treasurer to keep a book in which he shall register bonds issued, &c. *Sec.* 7. "All bonds purporting to be issued by virtue or in pursuance of this Act and signed and sealed as hereinbefore provided shall, in favor of bonafide holders, be conclusively presumed to have been duly and regularly authorized and issued in accordance with the provisions herein contained, and no holder thereof shall be obliged to see to the existence of the purpose of the issue or to the regularity of any of the proceedings or to the application of the proceeds. All such bonds shall be negotiable in all respects and to the same extent as securities negotiable by the law merchant." *Sec.* 8. Annual tax must be levied and collected sufficient to pay interest and provide a sinking fund sufficient to pay principal within 20 years. *Sec.* 9. No bonds can be issued which shall increase the *net* debt of corporation to an amount exceeding 5% of the value of the taxable property therein as last appraised for assessing taxes. To ascertain *net* debt, all debts must be included except the following, which must be deducted—water debt, 'cash and other means' in treasury and sinking funds applicable to payment of debt so included; "but nothing contained in this section shall prevent the issue of bonds for the purpose of refunding an equal principal amount of other bonds of such corporation." *Sec.* 10. Corporation seal. *Sec.* 11. Act to take effect on passage. Approved March 19 1895.

Exceptions have been made to this law from time to time in special instances, such as in the case of $100,000 high-school bonds of the city of Portsmouth authorized by Chapter 202, Laws of 1903. This chapter provides that Section 9 of the Municipal Bond Law of 1895 does not apply in this instance.

TAXATION OF MUNICIPAL BONDS.—Chap. 55 of the Laws of 1907 provides that any city, town, precinct or village district may exempt from taxation any future issue of its bonds, provided such exemption shall apply only to bonds owned and held by citizens of said city, town, precinct or village district. State bonds are subject to taxation unless exempted by the terms of the Act under which they are issued.

In 1913 the privilege of exemption was extended by Chapter 51 of the Acts for that year to future bond issues by school districts when held by residents. Another Act of 1913 (Chapter 112) exempts from taxation all the bonds or notes of the State or any of its minor civil divisions bearing not exceeding 5% interest.

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The savings bank investment laws of New Hampshire were completely revised and materially altered in many respects at the Legislative session of 1917. An explanation of the changes made was published by us in the "Chronicle" of May 19 1917, pages 2028 to 2030, inclusive. The law was again revised in 1921 (see the "Chronicle" of May 21 1921, pages 2214 to 2216, inclusive). The principal changes were the reduction of the amount of the railroad, public utility and industrial stock that a savings bank may hold, form 25% to 10%, and the new paragraphs 4 and 5 under Section 4 in relation to equipment securities of railroads. The full text of the new law as it now stands follows:

Section 1. On and after the passage of this act savings banks and savings departments of banking and trust companies shall make investment of their funds in the following classes of securities only:

Sec. 2. For the purposes of this act a note shall be construed as a written promise of an individual, firm, corporation or voluntary association, signed by the maker, to pay a specified sum of money on demand or at a fixed or determinable future time, but not issued under indenture or deed of trust. A bond shall be construed as a note issued under indenture or deed of trust.

1. In notes or bonds directly secured by first mortgage on real estate situated within the State of New Hampshire; but no such investment shall be in a loan that exceeds 70% of the value of the real estate by which it is secured and not exceeding 75% of the deposits shall be so invested, except by permission of the bank commissioners

2. In notes or bonds directly secured by first mortgage on real estate situated outside of New Hampshire but entirely within the United States, which at the time of such investment is improved, occupied and productive; but not exceeding 40% of the deposits shall be so invested, and no such investment shall be in a loan that exceeds 50% of the value of the real estate by which it is secured.

3. In notes or bonds directly secured by first mortgage on timber lands situated within the States of Maine and Vermont; but not exceeding 5% of the deposits shall be so invested, and no such investment shall be in a loan that exceeds 50% of the value of the real estate by which it is secured.

4. In notes secured by collateral in which the bank is at liberty to invest, of a value at least 10% in excess of the value of the note, and in bonds secured by collateral in which the bank is at liberty to invest under paragraphs 1, 2, 3, 4 and 8 of Section 4, of a value of at least 10% in excess of the value of the note. The amount of any one class of securities so taken as collateral, added to that which the bank may own at the time, shall not exceed the total limit of investment in that class of security; but not exceeding 25% of the deposits shall be so invested.

5. In notes secured by collateral securities which are dealt in on the Stock Exchanges of Boston or New York, the Stock Exchange price of which shall at all times be at least 20% in excess of the amount due upon the note, while held by the bank; but not exceeding 25% of the deposits shall be so invested.

6. In notes secured by any savings bank deposit book issued by any savings bank chartered under the laws of any New England State; or in notes secured by the depositor's pass-book of any building and loan association of this State, *provided* that the investment shall not be in excess of the withdrawing value of said pass-book.

7. In notes with two or more signers, or one or more indorsers, or in acceptances of member banks of the Federal Reserve System of the kinds and maturities made eligible for rediscount or purchase by Federal Reserve banks, or in notes of makers whose net assets are not less than $250,000 and whose total indebtedness does not exceed 50% of their quick assets; but not exceeding 5% of the deposits shall be loaned to any one borrower on this class of security; and not exceeding 30% of the deposits shall be invested under the provisions of this paragraph, *provided* that, except in notes with two or more signers, or one or more indorsers, or in said acceptances, no savings bank shall invest under this paragraph unless its guaranty fund is full and unimpaired and the total value of its assets as determined by the Board of Bank Commissioners shall exceed the amount of its deposits by at least 10%.

8. In bonds issued under the provisions of the Federal Farm Loan Act, but not more than 5% of the deposits shall be so invested.

MUNICIPAL BONDS.

Sec. 3. For the purposes of this section a Municipality shall be construed as a county, city, town, village, district, precinct or other municipal corporation; a Municipal Bond shall be construed as an interest-bearing obligation of a government, State, province or municipality, to provide for the interest and principal requirements of which taxes may be levied on all taxable property within the confines of the obligor; Net Debt shall be construed as debt after deducting sinking funds available for the payment of such debt and the net outstanding debt created for supplying the inhabitants with water; Assessed Valuation shall be construed as the nearest preceding valuation of property for purposes of taxation; and population shall be construed as the number of inhabitants in accordance with the nearest preceding census taken under Federal or State authority.

Not exceeding 5% of the deposits shall be invested in the bonds of any one municipality; and not exceeding in the aggregate 10% of the deposits shall be invested in the bonds of the Dominion of Canada, its provinces and cities.

1. In the public funds of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal.

2. In the authorized bonds and notes of this State, or of any of its municipalities.

3. In the authorized bonds or notes of any State or territory of the United States; and in the authorized bonds or notes of any city of the States of Maine, Vermont, Massachusetts, Rhode Island, Connecticut, or New York, whose net indebtedness does not exceed 7% of the last preceding valuation of the property therein for taxation; or of any municipality in said States whose net indebtedness does not exceed 5% of such valuation.

4. In the authorized bonds of any municipality of any other of the United States or territories whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for taxation; and in the authorized bonds of any city of 50,000 inhabitants of any of said States whose net indebtedness does not exceed 7% of the last preceding valuation of the property therein for taxation. *Provided*, that the bonds of any county, city, or town of less than 10,000 inhabitants, or of any school district or other municipal corporation of less than 2,000 inhabitants in any State or territory other than those named in paragraph 3 of this section shall not be authorized investments.

5. In the authorized bonds or notes of the Dominion of Canada and in bonds or notes the principal and interest of which are guaranteed by the Dominion of Canada.

6. In the authorized bonds of any province of the Dominion of Canada.

7. In the authorized bonds of any city of the Dominion of Canada, with a population of not less than 50,000, whose net debt does not exceed 7% of the last preceding valuation of the property therein for taxation.

OTHER BONDS, NOTES AND STOCKS.

Sec. 4. For the purposes of this section a Company shall be construed as a corporation or voluntary association organized under the laws of the United States or any State thereof and located and doing business principally within the United States; a Public Service Company shall be construed as a company doing principally a gas, electric light or electric power business; Mortgage Bonds shall be construed as bonds secured primarily by direct and foreclosable lien on physical property owned by the obligor; Years shall be construed as calendar years, fiscal years or nearer periods of twelve months next preceding such investment; Net Income shall be construed as income after deducting operating expenses, taxes, insurance, rentals, guaranteed interest and guaranteed dividends, and expenditures for maintenance; and Annual Interest shall be construed as interest actually paid in each year except that for the latest year it shall be construed as one year's interest on the total amount outstanding at the time of the investment.

Not exceeding 65% of the deposits shall be invested in securities authorized under this section; and not exceeding 5% of the deposits shall be invested in the securities of any one company, and not exceeding 10% of he deposits shall be invested in securities authorized by this section other than in bonds, notes, equipment securities, and receiver's certificates.

No investment shall be made in securities authorized under this section unless the net income of the company in question in each of the three years next preceding such investment shall have been not less than one and one-quarter (1¼) times the annual interest on the entire funded debt.

In the case of a company formed by the consolidation of two or more existing companies, the net income and annual interest for the years preceding such consolidation shall be the combined net income and annual interest of the consolidated companies.

The change of motive power by any steam railroad company, whether wholly or in part, shall not affect the eligibility for investment of any steam railroad obligations.

Subject to the foregoing, investments may be made as follows:

STEAM RAILROAD SECURITIES.

1. In bonds or notes issued or assumed by steam railroad companies and in mortgage bonds of companies controlled by such companies for the refunding of which mortgage bonds of such companies are specifically reserved, *provided* that in each of the three years next preceding such investment the net income of such companies shall have been either (1) not less than ten million dollars ($10,000,000) and not less than one and one-half (1½) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien, or (2) not less than two million dollars ($2,000,000) and not less than one and three-quarters (1¾) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien.

2. In mortgage bonds guaranteed as to principal and interest by such companies, *provided* that in each of the three years next preceding such investment the net income of the obligor company shall have been not less than five hundred thousand ($500,000) and not less than one and one-half (1½) times the annual interest on the obligations in question and all other obligations of corresponding or prior lien.

3. In the mortgage bonds of terminal or bridge companies guaranteed as to principal and interest, by two or more such companies.

4. In equipment securities issued or guaranteed as to principal and interest by such companies, or by the Canadian National Railways or constituent corporations of the system owned or controlled by the Canadian National Railways, or secured as to principal and interest through the medium of a trustee by a prior lien on equipment leased to such companies or the Canadian National Railways or its constituent corporations, *provided* such securities are issued for not exceeding in par value 85% of the cost of standard equipment and wither (1) mature in approximately equal annual or semi-annual installments over a period beginning not more than six years and ending not more than fifteen years from the date of their issue, or (2) mature not more than fifteen years from date of issue and their payment at maturity is provided for by a like series of installment payments to be used for the purchase and retirement of certificates or as a sinking fund.

5. In the prior lien equipment obligations or equipment trust certificates issued by the National Railway Service Corporation or by any such corporation organized under Act of Congress in pursuance of any equipment trust financed in whole or in part through a loan or loans made or approved by the Inter-State Commerce Commission, provided such securities are issued for not exceeding in par value sixty per cent (60%) of the cost of standard equipment and either (1) mature in approximately equal annual or semi-annual installments over a period beginning not more than six years and ending not more than fifteen years from date of their issue, or (2) mature not more than fifteen years from date of issue and their payment at maturity is provided for by a like series of installment payments to be used for the purchase and retirement of certificates or as a sinking fund.

6. In certificates of indebtedness, commonly termed "receiver's certificates," issued by a receiver of any steam railroad under authorization of the court having jurisdiction over such receiver.

7. In the dividend-paying capital stock of steam railroad companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than two and one-half times the annual interest on the entire funded debt, *provided* that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current annual dividend requirements on the class of stock in question and all other classes of stock of prior preference; and that such companies in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum on the class of stock in question and all other classes of stock of prior preference; or in the dividend-paying stock of any steam railroad company that is leased to such company and whose dividends are guaranteed by such company.

PUBLIC SERVICE COMPANIES.

8. In mortgage bonds issued or assumed by public service companies and in mortgage bonds of companies controlled by such companies for the refunding of which mortgage bonds of such companies are specifically reserved, *provided* that in each of the three years next preceding such investment the net income of such companies shall have been either (1) not less than five hundred thousand dollars ($500,000) and not less than one and three-quarters times the annual interest on the obligations in question and all other obligations of corresponding or prior lien, or (2) not less than two hundred and fifty thousand dollars ($250,000) and not less than twice the annual interest on the obligations in question and all other obligations of corresponding or prior lien and in bonds or notes issued or assumed by public service companies, *provided* that in each of the three years next preceding such investment the net income of such companies shall have been not less than five hundred thousand dollars ($500,000) and not less than two times the annual interest on the obligations in question and all other obligations of corresponding or prior lien; *provided* that in all cases the principal franchise or franchises of such corporations shall not mature prior to the maturity of the obligations in question or that such companies operate under indeterminate franchises or permits and are subject to the regulatory supervision of a State commission of competent jurisdiction or that such companies operate under a franchise or permit in which the capital or investment value of the company's property is fixed or determined when such investment or capital value is in excess of the indebtedness represented by the above obligations.

9. In the dividend-paying capital stock of senior preference of public service companies of which the net income in each of the five years next preceding such investment shall have been not less than five hundred thousand dollars ($500,000) and not less than twice the annual interest on the entire funded debt, *provided* that the income applicable to the payment of dividends shall during such period of five years have averaged not less than twice the dividend requirement of such stock, and that such companies in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum on the class of stock in question, and *provided* that the issue of such stock has been authorized by a State commission of competent jurisdiction.

NEW HAMPSHIRE COMPANIES.

10. In the bonds or notes of public service and water companies organized under the laws of and located and doing business principally within the State of New Hampshire; *provided* the net income of such companies in each of the three years next preceding such investment shall have been not less than twice the annual interest on the obligations in question and all other obligations of corresponding or prior lien; and in the dividend-paying capital stock of senior preference of such companies, *provided* that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than one and one-eighth times the current annual dividend requirements on the class of stock in question, and that such companies in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum on the class of stock in question.

TELEPHONE AND TELEGRAPH COMPANIES.

11. In bonds or notes issued or assumed by telephone, telegraph, or telephone and telegraph companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than two and one-half (2½) times the annual interest on the entire funded debt.

12. In the dividend-paying capital stock of senior preference, of telephone, telegraph, or telephone and telegraph companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than twice the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than two and one-half (2½) times the annual interest on the entire funded debt, *provided* that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current dividend requirements of the class of stock in question, and that all companies to be eligible under this paragraph in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum upon the class of stock in question

BONDS OR NOTES.

13. In bonds or notes issued or assumed by companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than two times the annual interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than four (4) times the annual interest on the entire funded debt.

CAPITAL STOCK.

14. In the dividend-paying capital stock of senior preference, of companies of which the net income in each of the five years next preceding such investment shall have been either (1) not less than ten million dollars ($10,000,000) and not less than twice the interest on the entire funded debt, or (2) not less than two million dollars ($2,000,000) and not less than four times the annual interest on the entire funded debt, *provided* that the income of such companies applicable to dividends in at least four of the five years next preceding such investment shall have been not less than the current dividend requirements of the class of stock in question; or if such companies have no funded debt then the income applicable to dividends in at least four of the five years next preceding such investment shall have been not less than one and one-fourth (1¼) times the current dividend requirements of the class of stock in question; and that all companies to be eligible under this paragraph in each of the five years next preceding such investment shall have paid dividends at the rate of not less than 4% per annum upon the class of stock in question.

Sec. 5. In the bonds or notes of any manufacturing company organized and doing business in the New England States with an unimpaired capital of two hundred and fifty thousand dollars ($250,000) and in the stock or certificates of interest of such company; *provided* always that the company has earned and paid in each of the five years preceding such investment dividends of at least four per cent on its entire capital stock, and that its net indebtedness does not exceed fifty per cent on its unimpaired capital stock. In case of the issue of new stock the earnings of the company in addition to the foregoing requirements must have been sufficient in the next year preceding such investment to have paid the average rate of dividend for that year on both the outstanding stock and the new issue to make the stock of the company a legal investment. Not exceeding five per cent of the deposits shall be invested under the provisions of this paragraph; and no bank shall hold more than five per cent of the stock of any such company.

Sec. 6. In the capital stock of any banking or trust company, or special deposits of guaranty savings banks incorporated under the laws of the State of New Hampshire and doing business therein; but the amount of such stock held by any savings bank as an investment and as collateral for loans shall not exceed one-tenth of the total capital stock or special deposits of such banking or trust company or guaranty savings bank, and not exceeding 10% of the deposits shall be so invested.

Sec. 7. In the stock of any national bank or trust company located in the New England States or the State of New York, but not exceeding 10% of the deposits of a savings bank shall be invested in such stock; the amount of stock in any national bank or trust company in this State which may be

held by any savings bank as an investment or as collateral security for loans shall not exceed 25% of the capital stock of said national bank or trust company; and the amount of stock in any national bank or trust company outside of this State which may be held by any savings bank as an investment or as collateral for loans shall not exceed one-tenth of the capital stock of said national bank or trust company.

Sec. 8. Unless the guaranty fund of a bank is full and unimpaired and the value of its assets as determined by the Board of Bank Commissioners shall exceed the amount of the deposits by at least 5%, it shall be unlawful for it to invest in any stocks of paragraphs 7, 9, 10, 12 and 14 of section 4 or in any securities of Section 5 of this Act without the written permission of the Board of Bank Commissioners; and whenever in the opinion of the Board of Bank Commissioners the condition of any bank or general financial conditions are such that the board deems it unwise for said bank to invest in said securities, it may by written order forbid such bank to make such investment, and it shall not thereafter be legal for said bank to make such investment until such order shall be revoked in writing.

Sec. 9. No savings bank shall expend in the purchase, construction or remodelling of any building and the construction of vaults, for the purpose, in whole or in part, of accommodating the business of such bank, a greater sum than the amount of its unimpaired guaranty fund and surplus except it is authorized to do so by the Bank Commissioners.

Sec. 10. Deposits of cash on call or subject to check shall be made in some national bank located in the New England States or in the cities of New York City and Philadelphia, or in some trust company incorporated under the laws of this State or Massachusetts, or in such company incorporated under the laws of the State of New York and located in New York City.

Sec. 11. In determining the percentage of deposits invested under the provisions of this act, previous investments held by the banks shall be included.

Sec. 12. All Acts and parts of Acts inconsistent with this Act are hereby repealed; and this Act shall take effect upon its passage.

INVESTMENT OF TRUST FUNDS.—(1895) Chapter 71, Sec. 1. Trustees and guardians shall be authorized to invest funds in their hands in the bonds or direct obligations of any county, city, town, school, fire or water district in New England, when the net debt of said municipality does not exceed five per cent of the last assessment of taxes for the purpose of taxation. The term "net debt" shall be construed to denote the indebtedness of any municipality, omitting debt created for supplying the inhabitants with water and deducting the amount of sinking funds available for the payment of the indebtedness of the municipality.

State of Vermont.

ITS

DEBT, RESOURCES, &c.

Admitted as a State (Act Feb. 18 1791)-----March 4 1791
Total area of State (square miles)----------9,565
State Capital----------Montpelier
Governor (term expires Jan. 1923)-------James Hartness
Secretary of State (term expires Jan. 1923)--Harry A. Black
Treasurer (term expires Jan. 1923)-------- Walter F. Scott

LEGISLATURE had been meeting biennially since 1870 in even years, the first Wednesday in October. On March 4 1913 an amendment was adopted providing for the convening of the Legislature in odd years on the first Wednesday after the first Monday in January. V. 96, p. 810. Length of session is not limited.

HISTORY OF DEBT.—For a brief outline of the early history of the Vermont State debt see "State and City Supplement" of April 1895, pages 15 and 16.

The liabilities of the State on July 1 1920 were as follows:

Agricultural College fund bonds, due 1932----------	$135,500
School fund bonds, due 1925----------	234,900
Huntington fund bonds, due 1925----------	211,132
Public building bonds 1917 4s (M. & N.) May 1 1921-1935----	150,000
Vermont State loan of 1919 4¼s (A.-O.), due Oct. 1 1921-1949--	1,450,000
Other indebtedness----------	676,205
Total liabilities----------	$2,907,737
Cash on hand and in banks July 1 1920----------	1,965,123
Excess of liabilities over assets June 30 1920, as shown by State Treasurer's books----------	$942,614

INTEREST on public building bonds is payable at State Treasurer's office or Sherman National Bank, New York; and on others at the State Treasury.

At the 1915 session of the Legislature the State Treasurer was authorized to issue on July 1 1915, to the Trustees of the Permanent School Fund, certificates of registered loans of this State to the amount of $234,900.34 redeemable in 1925 on which the interest must be 4% annually on July 1 to the Trustees of the Permanent School Fund. At the 1919 session of the Legislature the State Treasurer was authorized to issue bonds not to exceed $1,500,000 in amount, to be known as the Vermont State Loan of 1919, in denomination of $1,000 each, payable serially in equal amounts, the last payment to be not later than 30 years after date and bearing interest at not to exceed 4½%.

ASSESSED VALUATION AND TAX RATE.—In addition to the valuations below, the State received (1920) $824,257 02 as taxes on deposits in savings banks, national banks and trust companies which are taxed at the rate of 7-10 of 1%; also the State received $546,689 39 as taxes on the appraised value of railroad property, such property paying a tax of 1¼% on valuation.

Years—	*Assessed Valuation*—*Real.*	*Personal.*	*Total.*	*State tax per $1,000*
1920----------	$187,364,578	$74,736,570	$262,101,148	$40.00
1919----------	184,898,749	67,083,846	251,982,595	$40.00
1918----------	173,380,861	66,059,545	239,440,406	20.00
1917----------	172,324,762	61,154,885	233,479,647	20.00
1916----------	170,566,494	58,951,971	229,518,465	5.00
1915----------	168,918,137	62,653,740	231,571,877	None.
1914----------	160,092,892	---------	224,956,047	None.
1913----------	158,675,533	64,280,031	222,955,594	None.
1912----------	157,227,015	45,113,472	202,340,487	10.00
1910----------	143,386,564	45,106,982	188,493,546	None.
1905----------	127,993,677	59,838,143	187,831,820	None.
1900----------	118,547,454	40,881,676	159,429,130	$10.00
1898----------	116,141,979	58,621,654	174,763,633	5 00
1895----------	112,099,284	61,700,471	173,799,755	12.00
1890----------	112,895,125	65,157,388	178,052,513	- -

There was no direct tax for State purposes levied in any of the years from 1903 to 1911, both inclusive. A tax of $13 per $1,000, however, consisting of a State shool tax of $8 and a State highway tax of $5, was collected and re-distributed to towns on a basis of the number of schools and road mileage, the State, for the sake of equalizing its distribution, acting as agent in the matter. Prior to 1902 this tax was $10 per $1,000. The Legislature of 1915 increased the State school tax from $8 to $10, but this change did not take effect until the assessment of 1916. In 1912 the Legislature levied a direct tax of 10 cents on the dollar of the grand list ($10 per $1,000 of assessed value), one-half payable Nov. 10 1913, and one-half June 10 1914. The 1915 Legislature levided a direct tax of 5 cents on the dollar of the grand list for the year 1916. The 1917 Legislature provided for the levying of a tax of 20 cents on the dollar of the grand list for the years 1917 and 1918. The 1919 Legislature provided for the levying of a tax of 40 cents on the dollar of the grand list for the years 1919 and 1920. The 1921 Legislature provided for the levying of a tax of 20 cents on the dollar of the grand list for the year 1921 and a tax of 40 cents on the dollar for the year 1922.

GRAND LIST.—*How Constituted.*—Section 779 of the General Laws of Vermont 1917 reads: "One per cent of the appraised value of real estate taxable to a person shall be added to the list of his personal estate; and the sum so obtained, with the amount of his taxable poll, if any, shall constitute his grand list."

POPULATION OF STATE.—United States Census:

1920-----	352,428	1880-----	332,286	1840-----	291,948	1810-----	217,895
1910-----	355,956	1870-----	330,551	1830-----	280,652	1800-----	154,465
1900-----	343,641	1860-----	315,098	1820-----	235,981	1790-----	85,425
1890-----	332,422	1850-----	314,120				

DEBT LIMITATIONS.—There appears to be nothing in the constitution providing for a general limit to the debt-making power of municipalities. Whatever in each case the Legislature authorizes, the city, town, county or other civil division can issue.

In 1917 the Legislature enacted a law, which was approved on April 12 1917 repealing Chapter 157 of the Public Statutes, No. 84 of the Acts of 1908 and No. 126 of the Acts of 1912, in relation to the issuance of municipal bonds, and providing generally for the issuance of such bonds for any purpose if the proper formalities are complied with. We publish in part the text of the new law herewith; the full text will be found in V. 104, p. 2365 and 2366. The Legislature in 1919 amended Sec. 6 and Sec. 10 of this chapter, increasing the interest rate to 5% and limiting the period of advertising the sale. The new part is printed in italics.

MUNICIPAL BONDS.

Section 1. The term "municipal corporation" as used in this Act shall include a city, town, village, town school district, graded school district or other school district and a fire district and a lighting district organized under the laws of the State.

Sec. 2. The term "legislative branch" of a municipal corporation as used in this Act shall mean the mayor and board of aldermen of a city, the board of selectmen of a town, the trustees of a village, the board of school directors of a town school district, the trustees or prudential committee of a fire district.

Sec. 3. When the legislative branch of any municipal corporation at any regular meeting or at a special meeting called for that purpose shall by resolution passed by a vote of two-thirds of all its members determine that the public interest or necessity demands improvements, the cost of which will be too great to be paid out of the ordinary annual income and revenue, it may at any subsequent regular meeting of such legislative branch or at a special meeting called for that purpose, by a vote of two-thirds of all its members, order the submission of the proposition of making such public improvements, and of incurring a bonded debt to pay for the same, to the qualified voters of such municipal corporation at an election to be held for that purpose. The ordinance or warning calling such election shall state

the object and purpose for which the indebtedness is proposed to be incurred, estimated cost of the improvements, amount of bonds proposed to be issued therefor and the maximum rate of interest to be paid, and shall fix the place where and the date on which such election shall be held, the hours of opening and closing the polls, the manner of holding said election, the questions to be submitted, and the form of ballot to be used. * * *

Sec. 4. The clerk of the municipal corporation shall cause notice of such election to be published in a newspaper published in said municipal corporation once a week for three consecutive weeks on the same day of the week, the last publication to be not less than five days nor more than ten days before said election. If no newspaper is published in said municipal corporation, then publication shall be made in some newspaper published in this State that has general circulation in said municipal corporations. Notice of said election shall also be posted in five public places within said municipal corporation for the two weeks immediately preceding said election. If two-thirds of all the voters voting at said election shall vote to authorize said public improvements and the issuance of bonds to pay for the same, the legislative branch shall be authorize to make said public improvements and to issue bonds as hereinafter provided.

Sec. 5. Elections in municipal corporations under this Act shall be conducted in the same manner as the annual city and town meetings are conducted, and the qualifications of voters at such elections shall be the same as the qualifications of voters at annual city and town meetings.

Sec. 6. All bonds issued under this *Chapter* shall be of a denomination *of* not less than $100 nor more than $1,000, and shall draw interest at a rate not to exceed 5% per annum, payable semi-annually; *such* bonds shall be payable serially, the first payment to be deferred not later than from 1 to 5 years after the issuance of the bonds and subsequent payments to be continued annually in substantially equal amounts so that the entire debt will be paid in not more than 20 years from the date of issue.

Sec. 7. No municipal corporation shall incur an indebtedness for public improvements which with the previously contracted indebtedness, shall in the aggregate exceed ten times the amount of the last grand list of such municipal corporation.

Sec. 8. The legislative branch of any municipal corporation at any regular meeting, or at a special meeting called for that purpose, shall by ordinance or resolution determine the rate of interest for said bonds, the denomination of said bonds, the time and place of payment, the form of bond to be used, which shall be substantially as hereinafter provided, and whether said bonds shall be registered or have coupons attached. If bonds are to be registered, they shall be registered as provided by this Act.

Sec. 9. The legislative branch of said municipal corporation shall annually at the time of assessing the general tax levy, in addition to all other taxes, provide for the collection each year until such bonds are paid of a tax sufficient to pay the interest on such bonds and such part of the rdincipal as shall become due prior to the time the taxes are due in the next following year

Sec. 10. The bonds issued under this *Chapter* shall be sold to the highest bidder after being advertised once a week for three consecutive weeks on the same day of the week in a newspaper published in *such* municipal corporation, or if *a* newspaper is *not* published in *such* municipal corporation, then publication shall be made in some newspaper having general circulation in *such* municipal corporation; *the last publication to be not more than ten days, nor less than three days before the date of sale of the bonds. If the issue of bonds is to exceed the sum of* $25,000, one publication of *such* notice shall also be made in some newspaper published in this State having general circulation in the State and in some financial paper published in Boston, Massachusetts, or New York, New York; *such publication to be made not more than fifteen days nor less than five days before the date of the sale of the bonds.* The advertisement shall state the amount and denomination of the bonds, date of maturity, rate of interest, and the time and place where the bonds are to be sold. The legislative branch of any municipal corporation may reject any and all bids and in case all bids are so rejected they may advertise and call for new bids in the manner hereinbefore provided.

Sec. 11. Said bonds shall be signed by the mayor and treasurer of an incorporated city, by the selectmen or trustees, as the case may be, of a town or village, by the trustees or prudential committee as the case may be, of an incorporated school district or of a fire district, and by the board of school directors of a town school district, and the coupons to said bonds shall be signed by the treasurer or by his lithographic signature. If such municipal corporation has a corporate seal, such seal shall be affixed to said bonds, otherwise said bonds need not be sealed.

Sec. 12. In determining the amount of municipal indebtedness permitted by the preceding sections, obligations created for current expenses, for a water supply, or for electric lights, and temporary loans created in anticipation of the collection of taxes and necessary for meeting current expenses shall not be taken into account; provided that no such temporary loan shall be extended beyond the fiscal year for which it is made and shall not exceed in amount 90% of the amount of taxes levied for such year; and provided further that sinking funds and other moneys set aside for the sole purpose of paying outstanding bonds or other evidences of indebtedness permitted under the provisions of the preceding sections; nor shall the provisions of this and the preceding sections apply when the charter of a municipal corporation limits its indebtedness.

Sec. 13. [This section simply describes the form of bond to be issued under the Act.]

REFUNDING BONDS.

Sec. 14. A municipal corporation that has outstanding and unpaid orders, notes, bonds, or coupons, lawfully issued, may issue other negotiable notes or bonds to pay or retire the same.

Sec. 15. Such municipal corporation by its legislative branch, by resolution or ordinance, shall determine the necessity for issuing refunding bonds, the amount of legal outstanding indebtedness to be refunded, what amount of new notes or bonds shall be issued, at what time and place they shall be payable, the rate of interest thereon and when payable, the form of bond, which shall be substantially in the form provided in this Act, and whether the bonds shall be registered or have interest coupons attached. Such new notes or bonds shall not exceed in amount such outstanding obligations, nor shall they be used or sold except to provide means for paying or retiring said outstanding indebtedness.

Sec. 16. Such bonds shall be signed, sold, made payable, and mature in the same manner as an original issue of bonds of a municipal corporation are signed, sold, made payable, and mature, as provided in this Act.

Sec. 17. The treasurer of the municipal corporation shall keep a record of every note or bond issued under this Act, stating therein the number and denomination of each note or bond, when issued, and the rate of interest hereon, and shall also keep a record of payments of interest or principal, and, if coupons are taken up, shall record the fact and deface the same.

Sec. 18. When old notes or bonds are taken up, as provided in this Act, the treasurer of the municipal corporation shall keep a record of the same, and such old notes and bonds shall be canceled.

Sec. 19. All ordinances or resolutions required by this Act to be enacted by the legislative branch of a municipal corporation shall be duly recorded in the office of the clerk of said municipal corporation.

REGISTERED OBLIGATIONS.

Sec. 20. A municipal corporation, as herein defined, may issue registered bonds, and if an original issue of bonds by such municipal corporation is registered, they shall be registered as hereinafter provided.

Sec. 21. A municipal corporation may, at the written request, duly acknowledged, of the owner or holder of one or more bonds, promissory notes or certificates of indebtedness issued by it and payable to bearer or to a person or corporation named, or bearer, change such bonds, notes or certificates into registered obligations, payable only to the person or corporation whose name is properly endorsed thereon, as hereinafter provided.

Sec. 22. If it shall be determined by a municipal corporation to issue registered bonds, then and in that event the legislative branch of the municipal corporation shall direct the treasurer of such municipal corporation, as the case may be, to endorse upon the back of each of such bonds over his official signature a certificate of registration in substantially the form hereinafter provided, inserting in the appropriate places the date of such registration, the name and address of the registered holder, and his own signature as transfer agent, and thereafter such bond shall be transferable only upon the books of such municipality upon presentation to the treasurer thereof with a written assignment duly acknowledged or proved.

Sec. 23. In case a municipal corporation shall have issued coupon bonds and the owner or holder thereof has requested that said bonds be changed to registered bonds, as herein provided, then upon written request for such change, duly acknowledged, the treasurer of such a municipal corporation shall, if directed by the city council of the city, selectmen of the town, school directors of the town school district, or other corresponding officers of the municipal corporation of which he is such treasurer, as the case may be, cut off and destroy the coupons on the bonds presented for registration and endorse upon the back of each of such bonds over his official signature a certificate of registration in substantially the following form, inserting in the appropriate places the date of such registration, the name and address of the registered holder, and his own signature as transfer agent, and thereafter such bond shall be transferable only upon the books of such municipality upon presentation to the treasurer thereof with a written assignment duly acknowledged or proved.

Sec. 24. [This section shows the certificate of registration to be used where bonds are registered]

Sec. 25. The indorsement of such certificate of registration upon any bond, note or certificate by such treasurer shall be conclusive evidence that such treasurer was directed by the proper officers of the municipal corporation of which he was treasurer to convert such bond into a registered obligation.

Sec. 26. The treasurer of every such county or municipal corporation shall keep a register showing the number, date, amount, rate of interest, time when payable, and the name of the registered holder of the bonds, notes, and certificates originally registered or changed to registered obligations.

Sec. 27. Such conversion shall in no respect or degree weaken or impair the obligation of such municipal corporation to pay such bond, note or certificate so converted.

Sec. 28. Notes, bonds or orders issued as evidences of obligations for money loaned to a county, town, town school district, village or incorporated school or fire district of this State shall be deducted in determining the average amount of deposits and accumulations under the provisions of Section 1, of No. 35 of the Acts of 1910. Bonds or obligations given or created in excess of the limit authorized by this Act and contrary to its provisions shall be void.

Sec. 29. This Act shall not affect rights now allowed any municipa corporation by its charter provisions, nor any rights now or hereafter granted by special Act of the legislature.

EXEMPTION FROM TAXATION.—Subdivision XII. of Section 496 of the Public Statutes of 1906, as amended by Act 23 of the Laws of 1908, and Act 25 of the Laws of 1919, provides that the following municipal securities shall be tax-exempt:

XII. Notes, bonds or orders issued after Dec. 4 1912 as evidences of obligations for money loaned to the State, a county, town, town school district, village or incorporated school or fire district, at a rate of interest not exceeding 4% per annum, and notes, bonds or orders issued after March 1 1919 as evidences of obligations for money so loaned as aforesaid at a rate of interest not exceeding 5%; for the purpose of constructing, purchasing, or repairing water, sewer, or lighting systems, permanent highways, bridges, walks or public buildings, or for the purpose of refunding a debt contracted for any of the foregoing purposes.

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—Several amendatory Acts to the Laws of Vermont regarding the investments of savings institutions were passed by the Vermont Assembly of 1919. One of these permits investments in Farm Loan bonds issued by Federal Land banks; another authorizes investments in bankers' acceptances and bills of exchange under certain restrictions; another broadens the provisions concerning investments in the bonds of the United Kingdom of Great Britain and Ireland and the bonds of the Republic of France by removing the qualifying clause reading "provided they are secured by collateral deposited in this country and approved by the Bank Commissioner"; still another changes the provision for investment in this latter class of bonds [which are grouped under the designation (h)] and for investment in the bonds of the Dominion of Canada and the various Provinces of Canada [which are grouped under the designation (i)], so as to enlarge the limitations upon such investments which under the old law were expressed in the words "Banks may invest in bonds described in subdivisions (h) and (i) not to exceed thirty thousand dollars by any one bank, and in addition thereto one per cent of the deposits of such bank in excess of one million dollars," the new words used, and printed below, permitting greatly increased investments; a further amendment adds a provision at the end of subdivision (e) bearing upon the issue of county bonds, which says that bonds issued for building or improving roads shall not be legal unless they are payable serially, the entire issue payable in not to exceed twenty years, the principal and interest payable from a direct tax levied upon all of the taxable property within the county—not alone that, but only such portions of such bond issue are legal as fall due in not more than fifteen years from date of issue; finally, the status of the railroads during Federal operation is fixed by providing that railroad bonds, which were legal investments for savings banks at the time when the Government of the United States took over the operation of the roads issuing the bonds, shall not become illegal investments by reason of the operation of the roads by the Federal Government. Sub-div. VI was amended in 1921 (1) extending investment limit in bank stock from $35,000 to $50,000, and (2) permitting bank to deposit up to 4% of their assets on call in chartered banks of Canada.
All these amendments have been incorporated below, they now form part of Section 5363 of the General Laws of Vermont.

INVESTMENTS.

SECTION 5363.—Assets, may be invested how and in what, limitations. The assets of banks shall be invested as follows:

FIRST MORTGAGES ON REAL ESTATE.

I. (a) In first mortgages of unincumbered real estate, not to exceed in each case sixty per cent of the value of such real estate, if located in Vermont, and not to exceed fifty per cent of the value of such real estate if located elsewhere. Not less than a sixth of the amount of such mortgages shall be upon real estate in this State, treating mortgages made on lands in an adjoining State within twenty miles of the bank making such loan as Vermont mortgage loans, and not more than eighty per cent of the amount of the assets shall be invested in mortgages of real estate; provided that not exceeding sixty per cent of the amount of such assets may be invested in mortgages of real estate outside this State. An investment shall not be made on mortgages of real estate outside of Vermont which is unimproved and unproductive and the amount of such investments on mortgages in Vermont shall not be more than forty per cent of the value thereof. A bank shall not loan to any person, partnership, association or corporation upon real estate mortgage (treating loans to the individual members of a partnership as loans to the partnership) more than thirty thousand dollars, and in addition thereto one per cent of the deposits of such bank in excess of one million dollars. Provided, however, that upon the approval in writing of all the trustees of the bank who are physically able to act, a bank may increase a loan of thirty thousand dollars on Vermont real estate, as stated in this section, to one and one-half per cent of the deposits in excess of one million dollars. A mortgage investment shall not be made except upon the written approval of at least three trustees of the board of investment, who shall certify in writing, according to their best judgment, the value of the premises mortgaged or to be mortgaged. At the expiration of every mortgage loan made for a period of five years or more, such loan shall not be extended or renewed unless three members of the board of investment certify in writing the value, in their best judgment, of the mortgaged premises and unless such value meets the requirements above prescribed.

(b) When buildings are included in the valuation of real estate upon which an investment is made, they shall be insured by the mortgagor in such company as the trustees or board of investment direct, and the policies of insurance shall be duly assigned or the loss made payable to such bank, and such bank may renew such policies in the same or another company as said trustees or board of investment elect, from year to year, or for a longer or shorter period, if the mortgagor neglects so to do; and, when necessary, the treasurer may sign premium notes, and may charge the amount paid for such insurance to the mortgagor.

(c) When a bank takes an accruing mortgage, the only debt which shall be secured thereby or become a lien upon the property described therein shall be the debt described in the mortgage and existing at the time of its execution, and any subsequent direct indebtedness of the mortgagor to such bank; provided, that when the mortgage includes a homestead, the written consent of the wife of the mortgagor to the creation of such subsequent direct indebtedness shall be required.

MUNICIPAL BONDS.

II. (a) In the public funds of the United States or any of the States or the District of Columbia, or in public funds for the payment of principal and interest of which the faith of the United States is pledged.

(b) In the legally authorized bonds or notes of counties, cities, towns, villages, school districts and water districts of the New England States and of any municipal corporation in Vermont having the right to levy and collect taxes in payment of its indebtedness.

(c) In the legally authorized bonds or notes of towns, cities and school districts, having a population according to the last preceding United States or State census of at least one thousand in towns and cities, and five hundred in school districts, and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes, at the time of the investment in New York, Pennsylvania, Ohio, Michigan, Illinois, Indiana, Iowa, Wisconsin and Minnesota.

(d) In the legally authorized bonds or notes of towns, cities, and school districts having a population according to the last preceding United States or State census of at least four thousand and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes at the time of the investment in New Jersey, Kansas, Nebraska, North Dakota, South Dakota, Missouri, Oregon, Washington, California, Delaware, Montana, Wyoming, Idaho, Maryland and Utah;

(e) *County Bonds.*—In the legally authorized bonds of counties in any of the above mentioned States having a population according to the last preceding United States or State census of at least twenty thousand and an indebtedness not exceeding five per cent of the last preceding valuation for the assessment of taxes, at the time of the investment. To this there was added in 1919 the following: Bonds issued under this subdivision for building or improving roads, shall not be legal unless they are payable serially; the entire issue payable in not to exceed twenty years; the principal and interest payable from a direct tax levied upon all of the taxable property within the county, and only such portion of such bond issue shall be legal as will be due and payable in not more than fifteen years from date of issue.

(f) In the legally authorized bonds or notes of a city in any of the States above named having a population according to the last preceding United States or State census of at last twenty-five thousand and an indebtedness not exceeding five per cent, or a population of fifty thousand and an indebtedness not exceeding seven per cent of the last preceding valuation for the assessment of taxes, at the time of the investment.

(g) In the legally authorized bonds or notes of a city in any of the States above named having a population according to the last preceding United States or State census of at least one hundred thousand;

(h) *Foreign Bonds.*—In the bonds of the United Kingdom of Great Britain and Ireland, and the bonds of the Republic of France. [As amended in 1919.]

(i) In the bonds of the Dominion of Canada and the various Provinces of Canada.

In subdivisions (c) and (d) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year and the amount of any sinking funds available for the payment of such indebtedness; and in subdivisions (e) and (f) the word "indebtedness" shall mean the gross debt less debts created in anticipation of taxes to be paid within one year, the amount of any sinking funds available for the payment of such indebtedness and debts created for supplying the inhabitants of the municipality withwater.

Banks may invest in bonds described in subdivision (h) not to exceed thirty thousand dollars by any one bank, and in addition thereto two per cent of the deposits of such bank in excess of one million dollars; and in bonds described in subdivision (i) not to exceed thirty thousand dollars by any one bank, and in addition thereto five per cent of the deposits of such bank in excess of one million dollars; but nothing hereinbefore contained shall authorize investments in railroad aid bonds, except such as are issued by municipalities in the State of Vermont or in bonds which are not direct obligations of a municipality or in bonds of municipalities which have within twenty years repudiated or compromised the payment of any debt or defaulted for more than ninety days in the payment of any indebtedness, and the purchase of such securities is hereby prohibited. [As amended in 1919.]

PUBLIC SERVICE COMPANY BONDS.

III. For the purposes of this subdivision:

"Company" shall be construed as a corporation or voluntary association organized under the laws of the United States, or any State thereof, located in and doing business principally within the United States;

"A public service company" shall be construed as a company doing principally a gas, electric, light, electric power or electric railway business serving the public generally;

"Mortgaged bonds" shall be construed as bonds secured primarily by direct and foreclosurable lien upon physical property owned by the obligator in fee;

"Years" shall be construed as calendar years; fiscal years or nearer periods of twelve months next preceding such investment;

"Net income" shall be construed as income after deducting operating expenses, taxes, insurance, rentals, guaranteed interest and guaranteed dividends, and expenditures for maintenance; and

"Annual interest" shall be construed as interest actually paid in each year, except that for the latest year, which shall be construed as one year's interest on the total amount outstanding at the time of the investment.

Not exceeding twenty-five per cent of the deposits of a bank shall be invested in securities authorized under this subdivision and not exceeding two and one-half per cent of such deposits shall be invested in the securities of any one company, if such percentage be in excess of five thousand dollars.

No investment shall be made in the securities authorized under this subdivision of a company or a public service company which is in default on any of its debt, or in the hands of a receiver.

No investment shall be made in the securities authorized under this subdivision unless the net income of the company or public service company in question in each of the three years next preceding such investment shall have been not less than one and one-quarter times the annual interest on the entire funded debt, rentals, guaranteed interest, guaranteed dividends and all fixed charges, and for the purpose of this paragraph "net income" shall be construed as income after deducting operating expenses, taxes, insurance and expenditures for maintenance.

Subject to the foregoing, investments may be made as follows:

In first mortgage bonds and first and refunding mortgage bonds issued or assumed by public service companies and in mortgage bonds of the companies controlled by such public service companies; for the refunding of which mortgage bonds of such companies are specifically reserved, provided that in each of the three years next preceding such investment the net income shall have been either (a) not less than five hundred thousand dollars and not less than one and three-quarters times the annual interest on the bonds in question and all other obligations of corresponding or prior liens, or (b) not less than one hundred fifty thousand dollars and not less than twice the annual interest on the bonds in question and all other obligations of corresponding or prior lien; provided that such bonds are in fact secured either by first lien on the major portion of the mortgaged premises, or by a first and refunding mortgage, or by a lien for the refunding of which bonds which are legal are specifically reserved; and provided that the principal franchise or franchises of such companies extend beyond the maturity of the bonds in question or that such companies operated under indeterminate franchises or permits subject to the regulatory supervision of a State commission of competent jurisdiction, or that in the case of electric railways not less than seventy-five per cent of the mileage owned is located on private right of way owned in fee.

TELEPHONE COMPANIES' BONDS.

IV. (a) In the bonds of telephone companies located in the United States, when such bonds are in fact secured by a first mortgage or a first and refunding mortgage, whether or not the bonds are so designated in their title;

(b) Provided: That gross earnings of any such company shall have been at least one million dollars for each of the last three fiscal years next preceding such investment, and provided further that gross earnings for the fiscal year next preceding such investment shall have been at least forty per cent of the total mortgage debt outstanding at the end of such fiscal year; and

(c) Provided: That net earnings for each of the said last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have been at least two and one-half times the annual interest charge on the entire mortgage debt outstanding at the end of each of the said last three fiscal years next preceding such investment; and provided further that in case additional bonds are issued under the above mentioned mortgages during an incompleted fiscal year, net earnings, as provided above, for the last available twelve months next preceding such investment shall have been at least two and one-half times the interest on all mortgage debt outstanding, including such additional bonds issued.

In the case of the consolidation by a merger of two or more such companies the first mortgage and the first and refunding mortgage bonds of the consolidated company and of the separate companies that composed the consolidated company, when such bonds are secured as provided in subdivision (a), shall be legal investments provided that the combined earnings of the separate companies shall have complied with the requirements in respect to gross earnings in subdivision (b), and provided that the combined net earnings of the separate companies shall have complied with the requirements of subdivision (c).

(d) In the bonds of telephone companies located in the United States, when such bonds are secured by the deposit of collateral having a market value of at least twenty-five per cent in excess of the par value of such bonds; and

(e) Provided: That gross earnings of any such company shall have been at least forty million dollars for each of the last three fiscal years next preceding such investment; and

(f) Provided: That net earnings for each of the said last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have been at least three times the annual interest charge on the entire funded debt outstanding at the end of each of the last three fiscal years next preceding such investment, and provided further that in case additional bonds are issued during an incompleted fiscal year, net earnings as provided above for the last available twelve months next preceding such investments shall have been at least three times the interest on all funded debt outstanding, including such additional bonds issued.

(g) In the bonds of telephone companies doing a general telephone business in this State.

(h) Provided: That gross earnings of any such company shall have been at least fifteen million dollars for each of the last three fiscal years next preceding such investment; and

(i) Provided: That net earnings for each of the said last three fiscal years, after deducting all operating expenses, maintenance and depreciation charges, rentals and taxes, shall have been at least three times the annual interest charge on the entire funded debt outstanding at the end of each of the last three fiscal years next preceding such investment, and provided further that in case additional bonds are issued during an incompleted fiscal year net earnings, as provided above, for the last available twelve months next preceding such investment shall have been at least three times the interest on all funded debt outstanding, including such additional bonds issued.

(j) Provided: That no investment shall be made in the bonds of any such company mentioned in this section, which is in default on any of its debt or which is in the hands of a receiver.

But not more than ten per cent of the deposits shall be so invested.

BONDS OF VERMONT AND NEW ENGLAND RAILROADS.

V. (a) In the notes or bonds of a railroad corporation incorporated under the laws of Vermont, irrespective of the length of such road or the motive power thereof, when issued in accordance with the laws of this State and in compliance with the provisions hereinafter set forth relating to bonds of New England railroads.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of whose is located in said States whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; provided, either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation, or by a refunding mortgage as described in paragraphs (3) or (4) of sub-division (g) or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States, which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment and franchise, or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued, and all its pre-existing debts and liabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation; and provided, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment;

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraph (3) or (4) of sub-division (g) of a railroad corporation incorporated in any of the New England States the railroad of whose is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in sub-divisions (a) or (b) which is in possession of and is operating its own road;

(d) No bond shall be made a legal investment by sub-division (b) unless the corporation which issued or assumed such bond has, during its fiscal year next preceding the date of such investment paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct and assumed funded indebtedness.

No bond shall be made a legal investment by sub-division (c) unless the corporation which guaranteed such bond has, during its fiscal year next preceding such investment, paid in dividends on its capital stock an amount equal to a third of the total amount of interest paid on all its direct, assumed and guaranteed funded indebtedness.

No bond shall be made a legal investment by sub-division (b) or (c) unless the corporation owns in fee not less than 100 miles of standard-gauge railroad (exclusive of sidings) within the United States.

BONDS OF OTHER RAILROADS.

(e) *Description of Corporation.* In the mortgage bonds, as described in any of the following subdivisions of this clause, of any railroad corporation incorporated under the laws of any of the United States;

Provided, that during each of the ten fiscal years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than 500 miles of standard-gauge railroad, exclusive of sidings, within the United States, or, if such corporation owned in fee less than 500 miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than $15,000,000;

(2) Such railroad corporation shall have paid the matured principal and interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid in dividends in cash to its stockholders an amount equal to at least 4% upon all its outstanding capital stock;

(4) The gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines and the interest on all the outstanding indebtedness of railroads, controlled and operated, which is not owned by said corporation, after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by such corporation, which have been deposited with a trustee as the only security to secure the payment of bonds or notes issued by such corporation, but not in excess of the interest on such last-named bonds or notes;

And further *provided*, that—

(5) No bonds shall be made a legal investment by sub-division (g) in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior mortgages or of its assumed prior mortgages, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provision of said mortgage to retire prior lien debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment;

(6) A bond shall not be made a legal investment by subdivision (i) or (j) in case the mortgage securing the same shall authorize a total issue of bonds which, added to the total debt of the guaranteeing corporation as defined in paragraph 5, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of such guaranteeing corporation outstanding at the date of such investment; nor in case at such date the total debt of the corporation which issued such bonds shall exceed three times its outstanding capital stock;

In the case of a mortgage executed prior to the twenty-seventh day of January nineteen hundred and eleven, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph 5 and of this paragraph, as the total authorized issue.

(f) *Definition of first mortgage.* Whenever the term "first mortgage" is used in the following sub-divisions, it shall, unless otherwise qualified, mean, a first mortgage on not less than 75% of the railroad owned in fee at the

date of the mortgage by the railroad corporation on the railroad of which such mortgage is a lien, but in no case on less than 100 continuous miles of standard-gauge railroad, exclusive of sidings; *provided* that:

(1) Seventy-five per cent of the railroad subject to the lien of such mortgage is connected;

(2) For five years prior to the date of investment therein all the railroad subject to the lien of such mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees such bonds; and

(3) The date of such mortgage is at least five years prior to the date of such investment; except that a first mortgage given in substitution for and not greater in amount than such a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

(g) *Direct Obligations.* In bonds issued or assumed by a railroad corporation described in sub-division (e) which are secured by a mortgage which was at the date thereof, or is at the date of such investment:

(1) A first mortgage on a railroad owned in fee by the corporation issuing or assuming such bonds except that, if it is not a first mortgage on 75% of all such railroad owned in feeby such corporation, it shall be a first mortgage on at least 75% of the railroad subject to the lien of such mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of such mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by such mortgage shall not become legal investments unless such corporation owns in fee at least 75% of the total mileage which is subject to the lien of such mortgage and which is represented or covered by such stocks or bonds;

(2) A first mortgage, or a mortgage or trust indenture, which is in effect a first mortgage upon all the railroad subject to the lien of such mortgage or trust indenture by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming such bonds;

(3) A refunding mortgage which covers at least 75% of the railroad owned in fee by such corporation at the date of such mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon such railroad owned in fee and covered by such refunding mortgage at the date thereof; but if any of the bonds which such refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing such refunding mortgage, there shall be conveyed and assigned to the trustee of such refunding mortgage either—

First. At least 75% of the railroad on which each issue of bonds to be refunded is secured, free from any mortgage lien except that of the mortgage mortgages securing the bonds to be refunded, or

Second. At least 75% of the outstanding bonds of each issue which is secured by a mortgage lien upon such railroad; and all of such railroad not owned in fee which is so subjected to the lien of such refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said refunding mortgage bonds; but in no case shall the bonds secured by such refunding mortgage become a legal investment unless they mature at a later date than any bonds which such refunding mortgage is given to refund, nor unless the total mileage subjected to the lien of such refunding mortgage in accordance with the requirements of this paragraph is at least 25% greater than the mileage covered by any one of the mortgages securing bonds which such refunding mortgage is given to refund; or

(4) A mortgage upon not less than 10% of the railroad exclusive of sidings, owned in fee at the date of such mortgage by the corporation issuing or assuming such bonds, but in no case on less than 500 continuous miles of standard-gauge railroad; *provided*, that:

First. Such mortgage is a first or second lien upon not less than 75% of the total railroad covered by such mortgage at the date thereof, and which provides for the retirement of all mortgage debts which are a prior lien upon such railroad owned in fee and covered by such mortgage, at the date of the execution thereof;

Second. The bonds secured by such mortgage mature at a later date than, and cover a mileage at least 25% greater than is covered by, any of the bonds secured by a prior lien mortgage so to be retired; and

Third. The date of said mortgage shall be at least five years prior to the date of such investment.

(h) *Bonds underlying refunding mortgages.* Mortgage bonds or bonds secured by mortgage bonds which are a direct obligation of, or which have been assumed, or which have been guaranteed by endorsement as to both principal and interest, by a railroad corporation whose refunding mortgage bonds are made a legal investment under paragraphs (3) or (4) of sub-division (g); *provided*, that:

(1) Said bonds are prior to and are to be refunded by such refunding mortgage;

(2) Said refunding mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien; and

(3) In the case of bonds so guaranteed or assumed, the corporation issuing said bonds is owned and operated, controlled and operated or leased and operated, by said railroad corporation.

(i) *Guaranteed obligations.* Bonds which have been guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the provisions of sub-division (e); *provided*, that:

(1) Such bonds are secured by a first mortgage on the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation guaranteeing such bonds.

(2) In the case of a leased railroad, the entire capital stock of which, except shares qualifying directors, is not owned by the lessee, the rental includes an amount to be paid to the stockholders of said leased railroad equal to at least 4% per annum upon that portion of the entire capital stock thereof outstanding which is not owned by the lessee.

(j) *Same.* In first mortgage bonds of a railroad corporation which during each of its ten fiscal years next preceding the date of such investment has complied with all the requirements of paragraphs (2), (3) and (4) of sub-division (e), *provided* that such bonds are guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the requirements of sub-division (e) preceding paragraph (5) thereof, notwithstanding that the railroad of such issuing corporation is not operated by such guaranteeing corporation.

CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURBANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive fiscal years to comply with the requirements of paragraph (4) of sub-division (e); but no further investment in the bonds issued, assumed or guaranteed by such corporation shall be made during such period. If, after the expiration of such period, such corporation complies for the following fiscal year with all the requirements of sub-division (e), it shall be regarded as having complied therewith during such period.

BONDS NOT ILLEGAL ON ACCOUNT OF CONSOLIDATION.

(l) Bonds which have been or shall become legal investments under anof the provisions of this Act shall not be rendered illegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed such bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of such bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for, or to acquire the stock of, the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase of such corporation which issued or assumed such bonds.

CREDIT OF CORPORATION NOT LOST BY CONSOLIDATION.

(m) If a railroad corporation which has complied with all the requirements of sub-division (e) preceding paragraph (5) thereof, except that the period of compliance is less than ten, but not less than five successive years, shall be or shall have been, thereupon consolidated or merged with, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having complied with all the provisions of sub-division (e) preceding paragraph (5) during those successive years next preceding the date of such consolidation, merger or purchase, in which all such consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so complied; *provided*, that such succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following such consolidation, merger or purchase.

STATUS FIXED DURING FEDERAL OPERATION OF RAILROADS

[Added in 1919.]

(n) Railroad bonds which were legal investments for savings banks at the time when the Government of the United States, under the Act of Congress, approved Mar. 21 1918, took over the operation of the railroads issuing such bonds, shall not become illegal investments by reason of the operation of the railroads by the Federal Government. The time during which any such railroad is operated by the Federal Government shall be excluded, including the year in which the Government operation ends, in determining the compliance of any such railroad with the provisions of this section; provided, however, that in case a railroad corporation the mortgage bonds of which would become legal for investment under subdivision (e) of part V of this section upon its compliance with the requirements of said subdivision shall have complied with the requirements of said subdivision during the ten years or more next preceding Jan. 1 1918, such railroad corporation shall be deemed to have complied with the requirements of said subdivision during the period of the Government operation of its railroad, including the year in which such Government operation ends, in computing the time of compliance with the requirements of said subdivision.

BANK STOCKS AND DEPOSITS IN BANKS.

VI. (a) In the stock of any national bank in the New England States and the State of New York; or in the stock of any banking association or trust company incorporated under the authority of and located in this State; but a bank shall not hold bank stock both by way of investment and as security for loans in excess of 10% of its deposits, nor, in any one bank, more than 5% of its deposits, or more than $50,000, or more than 10% of the capital stock of any one bank.

(b) A bank may deposit on call in banking associations or trust companies, approved by the Bank Commissioner of this State, and under the supervision of the State or Federal authority, in this State or in the cities of New York, Boston, Chicago, Albany, Philadelphia or Concord, New Hampshire, or in any other bank designated as a depository under the laws of the United States or in national banks in the cities of St. Paul, Minneapolis and Kansas City, or in the chartered banks of the Dominion of Canada, with or without interest as may be agreed upon, sums not exceeding in the aggregate 20% of the assets of such depositing banks; but at no time shall the deposits in Canadian banks exceed 4% of the assets of such depositing bank.

LOANS ON PERSONAL SECURITY, INCLUDING COLLATERAL LOANS.

VII. In loans or renewals of loans of the class hereinafter described, payable and to be paid or renewed at a time not exceeding one year from the date thereof; but not more than a third of the assets of a bank shall be so invested, nor shall a bank loan to a person, partnership, association or corporation upon personal security (treating loans to the individual members of a partnership as loans to the partnership), more than ten thousand dollars until a bank's deposits amount to one million dollars, after which the sums so loaned may be increased one per cent of the deposits in excess of one million dollars up to, but not exceeding fifty thousand dollars, or (in cases where ten per cent of the capital and surplus exceeds fifty thousand dollars) up to, but not exceeding, ten per cent of the capital, if any, and surplus; but this limitation shall not apply to the purchase of municipal or railroad bonds, or to notes with such bonds as collateral.

(a) A note bearing as makers, sureties, or indorsers, the signature of at least two approved names of residents of this State, or of persons who reside within fifty miles of the bank making the loan;

(b) A note or accepted draft given by individuals, firms, or corporations residing without this State, for goods manufactured within this State and payable to individuals, firms or corporations located within this State and indorsed by at least one responsible citizen of this State;

(c) A note of a corporation incorporated under the laws of this State, with one or more substantial sureties resident in this State, or approved collateral at not more than eighty per cent of its market value;

(d) A note of a responsible borrower with a pledge as collateral, in such form as the bank commissioner shall approve, of;

(1) One or more first mortgages of real estate such as might be lawfully purchased by a bank, as in cases of mortgages bought by the bank, provided the amount of such note is not in excess of the amount which the bank might loan on a note secured by mortgage on said land; or

(2) Municipal bonds in which the bank might legally invest, at not more than ninety per cent of their market value; railroad bonds in which the bank might legally invest, at not more than eighty per cent of their market value; and bank stocks in which the bank might legally invest, at not more than eighty per cent of their market value; or

(3) Deposit books or certificates of deposit of depositors in banks of this State, including national banks, at their full value, and in banks of any of the New England States and of New York, under State or Federal supervision, at not more than ninety per cent of the amount of deposits therein shown, provided written notice of such assignments has been given to the bank carrying the deposit; or

(4) Acceptances based on exports, imports or domestic commercial transactions, when the accepting bank is one that the law permits an account with, and when such acceptances are drawn for not longer than ninety days; or

(5) Other collateral approved by the directors and bank commissioner, at not more than eighty per cent of its market value, which shall be maintained during the life of the note;

(e) Commercial paper indorsed by banks in which the law allows deposits on call to be made, to mature in not more than ninety days, the aggregate amount of such paper in any one bank not to exceed the capital of a trust company, and in the case of a savings bank not to exceed the amount of the surplus which is in excess of five per cent of the deposits and other liabilities except surplus; and a bank to which commercial paper is pledged as collateral security shall forthwith notify the maker and indorsers of such paper that it has been so pledged;

(f) A note of a responsible borrower; provided, however, that the aggregate amount of such loans shall not exceed the average amount of the commercial deposits of a trust company for the six months next preceding, or exceed fifty per cent of the surplus of a mutual savings bank or exceed the capital and surplus of trust companies having no commercial deposits.

BANK BUILDING.

VIII. Five per cent of the deposits of a bank may be invested in the purchase of a suitable building for the convenient transaction of its business, or a site therefor and the erection or repairs of a building thereon, from portions of which not required for its use a revenue may be derived.

REAL ESTATE TAKEN BY FORECLOSURE.

IX. A bank may hold real estate acquired by the foreclosure of a mortgage thereon, owned by or pledged to such corporation, or by purchase at sales made under the provisions of such mortgage, or upon judgment for debts due, or in settlements effected to secure such debts; and such real estate shall be sold by such corporation as soon as a reasonable price can be obtained therefor and within five years after the same is vested in such corporation, except when a majority of the trustees of such corporation shall make application in writing to the Bank Commissioner, stating that, in their opinion, the interests of such corporation require that such real estate be held for a longer period than five years; in which event said Commissioner may extend the time of holding such real estate not to exceed five years.

SECURITIES ACQUIRED IN SETTLEMENT OF INDEBTEDNESS.

X. A bank may hold stocks, bonds, notes or other securities not the subject of legal investment acquired in settlements effected to secure or adjust loans; but unless the length of time such securities may be held is extended, as provided in the preceding clause, they shall be sold within five years after being acquired.

XI. *Farm Loan Bonds.*—In Farm Loan bonds issued by Federal Land banks in accordance with the provisions of an Act of Congress approved July 17 1916, known as "The Federal Farm Loan Act." Approved Feb. 27 1919.

XII. *Bankers' Acceptances; Bills of Exchange; Notes.* A bank may invest in bankers' acceptances and bills of exchange, provided the same are accepted by an incorporated savings bank or a savings bank and trust company, or a national bank doing business in this State, or by a bank incorporated in Boston, New York, or Philadelphia, to an amount not to exceed 20% of its deposits; and a bank may invest in notes endorsed or guaranteed by any of the above named banks to an amount not to exceed 20% of its deposits. Approved April 8 1919.

LIST OF RAILROAD BONDS PREPARED.

Section 5364. *By Bank Commissioner.*—Not later than the first of March in each year, the Bank Commissioner shall prepare a list of the railroad securities which are then legal investment for banks, which list shall at all times be open to public inspection, and shall send a copy thereof to every bank coming within his jurisdiction.

The latest list of railroad bonds which are considered legal investments for savings banks was issued by the Bank Commissioner on March 1 1921. This list appears in the "Chronicle" of June 25 1921.

(See V. 110, p. 1555, for maturity.)

* Nominal or contingent debt except "parks," of which $3,239,593 is a direct State obligation. Two-thirds ($360,000) of the Court-house loans is contingent debt. See below.

PUBLIC SALES OF BONDS.—A bill passed the Legislature in 1904 directing the Treasurer to advertise all future sales of State bonds instead of disposing of them at private sale, as had been the previous practice. (V. 78, p. 1565.)

INTEREST is payable at State Treasury in Boston.

TOTAL DEBT, SINKING FUNDS, &C.—

	Dec. 1 1920.	*Dec.* 1 1919.	*Dec.* 1 1918.	*Dec.* 1 1917.
Total funded debt	$143,150,661	$138,637,390	$129,371,162	$131,151,912
Sinking funds, &c	50,914,469	47,078,544	44,311,256	43,167,819
Net debt	$92,236,192	$91,558,846	$85,059,906	$87,984,093

The above debt is of two classes: the Direct Debt, for the payment of which the Commonwealth is directly and entirely responsible; and the Nominal or Contingent Debt, for which the Commonwealth has loaned its credit to sundry cities and towns for various purposes, the payment of which is guaranteed by sinking funds (sufficient to pay the debt at maturity) provided by a direct annual tax on the cities and towns for which the debt has been incurred. On Dec. 1 1920 these classes and the sinking funds applicable thereto were as follows:

	Direct Debt.	*Contingent Debt.*	*Grand Total.*
Bonded debt	$57,547,593	$85,603,068	$143,150,661
Sinking funds	22,419,354	28,495,115	50,914,469
Net debt	$35,128,239	$57,107,953	$92,236,192

ASSESSED VALUATION.—The State's assessed valuation follows:

Years—	*Real Estate.*	*Personal Property.*	*Total.*
1920	$4,368,363,457	$975,790,200	$5,344,153,657
1919	3,979,836,078	919,024,221	4,898,860,299
1918	3,885,495,341	853,481,248	4,738,976,589
1917	3,808,405,899	730,592,172	4,538,998,071
1916	3,686,483,258	1,275,754,750	4,962,238,008
1915	3,573,681,970	2,500,599,981	6,074,281,951
1914	3,467,560,721	2,537,852,080	6,005,412,801
1912	3,216,714,460	2,262,565,233	5,479,279,693
1910	2,977,075,471	2,050,079,335	5,027,154,806
1905	2,600,445,146	1,621,835,908	4,222,281,054
1900	2,315,687,381	1,562,983,689	3,878,671,070
1890	1,600,137,807	1,013,077,330	2,613,215,137
1880	1,111,160,072	816,695,358	1,927,855,430

Under the provisions of the Income Tax Law, which became effective in 1917, the intangible personal property is no longer taxable by local board of assessors, which accounts for the decrease in valuation of the assessed personal property in 1917 and thereafter.

The larger portion of the State's revenue is derived from corporations, national bank stocks, savings bank and inheritance taxes. In 1920 the tax assessed aggregated $30,981,897 47, of which $13,507,181 85 accrued to the Commonwealth and the balance is apportioned to cities and towns. Of the total of $30,981,897 47, $202,8 2 52 was assessed upon street railway companies, $2,072,482 22 upon other public service corporations, $13,288,-464 23 upon domestic business corporations, $1,932,033 62 savings banks, $2,843,604 10 national banks and $1,854,722 96 inheritances.

POPULATION OF STATE.—

DEBT LIMITATIONS.—The only provision in the constitution of Massachusetts limiting the power of the Legislature to create State indebtedness is contained in a constitutional amendment adopted in Nov. 1918, the text of which follows:

Sec. 1. The credit of the Commonwealth shall not in any manner be given or loaned to or in aid of any individual, or of any private association, or of any corporation which is privately owned and managed.

Sec. 2. The Commonwealth may borrow money to repel invasion, suppress insurrection, defend the Commonwealth or to assist the United States in case of war, and may also borrow money in anticipation of receipts from taxes or other sources, such loan to be paid out of the revenue of the year in which it is created.

Sec. 3. In addition to the loans which may be contracted as before provided, the Commonwealth may borrow money only by a vote, taken by the yeas and nays, of two-thirds of each House of the General Court present and voting thereon. The Governor shall recommend to the General Court the term for which any loan shall be contracted.

Sec. 4. Borrowed money shall not be expended for any other purpose than that for which it was borrowed or for the reduction or discharge of the principal of the loan.

There appears to be no constitutional limit upon municipal indebtedness. Statutes general and special have, however, been passed on this subject with respect to cities and towns.

The latest legislation regarding the matter is known as Chapter 719 of the Laws of 1913, approved May 26 1913. The limit of indebtedness for cities and towns (*excepting Boston*) is fixed by Sections 6 and 12 of this law. These sections follow:

Section 6. Cities and towns may incur debt, *outside* the limit of indebtedness prescribed in this Act, for the following purposes and payable within the periods hereinafter specified:

(1) For temporary loans under the provisions of Sec. 3, 4 or 9, one year.

(2) For establishing or purchasing a system for supplying the inhabitants of a city or town with water, or for the purchase of land for the protection of a water system, or for acquiring water rights, 30 years.

(3) For the extension of water mains and for water departmental equipment, 5 years.

(4) For establishing, purchasing, extending or enlarging a gas or electric lighting plant within the limits of a city or town, 20 years; but the indebtedness so incurred shall be limited to an amount not exceeding in a town 5% and in a city 2½% of the last preceding assessed valuation of such town or city.

(5) For acquiring land for the purposes of a public playground, as specified in Section 19 of Chapter 28 of the Revised Laws and amendments thereof, 30 years; but the indebtedness so incurred shall be limited to an amount not exceeding ½ of 1% of the last preceding assessed valuation of the city or town.

Debts for all of the purposes mentioned in this section shall be payable within the periods above specified from the date of the first issue of bonds or notes on account thereof, and may be incurred in accordance with the provisions of existing law, except in so far as the same are inconsistent

with the provisions of this Act. All other debts hereafter incurred by a city or town shall be reckoned in determining its limit of indebtedness, and debts authorized under the provisions of this section, except for temporary loans, may be incurred only by a vote of two-thirds of the voters present and voting, or of two-thirds of all the members of a city council or other governing body, taken by yeas and nays, and subject to the approval of the mayor, if such approval is required by the charter of the city.

Section 12. Except as otherwise authorized by Section 6 of this Act or by Chapter 634 of the Acts of the year 1913, a city shall not authorize indebtedness to an amount exceeding 2½%, and a town shall not authorize indebtedness to an amount exceeding 3%, on the average of the assessors' valuations of the taxable property for the three preceding calendar years the valuations being first reduced by the amount of all abatements allowed thereon previous to the last day of December of the preceding calendar year.

Chapter 634 of the Laws of 1913, referred to above, provides for the payment of outstanding demand notes and the restoration of trust funds. Cities and towns which have demand notes outstanding or which have expended town or trust funds for general expenses, were required to raise in the tax levy of 1914 an amount necessary to redeem the notes and restore the funds, or if to do this would impose too great a burden, they could borrow for the purpose for a period not to exceed 15 years.

Section 5 of Chapter 719 specifies for just what purposes debts may be incurred within the limit fixed by Section 12, and states also for what periods such debt shall run. Sections 3, 4 and 9 authorize the issuance of temporary loans, payable in not more than one year from date, in anticipation of the sale of bonds or notes already voted, in anticipation of the revenue of the financial year, for the payment of any land damages or expenses of altering grade crossings or any proportion of expense of constructing a highway in anticipation of reimbursement by the Commonwealth. Section 8 *prohibits the sale of bonds, notes or certificates of indebtedness at less than par.* However, under Section 10 temporary loans issued under Sections 3, 4 and 9 may be negotiated at a discount. Section 13 prohibits the creation of further sinking funds, but such funds established prior to the passage of the Act must be continued until the debt for which they were established has matured. Hereafter notes shall not be made payable on demand (Section 14) and the payment of all debt, except that incurred under Sections 3, 4 and 9, must be made by such annual installments as will extinguish the same at maturity.

Section 1 distinctly *excepts Boston* from the general provisions of the Act in the following words: "Section 1. The provisions of this Act shall not, except as is hereinafter specified, apply to the city of Boston, but said city shall remain subject to the provisions of all general and special laws applicable to it." The specific reference to Boston is in Sect. 18, which follows:

"Section 18. Sections 53 of Part 1 of Chapter 490 of the Acts of 1909, as amended by Chapter 521 of the Acts of 1910, is hereby further amended by striking out the said section and inserting in place thereof the following—

Section 53. The taxes assessed in the city of Boston on property, exclusive of the State tax and other amounts assessed upon the city by the Commonwealth, the county tax and sums required by law to be raised on account of the city debt, shall not in any year exceed $10 55 on every $1,000 of the average of the assessors' valuation of the taxable property therein for the preceding three years, such valuation being first reduced by the amount of all abatements allowed thereon previous to Dec. 31 in the year preceding said assessment. Any order or appropriation requiring a larger assessment than is herein limited shall be void."

Sections 13 and 14 relating to sinking funds and the payment of future loans took effect upon the passage of the Act. The other sections referred to above became effective Jan. 1 1914. We have room here to give only this brief outline of Chapter 719. The law in full will be found in the "Chronicle" of Aug. 23 1913, pages 486 to 488 inclusive.

EXEMPTION FROM TAXATION.—Clause 15, Sec. 5, Part I, Chapter 490, of the Acts of 1909, provides that the following securities shall be exempt from taxation: "Bonds or certificates of indebtedness of the Commonwealth issued since the first day of January in the year 1906, and bonds, notes and certificates of indebtedness of any county, fire district, water supply district, city or town in the Commonwealth which may be issued on or after the first day of May in the year 1908, stating on their face that they are exempt from taxation in Massachusetts."

The 1917 Legislature passed an Act (Chapter 257, Laws of 1917) exempting from taxation savings deposits when invested in bonds or certificates of indebtedness of the United States. The Act in full follows: "Deposits in savings banks, including such savings banks as are called institutions for savings, deposits in the savings departments of trust companies, and also deposits in the Massachusetts Hospital Life Insurance Company, shall be exempt from taxation when invested in bonds or certificates of indebtedness of the United States of America."

TAXATION OF MORTGAGES.—Chapter 761, Laws of 1914, given in full in the "Chronicle" of July 18 1914, page 212, provides that a bond secured by mortgage on tangible property located within or without the Commonwealth which is subject to taxation wherever located, and which is there actually taxed, shall be exempt from taxation within the Commonwealth of Massachusetts upon registration of the same with the Tax Commissioner and upon the payment to him of a fee of $3 per $1,000 annually.

INCOME TAX.—The 1916 Legislature passed a bill (Chapter 269, Laws of 1916) providing for a tax on incomes in accordance with a constitutional amendment adopted in Nov. 1915. See "State and City" Department" of "Chronicle" for June 3 1916. The law has been declared constitutional by the State Supreme Court. V. 104, p. 2664. In 1920 the Legislature passed five amendments to the law. V. 111, p. 408.

SAVINGS BANK INVESTMENTS—POWER AND RESTRICTIONS.—Investment by savings banks in Massachusetts is governed by Chap. 590 of the Acts of 1908, referred to in V. 87, p. 257, and in an editorial article on pages 5 and 6 of the "State and City Supplement" for May 29 1909. The law was further amended in 1909 and 1912 (see "Chronicle" of May 25 1912, "State and City Department"), Clause "Fourteenth" was added in 1913, the last two paragraphs of the section relating to street railways was added in 1915, and in 1918 the Legislature authorized savings banks and savings departments of trust companies in Massachusetts to invest in Farm Loan bonds issued by Federal Land banks, and also the investment by savings banks in bankers' acceptances and bills of exchange. In 1919 a law was passed providing that railroad bonds, which were legal investments for savings banks at the time when the U. S. Government took over the operation of the roads issuing such bonds, shall not become illegal investments by reason of the operation of the roads by the Government. In 1920 a law was passed extending this provision for a period of two more years. The law at present reads as follows:

SECTION 68. Deposits and the income derived therefrom shall b. invested only as follows:
